President’s Welcome

Congratulations on making one of the most important decisions of your life by choosing to attend college. On behalf of the Rio Hondo College community, it is a pleasure to welcome you to our hilltop campus and educational sites with state-of-the-art facilities and a student-centered approach. Rio Hondo College offers a technologically advanced learning environment with modern instructional and student services facilities, including the Learning Resource Center, one-stop Student Services building, First-Year Success Center, El Monte Educational Center, South Whittier Educational Center, and the Pico Rivera Educational Center. As part of our Student Success Initiative and Student Equity Plan, our faculty members, counselors, staff, and administrators are committed to helping you reach your educational goals.

One of the tools we encourage students to frequently use is the 2016-2017 Catalog, as an educational guidepost. By becoming familiar with this Catalog early on, you will learn about the associate degrees leading to successful transfer, general education requirements and programs, career certificates and courses and our new four-year degree in automotive technology.

In addition, Rio Hondo College continues to lead the state and the nation in many high-demand career and technical programs, such as environmental technology, geographic information systems technology, which now includes a four-year bachelor’s degree.

Another tool for success is AccessRIO, our student information and technology service that provides efficient online access to email, grades, financial aid information, library systems and many other College resources.
