Studies show that women veterans face greater challenges than their male counterparts. Yet there are very few programs to help them re-assimilate into civilian life. To answer the call, National Veterans Transition Services, Inc. (NVTSI) also known as REBOOT, has launched the Women Veterans Initiative. We designed the program to meet the unique needs of women veterans as they transition from military to civilian life. The REBOOT Workshop™ is the nation’s only transition program of its kind that provides women vets with the tools they need to succeed.

The project is presented by Ford Motor Company Fund. Ford is partnering with REBOOT to engage local community/business leaders in providing mentoring for the veteran graduates.

The REBOOT Workshop™ is based around how we think and how our thoughts impact every facet of our lives. It demonstrates how we let habits, attitudes and beliefs stand in the way of releasing our inner potential. It also reveals how our beliefs and expectations about ourselves, our families, and our futures are directly related to our current realities.
