The Associate of Science Degree in Biology prepares students who are intending to transfer to a four-year institution in the biological sciences. This degree provides for the completion of general lower-division coursework associated with the requirements for a bachelor degree in biology, biochemistry, botany, ecology, forestry, zoology, microbiology, medicine, etc. The degree is specifically designed for students intending to transfer to a CSU or UC campus. Students completing the degree will take specific courses in chemistry, biology, physics and mathematics in addition to a general education preparation such as the CSU general education plan or IGETC.

To acquire the **Associate of Science Degree in Biology**, it is necessary to complete the graduation requirements of the College along with the following courses:

NOTE: Students interested in transferring as Biology major should consult with a counselor for appropriate general education & major preparation counseling.
