**IMPORTANT INFORMATION**

- All coursework used for IGETC must be completed with a “C” or better, and each course must have a minimum value of 3 semester/4 quarter units.
- IGETC may not be appropriate for all majors. It is highly recommended that students meet with a counselor and/or consult with individual campuses prior to selecting courses.
- Courses may be counted for one GE area only, with the exception of Area 6: Language other than English requirement.
- Courses on this list are approved for the academic year 2017-2018 which is valid beginning Fall 2017 through Summer 2018. For a complete listing of courses and their approval dates, log on to [www.assist.org](http://www.assist.org).

**IGETC Considerations**

Students with substantial coursework from institutions outside the United States should consult a counselor to determine whether they should complete IGETC or the lower-division breadth/general education requirements at the campus they plan to attend.

**Berkeley** | The Colleges of Engineering and Chemistry, and the Haas School of Business have extensive, prescribed major prerequisites. IGETC is not appropriate preparation for majors in these colleges.

**Davis** | Bachelor of Science degrees and high-unit majors often have many courses of lower-division preparation. In these cases, the UC Davis GE pattern is the best choice.

**Irvine** | All schools accept IGETC. However, selection by the campus is based on demonstrated academic achievement and preparation for the intended major.

**Los Angeles** | The Henry Samueli School of Engineering and Applied Science does not accept IGETC.

**Merced** | The Schools of Engineering and Natural Sciences do not recommend IGETC, but accept it.

**Riverside** | The College of Humanities, Arts, and Social Sciences and the School of Business Administration accepts IGETC. The College of Natural and Agricultural Sciences does not accept IGETC. The Marian and Rosemary Bourns College of Engineering accepts completion of IGETC to satisfy the majority of the college’s breadth requirements for transfer students. Some additional breadth coursework may be required after enrollment at Bourns. School of Business Administration requires IGETC.

**San Diego** | IGETC is accepted at John Muir, Earl Warren, Thurgood Marshall, and Sixth Colleges only. Students completing IGETC are welcomed at Eleanor Roosevelt and Revelle Colleges; however, they must also fulfill the specific general education requirements of those colleges. At UCSD, all majors are available to students in each college, so students who choose IGETC will not be restricted in their choice of major.

**Santa Barbara** | College of Letters and Science and College of Creative Studies: IGETC is acceptable. College of Engineering: Students are encouraged to focus on major preparation rather than general education, but may use IGETC to substitute for most general education requirements. However, some additional coursework may be required after enrollment to complete the depth requirement if not satisfied during IGETC certification.

**Santa Cruz** | Transfer students intending to pursue any major in the physical and biological sciences or the Jack Baskin School of Engineering should not follow IGETC because it will not provide them with enough lower division preparation for their majors.
