2. Authorization for Out-of-State Travel and Conferences

   This item was moved to the beginning of the Action Agenda.

B. PERSONNEL

   The following recommendations are submitted with budget allocations:

1. Academic
   a. Employment

      Part-Time, Spring 2009
      MOLINE, Julio, Arts & Cultural*

      Hourly as Needed, Spring 2009
      COCHRAN, Janine, Public Safety
      MANFREDI, Nicholas, Public Safety*
      QAMARUZZAMAN, Shahwar, Pub.Sfty.*
      TSUI, Olivia, Arts & Cultural
b. **Reduced Workload**

In accordance with E.C. 87483 Reduction in Workload and provisions of Article 6 of the Academic Contractual Agreement, the following academic employee has requested a reduction in workload for the 2009-2010 school year:

WELLS, Stephanie 50% Library

2. **Classified**

a. **Employment**

The following employee is hired in the designated capacity. Funding is available through June 30, 2009. If continued funding should not be available, 45-day notice shall be served prior to the end of funding:

GILBERT, Alexandria, Paraprofessional Tutor, EOP&S, 47.5%, 8 months, effective February 18, 2009

Short-Term, 2009-2010

AN, Grace, Account Clerk II, Finance & Business, ending date June 30, 2010

* (minimum qualification equivalency established pursuant to CP 5165)

Substitute

GARIADOR, Debra, Clerk Typist III, Admissions & Records, effective March 9, 2009

SCHANK, Diane, Account Clerk II, Finance & Business effective February 19, 2009

SCHANK, Diane, Clerk Typist III, Finance & Business, effective March 2, 2009

b. **Release of Employment**

THOMPSON, Larry, Custodian, Facilities Services, last day of employment was February 10, 2009.

3. **Unrepresented, CP 5155, 2008-2009**

a. **Employment**

Hourly

DE LA CRUZ, Alba, Tutor II (LAC) ERESE, William, Coaching Spec.
GRAHAM, Robert, Tutor II (LAC) FORMAN, Karole, Model
C. ACADEMIC AFFAIRS

1. Curriculum Items

The following items have been processed according to college policy for the development of curricula which includes review and approval by the District Curriculum Committee:

a. New Courses that are Part of an Existing Program

The following courses have been recommended for inclusion in our offerings and catalog:

AUTO 201: Automotive Brake and Suspension Service (Automotive Technology)
Degree Applicable; (4 Units)

Justification: This is a required course for fulfilling an associate degree in automotive technology at Rio Hondo College and is a requirement by NATEF (National Automotive Technicians Education Foundation). This course is a core requirement for an Associate Degree (PACT) at the college.

HEM 045: Heavy Equipment Powertrain Fundamentals (Applied Technology)
Degree Applicable; (4 Units)

Justification: This course supports a degree/certified program and will provide students who are interested in working in the Heavy Equipment Maintenance Industry. This course is one of several new courses that will be part of a certified degree required by the IDRC grant.

HEM 046: Heavy Equipment Fuel Systems & Performance (Applied Technology)
Degree Applicable; (4 Units)

Justification: This course supports a degree/certified program and will provide students who are interested in working in the Heavy Equipment Maintenance Industry. This course is one of several new courses that will be part of a certified degree required by the IDRC grant.

TCED 054: OSHA Workplace Safety II (Career and Technical Education)
Degree Applicable; (2 Units)

Justification: This course meets Federal Regulations for OSHA on the foundation to provide the rules, regulations, and compliance issues regarding worker safety. Advisory committee’s (Auto, Honda, SCE) have requested we add this coverage to our program.
b. **New Credit Courses**

The following courses have been recommended for inclusion in our offerings and catalog:

**AET 070: Introduction to Alternative Energy Technology**  
(Career and Technical Education)  
Degree Applicable; (3 Units)

**Justification:** This course has been created to meet the demand of qualified workers to support the alternative energy industry. The Alternative Energy Technology program at Rio Hondo College will provide students a solid foundation in the science and in design/installation techniques required to work with alternative energy technologies. Students will gain the knowledge and skills necessary to design and safely install electrical energy systems based on current photovoltaic, wind generation and power conditioning equipment. The program includes hands-on electrical training both in a computer-based laboratory and outside laboratories demonstrating the installation of an alternative energy system.

**AET 072: Photovoltaic Systems Design and Installation**  
(Career and Technical Education)  
Degree Applicable; (3 Units)

**Justification:** This course has been created to meet the demand of qualified workers to support the alternative energy industry. The Alternative Energy Technology program at Rio Hondo College will provide students a solid foundation in the science and in design/installation techniques required to work with alternative energy technologies. Students will gain the knowledge and skills necessary to design and safely install electrical energy systems based on current photovoltaic, wind generation and power conditioning equipment. The program includes hands-on electrical training both in a computer-based laboratory and outside laboratories demonstrating the installation of an alternative energy system. This system will focus on solar photovoltaic power systems skills that are needed to obtain employment in the industry.

**AET 074: Advanced Photovoltaic Systems Design and Installation**  
(Career and Technical Education)  
Degree Applicable; (3 Units)

**Justification:** This course has been created to meet the demand of qualified workers to support the alternative energy industry. The ideal candidate for these positions would require skills in electricity, math and science. The Alternative Energy Technology program at Rio Hondo College will provide students a solid foundation in the science and in design/installation techniques required to work with alternative energy technologies. Students will gain the knowledge and skills necessary to design and safely install electrical energy systems based on current photovoltaic, wind generation and power conditioning equipment. The program includes hands-on electrical training both in a computer-based laboratory and outside laboratories demonstrating the installation of an alternative energy system. Compliance with the National Electrical Code is emphasized both in the classroom and during installation practice.
This course will focus on solar photovoltaic power systems skills that are needed to obtain further employment in the industry.

**AET 076: Wind Energy Systems Design and Installation**  
(Career and Technical Education)  
Degree Applicable; (3 Units)

**Justification:** This course has been created to meet the demand of qualified workers to support the alternative energy industry. The Alternative Energy Technology program at Rio Hondo College will provide students a solid foundation in the science and in design/installation techniques required to work with alternative energy technologies. Students will gain the knowledge and skills necessary to design and safely install electrical energy systems based on current photovoltaic, wind generation and power conditioning equipment. The program includes hands-on electrical training both in a computer-based laboratory and outside laboratories demonstrating the installation of an alternative energy system. This course will focus on wind generation power systems skills that are needed to obtain further employment in the industry.

**AET 078: Advanced Wind Energy Systems Design and Installation**  
(Career and Technical Education)  
Degree Applicable; (3 Units)

**Justification:** This course has been created to meet the demand of qualified workers to support the alternative energy industry. The Alternative Energy Technology program at Rio Hondo College will provide students a solid foundation in the science and in design/installation techniques required to work with alternative energy technologies. Students will gain the knowledge and skills necessary to design and safely install electrical energy systems based on current photovoltaic, wind generation and power conditioning equipment. The program includes hands-on electrical training both in a computer-based laboratory and outside laboratories demonstrating the installation of an alternative energy system. This course will focus on wind generation power systems skills that are needed to obtain further employment in the industry.

c. **New Non-Credit Certificate of Completion**

The following non-credit certificate of completion has been recommended for inclusion in our offerings and catalog:

**Civil Design Technology**  
(16 Units)
d. **Unit Change**

The following courses/programs have been recommended for a unit change to reflect an increase/decrease in course content:

**AUTO 290:** Cooperative Work Experience/Internship for Automotive Technology related fields  
(From: 3 Units  To: 1-4 Units)

**READ 021L:** Reading Lab  
(From: 1 Unit  To:.5 Unit)

**READ 022L:** Reading Lab  
(From: 1 Unit  To:.5 Unit)

III. **ACTIONS ITEMS**

A. **FINANCE & BUSINESS**

2. **Authorization for Out-of-State Travel and Conferences**

This item was pulled from the Consent Agenda and moved to the beginning of the Action Agenda.

   - # 8 - *Manny Ontiveros, North Orange County CCD
   - # 10 - Christopher Stampolis, West Valley-Mission CCD
   - # 11 - *Jeanette Mann, Pasadena Area CCD
   - # 12 - Carmen Avalos, Cerritos CCD
   - # 13 - Eva Kinsman, Copper Mountain CCD
   - # 14 - *Bernard “Bee Jay” Jones, Allan Hancock Joint CCD

   * Denotes Incumbent
RIO HONDO COMMUNITY COLLEGE DISTRICT

CLASS TITLE: INSTRUCTIONAL ASSISTANT-VIRTUAL COLLEGE

BASIC FUNCTION:

Under the direction of an assigned supervisor and working in conjunction with the Virtual College coordinator; assists with training instructors in the maintenance of their online courses. Provides assistance to students in workshops, orientations, and with various online resources and tutorials. Provides phone and email technical support to both Virtual College students and faculty. Creates semester and intersession course shells and uploads students to the appropriate course. Maintains the computer lab center, including all computing equipment, peripheral equipment, printers, software, materials and supplies, in a clean and orderly manner. Assists instructors in planning, organizing, preparing and presenting classroom and laboratory materials for their online courses. Performs other duties as assigned.

REPRESENTATIVE DUTIES:

Assists faculty in creating, updating, and migrating to new Learning Management Systems (LMS), trouble shooting, backing up and restoring their courses for the Virtual College using methods such as one on one, workshops, the use of email and over the telephone.

Administers LMS front end; username and password administration, uploading and deleting students, the creation of course shells, defining terms and file management; administers changing or updating students’ passwords.

Provides instructional assistance to students individually or in small groups during student orientations (online and in person).

Troubleshoots student and faculty problems with LMSs online tools (quizzes, assignment drop box, table of contents, grade book, chat, discussion groups and other features).

Updates, and maintains student on-site and online orientations.

Assists Virtual College instructors with documenting student access to online courses, and in the planning, organization, preparation and presentation of classroom materials, before and during the semester.

Assists Virtual College instructors with the use of publisher provided content. This includes e-packs, and other online resources.

Assists Virtual College instructors with the use of various multimedia.

Responsible for the upkeep of the Virtual College’s website and provides assistance to Virtual College instructors with their websites.

Prepares and uploads Virtual College students to various courses for each semester and intersession.
Generates reports and statistics pertaining to RHC online courses. Compiles information and prepares a variety of reports related to the operations and activities of the Virtual College.

Updates the Online Catalog for RHC online courses, Virtual College website with the semester course listings, and the Virtual College newsletter.

Operates a variety of office, computer and instructional equipment and machines used in the Virtual College.

Works in close conjunction with Information Technology Services to test, troubleshoot and resolve issues related to the servers.

Performs related duties as assigned.

KNOWLEDGE AND ABILITIES:

KNOWLEDGE OF:
Computer software, specifically, MS Access, MS FrontPage, Dreamweaver, MS Excel, MS Word, RoboDemo, Respondus, WebCT, Blackboard, Moodle, MS PowerPoint and other software.
Principles and practices of training and providing work direction in the latest Virtual College software.
Principles and practices of providing instructional assistance.
Interpersonal skills using tact, patience and courtesy.
Basic record-keeping techniques.
Operation of a variety of office, computer and instructional equipment and machines used in the Virtual College.
Principles, practices and techniques of providing instructional assistance.

ABILITY TO:
Assist with training Virtual College instructors in the use of various LMSs.
Provide support to students and provide instructional assistant to students in the Virtual College.
Troubleshoot student and faculty problems with LMSs online tools.
Communicate effectively with technical and non-technical faculty, staff and administrators.
Generate reports and statistics pertaining to RHC online courses.
Plan and organize work.
Meet schedules and timelines.

EDUCATION AND EXPERIENCE:

Any combination equivalent to: graduation from a two-year college with major course work in related field and two years of related experience.

Possession of a valid California Driver’s license and an insurable driving record is required. At times, a reliable insured vehicle may be required.

Range: 32
