**BUSINESS—MANAGEMENT, CONTINUED**

**MGMT 141**

**INTERNATIONAL MARKETING**

3 Units/Advisory: ENGL 035 or ESL 198 or appropriate assessment; READ 023 or appropriate assessment.

Transfer to CSU

This course is designed to provide student with an in-depth study of international marketing. International market opportunities and the determination of marketing objectives will also be explored. The students will evaluate the marketing research data and analyze selected approaches that affect the marketing mix for specific markets to coordinate strategies in global world markets.

**INTERNATIONAL MANAGEMENT**

3 Units/Advisory: ENGL 035 or ESL 198 or appropriate assessment; READ 023 or appropriate assessment.

Transfers to: CSU

This course is designed to provide students with a comprehensive overview of the management practice as it relates to international business. An emphasis will be placed on the planning, problem solving, organizational structure, human resource management, and production management as it relates to international competition. These functions of management will all be evaluated and examined under international competitive situations and across cultural boundaries.

0101 TTh 9:40-11:05 AM HUANG J Rm B118

**MGMT 144**

**INTERNATIONAL BANKING AND FINANCE**

3 Units/Advisory: READ 023 or appropriate assessment and ENGL 035 or ESL 198 or appropriate assessment.

Transfers to: CSU

The introductory course provides an understanding of international finance, international banking, monetary systems, sources of funds, methods of payments and methods for assessing financial risk. It includes an understanding and appreciation of the relationship between government (international, national, and local) and international banks. Lecture: 3 hours per week

**HYBRID COURSE ACCESS: ONLINE.RIOHONDO.EDU**

(This course is offered as a Hybrid – This class will meet the following Thursdays: September 1, September 22, October 13, November 10, and December 28. Attendance is mandatory. The remaining credit hours will be completed online.)

8500 T 2:00 - 3:00 HUANG J Rm B117

**MGMT 146**

**HUMAN RESOURCES MANAGEMENT**

3 Units/Advisory: READ 023 or appropriate assessment and ENGL 030 or ESL 197 or appropriate assessment.

Transfers to: CSU

This course is designed to study employer-employee relationships with particular emphasis on the challenges facing an expanding multicultural workforce in Southern California. Topics include: legal framework; personnel policies and procedures; implementing equal employment and affirmative action; legal aspects of supervision; training and development; interviewing; testing; wage and salary administration; job analysis and description; recruitment; transfers; promotions; and principles of collective bargaining.

**MGMT 150**

**PRINCIPLES OF MANAGEMENT**

3 Units/Advisory: MGMT 101, ENGL 030 or ESL 197 or appropriate assessment; READ 022 or appropriate assessment.

Transfers to: CSU.

This course is designed for the student who is seeking a career in management or for the student who needs to expand his/her knowledge of management techniques and organizational methods. The course presents the theory and application of managerial functions: the processes of planning, organizing, leading, and controlling in a wide variety of organizational settings; and how the management of people and resources can accomplish organizational goals. This course also covers the nature and principles of management; history, techniques, practices and problems; characteristics and qualities of managers; employee empowerment; contemporary trends in management thought that comprise the core of the class topics.

**COOPERATIVE WORK EXPERIENCE/INTERNSHIP FOR BUSINESS MANAGEMENT RELATED FIELDS**

1-4 Units/Advisory: READ 023 or appropriate assessment and ENGL 035 or ESL 198 or appropriate assessment.

Transfers to: CSU

This course supports and reinforces on-the-job training in business and industrial establishments under supervision of a college instructor and is facilitated by the use of learning objectives. The student will be working in a skilled or professional level assignment in their area of vocational interest and will meet performance objectives related to instruction that are above and beyond the conditions of regular employment. This course is intended for students whose job is related to the field of business management and have completed or enrolled in the appropriate coursework. This course may be taken once and repeated for a maximum of 16 units. For more information you can contact the coordinator at [inoriega@riohondo.edu](mailto:inoriega@riohondo.edu)

**ELEMENTS OF MARKETING**

3 Units/Advisory: MGMT 101, ENGL 030 or ESL 197 or appropriate assessment; READ 022 or appropriate assessment.

Transfers to: CSU

This course is designed for the student who is interested in a career in marketing or gaining an entry-level marketing position with a retail, industrial, service, or consumer product company. Discussion of marketing concepts, strategies, and techniques will take place in an environment that reflects new technologies and international competitiveness. The topics in the course will include marketing concepts, functions, operations, and organizations of retail and wholesale enterprises; distribution channels; market research; advertising; marketing costs; pricing; cooperative marketing, marketing legislation and regulations and trends.

Advisory: Concurrent enrollment in MATH 070; READ 023 or appropriate assessment; ENGL 035 or ESL 198 or appropriate assessment.

Transfers to: UC (credit limit\*), CSU; (\*The UC will grant credit for only one of the following courses: CHEM 110 or CHEM 120)

This course provides an introduction to the fundamental concepts of general, organic, and biological chemistry, and is especially appropriate for students intending to pursue a career in nursing and other health-related professions, including kinesiology and psychology. Emphasis is placed on the relationship between chemistry and the health/medical sciences. Weekly laboratory activities require students to empirically verify concepts presented in lectures. No previous background in chemistry is required or expected of students enrolling in this course.

**CHEMISTRY, CONTINUED****CHEM 120  
INTRODUCTION TO CHEMISTRY**

5 Units/Prerequisite: MATH 070 with a grade of "C" or better or appropriate assessment.

Advisory: ENGL 035 or ESL 198 or appropriate assessment and READ 023 or appropriate assessment.

Transfers to: UC (credit limit\*), CSU; (\*The UC will grant credit for only one of the following courses: CHEM 110 or CHEM 120)

This one-semester course is designed for students intending to major in science or engineering. The course primarily prepares students for Chemistry 130; additionally, it fulfills the general education requirement in the physical sciences. This course introduces the fundamental principles of general chemistry, with emphasis on chemical nomenclature and quantitative problems in chemistry. The lecture presents classical and modern chemistry including atomic theory, periodic properties, chemical bonding, chemical reactions, stoichiometry, acids and bases, gas laws and solutions. The laboratory introduces the techniques of experimental chemistry with examples from all areas of chemistry.

**CHEM 130  
GENERAL CHEMISTRY**

5 Units/Prerequisite: CHEM 120 with a grade of "C" or better.

Advisory: MATH 175 or appropriate assessment and READ 023 or appropriate assessment and ENGL 101.

Transfers to: UC, CSU

Chemistry 130 is the first semester of a two semester sequence designed for students intending to major in science and engineering. The lecture course covers classical/modern chemistry, with applications, in stoichiometry and classical atomic theory of chemistry, periodic properties, gas laws, modern quantum theory of atomic and molecular structure and periodic properties, thermochemistry, liquids and solids, solution chemistry. The laboratory introduces experimental chemistry with examples from all areas of chemistry.

	&MW(Dis/Lab)	1:30-4:40 PM	LEUNG A	Rm S331/ S229

**CHEM 131  
GENERAL CHEMISTRY**

3 Units/Prerequisite: CHEM 130 with a grade of "C" or better.

Advisory: MATH 180 or appropriate assessment and READ 023 or appropriate assessment and ENGL 101.

Transfers to: UC, CSU

CHEM 131 is a continuation of CHEM 130. Theory and techniques of elementary physical chemistry are stressed. Emphasis is placed on the dynamics of chemical change using thermodynamics and reaction kinetics as the major tools. A thorough treatment of equilibrium is given, with many examples of solubility, acid-base, and redox equilibria, including electrochemical concepts. Brief introductions to organic and nuclear chemistry are presented. Various analytical techniques used in modern chemistry are introduced. Descriptive chemistry of representative metallic and nonmetallic elements is included.

0133	MW	8:05-9:30 AM	HUANG I	Rm S326
------	----	--------------	---------	---------

**CHEM 131L  
GENERAL CHEMISTRY**

2 Units/Prerequisite: Enrollment concurrent with CHEM 131 or within one calendar year of completion of CHEM 131.

Advisory: READ 023 or appropriate assessment; ENGL 101.

Transfers to: UC, CSU

This laboratory course is designed to be taken concurrently with CHEM 131. Experiments are used that show the relationship between experimental measurement and chemical theory and may include exercises on kinetics, equilibrium, electrochemistry, basic nuclear and organic chemistry, acid-base theory, and qualitative analysis. Modern instrumental methods are used in some exercises. Experiments are designed to encourage and require the student to do some preparing prior to the laboratory period. Quantitative thinking and procedures are introduced early and emphasized throughout the course.

0130	MW	9:40 AM-12:50 PM	HUANG I	Rm S325
------	----	------------------	---------	---------

**CHEM 230  
ORGANIC CHEMISTRY I**

5 Units/Prerequisite: CHEM 131 and 131L with a grade of "C" or better.

Transfers to: UC, CSU

This course, the first of a two-semester sequence, provides a rigorous introduction to the practical and theoretical aspects of organic chemistry. Several topics will be explored in depth, including molecular structure and hybridization, applications of acid/base theory to organic compounds, stereochemistry, alkanes, alkenes, alkynes, dienes, substitution and elimination reactions, and spectroscopic methods of analysis (e.g. IR, UV/VIS, NMR). Particular emphasis will be placed on thermodynamic and kinetic aspects of reactions and detailed examination of reaction mechanisms. Laboratory exercises are designed to provide students with a solid foundation in the essential techniques of organic chemistry, including the determination of melting points, thin-layer and column chromatography, extraction, distillation, and spectroscopic analysis of products. This course is appropriate for students majoring in chemistry, biological sciences, and chemical engineering, and satisfies the admissions requirements for medical, dental, veterinary, and other health-related graduate programs.

This class is web-enhanced.

INTRODUCTION TO CHICANO STUDIES**

3 Units/Advisory: READ 023 or appropriate assessment; ENGL 035 or ESL 198 or appropriate assessment.

Transfers to: UC, CSU

This is an introductory course that examines the historical and contemporary experiences of Chicanos in American society. Topics include the formation of Chicano identity, the Chicano Movement, and current government policies affecting this group. Students interested in this course may include individuals with familial or personal connections to the Chicano (Mexican-American) community and/or those intending to work in environments with high concentrations of this population.

LA CHICANA: THE CONTEMPORARY MEXICAN-AMERICAN FEMALE**

3 Units/Advisory: READ 023 or appropriate assessment; ENGL 035 or ESL 198 or appropriate assessment.

Transfers to: UC, CSU

The introductory course will examine the ethnic identity formation of the Mexican-American woman. The students will analyze the employment, education, religious, family, historical and cultural influences present in the lives of Mexican-American females. This course is appropriate for students interested in furthering their understanding of the social construction of the Mexican-American woman.
