HONORS

POLYS 110H

GOVERNMENT OF THE UNITED STATES

3 Units/Prerequisite: ENGL 101 with a "C" or better.

Advisory: READ 023 or appropriate assessment

Transfers to: UC (credit limit*), CSU

(*Students will receive credit from UC for only one of the following courses: POLYS 110 or POLYS 110H)

(SEE POLYS 110 FOR COURSE DESCRIPTION.)

Honors section requirements: beginning students, enrollment in English 101; continuing students, successful completion of English 101.

0916 TTh 9:40-11:05 AM YOUNG C Rm S201

(Enrollment Restricted; See Honors Program Information, page 5.)

POLYS 130

COMPARATIVE GOVERNMENT

3 Units/Advisory: ENGL 035 or ESL 198 or appropriate assessment, READ 023 or appropriate assessment.

Transfers to: UC, CSU

This course examines the political systems of selected industrial democracies, dictatorships, and governments of the developing world. Emphasis is placed on the institutional development and political processes and cultures within these countries. This course features an examination of current political problems and a comparison of such differing ideologies as Marxism, democracy, theocracy, and totalitarianism. This course is intended for the student interested in the study of foreign governments and for those who wish to major in political science. Lecture: 3 hours per week

PSYCHOLOGY

DIVISION OF SOCIAL SCIENCE, HUMANITIES & PHILOSOPHY

PSY 101

INTRODUCTORY PSYCHOLOGY

3 Units/Advisory: ENGL 035 or ESL 198 or appropriate assessment, READ 023 or appropriate assessment.

Transfers to: UC (credit limit*), CSU

(*Students will receive credit from UC for only one of the following courses: PSY 101 or PSY 101H)

This course is designed as a general introduction to psychology for psychology majors, those with an interest in psychology, or anyone with a desire to further their understanding of human behavior. It provides an overview of the field of psychology, introducing students to the research methods used to advance the science of psychology and the various areas that comprise this diverse discipline. Research and theories are presented, discussed, and evaluated. Topics covered include biological psychology, sensation and perception, lifespan development, learning, memory, motivation and emotion, cognition, personality, psychopathology and social psychology.

Transfers to: UC (credit limit*), CSU

(*Students will receive credit from UC for only one of the following courses: PSY 112 or CD 106)

This course provides an overview of human psychological development across the lifespan. The physical, cognitive, social, and emotional changes that occur from the prenatal period through old age are addressed. In addition, current research findings and their applicability to ongoing developmental problems are explored. This course is appropriate for the student seeking to develop a better understanding of the development gains and losses that occur throughout our lives.

INTRODUCTION TO ABNORMAL PSYCHOLOGY

3 Units/Advisory: ENGL 035 or ESL 198 or appropriate assessment, READ 023 or appropriate assessment.

Transfers to: UC, CSU

This course provides an introduction to the study of abnormal behavior for psychology majors, those with an interest in abnormal psychology, or anyone with a desire to further their understanding of abnormality. The classification, assessment and treatment of psychological disorders will be explored. Students will not only develop an understanding of the etiology and diagnosis of such disorders, as based upon DSM-IV-TR criteria, but develop an appreciation of the cultural, historical and theoretical influences that affect the definitions and treatment of abnormal behavior.

PSYCHOLOGY, CONTINUED

**PSY 121
DRUGS, SOCIETY, AND BEHAVIOR**

3 Units/Advisory: READ 023 or appropriate assessment and ENGL 035 or ESL 198 or appropriate assessment.

Transfers to: CSU

This course is for the student who seeks a basic understanding of the effects of drugs of abuse and an in-depth consideration of the societal aspects of psychoactive drugs. It is designed for those students interested in furthering their understanding of psychoactive drugs and those interested in working with populations recovering from or at risk for drug problems. Current and historical uses of and attitudes towards drugs will be addressed, as well as drug use disorders, drug legislation, and treatment options. Societal and cultural differences will also be noted.

1198 Th 11:30 AM-2:40 PM COMINI C OFF CAMPUS

Section 1198 meets at Luna Recovery, 7007 Washington Ave., Suite 240, Whittier, 90602

**PSY 127
INTRODUCTION TO THE PHYSIOLOGICAL EFFECTS OF
DRUGS OF ABUSE**

3 Units/Advisory: ENGL 035 or ESL 198 or appropriate assessment, READ 023 or appropriate assessment.

Transfers to: CSU

This course is designed for students interested in furthering their understanding of psychoactive drugs and those interested in working with populations recovering from or at risk for drug problems. It provides an examination of the pharmacological actions of drugs of abuse and how this relates to the physiological, as well as the behavioral, effects of such drugs. The properties of drugs that increase the likelihood of the development of dependence will be emphasized.

★ 1330 Th 7:00-10:10 PM SMITH K Rm A228

**PSY 133
PERSONAL AND SOCIAL ADJUSTMENT**

3 Units/Advisory: READ 023 or appropriate assessment and ENGL 035 or ESL 198 or appropriate assessment.

Transfers to: UC, CSU

This course is designed for the student interested in furthering their general knowledge of themselves and the more applied areas of psychology. An overview of the principles underlying mental health and well-being is provided with the goal of initiating a process of self discovery through readings and activities designed to explore existing beliefs, biases, and expectations. Topics addressed include personality theories and therapy, life span development, stress and stressors, forms of adaptive and maladaptive behavior, resources for effective communication, interpersonal relationships including friendship and marriage, sexuality, work and the development of personal values and a philosophy of life.

★ 1253 Th 6:30-9:40 PM ELSON K OFF CAMPUS

(Section #1253 meets at First Day, 12426 Whittier Blvd., 90602)

**PSY 200
RESEARCH METHODS IN PSYCHOLOGY**

3 Units/Prerequisite: PSY 101. Prerequisite/Corequisite: MATH 130. Advisory: ENGL 035 or ESL 198 or appropriate assessment, READ 023 or appropriate assessment.

Transfers to: UC, CSU

This course provides an introduction to the philosophy of science and the examination of the hypothetical deductive methods and their relationship to theory. Topics include: the nature of experimental research and design, experimental and non-experimental research—including group and single-subject designs, literature review, research ethics, collection and analysis of data, and writing APA-style reports. Collection, handling, and analysis of original empirical data, during class and outside of class, in both experimental and nonexperimental designs, are an integral component of the course. The course is designed for students intending to pursue a degree in psychology.

1605 TTh 2:25-5:00 PM PADGETT V Rm S336

**PSY 210
BIOLOGICAL PSYCHOLOGY**

3 Units/Prerequisite: PSY 101. Advisory: READ 023 or appropriate assessment and ENGL 035 or ESL 198 or appropriate assessment

Transfers to: UC (credit limit*), CSU

(*Students will receive credit from UC for only one of the following courses: PSY 210 or PSY 210H)

This course is designed for the student who has an interest in understanding the biological processes that underlie human behavior. The biological basis of normal and abnormal behavior, including sensory systems, brain and behavior relationships, and underlying neurochemical processes will be addressed. The extent to which biological processes interact with environmental influences to determine behavior will be explored. Lecture: 3 hours

**READING &
EFFECTIVE STUDY METHODS**
DIVISION OF COMMUNICATIONS & LANGUAGES

ROOMS IN (LR) ARE LOCATED IN THE LEARNING RESOURCE CENTER

IMPORTANT NOTICE CONCERNING READING 022 & 023

Students signing up for READ 022 or 023 should be aware that if they have not met the prerequisite, they will be informed via touchtone registration that they are blocked from registering in these courses. Students who may register via touchtone include the following:

- Students currently enrolled in READ 022 or READ 023 pending final grades of "CR" or "C."
- Students placed into READ 022 or 023 through the Rio Hondo assessment process.
- Students who completed the previous course with a grade of "CR" or "C."

The following students should bring assessment results, grade reports, and/or transcripts with them to see a counselor, Admissions & Records staff, or the Dean of Communications & Languages in A219 at 562-908-3429 if the following criteria apply:

- Students who have completed the equivalent previous course at another college or university.
- Students who have taken the Nelson-Denny Reading Test at another college.
- Students wishing to appeal their Rio Hondo assessment placement or challenge the prerequisite to READ 022 or 023.

**READ 012
LEARNING STRATEGIES**

1.5 Units/Advisory: READ 021 or appropriate assessment and ENGL 030 or ESL 197 or appropriate assessment.

This course is designed for students entering college who need to develop their skills as learners. Students will build and acquire study techniques in the areas of note-taking, test-taking, text reading, memorizing, time planning, and communicating. The emphasis of the class will be on learning new techniques and then applying them to their class and work situations. This is a non-degree credit course.

THE FOLLOWING SECTION MEETS OCTOBER 18- DECEMBER 12, 2009

1157 MW 12:50-2:15 PM KORTZ V Rm A227

**** IMPORTANT INFORMATION****

Students with little knowledge of English may wish to take ESL 020 before enrolling in READ 021. ESL 020 is a beginning reading course especially designed for non-native speakers. Students may wish to discuss these courses with a counselor.

**READ 020
BASIC READING**

3 Units

This is an introductory course for students with beginning reading skills. Students will learn meanings and the pronunciation of new words. In addition, students will practice basic comprehension skills through reading dealing with the workplace, college, and everyday life. This course is appropriate for native and second language learners. This is a non-degree credit course offered on a credit/no credit basis.
