

## CD 130 – School-Age Child Care and Curriculum

### Student Learning Outcomes:

Given the sequence of physical, social/emotional and cognitive/language development from birth to adolescence list the critical components related to curriculum in educational programs for school age children necessary to meet the age appropriate aspect of Developmentally Appropriate Practices.

**Proposed Type of Assessment to be used:** Evaluate the inclusion of the critical components of development from birth to adolescence related to the supervision and administration of educational programs for school age children through in-class or take-home assignments.

**Collection and Evaluation Process:** Results will be collected from all sections of the course and compiled by faculty to be reviewed during department meeting during Flex Day each semester.

<b>Performance standard</b>	<i>Excellent</i>	<i>Satisfactory</i>	<i>Unsatisfactory</i>
<b>Relevant to the assigned topic</b>	Comprehensive list of critical components related to the curriculum of educational programs for school age children .	Majority of applicable critical components listed.	<b>Critical component list not related to the curriculum of educational programs for school age children .</b>
<b>Applies to the guidelines/criteria</b>	Critical component descriptions are thorough.	Shallow or few critical component descriptions.	<b>List of critical components with out descriptions.</b>
<b>Responds to the questions poised</b>	Critical components listed logically related to the curriculum of educational programs for school age children.	Most critical components listed logically related to the curriculum of educational programs for school age children ..	<b>Critical components do not logically related to the curriculum of educational programs for school age children .</b>
