

CD 226- Introduction to Special Education

Student Learning Outcome:

Given the sequence of physical, social/emotional and cognitive/language development from birth to adolescence list the critical components related to special needs children necessary to meet the age appropriate aspect of Developmentally Appropriate Practices.

Proposed Type of Assessment to be used: Evaluate the inclusion of the critical components of development from birth to adolescence related to special needs children through in-class or take-home assignments.

Collection and Evaluation Process: Results will be collected from all sections of the course and compiled by faculty to be reviewed during department meeting during Flex Day each semester.

Performance standard	<i>Excellent</i>	<i>Satisfactory</i>	<i>Unsatisfactory</i>
Relevant to the assigned topic	Comprehensive list of critical components related to special needs children.	Majority of applicable critical components listed.	Critical component list not related to special needs children.
Applies to the guidelines/criteria	Critical component descriptions are thorough.	Shallow or few critical component descriptions.	List of critical components with out descriptions.
Responds to the questions posed	Critical components listed logically related to special needs children.	Most critical components listed logically related to special needs children.	Critical components do not logically relate to special needs children.
