Rio Hondo College Catalog
2017 - 2018
Volume LII

Accreditation

Western Association of Schools and Colleges Board of Governors, California Community Colleges
Rio Hondo College is accredited by the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges, (10 Commercial Blvd., Ste. 204 Novato, CA 94949 (415) 506-0234 Telephone • (415) 506-0238 FAX), an institutional accrediting body recognized by the Commission on Recognition of Postsecondary Accreditation and the U.S. Department of Education.
An additional list of Accreditations and Certifications can be found on page 8.

Statement of Policy

The policy of this district is that, unless specifically exempted by statute or regulation, every course, course section, or class, reported for state aid, wherever offered and maintained by the district, shall be fully open to enrollment and participation by any person who has been admitted to the colleges and who meets such prerequisites as may be established pursuant to section 55003 of division 6 of title 5 of the California Code of Regulations.

The College catalog represents official policies of the Rio Hondo Community College District Board of Trustees.

By virtue of Statute, authority is vested in the Rio Hondo Community College District Board of Trustees to add, amend, or repeal any of its regulations, rules, and procedures in whole or in part at such time as it may elect.

The Rio Hondo College staff has worked to assure the accuracy of all information in the catalog. Students are advised, however, that such information may be subject to change without notice. Since the catalog is prepared in advance of the academic year, changes in some programs and rules might occur. An addendum to the catalog is published in the fall. The catalog and accompanying addendum are the final authority in regard to classes and programs offered. The catalog and addenda are also posted on the web site at: www.riohondo.edu/catalog. Students are advised to consult a counselor whenever questions or problems pertaining to academic programs arise.

Teresa Dreyfuss
Superintendent/President
One of the tools we encourage you to use, as an educational guide, is the 2017-18 College Catalog. By becoming familiar with this Catalog as a new student, you will learn about the associate degrees leading to successful transfer, general education requirements and programs, and career certificates and courses. Another tool for success is AccessRIO, our student information and registration system that provides efficient online access to grades, financial aid information, library systems and many other College resources. In addition, the College offers scholarships, student health services, as well as free tutoring.

We urge you to take advantage of the Student Success services and programs offered through the Counseling Center, Center for Career and Re-Entry Services, First-Year Success Center, and Transfer Center. Students who meet with a counselor on a frequent basis, update their Educational Plan, and use support services are more likely to graduate and transfer to four-year universities. Our Rio Hondo College counselors are here to support your journey to achieve Student Success!

We invite you to make the most of your time at Rio Hondo College by participating in co-curricular activities and in student life. The College fields 14 intercollegiate athletic teams, offers opportunities in dance, theater, music, visual arts performances, and debate competitions. Rio Hondo College is also home to an active student government that sponsors an array of clubs, interest groups and cultural events.

As a student, you also have access to one of the largest and best-equipped community college fitness centers in the country. The College’s 48,000 square-foot Physical Education Complex offers a NCAA-sized pool, renovated fields and tennis courts. The College also has a world-class soccer field and a six-lane synthetic track.

As Superintendent/President, I look forward to welcoming you to our Rio Hondo College campus.

Congratulations once again, and best wishes to you and your continued success.

Teresa Dreyfuss
Superintendent/President

Instructional Calendar 2017-2018

Summer 2017

Ten-Week Session (10-weeks)
- Monday, June 5 – Friday, August 11

First Session (5-weeks)
- Monday, June 5 – Friday, July 7

Evening Session (6-weeks)
- Monday, June 19 – Friday, July 28

Late Start: Day and Evening (8-weeks)
- Monday, June 19 – Friday, August 11
  (Includes on-site, off site & online classes)

Second Session: Day Classes (5-weeks)
- Monday, July 10 – Friday, August 11

Fall 2017

Semester Dates (16-weeks)
- Saturday, August 19 - Saturday, December 9

Flex Day.................................................Friday, August 18
  (Classes begin Saturday, August 19)

8-Week Modules
- (Module A) Saturday, Aug. 19 – Friday, Oct. 13
- (Module B) Saturday, Oct. 14 – Saturday, Dec. 9

Finals Week............................................Monday, December 4 – Saturday, December 9

Spring 2018

Intersession Dates (4-weeks)
- Tuesday, January 2 - Thursday, January 25

Semester Dates (16-weeks)
- Saturday, January 27 - Thursday, May 24

Flex Day.................................................Friday, January 26
  (Classes begin Saturday, January 27)

Spring Break .................Monday, March 26 - Friday, March 30
  (No weekend classes Saturday, March 24)

8-Week Modules
- (Module A) Saturday, Jan. 27 – Friday, March 23
- (Module B) Saturday, March 31 – Thursday, May 24

Finals Week.................................Monday, May 21 – Thursday, May 24

Commencement...............................Thursday, May 24
1 General Information About Rio Hondo College

History
The Rio Hondo Community College District was established by election in October 1960, but first classes were not held until 1963-1964. Since the district’s boundaries at that time were identical to those of the Whittier Union High School District, administration of the district was by the high school district Board of Trustees. Creation of the El Rancho Unified School District in 1962 required that Rio Hondo College establish its own Board of Trustees, and an election for that purpose was held in April 1962.

The new Board of Trustees appointed Dr. Phil Putnam as the founding Superintendent-President in February 1963. In May 1963, the Board chose Rio Hondo as the name for the college. The name, long associated with the area surrounding the Rio Hondo River, means “deep river.”

College classes were offered for the first time in the late afternoons and evenings in September 1963 at Sierra and El Rancho High Schools. Following selection of the present campus site, a $12 million bond issue to build the college was approved by 80.1 percent of the district voters in October 1963. During 1964 and 1965, Rio Hondo College conducted classes for a limited enrollment at the former Little Lake School in Santa Fe Springs.

The present campus opened in the fall of 1966 with an enrollment of 3,363 day and 2,682 evening students. Measure A, a $245 million bond passed by voters in 2004, now provides new buildings and facilities upgrades campus-wide as well as new off-site educational centers in South Whittier and El Monte. Today, Rio Hondo enrolls approximately 20,000 students per semester.

Rio Hondo College is an open-access California community college that contains nine cities, in whole or part, four distinct unincorporated communities, and a portion of one other unincorporated community of Los Angeles County within our district boundaries. The cities include El Monte, South El Monte, Pico Rivera, Santa Fe Springs, and Whittier. The District also encompasses portions of Norwalk, Downey, La Mirada, and the City of Industry. The unincorporated communities within our District include Los Nietos, East Whittier, South Whittier, West Whittier, and a portion of Avocado Heights. The College is a Hispanic Serving Institution with over 70 percent of students identified as Hispanic/Latino/a and a total ethnic minority student population nearing 90 percent.

School districts within the college boundaries are the Whittier Union High School District, El Rancho Unified School District, and the El Monte Union High School District. Students come to Rio Hondo seeking a variety of educational experiences. Rio Hondo’s educational program includes courses for transfer to four-year colleges and universities, general education courses for greater understanding of individual and community life, vocational training in certain areas, and courses for improving academic performance necessary for studying at a higher level.

The Rio Hondo College Foundation was established in 1992. The Foundation assists the college in meeting the needs of its students and community. The Foundation’s focus is to secure financial and community resources to support Rio Hondo College programs and services such as student scholarships, innovative educational projects, teaching and training support, and capital expenditures.

Vision
Rio Hondo College strives to be an exemplary California community college, meeting the learning needs of its changing and growing population and developing a state-of-the-art campus to serve future generations.

Mission
Rio Hondo College is committed to the success of its diverse students and communities by providing dynamic educational opportunities and resources that lead to degrees, certificates, transfer, career and technical pathways, basic skills proficiency, and lifelong learning.

Values Statement
As a teaching/learning community, we come together and strive to meet the needs, aspirations, and goals of our changing student population and communities. Since what we value forms the core of who and what we are, the college community—trustees, faculty and staff—recognizes the importance of openly and candidly expressing the college’s values. Rio Hondo College values the following:

1. Quality teaching and learning
   The college is dedicated to excellence in instruction and student services to develop the intellectual and
personal competence of each student. Rio Hondo College is committed to preparing students to adapt to the demands of a multicultural society.

2. **Student access and success**

   Rio Hondo College recognizes the individual worth and potential of every human being. Accordingly, the college offers an open access, comprehensive educational program to its students including basic skills, vocational education certificates and degrees, general education and transfer courses, and, for its community, economic development opportunities.

   At Rio Hondo College, students will have an opportunity to develop ethical values, learn the rights and responsibilities of citizenship, develop career skills, and understand the scientific, artistic and social achievements of various cultures including their own.

3. **Diversity & Equity**

   Rio Hondo College remains committed to the diversity of students, faculty, staff, and management. Diversity can be defined in many ways including ethnicity, gender, sexual orientation, socioeconomic status, age, physical abilities, religious beliefs, learning styles, political beliefs, or other ideologies. Appreciation of diversity means the following:
   
   - Recognizing that each individual is unique and understanding individual differences.
   - Recognizing the things that people have in common despite being members of diverse groups.
   - Creating a safe, positive, and nurturing environment that cultivates respect for what these differences are.
   - Moving beyond simple tolerance to embracing and celebrating the rich dimensions of diversity as a way of coming together as a community with a common purpose.

   The concepts of educational equity and student learning outcomes are central to the values of the College. Access to education and the opportunity for educational success for all students shall be provided, with particular efforts in regard to those who have been historically and currently under-represented. Education should prepare students to adapt to the demands of a multicultural society.

4. **Fiscal Responsibility**

   Rio Hondo College recognizes the importance of maintaining a fiscally sound, efficient, and effective college operation. It uses its resources—human, facilities, and financial—to the optimum benefit of its students, community, and staff.

5. **Integrity and Civility**

   We value integrity, honesty and respect in our actions and words.

**Goals Statement**

With the rapid pace of change and the need to respond in a reasonable, timely, and organized fashion - and keeping the focus on our students - Rio Hondo College recognizes the following goals as important to our collective success:

- to provide quality instruction to enhance the teaching/learning process
- to provide quality student support programs
- to provide quality student services, utilizing a student-centered process
- to meet the changing technological needs required to support the educational process and to enhance student access and success
- to maintain a safe and pleasant environment for students, staff, and community
- to support participatory governance processes through effective communication among and involvement of students, faculty, staff, trustees, and community
- to provide leadership in the academic, cultural, and economic life of the community
- to support the personal and professional growth of trustees, faculty, and staff
- to develop and utilize fiscal resources in an efficient and effective manner.

**Institutional Code of Ethics (BP 3050)**

I. The employees of Rio Hondo Community College District are committed to providing a high quality learning environment to help our students successfully achieve their educational goals and objectives. Accordingly, they have interests in, and commitment to, ethical behavior. Ethical persons are those who abide by principles and exemplify virtues as understood within a given moral framework. Many believe that virtue is intrinsically rewarding. At the very least, that one be perceived as ethical is instrumental in establishing credibility and trust.

II. To support Rio Hondo’s commitment to ethical behavior, college employees adhere to standards of ethical and professional behavior related to their duties, and have responsibilities to the institution and to individuals they serve. Although one cannot “legislate morality” in the sense of mandating virtuous intentions, we can, and do, establish general expectations of conduct.

III. There are many sources of ethical inspiration and guidance. All employees of Rio Hondo College are subject to official College policies and procedures; applicable regulatory agency requirements; local, state, and federal laws; and professional standards (when applicable). This includes policies such as the Rio Hondo College Policy on Sexual Harassment (BP 3430), its Policy on Nondiscrimination (BP 3410), and its Policy on Academic Freedom (BP 4030).

IV. In addition, the Board of Trustees is subject to its own Code of Ethics (BP 2715), and most of our employees are members of professional organizations with their own established codes of ethics, such as the CTA, CSEA, and ACCCA. Employees are encouraged to consult their own organizations, when applicable, for further guidance. As constituents of Rio Hondo College, students are likewise encouraged to maintain high Standards of Conduct (BP 5500).

V. As a further demonstration of commitment to high ethical standards, employees of Rio Hondo College aspire to be guided by the following values statements. These are guidelines and aspirations to be used for educational and not disciplinary purposes, with our own conscience as the first and most salient means of evaluation:
• The College values open communication, honesty, and truthfulness, and aspires to an “open door” philosophy.
• This College values open communication, honesty, and truthfulness, and aspires to an “open door” philosophy.
• This College values open inquiry, and honors academic freedom.
• This College values clear roles and responsibilities, teamwork, and cooperation (as outlined in AB1725), and therefore aspires to develop a climate of trust and mutual support.
• This College is committed to providing excellent educational opportunities to the community, and the instructional faculty seeks to evaluate students by honest appraisal of student performance against faculty standards.

Institutional Philosophy
Recognizing the individual worth and potential of every human being, Rio Hondo College offers an open access, comprehensive educational program to residents of the college district.

The college is dedicated to excellence in instruction and student services to develop the intellectual and personal competence of each individual.

At Rio Hondo College, students will have an opportunity to develop ethical values, learn the rights and responsibilities of citizenship, develop career skills, and understand the scientific, artistic, and social achievements of various cultures.

Institutional Affiliation
Rio Hondo College is a member of the Western Association of Schools and Colleges, the American Association of Community Colleges, and the California Association of Community Colleges. The college is also a member of the San Gabriel/Foothill Association of Community Colleges (SanFACC).

Accreditations & Certifications
Rio Hondo College is accredited by the Western Association of Schools and Colleges and is authorized by the California Community College Board of Governors to offer courses which parallel the lower-division courses of four-year institutions and qualify the student for junior classification at the university level. College transfer courses are accepted at full value at most colleges and universities throughout the United States.

• Police Academy – California Commission on Peace Officers Standards and Training (POST) (Certified)
• Fire Academy – California State Fire Marshal (Accredited); Accredited Local Processing for “Fire Officer Certifications” - California State Fire Marshals office
• Regional Homeland Security Training Center - certified by California State Fire Marshal and California Emergency Management Agency (Cal EMA) and certified as a UASI homeland security regional training center in Los Angeles County.
• Emergency Medical Technician (EMT) – Los Angeles County Health Services EMT/Paramedic Program Approval Section (Accredited)
• Wildland Fire Program – U.S. Forest Service (Certified)
• First Aid and CPR – American Heart Association & American Red Cross (Certified)
• Expanded Scope Practice for EMTs – LA County Department of Health Services (Certified)
• Drug Studies Program – Accredited by California Association for Alcohol/Drug Educators
• Nursing Program – Approved by the Board of Registered Nursing, State of California and the Board of Vocational Nursing and Psychiatric Technicians, State of California.
• CNA Programs – Approved through the Department of Health Services State of California.
• Automotive Programs: National Automotive Technical Foundation (NATEF) (Certified); California Automotive Business Coalition Automotive Technician Training Standards (ATTST) (Certified); California Smog Check Technician Training Institution (Certified).
Facilities

Art Gallery
The Rio Hondo College Art Gallery is located inside the Art Building and is open to students and the community during the academic year. The gallery provides an intimate setting for temporary exhibits showing both student and professional artists, representing a variety of artistic disciplines. Used also as a teaching gallery, many of the exhibits are displayed and created by students enrolled in ART 180, the Art Gallery Display Design course. The gallery is open to the public and exhibits are advertised in the College’s Cultural Events brochure available from the Division of Arts & Cultural Programs and online at: http://www.riohondo.edu/arts/front-page/programs-offered/arts-cultural-programs-events/art-gallery-showing/
Call (562) 908-3471 for more information.

Black Box Theater
The Black Box Theater is located behind the Wray Theater. With seating for approximately 80 guests, the Black Box provides a more intimate setting for student and visiting performers. The performances are open to the public and are advertised in the College’s Cultural Events brochure from the Division of Arts & Cultural Programs. Call (562) 908-3471 for more information.

Bookstore
The Student Bookstore is operated as a service to the students. Required textbooks and supplies are available. Ninety percent of the commissions received from the bookstore goes to the Auxiliary Service Fund for student activities.

The Bookstore hours are listed on the bookstore web page, where books and merchandise can also be purchased.

Rio Café
The Rio Café, located on the first floor of the Student Union, is the place to stop and grab a bite on the run or stay and enjoy a delicious lunch with friends. The café offers a mix of healthy dining options, a mouth-watering grill featuring an express menu, ice cold beverages and a variety of sweet and salty treats. Enjoy your favorite Starbucks Lattes, Frappuccino® Blended Beverages, Coffees and Teas at our Coffee Bar. The café accepts: Cash, Credit, Apple Pay, Google Wallet and Android Pay. For hours and more information, visit: https://riohondo.sodexomyway.com/

Child Development Center/Pre-School Laboratory
The Rio Hondo Pre-School Laboratory located at the Child Development Center provides quality pre-school services to the children of Rio Hondo students, staff, and community. Children must be between the ages of 3 and 5 years old and are required to be toilet trained. The Center is supported by state funds and parent fees. Eligibility for state subsidized funding is determined by a combination of family size and income. Some families may pay fees based on a sliding scale. Hours of operation are 7:30 A.M. to 5:00 P.M., Monday through Friday. Holidays and breaks are observed in accordance with the RHC academic calendar. For more information, please call (562) 908-3494 or visit the Rio Hondo website (click on Student Services and then Child Care). Rio Hondo College students from the Child Development/Education Department, the Behavioral and Social Science Division and Nursing utilize the Pre-School Laboratory to observe the development and behavior of pre-school children and to apply the knowledge that they gained in their courses working directly with children.

El Monte Educational Center (EMEC)
The El Monte Educational Center (EMEC) is one of Rio Hondo College’s off-campus educational centers. It is located at 3017 Tyler Avenue, El Monte, CA 91731. There are classrooms and a computer resource lab. Regular college credit courses are offered at EMEC, including basic skills classes as well as general education courses for graduation and transfer to a university. The college assessment test is offered on the second Thursday of the month. Continuing Education also offers non-credit courses at EMEC. For more information about classes and services at EMEC, please call (626) 443-8932.

Fitness Center
Rio Hondo College’s state-of-the-art Fitness Center is located in the Kinesiology Department (room 150). Access is available by enrolling in KINA 130, a one-unit Kinesiology Activity Class. Additional information is listed in the Class Schedule and on the Fitness Center web page.

Observatory
Rio Hondo College is one of only 10 California Community Colleges to possess an observatory. The Gordon D. Crowell Astrophysical Observatory has been serving the students of the college and residents of the community for over 40 years. The Observatory houses a 16-inch reflecting telescope that is the largest telescope available to the public in the Los Angeles area. We are open to the public, year round, no fee, from 8:00 p.m. to 10:00 p.m. on selected clear Friday evenings. Visitors are asked to park in Lot C and walk up the observatory road to the Observatory. Please wear comfortable walking shoes, dress warmly, and bring a flashlight. Visitors are also advised that we do not have rest room facilities at the observatory. Call (562) 908-3472 for more information.

Parking: Students/Visitors
Parking facilities are provided for students and visitors at nine locations on campus as designated in this College Catalog. Students are required to display a Rio Hondo College parking permit on all vehicles parking on campus. Parking permits should be obtained at the time of registration and thereafter at every semester registration or where there is a change in vehicle(s). Motorcycle parking is permitted only in specially designated areas in Lots B and Level 5.

Visitors on campus may obtain temporary parking permits at the Parking Information Booth located off College Drive to the left at Parking Lot 2 of the lower level parking stalls or at one of three day parking permit dispensers available in these locations:
- Parking Lot A, center of lot
- Parking Lot A, near the bridge
- Parking Lot 6, near the stairs

One (1) day parking permit fee is $3.00. The dispenser accepts one dollar bills, credit cards, coins (including dollar coins). Dispenser does not give change for bills or coins. A five (5) minute parking stall is located alongside the dispenser for temporary parking while you purchase your permit.
Persons operating vehicles on campus are expected to abide by all California vehicle codes as well as posted regulations. Citations will be issued by campus security officers for violations of such codes or for failure to abide by college parking or vehicular regulations. Everyone is required to pay all fines in connection with such violations. Unpaid fines will be referred to the DMV, and a hold will be placed on your vehicle registration.

Persons using the parking facilities at the college do so at their own risk. The college assumes no liability for the use of the parking facilities.

**Rio Hondo Educational Center at Pico Rivera**
The Rio Hondo Educational Center at Pico Rivera is one of Rio Hondo College’s off-campus educational centers. It is located at 9426 Marjorie Street, Pico Rivera, CA 90660. There are classrooms and a computer resource lab. Regular college credit courses are offered at the Pico center, including basic skills classes as well as general education courses for graduation and transfer to a university. The college assessment test is offered on the third Friday of every month. Continuing Education also offers non-credit courses.

For more information about classes and services at the Pico center, please call (562) 222-1482.

**Santa Fe Springs Training Center**
The Rio Hondo College Fire Technology program is located at the Santa Fe Springs Regional Training Center at 11400 Greenstone Ave., Santa Fe Springs. The Training Center houses the equipment and facilities for the College’s Fire Academy, Homeland Security Training Center, Emergency Medical Technician (EMT) program, Biddle Physical Abilities Testing, CWH Firefighter Testing, National Fire Firefighter Testing and Advanced Fire Marshal Training Programs. Some Fire Technology classes are also held on the main campus at the new Administration of Justice Building. The Wildland Fire Technology program and the Wildland Fire Academy are located at the AJ Annex on the main campus. Please see Schedule of Classes for more information.

**South Whittier Educational Center (SWEC)**
The South Whittier Educational Center (SWEC) is one of Rio Hondo College’s off-campus educational centers located at 14307 East Telegraph Road, Whittier, CA 90604. There are classrooms and a computer resource lab. Regular college credit courses are offered at SWEC, including basic skills classes as well as general education courses for graduation and transfer to a university. The college assessment test is offered on the first Monday of the month. Continuing Education also offers non-credit courses at SWEC. For more information about classes and services at SWEC, please call (562) 941-2356.

**State Smog Center**
Rio Hondo College’s State Smog Center is a state-contracted test facility that provides certain Smog Check services for motorists. Working with Automotive Technology departments at the community colleges, the Consumer Assistance Referee Centers provide motorists the opportunity to receive independent smog checks on their vehicles. Visit the web site www.smogcheck.ca.gov for the eligibility conditions necessary to utilize a referee station. Depending on the State’s schedule of operation, the Center is open Monday through Friday from 8:00 a.m. to 5:00 p.m. by appointment only. Closed on State-determined holidays. Call (800) 622-7733 for hours of operation and an appointment.

**Wray Theater**
The Wray Theater, located on the lower quad, functions as the main performance space for the college. Showcasing a variety of student and professional performances in the areas of theatre, dance, music, film, and guest lectures, the theater seats approximately 300 persons. The performances are open to the public and are advertised in the College’s Cultural Events brochure available from the Division of Arts & Cultural Programs. For more information, call (562) 908-3471 or visit our web site at: http://www.riohondo.edu/arts/front-page/programs-offered/arts-cultural-programs-events/art-gallery-showing/

2 College Policies & Procedures

Academic Freedom Philosophy
The maintenance of freedom of speech, publication, religion, and assembly (each of which is a component of intellectual freedom) is the breath of life in a democratic society. The need is greatest in fields and institutions of higher learning, where the use of reason and the cultivation of the highest forms of human expression are the basic methods for maintaining freedoms. Society has come to rely upon colleges and universities as a principal means of acquiring new knowledge and new techniques, of conveying the fruits of past and present learning to the community, and of transmitting these results to generations to come. Without freedom to explore, to criticize existing institutions, to exchange ideas, and to advocate solutions to human problems, faculty members, staff and students cannot perform their work and cannot maintain their self-respect. Society suffers correspondingly. The liberty that is needed requires a freedom of thought and expression within colleges and universities, freedom to carry the results of honest inquiry to the outside, and a freedom to influence human affairs in the same manner as other informed persons do. Nor is the value of freedom lessened because error at times arises from its exercise. Learning, intellectual development, and social and scientific progress takes place on a trial-and-error basis, and even the unsound cause or hypothesis may call forth the truth that displaces it. (Board Policy 4030).

Access to Student Records
All currently enrolled or former students have the right of access to any records relating to them and maintained by the College. Students may inspect and review records during regular business hours in the Office of Admissions and Records. Requests for access to records will be granted no later than five working days following date of request. Qualified personnel will be present to interpret records for students. College personnel may also permit access to student’s records to any person for whom the student has executed written consent specifying the records to be released and identifying the party to whom the records may be released. College personnel will notify the recipient of such records that the transmission of information to third parties is prohibited. (Administrative Procedure 5040)

Student Records
Privacy Act - All student records at Rio Hondo College are kept in accordance with the provisions of the Family Educational Rights and Privacy Act of 1974. Students may request access to those campus records that personally identify the student; the student may challenge the accuracy of the record or the appropriateness of its retention in the campus records. Student consent is needed for the release of records covered by the Act to outside parties (e.g., prospective employers) except for those agencies entitled to access under the provisions of the Act (e.g., campus officials, other schools, federal educational and auditing officers and requests in connection with the application of receipt of financial aid). These provisions apply to records received and used after November 1, 1974. A student may request a report summarizing the number of records he/she has requested or given consent to be released. Complaints as to procedure or improper release of record information may be filed with the Office of Education, HEW FERPA, DHEW, 330 Independence Avenue, S.W., Washington, D.C. 20210.

Children on Campus
Except when children are enrolled in the Child Development Center, other instructional programs in the District, and/or attending public events under the supervision of a parent or guardian, bringing children on campus while attending classes is not permitted. Parents and guardians must be aware that the ultimate responsibility for the safety of the children in their care rests with them and no liability can be accepted by the District nor any of its agents or staff for the consequences of children being on campus.

Computer Usage
Each computer user is responsible for the use of computing resources in an effective, efficient, and lawful manner.
Depend Resources and equipment are college property, and the college retains the right to monitor systems and limit access. Users of computing resources must abide by the rules/policies established by the department responsible for the supervision of the equipment. Each user must understand and acknowledge that his/her freedom to access and display information is limited to authorized academic and administrative uses. No person may use computer resources for any illegal act, including the possession or use of programs, files, or instructions for violating system security or violation of copyright law. Computer resources may not be used to intimidate or create an atmosphere of harassment based upon any protected class/category (gender, race, religion, ethnic origin, creed, sexual orientation, or other categories as applicable). (Administrative Procedure 3720)

**Student Complaints**

The District provides a prompt and equitable means of resolving student grievances and complaints. A grievance is an alleged wrongful act by a Rio Hondo College staff or faculty member which has an adverse effect upon a student’s academic or personal status right or privileges as a student at Rio Hondo College. Students are protected against capricious, arbitrary, unreasonable, unlawful, false, malicious or professionally inappropriate evaluations or behavior by a faculty member, a staff member, an administrator or an official of the College or another student. Student complaints may be classified as grievances and fall into one of two categories: Academic, or Non-Academic. Students are encouraged to follow the Rio Hondo College Complaint and Grievance process. Issues that are not resolved at the campus level may be presented to the State Chancellor’s Office using their procedures or activity. Inquiries regarding compliance and/or grievance procedures may be directed to Dr. Jennifer Fernandez, Interim Dean Student Affairs, Student Services Building, 2nd Floor, Room SS204, (562) 908-3498.

**Directory Information**

This is to serve as public notice that the following information is regarded by Rio Hondo Community College District as Directory Information, and may be released for distribution unless a stop action is initiated by a student on the Rio Hondo College Directory Information Denial of Release form available in the Admissions and Records Office. A new form must be completed each year. Directory information includes: a student’s name, whether or not he/she is currently enrolled, participation in officially recognized activities and sports, weight and height of members of athletic teams, degrees and awards received. (Board Policy 5040)

A request for directory information will be denied to any parties, not otherwise entitled to the information by law, if the college determines that such release is not in the best interest of the student. Further information may be obtained from the Admissions & Records Office. (Board Policy and Administrative Procedure 5040)

**Hazing**

The California Legislature moved hazing from the educational codes and amended the Penal Code to include hazing in order to close legal loopholes and to deter students. Section 245.6 of the California Penal Code, which went into effect on January 1, 2007, reads: It shall be unlawful to engage in hazing. “Hazing” means any method of initiation or pre-initiation into a student organization or student body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury. Hazing can be defined as any action or activity which does not contribute to the positive development of a person; which inflicts or intends to cause physical or mental harm or anxieties; which may demean, degrade or disgrace any person regardless of location, intent or consent of participants. Hazing can also be defined as any action or situation, which intentionally endangers a student seeking admission into or affiliation with any student organization. The term “hazing” does not include customary athletic events or school-sanctioned events. A violation of this section that does not result in serious bodily injury is a misdemeanor, punishable by a fine of not less than one hundred dollars ($100), nor more than five thousand dollars ($5,000), or imprisonment in the county jail for not more than one year, or both. (Board Policy 5500)

**Non-Discrimination in College Programs and Activities**

**Non-Discrimination Policy**

Rio Hondo Community College District complies with all federal and state rules and regulations and does not discriminate on the basis of national origin, religion, age, gender, gender identity, gender expression, race or ethnicity, color, medical condition, genetic information, ancestry, sexual orientation, marital status, physical or mental disability, pregnancy, military and veteran status, or because he or she is perceived to have one or more of the foregoing characteristics, or based on association with a person or group with one or more of these actual or perceived characteristics in any program or activity. Inquiries regarding compliance and/or grievance procedures may be directed to Dr. Jennifer Fernandez, Interim Dean Student Affairs, Student Services Building, 2nd Floor, Room SS204, (562) 908-3498.

Rio Hondo Community College District recognizes its obligation to provide program accessibility for all persons with disabilities in a manner that does not discriminate in the delivery of those services. The College makes reasonable accommodations for students, employees and members of the community who may be participating in campus activities. (Administrative Procedure 3435)

Inquiries regarding federal laws and regulations concerning nondiscrimination in education or the District’s compliance with those provisions may also be directed to:

Office of Civil Rights
United States Department of Education
50 Beale Street, Ste. 7200
San Francisco, CA 94105
(415) 486-5555 or

or
Ausencia de Discriminación en Programas y Actividades Del Colegio
El Distrito del Colegio de la Comunidad de Río Hondo no discrimina contra raza, color, nacionalidad, edad, religión, incapacidad física, estado civil o estado como veterano en ninguna de sus acciones, procedimientos o prácticas.

Esta ausencia de discriminación incluye admisión, acceso, tratamiento y empleo en los programas del Colegio; educación vocacional incluida. Preguntas acerca la política en igualdad de oportunidad, sumisión incluida. Preguntas acerca la política de sus acciones, procedimientos o prácticas.

Esta ausencia de discriminación incluye admisión, acceso, tratamiento y empleo en los programas del Colegio; educación vocacional incluida. Preguntas acerca la política en igualdad de oportunidad, sumisión incluida. Preguntas acerca la política de sus acciones, procedimientos o prácticas.

El Distrito del Colegio Río Hondo reconoce su obligación de proveer accesibilidad al programa a todas las personas incapacitadas de una manera que no discrimine en el rendimiento de tales servicios. El colegio hace arreglos razonables para los estudiantes, trabajadores y miembros de la comunidad quienes pueden participar en las actividades del colegio.

Preguntas referentes a las leyes federales y regulaciones en cuanto la falta de discriminación en educación o el acatamiento del Colegio con aquellas provisiones pueden ser dirigidas al Coordinador, el Canciller de los Colegios de la Comunidad de California o la Oficina de Derechos Civiles, Departamento de Educación de los EEUU.

Estudiantes con inglés limitado serán ayudados para calificar en los programas vocacionales del colegio.

Estudiantes que necesiten los servicios de un miembro bilingüe de la facultad para asistirlos pueden comunicarse con el Oficial de Cumplimiento del Distrito salón SS204, o (562) 908-3498 o TDD (562) 908-3422.

Registered Sex Offender Information
Offenders are required to register with the Pico Rivera Sheriff’s Department prior to applying to Río Hondo College.

Once registered, the offender is required to meet with the Dean of Students Affairs with appropriate documentation from the Sheriff’s Department.

For further information, call the Pico Rivera Sheriff’s Department at (562) 222-5533 or the Dean of Student Affairs at (562) 908-3498.

Information concerning registered sex offenders may be obtained from the Whitter Police Department, 13200 Penn St., Whittier, CA 90602 or by calling (562) 567-9200. Sex offenders are required to register with the police in the jurisdiction in which they reside.

Sexual Harassment
Sexual Harassment is offensive, unwelcome sexual attention. Sexual harassment is a form of sex discrimination which violates Title VII of the Civil Rights Act of 1964 as amended, Title IX of the Education Amendments of 1972, California statutes, Río Hondo Community College District Board policy BP 3430.

Definition – Sexual harassment consists of unwelcome sexual advances, requests for sexual favors, and other conduct of a sexual nature when:
1. submission to the conduct is made a term or condition of an individual’s employment, academic status, or progress;
2. submission to, or rejection of, the conduct by the individual is used as a basis of employment of academic decisions effecting the individual;
3. the conduct has the purpose or effect of having a negative impact on the individual’s work or academic performance, or of creating an intimidating, hostile or offensive work or educational environment; or
4. submission to, or rejection of, the conduct by the individual is used as the basis for any decision affecting the individual regarding benefits and services, honors, programs, or activities available at or through the community college.

This definition encompasses two kinds of sexual harassment.

1. Quid pro quo sexual harassment occurs when a person in a position of authority makes educational or employment benefits conditional upon an individual’s willingness to engage in or tolerate unwanted sexual conduct.
2. Hostile environment sexual harassment occurs when unwelcome conduct based on sex is sufficiently severe or pervasive so as to alter the conditions of an individual’s learning or work environment, unreasonably interfere with an individual’s academic or work performance, or create an intimidating, hostile, or abusive learning or work environment. The victim must subjectively perceive the environment as hostile, and the harassment must be such that a reasonable person of the same gender would perceive the environment as hostile.

Sexual harassment can consist of virtually any form or combination of verbal, physical, visual or environmental conduct. It need not be explicit, nor even specifically directed at the victim. Sexually harassing conduct can occur between people of the same or different genders. The standard for determining whether conduct constitutes sexual harassment is whether a reasonable person of the same gender as the victim would perceive the conduct as harassment based on sex.

Examples – Sexual harassment includes, but is not limited to the following misconduct:
1. Verbal: Inappropriate or offensive remarks, slurs, jokes or innuendoes based on sex. This may include, but is not limited to, inappropriate comments regarding an individual’s body, physical appearance, attire, sexual prowess, marital status, or sexual orientation; unwelcome flirting or propositions; demands for sexual favors; verbal abuse, threats or intimidation of a sexual nature; or sexist, patronizing or ridiculing statements that convey derogatory attitudes about a particular gender.
2. Physical: Inappropriate or offensive touching, assault, or physical interference with free movement. This may include, but is not limited to, kissing, patting, lingering or intimate touches, grabbing, pinching, leering, staring, unnecessarily brushing against or blocking another
person, whistling or sexual gestures.
3. **Visual or Written:** The display or circulation of offensive sexually oriented visual or written material. This may include, but is not limited to, posters, cartoons, drawings, graffiti, reading materials, computer graphics or electronic media transmissions.
4. **Environmental:** An academic or work environment that is permeated with sexually-oriented talk, innuendo, insults or abuse not relevant to the subject matter of the class. A hostile environment can arise from an unwarranted focus on sexual topics or sexually suggestive statements in the classroom. An environment may be hostile if unwelcome sexual behavior is directed specifically at an individual or if the individual merely witnesses unlawful harassment in his or her immediate surroundings. The determination of whether an environment is hostile is based on the totality of the circumstances, including such factors as the frequency of the conduct, the severity of the conduct, whether the conduct is humiliating or physically threatening, and whether the conduct unreasonably interferes with an individual’s learning or work.

If you believe that you are a victim of sexual harassment, contact the District Title IX Compliance Officer in room SU201, or (562) 908-3427 or TDD (562) 908-3422.

**Hostigamiento Sexual**

Hostigamiento sexual es acosoamiento sexual, ofensivo y mal recibido.

Hostigamiento sexual es una forma de discriminación sexual, lo cual viola el Título VII del Acto de los Derechos Civiles de 1964, a como se han enmendado, Título IX de los Enmendamientos de Educación de 1972, estatutos del Estado de California, y política de la Junta del Distrito del Colegio de Río Hondo BP 3430.

**Definición –** Hostigamiento sexual puede ser acosoamiento sexual mal recibido, solicitudes de favores sexuales, y otro comportamiento implícitamente sexual con tal que:

1. sometime al comportamiento se presenta como requisito o condición del empleo del individuo, de la categoría o estado académico del individuo o de adelantamiento del individuo;
2. sometime al comportamiento, o rechazo del comportamiento, del hostigador se presenta como criterio de empleo o de decisiones académicas en cuanto al individuo;
3. el comportamiento tiene el intento de resultar en impacto negativo en el trabajo del individuo o en los estudios académicos del individuo, o tiene el intento de crear un ambiente de intimidación y hostilidad en el empleo o en los estudios; o
4. sometime al comportamiento, o rechazo del comportamiento, del hostigador se usa como criterio de cualquier decisión en cuanto al individuo y los beneficios o servicios, lauros del colegio, programas, o actividades que se presentan en o por el colegio.

Esta definición incluye dos clases de hostigamiento sexual.

1. **Quid pro quo** hostigamiento sexual ocurre cuando una persona con puesto de autoridad presenta beneficios educativos o de empleo como dependientes en el sometimiento del individuo a participar en o tolerar comportamiento sexual mal recibido.
2. Ambiente hostil hostigamiento sexual ocurre cuando comportamiento mal recibido, implícitamente o explícitamente sexual, es bastante severo o intruso para que se cambien las condiciones del ambiente de empleo, o de estudios, del individuo, o para que se impida excesivamente el trabajo del individuo o los estudios del individuo, o para que se crea un ambiente, de empleo o educativo, de intimidación, hostilidad y abuso. El individuo como víctima tiene que percibir personalmente el ambiente como hostil, y el hostigamiento tiene que ser de tal manera que una persona razonable del mismo sexo percibiría el comportamiento como hostigamiento sexual. Hostigamiento sexual incluye cualquier combinación de comportamiento verbal, físico, o visual, o de control a través del ambiente de empleo o educativo. El hostigamiento sexual no tiene que ser explícito, ni tiene que ser específicamente dirigido al víctima. Hostigamiento sexual puede ocurrir entre personas del mismo sexo o de diferentes sexos. El criterio para determinar si comportamiento es hostigamiento sexual es si una persona razonable del mismo sexo percibiría el comportamiento como hostigamiento sexual.

**Ejemplos –** Hostigamiento sexual incluye, pero no se limita a, mal comportamiento como:

1. **Verbal:** palabras impropias o ofensivas, menoscapios, chistes o burlas innecesarias. Esto incluye, pero no se limita a, comentarios impropios en cuanto al cuerpo del individuo, la apariencia física, atavío, valentía sexual, estatus civil, o preferencia sexual del individuo; flirteo o solicitudes mal recibidas; demandas de favores sexuales; abuso verbal, amenazas de intimidación de tipo sexual; o sexismo, comentarios arrogantes que ponen en ridículo a un sexo, o que expresan actitud derogatoria contra un sexo.
2. **Físico:** contacto físico impuesto o ofensivo, asalto, o impedimento físico del movimiento de una persona. Esto puede incluir, pero no se limita a, besando, caricias físicas, tocando intimamente, agarrando a mano, pellicizando, mirando con lascivia, ojeando, pasando ligeramente por encima o impidiendo el paso de otra persona, siblando o haciendo ademanes o gesticulaciones sexuales.
3. **Visual o escrito:** mostrando, diseminando, o manifestando materia, visual o escrita, ofensiva y de sentido sexual. Esto puede incluir, pero no se limita a, carteles, caricaturas, diseños, dibujos, grafiti, materia para leer, gráficas en la computadora, y materia transmitida electrónicamente.
4. **Ambiente:** el ambiente de empleo o el ambiente académico que está lleno de expresiones verbales de sentido sexual, insinuaciones, insultos o abusos verbales que no pertenecen al tema de la clase. Un ambiente hostil se puede realizar con enfoque impuesto en temas sexuales o con comentario implícitamente sexual en la clase. Un ambiente puede ser hostil si el comportamiento sexual mal recibido es específicamente dirigido a un individuo o si el individuo solamente observa el hostigamiento ilícito en el ambiente.
Sexual Misconduct Information and Title IX Compliance

OTHER MISCONDUCT OFFENSES (Will fall under TITLE IX when gender-based)

• Threatening or causing physical harm, extreme verbal abuse, or other conduct which threatens or endangers the health or safety of any person;
• Discrimination, defined as actions that deprive other members of the community of educational or employment access, benefits or opportunities on the basis of gender;
• Intimidation, defined as implied threats or acts that cause an unreasonable fear of harm in another;
• Hazing, defined as acts likely to cause physical or psychological harm or social ostracism to any person within the college community, when related to the admission, initiation, pledging, joining, or any other group-affiliation activity (as defined further in the Student Code of Conduct);
• Bullying, defined as repeated and/or severe aggressive behavior likely to intimidate or intentionally hurt, control or diminish another person, physically or mentally (that is not speech or conduct otherwise protected by the 1st Amendment).
• Violence between those in an intimate relationship to each other;
• Stalking, defined as repetitive and/or menacing pursuit, following, harassment and/or interference with the peace and/or safety of a member of the community; or the safety of any of the immediate family of members of the community.

PRIVACY AND REPORTING:
The Director of Student Life & Leadership, Shaina Phillips, is the College’s designated Title IX Officer. The Title IX Officer is responsible for the purposes of initiating notice and/or investigation of sexual misconduct excluding cases involving personnel (not related to a student). The Title IX Officer may assign deputy investigators, who are members of the investigative team, to investigate allegations of gender-based discrimination and/or sexual misconduct. The deputy investigators will use discretion on how they act in response to notice of gender-based discrimination. Understanding that different people on campus have different reporting responsibilities and varied abilities to maintain confidentiality, the Title IX Officer will assign deputy investigators depending on the situation and the parties involved.

To Report Gender-Based Discrimination, sexual harassment, non-consensual sexual contact, non-consensual sexual intercourse, or sexual exploitation, please contact:
Shaina Phillips
Title IX Compliance Officer
sphillips@riohondo.edu

CONFIDENTIAL REPORTING:
If you want the details of the incident to be kept confidential, you should speak with on-campus professional staff in the Student Health and Psychological Services Office or off-campus rape crisis resources who can maintain confidentiality.
Reporting to those who can maintain the privacy of what you share—You can seek advice from certain individuals who are not required to tell anyone else your private, personally identifiable information unless there is cause for fear for your safety, or the safety of others. These are individuals who the college has not specifically designated as “responsible employees” for purposes of putting the institution on notice and for whom mandatory reporting is required, other than in the stated limited circumstances. If you are unsure of someone’s duties and ability to maintain your privacy, ask them before you talk to them.

NON-CONFIDENTIAL REPORTING OPTIONS:
You are encouraged to speak to officials of the institution to make formal reports of incidents (deans, vice presidents, or other administrators with supervisory responsibilities, campus security, and human resources). The College considers these people to be “responsible employees.” Notice to them is official notice to the institution. You have the right and can expect to have incidents of sexual misconduct to be taken seriously by the institution when formally reported, and to have those incidents investigated and properly resolved through administrative procedures. Formal reporting means that only people who need to know will be informed of the report, and information will be shared only as necessary with investigators, witnesses, and the accused individual.

Federal Statistical Reporting Obligations: Certain campus officials have a duty to report sexual misconduct for federal statistical reporting purposes (Clergy Act). All personally identifiable information is kept confidential, but statistical information must be passed along to campus law enforcement regarding the type of incident and its general location (on or off-campus, in the surrounding area, but no addresses are given) for publication in the annual Campus Security Report. This report
helps to provide the community with a clear picture of the extent and nature of campus crime, to ensure greater community safety. Mandated federal reporters include: student/conduct affairs, campus law enforcement, coaches, athletic directors, student activities staff, human resources staff, advisors to student organizations and any other official with significant responsibility for student and campus activities. The information to be shared includes the date, the location of the incident (using Clery location categories) and the Clery crime category. This reporting protects the identity of the victim and may be done anonymously.

Federal Timely Warning Reporting Obligations: Victims of sexual misconduct should also be aware that college administrators must issue immediate timely warnings for incidents reported to them that are confirmed to pose a substantial threat of bodily harm or danger to members of the campus community. The College will make every effort to ensure that a victim’s name and other identifying information is not disclosed, while still providing enough information for community members to make safety decisions in light of the danger. The reporters for timely warning purposes are exactly the same as detailed above.

All students are required to abide by the Standards of Conduct (Board Policy and Administrative Procedure 5500) and failure to do so may result in disciplinary action such as a verbal or written reprimand, probation, suspension and/or expulsion. The following conduct shall constitute good cause for discipline, including but not limited to the removal, suspension or expulsion of a student.

A. Fighting, causing, attempting to cause, or threatening to cause physical injury to another person.
B. Possession, sale or otherwise furnishing any firearm, knife, explosive other dangerous object, including but not limited to any facsimile firearm, knife or explosive, unless, in the case of possession of any object of this type, the student has obtained written permission to possess the item from a District employee, which is concurred with by the Superintendent. (Administrative Procedure 3530)
C. Unlawful possession, use, sale, offer to sell, furnishing, or being under the influence of any controlled substance listed in California Health and Safety Code Section 11053 et seq., an alcoholic beverage, or an intoxicant of any kind; or unlawful possession of, or offering, arranging or negotiating the sale of any drug paraphernalia, as defined in California Health and Safety Code Section 11014.5.
D. Drinking, possessing, or being under the influence of alcoholic beverages on campus or at any college sponsored event.
E. Committing or attempting to commit robbery or extortion.
F. Causing or attempting to cause damage to District property or to private property on campus.
G. Stealing or attempting to steal District property or private property on campus, or knowingly...
I. Committing sexual harassment as defined by law or by District policies and procedures.

J. Engaging in harassing or discriminatory behavior based on disability, gender, gender identity, gender expression, nationality, race or ethnicity, sex, religion, age, national origin, disability, sexual orientation or any other status protected by law.

K. Engaging in intimidating conduct or bullying against another student through words or actions, including direct physical contact; verbal assaults, such as teasing or name-calling; social isolation or manipulation; and cyber bullying.

L. Hazing, as defined as any method of initiation or pre-initiation into a student organization or student body, whether or not the organization or body is officially recognized by the college, which is likely to cause serious bodily danger, or personal degradation, or disgrace, resulting in physical or mental harm.

M. Willful misconduct that results in injury or death to a student or to District personnel or which results in cutting, defacing, or other injury to any real or personal property owned by the District on campus.

N. Disruptive behavior, willful disobedience, habitual profanity or vulgarity, or the open and persistent defiance of the authority of, or persistent abuse of, college personnel.

O. Cheating, plagiarism (including plagiarism in a student publication), or engaging in other academic dishonesty.

P. Dishonesty; forgery; alteration or misuse of District documents, records or identification; or knowingly furnishing false information to the District.

Q. Unauthorized entry upon or use of District facilities.

R. Lewd, indecent or obscene conduct on District-owned or controlled property, or at District sponsored or supervised functions.

S. Engaging in expression which is obscene, libelous or slanderous, or which so incites students as to create a clear and present danger of the commission of unlawful acts on College premises, the violation of lawful District administrative procedures, or the substantial disruption of the orderly operation of the District.

T. Persistent, serious misconduct where other means of correction have failed to bring about proper conduct.

U. Unauthorized preparation, giving, selling, transfer, distribution, or publication, for any commercial purpose of any contemporaneous recording of an academic presentation in a classroom or equivalent site of instruction, including but not limited to handwritten or typewritten class notes, except as permitted by any district policy or administrative procedure.

V. Knowingly accessing and without permission altering, damaging, deleting, destroying, or otherwise using any data, computer system or computer network in order to either (a) devise or execute any scheme or artifice to defraud, deceive or extort, or (b) wrongfully control or obtain money, property or data.

W. Knowingly accessing and without permission taking, copying or making use of any data from a computer, computer system, or computer network, or taking or copying any supporting documentation, whether existing or residing internal or external to a computer, computer system or computer network.

X. Knowingly and without permission using or causing the use of computer services.

Y. Knowingly accessing and without permission adding, altering, damaging, deleting or destroying any data, computer software, or computer programs which reside or exist internal or external to a computer, computer system or computer network.

Z. Knowingly and without permission disrupting or causing the disruption of computer services or denying or causing the denial of computer services to an authorized user of a computer system or computer network.

AA. Knowingly and without permission providing or assisting in providing a means of accessing a computer, computer system or computer network in violation of this section.

BB. Knowingly and without permission accessing or causing to be accessed any computer, computer system, or computer network.

CC. Knowingly introducing any computer contaminant, commonly called viruses or worms, into any computer, computer system, or computer network.

DD. Sexual assault on any District personnel, District vendor, District visitor or student, upon off-campus grounds or facilities maintained by the District, or upon grounds or facility maintained by affiliated student organizations.

EE. The obstruction or disruption, on or off-campus, of the District’s educational or administrative process or any other District function.

FF. The violation of any previous order issued by the District president that is not inconsistent with any of the other provisions of this policy. This order may be given by its publication in the student newspaper or by notice on an official bulletin board designated for this purpose.

GG. Attempting to perform any previously identified act that constitutes a cause for disciplinary action.

HH. Violation of District policies or regulations including those concerning the formation and registration of student organizations, the use of college facilities, or the time, place and manner of public expression.

II. Failure to comply with directions of District officials acting in the performance of their duties.
JJ. Soliciting or assisting another to do any act which would subject a student to expulsion, suspension, probation, or other discipline pursuant to this policy.

KK. Any other cause not previously listed which is identified as a good cause by the College or the Hearing Panel.

LL. Engaging in intimidating conduct or bullying against another student through words or actions, including direct physical contact; verbal assault, such as teasing or name-calling; special isolation or manipulation; and cyber bullying.

Students who engage in any of the above are subject to the procedures outlined in AP 5520.

**Mental Health Clearance:**
A student who is removed from campus as a result of erratic, dangerous and/or threatening behavior described in the Student Code of Conduct (AP 5500); and/or determination by a public safety officer that the student poses a threat to himself/herself or the general public may be required, before the student is readmitted to campus, to provide documentation from a licensed mental health professional* stating that the student will no longer engage in the behavior which gave rise to the student’s removal from campus and that the student’s continued presence on campus is not a threat to himself/herself or others before the student is readmitted to campus.

The mental health professional must be licensed by the State of California and credentialed to render a professional opinion on matters of this nature. The student is responsible for any expenses related to obtaining this mental health clearance.

*The documentation for re-admittance shall be provided by a non-Rio Hondo College District California licensed mental health professional.

**Rio Hondo College’s Policy on Drug and Alcohol Abuse:**
Rio Hondo College wants to provide a quality education for you. We believe that creating a learning environment which is free of drug and alcohol abuse is important. The college’s standard of conduct (Board Policy 5500) clearly prohibits the unlawful possession, use, or distribution of illicit drugs or alcohol by students on campus or as part of any of its activities.

**What the College will do:**
If you violate these policies, you may be subject to corrective action, up to and including suspension or expulsion. It is important to note that the College is prepared to impose disciplinary action as it deems fit. State laws may be applicable.

**If you want help . . .**
Rio Hondo College has some resources to assist you in breaking out of drug and alcohol abuse. Call (562) 692-0921:

- Student Health and Psychological Services
  Rm SS230, ext. 3438
- Counseling Center
  Rm SS104, ext. 3410

This information is provided to all students per requirements of the Drug Free School and Communities Act Amendments of 1989. (P.L. 101-226)
Admissions: Becoming a Rio Hondo Student

Students who are high school graduates or individuals 18 years of age or over who show evidence that they can benefit from instruction may apply and will be admitted to Rio Hondo College. All classes are open to those who meet the necessary prerequisites. No person shall be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any educational program or activity sponsored by Rio Hondo College on the basis of race, color, religion, sex, national origin, age, or physical or psychological disability.

Who May Apply

You may be eligible for admission to Rio Hondo College if you are:

• A high school graduate or GED recipient
• Not a high school graduate but over 18 years of age
• A current high school student who is recommended by the school principal or designee for advanced academic or vocational classes, has the approval of the student’s parent(s), meets the college’s special admissions criteria and is LIMITED TO 7 UNITS or 2 classes of non-remedial coursework per semester.

Student Classification

Students are classified according to the following classifications for the purpose of registration:

New Student: A student who has never enrolled in a credit course at any college, including Rio Hondo, or has only enrolled as a high school student.

Returning Student: A returning student is a student who did not register the previous semester but has registered in the past. Students who are returning after an absence of a semester or more (not including summer) must submit a new application for admission online.

Continuing Student: A continuing student is a student who attended the previous semester. To be classified as a continuing student with registration priority privileges, a student must maintain continuous enrollment (enrolled in at least one course each semester, not including summer).

Enrichment Student: An enrichment student is a student who is currently enrolled in grades K-12 or is home-schooled.

• Enrichment students younger than 9th grade
Students younger than 9th grade will be admitted if they are exceptional students and can benefit from advanced scholastic coursework. These students may only enroll in college level courses (degree applicable courses), and must meet prerequisites.

• High School Enrichment Students
High school students may enroll in classes for college credit. Permission to enroll must be obtained in advance from the high school and a parent or guardian. Interested high school students may obtain information from the Admissions webpage under High School Students, www.riohondo.edu/admissions/high-school-students/. Additional information may be obtained by calling or visiting the Admissions and Records Office. Enrichment students are limited to 11 units of non-remedial coursework.

Residence Requirements

If asked, a student must provide proof of California residency (or in some cases, parent residency) for the past 12-24 consecutive months. If the student is unable to document proof of California residency, he/she may still enroll but must pay nonresident fees. To establish residency, a student must be able to prove eligibility, physical presence, and the intent to remain as a resident (one year and one day prior to the first day of the semester) or 24 months of physical presence. Federal law precludes some visa types from establishing residency. In addition to other requirements, a student must be able to prove residency for one year and one day prior to the beginning of the semester. Selected exemptions from nonresident fees are provided in law: such as certificated public school employees, agricultural workers, military personnel and their dependents. If you feel that you might qualify for an exemption or have questions about residency, please contact the Admissions and Records Office.

Nonresident Students – Legal Requirements

Education Code Section 76140 requires that tuition be charged to students who are not residents of the State of California and who attend public community colleges within the state.
The nonresident/international student fee of $234.00 per unit (subject to change) plus a per unit enrollment fee is charged each semester/ summer session. Tuition charges must be paid at the time of registration.

The Admissions and Records Office should be consulted concerning the determination of residence.

**AB540 Students**

On October 12, 2001, Governor Davis signed into law Assembly Bill 540 (Stats. 2001, ch.814) which adds a new section to the California Education Code. Section 68130.5 creates a new exemption from payment of nonresident tuition for certain nonresident students who have attended high school in California and received a high school diploma or its equivalent.

1. The new law does not grant residency. It requires that certain nonresident students be exempted from paying nonresident tuition.
2. Students exempted from paying nonresident tuition pursuant to section 68130.5 do not become residents for eligibility purposes for any state-funded program (e.g., EOP&S, Cal Grant programs, or for purposes of a BOG Fee Waiver).
3. Students who meet the exemption requirements and who are unlawful immigrants are not eligible for any federal or state financial aid program. Many private sources have created scholarships specific to students not eligible for traditional financial aid programs.
4. Students exempted from paying nonresident tuition pursuant to section 68130.5 are not eligible for the Governor’s Merit Scholar Programs because these scholarships are only available for California residents.
5. Students must meet all requirements in section 68130.5 (a) (1) – (4) to be eligible for the exemption.
   a. The student must have graduated from a California high school which he/she attended for three or more years. There are no provisions for partial attendance (e.g. two years and 7 months). The law does not require consecutive attendance nor require that the student attend the last three years in California (in the case of four-year high schools).
   b. Such attendance could be at multiple California high schools.
   c. The law does not distinguish between public and private high schools. There is no time limit on how far in the past the student might have attended a California high school.
   d. The student must have graduated from a California high school or attained the equivalent thereof (e.g., a GED or a high school proficiency exam).
   e. Except for nonimmigrant aliens, any nonresident student who meets the first two requirements shall be exempted from nonresident tuition even if he or she is a US citizen or lawful immigrant.
   f. If the student has filed an application with the INS to legalize status, the student may already be eligible for resident fee status if the student has resided in California for more than one year and one day since the time of INS application. (See Title 5 Section 54045.)
6. Students who are nonimmigrant aliens (the most common being the F series student visas and B series visitor visas) are not eligible for this exemption. (A full description of nonimmigrant alien classifications may be found in paragraph 15 of subsection (a) of Section 1101 of Title 8 of the U.S. Code.) People who entered the country as nonimmigrant aliens but subsequently have gone out of status are not eligible for this exemption until they apply to INS to change their status to something other than nonimmigrant.

**International Students**

Students from outside the United States are welcome to pursue higher education at Rio Hondo College. The college values the presence of students from diverse cultures on the college campus. Rio Hondo College is a Student & Exchange Visitor Information System (SEVIS) approved institution to admit F-1 students. The International Student Program admits new and transfer students every semester who meet the requirements. All F-1 visa students must be accepted by the International Student Specialist before registering.

After being accepted to the college, all students must take an assessment test to determine level of English, Math and Reading. Each student is expected to register and complete 12 units in both the Spring and Fall semester with an overall grade point average of 2.0.

International students pay out of state fees which are subject to change without prior notice. Financial Aid is not available; students are expected to be financially independent. It is mandatory that all international students provide proof of health insurance coverage while attending Rio Hondo College.

An International Counselor is available to help students with a variety of issues; educational planning, choosing a major, graduation requirements, transfer requirements to 4-year colleges and Universities, tutoring and communication with a professor.

For information regarding the International Students Program, please visit the website at www.riohondo.edu/admissions/international-students/ or call (562) 463-7643.

**Admissions Requirements for Overseas Students**

- International Student Application
- Application processing fee of $40.00 (non-refundable)
- Copy of Passport
- English Proficiency must be met by one of the following methods
  - English is the student’s primary language
  - TOEFL 45iBT
  - IELTS 5
  - iTep 3
- Bank Certification (verification on bank letterhead signed by a bank official showing minimum $20,000.00 USD available to student)
- 18 years of age by the time the semester begins

**Admissions Requirements for Transfer Students**

- International Student Application
- Application processing fee of $40.00 (non-refundable)
- Copy of Passport, Student Visa, I-94 and I-20 form
- English Proficiency must be met by one of the following methods:
  - College Level English Completed (official college transcripts must be submitted)
  - TOEFL 45iBT
Open Enrollment Policy
The policy of this district is that, unless specifically exempted by statute or regulation, every course, course selection, or class, reported for state aid, whenever offered or maintained by the district, shall be fully open to enrollment and participation by any person who has been admitted to the college and who meets such prerequisites as may be established pursuant to regulations contained in Title V.

Unit Limitations
Students are limited to 18 units (15 units for summer sessions) unless they receive approval from a counselor for additional units. Students wishing to enroll in over 18 units (15 units for summer sessions) must meet with a counselor for a unit overload form. High School students are limited to 7 UNITS or 2 classes of non-remedial coursework.

Adding/Dropping Classes
Adding Classes: Students may add classes (including a change of section of the same course) during or after the assigned registration time. See the Admissions page on our website for more information on important dates and deadlines. The class add must be processed via AccessRio, and students who complete this process are officially enrolled in the class.

Dropping Classes: Rio Hondo College has a Drop for Non-Payment procedure. Prior to the start of each semester, there will be Common Drop Dates. The students who do not pay their fees or are not exempt will be dropped. The full procedure, including a list of exempt student groups, is posted on the Admissions website.

It is the student’s responsibility to officially withdraw from classes prior to the drop deadline in a given semester to avoid receiving failing grades.

Student-Initiated Withdrawal: While it is the student’s responsibility to withdraw by the deadline, an instructor may drop a student with poor attendance. To find the drop deadlines for a particular course consult the online Class Schedule and click on the CRN number of the course. There students will find information on critical dates for the specific course, including drop dates.

The student must withdraw from the class via AccessRio by the established deadline. Failure to follow through with the drop procedure may result in the student receiving a failing grade.

Instructor-Initiated Withdrawal: A student may be withdrawn before the drop deadline (60% of course length) by the instructor of the course if the student is no longer participating in the course. Definitions of non-participation shall include, but are not limited to, excessive unexcused absences. While an instructor may drop a student from class for poor attendance, it is the student’s responsibility to withdraw if the student is no longer attending the class.

There are three types of course withdrawal notations:

1. Withdrawal without receiving a “W” – A student who withdraws from a course before the published deadline to drop without a “W” (20% of course length) will receive no notation on their student record (transcript) for the dropped course. A student who withdraws from all classes prior to the “drop without a ‘W’” deadline will no longer be classified as a continuing student for priority registration purposes.

2. Withdrawal with a “W” – A student who withdraws from class between 20% to 60% of the course length (after the drop without a “W” but before the drop deadline) will receive a “W” notation on their student record (transcript). The “W” is not used to calculate a student’s grade point average (GPA) but may affect academic progress and result in progress probation/dismissal.

3. Military Withdrawal “MW” – A student serving as an active or reserve U.S. military serviceperson who receives orders compelling a withdrawal from courses may request a military withdrawal. Upon submission and verification of such orders, a student can petition to withdraw from classes with a “MW” notation on the student’s transcript. Military withdrawals are not counted in progress probation and dismissal calculations. Military withdrawal petitions are available in the Admissions and Records Office.

Evaluation of Transcripts
All students enrolled at Rio Hondo College should have official transcripts from their high school on file.

Students with previous coursework from a regionally accredited college/university should have official transcripts from all colleges attended sent directly to Rio Hondo College. Hand carried transcripts are not accepted. These transcripts can verify completion of prerequisite courses, eliminating the necessity of taking all or part of the assessment tests, and can assist the counselors in working with the student. Official transcripts from all regionally accredited colleges are required for evaluation towards a certificate, associate degree, or meeting general education requirements for transfer.

Transcripts from foreign universities must be evaluated by an approved credential evaluation service.

Transcripts of military service credits will be evaluated upon request of the student.

All transcripts must be sent directly to the Admissions and Records Office. Transcripts become the property of the college and cannot be returned to the student, copied, or forwarded to another institution.
Student Success and Support Program (formerly Matriculation)

Senate Bill 1456 revised and renamed the Matriculation Act of 1986 as the Seymour-Campbell Student Success Act of 2012. Signed by Governor Brown on September 27, 2012, the program began on January 1, 2013 and will be implemented in stages over a five-year period.

The Student Success and Support Program supports the transition of new students into the college by providing them services that promote academic achievement and successful completion of degrees, transfer preparation, career technical education certificates, or career advancement. Based on student responses to the Rio Hondo College Application for Admission, students self-identify as either matriculating or non-matriculating. Students identified as matriculating are referred to core services: assessment, orientation, and counseling. Students must complete assessment and orientation in order to receive priority registration. They also need to develop an educational plan which can be accomplished by enrolling in a counseling course, attending an educational planning workshop, or by scheduling an appointment with a counselor. Non-matriculating students are exempt from participating in core services, but they are advised to access these services if they decide to pursue a degree or certificate.

The Student Success and Support Program is the process responsible for bringing together the college and a student, who enrolls for credit, into an agreement for the purpose of realizing the student’s educational goals through the college’s established programs, policies, and requirements. The primary purpose of the Student Success and Support Program is to enhance a student’s success at the college. A student is expected to participate in these services unless the student requests an exemption from a particular service. Exemption forms may be obtained in the Counseling Department. All students are strongly encouraged to participate in the process.

Military Veteran students must participate in all matriculation components as required by the Veterans Administration (VA).

Components of Matriculation
Matriculation is composed of the following steps designed to enhance student success:
1. Admission to the college
2. Assessment of English or English-as-a-Second Language, Math, and Reading skills
3. Orientation to the college’s programs and services
4. Counseling and advisement for assistance in defining an educational goal and developing a plan to achieve the goal.

Five Steps to Becoming a Rio Hondo College Student
Step 1: Application
Rio Hondo College uses Open CCC for application processing. To submit an application for admissions log on to www.riohondo.edu and click the “Apply Now” button.

Step 2: Assessment
All new non-exempt students (“non-exempt” refers to students seeking an AA-T/AS-T degree, a certificate or transfer) are required to complete an Assessment, Orientation, and Educational Plan (prior to registration for classes). A hold may be placed on a student’s registration if they fail to complete their Assessment, Orientation and Educational Plan. The purpose of Assessment test at Rio Hondo College is to assess the student’s skill level in English, reading and mathematics and provide the student with the necessary resources for a successful college experience. The student’s reported information, in conjunction with available high school and/or college transcripts are used to determine course placement and the development of a Student Educational Plan (SEP). The assessment information assists the counselor in outlining a useful and clear educational program for the student’s long-range educational plans and the eventual attainment of a chosen career. The Assessment, Orientation and Educational Plan process is an effort by Rio Hondo College to provide the student with the finest academic advisement and counseling possible. The assessment is available by appointment throughout each semester and during the summer. Non-exempt students who do not complete their Assessment, Orientation and Educational Plan will receive an immediate hold on their registration. For more information, please contact the Assessment Office at (562) 463-7226 or visit LR-130.

Step 3: Orientation
Orientation to the college is an important part of the matriculation process and should be completed prior to the first semester of coursework. It provides students with information on college services, registration procedures, course placement, and recommended courses to register for in the first semester. Students will be given an opportunity to participate in a computerized Orientation during their Assessment Test. Students who do not require an Assessment test can still attend a computerized Orientation in the Assessment Center. Check for dates and times at the Rio Hondo web site: www.riohondo.edu/assessment-center and click “Services Offered” for the most accurate information regarding walk-in Orientations. The Assessment Center is located in the Learning Resource Center, room LR130 and the Assessment Office is located in LR141. If you need additional information call (562) 463-7226.

Step 4: Registration
Upon completing steps 1-3, a student can register online on dates specified online under the admissions and records link.

Registration Appointments – The appointment time established for each student is the date and time the student can begin using the AccessRio online registration system for a given semester.

Students can find their registration appointment times by logging into their AccessRio account under Student, Registration and then clicking on Registration Status.

Step 5: Counseling & Advisement
It is important to make an appointment with a counselor to discuss the student’s educational goals and to develop an educational plan prior to registration and before classes begin. For information and/or to make an appointment, please call (562) 908-3410 or go to the Counseling Office located in SS-160.
**Student Success and Support Program Requirement**

All new students are encouraged to participate in the components of admission, assessment, orientation, and counseling. However, exemptions for these components may be granted if certain criteria are met. (See Matriculation Exemptions.) All new, non-exempt students who are unable to complete the assessment process before their first semester of attendance may enroll; however, they must be assessed prior to registering for their second semester at the college. Students who have not completed the assessment process may be unable to register for certain courses that require prerequisites.

**College Responsibilities**

In the Student Success and Support Program process, the college has certain responsibilities. The college, to support student success, agrees to provide:

- Processing of applications for admission
- Assessment of basic skills, study skills, and career interests
- Orientation to college programs and services
- Counseling/advising
- Assistance in developing an educational plan
- Follow-up and referral to services

**Student Responsibilities**

In the Student Success and Support Program process, the student also has certain responsibilities. The student, to support his/her own success, has the responsibility to:

- Express a broad educational intent upon admission
- Provide high school and/or college transcripts and other supporting documentation to assist the counselor in making the best possible placement recommendations
- Declare a specific educational goal by the time 12 semester units are completed
- Meet with a counselor to develop an educational plan within the same semester
- Participate in counseling/advisement
- Attend class, complete assignments, and maintain progress toward a defined goal
- Drop classes he/she no longer wishes to attend.

**Student Rights**

In accordance with the matriculation agreement, the student has the right to:

- Challenge placement decisions and any prerequisite or corequisite by completing the appropriate form, which can be obtained from the Counseling Department.
- File a complaint of unlawful discrimination if a student feels that assessment, orientation, counseling, or any other matriculation process is being applied in a discriminatory manner. A petition may be obtained from the Office of the Vice President of Student Services. Upon receiving a complaint, the Vice President of Student Services will convene a three-member panel consisting of the Affirmative Action Officer or designee and two members of the Matriculation Coordinating Committee to review the student’s petition. The panel shall meet and provide a written notification to the student within five working days.

**Matriculation Exemptions**

Students who meet one of the following exemption criteria for any of the matriculation components, may obtain an exemption form from the Counseling area. Military students must participate in all matriculation components as required by the VA.

**A. Assessment, Orientation, and Counseling**

– All students are encouraged to participate in these components; an exemption may be granted according to one of the following criteria:

- Students who are enrolled only in activity, skill building, or personal growth classes (e.g., acting, physical fitness, ceramics) or job skills training (e.g., computer literacy, accounting, brake service), or

- Students who have already completed an AA/AS degree or higher. Military students must participate in all matriculation components as required by the VA.

**B. Assessment**

– Further assessment exemption may be granted according to one of the following criteria:

- Students who have successfully completed the equivalent of ENGL 035 or ENGL 101 at another community college or university are exempt from taking the English Placement Test.

- Students who have successfully completed the equivalent of MATH 020 or higher at another community college or university are exempt from taking the Math Placement Test.

- Students who have taken a Rio Hondo College-approved assessment test at another college are exempt from taking the appropriate assessment tests.

Those students who have not recently completed the equivalent math and/or English courses and/or recently taken an acceptable assessment test at another college are highly recommended to take the assessment tests at Rio Hondo College for appropriate placement in advanced courses.

**C. Orientation**

– All students are encouraged to participate in orientation; an exemption may be granted according to one of the following criteria:

- Students who are concurrently enrolled at a four-year college or university, or

- Students who have previously participated in a Rio Hondo College orientation.

**Assessment Retest Policy**

English, Reading and Math assessment scores are valid for two years. After two years, students are advised to re-test. For more information, visit the Assessment office located in LR-130.

**Assessment Placement Appeals Procedure**

All students have the right to appeal any placement decision after going through the assessment process. An assessment placement appeal requires written documentation and an explanation of alternative course work, background, or abilities that adequately prepare the student for the course.
An Assessment Placement Appeals form can be obtained from the Counseling Department or the appropriate division office (either Communications and Languages or Math and Sciences). Reasons for appealing an assessment placement may include one or more of the following:

- the course recommended is not reasonably available, or
- the student believes the recommended course is not valid or necessary for success in the next course level for which it is required, or
- the student believes the placement results are discriminatory or are being applied in a discriminatory manner, or
- the student has the documented knowledge or ability to succeed in the next level course without taking the recommended course by the appropriate division office.

Upon filing the Assessment Placement Appeals form, the student may enroll in the desired class. If the appeal is not upheld, the student will be required to drop the class. The district will ensure that the appeal process is finished, and the student is notified in writing within five (5) working days. Students wishing to appeal this decision should contact the Dean of Library and Instructional Support or designee.

**RHC Prerequisite/Corequisite/Advisory Definitions**

The college requires students to meet prerequisite/corequisite requirements before taking the course in question.

Prerequisites – A course prerequisite indicates the preparation or previous course work is considered necessary for success in the desired course.

Corequisites – A course corequisite indicates another course that must be taken concurrently with the desired course.

Prerequisites/corequisites that are listed in the college catalog include:

- Courses for which specific prerequisite/corequisites have been validated,
- Sequential course work in a degree-applicable program, and
- Courses in which a prerequisite/corequisite is necessary for transfer to a four-year college.

Questions about prerequisites/corequisites are best resolved with a counselor or instructor prior to the first day of class. If students are attempting to meet a prerequisite/corequisite through the assessment process, they may appeal (challenge) their assessment placement results.

Advisories – A course advisory indicates that if students have the designated preparation or previous course work, they are likely to perform better academically in the course or program in question because of that experience or preparation. Unlike prerequisites or corequisites, advisories do not require that students have the suggested preparation; rather, it is strongly recommended.

**Clearing a Prerequisite**

If a student believes he/she has met a prerequisite at another institution, he/she can see a counselor for a prerequisite clearance. Students must provide evidence of meeting the prerequisite using documentation such as an academic transcript. See a counselor for details.

**Prerequisite/Corequisite Challenge Procedure**

All students have the right to challenge any prerequisite or corequisite. A prerequisite or corequisite challenge requires written documentation that should include an explanation of alternative course work and/or background or abilities that adequately prepares the student for the course. A Prerequisite/Corequisite Challenge form can be obtained from the Counseling Department, division offices or at www.riohondo.edu under Academic divisions, Career & Technical Education, Counseling. The link will be at bottom of the page.

**Reasons for challenging a prerequisite may include one or more of the following:**

1. A prerequisite/corequisite is not reasonably available (must be made prior to the first week of the semester) or the student believes the prerequisite/corequisite is not valid or necessary for success in the course for which it is required, or
2. The student believes the prerequisite/corequisite is discriminatory or being applied in a discriminatory manner, or
3. The student has the documented knowledge or ability to succeed in the course without meeting the prerequisite/corequisite.

Upon filing the Prerequisite/Corequisite Challenge form, the student may enroll in the challenged class. If the challenge is not upheld, the student will be required to drop the class. The district will ensure that the challenge process is finished, and the student is notified in writing within five (5) working days. Students wishing to appeal this decision should contact the Dean of Career & Technical Education/Instructional Operations (Room-T-129) or designee.

**Educational Costs**

**Enrollment Fee** – Students who have established legal residence in California must pay the enrollment fee established under state law and subject to change without notice. These fees will be waived at the time of enrollment if the student can demonstrate he/she qualifies under the exempt criteria specified by the State of California. Out-of-state and international students must pay nonresident tuition fees of $234.00 per unit plus the $46.00 a unit fee as required under state law (fees subject to change).

**College Services Fee** – The Associated Students of Rio Hondo College is funded through the college services fee. The fee is $7.00 for day, evening, and off-campus students during the fall and spring semesters and $4.00 for summer sessions. The fee is automatically assessed at the time of registration. A waiver form is available in the Admissions and Records Office.

**GO RIO Fee** – This fee was approved by the Associated Students of Rio Hondo College to subsidize costs of the GO RIO bus program. The fee is $9.00 for Spring and Fall
terms only. A waiver form is available in the Office of Government and Community Relations. Students must meet eligibility criteria to qualify for the GO RIO fee waiver.

**Student Parking Fee** – Under provision of Education Code 72247, a Student Parking Fee program has been established. This fee provides for the use of student parking lots, better traffic flow during peak hours, parking lot security, and use of the tram service.

The student parking fee for day and evening students during the fall/spring semesters is $40.00. The fee for summer sessions students is $20.00. Motorcycle parking is $10.50 for fall/spring semesters; $5.50 for summer sessions.

**Student Health Fee** – Rio Hondo College provides a health services program, as approved by the Board of Trustees, for students who formally register at Rio Hondo College, are currently enrolled, and pay a $19 health fee ($16.00 for summer). Antibiotic medication and women-wellness laboratory tests are available for a nominal fee. Fee-exempted students include those who document religious reasons. A full refund will be made only if requested in writing prior to the semester refund deadline.

**Student Representation Fee** – This $1.00 fee provides support for students or representatives who may be stating their positions and viewpoints before city, county, and district government, and before offices and agencies of the state and federal government. Students may refuse to pay this fee on religious, political, or moral grounds by submitting a refusal in writing to the Office of Student Life and Leadership prior to registration.

**Books** – Students are required to purchase all books and supplies needed for their courses. Book costs will vary from semester to semester. Often purchasing used books can reduce this amount.

**Scholarships**
A variety of scholarships are available to Rio Hondo College students. For more information, contact the Rio Hondo College Foundation at (562) 908-3476 or go online to www.riohondo.edu/foundation to view scholarship opportunities.

**Student Financial Obligations**
Withholding Grades, Transcripts, etc. for Nonpayment of Financial Obligations (59410) – The governing board of a community college district may provide by appropriate rules and regulations that grades, transcripts, diplomas and registration privileges, or any combination thereof, shall be withheld from any student or former student who has failed to pay a proper financial obligation due to the district or a college. (BP 5035)

**Enrollment/Fees Refunds**

**Resident Students**
Resident students who drop by 10% of the course will receive a refund. Refunds are automatic and do not require any paperwork to be submitted. During the summer session, resident students reducing their course load or withdrawing from all courses during the first 10% of the session may file for a refund in the Admissions and Records Office. Please check the Rio Hondo web site, under the Admissions and General Information link for specific deadline dates. Any enrollment fee refund request is subject to a once-per-semester service charge of $10.00. Last day to drop with a refund deadline may vary according to the course begin and end dates. See Important Dates and Deadlines on the Admissions and Records webpage for specific dates.

**Nonresident Students**
Nonresident students who drop by 10% of the course section will receive a refund. Refunds are automatic and do not require any paperwork to be submitted. Any enrollment fee refund request is subject to a once-per-semester service charge of $10.00. Last day to drop with a refund deadline may vary according to the course begin and end dates. See Important Dates and Deadlines on the Admissions and Records webpage for specific dates.

The nonresident student will receive a 50% refund of out-of-state fees if the request for a refund is received in Admissions and Records during the third or fourth week of the fall/spring semester or during the second week of the summer session. No refunds will be granted after the fourth week of the fall/spring semester or after the second week of the summer session. Please check the Admissions webpage under Fees & Refunds www.riohondo.edu/admissions/fee-refunds/ for specific deadline dates.

In the event that law mandates other fees and law does not prescribe the refund policy, the refund of such fees shall be in the same manner as the refund of health, college services, and parking fees.
Support Services and Special Academic Programs

Academic Advisement
Assistance in developing an educational plan to obtain a certificate, degree, or to transfer to a university is available through contact with the counselor who advises in the student’s major field or any general counselor in the Counseling Department.

All regular instructors maintain office hours each week to interact with students. Faculty members are valuable contacts in providing personal information related to a student’s career or college choice.

Assessment Center
The Assessment Center administers a variety of tests and surveys to provide current information about student educational preparation, interests and other characteristics. This information is important for the advisement process and for student selection of courses and programs appropriate to their needs, experiences, background, and educational goals. Assessment tests must be completed before registering for English, ENLA, mathematics and Reading courses. Information about scheduling assessment tests is available on the Assessment web page. The Assessment Center is located in the Learning Resource Center, room LR141.

CalWORKs Program
The CalWORKs (California Work Opportunity and Responsibility to Kids) Program is a specialized program for families with children who are receiving temporary cash assistance from the Department of Public Social Services (DPSS). The purpose of the CalWORKs program at Rio Hondo College is to help students achieve their educational goals while preparing them for the workforce so that students can transition off of cash assistance and become self-sufficient.

The CalWORKs program provides services and resources to support the unique needs of students to further their educational success by providing:

- Personal counseling
- Academic and career advising
- Case management and progress monitoring to ensure compliance with DPSS guidelines
- Work study opportunities in various departments on campus
- Priority Registration
- No cost books and supplies
- Job development and preparation
- Free child care referrals for class and study time
- Transportation assistance
- Laptop loans
- Referrals to on and off campus resources

For more information, please come by our office located in the Student Services building, Room SS220, contact our staff at (562) 463-7311, or visit our website at http://www.riohondo.edu/calworks/.

Career Counseling

Career Services:
Counselors in the Center for Career & Re-entry Services (CCRS) offer assistance in clarifying educational and career goals as well as life choices. Utilizing validated career assessments, research, and goal setting methods, skilled Career Counselors can help students determine a major and choose a career based on interests, aptitudes, and abilities. An extensive collection of resources including books, pamphlets, software, and DVDs are available to assist with the career exploration process. The EUREKA software program offers career information and assessments for career decision making. On the CCRS website, a monthly calendar of career related workshops and an online jobs and internships database (College Central Network), can be found.

Re-entry Services:
The CCRS also provides comprehensive support services including educational planning, career, and job search assistance for re-entry students (students age 25+ who are new to college or are returning to college after at least a 5 year absence).

For more information visit the CCRS located in SS350 or go to http://www.riohondo.edu/career-center/.
Child Development Center/ Pre-School Laboratory

The Child Development Center/ Pre-School Laboratory operates a high quality early childhood program for preschool children, who turn 3 by September 1st up until they qualify for kindergarten, while offering laboratory opportunities for community college students and responding to the needs of the children’s families. Enrollment is available for Rio Hondo student parents, staff and faculty and the local community. California State Preschool provides funding support for families who qualify according to income and family need. Full fee enrollment is also available. Hours of operation are 7:30 a.m. to 5 p.m. Monday through Friday. Holidays and breaks are observed in accordance with the RHC academic calendar. For more information, please call (562) 908-3494 or visit the Rio Hondo website under the Current Student Menu>Resources>Preschool.

The program implements the California Preschool Learning Foundations and Curriculum Frameworks, which prepares children for Kindergarten and the child development field’s agreed upon developmentally appropriate practices.

Teachers prepare the learning environment and plan activities to challenge each child’s developing skills and understanding while focusing on their interests. Each child’s entry skill level and developmental progress is tracked and documented utilizing the California Desired Results Developmental Profile (DRDP).

Computer Resources

Rio Hondo offers computer access to students at various locations. Visit the Computer Resources web page for more information.

- Center for Career & Re-entry Services (SS350)
- Disabled Students Programs and Services (SS330)
- District Computer Lab (B107 and B108)
- El Monte Educational Center
- First Year Success Center (LR101)
- Learning Assistance Center (LR114)
- Library (2nd Floor)
- Math and Science Center (S300)
- PASS Program (LR105)
- Rio Hondo Educational Center at Pico Rivera
- Santa Fe Springs Regional Training Center
- South Whittier Educational Center
- Student Services Building (1st Floor)
- Transfer Center (SS250)

Continuing Education & Contract Education Classes

The mission of Continuing Education is to enrich the lives of non-traditional college students by providing lifelong learning opportunities. The high quality instructional programs are a combination of fee-based and non-credit courses, and directly reflect the needs of the community. The courses provide students with an opportunity for career advancement, prepare students for a college education, and enrich their lives through good health and personal fulfillment. While the College offers many of the same opportunities, the Continuing Education department focuses on the personal and professional development of diverse, non-traditional students who are looking for a short-term alternative to credit courses.

The Continuing Education Office brings customized Professional Development business, and short-term training to the community and local businesses. Training programs are designed to meet specific needs of the organization. Professional development courses and workshops are offered on campus, in the community, online, and are available to community members and employees of area businesses. Programs include computer applications, small business workshops, career development, supervision, international business, environmental technology, pharmacy technician, personal development and more.

Contract Training can be conducted at a company site or at the college training facilities. Bilingual training programs are also provided.

For information, please refer to the Continuing Education Class Schedule, our web page or call (562) 908-3469.

Counseling

The primary responsibility of the counseling staff is to provide counseling support for Rio Hondo students, faculty, and the campus community. Counselors strive to respect individuality, to encourage personal development and to foster a climate in which academic growth will occur. Therefore, counseling and student services are organized to aid each student in establishing, clarifying, and pursuing personal, educational, and career goals.

The Counseling faculty offers courses (COUN 105, 100, 101 and 151) which are designed to aid students in acquiring the skills, information, and personal awareness needed for college and career success.

Counselors are available throughout the year for consultation. Counselors can assist students with a variety of issues: program planning, choosing a major, graduation requirements, transfer requirements to 4-year colleges and universities, personal problems, scholarships and financial aid programs, tutoring, and communication with a professor. Students should make an appointment well in advance of registration to meet with a counselor. More information is available on the Counseling web page or by calling (562) 908-3410. The Counseling Department is located in the Student Services Building, room SS160.

Disabled Students Programs & Services (DSPS)

Rio Hondo College offers both classroom instruction and student support services for students with disabilities. Resource rooms and expert staff are available to students who need disability-related accommodations and support services. A variety of support services are available to eligible students with a disability. Students with a disability, including but not limited to students with a physical, learning or psychological disability, students with a visual impairment, acquired brain injury, Attention Deficit Hyperactivity Disorder (ADHD), an Autism Spectrum Disorder, or Intellectual Disability may be eligible for services.

Services include specialized tutoring, test-taking assistance, sign language interpreters and real-time cautioners, Braille and non-Braille transcription services, and disability-related specialized counseling services. Other services include registration assistance, priority enrollment and a variety of assistive computer technologies which promote equal access to college instructional programs and activities for students with disabilities.
Distance Education: Online Courses
Rio Hondo College offers students the opportunity to take college courses over the Internet through its Office of Online Education. Online courses offer the same curriculum as traditional classes except students may obtain lectures, class materials, communicate with the instructor, participate in class discussions and complete assignments via the Internet anywhere and at any time. Rio Hondo’s Office of Online Education offers students a variety of online courses to fulfill general education and transfer requirements for the University of California, California State Universities and other private universities. Online registration, counseling, tutoring and library support services are available. The instruction provided as distance education is subject to the requirements that may be imposed by the Americans with Disabilities Act (42 U.S.C. §12100 et seq.) and section 508 of the Rehabilitation Act of 1973, as amended, (29 U.S.C. §794d). For further information check the online Class Schedule, visit the Office of Online Education web site or call (562) 463-3218.

Extended Opportunity Programs & Services (EOP&S/CARE)
Extended Opportunity Programs & Services is a state funded program that provides “over and above” services to student from economically and educationally disadvantaged backgrounds. The program supports the enrollment, retention, and transfer of students and helps facilitate the successful completion of their educational goals. EOP&S services include:
- Counseling Services/Educational Planning
- Priority Registration
- Academic Probation Interventions
- Textbook Services
- Educational Supplies
- Laptop, Voice Recorder & Calculator Loans
- Cap & Gown for Graduates
- Meal Vouchers

Cooperative Agencies Resources for Education (CARE) is a supplemental component of (EOP&S) that specifically assists students who are single head of households with young children, by offering supportive services so they are able to acquire the education, training and marketable skills needed to transition from welfare-dependency to employment and eventual self-sufficiency for their families. In addition to EOP&S services, CARE students also receive:
- Motivational & informational Workshops
- CARE Merit Grants
- Rio Café Meal Vouchers
- Gas Cards
- Agency & County Referrals
- Single Parent Conferences
- Case Management and Advocacy
- Family Holiday Events
- Fundraising Events

To find out how to qualify for EOP&S/CARE or to get more information, please contact our office at (562) 908-7423 or come visit us in the Student Services Building, room SS240. www.riohondo.edu/eops

Financial Aid Services
Rio Hondo College participates in a variety of federal and state financial aid programs. These programs are designed to assist students with tuition, fees, books, supplies, transportation and room and board.

Most financial aid programs require a student to be enrolled at least half-time in a degree, certificate, or transfer program. Federal aid eligibility is also limited to students who are U.S. citizens, permanent residents, or other eligible non-citizens. Additional eligibility requirements apply to each program and may be obtained from the Financial Aid Office.

To apply, students must complete a Free Application for Federal Student Aid (FAFSA) at www.fafsa.ed.gov. The Rio Hondo College Federal School Code is 001269. The priority deadline to apply is March 2 to be eligible for all available aid. However, you may still apply after March 2, although funding may be limited. Visit the Financial Aid Office for further information located in the Student Services Building, room SS130 or visit the Financial Aid web page.

Federal Financial Aid Programs
The federal government offers a variety of grants for students.

Federal Pell Grant - This grant is available to all eligible applicants. Limited eligibility may also be available to less than half-time students.

Federal Supplemental Educational Opportunity Grant – A limited number of grants are available through this program. Priority is given to students who apply by the priority deadline and have exceptional need.

Federal Work Study - This program allows students to seek employment for on-campus jobs. Students generally work up to 20 hours per week.

Federal Direct Loan Program (FDLP) - Students may apply for a Subsidized or Unsubsidized loan from the federal government. Loan workshops are required for all students applying for a student loan.

Return to Title IV Funds
In accordance with the Federal Regulations HEA, Section 4848, 34 CFR 668.22, Rio Hondo College will apply a refund policy to all eligible students under the Return to Title IV funds requirements. Students who receive federal financial aid and withdraw from all classes prior to completing at least 60% of the semester will have their financial aid eligibility recalculated and may have to repay any “unearned” portion of financial aid received.

Loans
(Emergency Loans from ASRHC)
The Associated Students of RHC offer a 60-day, interest-free loan to students to assist them in emergency situations and for the purpose of buying books and supplies. Students who have no outstanding debt to the college, are enrolled in a minimum of 6 units, and have a GPA of 2.0 or above may apply at the Student Life & Leadership Department in the Student Union, during the first 2 weeks of the fall and spring semesters only. Loans are on a first-come, first-served basis.

For complete information on our programs please contact Disabled Students Programs & Services at (562) 908-3420, via video phone at (562) 364-8433 or visit our web page. The DSPS office is located in the Student Services Building, Rm SS330.
Scholarships
(Institutional Financial Aid Programs)
There are numerous scholarships available to Rio Hondo College students. These scholarships are funded and sponsored by a variety of on and off campus resources. To view or apply for available scholarships please visit: www.riohondo.edu/scholarships/

State Financial Aid Programs
The State of California offers a variety of grants for students. The California Dream Act of 2011 is the result of two assembly bills (AB130 and AB131). Together these bills allow undocumented and documented students who meet certain provisions of AB540 law to apply for and receive private scholarships funneled through public universities, state-administered financial aid, university grants and community college fee waivers. To apply, students must complete a free California Dream Act application with the California Student Aid Commission each year by March 2nd for priority filing.

Cal Grants – the California Student Aid Commission awards Cal grants. Students must be legal residents of California and have financial need. To be considered, students must complete a Free Application for Federal Student Aid (FAFSA) at www.fafsa.ed.gov or California Dream Act Application at www.csac.ca.gov, and submit a GPA Verification form by March 2 or September 2.
• Cal Grant A - You have qualified for federal or state financial aid, such as a Federal Pell Grant or Cal Grant based on the FAFSA application results.
• Cal Grant B - This grant helps students with living expenses, books, supplies, transportation and other non-direct educational expenses.
• Cal Grant C - These awards help vocational students with tuition and supplies. Recipients must be in a program of study that is between four months and two years duration.

Board of Governors Waiver - The Board of Governors Waiver (BOGW) helps to pay the per unit enrollment fee for all eligible applicants. If you request a fee waiver, you will be asked to sign a Fee Waiver Application under the penalty of perjury that all statements and information are correct. You must be a California resident in order to apply for these waivers.
• BOGW A - If you or your family receive Temporary Assistance for Needy Families (TANF), Supplemental Security Income (SSI), or General Assistance/General Relief, you may qualify for BOGW A. You may also qualify if you are the dependent of a deceased or disabled veteran. Apply in the Financial Aid Office.
• BOGW B- You may be eligible for a fee waiver if you have certification from the appropriate agency that you are a dependent of a deceased or disabled veteran or a recipient or a dependent of a recipient of Congressional Medal of Honor or a dependent of an individual killed in September 11th terrorist attacks or a dependent of a deceased law enforcement officer or fire protection personnel.
• BOGW C - You have qualified for federal or state financial aid, such as a Federal Pell Grant or Cal Grant based on the FAFSA application results.

Loss of Eligibility for Board of Governors Waiver
A student shall become ineligible for a Board of Governors Waiver (BOGW) if the student is placed on academic or progress probation, or any combination thereof, for two consecutive primary terms.

Loss of BOGW eligibility shall become effective at the first registration opportunity after such determination is made. Foster Youth shall not be subject to loss of BOGW due to placement on academic or progress probation. This exemption for Foster Youth is effective until the date specified in Education Code section 66025.9(c).

Appeal Loss of Board of Governors Waiver
A student may appeal the loss of a BOGW due to extenuating circumstances, or where a student with a disability applied for, but did not receive a reasonable accommodation in a timely manner. Extenuating circumstances are verified cases of accidents, illnesses, or other circumstances that might include documented changes in the student’s economic situation or evidence the student was unable to obtain essential student support services. Extenuating circumstances also includes special consideration of the specific factors associated with Veterans, CalWORKs, EOPS, and DSPS student status. Additionally, a student may appeal to regain BOGW eligibility by demonstrating significant academic improvement (i.e. minimum 2.0 GPA and completing more than 50% of attempted units) or by sitting out for two consecutive primary terms.

Satisfactory Academic Progress Policy (SAP)
The federal government mandates aid recipients to make satisfactory academic progress (SAP) towards a degree or certificate to maintain financial aid eligibility. To determine continued eligibility, the Financial Aid Office reviews each student's academic progress at the end of every semester, including summer.

Satisfactory Academic Progress is evaluated in three areas: 1. Grade Point Average Requirement - Student’s pursuing a course of study leading to an A.A degree, A.S degree, Baccalaureate degree, certificate, or transfer program must maintain at least a 2.00 cumulative GPA average. 2. Unit Requirement/Pace of Progression - Students are required to successfully complete a minimum of 67% of units attempted each semester. Classes with grades of A, B, C, D, or P are considered units successfully completed. Classes with grades of F, I, NP, IP, or W will count as attempted units, but not as successfully completed units. 3. Maximum Time Frame Requirement - Students enrolled in a degree or certificate program may receive financial aid for a maximum of 150% of the length of that program. Degree programs at Rio Hondo College typically require a 60 unit length for completion. Thus, students may receive financial aid for up to 90 attempted units (60 units x 150% = 90 units). Students pursuing a Baccalaureate degree from Rio Hondo College may receive financial aid for up to 180 attempted units. Once unit maximum is reached, students are ineligible to receive further financial aid. Grades of F, I, NP, IP or W are considered attempted units and included in Maximum Time Frame unit calculation.

Students not meeting any of the minimum SAP requirements outlined above will be placed on financial aid warning for one academic semester (students exceeding maximum time frame are not placed on financial aid warning). Students on financial aid warning may continue to receive financial aid during this period.

Students not meeting minimum SAP requirements for two consecutive semesters will be suspended from receiving financial aid (federal and state, with the exception of the BOG Fee Waiver). Any financial aid awarded when a student becomes ineligible will be withdrawn.
Satisfactory Academic Progress Appeals
Students suspended from receiving financial aid can regain financial aid eligibility by meeting minimum SAP requirements (2.0 GPA, complete 67% of attempted units, not exceed 90 units) for two consecutive semesters, without financial aid and enrolling in at least 6 units each semester. Once a student has completed two consecutive semesters, meeting the minimum SAP requirements, he or she must submit a SAP Appeal Request form to the Financial Aid Office. Students ineligible for financial aid due to maximum time frame units must submit a SAP Appeal Request Form, along with a full educational plan and typed statement indicating why he or she attempted 90 units or more (180 units for Baccalaureate degree).

For extenuating circumstances, a student may be eligible to appeal for reinstatement of financial aid, without completing two consecutive semesters and meeting minimum SAP requirements. Reasons a student may be eligible for an Extenuating Circumstances SAP Appeal include: serious illness, injury or medical condition requiring doctor’s care, death of an immediate family member, victim of a crime or unexpected disaster or other extenuating circumstances beyond the student’s control.

SAP appeals are reviewed by the SAP Appeals Committee, for approval or denial, based upon the student’s individual circumstances. All decisions are final and there is no higher appeal.

First Year Success Center
The First Year Success Center is a place to enhance the academic success of all first year students at Rio Hondo College through a network of student support services. Students meet with a counselor to develop an Educational Plan and receive assistance with AccessRIO navigation, registering for classes and applying for Financial Aid. It is located in room LR101 in the Learning Resource Center.

Guardian Scholars
The Guardian Scholars Program is a comprehensive student support program that serves current and former foster youth pursuing higher education. The Guardian Scholars Program at Rio Hondo College is dedicated to providing services and support that meet the personal and academic needs of our students in successfully transitioning into adulthood, obtaining a degree/certificate and/or transferring to a four-year university. It is located on the third floor of the Student Services Building in room SS307.

Honors Transfer Program
The Rio Hondo College Honors Transfer Program is designed to meet the needs of students who seek a challenging educational experience that goes beyond the regular degree program.

The Honors Transfer Program incorporates a more in-depth investigation of topics. Many honors courses are kept intentionally small to facilitate the discussion/seminar rather than lecture format. A reduced class size also encourages a more collaborative learning experience allowing students to interact more freely with each other and the faculty members who teach these courses.

Rio Hondo College has signed honors transfer agreements with UCLA, UC Riverside, UC Irvine, UC Santa Cruz, CSU Long Beach, San Diego State, CSU Fullerton, CSU Stanislaus, Chapman University, Pomona College, Pitzer College, Occidental College, La Sierra University, Loyola Marymount, Whittier College, Pacific University (Oregon) and Whitman College (Washington).

To complete the Honors Transfer Program, students must take six honors courses, achieve at least a 3.2 grade point average for all transferable college courses taken, complete the required general education courses as well as prerequisite work for their major. In addition, honors students must meet with the honors counselor twice a semester. For more information and application forms, visit the Honors Transfer Program website http://www.riohondo.edu/honors/.

Labs
Labs provide an environment for students to practice and develop their skills in a variety of courses and often with the assistance of Instructors or Instructional Assistants.

Foreign Language/ENLA Lab
The Foreign Language Lab is located on the first floor of the Learning Resource Center and is available for students enrolled in ENLA, ASL, or foreign language classes that require a lab.

Nursing Simulation Center
The Simulation Center is a “safe” place for students to practice their skills in a simulated hospital environment, “Roadrunner General Hospital.” It was created in order to support and supplement the clinical component of the nursing program. With the use of high-fidelity patient simulators and clinical scenarios, students are able to practice and experience situations that might not arise in the clinical setting, thus adding to their clinical expertise. The Simulation Center uses the following types of simulators: 2 adult, 1 birthing, 1 newborn and 1 pediatric, thus offering learning activities covering the full nursing curricula. Our Center is temporarily located in HS-11 near parking lot 3. For more information, visit the Health Science & Nursing web page.

Pre-School Laboratory
Rio Hondo Students from the Child Development/ Education Department, the Behavioral and Social Science Division and Nursing utilize the Pre-school Laboratory to observe the development and behavior of pre-school children and to apply the knowledge that they gained in their courses working directly with children.

Reading Lab
The Reading Skills Lab is located on the first floor of the Learning Resource Center in LR118. While the lab is used primarily for READ 021L and READ 022L students to supplement their lectures in READ 021 and 022, it is open to any student who might need help with a reading assignment from another class.

Writing Center
The Writing Center is located on the first floor of the Learning Resource Center and is available for students enrolled in English 30, 35, 101, and 201 courses. Students must attend a Writing Center Orientation that takes place the first week of each semester. Students should check their class schedule for their registered lab day and time.

Writers’ Resource Center
The Writers’ Resource Center is an interdisciplinary writing center housed on the first floor of the Learning Resource.
Center. It is open to any student who requests assistance with writing for any subject. The student receives one-on-one assistance from an English teacher. Schedule an appointment online at www.riohondo.edu/wrc or drop by LR126A.

Library
The Rio Hondo College Library is the research center of the College. Occupying the second floor of the Learning Resource Center, the library offers a full range of books, periodicals, online databases, e-books, and streaming videos in support of the college curriculum, as well as for general enrichment. Computer workstations, ADA-compliant computers, wireless access, laptops and a self-service copy/print center are also available.

Individual study carrels, group tables, and informal seating areas allow for quiet study. To students who prefer to work together on class assignments, the library offers seven group study rooms that can be reserved for two hours at a time.

Circulation Services
The circulation desk at the entrance to the library serves as the first point of student service. Library staff help:
- Activate your library privileges
- Check out books, laptops and a limited number of high-demand course textbooks
- Loan audiovisual equipment to faculty and staff, and fill requests for campus signage.

Reference Services
Because of the ever-expanding variety and range of available information, students today must learn the critical thinking and information competency skills required to optimize the use of research resources. Librarian faculty at the reference desk teach these skills through:
- Individualized assistance with research queries
- Extended consultation by appointment with students and faculty
- Instruction in conducting effective research, in collaboration with teaching faculty on campus and at the educational centers
- Drop-in research workshops, and
- A 3-unit library research class (LIB 101)

For more information about library services, including the online catalog and research guides, please contact a reference librarian at (562) 908-3484 or check the library’s website at: www.riohondo.edu/library.

Math Engineering Science Achievement (MESA) and TRiO Student Support Services STEM
The MESA Community College and TRiO SSS STEM Programs support students who plan to graduate from Rio Hondo College with an Associate’s degree and transfer to four-year institutions in science, technology, engineering, and mathematics (STEM).

Program Objectives:
- Increase college retention and transfer rates to four-year institutions for STEM majors.
- Increase the number of under-represented students who graduate with degrees in STEM majors.
- Provide academic and personal support for STEM majors.

Program Components
- MESA Center for tutoring and group study
- Academic Excellence Workshops designed to reinforce concepts and topics learned in chemistry, mathematics, and physics courses
- Academic advisement and educational plans through transfer
- Assistance with study skills and time management
- Support with application and transfer to four-year institutions
- Exposure to information about internships, research opportunities, and other enrichment programs
- Information about financial aid, scholarships, and money management
- Mentoring with peers, professors, and professionals
- Leadership training
- Professional and academic conferences
- Networking opportunities
- Career information

For complete program information about the MESA/TRiO SSS STEM Programs, please contact us in Room S205 (562)-463-3222 or visit www.riohondo.edu/mesa. Program eligibility requirements apply.

Orientation
Orientation familiarizes and acquaints students with important college policies and expectations, as well as the range of services and programs available. The “My Online Orientation” is available via the AccessRio portal.

The completion of an Online or In-person Orientation is mandatory for all New Students. In compliance with SSI statewide regulations, New Students who do not complete an Online or In-person Orientation may have a hold placed on their registration. New and Continuing Students may access their “My Online Orientation” by logging onto AccessRio.>> Click on the My Online Orientation button.

The PASS Program
The PASS Program (Personal and Academic Support Services) is a federally-funded TRIO Program, through Student Support Services, which prepares low-income and/or disabled students for graduation or transfer into four-year colleges and universities.

Services are free to eligible students and include:
- Educational advisement
- Transfer and career information and support
- Tutoring services
- Priority registration
- Student success workshops
- Educational and cultural activities
- Financial aid and scholarship information
- Cash-aid stipends

The PASS Program office is located in the Student Services Building, room SS140. For more information, visit the PASS Program web page or call (562) 463-3216.

Pathway to Law School
The Pathway to Law School program is for underrepresented first-generation college students interested in learning more about careers in the legal field and entry to law school. The initiative is designed to enhance opportunities and advancement in the legal profession for diverse populations. Ideally, students will spend two years at Rio Hondo College then transfer to any accredited undergraduate institution to complete their bachelor’s degree and then be considered for a priority admissions review to the six participating law schools.

Students will receive:
• Individual counseling and mentoring
• Exposure to careers in law
• Networking and learning opportunities
• Membership to the Rio Hondo College Pre-Law Society
• LSAT Test prep support
• Priority admissions review at participating law schools
• Law school application fee waived

Please visit the Pathway to Law School web page for the list of participating law schools and course requirements. The program is located in the Administration Building, room A203.

Puente Project
The Puente Project is a national-award winning program that has helped tens of thousands of educationally disadvantaged students who enroll in four-year colleges and universities, earn degrees, and return to the community as leaders and mentors to future generations. Puente is a one-year program that combines accelerated instruction in English, intensive academic counseling, and mentoring. The Puente Project office is located in the Administration Building, Room A203. For more information, visit the Puente web page http://www.riohondo.edu/puente/.

Student Health and Psychological Services
Student Health and Psychological Services helps keep students physically and emotionally healthy so they can perform at their best. Professionals available include physicians, a psychologist, psychology interns, nurses and clerical support staff. The licensed professionals evaluate and treat minor, temporary physical and emotional conditions that require short-term care. If more intensive treatment is needed, referrals to outside resources are provided.

Health Services include:
• First Aid care for accidents and other emergencies
• Appointments with a Registered Nurse
• TB Tests
• Flu Shots
• Pregnancy Tests
• Vision Test
• Hearing Tests
• Sick room available if needed
• Over-the-counter medications for minor illnesses available in the vending machine for a nominal fee. Located in the 2nd fl. SS bldg.
• Blood pressure checks, height and weight measurement
• Blood Tests
• HIV Testing
• Free STD Testing (Whittier Health Center)
• Resources, Assessments, and referral to low cost services in the community

Psychological Services include:
Short-term counseling for students who are struggling with issues such as family and social relationships, romantic relationships, life transitions, identity, grief, stress, trauma, anxiety, or depression. The following confidential services are available to students who are experiencing personal problems:
• Individual Counseling
• Group Counseling
• Crisis Intervention
• Stress Management
• Consultations and referrals

Student Health and Psychological Services is located in the Student Services Building, room SS230. For more information, visit the Student Health and Psychological Services web page at www.riohondo.edu/student-health-services.

Study Abroad
Rio Hondo College is a member of the Southern California Foothill Consortium that currently offers two study abroad experiences each year that provide students with a unique opportunity to enrich their education. In fall, students study in London, England and, during the spring, in Spain. Students enroll in classes, receive transferable general education units and can apply for financial aid and scholarships to help with the costs. Program courses and activities are geared toward taking advantage of the international location, and students gain invaluable multicultural experience by living and learning outside of the United States. For more information, visit the Study Abroad web page at http://www.riohondo.edu/study-abroad/.

Transfer Center
The primary responsibility of the Transfer Center is to ensure a transfer culture by providing comprehensive support services and resources as well as counseling services to empower students seeking to transfer to four-year colleges and universities.

The Transfer Center provides up-to-date information about transferring to four-year colleges or universities and public, private and out-of-state institutions. The Transfer Center assists students, counseling faculty and staff, with the transfer process of as well as coordinates various activities, resources, and services that support the transfer process. For more information visit the Transfer Center in the Student Services Building, room SS250, call (562) 463-4619 or visit the Transfer Center web page.

Tutoring Support
Tutoring services are available free to Rio Hondo College students at two locations on campus, the Learning Assistance Center and the Mathematics & Science Center. Tutoring is also available to students enrolled in specialized programs. For more information, visit the Tutoring web page www.riohondo.edu/tutoring/.

Learning Assistance Center (LAC)
The Learning Assistance Center provides one-to-one tutoring and organized study groups to assist students in reviewing and reinforcing course-related concepts through a variety of instructional aids and materials. LAC services are available to all Rio Hondo College students at no charge. Students may schedule tutoring appointments or study group sessions at the LAC desk on the first floor of the Learning Resource Center. Hours are listed on the LAC web page: http://www.riohondo.edu/communications-and-languages/labs/learning-assistance-center-lac/.

Mathematics & Sciences Center (MSC)
The Mathematics & Science Center located in the Science Building, room S300, provides free math tutoring for all Rio Hondo College students. In addition, four math courses are offered through the MSC. Other resources available to MSC students include computers, mathematics interactive
software, and multi-media study aids. An assigned instructor, instructional assistants and tutors are available to assist students. Hours are listed for each semester on the MSC web page: http://www.riohondo.edu/mathematics-and-sciences/mathematics-and-sciences-homepage/tutoring/.

**Veterans Services**

Veterans and Veteran Dependents are encouraged to take advantage of the counseling services and educational programs offered by Rio Hondo College. The Veterans Service Center (VSC) is a one-stop center that offers veteran’s counseling, certifications, financial aid advising, tutoring, and other valuable resources. Rio Hondo College cooperates with the Veterans Administration and with the California State Bureau of Vocational Rehabilitation in helping veterans and their dependents to obtain the education necessary to realize their academic and vocational goals. Rio Hondo College has been approved for the training of veterans and eligible dependents. Veterans and dependents are required to comply with Veteran Regulations Sections 21.4135, 21.4235 and 21.4277 in regards to required attendance and progress that the student-veteran or dependent must meet in order to receive educational benefits under Title 38, United States Code.

The Veterans Administration requires all entering students to be formally evaluated in writing for possible award of credit for previous training and experience. This applies to all students, full-time and part-time, degree and non-degree candidates. To prevent possible future interruption of educational benefits, it is essential that an official copy of all previous course work (college or service) be on file at Rio Hondo College Admissions & Records office and in the Rio Hondo College Veterans Service Center located on the first floor of the Student Services Building.

Satisfactory academic progress of veterans or eligible dependents is measured by the successful completion of the number of units enrolled. Non-punitive grades (W NP or NC) are not considered making satisfactory progress. Benefits will be retroactively terminated effective the first day of the semester for any non-punitive grade received. If the veteran submits to the VA mitigating circumstances, overpayments may or may not be waived. Should a veteran fail to make satisfactory progress for two semesters, cumulative GPA of 2.0 or better, benefits will be terminated. The veteran must contact the RHC Veterans Service Center to set up an appointment for his/her case to be reviewed by a Veterans counselor. The Veterans counselor will recommend a suitable course of study. Upon satisfactory completion of one semester of approved courses, where the cumulative GPA reaches a minimum of 2.0, benefits will be reinstated.

The veteran or dependent has the responsibility to adhere to these standards of attendance and progress and to notify the Rio Hondo College Veterans Service Center of any change in status that would affect the collecting of veteran’s benefits. Monthly attendance reporting is required of veterans and dependents. Additions, drops, withdrawals and last day of attendance MUST BE REPORTED AT ONCE.

Please visit the Rio Hondo College Veterans Service Center, in the Student Services Building, Rm SS150 for details and application forms. Information is also available on the Rio Hondo College Veterans Service Center web page.

**Weekend College**

The Weekend College is designed for working adults who wish to take classes towards a degree, transfer, or personal enrichment and improvement. Friday, Saturday, and occasional Sunday classes are scheduled each semester. Refer to the online Class Schedule for further information.
How to Get Involved In Campus Activities
Getting involved in activities at the college enriches the college experience for students. Rio Hondo College has a variety of ways in which a student may get involved, including student government, athletics, and clubs.

Student Government
The Associated Students of Rio Hondo College (ASRHC) is a self-sustaining student government organization. The ASRHC officers serve as student representatives at campus-wide committees, impacting decision-making that will ultimately enhance the student experience at RHC.

Student Clubs
Students may pursue a special interest through participation in one of the campus clubs or organizations. Those who choose to participate in this aspect of college life may derive valuable social and educational experiences. Each club has individual service projects and traditions, and is sponsored by one or more members of the permanent faculty or staff. Contact the Student Life & Leadership Department at (562) 908-3427 for more information.

ASRHC Sponsored Events
The Associated Students of Rio Hondo College sponsors a variety of activities that fall within the Student Life and Leadership Guiding Values: Student Success and Degree Completion, Cultural Diversity, Social Responsibility, and Leadership Development. The ASRHC collaborates with various campus departments and clubs to ensure that events and activities reach all students across campus.

Student Leadership Institute
The Student Leadership Institute (SLI) at Rio Hondo College is a non-credit certificate program in partnership with California State University, Fullerton (CSUF). Students who participate acquire and develop the skills and awareness necessary to become an effective leader on campus, in the community, and in their future career. They learn the value of networking, gain effective communication skills, enhance their confidence, define their leadership style, and engage in co-curricular activities that augment their academic learning. Students who successfully complete the program earn a leadership certificate signed by the CSUF college president, a very marketable tool on a resume and on transfer applications. Contact the Student Life & Leadership Department at (562) 908-3427 for more information.

College Services Fee
When a student enrolls in the college they pay a college service fee. This fee entitles students to the following:
• ASRHC Emergency Loans
• Access to the Library Textbook Reserve
• Free photo I.D. Card for first I.D. only. (Additional or replacement I.D.’s cost $5.00 each.)
• Various campus activities and events
• Free admission to some athletic events and theatre productions
• Discount tickets to AMC Theaters, some amusement parks and more!
• Membership in campus clubs and organizations
• Opportunities to be elected to student senate.

Student Publications
El Paisano is a weekly student produced award-winning publication that has attained Congressional recognition for its excellence in print, digital, and television broadcast journalism. La Cima is the college’s magazine. El Paisano serves as a training opportunity for prospective students interested in journalism, mass media, communications, public relations, and broadcasting with theory and hands-on production skills. Students interested can view student work at: www.elpaisanonewspaper.com.

Athletics – Men’s & Women’s Intercollegiate Sports
Rio Hondo College is a member of an athletic conference formed by the California Community College Athletic Association (CCCAA).

Conference competition is scheduled in the following sports for men: baseball, basketball, water polo, swimming, soccer and wrestling; and for women: soccer, softball, basketball, beach volleyball, volleyball, tennis, water polo, and swimming.
Male or female students who wish to become members of a team should check the class schedule online at: www.riohondo.edu for the current offerings for both men and women’s intercollegiate athletic teams; contact the coach of that team in the Athletic Department for details; and enroll in that class during registration. Prior to registration, students should see the Athletic Academic Counselor. Appointments can be made by contacting the Athletic Department at (562) 908-3409. Additional information is also available on the Athletics web page.

**Athletic Eligibility for California Community College Intercollegiate Teams**

Male and female students may represent the college in athletic contests upon verification of their status as amateur athletes in the sports in which they wish to compete. In order to be eligible to participate, student athletes MUST BE actively enrolled in a minimum of 12 units at his/her community college during the competition in the sport. Of the 12 units, 9 must be in academic subjects, and 3 units may be Kinesiology activity courses.

**Current Returning Student Athletes:**

To be eligible for the second season of a sport, the student athlete MUST COMPLETE and PASS 24 SEMESTER UNITS AT A MINIMUM GPA OF 2.0 BETWEEN SEASONS OF COMPETITION. Of these units, 18 must be in academic classes and 6 units may be Kinesiology activity courses. These units must be completed PRIOR to the beginning of the semester of the second season of sport. Units completed and passed during the first season of sport shall be included in the calculation of the 24-semester unit requirement.

**Entering Freshman beginning Fall of 2015:**

**ACADEMIC ELIGIBILITY:** In order to be eligible and remain eligible to represent an institution in intercollegiate athletics competition a student athlete has to successfully complete at least 6 units (semester or quarter) during the preceding academic term in which the student is enrolled as a full-time student at the certifying institution with a cumulative 2.0 GPA beginning with and including the units taken during the first semester/quarter of competition.

Institutional verification for eligibility for continuing athletics competition a student athlete has to successfully complete at least 6 units (semester or quarter) during the preceding academic term in which the student is enrolled as a full-time student at the certifying institution with a cumulative 2.0 GPA beginning with and including the units taken during the first semester/quarter of competition. Institutional verification for eligibility for continuing competition will be completed within one week of the posting of grades for the academic term by the institution.

A student transferring to Rio Hondo College who has previously PARTICIPATED in intercollegiate athletics at another California community college MUST COMPLETE 12 units at Rio Hondo College PRIOR to the beginning of the semester of competition.

Students are NOT ALLOWED more than TWO SEASONS of athletic competition in any one sport. Students who have questions concerning athletic eligibility should check with the Athletic Director by calling the Kinesiology, Dance, and Athletics Department at (562) 908-3409. All student athletes are expected to comply with the Decorum policy in the State Constitution for Athletics.

**Student Conduct at College-Sponsored Events**

**A. Basic Responsibilities at Conferences:**

1. Participants, students and advisors shall be fully informed concerning their responsibilities for proper conduct during a trip and at the conference.

2. Students will be directly responsible to the advisor.

3. Rules established by the host school on location must be observed.

4. Prior to the conference, student participants and advisors shall read the code of conduct.

5. Attendance at all meetings including meals is considered part of the participant’s responsibility while at a conference unless first excused by the advisors.

6. Students may not represent Rio Hondo College at any event away from the campus without an advisor unless they are given special permission to do so by the college administration.

**B. Regulation of Conduct**

1. It is contrary to California State Law to possess, serve, or consume alcoholic beverages or marijuana at any college function including regional or state conferences, regardless of the age of those participating. Anyone who appears under the influence of alcoholic beverages or marijuana shall be subject to disciplinary action by the conference and Rio Hondo College.

2. All participants at conferences or on trips are expected to show proper consideration for the rights and welfare of others. Undue noise and disturbances shall be considered violations of this regulation.

3. No firearms will be permitted on any trip. College-approved pistol and rifle matches are excepted.

**Social Functions**

1. The college must sponsor any club or organization recruiting Rio Hondo College students.

2. All social functions on campus must be cleared through the Student Life and Leadership Department.

3. Students attending social functions on campus are under the jurisdiction of the college and must assume individual responsibility for the accepted standards of behavior.

4. Guests of Rio Hondo College students shall be the responsibility of the student. Guests are expected to behave as students and, as such, abide by college regulations.

5. Students shall be responsible for all property damage incurred by guests during any activity sponsored on campus.
6

Academic Guidelines

Attendance/Absences
All registered students should be present at the first meeting of the class unless other arrangements have been made with the instructor. The instructor may drop students who are not present by the end of the first class. However, it is the students’ responsibility to officially drop any class that they no longer wish to attend to ensure their record is clear.

Students are expected to attend all meetings of each course in which they are enrolled. The instructor of each class determines the attendance policy. After an absence, it is the responsibility of the student to check with their instructor to obtain missed materials or information on completion of all missed assignments.

Academic Dishonesty
Academic dishonesty is defined as cheating, plagiarism, or obtaining or attempting to obtain credit for work by the use of any dishonest, deceptive, fraudulent, or unauthorized means or helping someone else to commit an act of academic dishonesty.

Definition of Cheating
Cheating is the act of obtaining or attempting to obtain credit for academic work through the use of dishonest, deceptive, fraudulent, or unauthorized means. Helping someone commit an act of academic dishonesty is also considered cheating. The following are only some of the many forms cheating may take:

- Copying another’s work on an exam, paper, or project; any behavior that defeats the intent of an exam
- Possessing or using unauthorized materials during an exam; or collaborating on a project, homework, or other assignment to be turned in for credit where the instructor expressly forbids such collaboration
- Communicating with fellow students during an exam, taking an exam for another student, purposely allowing another student to copy during an exam, or providing coursework for another student to turn in as his or her own effort
- Fabricating, falsifying or misrepresenting data or results from experiments, interviews or surveys
- Submitting the same work in more than one class for credit without permission from the instructor
- Knowingly furnishing false information to the college including forgery, altering of campus documents or records, tampering with grading procedures, fabricating lab assignments, or altering medical excuses

Definition of Plagiarism
Plagiarism is defined as representing the words, ideas, or work of another as one’s own in any academic exercise. Plagiarism consists of taking the words or substance of another work and either copying or paraphrasing without giving credit to the source whether that material is paraphrased or copied verbatim or near verbatim form. Plagiarism is applicable to written, oral, and artistic work. The following examples are only some of the many forms plagiarism may take:

- Word-for-word copying of work written by someone else
- Failure to give proper credit for ideas, statements of facts, or conclusions derived by another, including undocumented web source usage
- Failure to use quotation marks when quoting directly from another, whether a paragraph, sentence, or phrase
- Close and extended paraphrasing of another work without acknowledging the source
- Submitting a paper purchased from a research or term paper service, including the internet

Other Specific Examples of Academic Dishonesty

- Purposely allowing another student to copy from your paper during a test
- Giving homework, term paper or other academic work to another student to plagiarize
- Having another person submit any work in your name
- Lying to an instructor or college official to improve your grade
- Altering graded work after it has been returned, then submitting the work for re-grading
- Stealing tests
- Forging signatures on college documents, altering campus documents or records, tampering with grading procedures, fabricating assignments, or altering medical excuses
- Collaboration without permission of instructor
- Gaining unlawful or unauthorized access to college or district computers or servers

Academic Dishonesty and its Consequences

- Faculty members have the right to choose whether or not to pursue suspected cases of plagiarism and cheating.
- When addressing plagiarism or cheating with reasonable evidence, the faculty member should meet with the student to discuss the concern. The student shall have the opportunity to share their side of the story and explain their behavior.
- Faculty members may consult with their Division Dean or Dean of Student Affairs when determining whether academic dishonesty has occurred.
- In situations where cheating or plagiarism has occurred, the faculty member is to determine the academic consequence in compliance with Education Code, and board policy and procedures, which prohibit dropping a student from a course. Faculty members shall inform students
Grades and Grade Change

students, the maximum load is 12 units. Permission of a counselor. In the case of probationary students, the maximum load is 18 units without special permission by the instructor of the course. A student has authorization by the instructor of the course. The determination of the student's grade by the instructor shall be final in the absence of mistake, fraud, bad faith, or incompetence. The determination of the student's grade by the instructor is final in the absence of mistake, fraud, bad faith, or incompetence. The removal or change of an incorrect grade from a student's record shall only be done upon authorization by the instructor of the course. A student has one year from the end of the term in question to request a grade change. In the case of fraud, bad faith, clerical error, incompetence, or unavailability of instructor or death of instructor, the final determination concerning removal or change of grade will be made by the Vice President of Academic Affairs with the appropriate involvement of faculty from the discipline and the Academic Senate. All returned work must be retained by the student as documented evidence in order to pursue a request for a grade change. Grades from a grading scale shall be averaged on the basis of the point equivalencies to determine a student's grade-point average (GPA). The highest grade shall receive four points, and the lowest grade shall receive 0 points, using only the following evaluative symbols:

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Definition</th>
<th>Credit Granted</th>
<th>Grade Point</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>yes</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>Above Average</td>
<td>yes</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>Average</td>
<td>yes</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>Below Average</td>
<td>yes</td>
<td>1</td>
</tr>
<tr>
<td>F</td>
<td>Failure</td>
<td>no</td>
<td>0</td>
</tr>
</tbody>
</table>

To calculate a grade point average (GPA), divide the total grade points by the total GPA units.

The following symbols are not used in calculating GPA:

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Definition</th>
<th>Credit Granted</th>
</tr>
</thead>
<tbody>
<tr>
<td>P</td>
<td>Pass (satisfactory)</td>
<td>yes</td>
</tr>
<tr>
<td>NP</td>
<td>No Pass (less than satisfactory)</td>
<td>no</td>
</tr>
<tr>
<td>I</td>
<td>Incomplete (where &quot;I&quot; indicates the default grade to be received by the student if the incomplete is not completed within one year)</td>
<td>no</td>
</tr>
<tr>
<td>IPP</td>
<td>Incomplete Pass</td>
<td>no</td>
</tr>
<tr>
<td>INP</td>
<td>Incomplete No Pass</td>

</tbody>
</table>

P/NP: Pass/No Pass

In addition to courses in which all students are evaluated on a Pass/No Pass basis, students may enroll in one course each semester on a “P/NP” basis. They may elect at registration, or no later than the end of the third week (by end of first week of summer school), whether the basis of evaluation is to be “P/NP” or a letter grade “P” (Pass) is defined as “C” grade or better.

All units earned on a Pass/No Pass basis in accredited California institutions of higher education or equivalent out-of-state institutions shall be counted in satisfaction of community college curriculum requirements.

IMPORTANT: Students will not be allowed to request a letter grade after the dates listed on the RHC website (www.riohondo.edu/admissions/important-dates-and-deadlines); nor to request a letter grade for previously completed courses in which they earned a Pass “P.”

I : Incomplete – An incomplete grade, “I,” may be assigned for academic work not completed for unforeseeable emergencies and justifiable reasons at the end of the term. The condition for removal of the “I” shall be stated by the instructor in a written record. This record shall contain the conditions for removal of the “I” and the grade assigned in lieu of its removal (IA, IB, IC, ID, IF, IPP, INP). This record must be given to the student with a copy on file with the registrar until the “I” is made up or the time limit has passed. A final grade shall be assigned when the work stipulated has been completed and evaluated or when the time limit for completing the work has passed.
The “I” may be made up no later than one year following the end of the term in which it was assigned. Under unusual circumstances, a student may petition for an extension of the one-year period.

**IP: In Progress** – An in-progress grade, “IP,” shall be used to denote that the class extends beyond the normal end of an academic term. It indicates that work is in progress but that assignment of a substantive grade must await completion of the course. The “IP” symbol shall remain on the student’s permanent record in order to satisfy enrollment documentation. The appropriate evaluative grade and unit of credit shall be assigned and appear on the student’s record for the term in which the course is completed.

**RD: Report Delayed** – The report delayed grade, “RD,” may be assigned by the registrar only. It is to be used when there is a delay in reporting the grade of a student due to circumstances beyond the control of the student. It is a temporary notation to be replaced by a permanent symbol as soon as possible.

**W: Withdrawal** – A withdrawal or drop between 20% and 60% of the term courses length will result in a “W” notation on a student’s permanent record. See section 3 for specific withdrawal information.

**MW: Military Withdrawal** – A military withdrawal grade, “MW,” occurs when a student who is a member of an active or reserve United States Military Service receives orders compelling a withdrawal from courses and petitions to receive a “MW.” See section 3 for specific military withdrawal information.

**Grade Report** – Grades will be issued at the end of each session.

**Auditing**

Students are not permitted to audit courses and may not attend classes in which they are not officially enrolled.

**Basic Skills Enrollment**

The California Education Code limits students to no more than 30 semester units of pre-collegiate basic skills units. Basic skills courses are defined as courses “in reading, writing, computation, and English As A New Language which are designated by the community college district as non-degree credit courses pursuant to Section 55002(d) of Title V.”

Rio Hondo College defines basic skill courses as courses in reading, writing, computation and English As A New Language with a course number less than 40. ENLA and learning disabled students are exempted. Students who feel they would benefit by taking more than 30 semester units of pre-collegiate basic skills courses should see the Director of Admissions & Records.

**Classification of Students**

**Freshman:** 0 to 29 units completed

**Sophomore:** 30 to 59 units completed

**Full-time:** Students enrolled for 12 or more units in fall and spring (4 or more units in summer)

**Part-time:** Students enrolled for less than 12 units in fall and spring (less than 4 units in summer).

**Challenge of Educational Records** – Education Code 76232 allows a student to challenge the contents of a student’s educational record (per Education Code 76232) to correct or remove information that the student alleges to be: (1) inaccurate; (2) an unsubstantiated personal conclusion or inference; (3) a conclusion or inference outside the observer’s area of competence; or (4) not based on the personal observation of a named person with the time and place of the observation. See the Director of Admissions & Records for more information.

**Academic Renewal Guidelines** – The academic renewal procedure permits the alleviation of a student’s previously recorded substandard academic performance that is not reflective of a student’s present demonstrated ability and level of performance. Academic renewal may gain for students the benefits of their current level of ability and performance and not permanently penalize them for poor performance in the past.

Therefore, within the regulations listed, Rio Hondo College may disregard particular, previously recorded substandard work from a student’s cumulative grade-point average.

1. The student may petition through the Admissions and Records Office to remove previous substandard work (any course in which a grade below 2.00 has been recorded) taken at Rio Hondo College. The district superintendent or designee may grant permission.

2. Up to 30 units may be alleviated.

3. A student’s current demonstrated ability may be the basis for alleviating previous substandard work.

4. From the last substandard work to be alleviated, the following 30 consecutive undergraduate units from any regionally accredited college or university must average at least a 2.00 GPA in order to qualify.

5. Two years must have elapsed since the most recent work to be alleviated.

7. The student’s academic record will be appropriately marked indicating those courses that have been alleviated.

When academic work is alleviated, grades are not removed; they are noted and subtracted from the grade point average. All entries remain legible so that a true and complete record is maintained. There is no assurance that alleviated courses will be treated similarly by other educational institutions outside the district.

**Final Examinations**

Final examinations will be given in all courses during the last week of each semester. The final exam schedule for spring and fall is listed on the RHC web site (www. riohondo.edu) and may vary from the regular class hours.

**Honors Scholar**

Honors Scholars are students who have completed any six honors courses, completed all general education transfer requirements, achieved a grade-point average of 3.2, and completed all lower division major prerequisites. All honors courses have an “H” designation.
**Probation Standards**

**Disciplinary Probation** – A student may be placed on disciplinary probation for infractions of state law, education code, board policy, student government regulations, or behavior unbecoming a student at Rio Hondo College.

Students on disciplinary probation may not represent the college in any activity, conference, or field trip, nor can they hold office in the Associated Student government or in any student body sponsored club.

**Academic Probation** – A student who has attempted at least 12 semester units as shown by the official academic record shall be placed on academic probation if the student has earned a grade-point average below 2.0 in all units which were graded on the basis of the grading scale described in the section Academic Standards–Grades. If a student is placed on academic probation for two consecutive semesters, the student must receive approval by a counselor prior to registering for classes in the following semester.

**Removal from Academic Probation** – A student on academic probation for a grade-point deficiency shall be removed from probation when the student’s accumulated grade-point average is 2.0 or higher.

**Progress Probation** – A student who has enrolled in a total of at least 12 semester units as shown by the official academic record shall be placed on progress probation when the number of all units in which a student has enrolled and for which entries of “W” and “NP” are recorded reaches or exceeds the number of units with other grades. If a student is placed on progress probation, the student must receive approval by a counselor prior to registering for classes in the following semester.

A student on progress probation because of an excess of units for which entries of “W” and “NP” are recorded shall be removed from probation when the total number of units in this category drops below the number of those with other grades.

**Dismissal** – A student shall be dismissed from the college for a period of one semester (excluding summer session) when his/her grade-point average in three consecutive semesters is less than 2.00 in all units attempted or when 50% or more of all units attempted have entries of “W” and “NP.” Before reinstatement to the college, the student must meet with a counselor.

**Notice** – Students will be notified by mail if they are on academic probation or progress probation and will also be notified that they need to meet with a counselor prior to reinstatement to the college. Probation and dismissal status may be appealed to the Dean of Counseling & Student Success.

**Course Repetition Guidelines**

Course repetition occurs when a student who has previously received an evaluative symbol (A, B, C, D, F, P/NP, W) in a credit course, re-enrolls in the course and receives an evaluative symbol. Students may be permitted to enroll more than one time in the same credit course if they or the course meets certain criteria. Students will not be permitted to enroll in the same credit course more than three times, except in special circumstances or when the course is designated as repeatable and allows a greater number of repetitions as established in Title 5. All attempts to take a course that result in the student earning an evaluative symbol (A, B, C, D, F, P/NP, W) on their record will be counted for the purposes of calculating the total number of times a student has enrolled in a course. Students are limited to four (4) enrollments in courses that are related in content for the following courses types: Physical education courses, visual arts courses, performing arts courses, and intercollegiate academic and vocational courses designated as repeatable pursuant to section 55041.

Course repetition may occur under the following circumstances:

I. The course is designated as a “repeatable course” consistent with the requirements of Title 5 §55041: Courses that may be repeated without a petition are identified as such in the college catalog and fall within the following categories:
   a. The course repetition is necessary to meet the major requirements of CSU or UC for completion of a bachelor’s degree.
   b. The Course is designated as Intercollegiate Athletics.
   c. The Course is designated as Intercollegiate Academic or Vocational Competition.

II. To alleviate substandard work: A course in which a student grade of “D” or “F” or “NP” has been recorded may be repeated twice. Students must complete a “Petition for Grade Alleviation With Course Repetition” form available in Admissions and Records in order to remove the effects of the grade from the GPA. When a student repeats a class to alleviate substandard academic work, the previous grade and credit shall remain legible, however, it will be disregarded in the computation of grade point averages. Students may use course work from any regionally accredited college to replace Rio Hondo College coursework in which a “D” or “F” or “NP” was recorded provided the courses are deemed comparable.

III. To enroll in a class from which a student has previously withdrawn: Students may repeat courses that result in withdrawal with a “W” symbol being assigned. Students may have a maximum of two withdrawals from a course prior to receiving a grade, excluding military withdrawals and withdrawals due to extenuating circumstances. The “W” shall not be used in calculating a student’s GPA, but must be used in determining probation and dismissal.

IV. Student meets the criteria for special circumstances:

A. **Extenuating circumstances:**
   A student may repeat a course when he/she demonstrates that the previous grade was due to extenuating circumstances. Extenuating circumstances are verified cases of illness, accidents or other circumstances beyond the control of the student. Student’s wishing to repeat a course due to extenuating circumstances must complete a “Course Repetition” form available in Admissions and Records and submit it with documentation of the extenuating circumstances and appropriate signatures and approvals to Admissions and Records. A course repeated due to extenuating circumstances may only be repeated once, but the previous grade and credit may be disregarded in computing the student’s GPA.
B. **Significant lapse of time:** Students may repeat a course in which they previously received a satisfactory grade due to a significant lapse of time, comprised of no less than 36 months or as required by specific program mandates AND the course is required by the district as a properly established recency prerequisite; or another institution of higher education to which the student is seeking to transfer requires the student to have taken the course more recently than the student’s last enrollment.

C. **Variable unit, open-entry/open-exit courses:** Student may enroll in a variable unit open-entry/open-exit course as many times as necessary to complete the entire curriculum of the course.

D. **Occupational Work Experience:** Students may petition to enroll more than once, even if the student received a satisfactory grade, in an occupational work experience course. Enrollment is limited to 16 credit hours of cooperative work experience (CWE) and/or general work experience (GWE) in a given field during the enrollment period. (§55040)

E. **Legally mandated training:** Students may re-enroll in courses that are required by statute or regulation as a condition of paid or volunteer employment. Students must certify or document that the course repetition is legally mandated.

F. **Special courses for student with disabilities:** Students may enroll multiple times in classes designated as “special classes” if it is determined that such repetition is required for that person as a disability-related accommodation.

G. **Significant change in industry or licensure standards:** Students may petition to repeat a course as a result of a significant change in industry or licensure standards such that repetition of the course is necessary for employment or licensure. Students must certify or document that there has been a significant change in industry or licensure standards necessitating course repetition.

A student’s permanent academic record will indicate any courses repeated using an appropriate symbol and will be annotated in such a manner that all work remains legible, ensuring a true and complete academic history.

**Student Learning Outcomes (SLO)**

Student learning outcomes (SLOs) are developed by faculty and assessed on an annual basis in order to improve teaching and student learning. All SLOs are listed in course syllabi so students are aware of them at the beginning of each term. Rio Hondo College maintains a database of all assessment data and reports. An SLO Committee, chaired by the SLO Coordinator, meets monthly to review all matters relating to SLOs. More information about SLOs can be found at www.riohondo.edu/slo/.

**Transcripts**

Upon written application, the Admissions and Records Office will issue a document verifying grades or enrollment. The first two copies requested are issued free. Thereafter, a fee of $3.00 for each record is charged. Forms are available in the Admissions and Records Office or online.

Transcripts may also be ordered online via AccessRio or directly on the Credentials website. Transcripts will usually be processed within three (3) working days. An emergency/rush transcript request is available online for an additional cost. Rush order will be processed within one (1) working day. Details are provided on the Admissions and Records web page.

**Work Hours/Class Guidelines**

For each hour spent in a lecture class, a student should plan to spend about two hours a week in study and homework. Thus, a load of 15 units plus study time may require 45 hours a week—more than a full-time work week. Following are suggested work hours versus class load guidelines:

<table>
<thead>
<tr>
<th>Working Hours/Week</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>None</td>
<td>12 – 16</td>
</tr>
<tr>
<td>10</td>
<td>10 – 11</td>
</tr>
<tr>
<td>20</td>
<td>7 – 9</td>
</tr>
<tr>
<td>30</td>
<td>3 – 6</td>
</tr>
<tr>
<td>30+</td>
<td>1 – 3</td>
</tr>
</tbody>
</table>

In order to maintain an academic balance, the following information should be considered:

1. Students can expect to spend at least three hours (one in class and two outside of class) each week for every unit taken. A student with 12 units will need 24 hours of study time for a total of 36 hours needed for school each week.
2. Employment time and college time combined should not exceed 60 hours weekly.
3. Students should distribute study time appropriately for each class—often preparation for a lecture class differs from preparation for a laboratory class.
4. Students should consult frequently with their instructors—their office hours are designed for that purpose.
5. To assist in their academic success, students should use the tutoring services, the library, counselors, and other support services.

**Alternative Credit**

**Credit by External Examination**

A student in good standing who has completed at least 12 units in residence and is actively enrolled at Rio Hondo College may petition to receive Credit by External Examination from the Advanced Placement (AP) examinations, College Level Examination Program (CLEP), and/or International Baccalaureate (IB). However, course credit cannot be granted if it duplicates previous course work completed at Rio Hondo. Credit awarded will not be used to meet residency requirements. Please note that course credit and units granted at Rio Hondo College may differ from course credit and units granted by a four-year transfer institution.

**Guidelines for receiving credit:**

1. A request form must be completed and returned to the Admissions and Records Office.
2. An official transcript of the test scores must be sent to the Admissions & Records Office to be kept as part of the official record.

AP credit may be granted for Advanced Placement tests which have been satisfactorily passed with a score of 3, 4, or 5. See the College Credit for Advanced Placement section on the pages that follow for a list of accepted tests.
CLEP credit may be granted for College Level Examination Program tests in selected areas. See the College Level Examination Program section on the pages that follow for a list of accepted tests.

IB: International Baccalaureate credit may be granted for the International Baccalaureate Higher Level Examinations with scores of 5, 6, or 7. Official IB scores must be sent to the Admissions and Records Office. See the International Baccalaureate section on the pages that follow for a list of accepted tests.

Credit by Examination at Rio Hondo
The Board of Trustees of Rio Hondo College, in accordance with provisions of Title V (55753), authorizes the college to grant appropriate semester unit credit to any student who is currently enrolled and successfully passes an examination administered by appropriate staff.

Individual departments and/or specialty areas may elect to grant course credit to enable students who can demonstrate proficiency in specific bodies of subject matter, to plan a relevant educational program that will exclude courses in which essential levels of mastery of subject matter material have been previously attained.

Students shall be given course credit up to a limit of 12 Rio Hondo College units upon the successful completion of examinations (which will not count as units in residence). The student’s transcript will denote credit earned by credit by examination.

Each department identifies courses that are eligible for challenge. Students will receive a grade for each course challenged based on the written guidelines developed by the individual department.

To challenge a course and receive Credit by Examination a student must be registered in the college and be in good standing. Course(s) must be listed in the college catalog. Students may be exempt from this if they are requesting to challenge and receive credit by examination for a high school / Regional Occupational Program Career and Technical Education (CTE) articulated pathway (Title 5 Section 55052).

American Council on Education (ACE) Credit
Credit may be granted for those courses listed in the American Council on Education source book. The courses listed may be treated as lower-division transfer courses by Rio Hondo College and may be acceptable for units towards graduation requirements for the associate degree provided all other graduation requirements are fulfilled.

Before any course is applied to a departmental major and/or to a certificate, the course is subject to departmental approval of equivalencies and for prerequisites. Otherwise, the course shall be applied for elective credit only.

Students are to be apprised of the fact that although Rio Hondo accepts such a course as a transfer course and applies units toward the degree, transfer of said course to a specific four-year institution is subject to current articulation agreements with that institution.

Credit for Military Service
Rio Hondo College may grant credit for service courses as described in the Guide to the Evaluations of Educational Experiences in the Armed Forces by the American Council on Education. Course work from the Community College of the Air Force will be granted credit on the basis of similarity to Rio Hondo programs.

Veterans desiring credit for military service must request such credit and present authentic military service and training records, including a copy of the discharge papers (DD214) to the Admissions & Records Office. Upon the presentation of the DD214, two P.E. requirements may be waived for the A.A. or A.S. degree. Requests for military credit will be evaluated upon the presentation of proper documents, and the completion of 12 units in residence of work at Rio Hondo College.

Those veterans planning on applying for veterans benefits while attending classes must submit proper documentation of military service, schools, and any postsecondary credits prior to enrolling at Rio Hondo. These documents are to be sent to the Veterans Office at Rio Hondo College. Records will be reviewed and evaluated prior to enrollment and development of an educational plan. Under some conditions, students may be allowed to enroll and have their military and educational records submitted prior to the end of the first semester of attendance.

Non-Collegiate Registered Nursing Training Credit
Credit may be granted to a student who has a valid California RN license for nursing courses taken at an accredited non-collegiate RN nursing program toward the Associate of Science Degree in Nursing. Credit granted may not exceed the total number of nursing units required for the Associate Degree in Nursing at Rio Hondo College.

Upper-Division Credit
Upper-division credit from U.S. regionally accredited institutions may be used to fulfill Rio Hondo graduation requirements. Please see a counselor for more information.
Credit By External Examination:
College Credit For Advanced Placement (AP) Tests

Students must have the College Board send AP exam results to the Office of Admissions and Records (hand-carried copies will NOT be accepted) for use on the A.A./A.S. or GE patterns. Course credit and units granted at Rio Hondo College may differ from course credit and units granted by a transfer institution. Students may earn credit for Advanced Placement (AP) Tests with scores of 3, 4, or 5. AP credit can be used to meet IGETC, CSU GE and A.A./A.S. general education (GE) and/or major requirements.

Continued on next page.
For most AP subjects, results indicate that AP Exam scores of 5 are equivalent to A+ and A grades in the corresponding college course. AP Exam scores of 4 are equivalent to grades of A-, B+, and B in college. AP Exam scores of 3 are equivalent to grades of B-, C+, and C in college. More information on the reliability and validity of AP scores is available online at www.collegeboard.org.

Credit by External Examination
College Level Examination Program (CLEP)
Rio Hondo College will award CLEP credit toward the Associate Degree and transfer to the CSU system accordingly. UC does not accept CLEP exams. Course credit cannot be granted if it duplicates previous coursework completed. Official CLEP scores must be sent directly to Rio Hondo’s Office of Admissions and Records. A student must be actively enrolled and have completed 12 units in residence at Rio Hondo College when applying for credit by CLEP exam. CLEP credit may not be used to meet any residency requirement.

RHC: Students will get specific course credit only where a Rio Hondo equivalent course has been designated. A student who receives CLEP credit and then takes the equivalent RHC course will have the unit credit for such duplication deducted prior to being awarded the Associate degree.

CSU: All CSU campuses will accept the minimum units shown and apply them toward fulfillment of the designated CSU-GE area if the examination is included as part of a full or subject-area certification. Please note that individual CSU campuses may choose to grant more units than specified toward completion of the CSU General Education-Breadth requirements.

IGETC: CLEP exams cannot be used to certify IGETC.

Please see a counselor for assistance in determining CLEP credit for graduation and/or transfer.

7 Degree & Certificate Guidelines

Degree Programs
Rio Hondo College offers a variety of two-year programs leading to the Associate of Arts (A.A.), Associate of Science (A.S.), Associate in Arts for Transfer (AA-T), and Associate in Science for Transfer (AS-T) degrees. See this catalog for a listing of degree programs available.

The A.A. or A.S. Degree Concept
Central to an associate degree, coursework is designed to introduce students to the variety of means through which people comprehend the modern world. This coursework is referred to as the general education requirement of the degree. It reflects the conviction of the college that those who receive these degrees must possess in common certain basic principles, concepts and methodologies both unique to and shared by the various disciplines. College educated persons should be able to use this knowledge when evaluating and appreciating the physical environment, the culture, and the society in which they live. Most importantly, these degrees should lead to better self-understanding. In addition to the general education coursework, courses within an area of specialization, called a major, are required for an associate degree. The area of specialization will appear on the face of all diplomas.

Students should meet with a counselor and create an education plan in order to ensure fulfillment of requirements of an Associate of Arts or Associate of Science degree.

General Education Exceptions – Those students who have been awarded a bachelor’s degree from a regionally accredited college or university in the United States will be exempt from the Rio Hondo College general education and proficiency requirements should they pursue an associate degree at this institution. Please see a counselor for additional information.

Course Substitutions – Request for a Course Substitution form must be completed and returned to the Admissions and Records Office in order to substitute one course for another or to waive part of a requirement in the event of discontinued courses. The course substitution request will be reviewed by a faculty representative, Dean of the discipline involved, and by the Articulation Officer. Rio Hondo College may accept extension and continuing education courses after taking into consideration whether they are comparable to Rio Hondo courses, are from a regionally accredited institution, are taken for credit or a letter grade, and are degree-applicable at the originating institution.

The A.A. or A.S. Degree Requirements
Both the Associate of Arts and the Associate of Science degrees require a minimum of 60 units with a 2.0 or better grade-point average (GPA). At least 12 units must be in residence at Rio Hondo College. Non-degree applicable coursework will not be included in the total number of units earned toward a degree.

The Associate of Arts or Associate of Science degree will be conferred with a major consisting of a minimum of 18 units in a specified field of study (or major). A listing of all majors can be found in the degree listing in the college catalog. In addition, a minimum of a “C” grade for all coursework within the major is required. Effective Fall 2008, courses can be used to meet a General Education area and Major requirement.

Associate in Arts for Transfer (AA-T) or Associate in Science for Transfer (AS-T) Requirements
The Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education Code sections 66746-66749) guarantees admission to a California State University (CSU) campus for any community college student who completes an “associate degree for transfer,” a newly established variation of the associate degrees traditionally offered at a California community college. The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor’s degree in a similar major at a CSU campus.

Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system but not to a particular campus or major. In order to earn one of these degrees, students must complete 60 semester units of CSU-transferable coursework with a minimum overall GPA of 2.0. A minimum of 18 semester units in the major must be completed with a grade of “C” or better in each course (or with a “P” if the course was taken on a Pass/No Pass basis and the “P” is equal to a “C” or higher). Students are required to complete either the CSU GE pattern or IGETC pattern along with 12 units in residence. There are no additional graduation requirements for an AA-T or AS-T degree.

Students transferring to a CSU campus that deems the AA-T or AS-T as similar to the transfer major will be required to complete no more than 60 units after transfer to earn a bachelor’s degree (unless the major is designated a “high-unit” major). This degree may not be the best option for students intending to transfer to a particular CSU campus or other institution that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements.

Associate in Science Degree for Transfer (AS-T) AS-T subject areas include:
• Administration of Justice
• Biology
• Business Administration
• Chemistry
• Early Childhood Education
• Mathematics
• Physics
Associate in Arts Degree for Transfer (AA-T)

AA-T subject areas include:
- Anthropology
- Art History
- Communication Studies
- Economics
- Elementary Teacher Education
- English
- History
- Journalism
- Kinesiology
- Philosophy
- Political Science
- Psychology
- Social Justice Studies
- Sociology
- Spanish
- Studio Arts
- Theatre Arts

Intermediate Algebra) or a higher level math course
b. Demonstrate proficiency by a satisfactory score on the Rio Hondo College Math Proficiency Exam
c. Advanced Placement examination scores of 3, 4 or 5 on one of the following exams: AP Calculus AB, AP Calculus BC, or AP Statistics.
d. CLEP examination scores of 50 or higher on one of the following exams: Calculus, College Algebra, College Algebra-Trig, and Trigonometry

Any two physical education or dance activity courses. (Exemption may be granted to those students physically unable to complete this requirement. Exemption forms are available in the Health Office.) Students who have completed a Fire, Police, Wildland Fire, or Corrections Academy from an accredited institution are automatically waived from this requirement. Students with honorable discharge DD214 paperwork will be waived from this requirement.

4. American Institutions Requirement*-Minimum of one course:
HIST 143, 143H, 144, 144H, 158, 159, 159H, 170
POLS 110 or 110H

5. Natural Sciences with Lab (a lab must be included)-Minimum 3 units:
ANTH 101, 101H, & 101L
ASTR 110, 110H & 112
Biol 101, 105 & 105L, 111 & 111L, 112, 120 & 120L
CHEM 110, 120, 130
GEOG 101 & 101L
GEOG 150 & 151
PHYS 120, 150, 160, 211, 212, 213

6. Social and Behavioral Sciences - Minimum 3 units:
ANTH 102, 103, 104, 105, 110, 115, 125
CD 106, 208
CHST 101, 146, 148, 150
ECON 101, 101H, 102, 102H, 106, 135
GEOG 102, 103
HIST 101, 102, 122, 143, 143H, 144, 144H, 158, 159, 159H, 167, 170
HUM 110, 111, 125, 125H, 130
PHIL 128, 128H
POLS 110, 110H, 125, 128, 128H, 130, 135, 140, 150
PSY 101, 101H, 112, 114
SOC 101, 101H, 102, 105, 110, 114, 116, 120, 127, 148
SPCH 150

7. Humanities
A. Fine Arts – Minimum 3 units:
DANC 179, 199
MUS 101, 129, 130, 131, 132, 133, 135, 136
PHTO 190
THTR 101, 105, 105H, 110
B. Humanities – Minimum 3 units:
ASL 149
CHIN 101, 102
CHST 146
ENGL 126, 131
FR 101, 102, 201, 202
HIST 101, 102, 122, 131, 143, 143H, 144, 144H, 158, 159, 159H, 167, 170
HUM 110, 111, 125, 125H, 130
JAPN 101, 102
LATN 101, 102
MSCM 128
PHIL 101, 101H, 120, 124, 126, 128, 128H, 135, 140
FOLS 128, 128H
SPAN 101, 102, 130, 131, 201, 201H, 202
SPCH 130, 132

8. Language and Rationality
   A. English Composition–Minimum 3 units:
      ENGL 101
   B. Communication and Analytical Thinking
      – Minimum 3 units:
      CIT 101, 120, 125, 135
      ENGL 125, 201, 201H
      LIB 101
      MATH 130, 130H, 140, 160, 170, 175, 180, 190, 190H, 191, 250, 260, 270
      PHIL 110, 110H, 112, 112H, 115
      PSY 190
      SPCH 100, 101, 101H, 140
      READ 101
      VOCB 101

*Any course taken to meet the American Institutions requirement may not be used to meet another general education requirement.

Courses may be used to fulfill only one G.E. area.

(It is the student’s responsibility to provide verification to the Admissions and Records Office if any of the above requirements are met at another college or university.)

Multiple Majors/Second Associate Degrees
A student may be eligible for more than one major within a degree providing that all required courses and units for each major are completed. It is possible for a student to be awarded more than one degree providing that all residency, unit, general education, and major requirements are met for the additional degree.

Catalog Rights
A student may elect to meet the graduation requirements in effect at the time of entrance or at the time of graduation provided that he/she maintains continuous enrollment.

Continuous Enrollment
Continuous enrollment is defined as being enrolled in at least one course each semester and receiving an A, B, C, D, F, P, NP, I or W at Rio Hondo College or any other campus within the California community college or university system. If there is a break in enrollment for more than three consecutive semesters, the student will be held to the new requirements listed in the catalog at the time of re-enrollment. Absence from a summer session is not considered a break in enrollment. In extenuating circumstances, a student may submit a request for an exception to the Director of Admissions and Records for consideration.

Graduation
Students planning to graduate should file a “petition for graduation” during the semester in which they plan to graduate. Applications are available online on the Admissions and Records webpage. Deadlines for filing graduation petitions are available on the Rio Hondo website, under the Admissions/Graduation Information link. Please note that Rio Hondo College hosts a commencement ceremony in the spring semester of each year.

Certificate Programs
Certificate programs are designed for students interested in developing advanced levels of proficiency in special occupational subject areas. A student may elect to meet the Certificate of Achievement, Certificate of Skill Proficiency, or Career Certificate requirements in effect at the time of entrance or at the time of graduation provided that he/she maintains continuous enrollment (see Catalog Rights – Continuous Enrollment).

Certificates are awarded upon successful completion of the courses indicated in a designated subject area. Consult each program area for specific requirements. A candidate must maintain a minimum of a “C” average in the certificate program and complete at least one required course for the certificate at Rio Hondo College.

Certificate of Achievement
The Certificate of Achievement is designed to prepare students for entry-level employment in a vocational area. This certificate is awarded through Admissions and Records and will be posted on the student’s transcripts.

Upon completion of required Certificate of Achievement courses, students must file an application with the Admissions and Records Office. Deadlines for filing a Certificate of Achievement application are available on the Rio Hondo College website.

Certificate of Skill Proficiency
The Certificate of Skill Proficiency provides the student with skills designed to enhance their job marketability and mobility. This certificate is awarded through the designated Division Office and will not be posted on the student’s transcript.

Career Certificate
The Career Certificate prepares students for specific job opportunities. This certificate is awarded through the designated Division Office and will not be posted on the student’s transcript.

Exceptions to Graduation/ Certificate of Achievement Requirements
Request for a Course Substitution form must be completed and returned to the Admissions and Records Office in order to substitute one course for another or to waive part of a requirement in the event of discontinued courses. The course substitution request will be reviewed by a faculty representative, Dean of the discipline involved and/or by the Articulation Officer.
Transfer

Transfer Programs
Students whose goal is to transfer to a four-year institution should identify which transferable courses are required for both their major and general education. Students are strongly encouraged to meet with a counselor to develop an academic program best suited for their transfer institution and intended major.

Assistance in developing an educational plan to transfer to a university is advisable through contact with the counselor. Faculty members are valuable contacts in providing information related to a student’s career or college choice.

The Transfer Center is another valuable resource for students interested in transferring. The following services are available in the Transfer Center: Transfer Counseling, Application Workshops, Appointments with University Representatives, University Campus Tours, Transfer Fairs, Transfer Workshops, Resource Materials, Library of College Admission Materials, Computer Resource Lab.

Rio Hondo College offers courses similar to courses in the lower division (i.e., first two years) of four-year universities. Course requirements for graduation vary from one institution to another. It is to a student’s advantage to choose his or her transfer university as early as possible. Students are advised to complete the courses at Rio Hondo College that best satisfy the lower-division course requirements of their particular transfer institution. Lower-division course requirements typically include a set of “general education” courses and a sequence of courses in the student’s chosen “major.”

Educational Planning for Transfer
Each four-year institution has its own basic pattern of lower-division requirements regarding both general education and specific majors. These requirements vary from college to college and often change from year to year. Rio Hondo College has articulated courses with the California State University and University of California campuses as well as independent colleges and universities.

The Transfer Center has a listing of requirements for completing the Intersegmental General Education Transfer Curriculum (IGETC), CSU General Education Breadth, and other general education patterns. In addition, there are computers for student use to access information on the Internet regarding the college of their choice.

Students may also utilize ASSIST, the statewide repository of articulation information offering easy access to a single computerized database of student transfer information (www.ASSIST.org). The database includes IGETC and CSU GE Breadth lists as well as articulation agreements for many California public post-secondary institutions (community colleges, CSUs and UCs).

Students who plan to transfer to one of the California four-year colleges or universities should complete their comprehensive educational plan with a counselor.

Impacted Campuses & Programs
The term impacted, when applied to a campus and/or program, means that more qualified applicants applied than can be accepted. Consequently, there are special requirements and selection procedures for admission. Students intending to transfer should consult with a counselor and visit the transfer center to request the most current admissions information.

Transferring to California State University (CSU)
The California State University system consists of 23 campuses located throughout the state. Admission representatives from local CSU campuses visit the Rio Hondo College Transfer Center on a regular basis. Please check with the Transfer Center for more detailed information.

Each California State University (CSU) campus has its own general education and major requirements. Therefore, students should work with a counselor to first select a particular CSU campus and then formulate a strategy for completing that campus’ general education, major, and admission requirements.

Courses transferable to CSU campuses are identified in the course description in this Catalog and in the Class Schedule. Courses identified as meeting major preparation are listed in the ASSIST articulation database, which can be viewed at www.ASSIST.org.
Students who have completed 60 transferable semester units (90 quarter units) with a 2.0 grade point average (2.4 for non-resident students) by the time of entry to a CSU are considered upper division applicants. Upper division applicants are eligible for admission to a CSU if they:

1. Are in good standing at the last college or university attended AND
2. Have completed, or will complete prior to transfer at least 30 semester units of general education requirements. The 30 semester units must include one course in written communication, one course in oral communication, one course in critical thinking, and one course in mathematics/quantitative reasoning. All of these courses must be completed with a “C” or better (see CSU-GE pattern and/or IGETC)
3. The remaining units to reach 60 transferable semester units can be acquired through completion of lower division major preparation and/or CSU transferable elective units.

A maximum of 70 semester units earned at a community college may be transferred to the CSU; however, courses in excess of 70 semester units will receive subject credit and will be applied to satisfy content requirements as appropriate. No upper-division credit is allowed for courses taken at a community college.

**CSU Certification**

Certification means that Rio Hondo College has verified that a student has completed the lower-division general education requirements for the CSU. For full certification, students must complete 39 units from Categories A through E of the CSU General Education Requirements.

Certification from a community college is important because without it, students will be held to the general education requirements specific to the CSU campus to which they are transferring. Once the student is certified, the CSU campus will identify the student as having completed the lower-division general education requirements. (Please note that 9 units of upper-division general education courses must be completed at the CSU after transfer.) For full certification, a minimum of nine units must be completed in each of Areas A, B, C, and D and 3 units must be completed in Area E from the CSU-GE pattern. Courses in Area A and Area B4 must be completed with a “C” or better.

It is the student’s responsibility to request certification. To obtain the certification, students must file a Transcript Request Form at the Office of Admissions and Records. The final transcript and general education certification will then be sent to the CSU.

Because the requirements for a particular major may differ from one CSU campus to another, and because requirements may change yearly, students must consult regularly with a counselor when selecting courses.

**CSU Application**

Applications for admission to the CSU system are available online at www.calstate.edu/apply. Applications to impacted programs must be filed during the priority-filing period. Applications should be filed as early as possible to ensure priority consideration.
CSU General Education Breadth Course Requirements

The CSU-GE Breadth is an agreement between Rio Hondo and the CSU campuses regarding general education requirements. This list of courses is regularly updated. Students can complete these courses to fulfill their lower-division general education requirements at a community college before they transfer to a CSU campus. The CSU-GE Breadth is only one way to fulfill the lower-division general education requirements for the CSU. Students may also use IGETC to fulfill lower-division general education requirements at the CSU (see in this catalog.) Courses taken by students for CSU-GE Certification must be selected from the following list:

**AREA A: English Language Communication and Critical Thinking:**
Choose one course from each group. (9 units minimum)

A1: Oral Communication
- SPCH 100, 101, 101H, 140

A2: Written Communication
- ENGL 101

A3: Critical Thinking
- ENGL 201, 201H
- PHIL 110, 110H, 112, 112H, 115
- READ 101
- SPCH 140

**AREA B: Scientific Inquiry and Quantitative Reasoning:**
Choose one course from each group; one of the science courses must include a laboratory (indicated by *). (9 units minimum)

B1: Physical Science
- ASTR 110, 110H, 112*
- CHEM 110*, 120*, 130*, 140* 230*, 231*
- GEOG 101, 101L*
- GEOL 150, 151*
- PHY 120*, 150*, 160*, 211*, 212*, 213*

B2: Life Science
- ANTH 101, 101H, 101L*
- BIOL 101*, 105, 105L*, 111, 111L*, 112*, 120, 120L*, 200*, 201*, 222*, 226*
- PSY 210, 210H

B3: Laboratory Activity
All lab courses are identified by * in Groups B1 and B2 above.

B4: Mathematics/Quantitative Reasoning
- MATH 130, 130H, 140, 160, 170, 175, 180, 190, 190H, 191, 250, 260, 270
- PSY 190

**AREA C: Arts and Humanities**
Choose at least one course from C1: Arts and at least one course from C2: Humanities. Additional courses may be taken from either of the groups. (9 units minimum)

C1: Arts (Art, Dance, Music, Theatre)
- DANC 179, 199
- MUS 101, 120, 129, 130, 131, 132, 133, 134, 135, 136
- PHTO 190
- THTR 101, 105, 105H, 110, 150

C2: Humanities (Literature, Philosophy, Foreign Languages)
- ASL 149
- CHIN 101, 102
- CHST 146
- ENGL 126
- FR 101, 102, 201, 202
- HIST 101, 102, 122, 131, 143, 143H, 144, 144H, 158, 159, 159H, 167, 170
- HUM 110, 111, 125, 125H, 130
- JAPN 101, 102
- LATN 101, 102
- PHIL 101, 101H, 120, 124, 126, 128H, 135, 140, 150
- POLS 128, 128H
- SPAN 101, 102, 130, 131, 201, 201H, 202
- SPCH 130, 132

**Highly Recommended:** All CSU campuses have a graduation requirement in U.S. History, Constitution and American Ideals. Students may be certified as having completed this requirement at Rio Hondo College by taking POLS 110 or 110H and one of the following History courses: HIST 143, 143H, 144, 144H, 158, 159, 159H, 167, 170. These courses may be used to partially satisfy area C and/or D of the CSU-GE Breadth.

**AREA D: Social Sciences:** 9 units required with courses in at least two disciplines. (3 courses/9 units minimum)

- ANTH 101, 101H, 102, 102H, 103, 104, 110, 115, 125
- CHST 101, 146, 148, 150
- CD 106, 208
- ECON 101, 101H, 102, 102H, 106, 135
- GEOG 102, 103
- HIST 101, 102, 122, 131, 143, 143H, 144, 144H, 158, 159, 159H, 167, 170
- HUM 110, 111, 125, 125H, 130
- PHIL 128, 128H
- POLS 110, 110H, 125, 128, 128H, 130, 135, 140, 150
- PSY 101, 101H, 112, 114, 170, 180, 200
- SOC 101, 101H, 102, 105, 110, 114, 116, 120, 127, 148
- SPCH 150

**AREA E: Lifelong Learning and Self-Development:** Choose one course (3 units minimum) from the following:

- ANTH 110
- CD 106
- COUN 101, 151
- DD 214 (see counselor for details)
- EDEV 101
- HUSR 123
- KIN 191, 192, 196
- PSY 112, 121
- SOC 105, 110

**NOTE:** Courses may be used to fulfill only one General Education area.

For a complete listing of courses and their approval dates, students may log on to www.assist.org.

Transferring to University of California (UC)
The University of California (UC) has 10 campuses located throughout the state. Admission representatives from local UC campuses visit the Rio Hondo College Transfer Center on a regular basis. Please check with the Transfer Center for more detailed information.
Course requirements vary from one UC campus to another. Therefore, it is advised that students work with a counselor to first select a particular UC campus and then formulate a strategy for completing that campus' general education requirements, major requirements, and admissions requirements. At most UC campuses, admission is competitive and a grade point average (GPA) higher than the 2.4 minimum is required. Some UC campuses require that students complete specific coursework in a major before transfer, and some majors require a higher grade point average than designated for general admission. See a Rio Hondo counselor for further explanation and planning materials.

Courses transferable to UC campuses are identified in the course description in this Catalog and in the Class Schedule. Courses identified as meeting major preparation are listed in the ASSIST articulation database, which can be viewed at www.ASSIST.org.

Transfer Admission Requirements
To be eligible for admission to a UC as a transfer student, a student must fulfill the following criteria:

A. Complete 60 UC transferable semester units (90 quarter units) with a minimum GPA of 2.4 (2.8 for non-residents); AND

B. Complete the following course requirements, earning a grade of “C” or better in each course: two transferable college courses in English composition; one transferable college course in mathematical concepts and quantitative reasoning; four transferable college courses chosen from at least two of the following subject areas: arts and humanities, social and behavioral sciences, and physical and biological sciences.

NOTE: The IGETC General Education Transfer Pattern will meet these course requirements. However, some students, depending on the transfer major and university, may not be well served by following IGETC; AND

C. Complete as many major preparation courses as possible. Major preparation may be viewed at www.assist.org. NOTE: Selective majors require certain courses to be completed before transfer with a higher grade point average.

The UC allows up to 70 UC transferable units from a community college. Students who complete more than 70 units at the community college may still complete courses to fulfill course requirements but will not be able to transfer more than the 70 units of credit.

IMPORTANT! To be considered for fall admission at most campuses, students must plan to complete all courses required for admission no later than the spring semester preceding the fall they wish to enter the university.

Community College Transfer Priority Admission
UC campuses give priority consideration for admission to California community college students. A California community college student applying for admission to the University of California in advance standing will be given priority admission over all other applicants if:

1. The student was enrolled at one or more California community college for at least two terms (excluding summer sessions); AND

2. The last college attended before admission to a UC campus was a California community college (excluding summer sessions); AND

3. The student has completed at least 30 semester (45 quarter) UC transferable units at one or more California community college.

IGETC General Education Certification
Certification means that the last community college attended prior to transfer will verify that the student has completed the entire IGETC pattern. Students must apply for the IGETC certification at the community college they attended. Coursework taken at other community colleges will be certified at the discretion of the community college where the IGETC will be completed. Rio Hondo College will certify for IGETC after completion of all courses required. It is the student’s responsibility to request certification. To obtain the certification, students must file a Transcript Request Form at the Office of Admissions and Records. The final transcript and general education certification will then be sent to the UC.

UC Impacted Majors
Some majors at UC campuses are highly competitive or “impacted”. This means that certain courses in the major must be completed with achievement of a high GPA prior to transfer. Please consult with a counselor or visit the Transfer Center for details.

Transfer Admission Guarantee (TAG)
The Transfer Admission Guarantee (TAG) program offers guaranteed admission to the students who complete a core set of courses at Rio Hondo College a full term prior to transferring. Students in the TAG program can receive early review of their academic records, early admission notification, and specific guidance on major preparation and general education coursework. Rio Hondo College has agreements with seven UCs (UC Davis, UC Irvine, UC Merced, UC Riverside, UC San Diego, UC Santa Barbara, and UC Santa Cruz). TAG requirements vary by UC campus. The application filing period is typically September 1-30th of the year prior to transfer for Fall admission. For further information meet with a counselor in the Transfer Center.

UC Application
Applications for admission to the UC system are available online at www.universityofcalifornia.edu/apply.

NOTE: The UCs require applicants to respond to personal insight questions. Visit the Transfer Center for more information.

UC Application Filing Periods
Students are encouraged to attend an application workshop before beginning the application process. Remember that applications are submitted one year prior to transferring.

The priority filing periods are:
Fall Quarter/ Semester: November 1-30
Winter Quarter: July 1-31
Spring Quarter: October 1-31
*subject to campus availability

All UC campuses accept applicants for fall admission. To determine which UC campuses accept winter and/or spring, call the specific campus or visit the Transfer Center.
**Intersegmental General Education Transfer Curriculum (IGETC)**

**For CSU & UC**

The IGETC is an agreement between Rio Hondo and the CSU and UC campuses regarding general education requirements. The IGETC list of courses was developed first in 1991 and is regularly updated. Students can complete these courses to fulfill their lower-division general education requirements at a community college before they transfer to a CSU or UC campus. The IGETC is only one way to fulfill the lower-division general education requirements of a CSU or UC campus; it is not recommended for certain majors and colleges.

Completion of all the requirements in the IGETC will permit a student to transfer from a community college to a campus in either the California State University or University of California system without the need to take additional lower-division general education courses. Transfer students will receive certification for all of their lower division general education requirements only after completing all of the subject areas listed below with a “C” grade or better in each course.

**Area 1: ENGLISH COMMUNICATION**

CSU: 3 courses required, one from each group below

UC: 2 courses required, one each from 1A and 1B

1A – English Composition

One course of 3 semester/4 quarter units

ENGL 101

1B – Critical Thinking

One course of 3 semester/4 quarter units

ENGL 201 or 201H, PHIL 110, 110H

1C – Oral Communications: (CSU only) One course of 3 semester/4 quarter units

SPCH 100, 101, 101H, 140

**Area 2: MATHEMATICAL CONCEPTS & QUANTITATIVE REASONING**

One course: 3 semester/4 quarter units

MATH 130+, 130H+, 160+, 170+, 180+, 190+, 190H, 191, 250, 260, 270

PSY 190+

+ Indicates that UC course credit may be limited.

Please consult a counselor for additional information.

**Area 3: ARTS & HUMANITIES**

At least 3 courses with at least one course from Arts and one course from Humanities - 9 semester/12 quarter units.

3A: ARTS (3 units minimum):

- 112, 113, 115
- DANC 179, 199
- MUS 129, 130, 131, 132, 133, 135, 136
- THTR 101, 105, 105H

3B: HUMANITIES (3 units minimum):

- CHST 146
- ENGL 126
- FR 102, 201, 202
- HIST 101, 102, 122, 131, 143, 143H, 144, 144H, 158, 159, 159H, 167, 170
- HUM 110, 111, 125, 125H, 130
- JAPN 102
- LATN 102
- LIT 102, 102H, 112A, 112AH, 112B, 112BH, 114, 114H
- PHIL 101, 101H, 120, 124, 126, 128, 128H, 135, 140
- POLS 128, 128H
- SPAN 102, 201, 201H, 202

3C: THTR (3 units minimum):

- THTR 101, 105, 105H

**Area 4: SOCIAL & BEHAVIORAL SCIENCES**

At least 3 courses from at least two disciplines - 9 semester/12 quarter units

- ANTH 102, 102H, 103, 104, 110, 125
- CD 106, 208
- CHST 101, 146, 148, 150
- ECON 101, 101H, 102, 102H, 106, 135
- GEOG 102, 103
- HIST 101, 102, 122, 131, 143, 143H, 144, 144H, 158, 159, 159H, 167, 170
- HUM 110, 111, 125, 125H, 130
- PHIL 128, 128H
- POLS 110, 110H, 125, 128, 128H, 130, 135, 140, 150
- PSY 101, 101H, 112, 114, 170, 200
- SOC 101, 101H, 102, 105, 110, 114, 116, 120, 127, 148
- SPCH 150

**Area 5: PHYSICAL & BIOLOGICAL SCIENCES**

At least 2 courses are required, one from 5A and 5B. One course must include a corresponding laboratory from 5A or 5B. Laboratory courses (5C) are noted with + symbol.

A: PHYSICAL SCIENCES (One course minimum):

- ASTR 110, 110H, 112*
- CHEM 110*, 120*, 130*, 140*, 230*, 231*
- GEOG 101, 101L*
- GEOL 150, 151*
- PHY 120*, 130*, 160*, 211*, 212*, 213*

B: BIOLOGICAL SCIENCES (One course minimum):

- ANTH 101, 101H, 101L*
- BIOL 101*, 105, 105L*, 111, 111L*, 120, 120L*, 200*, 201*, 201, 226*
- PSY 210, 210H

**5C: LABORATORY ACTIVITY:** This requirement may be met by completing a lab course that corresponds to a lecture course found above in 5A or 5B with + symbol.

+ Indicates that UC course credit may be limited. Please consult the catalog course description for additional information.

**6: LANGUAGE OTHER THAN ENGLISH**

(UC REQUIREMENT ONLY)

Proficiency equivalent to two years of high school study in the same language or at least 1 course from:

ASL 149

CHIN 101, 102

FR 101, 102, 201, 202

JAPN 101, 102

LATN 101, 102

SPAN 101, 102, 130, 131, 201, 201H, 202

(If using high school courses to fulfill this area, grades of “C-” are acceptable. Official transcripts must be on file in the Admissions and Records Office)

**AMERICAN INSTITUTIONS REQUIREMENT**

CSU has an American Institutions graduation requirement that can be fulfilled by taking the following:

6 units: Choose one course from group 1 and one course from group 2.

1. POLS 110, 110H
2. HIST 143, 143H, 144, 144H, 158, 159, 159H, 170

**CERTIFICATION** – These units are general education requirements for the UC and CSU systems. Rio Hondo College will certify these courses. Request for IGETC certification can be made on the Transcript Request Form.

Only courses taken at U.S. regionally-accredited institutions that meet the IGETC Standards will be certified in the appropriate areas. Official transcripts must be on file in the Admissions and Records Office. Courses taken at foreign institutions are not acceptable except for certification of proficiency in a language other than English. Partial Certification is permitted if the student has completed all but two courses in the pattern.

For a complete listing of courses and their approval dates, students may log on to www.assist.org.

Transferring to Independent Colleges & Universities

For information regarding all transfer deadlines, students should consult with Rio Hondo College counselors or the Transfer Center.

Although admission requirements vary and are listed in the catalogs of the various universities and colleges, students who transfer to independent colleges and universities are given credit for most, if not all, of their community college work. Most colleges and universities give full credit for general education courses and for most other courses designated by the community college as transferable.

Rio Hondo College has developed articulation agreements with many independent colleges and universities. Transfer students who plan to attend a private college or university are encouraged to consult with a counselor to plan their academic plan. For information regarding deadlines and articulation agreements, students should visit the Transfer Center.

Transfer Web Sites

Below are listed some of the web sites available to help students who wish to transfer.

- Articulation: http://www.assist.org
  http://www.riohondo.edu/Counseling-Center/Articulation

- California Colleges: http://www.californiacolleges.edu

- California Independent Colleges and Universities: http://www.aiccu.edu

- California State University: http://www.calstate.edu/apply

- California Virtual College: http://www.cvc.edu/

- RHC Transfer Center: http://www.riohondo.edu/students/transfercenter

- University of California: http://www.universityofcalifornia.edu

- UC Transfer: http://uctransfer.universityofcalifornia.edu
Occasionally offerings will not be available in a particular program. Please contact the division for more information about availability.

DIVISION OF BUSINESS

ASSOCIATE OF SCIENCE DEGREE

The Associate of Science Degree in the Accounting program prepares students for employment and advancement opportunities in business and industry such as financial institutions, hospitals, manufacturing and construction companies, wholesale and retail companies, transportation, utilities, educational institutions, all levels of government and the military. Entry-level employment opportunities include positions in general bookkeeping, accounts receivable/payable, payroll, income tax preparation, cost accounting and auditing.

Accounting Majors intending to obtain a bachelor's degree in Accounting should refer to the Business Administration transfer curriculum.

To acquire the Associate of Science Degree in Accounting, it is necessary to complete the graduation requirements of the College along with the following courses with a grade of “C” or better:

<table>

Degree Total/Units Required: 16 – 16.5

*Prerequisite

CAREER CERTIFICATE

Accounting for Government and Nonprofit Organizations

The Accounting for Government and Nonprofit Organizations Career Certificate program is designed for individuals desiring employment in government or not-for-profit organizations. Upon successful completion of this certificate, candidates will be proficient in fund and not-for-profit accounting and possess the ability to perform basic accounting functions in a government and/or not-for-profit organization.

Units Required: 6
Administration of Justice
(Open to all students)

Students desiring careers in law enforcement may elect a program from Administration of Justice. This program is designed to be transferable or job-oriented, depending on student need.

Students seeking careers in corrections, probation and parole should specialize in the corrections option. Some of these areas require a four-year degree.

Students seeking employment with a local, state or federal law enforcement agency should specialize in Administration of Justice. Every student should seek counseling with the assigned member of the Counseling staff in order to develop a comprehensive course of study within his/her career choice.

It is highly recommended that the Administration of Justice student take Introduction to Administration of Justice before advancing to the next courses. This provides a foundation of basic understanding of the Criminal Justice System. The student is now prepared for a study of courses in the Administration of Justice.

ASSOCIATE OF SCIENCE DEGREE

To acquire the Associate of Science Degree in Administration of Justice, it is necessary to complete the graduation requirements of the College along with the following courses:

**Required Courses**

<table>
<thead>
<tr>

<td>PAC</td>
<td>Police Academy Courses</td>
</tr>
</tbody>
</table>

**Units Required** 24
The Associate in Science in Administration of Justice for Transfer (AS-T) Degree is intended to meet the lower division requirements for Criminal Justice majors (or similar majors) at a CSU campus that offers a Criminal Justice baccalaureate degree.

This degree is designed for students interested in an introduction to the field of Administration of Justice and for students looking to further their understanding of the criminal justice system in America (police, courts, and corrections) and familiarize students with academic, career and volunteer opportunities in the field. These courses will provide students with a solid foundation in Administration of Justice that will serve them for either transferring or in the workplace.

In addition to the courses listed below, the following additional requirements must be met for completion of the AS-T Degree in Administration of Justice:

1. Completion of 60 CSU-transferable semester units.
2. Achievement of a minimum GPA of at least 2.0 in all CSU-transferable coursework. (Some majors may require a higher GPA. Students should consult with a counselor for more information.)
3. Completion of the 18-19 semester units in the major with a grade of "C" or better.
4. Certified completion of the California State University General Education-Breadth (CSU GE) pattern; OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

Students are advised to check with the Counseling Department or Transfer Center for the courses accepted into the Criminal Justice major at the CSU where they seek transfer.

CSU GE or IGETC Pattern: Varies

Transferable Electives (as needed to reach 60 transferable units)

Degree Total: 60

*Prerequisite
ADVANCED ENGINE PERFORMANCE
DIVISION OF CAREER & TECHNICAL EDUCATION

ASSOCIATE OF SCIENCE DEGREE

The courses listed in the Associate of Science Degree are comprised of a comprehensive list of job skills needed to work in the specialized field of Automotive Advanced Engine Performance Diagnostics. The skills developed during lecture and lab will enhance the student's ability to complete the industry-recognized Automotive Service Excellence (ASE) Certification Tests A6 (Electrical/Electronic Systems), A8 (Engine Performance), and L1 (Advanced Engine Performance). The degree is designed to prepare an individual for transfer and/or entry-level employment as an Automotive Engine Performance Diagnostic Technician.

To acquire the **Associate of Science Degree in Advanced Engine Performance**, it is necessary to complete the graduation requirements of the College along with the following courses with a grade of “C” or better:

<table>
<thead>
<tr>
<th>Required Courses</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>AUTO 065 Smog Technician Diagnostic and Repair Procedures</td>

ALTERNATIVE ENERGY TECHNOLOGY  
DIVISION OF CAREER & TECHNICAL EDUCATION

ASSOCIATE OF SCIENCE DEGREE

The courses listed in the Associate of Science Degree are designed to prepare an individual for entry-level employment within the alternative energy industry as an integrator, designer, or as a maintenance or repair worker. This Degree is designed to increase the number of students earning an Associate degree from Rio Hondo and to guide students along a path to transfer and promotion that is both efficient and sufficient for their continued academic success.

To acquire the Associate of Science Degree in Alternative Energy Technology, it is necessary to complete the graduation requirements of the College along with the following courses:

<table>
<thead>
<tr>
<th>Required Courses</th>
<th>Units</th>

# ALTERNATIVE FUELS & ADVANCED TRANSPORTATION TECHNOLOGY

## ASSOCIATE OF SCIENCE DEGREE

This Degree is designed to prepare students and incumbent employees as Alternative Fuels & Advanced Transportation Technology specialists. Training is in theory and practical skills. Directed practical work is given in all fuel areas, compressed and biodiesel, under simulated on-the-job conditions. The program will provide the student with the opportunity to acquire the knowledge and hand skills demanded of modern transportation specialists. The sequence in which courses are taken may be modified to meet individual needs.

To acquire the **Associate of Science Degree in Alternative Fuels & Advanced Transportation Technology**, it is necessary to complete the graduation requirements of the College along with the following courses:

<table>
<thead>
<tr>

Entertainment Art-Digital Characters

Entertainment Art students work in a collaborative environment on project based assignments that revolve around creativity and innovation. Students are taught the skills they will need in order to create amazing artwork using the latest digital tools. The curriculum centers on the current production techniques used in designing the visual components found in games, apps, feature films and the web. From the fundamentals of 2D visual development through the pipeline for creating a finished 3D piece, students are guided by industry professionals. Entertainment Art students finish their training with portfolios full of intriguing and elaborate digital characters.

Units Required 19
The Associate in Arts in Anthropology for Transfer (AA-T) Degree is intended to meet the lower division requirements for Anthropology majors (or similar majors) at a CSU campus that offers an Anthropology baccalaureate degree.

This degree focuses on the critical analysis of human beings from both a cultural and biological perspective. The diversity of humans is investigated through a time cross-culturally in terms of their behavioral adaptations as well as using the framework of evolution to understand biological adaptation. Students will gain a basic understanding of the various fields and sub-fields of the discipline of Anthropology through their elective choices.

In addition to the courses listed below, the following additional requirements must be met for completion of the AA-T Degree in Anthropology:

1. Completion of 60 CSU-transferable semester units.
2. Achievement of a minimum GPA of at least 2.0 in all CSU-transferable coursework. (Some majors may require a higher GPA. Students should consult with a counselor for more information.)
3. Completion of the 19-20 semester units in the major with a grade of "C" or better.
4. Certified completion of the California State University General Education-Breadth (CSU GE) pattern; OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

Students are advised to check with the Counseling Department or Transfer Center for the courses accepted into the Psychology major at the CSU where they seek transfer.

This program leads to the Associate of Science Degree in Architecture for university transfer to Architecture, advanced Tech Prep placement, employment in architectural firms, the AES (Architectural/Engineering/Construction) and Design industries, Public Works/Utilities. The program includes applications such as BIM (Building Information Modeling), CADD (Computer-Assisted Design and Drafting), LEED (Leadership in Energy and Environmental Design), 3D Printing, and traditional drafting methods and standards. By completion of specific General Education courses, this program fulfills many of the requirements and foundation courses for transfer to Baccalaureate Architectural-related majors but does not fulfill all transfer requirements for specific Baccalaureate degree programs.

To acquire the **Associate of Science Degree in Architecture**, it is necessary to complete the graduation requirements of the College along with the following courses:
ARCHITECTURAL DESIGN & DRAWING
DIVISION OF CAREER & TECHNICAL EDUCATION

ASSOCIATE OF SCIENCE DEGREE

The major of Architectural Design and Drawing curriculum leads to the Associate of Science Degree for employment in architectural firms, the AEC (Architectural/Engineering/Construction) and Design industries, and Public Works/Utilities. The program includes applications such as BIM (Building Information Modeling), CADD (Computer Assisted-Design and Drafting), LEED (Leadership in Energy & Environmental Design), 3D Printing, and traditional drafting methods and standards. This program is not designed to fulfill requirements for transfer to a university in Architecture (see Associate of Science Degree in Architecture). For Baccalaureate or advanced degrees, see admission and transfer requirements for individual colleges and universities.

To acquire the Associate of Science Degree in Architectural Design and Drawing, it is necessary to complete the graduation requirements of the College along with the following courses:

Required Courses | Units

ASSOCIATE IN ARTS IN STUDIO ARTS FOR TRANSFER

The Associate in Arts in Art/Studio Arts Transfer (AA-T) Degree is intended to meet the lower division requirements for Studio Arts majors (or similar majors) at a CSU campus that offers a Studio Arts baccalaureate degree.

Students who earn an AA-T in Art/Studio Arts demonstrate knowledge and skill in areas including drawing, painting, ceramics, or photography. Foundational skills and knowledge of the studio arts are the springboard for an array of careers including professional artist, illustrator, layout artist, graphic designer, animator, advertising artist, art director, art critic, art educator, art therapist, gallery and museum curator, gallery assistant and art restorer. The CSU campuses offer a wide range of specialized bachelor’s degrees, including each of the studio arts as well as art education, art history, photography, digital arts and multimedia, graphic design and arts technology.

In addition to the courses listed below, the following additional requirements must be met for completion of the AA-T Degree in Studio Arts:

1. Completion of 60 CSU-transferable semester units.
2. Achievement of a minimum GPA of at least 2.0 in all CSU-transferable coursework. (Some majors may require a higher GPA. Students should consult with a counselor for more information.)
3. Completion of the 24 semester units in the major with a grade of "C" or better.
4. Certified completion of the California State University General Education-Breadth (CSU GE) pattern; OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

ART HISTORY
DIVISION OF ARTS & CULTURAL PROGRAMS

ASSOCIATE IN ARTS IN ART HISTORY FOR TRANSFER

The Associate in Arts in Art History for Transfer (AA-T) Degree is intended to meet the lower division requirements for Art History majors or Art majors with a concentration in Art History (or similar majors) at a CSU campus that offers an Art or Art History baccalaureate degree.

This degree is designed for students interested in an introduction to the discipline and methodologies of art history. The coursework will provide students with an understanding of the artistic contributions of diverse cultures and regions throughout time, of the relationship between works of art and the contexts in which they were produced, and of the ways in which works of art communicate ideas and meaning visually. Students will examine theories of interpretation and iconography, along with issues of patronage, provenance, and conservation/restoration. Students will gain critical thinking skills and a foundational knowledge of art history that will prepare them for transfer to four-year institutions and for arts and humanities-related careers.

In addition to the courses listed below, the following additional requirements must be met for completion of the AA-T Degree in Art History:

1. Completion 60 CSU-transferable semester units.
2. Achievement of a minimum GPA of at least 2.0 in all CSU-transferable coursework. (Some majors may require a higher GPA. Students should consult with a counselor for more information.)
3. Completion of the 18 semester units in the major with a grade of “C” or better.
4. Certified completion of the California State University General Education-Breadth (CSU GE) pattern; OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

Students are advised to check with the Counseling Department or Transfer Center for the courses accepted into the Art History major at the CSU where they seek transfer.

</tbody>
</table>

**Units Required**: 18

*Prerequisite*

### CERTIFICATE OF ACHIEVEMENT

#### Diesel Fuel and Emission Systems

This Certificate is designed for the experienced Automotive Technician who desires to expand and upgrade his/her skill level to include Light-Duty Vehicle Diesel Fuel Systems and related Driveability and Emission Control Systems within the Automotive Tune-up and Driveability, Electrical and Electronics, and Automotive Emission Control Systems Service and Repair spectrum. This certificate is also appropriate for emission control (smog) technicians desiring to take and pass the ASE A9 Light Vehicle Diesel Engines certification exam covering advanced auto/truck diesel technology. This certificate leads to employment as a General Diesel Auto Repair Technician, Diesel Tune-up Technician and/or State-Certified Smog Technician.

To acquire a **Certificate of Achievement in Diesel Fuel and Emission Systems**, it is necessary to complete the following courses with a grade of "C" or better:

CERTIFICATE OF ACHIEVEMENT

General Service Technician

The courses required in this certificate compile a comprehensive list of job-related skills needed to acquire general automotive skills. The skills acquired during class will prepare an individual for entry-level employment as a light-duty service technician such as a Lube Technician or positions with a franchised repair facility.

To acquire the Certificate of Achievement in General Service Technician, it is necessary to complete the following courses with a grade of "C" or better:

Required Courses | Units
AUTO 101 | Introduction to Automotive Service and Repair: Underhood Service | 3
AUTO 103 | Introduction to Automotive Service and Repair: Undercar Service | 3
AUTO 106 | Automotive Electrical Tools and Diagnostics Procedures | 3
AUTO 107 | *Introduction to Automotive Light Service | 3

Units Required 12
*Prerequisite

CERTIFICATE OF ACHIEVEMENT

Safety, Comfort, and Convenience Systems

The courses listed in this certificate compile a comprehensive list of job-related skills needed to enter the automotive field. The skills acquired during class will help one complete the ASE Certification Test in the areas of A-5 Brakes, A-6 Electrical/Electronic Systems, and A-7 Heating & Air Conditioning. The certificate is designed to prepare an individual for entry-level employment as an Electrical/Electronic Systems, Brakes Systems, and/or a Heating & Air Conditioning Service/Repair Technician.

To acquire the Certificate of Achievement in Safety, Comfort, and Convenience Systems, it is necessary to complete the following courses with a grade of "C" or better:

Required Courses | Units
AUTO 140 | *Body and Chassis Electrical Systems | 4
AUTO 148 | *Vehicle Safety, Comfort and Convenience Systems | 3
AUTO 211 | *Antilock Brakes/Traction Control | 3
AUTO 240 | *Heating and Air Conditioning | 4

Units Required 14
*Prerequisite

CERTIFICATE OF ACHIEVEMENT

Transmission Service

The courses listed in this certificate compile a comprehensive list of job-related skills needed to enter the automotive field. The skills acquired during class will help one complete the ASE Certification Test in the areas of A-2 Automatic Transmission/Transaxle and/or A-3 Manual Drive Train and Axles. The certificate is designed to prepare an individual for entry-level employment as an Automatic Transmission and/or Manual Transmission Service/Repair Technician.

To acquire the Certificate of Achievement in Transmission Service, it is necessary to complete the following courses with a grade of "C" or better:

Required Courses | Units
AUTO 103 | Introduction to Automotive Service and Repair: Underhood Service | 3
AUTO 125 | *Power Train System Service and Transmission Diagnostics | 4
AUTO 220 | *Manual Drive Trains and Axles | 4
AUTO 230 | *Automatic Transmission/Transaxle | 4

Units Required 15
*Prerequisite
The Associate of Science degree in Biology prepares students who are intending to transfer to a four-year institution that offers a baccalaureate degree in Biological Sciences. This degree provides for the completion of general lower-division course work associated with the requirements for a bachelor degree in biology, biochemistry, botany, ecology, forestry, zoology, microbiology, medicine, etc. The degree is specifically designed for students intending to transfer to a CSU or UC campus. Students completing the degree will take specific courses in chemistry, biology, physics and mathematics in addition to a general education preparation such as the CSU general education plan or IGETC.

To acquire the **Associate of Science Degree in Biology**, it is necessary to complete the graduation requirements of the College along with the following courses:

<table>
<thead>
<tr>
<th>Required Courses</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>

* Prerequisite

- See assist.org for major preparation required for transfer to a UC or CSU.
The Associate in Science in Biology for Transfer (AS-T) Degree is intended to meet the lower division requirements for Biology majors (or similar majors) at a CSU campus that offers a Biology baccalaureate degree.

This degree provides for the completion of general lower-division preparation associated with the requirements for a bachelor’s degree in biology, biochemistry, botany, ecology, forestry, zoology, microbiology, medicine, and other fields. It provides a broad, comprehensive overview of the main areas of biological science. The ability to critically think and use appropriate tools to solve biological questions will be emphasized.

In addition to the courses listed below, the following additional requirements must be met for completion of the AS-T Degree in Biology:

1. Completion of 60 CSU-transferable semester units.
2. Achievements of a minimum GPA of at least 2.0 in all CSU-transferable coursework (some majors may require a higher GPA; students should consult with a counselor for more information).
3. Completion of the 36 semester units in the major with a grade of “C” or better.
4. Certified completion of the California State University General Education-Breadth (CSUGE) for STEM pattern; OR the Intersegmental General Education Transfer Curriculum (IGETC) for STEM pattern.

Students are advised to check with the Counseling Department or Transfer Center for the courses accepted into the Biology major at the CSU where they seek transfer.

*Prerequisite
The Associate in Science in Business Administration for Transfer (AS-T) Degree is intended to meet the lower division requirements for business majors (or similar majors) at a CSU campus that offers a business baccalaureate degree.

This degree program will help students develop the analytical, communication, and critical thinking skills necessary to succeed as a business major. Business Administration prepares students for careers in accounting, finance, management, marketing, information technologies and many others.

Students should work closely with counselors to select the appropriate math courses and other lower division courses which are required by the four-year college of their choice.

In addition to the courses listed below, the following additional requirements must be met for completion of the AS-T Degree in Business Administration:

1. Completion of 60 CSU-transferable semester units.
2. Achievement of a minimum GPA of at least 2.0 in all CSU-transferable coursework. (Some majors may require a higher GPA. Students should consult with a counselor for more information.)
3. Completion of the 27-28 semester units in the major with a grade of “C” or better.
4. Certified completion of the California State University General Education-Breadth (CSU GE) pattern; OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

Students are advised to check with the Counseling Department or Transfer Center for the courses accepted into the Business Administration major at the CSU where they seek transfer.

ASSOCIATE OF SCIENCE IN CHEMISTRY FOR TRANSFER

The Associate in Science in Chemistry for Transfer (AS-T) Degree is intended to meet the lower division requirements for Chemistry majors (or similar majors) at a CSU campus that offers a Chemistry baccalaureate degree.

This degree provides for the completion of general lower-division preparation associated with the requirements for a bachelor’s degree in chemistry, biochemistry, chemical engineering, and other fields. It provides a broad, comprehensive overview of the main areas of chemistry and its' applications. The ability to critically think and use appropriate tools to solve chemical questions will be emphasized.

In addition to the courses listed below, the following additional requirements must be met for completion of the AS-T Degree in Chemistry:

1. Completion of 60 CSU-transferable semester units.
2. Achievement of a minimum GPA of at least 2.0 in all CSU-transferable coursework (some majors may require a higher GPA, students should consult with a counselor for more information).
3. Completion of the 36 semester units in the major with a grade of “C” or better.
4. Certified completion of the California State University General Education-Breadth (CSUGE) pattern; OR the Intersegmental General Education Transfer Curriculum (IGETC) STEM pattern.

Students are advised to check with the Counseling Department or Transfer Center for the courses accepted into the Chemistry major at the CSU where they seek transfer.

CHICANO STUDIES
DIVISION OF BEHAVIORAL & SOCIAL SCIENCES

ASSOCIATE OF ARTS DEGREE

The Associate of Arts Degree in Chicano Studies is intended for students wishing to acquire historical, theoretical, and cultural understanding of the Chicano (Mexican-American) community from the formation of the Chicano identity up to current issues pertaining to this group. The degree program is particularly relevant to students intending to work and/or interact in environments with high concentrations of Chicanos and/or those with familial or personal ties to the Mexican-American community. This program is also intended to prepare students interested in transferring to four-year institutions as Chicano Studies majors.

As a multidisciplinary program, the Chicano Studies Degree draws upon disciplines encompassing the humanities, language and fine arts, and a number of social sciences. Specifically, issues of politics, identity, and social justice are explored while Chicano contributions to the artistic, political, economic, and cultural landscape of mainstream U.S. society are examined.

To acquire the Associate of Arts Degree in Chicano Studies, it is necessary to complete the graduation requirements of the College along with the following courses:

<table>

Units Required: 21 - 23

*Prerequisite
# Child Development
## Division of Behavioral & Social Sciences

## Associate of Science Degree

The following curriculum meets the requirements for an Associate of Science Degree. Students planning to continue towards a Bachelor’s Degree in Child Development, Home Economics or Elementary Education should consult the college or university to which they intend to transfer for specific requirements. All courses listed in Child Development electives, regardless of the catalog year or year taken, may be used as Child Development electives for the Associate Degree under any catalog year.

The State of California Commission on Teacher Credentialing has several Child Development Permits available to students completing Child Development courses. See [www.ctc.ca.gov/credentials/CREDS/child-dev-permits.html](http://www.ctc.ca.gov/credentials/CREDS/child-dev-permits.html) for details.

To acquire an **Associate of Science Degree in Child Development**, it is necessary to complete the graduation requirements of the College along with the following:

+DS indicates Department of Social Services Title 22 classification requirements for teacher training in licensed private preschools and childcare programs.

**Observation hours only available in day-time.
**CERTIFICATE OF ACHIEVEMENT**

**Child Development**

This curriculum is designed to meet the minimum educational requirements of the California Department of Social Services (DSS) to secure employment in state licensed private preschools and childcare centers as Infant/Toddler, Preschool or School-Age Teachers or as Program Director. The curriculum will also meet requirements for acquiring Assistant and Associate Teacher Level Child Development Permits from the California Commission on Teacher Credentialing in order to secure employment in state and federally funded programs for children. All courses listed in Child Development electives, regardless of the catalog year or year taken, may be used as Child Development electives for the Certificate of Achievement under any catalog year.

The State of California Commission on Teacher Credentialing has several Child Development Permits available to students completing Child Development courses. See [www.ctc.ca.gov/credentials/CREDS/child-dev-permits.html](http://www.ctc.ca.gov/credentials/CREDS/child-dev-permits.html) for details.

To acquire a **Certificate of Achievement in Child Development**, it is necessary to complete the following courses:

# Preschool Teacher

The following courses meet the minimum educational requirements under Title 22 (Department of Social Services-DSS) to qualify the student to teach in a state licensed preschool or childcare program (private for-profit or private nonprofit). Completion of these courses will also qualify a student to apply for a Child Development Permit at the Assistant level through the California Commission on Teacher Credentialing. The Assistant Level Permit will qualify a student to teach in state or federally funded programs. These courses also meet the unit requirements for the Associate Teacher Level on the Child Development Permit Matrix (work experience is also required for this permit level). The student must have attained a grade of "C" or higher in each course.

See [www.ctc.ca.gov/credentials/leaflets/c1797.pdf](http://www.ctc.ca.gov/credentials/leaflets/c1797.pdf) for details.

To acquire the Certificate of Achievement in Preschool Teacher, it is necessary to complete the following courses:

**Units Required:** 15
CIVIL DESIGN TECHNOLOGY
DIVISION OF CAREER & TECHNICAL EDUCATION

ASSOCIATE OF SCIENCE DEGREE

The following Civil Design Technology curriculum will lead to the Associate of Science Degree and prepare students for employment in the field of Civil Engineering as a technician with the potential for more rapid advancement to positions of greater responsibility in surveying and civil construction. Completion of this program is not designed to fulfill the requirements for transfer to a university in Civil Engineering. For Baccalaureate or advanced degrees, students will need to complete additional courses in mathematics and physics. Please see a counselor for requirements.

To acquire the Associate of Science Degree in Civil Design Technology, it is necessary to complete the graduation requirements of the College along with the following courses:

<table>
<thead>
<tr>
<th>Required Courses</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ARCH 115</td>

</tr>
<tr>
<td>GIS 120 Introduction to Geographic Information Systems and Spatial Analysis</td>
<td>4</td>
</tr>
<tr>
<td>GIS 221 *Cartography Design and Geographic Information Systems</td>
<td>4</td>
</tr>
</tbody>
</table>

Select one course from the following:
- ENGT 150 or AutoCAD for Basic CADD Applications
- ENGT 170 MicroStation for Basic CADD Applications

**Units Required**: 26

*Prerequisite
**COMMUNICATION STUDIES**
DIVISION OF COMMUNICATIONS & LANGUAGES

**ASSOCIATE IN ARTS IN COMMUNICATION STUDIES FOR TRANSFER**

The Associate in Arts in Communication Studies for Transfer (AA-T) Degree is intended to meet the lower division requirements for Communication Studies majors (or similar majors) at a CSU campus that offers a Communication Studies baccalaureate degree.

This degree is designed for students interested in the study and practice of human communication. The Associate in Arts in Communication Studies for Transfer Degree offers students comprehensive knowledge of the nature of communication, including theoretical foundations and applicable skills. Students will develop skills in advocacy, critical thinking, debate, interpersonal communication, oral communication, performance, public speaking, and small group communication. Career opportunities may include: administration, advertising, broadcasting, business communications, consulting, government services, journalism, law, marketing, performance, politics, public relations, sales, teaching, and other professions in which an understanding of and facility with the process of communication is essential.

In addition to the courses listed below, the following additional requirements must be met for completion of the Associate in Arts in Communication Studies for Transfer Degree:

1. Completion of 60 CSU-transferable semester units.
2. Achievement of a minimum GPA of at least 2.0 in all CSU-transferable coursework. (Some majors may require a higher GPA. Students should consult with a counselor for more information.)
3. Completion of the 18-20.5 semester units in the major with a grade of “C” or better.
4. Certified completion of the California State University General Education-Breadth (CSU GE) pattern; OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

Students are advised to check with the Counseling Department or Transfer Center for the courses accepted into the Communication Studies major at the CSU where they seek transfer.

Units Required 7

*Prerequisite
The correctional program is designed to prepare students to enter the field of corrections as competent correctional officers, counselors, probation or parole aides, or paraprofessional volunteers for any correctional agency. The student may elect to transfer to a four-year college or seek entry-level employment in a correctional agency.

The courses will provide an academic as well as a practical training program. This will train persons seeking to enter the field of corrections and will increase the education of persons already employed in corrections and may also be beneficial to update the skills and knowledge of professional workers in the field of corrections.

The Associate of Science Degree requires 24 units in Corrections. This pattern of courses has been endorsed by the Joint Apprenticeship Committee of the California Department of Corrections, California Youth Authority and California Correctional Peace Officers Association as a program which would be of benefit to apprentices.

To acquire the **Associate of Science Degree in Corrections**, it is necessary to complete the graduation requirements of the college along with the following courses:

<table>
<thead>
<tr>
<th>Required Courses</th>

## ASSOCIATE OF ARTS DEGREE

The Associate of Arts Degree in Dance is a comprehensive two-year program promoting both high artistic and technical standards. The degree fulfills the needs of students seeking professions in dance as performers, choreographers, and/or dance educators and provides training for careers and employment in the performing arts, education, choreography, movement therapy, studio and arts management, arts consultancy, dance criticism, fitness, and community dance programs. An integral part of the AA in Dance is to prepare students for matriculation into Bachelor of Arts or Bachelor of Fine Arts program at a four-year college or university. See admission requirements of individual colleges and universities and transfer requirements for specific majors.

To acquire an **Associate of Arts Degree in Dance**, it is necessary to complete the graduation requirements of the College along with the following courses:

Notes: Only one experience in repeatable Dance classes can be used to meet degree requirements.

*Prerequisites
The following Technical Drawing curriculum will lead to the Certificate of Achievement and prepare students for employment as an early entry-level technician in the field of Architecture, Civil and Engineering Design Drafting/Drawing. Students will develop skill-based training techniques and knowledge of technical industry standards that will also prepare them for advanced studies in the pursuit of more advanced certificates or degrees for transfer.

To acquire the Certificate of Achievement in Technical Drawing, it is necessary to complete the following courses:

<table>
<thead>
<tr>
<th>Required Courses</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>ARCH 115</td>
<td>4</td>
</tr>
<tr>
<td>CIV 140</td>

<tr>
<td>ENGT 105</td>
<td>2</td>
</tr>
<tr>
<td>ENGT 122</td>
<td>4</td>
</tr>
</tbody>
</table>

Choose one course from the following:

| ENGT 150 | AutoCAD for Basic CADD: Applications | 4 |
| OR |
| ENGT 170 | MicroStation for Basic CADD: Applications | 4 |

Units Required 20
DRUG STUDIES
DIVISION OF BEHAVIORAL & SOCIAL SCIENCES

ASSOCIATE OF SCIENCE DEGREE

The following curriculum meets the requirement for an Associate of Science Degree in Drug Studies. The Drug Studies Program is accredited by the California Association of Alcohol and Drug Educators (CAADE). The courses needed for the degree are designed to serve as preparation for a career in the helping professions. These courses may also serve students who wish to further their education in Human Services or other helping professions.

To acquire the Associate of Science Degree in Drug Studies, it is necessary to complete the graduation requirements of the College along with the following courses with a grade of “C” or better:

<table>
<thead>
<tr>
<th>Required Courses</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>HUSR 118 Chemical Dependency: Intervention, Treatment, and Recovery</td>
<td>3</td>

</tbody>
</table>

Choose two courses from the list below:
HUSR 111 Human Services in Contemporary Society
PSY 101 or Introductory Psychology
PSY 101H Introductory Psychology Honors
PSY 112 Lifespan Development
PSY 114 Introduction to Abnormal Psychology
SOC 101 or Introduction to Sociology
SOC 101H Introduction to Sociology Honors

Units Required: 36 - 37

*Prerequisite

CERTIFICATE OF ACHIEVEMENT

Drug Studies

The Drug Studies Certificate provides the student with the academic preparation and field experience needed to work with the drug dependent and their families. The Certificate is accredited by the California Association of Alcohol and Drug Educators (CAADE). Completion of the required courses provides the educational component necessary for certification as a Certified Addiction Treatment Specialist through CAADE. The courses that comprise the Certificate are designed for those who are working with or want to work with drug dependent populations, providing a broad base of knowledge regarding approaches to drug education and prevention, treatment issues, counseling skills, ethical issues, and practical knowledge about drugs and their effects.

To acquire the Certificate of Achievement in Drug Studies, it is necessary to complete the following courses with a grade of “C” or better:

<table>

EARLY CHILDHOOD EDUCATION
DIVISION OF BEHAVIORAL & SOCIAL SCIENCE

ASSOCIATE IN SCIENCE IN EARLY CHILDHOOD EDUCATION FOR TRANSFER

The Associate in Science in Early Childhood Education for Transfer (AS-T) Degree is intended to meet the lower division requirements for Early Childhood Education majors (or similar majors) at a CSU campus that offers an Early Childhood Education baccalaureate degree.

This degree is designed for students interested in gaining the basic concepts and applications of the field of Early Childhood Education and for students looking to meet the state minimum requirements to work in the field. These courses will provide students with a solid foundation in theory, pedagogy, principles and practices that will serve them for either transferring to a four-year college or in the workplace.

In addition to the courses listed below, the following additional requirements must be met for completion of the AS-T Degree in Early Childhood Education:

1. Completion of a minimum of 60 CSU-transferable semester units.
2. Achievement of a minimum GPA of at least 2.0 in all CSU-transferable coursework. (Some majors may require a higher GPA. Students should consult with a counselor for more information).
3. Completion of the 24 semester units in the major with a grade of "C" or better or a "P" if the course is taken on a pass-no pass basis.
4. Certified completion of the California State University General Education-Breadth (CSU GE) pattern; OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

Students are advised to check with the Counseling Department or Transfer Center for the courses accepted into the Early Childhood Education major at the CSU where they seek transfer.

ASSOCIATE IN ARTS IN ECONOMICS FOR TRANSFER

The Associate in Arts in Economics for Transfer AA-T Degree is intended to meet the lower division requirements for Economics majors (or similar majors) at a CSU campus that offers an economics baccalaureate degree.

An Economics education provides the student with a logical way of approaching various problems and issues and provides valuable qualitative skills. The student learns techniques for analyzing contemporary economic problems and develops the ability to exercise sound judgment in evaluating public policy issues.

In addition to the courses listed below, the following additional requirements must be met for completion of the AA-T Degree in Economics:

1. Completion of a minimum of 60 CSU-transferable semester units.
2. Achievement of a minimum GPA of at least 2.0 in all CSU-transferable coursework (some majors may require a higher GPA, students should consult with a counselor for more information).
3. Completion of the 20-21 semester units in the major with a grade of "C" or better.
4. Certified completion of the California State University General Education-Breadth (CSUGE) pattern; OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

Students are advised to check with the Counseling Department or Transfer Center for the courses accepted into the Economics major at the CSU where they seek transfer.

*Prerequisite

Units Required 8
# ASSOCIATE OF SCIENCE DEGREE

The Associate of Science Degree in Engineering will prepare those students interested in laying a foundation for further study and for a Bachelor’s Degree in an engineering field from a four-year college or university.

The engineering program fulfills many of the requirements and foundation courses for transfer to Baccalaureate engineering-related majors, but does not satisfy all transfer requirements for specific institutions. Students should consult a counselor for major preparation for specific universities and colleges.

To acquire the **Associate of Science Degree in Engineering**, it is necessary to complete the graduation requirements of the College along with the following courses:

<table>
<thead>
<tr>
<th>Required Courses</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 190 or MATH 190H</td>
<td>4</td>
</tr>
<tr>
<td>MATH 191</td>

ASSOCIATE OF SCIENCE DEGREE

This major curriculum leads to the Associate of Science Degree in Engineering Design Drafting for advanced Tech Prep applications, employment in design, engineering and manufacturing-related industries, public works, utilities and CADD/Drafting-related industries. Upon completion of specific General Education courses, this program also fulfills many of the requirements and foundation courses for transfer to other baccalaureate technical majors within Engineering and Industrial Technology, but is not intended to fulfill transfer requirements for a baccalaureate degree. (See transfer requirements of individual colleges and universities)

To acquire the **Associate of Science Degree in Engineering Design Drafting**, it is necessary to complete the graduation requirements of the College along with the following courses:

<table>

*CPrerequisite*
ASSOCIATE IN ARTS IN ENGLISH FOR TRANSFER

The Associate in Arts in English for Transfer (AA-T) Degree is designed to provide foundation studies in English (or similar majors) for those interested in working toward a Bachelor’s Degree in English (or similar majors) from a four-year college or university. The degree program is also relevant for those interested in developing critical thinking, interpretive reading, analytical and research writing, and presentation skills to apply to broader educational and professional goals.

In addition to the courses listed below, the following additional requirements must be met for completion of the AA-T Degree in English (and similar majors):

1. Completion of 60 CSU-transferable semester units.
2. Achievement of a minimum GPA of at least 2.0 in all CSU-transferable coursework. (Students should consult with a counselor for more information.)
3. Completion of the 18.5-19.5 semester units in the major with a grade of "C" or better or a "P" if the course is taken on a pass-no pass basis.
4. Certified completion of the California State University General Education-Breadth (CSU GE) pattern; OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

Students are advised to check with the Counseling Department or Transfer Center for the courses accepted into the English (or similar majors) at the CSU where they seek transfer.

Degree Total 60

*Prerequisite
ENGLISH AND LITERATURE
DIVISION OF COMMUNICATIONS & LANGUAGES

ASSOCIATE OF ARTS DEGREE

This degree focuses on language and literature as forms of cultural expression with specific historical influences. Some of the courses focus on reading and writing about literary texts. Other courses for this major focus on genre studies and the structure of language. A third area of coursework emphasizes significant writers, literary works, and cultural movements that are most important to a particular time period. By completion of specific General Education courses, this program fulfills many of the requirements and foundation courses for transfer to baccalaureate English and Literature majors but does not fulfill all transfer requirements for specific baccalaureate degree programs. (See a counselor for major preparation from specific four-year institutions).

To acquire the **Associate of Arts Degree in English and Literature**, it is necessary to complete the graduation requirements of the College along with the following courses:

<table>

Units Required 21.5

*Prerequisite*
The Associate of Science Degree in Environmental Science prepares students who are intending to transfer to a four-year institution in the environmental sciences. This degree provides for completion of general lower-division course work associated with the requirements for a bachelor degree in environmental science, environmental studies, environmental and occupational health, etc. The degree is specifically designed for students intending to transfer to a CSU or UC campus and to gain entry-level employment in the environmental science field. Students completing the degree will take specific courses in chemistry, biology, physics and mathematics in addition to general education preparation such as the CSU general education plan or IGETC. (See admission requirements of individual colleges and universities and transfer requirements for specific majors).

To acquire the Associate of Science Degree in Environmental Science, it is necessary to complete the graduation requirements of the College along with the following courses:

<table>
<thead>
<tr>
<th>Required Courses</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 120</td>
<td>3</td>
</tr>

Units Required: 28

*Prerequisite
Environmental Technology refers to the skills and knowledge that allows a person to work in the environmental field in compliance with governmental regulations and at the same time protect human health and the environment.

The Environmental Technology Associate of Science Degree Program is a two-year program designed to prepare students to either enter the work force at the technician level or transfer into a bachelors' degree program.

To acquire the **Associate of Science Degree in Environmental Technology**, it is necessary to complete the graduation requirements of the College along with the following:

**Required Courses**

<table>
<thead>
<tr>
<th>Course</th>

## ENVIRONMENTAL TECHNOLOGY  
DIVISION OF MATHEMATICS & SCIENCES

### CERTIFICATE OF ACHIEVEMENT

#### Environmental Technology

Environmental Technology refers to the skills and knowledge that allow a person to work in the environmental field in compliance with governmental regulations and at the same time protect human health and the environment. The ET Certificate is designed to either prepare students to enter the field or upgrade working individuals with technician-level skills.

To acquire the **Certificate of Achievement in Environmental Technology**, it is necessary to complete the following courses:

<table>
<thead>
<tr>
<th>Required Courses</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 120</td>
<td>3</td>
</tr>
<tr>
<td>BIOL 120L</td>

</tr>
</tbody>
</table>

**Units Required**: 30.5

*Prerequisite

#### Field Technician

The Environmental Technology Field Technician Certificate is designed to prepare students to enter the environmental field or to upgrade working individuals with field technician skills.

Students will gain the skills and knowledge that allow a person to work in the environmental field in compliance with governmental regulations and at the same time protect human health and the environment.

To acquire the **Certificate of Achievement in Environmental Technology/Field Technician**, it is necessary to complete the following courses:

<table>
<thead>
<tr>

**Units Required** 24-36

*Prerequisite
**Admission Procedures**

The Fire Academy meets the State Fire College and the State Board of Fire Services' requirements for certification as Firefighter I and certification as an Emergency Medical Technician. Enrollment in the Fire Academy is open to all students. To ensure that the enrollment policy is in compliance with Section 84500 of the Education Code, the following procedure is hereby established:

1. In-service students will receive priority over pre-service students for up to 80% of the total class enrollment. Inservice students are defined as follows and will be given priority in the order listed:
   
   a. fully paid members of fully paid governmental or industrial fire protection or fire prevention agencies,
   
   b. sponsored Reserve/Auxiliary members of Fire Departments,
   
   c. volunteers of a fire protection or fire prevention agency who have been a member of such organization for a minimum of one year and have completed a minimum of fifteen (15) units of Fire Technology in an accredited college or institution with a grade in each course of "C" or better. Explorer Scouts DO NOT qualify for in-service status.

   It must be the intent of any person filing an application as an in-service member to return to the sponsoring organization upon completion of the academy training. It must be the intent of the department sponsoring such member to utilize the skills and knowledge acquired by the member in the day-to-day operation of the department.

2. Pre-service students will be given priority over in-service students for up to 20% of the total class enrollment. A pre-service person is one who does not qualify as an in-service member.

3. Priority for enrollment in the Academy will be based on the number of units completed with a grade of "C" or above in Fire Technology courses in accredited colleges or institutions. However, students who withdrew from a previous Rio Hondo firefighter academy due to a verified injury or extended sickness will be given priority over new applicants. Fire Technology courses are those having an accredited fire technology number.

4. Students with the same number of credit units in Fire Technology courses will be prioritized based on the grade point average of the Fire Technology courses.

5. In the event two or more students have an equal grade point average and have completed the same number of Fire Technology units, priority will be based on the total number of units completed in accredited colleges or institutions.

6. Students with the same number of completed Fire Technology units, the same grade point average in the Fire Technology units and the same number of total units completed in accredited colleges or institutions will be prioritized based on the grade point average of all college units completed.

7. It will be the responsibility of the student to have on file with the Regional Training Center Office the application and official transcripts verifying completed course work results on or before the closing date for applications.

8. Registration for the Fire Academy based on priorities established will occur at least five working days prior to start of the Academy to allow time to obtain required materials.
The Game Development certificate is designed to provide students with the technical, creative and artistic skill sets necessary to create industry standard game art.

Units Required 15
The California State University General Education Breadth (CSU-GE Breadth) pattern is a set of courses designed to fulfill all lower-division general education requirements for California State University campuses, as well as lead to a certificate of achievement at Rio Hondo College.

To acquire the Certificate of Achievement in CSU-GE Breadth, courses must have been approved for the CSU-GE Breadth area during the term in which the course was taken (please verify approval dates on www.assist.org). A grade of “C-” or better is required for courses taken in areas A1, A2, A3, and B4.

The Intersegmental General Education Transfer Curriculum (IGETC) is a set of courses designed to fulfill all lower-division general education requirements for California State University and University of California campuses, as well as lead to a certificate of achievement at Rio Hondo College.

To acquire the Certificate of Achievement in IGETC, it is necessary to complete the Intersegmental General Education Transfer Curriculum requirements listed in this catalog with a grade of “C” or better. Courses must have been approved for the IGETC area during the term in which the course was taken (please verify approval dates on www.assist.org).
The General Studies degree with an area of emphasis is designed to give students a broad introduction to an area of knowledge represented by related disciplines and topics. This degree is intended for students who may not be intending to pursue a specific occupational major, nor are they necessarily planning to transfer. However, careful educational planning with a counselor will help to ensure that, if a student did decide at a later date to transfer to a university, they would have a foundation in the transfer planning process. Students will select an "Area of Emphasis" from the following four options based on their interests and educational goals.

### General Studies with an Emphasis in Arts and Human Expression:

These courses emphasize the study of cultural, literary, humanistic activities and artistic expression of human beings. Students will evaluate and interpret the ways in which people through the ages in different cultures have responded to themselves and the world around them in artistic and cultural creation. Students will also learn to value aesthetic understanding and incorporate these concepts when constructing value judgments. This emphasis includes lower division coursework that prepares students for potential careers in fine arts, foreign languages, literature, and philosophy.

To acquire the Associate of Arts Degree in General Studies with an Emphasis in Arts and Human Expression, it is necessary to complete the graduation requirements of the College along with the following courses:

Choose at least one course from each category (A and B) and then complete additional courses in categories A and/or B to total 18 units of coursework from the following list:

#### A) ARTS

### Social Behavior and Self-Development

These courses provide students knowledge and understanding of social behavior and self-development. This area of emphasis is designed to prepare students to use their understanding of themselves and others to communicate and collaborate more effectively. It combines knowledge of theory with attention to personal growth and purpose, as well as health and wellness. Students learn to become citizens who care for themselves and others, ready to work with people in their communities. Participation in group activities and collaborative projects is a central focus of this emphasis, allowing students to experience group interactions in a variety of contexts. This emphasis includes lower division coursework that prepares students for potential careers in people/community-oriented professions including social, health and recreational services.

To acquire the Associate of Arts Degree in General Studies with an Emphasis in Social Behavior and Self-Development, it is necessary to complete the graduation requirements of the College along with the following courses:

Choose at least one course from each category below (A and B). Then complete additional courses from categories A and B to reach a total of 18 units from the following list:

**A) Theory and Knowledge**

*Prerequisite

---

**General Studies with an Emphasis in Social Sciences:**

These courses emphasize the perspective, concepts, theories and methodologies of the variety of disciplines that comprise study in the social sciences. Students will study human experience in the context of the larger society. Students will study how individuals, social subgroups, and societies operate in relation to each other. This emphasis includes lower division coursework that prepares students for potential careers in the helping professions such as teaching, business, government, social work, and non-profit organizations.

To acquire the **Associate of Arts Degree in General Studies with an Emphasis in Social Sciences**, it is necessary to complete the graduation requirements of the College along with the following courses:

**Choose 18 units of coursework including two or more disciplines from the following list:**

**GENERAL STUDIES**

**ASSOCIATE OF SCIENCE DEGREE**

### General Studies with an Emphasis in Science and Mathematics:

These courses emphasize the natural sciences, which examine the physical universe, its life forms and its natural phenomena. As mathematics is the language of science, courses in mathematics help students develop quantitative reasoning skills beyond the level of intermediate algebra. Students will be able to demonstrate an understanding of the methodologies of science as investigative tools. Students will also examine the influence that the acquisition of scientific knowledge has on human experience. This emphasis includes lower-division coursework that prepares students for potential careers in science, engineering, math, and health-related fields.

To acquire the **Associate of Science Degree in General Studies with an Emphasis in Science and Mathematics**, it is necessary to complete the graduation requirements of the College along with the following courses:

Choose at least one course from each category (A, B and C) and then complete additional courses in any category to total 18 units from the following list. Among these courses the student must complete at least one laboratory course.

#### A) Life Sciences

*Prerequisite
This Certificate of Achievement in Geographic Information Systems (GIS) targets students interested in becoming a GIS Technician. A GIS technician utilizes standard GIS tools and utilities to enter and correct data in GIS databases such as locating addresses, georeferencing scanned maps, digitizing and collecting and processing data from the field. Most duties assigned to GIS Technicians are routine with a heavy amount of database entry and management with eventual generation of maps from data. A GIS Technician performs no data interpretation after data has been stored unless under the guidance of the analyst. Many students enrolled in GIS at Rio Hondo College have degrees in a variety of disciplines. After completing the GIS courses, these students could be labeled as the GIS Analyst within their area of discipline (Crime Analyst, Environmental Planner, etc.)

To acquire the Geographic Information Systems Certificate of Achievement, you must complete the following courses:

<table>
<thead>

</tr>
</tbody>
</table>

Select one of the following focus areas below:

- GIS 230 *Geographic Information Systems in Environmental Technology ........ 3
- CIV 142 Introduction to Surveying and GPS .............................................. 4
- GIS 281 Crime Mapping and Analysis ...................................................... 4

Units Required 19 - 20

*Prerequisite
The courses listed in the Associate of Science Degree are Graphic Designers produce solutions to visual communication problems for their clients’ products services and messages. The form of the communication can be print or digital, and include photographs, typography, illustration and graphic forms. The work produced includes branding and identity designs, publication designs, advertising, packaging, motion graphics, websites, information architecture, and other types of communication design.

NOTE: Students interested in transferring as a Graphic Design major should consult with a counselor for appropriate general education & major preparation counseling.

To acquire the Associate of Science Degree in Graphic Design, it is necessary to complete the graduation requirements of the College, along with the following:

### Required Courses

The Associate in Arts in History for Transfer (AA-T) Degree is intended to meet the lower division requirements for History majors (or similar majors) at a CSU campus that offers a baccalaureate degree. The Associate in Arts in History for Transfer Degree is designed to enable students to explore a broad understanding of the social, political, cultural and economic events and forces that have shaped our nation’s past, present and future. In addition to studying the history of the United States, history majors will study other civilizations and cultures gaining a broader perspective and better understanding of the contemporary world. Through a diverse curriculum, students learn to gather, synthesize, analyze and interpret historical evidence, building a strong foundation that prepares students to either transfer to a four-year college or succeed in numerous career paths, such as teaching, law, business administration, journalism and public service.

In addition to the courses listed below, the following additional requirements must be met for completion of the AA-T Degree in History.

1. Completion of 60 CSU-transferable semester units.
2. Achievement of a minimum GPA of at least 2.0 in all CSU-transferable coursework. (Some majors may require a higher GPA. Students should consult with a counselor for more information.)
3. Completion of the 18 semester units in the major with a grade of “C” or better.
4. Certified completion of the California State University General Education-Breadth (CSU GE) pattern; OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

Students are advised to check with the Counseling Department or Transfer Center for the courses accepted into the History major at the CSU where they seek transfer.
HONDA PROFESSIONAL AUTOMOTIVE CAREER TRAINING PROGRAM SPECIALIZATION (PACT)
DIVISION OF CAREER & TECHNICAL EDUCATION

ASSOCIATE OF SCIENCE DEGREE

The courses listed in the Associate of Science Degree are comprised of a comprehensive list of job skills needed to enter the automotive field. The skills developed during class will enhance the student’s ability to complete the (ASE) Automotive Service Excellence Certification Tests A-1 through A-8, Automotive Technician and to become a specialist for Honda/Acura vehicles. The Degree is designed to prepare an individual for transfer and/or entry-level employment as an Automotive Technician within a Honda/Acura Dealer. This is a full-time two-year accelerated training and career placement program.

To acquire the **Associate of Science Degree in Honda Professional Automotive Career Training Program Specialization**, it is necessary to complete the graduation requirements of the College along with the following courses:

<table>
<thead>
<tr>
<th>Required Courses</th>

ASSOCIATE IN ARTS IN KINESIOLOGY FOR TRANSFER

The Associate in Arts in Kinesiology for Transfer is designed to provide students preparing to transfer with the foundation to complete a Bachelor's Degree in Kinesiology. Students will be able to pursue careers in teaching, coaching, physical therapy, athletic training, and adaptive physical education.

The Associate in Arts in Kinesiology for Transfer (AA-T) Degree is intended to meet the lower division requirements for Kinesiology majors (or similar majors) at a CSU campus that offers a Kinesiology baccalaureate degree.

This degree is designed for the transfer-oriented student who seeks to explore Kinesiology in preparation for a Bachelor's degree. Students will gain information and experience in areas that will prepare them for a job or a career in the field of teaching, youth or professional sports, coaching, fitness and health industry, physical therapy, athletic training, sports management, and lifesaving skills in First Aid and C.P.R. The degree will provide students the opportunity to pursue work in: youth sports and summer camps, in the fitness industry, assisting physical education professionals and creating new business opportunities in the area of physical activity and sports.

In addition to the courses listed below, the following additional requirements must be met for completion of the AA-T Associate in Arts in Kinesiology for Transfer:

1. Completion of 60 CSU-transferable units.
2. Achievement of a minimum GPA of at least 2.0 in all CSU-transferable coursework. (Some majors may require a higher GPA. Students should consult with a counselor for more information.)
3. Completion of the 21-23 semester units in the major with a grade of "C" or better.
4. Certified completion of the California State University General Education-Breadth (CSU GE) pattern; OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

Students are advised to check with the Counseling Department or Transfer Center for the courses accepted into the Kinesiology major at the CSU where they seek transfer.

Degree Total/Units Required 15
The Fitness Specialist Certificate Program is designed to prepare students for employment as fitness instructors and a career in the rapidly expanding health and fitness industry. Students will gain academic knowledge and fitness skills through the required course work, as well as develop the skills necessary to apply this knowledge in a vocational setting. The certificate is designed to be completed in one calendar year for students who attend full-time and may lead to immediate employment opportunities. The curriculum has been designed to equip the student with the scientific background, both theoretical and practical, to successfully customize fitness programs that include education and guidance on nutrition, weight control, flexibility, core strength, cardiovascular exercise and resistance training. Students will also be prepared to pass national certification exams in health, fitness, strength and conditioning. The program will prepare students for transfer to a university in order to pursue a higher degree in various areas of study.

To acquire the Certificate of Achievement in Fitness Specialist, it is necessary to complete the following courses with a grade of "C" or better:

Choose one of the following classes:
- ACCT 090 or Introduction to Accounting                      | 3     |
- ACCT 101 Financial Accounting                               | 4     |

24 or 25

In addition to the Required Courses, students will choose from one of the following specializations or select one course from each specialization.

Transportation Specialization Courses: ........................ Units
GIS 120 Introduction to Geographic Information Systems and Spatial Analysis | 4     |
LOG 120 Transportation Management                             | 3     |
LOG 125 Contract Management                                    | 2     |

TOTAL UNITS 33 or 34

International Trade Specialization Courses: ...................... Units
MGMT 140 Introduction to International Business                | 3     |
MGMT 142 International Management                              | 3     |
MGMT 143 Import and Export Business                            | 3     |

TOTAL UNITS 33 or 34

Operations Management Specialization ............................. Units
LOG 135 Quality Management Concepts                            | 3     |
MGMT 150 Principles of Management                              | 3     |
MGMT 155 Principles of Leadership                              | 3     |

TOTAL UNITS 33 or 34

SELECTING ONE COURSE FROM EACH SPECIALIZATION:
TOTAL UNITS 32 - 35

CERTIFICATE OF ACHIEVEMENT

This certificate is designed to prepare students for entry-level employment in logistics, transportation, inventory management, and purchasing. The certificate will allow the student to develop organizational skills which can lead to advancement in operations management, transportation, purchasing, materials management, and related areas. The sequence of courses will provide the student the opportunity to acquire the knowledge and skills demanded of the modern logistics specialist. The sequence in which courses are taken may be modified to meet individual needs.

To acquire the Certificate of Achievement in Logistics Management, it is necessary to complete the following courses:

<table>
<thead>
<tr>
<th>Required Courses</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>LOG 101 Supply Chain Management</td>
<td>3</td>
</tr>
<tr>
<td>LOG 105 Purchasing Management</td>
<td>3</td>
</tr>
<tr>
<td>LOG 110 Warehouse Management</td>
<td>3</td>
</tr>
<tr>
<td>LOG 115 Inventory Management</td>
<td>3</td>
</tr>
</tbody>
</table>

Choose two of the following courses:
- LOG 120 Transportation Management                      | 3     |
- LOG 125 Contract Management                             | 2     |
- MGMT 101 Introduction to Business                       | 3     |
- MGMT 140 Introduction to International Business ....... | 3     |
- MGMT 142 International Management                       | 3     |
- MGMT 143 Import & Export Business                       | 3     |
- MGMT 150 Principles of Management                       | 3     |

MANAGEMENT & SUPERVISION
DIVISION OF BUSINESS

ASSOCIATE OF SCIENCE DEGREE

This curriculum is designed for those students who desire the education and training for a business career at the management level in many of the following areas: production, materials management and handling, marketing, supervision, transportation, and operations management. A general core of knowledge aims to equip students with sound foundations upon which the student may develop management and supervision abilities through advanced student and job experience.

To acquire the **Associate of Science Degree in Management and Supervision**, it is necessary to complete the graduation requirements of the College along with the following courses:

ASSOCIATE IN SCIENCE IN MATHEMATICS FOR TRANSFER

The Associate in Science in Mathematics for Transfer (AS-T) Degree is intended to meet the lower division requirements for Mathematics majors at a CSU campus that offers a Mathematics baccalaureate degree.

Mathematics is the language of the physical and technical sciences. As such, this Degree also satisfies the lower division requirements for a variety of baccalaureate degrees including Engineering, Physics, Computer Science and Chemistry.

In addition to the courses listed below, the following additional requirements must be met for completion of the Associate in Science in Mathematics for Transfer:

1. Completion of 60 CSU-transferable semester units.

2. Achievement of a minimum GPA of at least 2.0 in all CSU-transferable coursework. (Some majors may require a higher GPA. Students should consult with a counselor for more information).

3. Completion of the 20 semester units in the major with a grade of "C" or better.

4. Certified completion of the California State University General Education-Breadth (CSU GE) pattern; OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

Students are advised to check with the Counseling Department or Transfer Center for the courses accepted into the Mathematics major at the CSU where they seek transfer.

**Required Courses**

**Transferable Electives** (as needed to reach 60 transferable units)

**Degree Total**

60

*Prerequisite
The Associate of Arts Degree in Music is a two-year program designed to prepare students for the continued study of music and/or future professional employment in the field of music. Graduates receive an Associate of Arts degree in Music.

Students entering the program with the intent to perform will gain valuable experience and performance skills performing in our various choirs and our unique multi-instrument ensemble. The various levels of study in vocal, instrumental, theory, musicianship, and keyboard skills will supply students with the necessary abilities to excel in those areas when they complete the music program at Rio Hondo College.

To acquire the Associate of Arts Degree in Music, it is necessary to complete the graduation requirements of the College along with the following courses:

NURSING PROGRAMS OVERVIEW
DIVISION OF HEALTH SCIENCE AND NURSING

The Division of Health Science and Nursing offers two different types of programs: Associate Degree Nursing Program and Vocational Nursing Program. The division also offers three career certificates: Pre-Certification Nursing Assistant Course, Acute Care, and Home Health Aide. All three programs have exceptional pass rates on national exams and or state certification exams.

Associate Degree Nursing (ADN) Program
The ADN program is a two-year program designed to prepare students for employment as a registered nurse providing direct care to patients. Graduates receive an Associate in Science Degree of Nursing. Students who complete the program are qualified to take the examination leading to licensure as a Registered Nurse. In addition to the ADN program, we offer LVN to ADN Transition and a LVN-RN 30 Unit Option.

Associate Degree Nursing (LVN to ADN) Program
Licensed Vocational Nurses wishing to qualify for licensure examination as a Registered Nurse but not obtain a degree may consider this 30-unit option.

The Vocational Nursing (VN) Program
The Vocational Nursing Program is a three-semester program following the completion of prerequisite courses. It is designed to prepare students for employment as a Vocational Nurse, giving care to patients in a variety of settings, such as acute hospitals, extended care facilities, home health care, surgical centers and medical offices. The program is accredited by the California State Board of Vocational Nursing and Psychiatric Technicians. Students, who complete the curriculum and achieve the career certificate are qualified to apply for the examination leading to licensure as a Licensed Vocational Nurse. Students also have the option of obtaining an Associate of Science degree in Vocational Nursing.

Career Certificate for Acute Care Certified Nursing Assistant
This Career Certificate is designed for the student who already has their CNA Certificate wishing to gain employment in the Acute Care Hospital setting. Areas of emphasis will include taking care of patients in the acute care setting utilizing skills in basic care, emergency care, communication skills, patient assessment, observation and reporting, with additional emphasis on the specialized acute care areas such as medical/surgical/orthopedics, pediatrics and obstetrics. Students will gain general core knowledge of entry-level nursing skills through classroom instruction and hands on clinical time.

Career Certificate for Home Health Aide
This Career Certificate is designed for the student who already has their CNA wishing to gain employment in the home care setting. Areas of emphasis will include taking care of patients in the home care setting utilizing skills in basic care, emergency care, communication skills, patient assessment, observation and reporting, with additional emphasis on rehabilitative nursing care, and family relationships. Students will gain general core knowledge of entry-level nursing skills through classroom instruction and hands on clinical time.
NURSING PROGRAMS OVERVIEW CONTINUED

ADN Program Mission Statement
The Associate Degree Nursing Program (ADN) is committed to preparing students for the professional role of the registered nurse at the entry level. In addition, the aim of the program is to prepare the nursing student for academic advancement.

ADN Program Philosophy
The Associate Degree Nursing program engages students in a transformative process in which caring, diversity, holism, respect, civility, integrity, ethics and patient-centered care are valued and reinforced utilizing a collaborative approach to teaching and learning.

The curriculum incorporates Nursing Process, Erickson’s Psychosocial Theory of Human Development, and theories of Stress and Adaptation. The Quality and Safety Education for Nurses model is used as a framework for education: Safety, Evidence-Based Practice, Patient-Centered Care, Teamwork and Collaboration, Informatics, and Quality Improvement.

Throughout the ADN Program are the following essential vertical threads: caring, critical thinking, a spirit of inquiry, and communication. Interlaced through the vertical threads are the horizontal threads of: management of care, safety and infection control, health promotion and maintenance, psychosocial integrity, basic care and comfort, pharmacological/parenteral therapies, reduction of risk potential, and physiological adaptation. These threads guide the student to progressively develop competency in understanding and delivering individualized nursing care.

ADN Program Outcomes
At the completion of the program, the graduate will meet the following outcomes while carrying out the roles of the nurse:

1. Planner of Care: The student will be able to utilize the Systems Developmental Stress Model and the Nursing Process to plan for and provide cultural, gender, and age appropriate patient care to a team of patients utilizing appropriate resources in an effective manner.

2. Provider of Safe Skilled Care: The student will be able to provide safe care to a group of patients in collaboration with other healthcare team members while delegating appropriately.

3. Communicator: The student will be able to effectively communicate with the patient, family, healthcare providers, and faculty and document according to clinical site parameters.

4. Educator: The student will be able to identify educational needs, create and deliver a teaching plan specific to the needs of the patient and family.

5. Member of the Profession: The student will display a professionalism while delivering care with caring and advocacy, mindful of ethical and legal obligations as a nurse.

ASSOCIATE DEGREE NURSING PROGRAM (RN) – GENERIC

A. ADMISSION REQUIREMENTS

1. EDUCATIONAL REQUIREMENTS FOR PROGRAM APPLICATION

   a. Proof of graduation from an accredited high school in the U.S.A. by transcript, diploma, or official international evaluation; Baccalaureate degree from an accredited institution of higher education in the U.S.A.; or documentation of passing score on the GED (General Education Development) exam.

   b. Students must meet the admission requirements for Rio Hondo College.

   c. Completion of all three science prerequisites (Human Anatomy, Human Physiology, and Microbiology) with an overall Science GPA of at least 2.5 with no grade less than “C” for each course. The student is limited to one repeat in any of the science courses to improve the grade. All science courses must be completed within 7 years from application.

   d. A cumulative college grade point average (GPA) of at least 2.5 for all college coursework taken.

   e. Applicants must meet graduate proficiency requirements for math and reading either by completing the minimal required courses or achieving an equivalent passing score on the assessment tests. Students who fail to achieve a passing score will be required to complete additional coursework prior to applying.

   f. Must complete English 101 College Composition and Research with a grade of C or higher.

   g. Only the first ATI TEAS score taken will be accepted. If a student has taken the ATI TEAS at another location, the first score will be accepted and must be a passing score to be eligible. TEAS test version V.0 will no longer be accepted for students entering the ADN program after January 1, 2017.

2. HEALTH REQUIREMENTS – The applicant must be free from communicable diseases, infections, psychological disorders, and other conditions that would prevent the successful performance of the responsibilities and tasks required in the education and training of a Registered Nurse. For patient safety and successful achievement of course objectives, all applicants must be able to hear and see with the use of assistive devices. The program will make every effort to provide reasonable accommodations for all applicants. Upon acceptance into the program, the student must satisfactorily pass a health examination by a licensed physician or nurse practitioner and have various laboratory tests and immunizations, as needed, to determine physical and mental fitness. If a student enrolled in the program has developed a condition that would prevent successful performance of his/her responsibilities and tasks, the Dean of Health Science and Nursing may require the student to be examined by a licensed physician. If the licensed physician verifies the condition, then there is sufficient cause for suspension or expulsion from the program pursuant to Board Policy. Information on specific health requirements will be provided to all applicants who are provisionally selected and those applicants who are alternates to the program.
3. PATIENT SAFETY AND BACKGROUND CHECKS –
Based on California Board of Registered Nursing, and clinical facility policies, nursing students must have clear criminal background checks to participate in clinical courses. Specific procedures will be shared with the student provisionally accepted. The student is responsible for the cost of the background check. If the background check is not clear, the student will be responsible for obtaining documents showing rehabilitation and/or having the record corrected. The Dean of Health Science and Nursing is responsible for determining if the background check meets clinical placement requirements. See the Dean of Health Science and Nursing with questions concerning this procedure. All students will be required to undergo drug testing at their expense before caring for patients in the clinical setting. Specific procedures will be shared with the students upon admission. Evidence of drug use would jeopardize the admission of the student to the clinical setting.

B. ADMISSION PROCEDURE
1. Obtain a Rio Hondo Student ID number by applying to the college. Application for admission to the College shall be submitted to the Admissions Office.
2. Attend an information session: It is recommended that applicants to the Associate Degree Nursing Program attend a nursing information session to discuss prerequisites, general education requirements for the degree, and basic skills testing.
3. Applicants must complete and submit an Associate Degree Nursing Program application to the Health Science and Nursing Division for admission consideration, when all the educational requirements are met.
4. Please check the Health Science and Nursing website for application deadlines.
5. Please bring one official copy of your high school transcripts, diploma or GED.
6. Official transcripts for college coursework completed to date should be sent to Rio Hondo College Admissions and Records Office. If you graduated from high school and/or college in another country, please have your transcripts evaluated by a private international evaluation service and bring the documentation, as well as official international transcripts, to Rio Hondo College Admissions and Records Office. The international evaluation of college coursework should be a detailed report.

C. ADMISSION SELECTION
Acceptance to the Associate Degree Nursing Program will be based on selection criteria which includes the following:
1. Overall Cumulative GPA
2. Cumulative Science GPA
3. Other College Degrees
4. Current Health Care Work Experience
5. Current Medical/Nursing certificates/licenses
6. Life Experience
7. Other Language Spoken
8. ATI Results

Students will be selected on the basis of overall scores with those having the most points given priority. The student’s overall cumulative GPA for all college coursework taken, grades in the core science courses (anatomy, physiology, and microbiology), completion of college English, and the number of repetitions of science core courses will be used to determine the student’s eligibility. Students who have at least an overall cumulative GPA of 2.5 for all college coursework taken, GPA of 2.5 in the science core courses, with no grade less than “C” for each course, have no more than one repetition of any of the science core courses, and completed ENGL 101, with a grade of “C” or better, will be considered eligible for admission.

Students who are accepted to the program will be admitted to ADN 151 by permission of the Health Science and Nursing Division. This course is a prerequisite for admission to ADN first semester course (ADN 150) and is offered in the Spring semester and Summer session. Students who complete ADN 151 with a grade of “C” or better will continue the program in the Fall semester. Students failing the first course will not be eligible to continue the program and will need to reapply for admission.

D. EXPENSES – Uniforms, books, health and safety screenings and miscellaneous expenses will vary according to distributors and medical providers. Cost per units will depend on college fees. Please see Admissions and Records for College Fee information. Students are responsible for providing their own transportation to clinical facilities.

E. STUDENT SUPPORT: SCHOLARSHIPS AND FINANCIAL AID – Rio Hondo College participates in a variety of federal and state financial aid programs. These programs are designed to assist students with tuition, fees, books/supplies, transportation, and room and board. Eligibility is limited to students who are U.S. citizens, permanent residents, or other eligible non-citizens. Additional eligibility requirements apply to each program and information may be obtained from the Financial Aid Office. There are numerous scholarships available to Rio Hondo College nursing students. These scholarships are funded and sponsored by a variety of on and off campus resources, including community hospital partners of the nursing program. Scholarships are granted based on a variety of qualifications. Scholarship information is available in the College Scholarship Office located in the Financial Aid Office or in the Health Science and Nursing Division. Short-term loans are available in emergency situations for books and supplies through the Student Activities Office or the Scholarship Office.

F. REQUIREMENT FOR LICENSURE – The Board of Registered Nursing requires a valid social security number for licensure. The Board of Registered Nursing should be consulted for qualifications for licensure for legal residents without social security cards. The Board of Registered Nursing can be reached at 916-322-3350.

G. TRANSFER STUDENTS – All transfer students who have taken coursework in nursing at another nursing program will be evaluated on an individual basis throughout the academic year. Previous nursing coursework must be no older than three years. The student must present a letter from the director of the former nursing program, stating the circumstances necessitating the transfer, and an evaluation of clinical safety. Students who are deemed unsafe in the clinical area are not eligible for transfer to the Rio Hondo Associate Degree Nursing
Program. Transfer students must demonstrate competence in clinical skills and pass a pharmacology math quiz with a score of 100% before admission to the program.

**PSYCHIATRIC TECHNICIAN TO (RN) ASSOCIATE DEGREE NURSING**

Determination of Eligibility for Admission to the ADN Program

Psychiatric Technicians wishing to become registered nurses follow the same admission procedures as those applicants for the associate degree nursing program. Psychiatric Technicians must also submit proof of their active California Psychiatric Technician license. PT-ADN students follow the same coursework of the ADN program as the Generic ADN students with the exception of receiving a waiver for ADN 252 and ADN 252Lfor prior knowledge and work as a Psychiatric Technician.

**ASSOCIATE DEGREE NURSING PROGRAM – LVN TO ADN**

Determination of Eligibility for Admission to the LVN to ADN Program

**A. ADMISSION REQUIREMENTS**

1. **EDUCATIONAL REQUIREMENTS FOR PROGRAM APPLICATION**
   a. Proof of graduation from an accredited high school in the U.S.A. by transcript, diploma, or official international evaluation; Baccalaureate degree from an accredited institution of higher education in the U.S.A.; or documentation of passing score on the GED (General Education Development) exam.
   b. Students must meet the admission requirements for Rio Hondo College.
   c. Copy of an active California Vocational Nurse license.
   d. Completion of all three science prerequisites (Anatomy, Physiology, and Microbiology) with an overall science GPA of at least a 2.5 and no grade less than a C. The student is limited to one repeat in any of the science courses to improve the grade. All science courses must be a minimum of four units with a lab component. All science courses must be completed within the last seven years.
   e. A cumulative grade point average (GPA) of at least 2.5 for all college coursework taken.
   f. Applicants must meet the graduate proficiency requirements for math and reading either by completing the minimal required coursework or by achieving an equivalent passing score on the assessment tests prior to application to the program. Students who fail to achieve a passing score will be required to complete additional coursework in order to meet the minimal requirements.
   g. Only the first ATI TEAS score taken will be accepted. If a student has taken the ATI TEAS at another location, the first score will be accepted and must be a passing score to be eligible. TEAS test version V.O will no longer be accepted.

2. **HEALTH REQUIREMENTS** – The applicant must be free from communicable diseases, infections, psychological disorders, and other conditions that would prevent the successful performance of the responsibilities and tasks required in the education and training of a Registered Nurse. For patient safety and successful achievement of course objectives, all applicants must be able to hear and see with the use of assistive devices. The program will make every effort to provide reasonable accommodations for all applicants. Upon acceptance into the program, the student must satisfactorily pass a health examination by a licensed physician or nurse practitioner and have various laboratory tests and immunizations, as needed, to determine physical and mental fitness. If a student enrolled in the program has developed a condition that would prevent successful performance of his/her responsibilities and tasks, the Dean of Health Science and Nursing may require the student to be examined by a licensed physician. If the licensed physician verifies the condition, then there is sufficient cause for suspension or expulsion from the program pursuant to Board Policy. Information on specific health requirements will be provided to all provisionally selected students and alternates.

**B. ADMISSION PROCEDURE**

1. Application for admission to the College shall be submitted to the Admissions Office.
2. Applicants to the Associate Degree Nursing Program should attend a nursing information session to discuss prerequisites, general education requirements for the degree, and basic skills testing. Applicants must complete and submit an Associate Degree Nursing Program application to the Health Science and Nursing Division for admission consideration, when all the educational requirements are met.
3. Please bring one official copy of your high school transcripts, diploma or GED. Official transcripts for college coursework completed to date should be sent to Rio Hondo College Admissions and Records Office. If you graduated from high school and/or college in another country, please have your transcripts evaluated by a private international evaluation service and bring the documentation, as well as official international transcripts, to Rio Hondo College Admissions and Records Office. The international evaluation of college coursework should be a detailed report.
C. ADMISSION PROCESS – Acceptance to the Associate Degree LVN to ADN Nursing Program will be through the use of an admission’s formula developed by the California Community College Chancellor’s Office. The student’s overall cumulative GPA for all college coursework taken, grades in the core science courses (anatomy, physiology, and microbiology), completion of college English, and the number of repetitions of science core courses will be used to determine the student’s eligibility. Students who have at least an overall cumulative GPA of 2.5 for all college coursework taken, GPA of at least 2.5 in the science core courses, with no grade less than “C” for each course, have no more than one repetition of any of the science core courses, and completed ENGL 101, with a grade of “C” or better, will be considered eligible for admission.

ADN 075 – LVN Transition into the Associate Degree Program is a prerequisite for admission to ADN second year course offered in the fall semester (ADN 251) and is offered in the summer session only. Following admission, the student will be given a permit to register for this course. Following completion of this course, with a grade of “C” or better, the student will continue the program in the Fall semester.

D. EXPENSES – Uniforms, books, health and safety screenings, and miscellaneous expenses will vary according to distributors and medical providers. Cost per units will depend on college fees. Please see Admissions and Records for College Fee information. Students are responsible for providing their own transportation to clinical facilities.

E. STUDENT SUPPORT: SCHOLARSHIPS AND FINANCIAL AID – Rio Hondo College participates in a variety of federal and state financial aid programs. These programs are designed to assist students with tuition, fees, books/supplies, transportation, and room and board. Eligibility is limited to students who are U.S. citizens, permanent residents, or other eligible non-citizens. Additional eligibility requirements apply to each program and information may be obtained from the Financial Aid Office. There are numerous scholarships available to Rio Hondo College nursing students. These scholarships are funded and sponsored by a variety of on and off campus resources, including community hospital partners of the nursing program. Scholarships are granted based on a variety of qualifications. Scholarship information is available in the College Scholarship Office located in the Financial Aid Office or in the Health Science and Nursing Division. Short-term loans are available in emergency situations for books and supplies through the Student Activities Office or the Scholarship Office.

F. PATIENT SAFETY AND BACKGROUND CHECKS – Based on clinical facility policies, nursing students must have clear criminal background checks to participate in clinical courses. Specific procedures will be shared with the student upon admission. The student is responsible for the cost of the background check. If the background check is not clear, the student will be responsible for obtaining documents showing rehabilitation and/or having the record corrected. The Dean of Health Science and Nursing is responsible for determining if clinical placement is appropriate through consultation with the Human Resource Department at the clinical sites. Student information will be held in strictest confidence. See the Dean of Health Science and Nursing with questions concerning this procedure.

The student will be required to undergo drug testing at their expense before caring for patients in the clinical setting. Specific procedures will be shared with the student upon admission. Evidence of drug use would jeopardize the admission of the student to the clinical setting.

The Board of Registered Nursing requires the applicant for licensure as a Registered Nurse to disclose prior misdemeanor and felony convictions. The applicant must explain the circumstances of the conviction and provide documentation of rehabilitation. The Board considers the nature and severity of the offense, subsequent acts, recency of acts or crimes, compliance with court sanctions, and evidence of rehabilitation in determining eligibility for licensure. Questions concerning this requirement may be directed to the Dean of Health Science and Nursing.

G. REQUIREMENT FOR LICENSURE – The Board of Registered Nursing requires a valid social security number for licensure. The Board of Registered Nursing should be consulted for qualifications for licensure for legal residents without social security cards. The Board of Registered Nursing can be reached at 916-322-3350.

### VOCATIONAL NURSING PROGRAM

The Vocational Nursing Program is a two and a half semester program following the completion of prerequisite courses. It is designed to prepare students for employment as a Vocational Nurse, giving care to patients in a variety of settings, such as acute hospitals, extended care facilities, home health care, surgical centers and medical offices. The program is accredited by the California State Board of Vocational Nursing and Psychiatric Technicians. Students who complete the curriculum and achieve the career certificate are qualified to apply for the examination leading to licensure as a Licensed Vocational Nurse.

**Philosophy of the Vocational Nursing Program**

The philosophy of the Vocational Nursing Program is in harmony with the stated philosophy of Rio Hondo College. The faculty recognizes the individual worth and potential of all students. Students come from a variety of backgrounds, age, sex, culture, lives and educational experience. The application of theoretical concepts occurs in the Health Science and Nursing Skill Center and the community clinical facilities. College support services include: financial aid, remediation, tutoring, psychological counseling and health services.

The conceptual framework of the Vocational Nursing curriculum focuses on the Medical Model, utilizing all aspects of the nursing process. The faculty believes that nursing is concerned with the promotion of health and wellness, and strives to provide a maximum quality of life. The Nursing curriculum includes the current health care delivery system; safety; therapeutic communication; patient teaching; nutrition; pharmacology, cultural diversity, gerontology, human sexuality, mental health, growth and development; reproduction; legal and ethical issues, and professional development, as applied to the Vocational Nurse.

Nursing is a broad occupational field involving a multiplicity of functions performed by individuals, with varying degrees of preparation. It is essential that students be assisted to recognize and accept their responsibility and scope of practice.

The nursing faculty believes education is a continuing process and students should be provided with the attitudes, skills and knowledge to qualify for licensure as well as an upward mobility to the Vocational Nursing Program.

---

### Determination of Eligibility for Admission to the LVN Program

**A. ADMISSION REQUIREMENTS**

**1. Educational requirements for program application**

- a. Proof of graduation from an accredited high school in the U.S.A. by transcript, diploma, or official international evaluation; Associate or Baccalaureate degree from an accredited institution of higher education in the U.S.A.; or documentation of passing score on the GED (General Education Development) exam.
- b. Students must meet the admission requirements for Rio Hondo College.
- c. Completion of HS 60 or Anatomy with a C or better.
- d. Completion of Psychology 101 with a C or better.
- e. Completion of READ 023, ENGL 035, MATH 030, 030D or 033 or equivalent, with a grade “C” or better or exemption through assessment testing.
- f. Current CPR Card (BLS 8-hour class for health care providers, all ages, 1-person, 2-person rescuer) provided by the American Heart Association will be required after admission.

**2. HEALTH REQUIREMENTS** – The applicant must be free from communicable diseases, infections, psychological disorders, and other conditions that would prevent the successful performance of the responsibilities and tasks required in the education and training of a Licensed Vocational Nurse. Upon acceptance into the program, the student must satisfactorily pass a health examination by a licensed physician or nurse practitioner and have various laboratory tests and immunizations, as needed, to determine physical and mental fitness. If a student enrolled in the program has developed a condition that would prevent successful performance of his/her responsibilities and tasks, the Dean of Health Science and Nursing may require the student to be examined by a licensed physician. If the licensed physician verifies the condition, then there is sufficient cause for suspension or expulsion from the program pursuant to Board Policy. Information on specific health requirements will be provided to the student upon admission to the program.
B. ADMISSION PROCEDURE
1. Application for admission to the College shall be submitted to the Admissions Office.
2. Applicants to the Vocational Nursing Program should attend a nursing information session to discuss prerequisites, general education requirements for the degree, and basic skills testing. Applicants must complete and submit a Vocational Nursing Program application to the Health Science and Nursing Division for admission consideration, when all the educational requirements are met.
3. The Vocational Nursing Program has once a year entry.
4. The Counseling Department will evaluate academic records and complete an admissions card. Please bring one official copy of your high school transcripts, diploma or GED, and transcripts for college work completed to date to the Health Science and Nursing Division. If you graduated from high school and/or college in another country, please have your transcripts evaluated by a private international evaluation service and bring the documentation, as well as official international transcripts, to the Health Science and Nursing Division. The international evaluation of college course work should be a detailed report.
5. All applicants will be notified in writing regarding acceptance.

C. ADMISSION PROCESS – Acceptance to the Vocational Nursing Program is done using a random selection from all qualified applicants. This selection process is in accordance with the State Board of Vocational and Psychiatric Technicians and the California Community College Chancellor’s Office. Only applicants meeting the requirements will be placed in the pool for selection. Each class selection will be completed using the above process. Student will be notified by the Health Science and Nursing Division of permission to register in writing.

D. Uniforms, books, health and safety screenings and miscellaneous expenses will vary according to distributors and medical providers. Cost per units will depend on college fees. Please see Admissions and Records for College Fee information. Students are responsible for providing their own transportation to clinical facilities.

E. STUDENT SUPPORT: SCHOLARSHIPS AND FINANCIAL – Rio Hondo College participates in a variety of federal and state financial aid programs. These programs are designed to assist students with tuition, fees, books/supplies, transportation and room and board. Eligibility is limited to students who are U.S. citizens, permanent residents, or other eligible non-citizens. Additional eligibility requirements apply to each program and information may be obtained from the Financial Aid Office. There are numerous scholarships available to Rio Hondo College nursing students. These scholarships are funded and sponsored by a variety of on and off campus resources, including community hospital partners of the nursing program. Scholarships are granted based on a variety of qualifications. Scholarship information is available in the College Scholarship Office located in the Financial Aid Office or in the Health Science and Nursing Division. Short-term loans are available in emergency situations for books and supplies through the Student Activities Office or the Scholarship Office.

F. PATIENT SAFETY AND BACKGROUND CHECKS – Based on clinical facility policies, nursing students must have clear criminal background checks to participate in clinical courses. Specific procedures will be shared with the student upon admission. The student is responsible for the cost of the background check. If the background check is not clear, the student will be responsible for obtaining documents showing rehabilitation and/or having the record corrected. The
NURSING PROGRAMS OVERVIEW CONTINUED

Dean of Health Science and Nursing is responsible for determining if clinical placement is appropriate through consultation with the Human Resource Department at the clinical sites. Student information will be held in strictest confidence. See the Dean of Health Science and Nursing with questions concerning this procedure.

The student will be required to undergo drug testing at their expense before caring for patients in the clinical setting. Specific procedures will be shared with the student upon admission. Evidence of drug use would jeopardize the admission of the student to the clinical setting.

The Board of Vocational Nursing and Psychiatric Technicians requires the applicant for licensure as a Vocational Nurse to disclose prior misdemeanor and felony convictions. The applicant must explain the circumstances of the conviction and provide documentation of rehabilitation. The Board considers the nature and severity of the offense, subsequent acts, recency of acts or crimes, compliance with court sanctions, and evidence of rehabilitation in determining eligibility for licensure. Questions concerning this requirement may be directed to the Dean of Health Science and Nursing.

G. REQUIREMENT FOR LICENSURE – The Board of Vocational Nursing and Psychiatric Technicians requires a valid social security number for licensure. The Board of Vocational Nursing and Psychiatric Technicians should be consulted for qualifications for licensure for legal residents without social security cards. The Board of Vocational Nursing and Psychiatric Technicians can be reached at 916-263-7800.

H. TRANSFER STUDENTS – All transfer students who have taken coursework in nursing at another nursing program will be evaluated on an individual basis. Previous nursing coursework must be no older than five years. The student must present a letter from the director of the former nursing program, stating the circumstances necessitating the transfer, and an evaluation of clinical safety. Students who are deemed unsafe in the clinical area are not eligible for transfer to the Rio Hondo Vocational Nursing Program.

LICENSED VOCATIONAL NON-DEGREE-30 UNIT OPTION (OPTION #2) 30 Unit Option LVN to RN

This one-year program is for the applicant with a valid California Vocational Nurse license. The Vocational Nurse who completes thirty additional units beyond the LVN curriculum qualifies to take the licensing examination as a Registered Nurse. This option does not lead to an Associate Nursing Degree.

The program is designed to prepare students for employment as a Registered Nurse, providing direct care to patients. The student should be aware that they may not change their status as a 30 unit option RN with the Board of Registered Nursing at any time after licensure. Individuals who become licensed as Registered Nurses using this option may not be eligible for licensure in states other than California or for any advanced degrees. The program is accredited by the California Board of Registered Nursing.

ASSOCIATE OF SCIENCE DEGREE OR CERTIFICATE OF ACHIEVEMENT

Vocational Nursing Program

The Vocational Nursing Program is offered as an Associate of Science Degree or as a Certificate of Achievement. Students opting for the Associate Degree should have all the General Education requirements completed prior to entering the Vocational Nursing Program.

The Vocational Nursing Program is a two-and-a-half semester program following completion of prerequisite courses. It is designed to prepare students for employment as staff nurses, giving care to patients in a variety of settings, such as extended care facilities, home health care, surgical centers and medical offices. The program is approved by the California State Board of Vocational Nursing and Psychiatric Technicians. Students who complete the curriculum and achieve the certificate of completion, are qualified to take the examination leading to licensure as a Licensed Vocational Nurse.

A 2.5 or better grade point average in all college work attempted is required for completion of the program and qualification to take the examination leading to licensure as a Licensed Vocational Nurse.

ASSOCIATE IN ARTS IN PHILOSOPHY FOR TRANSFER

The Associate in Arts in Philosophy for Transfer (AA-T) Degree is intended to meet the lower division requirements for Philosophy majors (or similar majors) at a CSU campus that offers a Philosophy baccalaureate degree. It will provide a broad introduction to philosophy for those interested in building a foundation for an eventual Bachelor's Degree in Philosophy, or for those seeking a structured exploration of philosophy for other reasons.

In addition to the courses listed below, the following additional requirements must be met for completion of the AA-T Degree in Philosophy:

1. Completion of 60 CSU-transferable semester units.
2. Achievement of a minimum GPA of at least 2.0 in all CSU-transferable coursework. (Some majors may require a higher GPA. Students should consult with a counselor for more information.)
3. Completion of the 18 semester units in the major with a grade of "C" or better.
4. Certified completion of the California State University General Education-Breadth (CSU GE) pattern; OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

Students are advised to check with the Counseling Department or Transfer Center for the courses accepted into the Philosophy major at the CSU where they seek transfer. Students who are planning on transferring to a CSU are strongly advised to take PHIL 115—Symbolic Logic to prepare for further study.

PHOTOGRAPHY
DIVISION OF ARTS & CULTURAL PROGRAMS

ASSOCIATE OF SCIENCE DEGREE

The Associate of Science Degree provides students preparing to transfer with a thorough technical knowledge of contemporary photographic equipment and applications. Students also become familiar with basic filmmaking and videography techniques including digital image capture and scanning as well as use of conventional materials. Students interested in photography as visual expression will also benefit.

Students planning to prepare for a four-year degree in Photography should consult the lower division requirements of the university to which they plan to transfer.

To acquire the Associate of Science Degree in Photography, it is necessary to complete the graduation requirements of the College along with the following courses:

<table>

ASSOCIATE IN SCIENCE IN PHYSICS FOR TRANSFER

The Associate in Science in Physics for Transfer (AS-T) degree is intended to meet the lower division requirements for Physics and Physics Education majors at a CSU campus that offers a Physics baccalaureate degree.

Physics will prepare those students interested in laying a foundation for further study and for a Bachelor's Degree in Physics and Physics Education. Since physics is the most basic of sciences, this degree will also satisfy the lower division requirements for a variety of baccalaureate degrees including, Engineering, Chemistry, Mathematics, and Computer Science.

In addition to the courses listed below, the following additional requirements must be met for completion of the AS-T Degree in Physics:

1. Completion of a minimum of 60 CSU-transferable semester units.
2. Achievement of a minimum GPA of at least 2.0 in all CSU-transferable coursework. (Some majors may require a higher GPA. Students should consult with a counselor for more information.)
3. Completion of the 24 semester units in the major with a grade of "C" or better or a "P" if the course is taken on a pass-no pass basis.
4. Certified completion of the California State University General Education-Breadth (CSU GE) pattern; OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

Students are advised to check with the Counseling Department or Transfer Center for the courses accepted into the Physics major at the CSU where they seek transfer.

*Prerequisite
Several programs at Rio Hondo College are certified by the Commission of Peace Officer Standards and Training (POST). There are certain minimum physical requirements for peace officers as well as requirements of good moral character. Students may obtain more specific information about these requirements from the Administration of Justice staff.

At the Administration of Justice Regional Training Center, a modern and complete law enforcement training facility is maintained. The center is equipped to train in the use of firearms, obstacle course for physical training, and weight training apparatus and driver training exercises. The facility is equipped to train in other areas related to the field of law enforcement, security and corrections. If you are interested in attending the Rio Hondo Police Academy, there are information meetings being held on a monthly basis. Please call at (562) 463-7756.

Students who have previously earned a Basic POST Certificate or who are transferring to Rio Hondo College from another college as Administration of Justice majors must meet the college transfer requirements and complete at least six units of Administration of Justice courses at Rio Hondo College in addition to regular required courses to be eligible for graduation.

ASSOCIATE IN ARTS IN POLITICAL SCIENCE FOR TRANSFER

The Associate in Arts in Political Science for Transfer Degree is intended to meet the lower division requirements for Political Science majors (or similar majors) at a CSU campus that offers a Political Science baccalaureate degree.

This degree will introduce students to the broad discipline of political science. It involves the study of political structures, processes and social conditions as they relate to political situations, policy formulation approaches, and intergovernmental relations. This program is particularly relevant for students interested in pursuing a Bachelor’s Degree in Political Science from a California State University, or for those seeking a structured examination into political systems.

In addition to the courses listed below, the following additional requirements must be met for completion of the AA-T Degree in Political Science:

1. Completion of 60 CSU-transferable semester units.
2. Achievement of a minimum GPA of at least 2.0 in all CSU-transferable coursework. (Some majors may require a higher GPA. Students should consult with a counselor for more information.)
3. Completion of the 18-19 semester units in the major with a grade of “C” or better.
4. Certified completion of the California State University General Education-Breadth (CSU GE) pattern; OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

Students are advised to check with the Counseling Department or Transfer Center for the courses accepted into the Political Science major at the CSU where they seek transfer.

*Prerequisite
The Associate in Arts in Psychology for Transfer (AA-T) Degree is intended to meet the lower division requirements for Psychology majors (or similar majors) at a CSU campus that offers a Psychology baccalaureate degree.

This degree is designed for students interested in an introduction to the field of psychology and for students looking to further their understanding of the biological, psychological and environmental influences that guide human behavior. These courses will provide students with a solid foundation in psychology that will serve them for either transferring or in the workplace.

In addition to the courses listed below, the following additional requirements must be met for completion of the Associate in Arts in Psychology for Transfer Degree:

1. Completion of 60 CSU-transferable semester units.
2. Achievement of a minimum GPA of at least 2.0 in all CSU-transferable coursework. (Some majors may require a higher GPA. Students should consult with a counselor for more information.)
3. Completion of the 19 semester units in the major with a grade of "C" or better.
4. Certified completion of the California State University General Education-Breadth (CSU GE) pattern; OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

Students are advised to check with the Counseling Department or Transfer Center for the courses accepted into the Psychology major at the CSU where they seek transfer.
The Retail Management Certificate Program is a comprehensive program designed to prepare students for the fast-paced challenges that exist in the competitive retail industry. This broad program is also intended to help students develop a clear sense of the scope of the retail manager's job and an understanding of the basic requirements for success in the future. This program is endorsed by the Western Association of Food Chains (WAFC).

To acquire the Certificate of Achievement in Retail Management, it is necessary to complete the following courses:

<table>

SOCIAL WORK
DIVISION OF BEHAVIORAL & SOCIAL SCIENCE

ASSOCIATE OF ARTS DEGREE

The Associate of Arts degree in Social Work provides a foundation for students interested in the fields of social work, human services, counseling and related areas. The curriculum is designed to meet lower-division transfer courses for many CSU's with majors in Social Work, Sociology with an emphasis in Social Work or Human Services. The degree also offers a basis for students interested in paraprofessional jobs in the human services field. See admission requirements of individual colleges and universities and transfer requirements for specific majors.

To acquire the Associate of Arts degree in Social Work it is necessary to complete the CSU breadth pattern or the IGETC pattern along with the following course:

<table>

Units Required | 19-19.5
ASSOCIATE IN ARTS IN SOCIOLOGY FOR TRANSFER

The Associate in Arts in Sociology for Transfer (AA-T) Degree is intended to meet the lower division requirements for Sociology majors (or similar majors) at a CSU campus that offers a Sociology baccalaureate degree.

This degree is designed to give foundational knowledge in the field of Sociology for students looking to transfer, or for those who desire a broad understanding of Sociology and the social world.

In addition to the courses listed below, the following additional requirements must be met for completion of the Associate in Arts in Sociology for Transfer Degree:

1. Completion of a minimum of 60 CSU-transferable semester units.

2. Achievement of a minimum GPA of at least 2.0 in all CSU-transferable coursework. (Some majors may require a higher GPA. Students should consult with a counselor for more information.)

3. Completion of the 18-20 semester units in the major with a grade of "C" or better.

4. Certified completion of the California State University General Education-Breadth (CSU GE) pattern; OR the Intersegmental General Education Transfer Curriculum (IGETC) pattern.

Students are advised to check with the Counseling Department or Transfer Center for the courses accepted into the Sociology major at the CSU where they seek transfer.

Units Required: 17
*Prerequisite
WILDLAND FIRE TECHNOLOGY
DIVISION OF PUBLIC SAFETY

ASSOCIATE OF SCIENCE DEGREE

This Degree program will provide the student with training in hand crew formation, fire line construction, and the use of wild land equipment. The behavior of fires, protective clothing, and wildland fire tools will also be addressed. The Wildland Fire Technology Associate Degree program is for those students who desire to gain an understanding of Wildland fire investigation, fire prevention and support operations. This program also meets the requirements for the U.S. Forest Service to be hired as an entry-level Wildland firefighter. This degree program will also aid currently employed municipal firefighters with the learning domains and knowledge base to respond to and mitigate a Wildland conflagration.

To acquire the Associate of Science Degree in Wildland Fire Technology, it is necessary to complete the graduation requirements of the College along with the following courses:

<table>
<thead>
<tr>
<th>Required Courses</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>WFT 101 Wildland Fire Behavior</td>
<td>3</td>
</tr>
<tr>
<td>WFT 102 Wildland Fire Fighter Safety and Survival</td>
<td>3</td>

</tbody>
</table>

Units Required: 0
Admission requirements:

Upper Division Standing

Students interested in pursuing the Bachelor of Science in Automotive Technology must meet the following requirements to be considered to have upper division standing:

- Major courses: 35 units of transportation related courses from a designated associate degree course sequence per California Community College Chancellor’s Office Taxonomy of Programs (TOP) codes 0948.00. Each course must be completed with a C or higher.
- A minimum of 30 units (45 quarter units) in general education from either the CSU GE or IGETC patterns with a 2.0 cumulative GPA. The 30 units must include the following courses, completed with a C or higher:
  - Written Communication
  - Oral Communication
  - Critical Thinking
  - Mathematics

Steps for applying for upper division standing:

- Apply to Rio Hondo College
- Submit a completed supplemental application
- Submit all official transcripts to Admissions and Records (must be delivered from sending institution)

Program Learning Outcomes

Graduates will be technically competent and possess strong interpersonal skills. They will have the ability to communicate effectively, be able to solve problems, work in teams, and will have developed an understanding of the need for continued professional development. The Program Learning Outcomes are grouped into five broad interrelated categories:

1. Specialized Knowledge
   - This category addresses what students should demonstrate with respect to the Automotive Technology Industry beyond the vocabularies, theories, and skills of the particular fields of study.

2. Broad and Integrative Knowledge
   - This category asks students to consolidate learning from different broad fields of study (e.g., Humanities, Arts, Applied Sciences, and Social Sciences) and to discover and explore concepts and questions that bridge these essential areas of learning.

3. Intellectual Skills
   - This category includes both traditional and nontraditional cognitive skills, which include analytic inquiry, use of information resources, engagement with diverse perspectives, ethical reasoning, and quantitative and communicative fluency. All of these emphasize the importance of students making, confronting, and interpreting ideas and arguments from different points of reference (e.g., cultural, technological, and political).

4. Applied and Collaborative Learning
   - This category emphasizes what students can do with what they know. Students will be asked to demonstrate their learning by addressing unscripted problems in scholarly inquiry, both at work and in other settings outside the classroom. It also includes research and creative activities involving both individual and group efforts, and may also include practical skills crucial to the application of expertise.

5. Civics and Global Learning
   - This category recognizes higher education’s responsibilities both to democracy and global community. Students will demonstrate integration of their skills and knowledge by engaging with and responding to civic, social, environmental, and economic challenges at local, state, national, and international levels.

Specific Program Learning Outcome Proficiencies

The following is an overview of the five categories of learning listed above at each level of the Automotive Technology Degree Courses (Lower Division and Upper Division), and defines the basic proficiencies to each area of learning, as well as describing their relationship to one another.

- Specialized Knowledge
  - Lower Division Courses: Automotive Service Technician Major
    - Students shall describe the scope of the field of study, its core theories and practices, using field-related terminology, and offer a similar description of the field of study per Industry Standards.
    - Students shall apply tools, technologies, and methods to selected questions or problems of the field of study per Industry Standards.
    - Students shall generate substantially error-free products, reconstructions, data, juried exhibits, or performances appropriate to the field of study per Industry Standards.
  - Upper Division Courses: Automotive Technical Studies or Business Marketing Pathway
    - Students shall define and explain the structure, styles, and practices of the field of study using its tools, technologies, methods, and specialized terms per Industry Standards.
    - Students shall investigate a familiar but complex problem in the field of study by assembling, arranging, and reformulating ideas, concepts, designs, and techniques per Industry Standards.
    - Students shall frame, clarify, and evaluate complex challenges that bridges the field of study and at least one other related field, using theories, tools, methods, and academics from those fields to produce independently or collaboratively an investigative, creative, or practical work illuminating said challenge per Industry Standards.
- Students shall construct a summative project, paper, performance, or application that draws on current research, academics, and techniques in the field of study per Industry Standards.

- Broad and Integrative Knowledge
  - Lower Division Courses: Automotive Service Technician Major
    - Students shall describe how existing knowledge or practice is advanced, tested, and revised in each core field studied, such as disciplinary and interdisciplinary courses in technology, applied sciences, social sciences, and humanities per Industry Standards.
    - Students shall describe a key debate or problem relevant to each core field studied, explain the significance of the debate or problem to the wider society, and show how concepts from the core fields can be used to address the selected debates or problems per Industry Standards.
    - Students shall use recognized methods of each core field studied, including the gathering and evaluation of evidence, in the execution of analytical, practical, or creative tasks per Industry Standards.
    - Students shall describe and evaluate the ways in which at least two fields of study define, address, and interpret the importance for society of a problem in applied science, social science, humanities, or technology per Industry Standards.
  - Upper Division Courses: Automotive Technical Studies or Business Marketing Pathway
    - Students shall describe and evaluate the ways in which at least two fields of study define, address, and interpret the importance for society of a problem in applied science, social science, humanities, or technology, and explain how the methods of inquiry in these fields can address the challenge and proposes an approach to the problem that draws on these fields per Industry Standards.
    - Students shall produce an investigative, creative, or practical work that draws on specific theories, tools, and methods from at least two core fields of study per Industry Standards.
    - Students shall define and frame a problem important to the major field of study, justify the significance of the challenge or problem in a wider societal context, explain how methods from the primary field of study can be used to address the problem, and develop an approach that draws on both the major and core fields per Industry Standards.

- Intellectual Skills
  - Lower Division Courses: Automotive Service Technician Major
    - Students shall identify and frame a problem or question in selected areas of study and distinguish among elements of ideas, concepts, theories, or practical approaches to the problem or question per Industry Standards.
    - Students shall identify, categorize, evaluate, and cite multiple information resources so as to create projects, papers, or performances in either a specialized field of study or with respect to a general theme within applied science, social science, humanities, or technology per Industry Standards.
  - Upper Division Courses: Automotive Technical Studies or Business Marketing Pathway
    - Students shall describe how knowledge from different cultural perspectives might affect interpretations of prominent problems in politics, society, and global relations per Industry Standards.
    - Students shall describe, explain, and evaluate the sources of his/her own perspective on selected issues in culture, society, politics, or global relations, and compare that perspective with other views per Industry Standards.
    - Students shall describe the ethical issues present in prominent problems in politics, economics, health care, technology, or frameworks that help to inform decision-making with respect to such issues per Industry Standards.
    - Students shall present accurate interpretations of quantitative information on political, economic, health-related, or technological topics and explain how both calculations and symbolic operations are used in those offerings per Industry Standards.
    - Students shall create and explain graphs or other visual depictions of trends, relationships, or changes in status per Industry Standards.
    - Students shall develop and present valid, coherent, and substantially error-free writing for communication to general and specialized audiences per Industry Standards.
    - Students shall demonstrate effective interactive communication through discussion by actively listening, constructively responding, and through structured oral presentations to general and specialized audiences per Industry Standards.
    - Students shall negotiate with peers to develop an action plan for a practical task, and communicate the results of the negotiation either orally or in writing per Industry Standards.

- Students shall present accurate interpretations of quantitative information on political, economic, health-related, or technological topics and explain how both calculations and symbolic operations are used in those offerings per Industry Standards.

- Students shall create and explain graphs or other visual depictions of trends, relationships, or changes in status per Industry Standards.

- Students shall develop and present valid, coherent, and substantially error-free writing for communication to general and specialized audiences per Industry Standards.

- Students shall demonstrate effective interactive communication through discussion by actively listening, constructively responding, and through structured oral presentations to general and specialized audiences per Industry Standards.

- Students shall negotiate with peers to develop an action plan for a practical task, and communicate the results of the negotiation either orally or in writing per Industry Standards.

- Students shall present accurate interpretations of quantitative information on political, economic, health-related, or technological topics and explain how both calculations and symbolic operations are used in those offerings per Industry Standards.

- Students shall create and explain graphs or other visual depictions of trends, relationships, or changes in status per Industry Standards.

- Students shall develop and present valid, coherent, and substantially error-free writing for communication to general and specialized audiences per Industry Standards.

- Students shall demonstrate effective interactive communication through discussion by actively listening, constructively responding, and through structured oral presentations to general and specialized audiences per Industry Standards.

- Students shall negotiate with peers to develop an action plan for a practical task, and communicate the results of the negotiation either orally or in writing per Industry Standards.

- Students shall present accurate interpretations of quantitative information on political, economic, health-related, or technological topics and explain how both calculations and symbolic operations are used in those offerings per Industry Standards.

- Students shall create and explain graphs or other visual depictions of trends, relationships, or changes in status per Industry Standards.

- Students shall develop and present valid, coherent, and substantially error-free writing for communication to general and specialized audiences per Industry Standards.

- Students shall demonstrate effective interactive communication through discussion by actively listening, constructively responding, and through structured oral presentations to general and specialized audiences per Industry Standards.

- Students shall negotiate with peers to develop an action plan for a practical task, and communicate the results of the negotiation either orally or in writing per Industry Standards.

- Students shall present accurate interpretations of quantitative information on political, economic, health-related, or technological topics and explain how both calculations and symbolic operations are used in those offerings per Industry Standards.

- Students shall create and explain graphs or other visual depictions of trends, relationships, or changes in status per Industry Standards.

- Students shall develop and present valid, coherent, and substantially error-free writing for communication to general and specialized audiences per Industry Standards.

- Students shall demonstrate effective interactive communication through discussion by actively listening, constructively responding, and through structured oral presentations to general and specialized audiences per Industry Standards.

- Students shall negotiate with peers to develop an action plan for a practical task, and communicate the results of the negotiation either orally or in writing per Industry Standards.

- Students shall present accurate interpretations of quantitative information on political, economic, health-related, or technological topics and explain how both calculations and symbolic operations are used in those offerings per Industry Standards.

- Students shall create and explain graphs or other visual depictions of trends, relationships, or changes in status per Industry Standards.

- Students shall develop and present valid, coherent, and substantially error-free writing for communication to general and specialized audiences per Industry Standards.

- Students shall demonstrate effective interactive communication through discussion by actively listening, constructively responding, and through structured oral presentations to general and specialized audiences per Industry Standards.

- Students shall negotiate with peers to develop an action plan for a practical task, and communicate the results of the negotiation either orally or in writing per Industry Standards.

- Students shall present accurate interpretations of quantitative information on political, economic, health-related, or technological topics and explain how both calculations and symbolic operations are used in those offerings per Industry Standards.

- Students shall create and explain graphs or other visual depictions of trends, relationships, or changes in status per Industry Standards.

- Students shall develop and present valid, coherent, and substantially error-free writing for communication to general and specialized audiences per Industry Standards.

- Students shall demonstrate effective interactive communication through discussion by actively listening, constructively responding, and through structured oral presentations to general and specialized audiences per Industry Standards.

- Students shall negotiate with peers to develop an action plan for a practical task, and communicate the results of the negotiation either orally or in writing per Industry Standards.

- Students shall present accurate interpretations of quantitative information on political, economic, health-related, or technological topics and explain how both calculations and symbolic operations are used in those offerings per Industry Standards.

- Students shall create and explain graphs or other visual depictions of trends, relationships, or changes in status per Industry Standards.

- Students shall develop and present valid, coherent, and substantially error-free writing for communication to general and specialized audiences per Industry Standards.

- Students shall demonstrate effective interactive communication through discussion by actively listening, constructively responding, and through structured oral presentations to general and specialized audiences per Industry Standards.

- Students shall negotiate with peers to develop an action plan for a practical task, and communicate the results of the negotiation either orally or in writing per Industry Standards.

- Students shall present accurate interpretations of quantitative information on political, economic, health-related, or technological topics and explain how both calculations and symbolic operations are used in those offerings per Industry Standards.

- Students shall create and explain graphs or other visual depictions of trends, relationships, or changes in status per Industry Standards.

- Students shall develop and present valid, coherent, and substantially error-free writing for communication to general and specialized audiences per Industry Standards.

- Students shall demonstrate effective interactive communication through discussion by actively listening, constructively responding, and through structured oral presentations to general and specialized audiences per Industry Standards.

- Students shall negotiate with peers to develop an action plan for a practical task, and communicate the results of the negotiation either orally or in writing per Industry Standards.

- Students shall present accurate interpretations of quantitative information on political, economic, health-related, or technological topics and explain how both calculations and symbolic operations are used in those offerings per Industry Standards.

- Students shall create and explain graphs or other visual depictions of trends, relationships, or changes in status per Industry Standards.

- Students shall develop and present valid, coherent, and substantially error-free writing for communication to general and specialized audiences per Industry Standards.

- Students shall demonstrate effective interactive communication through discussion by actively listening, constructively responding, and through structured oral presentations to general and specialized audiences per Industry Standards.

- Students shall negotiate with peers to develop an action plan for a practical task, and communicate the results of the negotiation either orally or in writing per Industry Standards.

- Students shall present accurate interpretations of quantitative information on political, economic, health-related, or technological topics and explain how both calculations and symbolic operations are used in those offerings per Industry Standards.

- Students shall create and explain graphs or other visual depictions of trends, relationships, or changes in status per Industry Standards.

- Students shall develop and present valid, coherent, and substantially error-free writing for communication to general and specialized audiences per Industry Standards.

- Students shall demonstrate effective interactive communication through discussion by actively listening, constructively responding, and through structured oral presentations to general and specialized audiences per Industry Standards.

- Students shall negotiate with peers to develop an action plan for a practical task, and communicate the results of the negotiation either orally or in writing per Industry Standards.

- Students shall present accurate interpretations of quantitative information on political, economic, health-related, or technological topics and explain how both calculations and symbolic operations are used in those offerings per Industry Standards.
■ Students shall analyze competing claims from a recent discovery, scientific contention, or technical practice with respect to benefits and harms to those affected, articulate the ethical dilemmas inherent in the tension of benefits and harms, and either arrive at a clearly expressed reconciliation of that tension that is informed by ethical principles, or explain why such a reconciliation cannot be accomplished per Industry Standards.
■ Students shall identify and elaborate key ethical issues present in at least one prominent social or cultural problem, articulate the ways in which at least two differing ethical perspectives influence decision making concerning those problems, and develop and defend an approach to productively address the ethical issue per Industry Standards.
■ Students shall translate verbal problems into mathematical algorithms so as to construct valid arguments using accepted symbolic systems of mathematical reasoning, and present the resulting calculations, estimates, risk analyses, or quantitative evaluations of public information in papers, projects, or multimedia presentations per Industry Standards.
■ Students shall construct mathematical expressions where appropriate for issues initially described in non-quantitate terms per Industry Standards.
■ Students shall construct sustained, coherent arguments, narratives, or detailed explanations of issues, problems, or technical issues and processes in writing and at least in one other medium to general and specific audiences per Industry Standards.
■ Students shall conduct an inquiry concerning information, conditions, technologies, or practices in the field of study that makes substantive use of non-English-language sources per Industry Standards.
■ Students shall negotiate with one or more collaborators to advance an oral argument or articulate an approach to resolving a social, personal, or ethical dilemma per Industry Standards.

• Applied and Collaborative Learning

○ Lower Division Courses: Automotive Service Technician Major
■ Students shall describe in writing at least one case in which knowledge and skills acquired in academic settings may be applied to a field-based challenge, and evaluate the learning gained from the application per Industry Standards.
■ Students shall analyze at least one significant concept or method in the field of study in light of learning outside the classroom per Industry Standards.
■ Students shall locate, gather, and organize evidence regarding a question in a field-based venue beyond formal academic study and offer alternate approaches to answering the question per Industry Standards.
■ Students shall demonstrate the exercise of any practical skills crucial to the application of expertise per Industry Standards.

○ Upper Division Courses: Automotive Technical Studies or Business Marketing Pathway
■ Students shall prepare and present a project, paper, exhibit, performance, or other appropriate demonstration linking knowledge or skills acquired in work, community, or research activities with knowledge acquired in one or more fields of study, explain how those elements are structured, and employ appropriate citations to demonstrate the relationship of the product to literature of the field per Industry Standards.
■ Students shall negotiate a strategy for group research or performance, document the strategy so that others may understand it, implement the strategy, and communicate the results per Industry Standards.
■ Students shall write a design, review, or illustrative application for an analysis or case study in an applied scientific, social scientific, technical, or business context per Industry Standards.
■ Students shall complete a substantial project that evaluates a significant question in the field of study, including an analytic narrative of the effects of learning outside the classroom on the research or practical skills employed in executing the project per Industry Standards.

• Civics and Global Learning

○ Lower Division Courses: Automotive Service Technician Major
■ Students shall describe his/her own civic and cultural background, including its origins and development, assumptions, and predispositions per Industry Standards.
■ Students shall describe diverse positions, historical, and contemporary, on selected democratic values or practices, and present his/her own position on a specific problem where one or more of these values or practices are involved per Industry Standards.
■ Students shall provide evidence of participation in a community project through either a spoken or written narrative that identifies the civic issues encountered, and personal insights gained from this experience per Industry Standards.
■ Students shall identify an economic, environmental, or public health challenge spanning countries, continents, or cultures, present evidence for the challenge, and take a position on it per Industry Standards.

○ Upper Division Courses: Automotive Technical Studies or Business Marketing Pathway
■ Students shall explain diverse positions, including those representing different cultural, economic, and geographic interests, on a contested public issue, and evaluate the issue in light of both of those interests and evidence drawn from journalistic and academic publications per Industry Standards.
■ Students shall develop and justify a position on a public issue and relate this position to alternate views held by the public or within the policy environment per Industry Standards.
■ Students shall collaborate with others in developing and implementing an approach to a civic issue, evaluate the strengths and
weaknesses of the processes, and describe the results per Industry Standards.

- Students shall identify a significant issue affecting countries, continents, or cultures, present quantitative evidence of that challenge through tables and graphs, and evaluate the activities of either non-governmental organizations or cooperative inter-governmental initiatives in addressing identified issue(s) per Industry Standards.
The Bachelor of Science (B.S.) degree in Automotive Technology is designed to prepare an individual for a wide variety of technology-based careers in a pathway emphasizing the Automotive Industry.

Graduates with the Bachelor of Science degree in Automotive Technology will find employment in administrative and supervisory positions in automotive industry-related organizations and assume responsibilities in areas of product development, post-production support, customer sales and service support, distribution, and training. Graduates will have the practical skills, technical knowledge, and organizational competencies required of mid-level management personnel.

The courses will enhance the student's level of technical competency, computer, math, and science skills, effective communication and interpersonal skills, substantiate workplace and social ethics, the ability to work in teams, and to continue to pursue professional development and lifelong learning.

Total Units Required 28

*Prerequisite
REQUIRED COURSES - BOTH PATHWAYS

AUTO 300
Assessment of the Automotive Industry
Prerequisite: Enrollment requires an AS degree in Automotive Technology or similar field, and special approval from the program advisor. Advisory: PHY 120, ENGL 201 or ENGL 201H, and MATH 130 or MATH 130H or MATH 160 (all with a grade of “C” or better)
This course provides the Automotive Technology student with a detailed practical study of how to be successful in the Automotive Service, Parts, and Sales Industry. This is a practical study of current service, parts, and sales practices performed in dealerships and independent repair shops, while also discussing the review and preparation of the theory and skills necessary to successfully pass the Automotive Service Excellence (ASE) Exams relevant to Industry Standards. Topics include becoming efficient in the shop, mastering the various pay systems, understanding managers and owners, building customer loyalty, demonstrating workplace and social ethics, and making Customer Satisfaction Index (CSI) values work for all employees. In addition, vehicle engines, transmissions, brakes, suspension, air conditioning, and engine performance systems, parts, and components, and new and emerging technologies that support the service and repair of the modern automobile will be discussed. Emphasis will be placed upon the important tasks of proper repair procedures, the safe use of tools, equipment, technical data, and scan tools, as well as the ins-and-outs of the business of service, parts, and sales. Current Automotive Industry practices and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle After-Sales Field Operations Management spectrum.
3 Units
54 Lecture hours

AUTO 310
The Global Development and Advancement of the Automobile
Prerequisite: Enrollment requires an AS degree in Automotive Technology or similar field, and special approval from the program advisor. Advisory: PHY 120, ENGL 201 or ENGL 201H, and MATH 130 or MATH 130H or MATH 160 (all with a grade of “C” or better)
This course provides the Automotive Technology student with a detailed practical study of the development of the Automobile from its beginnings to the present day. This is a practical study of the invention of the first suitable power source to be adopted to self-propel a road vehicle and how it resulted in a major paradigm shift to revolutionize transportation and the ability of individual mobility. Topics include the development of animal-drawn transportation devices and the quest for a prime mover, the pioneering era of the automobile and how it lead to it being an industrial product, mass-production of the automobile and how it became a consumer product, and new and emerging technologies that support the automobile and motorized traffic and transportation systems. Emphasis will be placed upon the global perspective, particularly the developments that occurred in the United States, Europe, and Asia, and the numerous technological and business revolutions of the first and second half of the 20th century. Current Automotive Industry practices and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle-After Sales Field Operations Management spectrum.
3 Units
54 Lecture hours

AUTO 320
The Progressive Growth of Automotive Technology
Prerequisite: Enrollment requires an AS degree in Automotive Technology or similar field, and special approval from the program advisor. Advisory: PHY 120, ENGL 201 or ENGL 201H, and MATH 130 or MATH 130H or MATH 160 (all with a grade of “C” or better)
This course provides the Automotive Technology student with a detailed practical study of the development of Automotive Technology from its beginnings to the present day, focusing on the basics and its long-term development. This is a practical and contextualized study of the importance of the automotive technological changes that have evolved from both engineering improvements and cultural changes. Topics include the development of vehicle layout and design, the needs and behaviors of drivers, producers, non-users, and other stakeholders, and the ever-changing computerized control of its systems and other emerging technologies. Emphasis will be placed upon the systematic overview of the mechanization and electrification of the automobile, not only as machines, but as a testimony of their important role in the way we live today. Current Automotive Industry practices and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle After-Sales Field Operations Management spectrum.
3 Units
54 Lecture hours

CHOOSE ONE PATHWAY

Technical Pathway

AUTO 340
Analyzing Vehicle Electrical/Electronic Systems
Prerequisite: AUTO 300, AUTO 310, AUTO 320, ENGL 201 or ENGL 201H, MATH 160, PHY 120 (all with a grade of “C” or better)
Advisory: ENGL 325
This course provides the Automotive Technology student with a detailed practical application of Electrical and Electronic Systems of the Modern Automobile. This is a practical study of computerized vehicle controls and diagnostic strategies as it pertains to the function, operation, and vehicle on-board diagnostic and communication systems of the engine, powertrain, brakes, suspension, safety, convenience, and emission control systems. Topics include emerging technologies, such as modern instrumentation, navigation, and telematics, and the use of vehicle network configuration systems used by late-model automotive manufacturers. Emphasis will be placed upon the design of system parts, components, subsystems, and their operational characteristics, including programmed microprocessors, microcontrollers, and computer-language protocol. Current Industry-approved diagnostic, troubleshooting, and reprogramming techniques and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle After-Sales Field Operations Management spectrum.
3 Units
54 Lecture hours
 AUTO 360 Analyzing Vehicle Fuels, Lubricants and Combustion
Prerequisite: AUTO 300, AUTO 310, AUTO 320, ENGL 201 or ENGL 201H, MATH 160, PHY 120 (all with a grade of “C” or better)
Advisory: ENGL 325
This course provides the Automotive Technology student with a detailed practical application of Fuels, Lubricants, and Combustion of the Modern Automobile. This is a realistic study of the physical and chemical properties of fuels, lubricants, and combustion, including diagnostic strategies as it pertains to the function, operation, and every-day use of the systems and sub-systems of the automotive internal combustion engine and related powertrain components. Topics include emerging technologies, such as modern fuel and lubricant requirements and how they affect combustion, emissions, and maintenance schedules used by late-model automotive manufacturers. Emphasis will be placed upon the design of system parts, components, subsystems, and their operational characteristics, including failure analysis. Current Industry-approved diagnostic and troubleshooting techniques and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle After-Sales Field Operations Management spectrum.
3 Units
54 Lecture hours

 AUTO 400 Analyzing Stability, Dynamics, and NVH
Prerequisite: AUTO 300, AUTO 310, AUTO 320, ENGL 201 or ENGL 201H, MATH 160, PHY 120 (all with a grade of “C” or better)
Advisory: ENGL 325
This course provides the Automotive Technology student with a detailed practical application of Stability, Dynamics, and Noise-Vibration-Harshness (NVH) of the Modern Automobile. This is a practical study of the systems that provide vehicle operation safety, including diagnostic strategies as it pertains to the function, operation, and every-day use of the automotive tires, brakes, steering, and suspension systems. Topics include emerging technologies, such as modern antilock brakes, traction control, electronic stability assist, electronic power steering, active suspension, and tire construction and pressure monitoring systems used by late-model automotive manufacturers. Emphasis will be placed upon the design of system parts, components, subsystems, and their operational characteristics, including techniques in reducing NVH. Current Industry-approved diagnostic and troubleshooting techniques and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle After-Sales Field Operations Management spectrum.
3 Units
54 Lecture hours

 AUTO 420 Analyzing Dynamic Functions of Vehicle Drivetrain Systems
Prerequisite: AUTO 300, AUTO 310, AUTO 320, ENGL 201 or ENGL 201H, MATH 160, PHY 120 (all with a grade of “C” or better)
Advisory: ENGL 325
This course provides the Automotive Technology student with a detailed practical application of Electro-Mechanical and Hydraulic Functions of Transmission and Drivetrain Systems of the Modern Automobile. This is a practical study of the systems that provide vehicle mobility, including diagnostic strategies as it pertains to the function, operation, and every-day use of the automotive transmission, differential, and drive axle systems. Topics include emerging technologies, such as modern dual-clutch transmissions, continuously-variable transmissions, real-time gear shifting mechanisms and controls, torque converter and converter clutch designs, torque-management strategies, and innovative designs of gears, bearings, seals, and friction materials used by late-model automotive manufacturers. Emphasis will be placed upon the design of system parts, components, subsystems, and their operational characteristics, including techniques in reducing Noise-Vibration-Harshness (NVH). Current Industry-approved diagnostic and troubleshooting techniques and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle After-Sales Field Operations Management spectrum.
3 Units
54 Lecture hours

 AUTO 440 Analyzing Vehicle Safety, Comfort, and Security Systems
Prerequisite: AUTO 300, AUTO 310, AUTO 320, ENGL 201 or ENGL 201H, MATH 160, PHY 120 (all with a grade of “C” or better)
Advisory: ENGL 325
This course provides the Automotive Technology student with a detailed practical application of Vehicle Occupant Protection, Comfort, and Security Systems of the Modern Automobile. This is a practical study of the systems that provide integrated vehicle and driving protection against hazardous and inadvertent situations, as well as occupant amenities, including diagnostic strategies as it pertains to the function, operation, and every-day use of active/passive safety, comfort, and convenience systems. Topics include emerging technologies, such as modern airbag systems, accident avoidance and pre-crash/post-crash mitigation of injuries, vehicle-to-vehicle (V2V) infrastructure technology, and innovative driver assistance, infotainment, and occupant contentment and security systems used by late-model automotive manufacturers. Emphasis will be placed upon the design of system parts, components, subsystems, and their operational characteristics, including techniques in reducing vehicle crashes and improving occupant/pedestrian protection. Current Industry-approved diagnostic and troubleshooting techniques and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle After-Sales Field Operations Management spectrum.
3 Units
54 Lecture hours
AUTO 499
Directed Study in Automotive Technology
Prerequisite: Enrollment requires an AS Degree in Automotive Technology or similar field, and special approval from the program advisor; AUTO 446; AUTO 450
Advisory: ENGL 201 or ENGL 201H, MATH 130 or MATH 130H, MATH 160, PHY 120 (all with a grade of “C” or better)
The course provides an opportunity for the Automotive Technology student to expand their studies in the Bachelor of Science Degree beyond the classroom by completing a project or an assignment arranged by agreement between the student and instructor. The student is required to contact the instructor to determine the scope of the assignment and the unit value assigned for successful completion. Students must possess a 2.5 overall GPA, a 3.0 GPA in the discipline of study being requested, or receive an exception from the instructor. Students are required to take 4 units of Directed Study within a discipline to graduate with a Bachelor of Science degree in Automotive Technology.
4 Units
72 Lecture hours

Business & Marketing Pathway

AUTO 350
Principles of Automotive Service Management
Prerequisite: AUTO 300, AUTO 310, AUTO 320, ENGL 201 or ENGL 201H, MATH 130 or MATH 130H, PHY 120, MGMT 146 (all with a grade of “C” or better)
Advisory: ENGL 325
This course provides the Automotive Technology student with a detailed practical study of the management of an automotive and/or transportation-related business. This is a practical and contextualized study of the importance of business practices of the automotive industry that have evolved from dealerships, franchises, and independently-owned service operations. Topics include an understanding of automotive business regulations in the areas of competition, labor laws, securities regulation, consumer protection, and environmental laws. Emphasis will be placed upon an overview of basic business structure, ownership, and various facilities, as well as service operations & management, financial & marketing issues, and customer/employee relations. Current Automotive Industry practices and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle Sales and Service Fixed Operations Management spectrum.
3 Units
54 Lecture hours

AUTO 370
Standard Accounting Systems of the Automotive Industry
Prerequisite: AUTO 300, AUTO 310, AUTO 320, ENGL 201 or ENGL 201H, MATH 130 or MATH 130H, PHY 120, ACCT 101 (all with a grade of “C” or better)
Advisory: ENGL 325
This course provides the Automotive Technology student with a detailed practical application of accounting fundamentals and business management principles, and the adaptation of them to factory-to-store and day-to-day operations. This is a practical study of the theory, principles, and practice of the preparation and interpretation of accounting statements and business management reports. Topics include an overview of computerized accounting information systems, and practices in business management techniques, such as the importance of strong financial and management control, financial statements and statement analysis. Emphasis will be placed upon the concepts of using accounting fundamental principles, cash & contracts, short-term and long-term liabilities and assets, and stockholders’ equity of reporting documents, which are essential to a successful automotive business operation. Current Automotive Industry practices and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle Sales and Service Fixed Operations Management spectrum.
3 Units
54 Lecture hours

AUTO 410
Digital Marketing for the Automotive Industry
Prerequisite: AUTO 300, AUTO 310, AUTO 320, ENGL 201 or ENGL 201H, MATH 130 or MATH 130H, PHY 120, MRKT 170 (all with a grade of “C” or better)
Advisory: ENGL 325
This course provides the Automotive Technology student with a detailed practical application of the various internet and social media marketing strategies, including category-based guidelines impacting the operations of the automotive wholesale and retail business. This is a practical study of the policies and practices of digital marketing, and the necessary tools, templates, and checklists needed to develop a strategic and successful marketing campaign. Topics include in-sourcing and out-sourcing, responsive and adaptive website technologies, developing content, and policies and processes. Emphasis will be placed upon the use of on-line and off-line media to increase customer satisfaction, including the preparation of business management and marketing reports. Current Automotive Industry practices and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle Sales and Service Fixed Operations Management spectrum.
3 Units
54 Lecture hours
AUTO 430
Finance & Insurance Regulations for the Automotive Industry
Prerequisite: AUTO 300, AUTO 310, AUTO 320, ENGL 201 or ENGL 201H, MATH 130 or MATH 130H, PHY 120 (all with a grade of “C” or better)
Advisory: ENGL 325
This course provides the Automotive Technology student with a detailed practical application of the numerous federal, state, and local agencies and their laws and regulations pertaining to the operation of an automotive wholesale and retail business. This is a practical study of a broad scope of regulatory agencies and regulations such as Department of Motor Vehicles, Internal Revenue Service, Franchise Tax Board, OSHA, EPA, AQMD, NHTSA, Federal Trade Commission, Fair Labor Standards, Truth in Advertising, Truth in Lending, Consumer Leasing Act, Equal Credit Opportunity Act, Fair Credit Reporting Act, and other related agencies and regulations. Topics include an in-depth study of automotive business finance, insurance, and new and certified used vehicle departments within an organization. Emphasis will be placed upon the services offered in these departments and their potential of generating profits and improving customer satisfaction. Current Automotive Industry practices and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle Sales and Service Fixed Operations Management spectrum.
3 Units
54 Lecture hours

AUTO 450
Variable & Fixed Operations of the Automotive Industry
Prerequisite: AUTO 300, AUTO 310, AUTO 320, ENGL 201 or ENGL 201H, MATH 130 or MATH 130H, PHY 120 (all with a grade of “C” or better)
Advisory: ENGL 325
This course provides the Automotive Technology student with a detailed practical application of successful automotive business models of new and used vehicle operations, as well as the operations of service and parts. Topics include an in-depth study of facilities and shop utilization, scheduling of work, sales promotions, using advertising media, inventory control, repair order generation and control, selecting and motivating employees, and directing sales, parts and service staff. Emphasis will be placed upon maximizing and balancing inventory turnaround, wholesale practices, trade-in appraising, vehicle reconditioning, the role that auctions play, the important relationship between the parts and service departments, technician productivity and efficiency, wholesale and retail parts sales, stock and non-stock parts inventory and ordering practices, and part phase-in/phase-out criteria. Current Automotive Industry practices and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle Sales and Service Fixed Operations Management spectrum.
3 Units
54 Lecture hours

AUTO 499
Directed Study in Automotive Technology
Prerequisite: Enrollment requires an AS Degree in Automotive Technology or similar field, and special approval from the program advisor; AUTO 440; AUTO 450
Advisory: ENGL 201 or ENGL 201H, MATH 130 or MATH 130H, or MATH 160, PHY 120 (all with a grade of “C” or better)
The course provides an opportunity for the Automotive Technology student to expand their studies in the Bachelor of Science Degree beyond the classroom by completing a project or an assignment arranged by agreement between the student and instructor. The student is required to contact the instructor to determine the scope of the assignment and the unit value assigned for successful completion. Students must possess a 2.5 overall GPA, a 3.0 GPA in the discipline of study being requested, or receive an exception from the instructor. Students are required to take 4 units of Directed Study within a discipline to graduate with a Bachelor of Science degree in Automotive Technology.
4 Units
72 Lecture hours
Student Learning Outcomes
Degree, Certificate and General Education

Student Learning Outcomes (SLOs) – Degree & Certificate

degree and certificate student learning outcomes (slos) represent the knowledge, skills, and/or abilities that students should be able to demonstrate upon completion of a degree or certificate program.

Arts & Cultural Programs Division

ANIMATION – AS DEGREE

- Successful students will be able to develop and communicate a concept design that is original and engaging by using both digital and traditional methods such as quick sketching, perspective drawing and digital sculpture.

- Successful students will exhibit a knowledge and understanding of the principles of animation by animating digital character or man-made object.

- Successful students will competently create a project appropriate for a portfolio in the entertainment industry by using the latest digital visualization tools and given a concept design describing an environment, character or man-made object.

ART – AA DEGREE

- Students will describe and discuss the fundamental or “formal properties” of art: line, positive/negative space, shade/tone, texture, color, etc.

- Students will be able to identify, analyze, and evaluate basic techniques of “process” in a variety of media: drawing, painting, sculpture, printmaking, computer graphics, photography, ceramics, etc.

- Students will be able to produce carefully considered art works to final completion thereby demonstrating their “practice” of art.

ART HISTORY – AA-T DEGREE

- Express an understanding of the roles and functions of art in society.

- Discuss works of art representative of diverse cultures and regions within a historical and social context.

- Explain how works of art communicate visual meaning.

- Describe the principles and formal elements of visual art.

- Apply historical art terminology and methodology in analyzing and interpreting works of art.

COMMERCIAL ART – AS DEGREE

- Given a specific subject matter, students will use the professional design software to produce creative design solutions appropriate for commercial printing or other commercial uses, as well as print and present a portfolio.

MUSIC – AA DEGREE

- All Rio Hondo music majors will be able to identify the major musical forms and the manner in which these forms define the style characteristics of the major musical periods: Baroque, Classical, Romantic, and Contemporary eras.

- Students will be able to identify and construct Major and the three forms of Minor scales in all 12 keys.

- All Music majors will be able to analyze a given four-part choral.

PHOTOGRAPHY – AS DEGREE

- Students create photographs that demonstrate effective control of aperture, shutter speed, and exposure.

- Given a specific thematic assignment, students create photographic images that demonstrate a working understanding of principles of photographic composition and framing.

THEATER ARTS – AS DEGREE

- All Rio Hondo College Theatre Arts majors will be able to identify the difference between comedy and drama according to Aristotle’s six elements of drama. Students will be able to identify plot, character, theme, music, diction, and spectacle.
Behavioral &
Social Science Division

CHICANO STUDIES – AA DEGREE
- A student who successfully completes the AA Degree requirements for Chicano/a Studies should be able to (1) define and explain the basic terms and concepts with the field of Chicano/a Studies and (2) identify and analyze at minimum two contemporary issues affecting the Chicano/Latino community.

CHILD DEVELOPMENT – AS DEGREE
- Students will explain and demonstrate the principles of developmentally appropriate practice while planning for and interacting with children in the early childhood classroom.

CHILD DEVELOPMENT – CERTIFICATE
- Students will explain and demonstrate the principles of developmentally appropriate practice while planning for and interacting with children in the early childhood classroom.

DRUG STUDIES – AS DEGREE
- Upon completion of the Drug Studies degree, students will demonstrate an understanding of concepts, theories, and techniques that are foundational to the practice of addiction treatment.
- Upon completion of the Drug Studies degree, students will demonstrate an understanding of assessment methods, treatment planning, and case management.
- Upon completion of the Drug Studies degree, students will demonstrate an understanding of recovery-oriented behavior in addiction treatment management.
- Upon completion of the Drug Studies degree, students will demonstrate an understanding of ethical practices in addiction treatment.

DRUG STUDIES – CERTIFICATE
- Upon completion of the Drug Studies certificate, students will demonstrate an understanding of concepts, theories, and techniques that are foundational to the practice of addiction treatment.
- Upon completion of the Drug Studies certificate, students will demonstrate an understanding of assessment methods, treatment planning and case management.
- Upon completion of the Drug Studies certificate, students will demonstrate an understanding of recovery-oriented behavior in addiction treatment management.
- Upon completion of the Drug Studies certificate, students will demonstrate an understanding of ethical practices in addiction treatment.

GENERAL STUDIES: SOCIAL BEHAVIOR & SELF-DEVELOPMENT – AA DEGREE
- Students should have the ability to think critically in order to understand social issues.

GENERAL STUDIES: SOCIAL SCIENCES –AA DEGREE
- Students should have the ability to think critically in order to understand social issues.
- Students will recognize verbally or in writing the basic vocabulary and concepts of at least one social or behavioral science discipline.

HISTORY – AA-T DEGREE
- Students will demonstrate command of historical chronology and basic literacy of key events associated with the study of the past.
- Students will accurately identify historical sources and then apply appropriate historical methods to explain what the source reveals about its historical context.
- Students will accurately describe, compare, and evaluate historical interpretations (secondary sources), analyzing them for their relative quality, accuracy, and persuasiveness.

PHILOSOPHY – AA Degree
- Given prior instruction on a topic of philosophical interest, the student will demonstrate the ability to formulate and defend a philosophical position by clearly articulating a thesis statement and providing supporting points.
- The student will demonstrate an ability to read and comprehend philosophical texts by accurately identifying the main point and some key supporting points.
- The student will demonstrate proficiency with the main terms, concepts, and definitions that pertain to the different branches of philosophy.
- The student will develop a critical understanding of the work of central thinkers in the Western philosophical tradition and demonstrate this understanding by means of a competent paraphrase of their main ideas.
- The student will demonstrate an ability to defend a philosophical position or argument.
- The student will demonstrate the ability to evaluate the validity of a deductive argument.
The student will demonstrate the ability to evaluate the strength of an inductive argument.

**PRESCHOOL TEACHER – CERTIFICATE**
- Students will explain and demonstrate the principles of developmentally appropriate practice while planning for and interacting with children in the early childhood classroom.

**PSYCHOLOGY – AA-T DEGREE**
- Given research findings and theories in psychology, students will describe and/or evaluate the role that both genetics and environment play in different behaviors.
- Students will compare and contrast the experimental method to other types of inquiry.
- Students will identify the important historical figures in psychology and explain their key contributions to the field.

**SOCIOCY – AA-T DEGREE**
- Upon completion of the Associate of Arts degree in Sociology for Transfer, the student should understand the foundations of Sociology as a discipline.
- Upon completion of the Associate of Arts degree in Sociology for Transfer, the student should have a broad understanding of society and social behavior.
- Upon completion of the Associate of Arts degree in Sociology for Transfer, students should be able to understand the importance of social and historical contexts.
- Upon completion of the Associate of Arts degree in Sociology for Transfer, students should have the ability to demonstrate basic social analysis skills.

---

**Business Division**

**ACCOUNTING – A.S. DEGREE**
- Students are able to demonstrate an understanding of basic accounting principles and procedures, as well as the role of accounting and bookkeeping within various business organizations.
- Students are able to apply critical thinking skills derived from knowledge of accounting theory, to financial analysis and management decision-making.
- Students are able to recognize and understand the importance of ethics and social responsibility in the accounting profession.

**ACCOUNTING – CERTIFICATE**
- Students are able to analyze, process, and report financial information in accordance with Generally accepted accounting principles within established normal and computerized protocols.
- Students are able to relate material from completed courses to their current and future professional needs, even if these needs fall into a different discipline.

**PSYCHOLOGY – AA-T DEGREE**
- Given research findings and theories in psychology, students will describe and/or evaluate the role that both genetics and environment play in different behaviors.
- Students will compare and contrast the experimental method to other types of inquiry.
- Students will identify the important historical figures in psychology and explain their key contributions to the field.

**SOCIOCY – AA-T DEGREE**
- Upon completion of the Associate of Arts degree in Sociology for Transfer, the student should understand the foundations of Sociology as a discipline.
- Upon completion of the Associate of Arts degree in Sociology for Transfer, the student should have a broad understanding of society and social behavior.
- Upon completion of the Associate of Arts degree in Sociology for Transfer, students should be able to understand the importance of social and historical contexts.
- Upon completion of the Associate of Arts degree in Sociology for Transfer, students should have the ability to demonstrate basic social analysis skills.

---

**BUSINESS ADMINISTRATION – AA DEGREE**
- Evaluate the use of financial budgeting concepts to make sound decisions in managing business finances through the preparation of financial statements, recording and posting journal entries, and transforming data into information.
- Demonstrate an understanding of economic principles by differentiating between micro and macro economies, explaining supply and demand, and applying economic principles to make business decisions.
- Use statistical and mathematical expressions to make general statements about populations of customers and make numeric business decisions.

**COMPUTER INFORMATION TECHNOLOGY: COMPUTER SYSTEMS – AS DEGREE**
- Students will demonstrate basic computer literacy including input/output devices and MS Office Suite of applications.
- Students will be able to apply critical thinking and problem-solving skills required by employers and four-year universities in the computer information systems field.
- Students will be able to analyze a problem as well as identify and define the computing requirements appropriate to its solution.
Students will be able to design and write usable effective computer programs that can be integrated into the user environment using modern high-level languages.

Students will be able to communicate effectively and efficiently with clients, users, and peers using both verbal and written communication tools.

Students will be able to demonstrate a working knowledge of computer hardware, operating systems, and application software.

Students will be able to identify the tasks of systems analysis and database design and use current technology necessary for computing practice.

COMPUTER INFORMATION TECHNOLOGY: COMPUTER SYSTEMS – CERTIFICATE
- Demonstrate basic computer literacy including input/output devices and MS Office Suite of applications.
- Students will be able to apply critical thinking and problem-solving skills required by employers and four-year universities in the computer information systems field.
- Students will be able to analyze a problem as well as identify and define the computing requirements appropriate to its solution.
- Students will be able to design and write usable effective computer programs that can be integrated into the user environment using modern high-level languages.
- Students will be able to communicate effectively and efficiently with clients, users and peers using both verbal and written communication tools.
- Students will be able to demonstrate a working knowledge of computer hardware, operating systems, and application software.
- Students will be able to identify the tasks of systems analysis and database design and use current technology necessary for computing practice.

COMPUTER INFORMATION TECHNOLOGY: MICROCOMPUTER SPECIALIST – CERTIFICATE
- Demonstrate basic computer literacy including input/output devices and MS Office Suite of applications.
- Students will demonstrate advanced knowledge of spreadsheet and word processing applications as utilized in the business environment.
- Students will be able to apply critical thinking and problem-solving skills required by employers and four-year universities in a professional office environment.

INTERNATIONAL BUSINESS – AS DEGREE & CERTIFICATE
- Students will strengthen their skills to present a thorough review of the potential benefits, costs, and risks of doing business abroad and how the political, economic, and legal systems of countries vary.
- Students must be able to analyze management ethical issues and cultural sensitivities in the global business.
- Students are able to apply integrated marketing strategies with customers, partners, and regulators in the global marketplace.
- Students are able to describe international trade processes and the functions of the foreign exchange market.

LOGISTICS MANAGEMENT – AS DEGREE
- After completing the courses in this degree, the student should know the role and historical development of supply chain management and integrated logistics functions.
- The student should know the relationship between operations, warehousing, distribution centers, and materials management.
- The student should know the importance of sound inventory management principles.
- The student should be able to contribute to process improvement projects.

LOGISTICS MANAGEMENT – CERTIFICATE
- After completing the courses in this degree, the student should know the role and historical development of supply chain management and integrated logistics functions.
- The student should know the relationship between operations, warehousing, distribution centers, and materials management.
- The student should know the importance of sound inventory management principles.
- The student should be able to contribute to process improvement projects.
MANAGEMENT & SUPERVISION – AS DEGREE

- Students are able to identify the concepts of organizational design and behavior of organizations at the supervisory level.

- Students are able to describe how technology and globalization affect the supervisor's job.

- Students are able to describe the term “360-degree appraisal” and apply the appropriate methods of motivation in an organizational setting.

- Students are able to explain the effect of workforce diversity on motivating employees.

MANAGEMENT & SUPERVISION – CERTIFICATE

- Students are able to identify the concepts of organizational design and behavior of organizations at the supervisory level.

- Students are able to describe how technology and globalization affect the supervisor's job.

- Students are able to describe the term “360-degree appraisal” and apply the appropriate methods of motivation in an organizational setting.

- Students are able to explain the effect of workforce diversity on motivating employees.

BUSINESS MARKETING – AS DEGREE & CERTIFICATE

- Analyze a business situation by conducting a SWOT analysis (strengths, weaknesses, opportunities and threats) and utilize the outcomes to make business decisions.

- Create a marketing plan that explains the marketing mix and defines the appropriate target market.

- Given a business marketing situation, identify the most profitable segments of the market, define the logical target market, and describe how the business of product will be positioned.

RETAIL MANAGEMENT – CERTIFICATE

- Students will explain the challenges and opportunities of managing a diverse workforce in a retail environment through their understanding of leadership and management models, motivation and reward theory, and conflict resolution techniques.

- Students will demonstrate their knowledge of financial management and budgeting by applying basic math skills to calculate retail math equations, making business decisions using these calculations, and to preparing pro-forma financial statements.

- Students will demonstrate proper communication and critical thinking skills through written and oral assignments. Skill sets demonstrated will include document editing, preparation of business reports, and proper use of the communication process.

SMALL BUSINESS/ENTREPRENEURIALISM – AS DEGREE

- Students should develop an effective business plan by using guerrilla marketing strategies and basic financial statements.

- Students must be able to distinguish between the debt vs. equity finance options.

- Students will be able to explain the essential importance of cash flow planning for small business operations.

- Students are able to use break-even analysis to evaluate marketing plan.

SMALL BUSINESS/ENTREPRENEURIALISM – CERTIFICATE

- Students should develop an effective business plan by using guerrilla marketing strategies and basic financial statements.

- Students must be able to distinguish between the debt vs. equity finance options.

- Students will be able to explain the essential importance of cash flow planning for small business operations.

- Students are able to use break-even analysis to evaluate marketing plan.

SMALL BUSINESS/ENTREPRENEURIALISM CERTIFICATE

- Students should develop an effective business plan by using guerrilla marketing strategies and basic financial statements.

- Students must be able to distinguish between the debt vs. equity finance options.

- Students will be able to explain the essential importance of cash flow planning for the small business operations.

- Students are able to use break-even analysis to evaluate marketing plan.

Career & Technical Education Division

ALTERNATIVE ENERGY TECHNOLOGY – AS DEGREE

- The skills developed during classes will enhance the student's ability to complete the North American Board of Certified Energy Practitioners (NABCEP) and to become a specialist in the Solar Photovoltaic industry.

- The Degree is designed to prepare an individual for transfer and/or entry-level employment as an Alternative
Energy Technician within the renewable energy/green technology field.

- Upon completion of this program, an individual will have the knowledge and skills necessary to install residential and commercial solar and wind power systems.

- The individual will know and understand Green Building Design principles and also have the skills to successfully perform residential and commercial/industrial energy audits.

**ALTERNATIVE ENERGY TECHNOLOGY – CERTIFICATE**

- The skills developed during classes will enhance the student's ability to complete the (NABCEP) North American Board of Certified Energy Practitioners and to become a specialist in the Solar Photovoltaic industry.

- The Certificate is designed to prepare an individual for entry-level employment as an Alternative Energy Technician within the renewable energy/green technology field.

- Upon completion of this program, an individual will have the knowledge and skills necessary to install residential and commercial solar and wind power systems.

**ALTERNATIVE FUELS AND ADVANCED TRANSPORTATION TECHNOLOGY – AS DEGREE**

- Students will be able to access legal rules and regulations from a variety of resources (state and federal) providing the opportunity to acquire the knowledge and hand skills demanded of modern transportation specialists.

- Upon successful completion of this course, students will be able to describe and demonstrate simulated on-the-job conditions regarding the congressional nine alternative fuel sources.

- Upon successful completion of this course, students who complete the career path cartographically examine and assemble information for a target audience of who would use the Alternative Fuel types.

- Regardless of career path (Private, Government or Fleet) the Alternative Fuels A S Degree or COA student obtains transferable credit to a university and points towards qualifying as a certified CSA Fuel Tank Inspector.

- Upon successful completion of this course, students are capable of describing applications in all nine Alternative Fuel areas (Compressed, Liquid, generated electrical and Biodiesel).

- Students will be able to access legal rules and regulations from a variety of resources (state and federal) providing the opportunity to acquire the knowledge and hand skills demanded of modern transportation specialists.

- Upon successful completion of this course, students will be able to pass the safety requirements with complete knowledge of NFPA, CSA, CGA 6.4, and OSHA standards.

**ARCHITECTURAL DESIGN & DRAWING – AS DEGREE**

- Given various visual communication technologies, such as traditional drafting, CADD, and BIM (Building Information Modeling) with industry standards such as AIA and AEC (Architectural, Engineering and Construction), Graphic Standards and the Building Code, successful students will be able to effectively communicate graphically and understand and interpret design concepts and criteria for various disciplines related to the AEC industry.

- Upon completion of the program, successful students are prepared for industry employment and advancement within a variety of related AEC professions.

- Further, students are prepared to transfer to advanced fields of study in related occupations.

**ARCHITECTURAL DESIGN AND DRAWING TECHNICIAN – CERTIFICATE**

- Given various visual communication technologies, such as traditional drafting, CADD, and BIM (Building Information Modeling) with industry standards such as AIA and AEC (Architectural, Engineering and Construction), Graphic Standards and the Building Code, successful students will be able to effectively communicate graphically and understand and interpret design concepts and criteria for various disciplines related to the AEC industry.

- Upon completion of the certificate, successful students are prepared for industry employment and advancement within a variety of related AEC professions.

**ARCHITECTURE – AS DEGREE**

- Given various visual communication technologies, such as traditional drafting, sketching, CADD, BIM (Building Information Modeling) perspective drawing and three-dimensional model development, with industry standards such as AIA and AEC (Architectural, Engineering and Construction), Graphic Standards and the Building Code, successful students will be able to effectively understand, communicate and interpret design concepts and criteria for various disciplines related to the AEC industry.
Upon completion of the program, successful students are prepared to transfer to advanced fields of study in architecture-related occupations.

HEAVY EQUIPMENT TECHNOLOGY – AS DEGREE
- While obtaining and earning the degree, the student will be able to work safely and identify safety and health hazards in a heavy equipment service and repair facility.
- While obtaining and earning the degree, the student will be able to communicate effectively, both verbally and through the written word, in a heavy equipment service and repair environment.
- While obtaining and earning the degree, the student will be able to properly use and care for heavy equipment service and repair tools and equipment.
- While obtaining and earning the degree, the student will be able to research, read, and use heavy equipment service and repair literature, both in print and in electronic format.
- While obtaining and earning the degree, the student will be able to identify, analyze, and evaluate general heavy equipment service and repair issues to determine concern, cause, and correction.

GENERAL SERVICE TECHNICIAN – CERTIFICATE
- While obtaining and earning the Certificate of Achievement, the student will be able to work safely and identify safety and health hazards in an automotive service and repair facility.
- While obtaining and earning the Certificate of Achievement, the student will be able to communicate effectively, both verbally and through the written word, in an automotive service and repair environment.
- While obtaining and earning the Certificate of Achievement, the student will be able to properly use and care for automotive service and repair tools and equipment.
- While obtaining and earning the Certificate of Achievement, the student will be able to research, read, and use automotive service and repair literature, both in print and in electronic format.
- While obtaining and earning the Certificate of Achievement, the student will be able to identify, analyze, and evaluate general automotive service and repair issues to determine concern, cause, and correction.

HEAVY EQUIPMENT SERVICE TECHNICIAN SPECIALIST – CERTIFICATE
- While obtaining and earning the Certificate of Achievement, the student will be able to work safely and identify safety and health hazards in a heavy equipment service and repair facility.
- While obtaining and earning the Certificate of Achievement, the student will be able to communicate effectively, both verbally and through the written word, in a heavy equipment service and repair environment.
- While obtaining and earning the Certificate of Achievement, the student will be able to properly use and care for heavy equipment service and repair tools and equipment.
- While obtaining and earning the Certificate of Achievement, the student will be able to research, read, and use heavy equipment service and repair literature, both in print and in electronic format.
- While obtaining and earning the Certificate of Achievement, the student will be able to identify, analyze, and evaluate general heavy equipment service and repair issues to determine concern, cause, and correction.

AUTOMOTIVE TECHNOLOGY – AS DEGREE
- While obtaining and earning the degree, the student will be able to work safely and identify safety and health hazards in an automotive service and repair facility.
- While obtaining and earning the degree, the student will be able to communicate effectively, both verbally and through the written word, in an automotive service and repair environment.
- While obtaining and earning the degree, the student will be able to properly use and care for automotive service and repair tools and equipment.
- While obtaining and earning the degree, the student will be able to research, read, and use automotive service and repair literature, both in print and in electronic format.
- While obtaining and earning the degree, the student will be able to identify, analyze, and evaluate general automotive service and repair issues to determine concern, cause, and correction.

CIVIL DESIGN & DRAWING – CERTIFICATE
- Given various visual communication technologies, such as traditional drafting and CADD, with industry standards, such as AEC Graphic Standards, successful students will be able to effectively communicate, understand and interpret design concepts and criteria for the civil engineering field.
- Upon completion of the program, successful students are prepared for industry employment and advancement within a variety of related professions, such as civil engineering, construction engineering, structural engineering, transportation engineering, and geotechnical engineering.
CIVIL DESIGN TECHNOLOGY – AS DEGREE
- Given various visual communication technologies, such as traditional drafting and CADD, with industry standards, such as AEC Graphic Standards, successful students will be able to effectively communicate, understand and interpret design concepts and criteria for the civil engineering field.
- Upon completion of the program, successful students are prepared for industry employment and advancement within a variety of related professions.
- Further, students are prepared to transfer to advanced fields of study in related occupations.

CIVIL DESIGN TECHNOLOGY – CERTIFICATE
- Given various visual communication technologies, such as traditional drafting and CADD, with industry standards, such as AEC Graphic Standards, successful students will be able to effectively communicate, understand and interpret design concepts and criteria for the civil engineering field.
- Upon completion of the program, successful students are prepared for industry employment and advancement within a variety of related professions.
- Further, students are prepared to transfer to advanced fields of study in related occupations.

ENGINEERING DESIGN DRAFTING – AS DEGREE
- Given various visual communication technologies, such as traditional drafting and CADD, with industry standards such as ANSI / ASME and ISO, successful students will be able to effectively communicate, understand and interpret design concepts and criteria for industries that design, engineer and manufacture products.
- Upon completion of the program, successful students are prepared for industry employment and advancement within a variety of related professions.

ENGINEERING DESIGN DRAFTING – AS DEGREE
- Given various visual communication technologies, such as traditional drafting and CADD, with industry standards such as ANSI / ASME and ISO, successful students will be able to effectively communicate, understand and interpret design concepts and criteria for industries that design, engineer and manufacture products.
- Upon completion of the program, successful students are prepared for industry employment and advancement within a variety of related professions.

GEOGRAPHIC INFORMATION SYSTEM – CERTIFICATE
- Student can describe and discuss the applications of geographic information systems (GIS) in their respective field. Student can use GIS to analyze and uncover spatial patterns and trends, to model environmental conditions and to predict future scenarios, such as post-fire conditions or to model suitable locations for a new housing or wind farm development.
- Student can evaluate relevance of information for GIS project and contribute new data from variety of sources, including Global Positioning Systems (GPS).
- Student can cartographically examine and assemble information for a target audience.

HONDA PROFESSIONAL CAREER TRAINING PROGRAM SPECIALIZATION (PACT) – AS DEGREE
- The skills developed during classes will enhance the student's ability to complete the (ASE) Automotive Service Excellence Certification Tests A-1 through A-8, Automotive Technician and to become a specialist for Honda/Acura vehicles.
- The Degree is designed to prepare an individual for transfer and/or entry-level employment as an Automotive Technician within a Honda/Acura Dealer.

SURVEYING, MAPPING & DRAWING – CERTIFICATE
- Given instruction in both the theory and practice of land surveying, as well as instruction in various visual communication technologies, such as traditional drafting and CADD, with industry standards, successful students will be able to effectively collect, develop, map, communicate, understand and interpret geospatial data.
Upon completion of the program, successful students are prepared for industry employment and advancement within a variety of related professions, such as land surveyor, civil engineering, construction engineering, transportation engineering, and geotechnical engineering.

**WELDING TECHNOLOGY – CERTIFICATE**
- While obtaining and earning the Certificate of Achievement, the student will be able to work safely and identify safety and health hazards in the workplace.
- While obtaining and earning the Certificate of Achievement, the student will be able to communicate effectively, both verbally and through the written word, in a welding environment.
- While obtaining and earning the Certificate of Achievement, the student will be able to properly use, operate, and care for welding materials, tools, and equipment.
- While obtaining and earning the Certificate of Achievement, the student will be able to research, read, and use welding material build sheets, blueprints, and other welding-related literature, both in print and in electronic format.
- While obtaining and earning the Certificate of Achievement, the student will be able to identify, analyze, evaluate, and demonstrate different welding operations and processes.

**Communications & Languages Division**

**COMMUNICATION STUDIES – AA–T DEGREE**
- Upon successful completion of this degree, students will have an understanding of conflict management strategies in an interpersonal relationship context.
- Upon successful completion of this degree, students will have an understanding of conflict management strategies in an interpersonal relationship context.
- Upon successful completion of this degree, students will have the ability to deliver a coherent speech inclusive of a distinctive introduction, body, and conclusion, as well as 2-3 substantive main points within the body and appropriate transitions.
- Upon successful completion of this degree, students should be able to control/manage their verbal and nonverbal communication to enhance the audience's understanding and appreciation of the speech message appropriate to the specific audience.
- Upon successful completion of this degree, students should have the ability to argue in favor of a thesis with a supportive example and refute an opposing position with an accompanying example.

**ENGLISH & LITERATURE – AA DEGREE**
- Upon successful completion of this degree, students should have the ability to think critically in order to understand a debate position, including the debator's reasoning.

**COMMUNICATION STUDIES – AA–T DEGREE**
- Upon successful completion of this degree, the student will be able to formulate an argument and support it with relevant evidence.
- Upon successful completion of this degree, the student will be able to communicate ideas in an organized, logical manner.
- Upon successful completion of this degree, the student will be able to incorporate quoted or paraphrased material from credible outside sources.
- Upon successful completion of this degree, the student will be able to document sources using a designated citation format.
- Upon successful completion of this degree, the student will be able to identify the work of significant writers, literary works, and cultural movements from a variety of diverse communities.
- Upon successful completion of this degree, the student will be able to interpret a selection in light of the significant social and historical factors that inform the text.
- Upon successful completion of this degree, the student will be able to explicate a selection using rhetorical textual analysis.
- Upon successful completion of this degree, the student will be able to apply standard English grammar and mechanics in both written and oral communication.

**MASS COMMUNICATIONS: MASS MEDIA – AS DEGREE**
- Upon successful completion of this degree, the student will be able to understand the evolution of Mass Media in books, magazines, television, newspapers, radio, motion pictures, the internet, blogs, twitter, cell phones, and computer use in the world today.
- Upon successful completion of this degree, the student will be able to write a news story that demonstrates effective interviewing and note-taking techniques.
- Upon successful completion of this degree, the student will be able to take press photos, print the photos, and prepare the composition of the photos for publication.
- Upon successful completion of this degree, the student will be able to write a news story of a particular length that can be produced on the air for an allotted time slot.
**MASS COMMUNICATIONS: MASS MEDIA – CERTIFICATE**
- Upon successful completion of this certificate, the student will be able to write a news story that demonstrates effective interviewing and note-taking techniques.
- Upon successful completion of this certificate, the student will be able to take press photos, print the photos, and prepare the composition of the photos for publication.
- Upon successful completion of this certificate, the student will be able to write a news story of a particular length that can be produced on the air for an allotted time slot.
- Upon successful completion of this certificate, the student will be able to demonstrate knowledge of the broad area of the history, theory, aesthetic principles, and techniques used in motion pictures.

**MASS COMMUNICATIONS: PRINT MEDIA – AS DEGREE**
- Upon successful completion of this degree, the student will be able to gather information, write, and edit copy that demonstrates an understanding of the rights and responsibilities of the student press to the community it serves for use in the print school newspaper.
- Upon successful completion of this degree, the student will be able to gather information, write, and edit copy that demonstrates an understanding of the rights and responsibilities of the student press to the community it serves for use in the digital school newspaper.
- Upon successful completion of this degree, the student will be able to gather information, write, and edit copy that demonstrates an understanding of the rights and responsibilities of the student press to the community it serves for use in the college magazine for a student audience.
- Upon successful completion of this degree, the student will be able to take press photos, print the photos, and prepare the composition of the photos for publication.

**MASS COMMUNICATIONS: PRINT MEDIA – CERTIFICATE**
- Upon successful completion of this certificate, the student will be able to gather information, write, and edit copy that demonstrates an understanding of the rights and responsibilities of the student press to the community it serves for use in the print school newspaper.
- Upon successful completion of this certificate, the student will be able to gather information, write, and edit copy that demonstrates an understanding of the rights and responsibilities of the student press to the community it serves for use in the digital school newspaper.
- Upon successful completion of this certificate, the student will be able to write a general interest article or story to be published in the college magazine for a student audience.
- Upon successful completion of this certificate, the student will be able to take press photos, print the photos, and prepare the composition of the photos for publication.

**SPANISH – AA-T DEGREE**
- Using critical thinking skills, students will be able to speak fluently and comprehend at the intermediate level commensurate with the grammar and vocabulary of that level, and demonstrate increased knowledge and appreciation of the Spanish language, literature, and culture.
- In addition, students will be able to write dialogues, letters, reports, summaries and essays on various topics using correct grammar, syntax, punctuation, capitalization, and diacritical marks.
- Furthermore, students will be able to read, discuss and analyze literary selections in Spanish that vary in style from simple journalist writing to highly original and complex literary works.

**Health Science & Nursing Division**

**ASSOCIATE DEGREE NURSING – AS DEGREE**
- Upon completion of the Rio Hondo College Associate Degree in Nursing, the graduate will be aligned in a position to transition into a Bachelor's of Science in Nursing program.
- The student will integrate the simulated clinical experience to enhance clinical performance in all clinical areas.

**VOCATIONAL NURSING – AS DEGREE**
- Graduates will incorporate the medical model utilizing all aspects of the nursing process with successful completion of all theory objectives and clinical objectives in all courses of the vocational nursing program.
- Graduates will be prepared and have successful pass rate on national vocational nursing exam.
- Graduates will complete all general education (GE) requirements for AS degree, in vocational nursing.
- The student will integrate the simulated clinical experience to enhance clinical performance in all clinical area.

**VOCATIONAL NURSING – CERTIFICATE**
- The student will integrate the simulated clinical experience to enhance clinical performance in all clinical areas.
- Graduates will be prepared and have successful pass rate on national vocational nursing exam.
- Graduates will incorporate the medical model utilizing all aspects of the nursing process with successful completion of all theory objectives and clinical objectives in all courses of the vocational nursing program.
**Kinesiology, Dance, and Athletics Division**

**FITNESS SPECIALIST – CERTIFICATE**
- Students will analyze individual health and fitness levels and create individual exercise programs.
- Students will apply and demonstrate exercise testing skills and techniques to real world situations, such as individual client fitness assessments.
- Students will adapt to diverse populations and fitness levels and have an awareness of special needs individuals.
- The student will apply fitness concepts, definitions and principles to personal training, group fitness instructions, or health and fitness settings.
- Upon completion of the certificate, Students will have a career in the personal training or fitness instructor field. (Assessment: Student gets a job in a related career, or transfer to a 4-year institution within 3 years).

**KINESIOLOGY – AA-T DEGREE**
- Students will understand different types of exercise programs and diets and their relationship to their fitness and wellness.
- Students will explain methods and techniques used to promote cardiovascular fitness.
- Students will understand the role of diet and exercise in controlling chronic health problems.

**ENVIRONMENTAL SCIENCE – AS DEGREE**
- Students will apply environmental science concepts and analytical procedures in various fields.
- Students will have the ability to apply economic principles to analyze environmental problems.
- Students will have the ability to work as a member of an interdisciplinary team to solve environmental problems.
- Students will strengthen their skills in reading, writing, oral communication, and critical thinking.

**ATHLETIC TRAINER’S AIDE – CERTIFICATE**
- Students will conduct a primary & secondary survey following an injury, and make emergency treatment decisions based on results.
- Students will treat a variety of open wounds as a first responder, recognizing the use of personal protective equipment.
- Students will apply the appropriate splinting and taping techniques for a variety of injuries, using a variety of medical supplies.
- Students will identify the indications, contraindications, and application techniques for the use of several therapeutic modalities.

**Math & Science Division**

**BIOLOGY – AS DEGREE**
- Students will develop the ability to evaluate scientific information critically, using analytical reasoning and quantitative skills.
- Students will strengthen their skills in reading, writing, oral communication, and critical thinking.
- Students will demonstrate knowledge in three major sub-disciplines of biology: cellular and molecular biology, organismal biology, and ecology and evolution.
- Students will understand and use scientific methodology.

**ENVIRONMENTAL TECHNOLOGY – AS DEGREE**
- Given the variety of types of environmental, health and safety hazards that may be encountered in the environmental field, students will identify the types of hazards.

**ENVIRONMENTAL TECHNOLOGY – CERTIFICATE**
- Given the variety of types of environmental, health and safety hazards that may be encountered in the environmental field, students will identify the types of hazards.

**GENERAL STUDIES: SCIENCE & MATHEMATICS – AS DEGREE**
- Students critique and interpret data presented in appropriate graphical and/or verbal formats.
- Students evaluate the strengths and limitations of scientific models employed to describe a particular phenomenon.

**MATHEMATICS – AS-T DEGREE**
- Given the description of a real-world problem, students construct correct equations and/or inequalities to represent the problem and determine the correct solution or set of solutions.

**Public Safety Division**

**ADMINISTRATION OF JUSTICE – AS DEGREE**
- Apply legal definitions, concepts, and principles to law enforcement, courts, or correctional settings.
- Communicate information in a clear and organized manner.
- Analyze ethical dilemmas encountered in the law enforcement and/or corrections fields and decide on the correct ethical choice.
- Apply constitutional, statutory, procedural, and case law to real-life criminal justice situations.
Adapt to the diverse and multicultural nature of American society in the criminal justice setting.

Use the degree or certificate as a platform for a career in the criminal justice field or further study at a 4-year institution.

**CORRECTIONS – AS DEGREE**

- Apply legal definitions, concepts, and principles to law enforcement, courts, or correctional settings.
- Communicate information in a clear and organized manner.
- Analyze ethical dilemmas encountered in the law enforcement and/or corrections fields and decide on the correct ethical choice.
- Apply constitutional, statutory, procedural, and case law to real-life criminal justice situations.
- Adapt to the diverse and multicultural nature of American society in the criminal justice setting.
- Use the degree or certificate as a platform for a career in the criminal justice field or further study at a four-year institution.

**EMERGENCY MEDICAL TECHNICIAN – CERTIFICATE**

- Apply concepts related to the entire spectrum of EMS care including: Airway, Ventilation, Oxygenation, Trauma; Cardiology, Medical, and EMS Operations
- Competently perform Patient Assessment (Medical and Trauma) psychomotor skills.
- Competently perform Upper Airway Adjuncts and Suctioning psychomotor skills.
- Competently perform Oxygen and Bag-Valve-Mask (apneic patient) psychomotor skills.
- Competently perform Cardiac Arrest Management and AED psychomotor skills.
- Competently perform Bleeding Control and Shock psychomotor skills.
- Competently perform Spinal Immobilization psychomotor skills.
- Competently perform Fracture and Dislocation Immobilization psychomotor skills.
- Competently perform Pre-hospital Childbirth psychomotor skills.

**FIRE TECHNOLOGY – AS DEGREE**

- Identify minimum qualifications and entry-level skills for firefighter hiring; describe the following elements: application process, written exam process, physical agility exam, oral interview, chief’s interview, background investigation, and firefighter probationary process; identify fire service history, culture, and diversity.
- Identify and comprehend laws, regulations, codes, and standards that influence fire department operations and identify regulatory and advisory organizations that create and mandate them, especially in the areas of fire prevention, building codes and ordinances, and firefighter health and safety.
- Analyze the causes of fire, determine extinguishing agents and methods, differentiate the stages of the fire and fire development, and compare methods of heat transfer.
- Calculate flow requirements for fire apparatus, diagram a pump and plumbing schematic for fire apparatus, and apply mathematic formulae to hydraulics problems.
Identify and describe the apparatus used in the fire service and the equipment and maintenance of fire apparatus and equipment. (Elective)

Identify and describe common types of Fire Suppression Systems (4 basic types).

Demonstrate the ability to analyze, appraise, and evaluate fire and emergency incidents and identify components of emergency management and firefighter safety, including: size-up, report-on conditions, Incident Command System, RECEO, 10 Standard Firefighting Orders, 18 situations that shout "Watch Out," and common factors associated with injuries and line-of-duty deaths.

**BASIC POLICE TRAINING – CERTIFICATE**

- Apply the definitions, concepts, statutes, and constitutional principles covered in the POST Learning Domains to law enforcement work.
- Given scripted scenarios, demonstrate proficiency in handling situations involving a variety of law enforcement related incidents.
- Analyze ethical dilemmas encountered in law enforcement and decide on the correct ethical choice.
- Demonstrate self-defense skills in a safe and proficient manner.
- Demonstrate firearms skills in a safe and proficient manner.
- Demonstrate emergency vehicle operations in a safe and proficient manner.
- Prepare an accurate and complete arrest report that meets the requirements of law enforcement agencies.
- Use the certificate as a platform for a career as a peace officer.

**WILDLAND FIRE TECHNOLOGY – AS DEGREE**

- Assess impacts of fuel, weather, and topography on wildland fire behavior.
- Recognize and avoid the four common denominators of wildland fire fatalities.
- Given a wildland fire scenario, prepare an incident briefing based on factors of fuel, weather, topography, and man-made hazards.
- Demonstrate the three components of wildland fire prevention, including education, engineering, and enforcement.
- Make an operation shift plan that includes the following information: the people in charge, the operational objectives, resources, supplies necessary to meet the objectives, area map, weather forecasting, and safety briefing using standardized ICS forms.

**WILDLAND FIRE TECHNOLOGY – CERTIFICATE**

- Safely manipulate wildland fire tools, including shovel, Pulaski, and McLeod.
- Recall the ten Standard Firefighting Orders.
- Deploy a fire shelter.
- Demonstrate proper use of the following tools and equipment: back pump, fuses, and backfire torch.
- Safely function within an Incident Command System environment.
- Assess impacts of fuel, weather, and topography on wildland fire behavior.

**Student Learning Outcomes (SLOs) – General Education**

General Education Student Learning Outcomes (SLOs) represent the knowledge, skills, and/or abilities that students should be able to demonstrate upon completion of the general education requirements.

**Humanities**

- Students critique artistic works, evaluating elements relevant to the given work (e.g. texture, form, timbre, color, conflict, rhythm, etc.) and how these are effectively integrated in the work as a whole.
- Students create or perform artistic works and critically evaluate their efforts.
- Students interpret, analyze, and critique diverse literary texts by means of critical reading, classroom discussion, and composition.
- Students will be able to perform tasks that are meaningful, personalized, and/or culturally relevant or appropriate in the target language. (Foreign language humanities outcome)
- Given oral questions, written prompts, and/or reading selections, students will demonstrate productive and receptive skills in the target language. (Foreign language humanities outcome)

**Mathematics**

- Given the description of a real-world problem, students construct correct equations and/or inequalities to represent the problem and determine the correct solution or set of solutions.
- Students critique and interpret data presented in appropriate graphical and/or verbal formats.
- Students effectively employ calculators, computers, and other relevant technology in solving mathematical problems.

*Courses numbered 100 and above are usually university parallel courses and are offered for transfer to colleges and universities. See course descriptions for any restrictions on transfer.

**FAC and PAC 4300 Series are non-transferable.

Code for Transferability of Courses

Where applicable, transferability of listed courses is designated by boldface symbols:

UC – Transfers to all University of California campuses and to most other four-year colleges.

UC (Credit Limit - See Counselor) – Transfers to all University of California campuses and to most other four-year colleges, but there are limitations to the number of units that can be accepted for credit. The student should consult a counselor for details.

CSU Transfers to all campuses of the California State University system and to many other four-year colleges.
COURSE IDENTIFICATION NUMBERING SYSTEM (C-ID)

The Course Identification Numbering System (C-ID) is a statewide numbering system independent from the course numbers assigned by local California community colleges. A C-ID number next to a course signals that participating California colleges and universities have determined that courses offered by other California community colleges are comparable in content and scope to courses offered on their own campuses, regardless of their unique titles or local course number. Thus, if a schedule of classes or catalog lists a course bearing a C-ID number, for example COMM 110, students at that college can be assured that it will be accepted in lieu of a course bearing the C-ID COMM 110 designation at another community college. In other words, the C-ID designation can be used to identify comparable courses at different community colleges. However, students should always go to www.assist.org to confirm how each college’s course will be accepted at a particular four-year college or university for transfer credit.

More courses may have been approved for C-ID since the publication of this catalog. You can also see C-ID approvals for Rio Hondo College at ASSIST.org or C-ID.net.

</tbody>
</table>

The C-ID numbering system is useful for students attending more than one community college and is applied to many of the transferable courses students need as preparation for transfer. Because these course requirements may change and because courses may be modified and qualified for or deleted from the C-ID database, students should always check with a counselor to determine how C-ID designated courses fit into their educational plans for transfer.

Students may consult the ASSIST database at www.assist.org for specific information on C-ID course designations. Counselors can always help students interpret or explain this information.

If a course has been approved for C-ID, you will find the corresponding C-ID number next to the course prefix and number within the course descriptions on the following pages. More courses may have been approved for C-ID since the publication of this catalog.

ACCOUNTING
Division of Business

ACCT 100
Introduction to Accounting
(formerly ACCT 090)
Advisory: READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment; MGMT 052
Transfers to: CSU, UC
This course provides basic knowledge of accounting terms, concepts, and procedures for a sole proprietorship form of business. Topics include the analysis and recording of business transactions for service and merchandising firms, and the preparation of simple financial statements. Accounting for cash, sales, purchases, payroll, and the end-of-the-year procedures are presented. This course is designed for the occupationally-oriented student or those preparing for Financial Accounting and Computerized Accounting.
3 Units
72 Lecture hours

ACCT 101 (C-ID ACCT 110)
Financial Accounting
Advisory: READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment; ACCT 090; MGMT 052
Transfers to: UC, CSU
This course is the study of accounting as an information system and how information is used by investors, creditors, and other external users to make decisions. The course covers the accounting information system, including recording and reporting of business transactions with a focus on the accounting cycle, the application of generally accepted accounting principles, financial statements, and statement analysis. Topics include issues relating to asset, liability, and equity valuation, revenue and expense recognition, cash flow, internal controls, and ethics. This course is required of all accounting and business administration majors. This course is intended for students eligible for the Honors Program.
4 Units
72 Lecture hours

ACCT 102 (C-ID ACCT 120)
Managerial Accounting
Prerequisite: ACCT 101 with a grade of “C” or better
Advisory: READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment
Transfers to: UC, CSU
This course introduces students to the fundamentals of managerial accounting for decision making. This course is the study of how managers use accounting information in decision-making, planning, directing and controlling operations. The course focuses on the flow of costs in a manufacturing environment, cost terms and concepts, cost behavior, cost structure and cost-volume-profit analysis. Topics include issues relating to cost systems, cost control, profit planning, and performance analysis in manufacturing environments. This course is required of all accounting and business majors.
4 Units
72 Lecture hours

ACCT 103
Payroll Accounting
Advisory: READ 023 or appropriate assessment; ACCT 090 or 101
Transfers to: CSU
This course combines basic accounting skills with specialized training in payroll accounting to prepare students for entry-level positions within the payroll segment of accounting. This course is designed for accounting majors and those interested in pursuing an entry-level position within the payroll segment of accounting. This course is a comprehensive overview of federal and state payroll laws and their effect on payroll records and required government reports.
3 Units
54 Lecture hours

ACCT 104
Introduction to Governmental and Not-For-Profit Accounting
Prerequisite: ACCT 101 with a grade of “C” or better
Advisory: READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment; MGMT 052
Transfers to: CSU
This course is an introduction to the fundamentals of government and not-for-profit accounting. The emphasis of the course will be placed on accounting for various fund types and restrictions relevant to government and not-for-profit agencies with both theoretical and practical aspects explored. Topics include budgets, revenues, expenditures, tax levies, appropriations, general fund, special fund, and financial statements for government and not-for-profit entities. This course is designed for students interested in furthering their educational requirements for the CPA exam and/or pursuing an entry-level position in government and not-for-profit accounting.
3 Units
54 Lecture hours

ACCT 105
Income Tax Accounting
Advisory: READ 023 or appropriate assessment; ACCT 101
Transfers to: CSU
This course covers Federal and California State income tax laws and preparation as related to individuals and small business entities. Emphasis is placed upon income inclusion, exclusion, exemptions, capital gains and losses, and business and individual deductions. Students who successfully complete the course with at least a “C” grade will be certified by the California Tax Education Council as fulfilling the 60-hour qualifying education requirement (45 federal hours and 15 California hours) imposed by the State of California for becoming a Registered Tax Preparer.
4 Units
72 Lecture hours

ACCT 106
Computerized Accounting
Advisory: READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment; ACCT 090; ACCT 101
Transfers to: CSU
This course is designed to provide students with a sound basic knowledge of how computerized integrated accounting systems function. Students will be processing accounting data using receivables, payables, inventory, payroll and project modules. This course is designed for accounting majors, those interested in starting a small business, and those...
interested in pursuing entry-level positions in the field of accounting.

3 Units
54 Lecture hours

ACCT 107
Accounting Ethics
Prerequisite: ACCT 101 with a grade of “C” or better
Advisory: READ 023 or appropriate assessment
Transfers to: CSU

This course is an introduction to professional ethics in the accounting and business environments. This course will cover principles and core philosophies of ethics by examining accountants’ role in different aspects of the accounting profession such as auditing, management and taxation. It will prepare students to develop their framework for making ethical decisions in their profession by learning how to ask questions and analyze ethical issues encountered in the accounting field. This course is designed for students pursuing an accounting certificate or degree, and for students looking to satisfy the accounting ethics requirement for the CPA exams.

3 Units
54 Lecture hours

ACCT 108
Volunteer Income Tax Assistance
Program I
(Formerly ACCT 096)
Advisory: READ 023 or appropriate assessment; ACCT 105
Transfers to: CSU

This is the first course in a sequence of two courses designed for students who want to be a part of the Volunteer Income Tax Assistance (VITA) program at Rio Hondo. This course will cover Federal and California tax theories and laws appropriate for the current tax year, and students will apply their knowledge by taking the IRS exams for VITA volunteers. Upon successful completion of the IRS VITA Basic and Intermediate exams, the students will be able to assist low-income individuals and families with tax return preparation through the VITA program for the current year.

1 Unit
18 Lecture hours

ACCT 109
Volunteer Income Tax Assistance
Program II
(Formerly ACCT 097)
Prerequisite: ACCT 108
Advisory: READ 023 or appropriate assessment
Transfers to: CSU

This is the second course in a sequence of two courses designed for students who want to volunteer in the Volunteer Income Tax Assistance (VITA) program at Rio Hondo. This course will allow students who have successfully passed ACCT 108 to apply their tax knowledge by assisting low-income individuals and families with tax return preparation through the VITA program for the current year. Students will learn to use the TaxWise software to accurately file individual federal and state income tax returns within the scope of the VITA program. Students will learn how to develop a system of quality control for actual taxpayer returns as well as develop their communication skills through interviews of taxpayers and explanation of tax return results.

1 Unit
54 - Lab hours

ACCT 203
Introduction to Cost Accounting
Prerequisite: ACCT 101 with a grade of “C” or better
Advisory: READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment
Transfers to: CSU

Introduction to Cost Accounting takes a logical approach to the fundamentals of cost accounting as applied to a manufacturing business, and the use of cost data in management decisions. Principles and procedures of cost systems are presented first in an overview, then discussed and illustrated in detail. The course provides thorough coverage of job order costing, process costing, and standard costs. Analysis of cost data is integrated with discussions of cost accounting systems and procedures. Students will also evaluate both quantitative and qualitative data to assist management with strategic decision-making, planning, and controlling. This course is designed for accounting majors and those interested in furthering their knowledge and understanding of managerial accounting.

3 Units
54 Lecture hours

ACCT 290
Cooperative Work Experience/Internship
for Accounting Related Fields
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU

This course supports and reinforces on-the-job training in business and industrial establishments under supervision of a college instructor and is facilitated by the use of learning objectives. The student will be working in a skilled or professional level assignment in their area of vocational interest and will meet performance objectives related to instruction that are above and beyond the conditions of regular employ-
This course is designed to provide Administration of Justice or other interested students with intensive training in communication of facts and information of ideas in simple, clear, logical English. An emphasis will be placed on spelling, correct usage of words, sentence structure, critical reading and discussion, creative thinking, techniques of observation, and other skills that lead to good writing. Topics include organization of ideas and are combined with an abundant practice in the writing of effective reports, bulletins, memos, letters, and other short papers.

3 Units
54 Lecture hours

AJ 060
Basic Firearms
Prerequisite: Department of Justice (DOJ) clearance
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
AJ 101
This course is designed for students interested in learning the proper use and storage of firearms. This course consists of instruction and demonstration in the safe handling, firing and care of firearms, related matters of legal liabilities, moral responsibilities and safety. The basics of marksman- ship and range procedures are taught and the student is supervised in comprehensive scheduled range firing exercises. Introductory demonstrations in the operation of the police shotgun and semiautomatic weapons are also presented.
1 Unit
9 Lecture hours
27 Lab hours

AJ 070
Advanced Firearms
Prerequisite: AJ 060 and Department of Justice (DOJ) clearance
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
AJ 101
This course is designed to acquaint Administration of Justice or other interested students with the legal provisions and safety precautions associated with the use of firearms. A pistol match competition will be arranged by the instructor. The course laboratory work provides supervised instruction in the firing of handguns and shotguns.
2 Units
18 Lecture hours
54 Lab hours

AJ 101 (C-ID AJ 110)
Introduction to Administration of Justice
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
AJ 102 (C-ID AJ 122)
Criminal Procedures
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
AJ 107
This course introduces students to the characteristics of the criminal justice system in the United States. Focus is placed on examining crime measurement, theoretical explanations of crime, responses to crime, components of the system, and current challenges to the system. The course examines the evolution of the principles and approaches utilized by the justice system and the evolving forces which have shaped those principals and approaches. Although justice structure and processes is examined in a cross cultural context, emphasis is placed on the US justice system, particularly the structure and function of US police, courts and corrections. Students are introduced to the origins and development of criminal law, legal process, sentencing, and incarceration policies.
3 Units
54 Lecture hours

AJ 102 (C-ID AJ 122)
Criminal Procedures
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
AJ 106 or AJ 107
This course is designed to provide Administration of Justice or other interested students with an in-depth study of the legal responsibilities of law enforcement. An emphasis will be placed on the judicial segment of the administration of justice system. Topics include laws of arrest, custody, past, present, and future analysis of the procedures for each subsystem within the administration of justice system from initial entry to final disposition. The relationship each segment maintains with system members will also be covered.
3 Units
54 Lecture hours

AJ 104 (C-ID AJ 124)
Legal Aspects of Evidence
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
AJ 106 or AJ 107
This course is designed to provide Administration of Justice or other interested students with an in-depth study of evidence rules. An emphasis will be placed on the application of rules in preparing and presenting evidence. The course will discuss the history and approach to the study of evidence. Topics include proof by evidence and substitutes, general admissibility tests, evidence by way of witness testimony, documents, real evidence, and exclusion of evidence on constitutional grounds. For a better understanding of the evidence rules, judicial decisions are cited and students will be required to brief cases.
3 Units
54 Lecture hours

AJ 105 (C-ID AJ 160)
Community Relations/MultiCultural Issues Within Public Service
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
AJ 101
Transfers to: UC (credit limit*), CSU
(*Students will receive credit from UC for only one of the following courses: AJ 106 or AJ 107.)
This course offers an analysis of the doctrines of criminal liability in the United States and the classification of crimes against persons, property, morals, and public welfare. Special emphasis is placed on the classification of crime, the general elements of crime, the definitions of common and statutory law, and the nature of acceptable evidence. This course utilizes case law and case studies to introduce students to criminal law. The completion of this course offers a foundation upon which upper-division criminal justice courses will build. The course will also include some limited discussion of prosecution and defense decision making, criminal culpability, and defenses to crimes.
3 Units
54 Lecture hours

AJ 106 (C-ID AJ 120)
Criminal Law I
Prerequisite: AJ 101 with a grade of “C” or better, or completion of PAC 040 or equivalent
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
AJ 106 or AJ 107
This course utilizes case law and case studies to introduce students to criminal law. The completion of this course offers a foundation upon which upper-division criminal justice courses will build. The course will also include some limited discussion of prosecution and defense decision making, criminal culpability, and defenses to crimes.
3 Units
54 Lecture hours

AJ 107
Criminal Law II
Prerequisite: AJ 101 with a grade of “C” or better, or completion of PAC 040 or equivalent
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
AJ 106 or AJ 107
This course utilizes case law and case studies to introduce students to criminal law. The completion of this course offers a foundation upon which upper-division criminal justice courses will build. The course will also include some limited discussion of prosecution and defense decision making, criminal culpability, and defenses to crimes.
3 Units
54 Lecture hours
This course is designed to provide Administration of Justice or other interested students with a comprehensive discourse on criminal statutes and their definition. Topics include classification as applied to the system of administration of justice, crimes against persons, property, general statutes, and health and safety statutes as well as other state and federal laws.

3 Units
54 Lecture hours

AJ 207 (C-ID AJ 220)
Juvenile Law and Procedure

Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; AJ 101
Transfers to: CSU

This course is designed to provide Administration of Justice or other interested students with techniques for handling juvenile offenders and victims. An emphasis will be placed on the prevention and repression of delinquency, diagnosis and referral for handling juvenile offenders and organization of community resources. Juvenile law and juvenile court procedures will be contrasted with adult law procedures.

3 Units
54 Lecture hours

AJ 208 (C-ID AJ 140)
Principles of Investigation

Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; AJ 101
Transfers to: CSU

This course addresses the techniques, procedures, and ethical issues in the investigation of crime, including organization of the investigative process, crime scene searches, interviewing and interrogating, surveillance, source of information, utility of evidence, scientific analysis of evidence and the role of the investigator in the trial process.

3 Units
54 Lecture hours

AJ 215
Vice and Narcotics Control

Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; AJ 101
Transfers to: CSU

This course is designed to provide Administration of Justice or other interested students with an in-depth understanding of code and case law of vice and narcotics. The course will focus on detection, suppression, apprehension, and prosecution of violators. Special emphasis will be placed on laws dealing with gambling, prostitution, sex crimes, narcotic identification, and search and seizure.

3 Units
54 Lecture hours

AJ 228
Police Field Operations

Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; AJ 101
Transfers to: CSU

This course is designed to provide Administration of Justice or other interested students with an in-depth understanding of the history and development of Police Field Operations. Particular emphasis is placed on the planning of field activities. Topics include the functions of patrol, traffic and other preliminary investigative duties of the field officer. The techniques of planning for patrol operations, handling of requests for service, vehicular traffic-related problems, and civil and domestic disturbances are also presented in the course.

3 Units
54 Lecture hours

AJ 250
Contemporary Issues in the Criminal Justice System

Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; AJ 101; AJ 102
Transfers to: CSU

This course is designed to provide Administration of Justice or other interested students with an in-depth understanding of personal and organizational values, beliefs, attitudes and ethics as they affect contemporary issues in the Criminal Justice System. Particular emphasis is placed on the historical foundations which serve as a basis of contemporary decision making. Specific issues to be used in the discussions will vary from semester to semester.

3 Units
54 Lecture hours

AJ 275 (C-ID AJ 150)
Introduction to Forensic Science

Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU

This course is designed to prepare Administration of Justice, Forensic Science, and California Peace Officer students for the Forensic Science Identification Program. This course provides an introduction to the role of forensics in criminal investigations. It examines the methods utilized in the forensic analysis of crime scenes, pattern evidence, instruments, firearms, questioned documents and controlled substances.

3 Units
54 Lecture hours

AJ 290
Cooperative Work Experience/Internship for Administration of Justice

Related Fields

Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU

This course supports and reinforces on-the-job training in the Administration of Justice field under supervision of a college instructor and is facilitated by the use of learning objectives. The student will be working in a skilled or professional level assignment in the area of Law Enforcement and will meet performance objectives related to instruction that are above and beyond the conditions of regular employment. This course is intended for students whose job is related to the field of Law Enforcement or Administration of Justice and have completed or enrolled in the appropriate coursework. “Contact the CWE office regarding re-enrollment procedures.”

Student Unpaid Internship:
1 Unit/60 hours; 2 Units/120 hours; 3 Units/180 hours; 4 Units/240 hours

Student Paid Internship:
1 Unit/75 hours; 2 Units/150 hours; 3 Units/225 hours; 4 Units/300 hours.
1 to 4 Units
3 Lecture hours
60 to 300 Other hours

AJ 299
Directed Study: Administration of Justice

Transfers to: UC, CSU

Independent Study/Directed Study is intended for students who have the ability to assume responsibility for independent work and to prepare written or oral reports and/ or appropriate projects. To enroll in an independent study/directed study course, students must possess a 2.5 overall grade point average, a 3.0 grade point average in the discipline of study being requested, or receive an exception from the instructor.

Independent Studies/Directed Studies may be developed from any topic arising from or related to a course of study that will result in developing depth and breadth in that subject area. Students will be expected to meet on a regular basis with their faculty sponsor and submit a final report or project, and student progress shall be evaluated at regular intervals.

Academic standards for Independent Studies/Directed Studies shall be the same as those for other courses. Units are awarded in accordance to Title V regulations with one unit of credit awarded for 54 hours of Directed Studies, six (6) hours of which must be with a instructor. The instructor is responsible for monitoring student progress through the semester.
Students may take directed study courses for a maximum of three (3) units within a discipline, and may not accumulate more than a total of nine (9) units college wide.

### ALTERNATIVE ENERGY TECHNOLOGY

**Division of Career & Technical Education**

#### AET 120
**Introduction to Alternative Energy Technology (Same as ET 120)**

**Advisory:** ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment  
**Transfers to:** CSU

This course is an introductory course that will examine the theory behind present day energy systems which will include an in-depth analysis of the design and installation of alternate energy systems. Topics will include: solar electrical systems, wind electrical systems, solar water heating systems, wind mechanical systems, small hydro-electrical systems, and conservation methods used to save energy. Also presented are topics on geothermal energy, fuel cells, biomass systems, and applications of alternate energy in transportation, industrial, commercial, and residential systems. Students will collect solar data using an irradiance meter and determine power consumption of a typical residence to develop an alternative energy solution. This course is intended for students that are contemplating a career in the alternative energy industry.

**3 Units**  
45 Lecture hours  
27 Lab hours

#### AET 121
**Photovoltaic Systems Design and Installation (Same as ET 121)**

**Advisory:** ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment  
**Transfers to:** CSU

This is an introductory course that will examine and implement the design and installation of solar photovoltaic power systems. Students will learn how to perform solar site evaluations, electrical load calculations, solar system size calculations, and installation techniques for grid-tie and off-the-grid photovoltaic systems. This course is designed to prepare the student for the North American Board of Certified Energy Practitioners (NABCEP) Entry Level Exam. This course is intended for students that are contemplating a career in the solar photovoltaic energy industry.

**3 Units**  
45 Lecture hours  
27 Lab hours

#### AET 122
**Advanced Photovoltaic Systems Design and Installation (Same as ET 122)**

**Prerequisite:** AET/ET 121  
**Advisory:** ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment  
**Transfers to:** CSU

This is the second course in the photovoltaic series that will further examine and implement the design and installation of solar photovoltaic power systems. Students will learn how to interpret the National Electrical Code (NEC) specifics concerning photovoltaic installations. The topics include code compliant wiring of modules, inverters, charge controllers, batteries, grounding techniques and related topics. Additional topics include the design and installation of large commercial photovoltaic systems. This course is intended for students that are interested in a career in the solar photovoltaic energy industry.

**3 Units**  
45 Lecture hours  
27 Lab hours

#### AET 123
**Wind Energy Systems Design and Installation (Same as ET 123)**

**Advisory:** ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment  
**Transfers to:** CSU

This is an introductory course that will examine and implement the design and installation of wind power systems which will include the installation of a working wind generation power system. Students will learn how to perform wind site evaluations, electrical load calculations, wind system size calculations, hydraulics fundamentals, basic aerodynamics, and installation techniques for wind power generation systems. Students will learn how to design and install wind power generation system and obtain skills for employment. This course is intended for students that are contemplating a career in the wind turbine power generation industry.

**3 Units**  
45 Lecture hours  
27 Lab hours

#### AET 124
**Advanced Wind Energy Systems Design and Installation (Same as ET 124)**

**Prerequisite:** AET/ET 123  
**Advisory:** ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment  
**Transfers to:** CSU

This is the second course in the wind energy series that will further examine and implement the design and installation of wind power systems. Students will learn how to interpret the National Electrical Code (NEC) specifics concerning wind power installations. The topics include code compliant wiring of modules, inverters, charge controllers, grounding techniques and related topics. Additional topics include wind site evaluations, electrical load calculations, wind system size calculations, hydraulic fundamentals, basic aerodynamics, and installation techniques for large wind power generation systems. This course is intended for students that are contemplating a career in the wind turbine power generation industry.

**3 Units**  
45 Lecture hours  
27 Lab hours

#### AET 181
**Home Energy Management and Auditing (Same as ET 181)**

**Advisory:** ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment  
**Transfers to:** CSU

This course is designed to provide individuals, who are working in or seeking employment in the green energy field, with an overview of home energy management and auditing. Specifically, this course will assist students in their preparation of a comprehensive home energy audit and energy management program. Emphasis is placed on the following topics: Appliances, Insulation, Designing/Remodeling, Electricity, Landscaping, Lighting, Space Heating and Cooling, Water Heating, Doors/Windows/Skylights, and Home Energy Audits.

**3 Units**  
54 Lecture hours
**AET 299**  
Industrial Energy Management and Auditing (Same as ET 182)  
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment  
**Transfers to:** CSU  
This course is designed to provide individuals, who are working in or seeking employment in the green energy field, with an overview of the industrial energy management and auditing. Specifically, this course will assist students in their preparation of a comprehensive energy audit and energy management program. Emphasis is placed on the following topics: Types of Energy Audits, Energy Management and Cost, Benchmarking, Energy Performance, Energy Use Requirements, Maximizing System Efficiencies, Optimizing Energy Input Requirements, Fuel and Energy Substitution and Energy Audit Instruments.  
3 Units  
54 Lecture hours  

**AET 280**  
Green Building Design Principles  
(Same as ET 280)  
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment  
**Transfers to:** CSU  
This course is designed to provide individuals who are working in or seeking employment in the green building field, with an overview of the green building industry and its components. Specifically, this course will assist students in their preparation for the Leadership in Energy and Environmental Design Accredited Professional (LEED AP) Examination, which is the most recognized professional certification for green building in the nation. Emphasis is placed on the six categories of design that green buildings must address for LEED Certification: Sustainable Sites, Water Efficiency, Energy & Atmosphere, Materials & Resources, Indoor Environmental Quality, and Innovation & Design Process. Each of these categories will be studied, with a focus on the significance of each particular credit.  
3 Units  
54 Lecture hours  

**AET 182**  
Industrial Energy Management and Auditing (Same as ET 182)  
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment  
**Transfers to:** CSU  
This course provides an opportunity for the student to expand their studies in Alternative Energy Technology beyond the classroom by completing a project or an assignment arranged by an agreement between the student and instructor. The student is required to contract with the instructor to determine the scope of the assignment and the unit value assigned for successful completion. Students must possess a 2.5 overall GPA, a 3.0 GPA in the discipline of study being requested, or receive an exception from the instructor. Students may take a maximum of 3 units of Directed Study within a discipline and 9 units college-wide.  
1 to 3 Units  
54 to 162 Lab hours  

**AMERICAN SIGN LANGUAGE**  
Division of Communication & Languages  

**ASL 149**  
American Sign Language I  
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment  
**Transfers to:** UC, CSU  
This course will provide an introduction to American Sign Language emphasizing receptive and expressive skills. The use of facial expressions during signing will also be addressed. Students will be exposed to deaf culture experiences both in the classroom and in other environments. This course is designed for people who wish to learn to communicate with those who are deaf and hard of hearing.  
4 Units  
72 Lecture hours  

**ASL 150**  
American Sign Language II  
Prerequisite: ASL 149 with a “C” or better or two years of high school ASL with a “C” or better  
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment  
**Transfers to:** UC, CSU  
This course will provide a continuation of American Sign Language I emphasizing receptive and expressive skills. The use of facial expressions during signing will also be addressed. Students will be exposed to deaf culture experiences both in the classroom and in other environments. This course is designed for people who wish to continue learning to communicate with those who are deaf and hard of hearing.  
4 Units  
72 Lecture hours  

**ANIM 101**  
Introduction to Digital 3D Animation  
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment  
**Transfers to:** CSU  
This course is an introduction to the art of creating digital character animation. Students will be introduced to the concepts of digital sculpting, lighting, rendering, rigging and animating 3-D objects. This course is beneficial for all students in classes related to Graphic Arts (Multimedia, Illustration, Web and Game Design and Film Production) and Industrial Design (Architectural, Automotive, Furniture, Clothing and Product Design).  
4 Units  
54 Lecture hours  

**ANIM 105**  
Principles of Digital Animation  
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; ART 130; ART 230  
**Transfers to:** CSU  
This course introduces students to the basic principles of digital animation. The topics covered in this course are the starting point for any student interested in becoming a digital animator. Through the use of solid drawing and 3D software such as Maya, students will learn the master fundamentals like squash and stretch, timing, weight, drag and follow through. This course provides students with the opportunity to build and refine the basic skill set necessary to be a digital animator.  
4 Units  
54 Lecture hours  

**ANIM 110**  
Digital Character Animation  
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; ANIM 105  
**Transfers to:** CSU  
This course will provide students with an opportunity to further develop their skills in the art of creating three-dimensional digital character animation. Students will learn how to create short animation sequences and loops using digital characters. This course is appropri-
ANIM 260
Figure Drawing for Animators
Prerequisite: ART 230
Advisory: ENGL 035 or ENLA 100 or appropriate assessment
Transfers to: CSU
A figure drawing course for animators that focuses on gesture and how to capture the essential movement, dynamic expression, and the individual attitude of the model. This course is designed to introduce and develop an understanding of life drawing that will serve as a foundation for further studies in animation and entertainment arts. Students will refine basic skills in human anatomy while learning to draw the figure in sequential movement, understand weight and balance, facial and body expression, and figure invention.
3 Units
36 Lecture hours
72 Lab hours

ANTHROPOLOGY
Division of Behavioral & Social Sciences

ANTH 101 (C-ID ANTH 110)
Introduction to Physical Anthropology
Prerequisite: ENGL 030 or ENLA 034 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
Transfers to: UC (credit limit*), CSU
(*Students will receive credit from UC for only one of the following courses: ANTH 101 or ANTH 101H)
In this course, people are investigated from the perspective of evolution theory. Students will learn about the process of natural selection and related issues including patterns of inheritance. Also included will be an examination of the closest living relatives to humans, primates, with an emphasis on behavior and ape societies. An extensive survey of human ancestors will trace the origins of various life forms and recount how ape-like creatures evolved into modern humans. Students will also discover how natural selection can be used as a tool to understand patterns of human variation. This course is

ANIM 134
Mech and Vehicle Design
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; ART 170
Transfers to: CSU
This class introduces students to the artistic and technical requirements needed to work in the entertainment industry as vehicle designers. Through class projects, students learn the latest techniques in the construction of game levels using Maya and Unity. In addition to level design and the practical aspects of modeling and lighting, an emphasis is placed on the artistic merit of the student’s work through value, color, design and composition.
4 Units
54 Lecture hours
54 Lab hours

ANIM 135
Environment Design
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; ANIM 101
Transfers to: CSU
This class introduces students to the artistic and technical requirements needed to work in the entertainment industry as environment artists. Through class projects, students learn the latest techniques in the construction of game levels using Maya and Unity. In addition to level design and the practical aspects of modeling and lighting, an emphasis is placed on the artistic merit of the student’s work through value, color, design and composition.
4 Units
54 Lecture hours
54 Lab hours

ANIM 140
Animation Portfolio
Prerequisite: ANIM 101; ANIM 105
Advisory: ENGL 035 or ENLA 100 or appropriate assessment
Transfers to: CSU
This course will prepare digital artists to talk about and present their artwork in a professional manner. Students will select an area of concentration within Entertainment Design to focus a portfolio project around.
4 Units
54 Lecture hours
54 Lab hours

ANIM 120
Lighting and Texture
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; ANIM 101
Transfers to: CSU
This is an introductory course for all students interested in learning about lighting, rendering and texturing for 3D animation. Students focus on creating lighting scenarios and texture editing systems to generate and render surface details on a variety of 3D objects. This course is beneficial for all students in courses related to Graphic Arts (Multimedia, Illustration, Internet Web Design, Game Design and Film Production) and Industrial Design (Architectural, Automotive, Furniture, Clothing and Product Design).
4 Units
54 Lecture hours
54 Lab hours

ANIM 130
Modeling for Games
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; ANIM 101
Transfers to: CSU
This is an introductory course in the creation of assets and environments for games. The course focuses on the creation of forms to be integrated into a game, and students will begin to grasp the design and digital sculpting of both organic and hard surface game assets. Aesthetics, construction, communication, light, form and quality of work are stressed. This course is beneficial for all students in courses related to Graphic Arts (Multimedia, Illustration, Internet Web Design, Game Design, Film Production, Industrial Design Architectural, Automotive, Furniture, Clothing and Product Design).
4 Units
54 Lecture hours
54 Lab hours

ANIM 133
Character Design
Prerequisite: ANIM 260
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; ART 170
Transfers to: CSU
This class is intended to teach the fundamentals of character design. Students learn the basics in character development by revising and polishing innovative designs of visually intriguing characters. The course helps students master and use gesture, construction and anatomy in their designs. Students learn to use digital tools to sketch, paint and build a visually compelling portfolio of characters.
4 Units
54 Lecture hours
54 Lab hours

ANIM 260
Figure Drawing for Animators
Prerequisite: ART 230
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: CSU
A figure drawing course for animators that focuses on gesture and how to capture the essential movement, dynamic expression, and the individual attitude of the model. This course is designed to introduce and develop an understanding of life drawing that will serve as a foundation for further studies in animation and entertainment arts. ANTH 101L (C-ID ANTH 115L)  
**Physical Anthropology Lab**  
Prerequisite/Corequisite: ANTH 101 or ANTH 101H  
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment  
Transfers to: UC, CSU  
This laboratory course, designed for anthropology majors, those with an interest in anthropology, or anyone with a desire to further their understanding of humans from an evolutionary perspective.  
*3 Units*  
*54 Lecture hours*  

ANTH 102 (C-ID ANTH 120)  
**Introduction to Cultural Anthropology Honors**  
Prerequisite: ENGL 101 with a grade of "C" or better; MATH 020 or MATH 020C or appropriate assessment  
Advisory: ENGL 035 or ENLA 100 or appropriate assessment  
Transfers to: UC, CSU  
The emphasis of this general education course is the investigation of human culture. By learning about the diversity of cultural practices around the world, students will be able to evaluate their identities within their own societies. In addition to discovering the theories and methods important to cultural anthropology, the course will include an extensive examination of cross-cultural diversity. Students will learn about how people in different cultures obtain their food, exchange goods, organize themselves in groups, engage in politics, raise children, and worship supernatural beings. Also addressed will be the issue of how cultural anthropology can contribute to addressing problems important in the modern world. This course is designed for anthropology majors, those with an interest in anthropology, or anyone with a desire to further their understanding of human culture.  
*3 Units*  
*54 Lab hours*  

ANTH 102H (C-ID ANTH 120)  
**Introduction to Cultural Anthropology Honors**  
Prerequisite: ENGL 101 with a grade of "C" or better  
Advisory: READ 023 or appropriate assessment  
Transfers to: UC, CSU

ANTH 103 (C-ID ANTH 150)  
**Introduction to Archaeology**  
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment  
Transfers to: UC, CSU  
Archaeology is the study of past societies through the analysis of material remains. This general education course will survey the development of major cultural centers around the world including those found in Mesoamerica, South America, Egypt, China, Africa, and the Middle East. Examples drawn from many ancient sites will trace human societies from pre-agricultural communities, through the origins of agriculture, to the rise of major political and economic institutions. Students will learn how archaeologists discover information about the past, the history of the discipline, and the important issues confronting the field today. This course is designed for students who are interested in the field of archaeology or for students who plan to major in anthropology.  
*3 Units*  
*54 Lecture hours*  

ANTH 104 (C-ID ANTH 130)  
**Introduction to Language and Culture**  
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment  
Transfers to: UC, CSU  
This course is designed for students majoring in anthropology or anyone interested in learning about the diversity of communication forms and language systems around the world. The course investigates the development and evolution of language, the structure and the sound systems of different languages, language loss and conservation, and the variations in different languages such as dialects and the social situations in which they are used. The different forms of verbal and non-verbal communication are studied across cultures with special attention paid to the use of technology like social media and the problems that arise in communication between people of different class, gender, and ethnicity in our globalized world.  
*3 Units*  
*54 Lecture hours*
ANTH 110
Human Sexuality from a Cross-Cultural Perspective (Same as SOC 110)
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for students with an interest in human sexuality from a cross-cultural perspective. Sexual anatomy, development, response, and behavior will be examined, along with historical and cultural patterns. Students will learn about the development and expression of gender and orientation from both Western and non-Western perspectives, with an emphasis on the influence of culture on individuals.
3 Units
54 Lecture hours

ANTH 115
Introduction to Medical Anthropology
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
Medical anthropology explores the perceptions of disease, health, and healing in different cultures around the world. Socio-cultural, biological, and ecological perspectives will be used to understand the origins of illness and disease and medical practices across cultures. Topics include diagnosis and therapies, the role of healers like witchdoctors and shamans, stress and mental health, unequal access to medical care, and medical anthropology applied to global health problems. This course is intended for nursing and health care professionals seeking continuing education credit and students interested in the cultural aspects of healing and treating disease.
3 Units
54 Lecture hours

ANTH 125
Religion, Magic, Witchcraft, and the Supernatural
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for students interested in learning about the diverse religious beliefs and practices around the world. An introduction to the anthropological study of religion will include an overview of the various forms of religious belief systems, the variety of gods and other supernatural forces, the use of myths, rituals, and ceremonies in religious practice, and the types of shamans, priests, and other religious specialists found in religious systems. The religious use of drugs will be explored along with traditional healing practices and folk medicine remedies used in many Western cultures. A survey of witchcraft, sorcery, the occult, demons, exorcism rites, sacrificial practices, and magic will be included. In addition, concepts relating to death and the afterlife will be explored such as souls, ghosts, reincarnation, zombies, and others.
3 Units
54 Lecture hours

ARCHITECTURE
Division of Career & Technical Education

ARCH 110
Construction Document Reading and Estimating
(Formerly ARCH 095)
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
Transfers to: CSU
This course is beneficial for apprentices interested in learning about construction estimating, as used in the construction industry, and covers residential, light commercial and industrial building construction. An introduction to the use of prints, construction documents and the theory of construction estimating, as used in the building industry will be presented. Principles of reading working drawings, plans, H.V.A.C. specifications, details, elevations and electrical specifications are included as well as material estimating, estimating rules, tables and procedures.
3 Units
45 Lecture hours
27 Lab hours

ARCH 115
Introduction to Residential Architecture: Drawing and Design
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; ENGT 101 or two years of high school drafting
Transfers to: CSU
This introductory course is for any student interested in the field of Architectural Drawing and Design. The course is a requirement for both the A.S. degree and certificate in Architectural Design and Drawing, Engineering Design Drafting and Civil Design Technology. The course includes the study of architectural graphic standards related to creating construction drawings such as floor plans, exterior and interior elevations, site plans, foundation plans and details, building sections and construction framing details for one or two story residential structures. Emphasis is placed on symbolology, conventions, and techniques to develop technical skills necessary for an entry level architectural drafter and may lead to careers in environmental planning and design, architectural engineering, and construction technology. Construction methods, building codes, design factors, planning, and use of reference materials are discussed and applied. All construction documents will be developed using traditional board drafting methods and standards.
4 Units
54 Lecture hours
54 Lab hours

ARCH 125
Residential Architecture and Detailing
Prerequisite: ARCH 115
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; ENGT 150 or ENGT 170, or industry experience in CADD applications
Transfers to: CSU
This intermediate level course is for students pursuing a degree or certificate in Architectural Design and Drawing and is a requirement for both the A.S. degree and certificate. This course involves creating a set of construction drawings for a two story structure and emphasizes the study of wall and construction systems, foundation systems, detailing of wood and concrete systems, sections, interior details, and completion of the residential construction documents. Emphasis is placed on development of technical skills in detailing, use of reference materials, building codes, standard construction techniques and architectural graphic standards. All construction documents will be developed using CADD.
3 Units
36 Lecture hours
36 Lab hours

ARCH 215
Architectural Perspective and Rendering
Prerequisite: ARCH 115
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; ENGT 105
Transfers to: CSU
This course is for all students interested in developing skills in architectural perspective drawing and is a requirement for the Architecture A.S. degree. Students will be introduced to the theory and practical application of perspective drawing and rendering as used in architecture. Topics include one, two, and three point perspectives, entourage, and introduction to rendering techniques, such as water color, markers, film, pastels, pencil, pen and ink. Presentation techniques will also be discussed.
4 Units
54 Lecture hours
54 Lab hours
ARCH 225  
Commercial Wood and Masonry Design and Construction  
Prerequisite: ARCH 115  
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; ENGT 150 or ENGT 170 or industry experience in CADD applications  
Transfers to: CSU  
This advanced level course is for students pursuing an A.S. Degree or Certificate in Architecture and Architectural Design and Drawing. The course includes the study of construction methods, building ordinances and codes. As a component of the course students will complete construction documents for concrete block, steel and wood commercial buildings and retail space. Emphasis is placed on effective space utilization, technical plans, elevations, aesthetics, handicap requirements, site utilization and development, traffic flow, landscape, foundation design and construction details.  
4 Units  
54 Lecture hours  
54 Lab hours  

ARCH 235  
Architectural Design Studio  
Prerequisite: ARCH 215  
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; ENGT 150  
Transfers to: UC, CSU  
This course is for students pursuing the A.S. degree in Architecture with the intent of transferring and continuing their study of architecture. Topics explored include multiple design principles, concept applications, spatial and form definition, preliminary studies, interior and exterior space planning, site orientation, styles and materials. Student design concepts will be expressed verbally and graphically using presentation drawings, isometrics and perspectives, conceptual models, renderings and photographs. Students will develop skills in a studio atmosphere dealing with existing conditions, problem solving using design criteria, codes and environmental relationships for abstract, residential and small commercial structures.  
4 Units  
54 Lecture hours  
54 Lab hours  

ARCH 236  
Architecture Design Studio II  
Prerequisite: ARCH 235  
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment  
Transfers to: UC, CSU  
This second level Design Studio course builds upon the foundation of architectural design studio ARCH 235. This course presents additional design approaches to spatial and form definition of architectural program, urban and site planning, topographic, civil and environmental issues. Architectural design proposals and projects will be expressed verbally and graphically using presentation drawings, conceptual models, renderings and photographs. Students will enhance their design skills in a studio atmosphere, working to justify their design solutions.  
4 Units  
54 Lecture hours  
54 Lab hours  

ARCH 237  
Building Construction  
Prerequisite: ARCH 235  
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; ENGT 150 or ENGT 170 or industry experience in CADD applications  
Transfers to: CSU  
This advanced level course is for students pursuing an A.S. Degree or Certificate in Architecture and Architectural Design and Drawing. The course includes the study of construction methods, building ordinances and codes. As a component of the course students will complete construction documents for concrete block, steel and wood commercial buildings and retail space. Emphasis is placed on effective space utilization, technical plans, elevations, aesthetics, handicap requirements, site utilization and development, traffic flow, landscape, foundation design and construction details.

ARCH 241  
Architectural Design and Drawing  
Prerequisite: ARCH 115  
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; ENGT 150  
Transfers to: UC, CSU  
This course is for students pursuing an A.S. Degree in Architecture (Transfer) and Architectural Design and Drawing and presents an intensive study of BIM (Building Information Modeling) applications as they relate to architecture. Utilizing the latest releases of 3D design software such as Revit and AutoCAD Architecture and previously learned technical and architectural drafting conventions, students will produce two and three dimensional BIM generated architectural drawings and 3D virtual models. High technology skills which are necessary to function as a designer or CADD Drafter are emphasized.  
4 Units  
54 Lecture hours  
54 Lab hours  

ARCH 260  
Advanced Architecture Using Revit and 3D Software  
Prerequisite: ARCH 115; ENGT 150  
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; ENGT 101 or two years of high school drafting; ENGT 200  
Transfers to: CSU  
This course is for all students pursuing an A.S. ARCH 261  
Revit for Advanced BIM Architectural, Structural and MEP Applications  
Prerequisite: ARCH 260  
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment  
Transfers to: CSU  
This course supports and reinforces learning objectives. The student will be working in a skilled or professional level assignment in their area of vocational interest and will meet performance objectives related to instruction that are above and beyond the conditions of regular employment. This course is intended for students whose job is related to the field of architecture and have completed or enrolled in the appropriate coursework. “Contact the CWE office regarding re-enrollment procedures.”  
Student Unpaid Internship:  
1 Unit/60 hours; 2 Units/120 hours; 3 Units/180 hours; 4 Units/240 hours  
Student Paid Internship:  
1 Unit/75 hours; 2 Units/150 hours; 3 Units/225 hours; 4 Units/300 hours.  
1 to 4 Units  
3 Lecture hours  
60 to 300 Other hours  

ARCH 280  
Advanced MicroStation for CADD & BIM Applications (Same as ENGT 280)  
Prerequisite: ENGT 170 with a grade of “C” or better, or verifiable work experience and proficiency in MicroStation XM or V8i  
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; ENGT 101 or two years of high school drafting  
Transfers to: CSU  
This course is for students pursuing an advanced study in MicroStation 3D parametric CADD (Computer Assisted Design and Drafting) and the BIM (Building Information Modeling) approach to building design using Bentley Architecture. Students will apply previously learned drafting conventions to produce two and three dimensional CADD and BIM generated mechanical and architectural drawings and virtual design models. This course benefits all students studying Architecture, Civil Engineering, Drafting, Design and Computer Graphics. High technology skills which are necessary to function as a designer or CADD Drafter are emphasized.

54 Lecture hours  
54 Lab hours
ARCH 299
Directed Study in Architecture Design
Prerequisite: 2.5 overall grade point average, a 3.0 grade point average in the discipline of study being requested, or receive an exception from the instructor
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course provides an opportunity for the student to expand their studies in Architecture Design & Drawing beyond the classroom by completing a project or an assignment arranged by an agreement between the student and instructor. The student is required to contract with the instructor to determine the scope of the assignment and the unit value assigned for successful completion. Students must possess a 2.5 overall GPA, a 3.0 GPA in the discipline of study being requested, or receive an exception from the instructor. Students may take a maximum of 3 units of Directed Study within a discipline and 9 units college-wide.
1 to 3 Units
54 to 162 Lab hours

ART
Division of Arts & Cultural Programs

ART 101
Introduction to the Fine Arts
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This lecture/lab course provides an introduction to the Fine Arts for the non-art major providing an opportunity to learn about the arts through a series of lectures and hands-on projects within an art historical and conceptual framework. Project and topics include drawing, painting, printmaking, design, mixed media and sculpture.
3 Units
27 Lecture hours
61 Lab hours

ART 104 (C-ID ARTH 145)
Art of the Ancient Americas
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
Art 104 is a study of the indigenous art of Mexico, Andean South America, and Central America, from civilizations including the Olmec, Maya, Aztec, Inca, Moche, Chavin de Huantar, and Nazca. Art of representative native tribes of the territory now encompassed by the United States and Canada will be comparatively examined. Works of art and architecture will be presented in relation to the various religious beliefs, political/economic systems, and cultural practices of the ancient Americas. Art historical and archaeological methodologies relating to the understanding and interpretation of non-Western art will be discussed. This course is appropriate for students pursuing a degree in Art, students with an interest in American Studies and Latin American Studies.
3 Units
54 Lecture hours

ART 105 (C-ID ARTH 110)
Survey of Western Art: Prehistory through the Middle Ages
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*Students will receive credit from UC for only one of the following courses: ART 105 or ART 105H)
This course presents a broad overview of Prehistoric, Mesopotamian, Egyptian, Greek, Etruscan, Roman, Early Christian, Islamic, and Medieval art and architecture. This course is appropriate for all students pursuing the degree in Studio Art or Art History or seeking to fulfill general education requirements in Fine Arts and Humanities.
3 Units
54 Lecture hours

ART 105H (C-ID ARTH 110)
Survey of Western Art: Prehistory through the Middle Ages Honors
Prerequisite: ENGL 101 with a “C” or better and a minimum GPA of 3.2
Advisory: READ 023 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*Students will receive credit from UC for only one of the following courses: ART 105 or ART 105H)
This course presents a broad overview of Prehistoric, Mesopotamian, Egyptian, Greek, Etruscan, Roman, Early Christian, Islamic, and Medieval art and architecture. This course is appropriate for all students pursuing the degree in Studio Art or Art History or seeking to fulfill general education requirements in Fine Arts and Humanities.
3 Units
54 Lecture hours

ART 106 (C-ID ARTH 120)
Survey of Western Art: Renaissance to Contemporary
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course provides an overview of the history of Western art from the 14th century through the Modern Era, including Renaissance, Baroque, Rococo, Neoclassicism, Romanticism, Realism, Early Photography, Impressionism, Post Impressionism, Modernism, Postmodernism, and major art developments of the 20th and 21st centuries. This course is appropriate for all students pursuing the degree in Studio Art or Art History or seeking to fulfill general education requirements in Fine Arts and Humanities.
3 Units
54 Lecture hours

ART 106H (C-ID ARTH 120)
Survey of Western Art: Renaissance to Contemporary Honors
Prerequisite: ENGL 101 with a “C” or better
Advisory: READ 023 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*Students will receive credit from UC for only one of the following courses: ART 106 or ART 106H)
This course provides an overview of the history of Western art from the 14th century through the Modern Era, including Renaissance, Baroque, Rococo, Neoclassicism, Romanticism, Realism, Early Photography, Impressionism, Post Impressionism, Modernism, Postmodernism, and major art developments of the 20th and 21st centuries. This course is appropriate for those who meet Honors Program requirements, and is appropriate for all students pursuing the degree in Studio Art or Art History or seeking to fulfill general education requirements in Fine Arts and Humanities.
3 Units
54 Lecture hours

ART 107 (C-ID ARTH 130)
The Art of Asia
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course examines the artistic traditions of Prehistoric to Modern Asia in relation to their cultural, philosophical, and religious influences. The art and architecture of Central Asia (India, China, Korea, and Japan) will be emphasized. Examples from Southeast Asia, Pakistan, Tibet, and Nepal will also be discussed. This course is appropriate for all students interested in art and culture and for those seeking to fulfill general education requirements in Fine Arts and Humanities, as well as Studio Art majors.
3 Units
54 Lecture hours

2017-2018 Catalog
Rio Hondo College / 227
ART 108
The Art of Mexico
Advisory: READ 023 or appropriate assessment; ENGL 035 or ENLA 100 or appropriate assessment
Transfers to: UC, CSU
This course is a survey of the art and architecture of Mexico including PreColumbian, Viceroyal (Colonial) and Modern 19th and 20th centuries. Chicano/a art will also be examined in relation to its Mexican antecedents. Art 108 is appropriate for all students interested in art and culture and for those seeking to fulfill general education requirements in Fine Arts and Humanities, as well as all Studio Art majors and Art History majors.
3 Units
54 Lecture hours

ART 109
Art of the Americas: Colonial to the Present
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course includes a study of the art and architecture of North, Central, and South America from the colonial period to the early 20th Century. This course is appropriate for students with an interest in American Studies, Latin American Studies, and/or those seeking to fulfill the general education requirements in Fine Arts and Humanities.
3 Units
54 Lecture hours

ART 110 (C-ID ARTH 100)
Understanding Visual Art
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
ART 110 is a lecture course that provides the student with an introduction to the study of visual art: its vocabulary, its forms, the many roles it plays in society, and the variety of processes artists master in its making. Students gain insight into current approaches used in interpreting meaning from art and explore questions about the ways in which value is assigned to the art object. Using examples from cultures around the world and across time, this course offers a broad overview to any student interested in art and culture and to those seeking to fulfill general education requirements in Fine Arts and Humanities.
3 Units
54 Lecture hours

ART 112 (C-ID ARTH 150)
Visual Art in the Modern Era
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
ART 112 is a survey of developments in art and architecture from the early 19th century through the 20th century and into the 21st. From Neoclassicism and Romanticism through Postmodernism and contemporary art, visual art movements will be discussed in relation to stylistic trends, philosophical influences, innovations in technology, and other historical and social contexts. The roles played by artist, critic, and consumer in shaping these movements will be examined, as well as visual art’s impact upon society in the Modern Era. This course is appropriate for all students pursuing the degree in Art History and/or seeking to fulfill general education requirements in Fine Arts and Humanities.
3 Units
54 Lecture hours

ART 113
The History of Photography
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This lecture course examines the history of photography from its invention in the 1830s to the present. The technological development, social role, and aesthetic possibilities of photography will be discussed in relation to major historical, art historical, cultural, and political influences. This course is appropriate for all students interested in photography, art, and art history and culture and for those seeking to fulfill the general education requirement for Fine Arts and Humanities, as well as Studio Art majors and Art History majors.
3 Units
54 Lecture hours

ART 115
The Art of Film
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This introductory course explores film as an art form, its basic components, and its relation to the styles and movements of other visual arts forms. An understanding of cinematic language is emphasized by focusing upon film’s manipulation of time and space, its use of visual metaphors, montages, and explicit/implicit messages. The collaborative nature of filmmaking is studied by examining the role of cinematography, lighting, film editing, visual effects, art direction, and the use of sound and music to enhance the script and create style. Through discussion and written assignments, students develop the ability to analyze the impact of films viewed both in and out of class. This course is appropriate for any student interested in film, art, media studies, or culture.
3 Units
54 Lecture hours

ART 120 (C-ID ARTS 100)
Two Dimensional Design
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; ART 022 or appropriate assessment
Transfers to: UC, CSU
This is a foundational, first semester course and is open to any student interested in the fundamentals of visual thinking as they apply to all visual media and fulfills a general education requirement in Art. This course provides an introduction to the concepts, applications, and art historical references related to two-dimensional art and composition, and includes the study of the basic elements of line, shape, texture, value, color and spatial illusion. Students will develop a visual vocabulary for creative expression through lecture presentations, studio projects, and written assignments.
3 Units
54 Lecture hours

ART 121 (C-ID ARTS 101)
Three Dimensional Design
Advisory: READ 022 or appropriate assessment; ART 120
Transfers to: UC, CSU
This is a foundational, first semester course and is open to all students interested in the fundamentals of visual thinking as they apply to all three dimensional media. It also fulfills a general education requirement in art. This course provides an introduction to the concepts, applications, and art historical references related to three-dimensional art and includes the basic elements and principles of three-dimensional design. Students will develop a visual vocabulary for creative expression through lecture, slide and video presentations, and studio projects using a variety of tools and written assignments.
3 Units
54 Lecture hours

ART 124 (C-ID ARTS 270)
Color Theory
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is an introduction to the characteristics of color and its interaction suited for all art majors transferring to a four-year college or interested in working in the arts as a painter, illustrator or designer. The course will cover the principles, theories, and applications of additive and subtractive color in two dimensions.
Topics will include major historical and contemporary color systems, production of projects in applied color, and the elements of design as they apply to color.

3 Units
54 Lab hours

ART 130 (C-ID ARTS 110)
Freehand Drawing I
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This is a first semester course for art and non-art majors interested in developing basic drawing skills. As an introduction to observational drawing and composition, students will develop the ability to perceive and define shape, contour, volume, space, and light using a variety of drawing media and subject matter. Emphasis is on clarity of observation and the ability to order and translate 3-dimensional form and space into 2-dimensional drawings.
3 Units
36 Lecture hours
72 Lab hours

ART 131 (C-ID ARTS 205)
Freehand Drawing II
Prerequisite: ART 130
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This is a second semester course for art and non-art majors interested in developing basic drawing skills. As an introduction to observational drawing and composition, students will develop the ability to perceive and define shape, contour, volume, space, and light using a variety of drawing media and subject matter. Emphasis is on strengthening skills introduced in Freehand Drawing I, the exploration of color in drawing and concepts related to content.
3 Units
27 Lecture hours
81 Lab hours

ART 135 (C-ID ARTS 210)
Beginning Painting
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; ART 130
Transfers to: UC, CSU
This is a first semester course for art and non-art majors interested in developing basic painting skills. The course explores both traditional and contemporary painting techniques while stressing an ability to perceive and define shape, contour, volume, texture, space, and light using acrylic or water-based oil painting media. Emphasis is on learning the techniques of painting, understanding the use of color, while strengthening observation and rendering skills. Students are advised to have some drawing skills before taking this class.
3 Units
36 Lecture hours
72 Lab hours

ART 136
Intermediate Painting
Prerequisite: ART 130; ART 135
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This is a second semester course for art and non-art majors interested in further development of painting skills and techniques, understanding the use of color and space, while strengthening observation and rendering skills. The course explores both traditional and contemporary painting concepts, styles, and techniques that involve complex compositional and technical problems in either acrylic or oil painting media.
3 Units
36 Lecture hours
72 Lab hours

ART 140
Ceramics I
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC, CSU
This is an introductory course open to all art and non-art majors interested in learning basic skills in ceramics using the potter's wheel. Students will develop a visual vocabulary for creative expression through lectures, power point, vocabulary lists and video presentations. This course covers beginning problems of centering, throwing and shaping various functional and non-functional pottery. Students will be introduced to the process of glazing and basic firing techniques. This course emphasizes exploring personal and cultural expression in the ceramic media. Evaluation will be based on using a variety of tools and writing assignments.
3 Units
36 Lecture hours
72 Lab hours

ART 142
Introduction to Ceramic Handbuilding
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This is a first semester course for art and non-art majors. It is designed to introduce students to the concepts, techniques, history, and contemporary practices of handbuilding in the ceramics arts. This course can be taken once and repeated three times for credit. This class is for any student who is interested in the fundamentals of clay construction using handbuilding technique.
3 Units
36 Lecture hours
54 Lab hours

ART 146
Introduction to Sculpture
Prerequisite: ART 121
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; ART 130
Transfers to: CSU
This course is suited for art majors transferring to a four-year college or any student interested in working in the arts. The course is an introduction to three-dimensional sculptural principles, techniques, and concepts utilizing a wide range of materials and practices. Various sculpture methods are practiced with attention to creative self-expression and historical context.
3 Units
36 Lecture hours
72 Lab hours

ART 150
Beginning Printmaking
Advisory: ENGL 030 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; ART 121; ART 130
Transfers to: UC, CSU
This course is an introduction to the art of printmaking suitable for studio art majors transferring to a four-year college or any student interested in working in the arts. This course is an introduction to the basic materials, equipment, and processes of printmaking, including relief (linocut and woodcut), intaglio (drypoint, etching, and collagraph), planography (lithography and monotype), and stencil (screenprint).
3 Units
36 Lecture hours
72 Lab hours
ART 151
Intermediate Printmaking
Prerequisite: ART 150
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This is a second semester course for the art and non-art major in the continued study of intaglio and relief fine art printmaking processes. This course will expand upon techniques and skills students learned in Beginning Printmaking, ART 150 including color printing techniques as well as serigraphy printing. While stressing creativity and expression students will also learn the practice of creating an edition.
3 Units
36 Lecture hours
72 Lab hours

ART 160
Rendering and Illustration
Advisory: READ 022 or appropriate assessment; ART 130
Transfers to: UC, CSU
Intended for the student interested in developing skills in rendering and illustration, this course is a beginning course in illustration and rendering exploring both traditional and contemporary drawing techniques, stressing an ability to perceive and define shape, contour, volume, texture, space, and light both realistically as well as expressively using various media. Emphasis is on learning the techniques of illustration, understanding the use of color, while strengthening observation and rendering skills.
3 Units
36 Lecture hours
72 Lab hours

ART 161
Advanced Rendering and Illustration
Prerequisite: ART 160
Advisory: READ 022 or appropriate assessment; ART 130
Transfers to: CSU
Intended for the student interested in developing skills in rendering and illustration, this course is an advanced course in illustration and rendering exploring both traditional and contemporary drawing techniques while stressing an ability to perceive and define shape, contour, volume, texture, space, and light both realistically as well as expressively using various media. Emphasis is on learning the advanced techniques of illustration, understanding the use of color, while strengthening observation and rendering skills.
3 Units
36 Lecture hours
72 Lab hours

ART 170 (C-ID ARTS 250)
Introduction to Digital Painting
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; ART 120; ART 130; ART 135
Transfers to: UC, CSU
This course is designed for students majoring in the Visual Arts: including Fine Arts, Illustration, Animation, Graphic Art and any student interested in learning to use the computer as a tool for original image making. The course will survey traditional drawing and painting techniques using computer technologies such as software, drawing tablets, scanners and printers. Students will investigate the fundamental pictorial elements of line, shape, space, color, and texture as well as the formal relationship of these elements to produce original works of art while learning the technology, concepts, and practices of digital art production.
3 Units
27 Lecture hours
81 Lab hours

ART 175
Computer Graphics
Advisory: READ 022 or appropriate assessment
Transfers to: UC, CSU
This course is for the student interested in a degree in commercial art or any student interested in 2 dimensional paint and 3 dimensional modeling applications employed as tools by computer graphic artists. Topics covered will include the exploration of basic paint techniques as well as basic modeling, mapping, rendering and animation techniques as they relate to page and web design.
3 Units
36 Lecture hours
72 Lab hours

ART 180
Art Gallery Display Design
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is appropriate for all students interested in art, art exhibitions, museum studies, and cultural studies and is a combination studio and lecture course that provides students with creative experience in exhibition design and gallery installation. Topics include exhibition space planning, principles of color and design, art exhibition construction and lighting, and proper care and handling of art objects. Students are also given an introduction to the basic principles of art curating and gallery management. This course may be taken once and repeated three times for credit.
2 Units
18 Lecture hours
54 Lab hours

ART 185
Art Studio
Transfers to: UC, CSU
This course is designed to provide supervised studio study on an individual basis with various projects. Arranged: 4 hours lab. Offered on a pass-no pass basis.
1 Unit
72 Lab hours

ART 230 (C-ID ARTS 200)
Beginning Life Drawing
Prerequisite: ART 130
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This is a first semester course for art, animation, and non-art majors interested in developing the basic drawing skills of representing the human figure. As an introduction to observational figure drawing and composition, students will develop the ability to perceive and define the anatomy and structural organization of the human form in terms of expressive design and creative use of drawing media.
3 Units
36 Lecture hours
72 Lab hours

ART 231
Intermediate Life Drawing
Prerequisite: ART 230
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This is a second semester course for art, animation, and non-art majors interested in furthering their figure drawing skills. Working from a professional figure model, students will refine those skills learned in ART 230 and learn intermediate drawing skills, study human anatomy in greater detail, and extend their knowledge regarding the use of the figure in visual art. Emphasis is on clarity of observation and the ability to order and translate form and space on a two dimensional surface.
3 Units
36 Lecture hours
72 Lab hours

ART 232
Advanced Life Drawing
Prerequisite: ART 231 or ANIM 260
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This is a third semester course for art, animation, and non-art majors interested in furthering their figure drawing skills. Students will refine those skills learned in ART 231 or ANIM 260 and learn advanced drawing skills, study the human anatomy
ART 235
Freehand Drawing III
Prerequisite: ART 131
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC, CSU
This course is a third semester course in drawing and composition. More complex problems and a broader range of media including color will be utilized. Emphasis is on advancing observational skills and conceptual development through a range of subject matter, technical refinement and thematic development. Exploration of individual creative interpretation, process and intent in order to deepen the student's studio practice and investigation is stressed.
3 Units
36 Lecture hours
72 Lab hours

ART 233
Watercolor Painting
Prerequisite: ART 130
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC, CSU
This course is an introduction to various transparent watercolor techniques including wash and glazing. Applications of drawing, beginning painting, and design fundamentals to these techniques are included as well as the communicative element of content.
3 Units
36 Lecture hours
72 Lab hours

ART 235
Advanced Painting I
Prerequisite: ART 136
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This is a third semester course in painting for the art and non-art major. The course constitutes a study of advanced painting problems. Students will improve painting skills enhanced by supervised repetition and practice within class periods. Course content differs each time it is offered so it may be taken once and repeated three times for credit.
3 Units
36 Lecture hours
72 Lab hours

ART 236
Advanced Painting II
Prerequisite: ART 235
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This is a fourth semester course in painting for the art and non-art major. This course explores experimentation with traditional and contemporary methods of painting using the figure, still life, landscape, abstraction and non-objective imagery with an emphasis on continuing skill development and problem solving of interpretation, expression and conceptual issues in painting.
3 Units
36 Lecture hours
72 Lab hours

ART 242
Advanced Ceramics
Prerequisite: ART 141
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC, CSU
This is an advanced course in ceramics, open to all art and non-art majors. This class places a special emphasis on personal growth and aesthetics as well as increased proficiency on the potter's wheel. Students will investigate the concepts of management and expressive exploration of the unique characteristics of fired ceramics – both the opportunities and constraints presented in the processing of clay from a soft, plastic, fragile, impermanent substance into a hard, rigid, and completely metamorphosed material after drying and firing. It is a process that requires sensitivity to time and sequence, and demands critical informed technical management. An important aspect of the class will be having students evaluate their selection of type of clay, decorative techniques and final-firing process to achieve their desired finished results. Included in this course will be advanced problems-solving in forms, shapes, decorative techniques and glazing.
3 Units
36 Lecture hours
72 Lab hours

ART 252
Advanced Printmaking
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This is a third semester course for the art and non-art major in the continued study of intaglio and relief fine art printmaking processes. This course will expand upon techniques and skills students learned in Intermediate Printmaking, ART 151.
3 Units
36 Lecture hours
72 Lab hours

ART 290
Cooperative Work Experience/Internship for Visual Arts Related Fields
Advisory: ENGL 035 or ENLA 100 or appropriate assessment
Transfers to: UC
This course supports and reinforces on-the-job training in business, industrial, studio, non-profit and professional art organizations under supervision of a college instructor and is facilitated by the use of learning objectives. The student will be working in a skilled or professional level assignment in their area of vocational interest and will meet performance objectives related to instruction that are above and beyond the conditions of regular employment. This course is intended for students whose job is related to the field of visual arts and have completed or enrolled in the appropriate coursework. Instructor approval is required to remain in the class. “Contact the CWE office regarding re-enrollment procedures.”
1 to 4 Units
3 Lecture hours
60 to 300 Other hours

ART 299A
Directed Study in Art History
Advisory: ART 104 or 105 or 105H or 106 or 106H or 107 or 108 or 109 or 112 or 113 or 115
Transfers to: CSU
The course provides an opportunity for students to expand their studies in Art History beyond the classroom for students to expand their studies in Art History beyond the classroom by completing a project or an assignment arranged by agreement between the student and instructor. The student is required to contract with the instructor to determine the scope of the assignment and the unit value assigned for successful completion. Students must possess a 2.5 overall GPA, a 3.0 GPA in the discipline of study being requested, or receive an exception from the instructor. Students may take a maximum of 3 units of Directed Study within a discipline and 9 units college-wide.
1 to 3 Units
54 to 162 Lab hours
ART 299C
Directed Study in Ceramics
Prerequisite: ART 141
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: CSU
The course provides an opportunity for the student to expand their studies in ceramics beyond the classroom by completing a project or an assignment arranged by agreement between the student and instructor. The student is required to contract with the instructor to determine the scope of the assignment and the unit value assigned for successful completion. ASSOCIATE DEGREE NURSING
Division of Health Science & Nursing

ADN 075
LVN Transition into the Associate Degree Nursing Program
Prerequisite: Acceptance into Nursing Program and Current LVN License
Advisory: READ 023 or appropriate assessment; MATH 070 or MATH 070D or MATH 073 or appropriate assessment
This short-term course provides an overview of the Associate Degree Nursing Program. The focus is on successful learning strategies and the development of critical thinking skills. An overview of the Systems
Developmental Stress Model is included as a framework for the nursing process and the Associate Degree Nursing Curriculum. Also included is an in depth study of the nursing process including physical assessment, nursing diagnosis, interventions and evaluations. The nursing skills required for physical assessment and basic patient care will be presented. This course is open to all career ladder LVN and 30 Units option students entering the second year of the Associate Degree Nursing Program.

2.5 Units
36 Lecture hours
27 Lab hours

ADN 150
Medical/Surgical Nursing I
Prerequisite: ADN 151, BIOL 222, and ENGL 101 all with a grade of “C” or better; ADN 151L with a “Pass”
Corequisite: ADN 150L and ADN 154
Advisory: READ 023 or appropriate assessment
Transfers to: CSU

This course focuses on the application of the nursing process for patients with disturbances in the digestive and renal systems, fluid and electrolyte status and acid/base balance, endocrine, cardiovascular and respiratory systems. The pathophysiology of disease processes, as well as medical and nursing interventions, is discussed. This course is designed for students in the Associate Degree Nursing Program. The Board of Registered Nursing requires that students must be concurrently enrolled in both ADN 150 and ADN 150L, and pass both courses together. They cannot be taken individually for credit.

4 Units
72 Lecture hours

ADN 150L
Medical/Surgical Nursing I Lab
Prerequisite: ADN 151, BIOL 222, and ENGL 101 all with a grade of “C” or better; ADN 151L with a “Pass”
Corequisite: ADN 150 and ADN 154
Advisory: AND 151
Transfers to: CSU

This course focuses on the application of the nursing process in caring for patients with disturbances in the digestive and renal systems, fluid and electrolyte status and acid/base balance, endocrine, cardiovascular and respiratory systems. The pathophysiology of disease processes, as well as medical and nursing interventions, is discussed. The students will apply the theoretical concepts in the clinical setting. This course is designed for students in the Associate Degree Nursing Program. The Board of Registered Nursing requires that students must be concurrently enrolled in both ADN 150 and ADN 150L, and pass both courses together. They cannot be taken individually for credit.

4 Units
216 Lab hours

ADN 151
Clinical Nursing Concepts
Prerequisite: BIOL 125, BIOL 222, BIOL 226 and ENGL 101 all with a grade of “C” or better
Corequisite: ADN 151L
Advisory: READ 023 or appropriate assessment
Transfers to: CSU

This is an introductory course in basic clinical nursing concepts. The student will be introduced to a theoretical framework for nursing practice including the nursing process, the conceptual model used in the Associate Degree Nursing Program and QSEN. Concepts related to therapeutic communication; legal and ethical issues, documentation and safety are included. In addition, concepts related to assessment, nursing interventions and individualization of patient care will be presented. The Board of Registered Nursing requires that students must be concurrently enrolled in both ADN 151 and ADN 151L, and pass both courses together. They cannot be taken individually for credit.

2 Units
36 Lecture hours

ADN 151L
Clinical Nursing Concepts Lab
Prerequisite: BIOL 125, BIOL 222, BIOL 226 and ENGL 101 all with a grade of “C” or better
Corequisite: AND 151
Advisory: READ 023 or appropriate assessment
Transfers to: CSU

This is an introductory laboratory and clinical course designed to familiarize the student with the nursing process and its application to patient care. Principles and techniques for nursing skills will be introduced in order to provide the student with the opportunity to demonstrate mastery of those skills and subsequently the ability to function safely and appropriately in the laboratory and clinical setting. The Board of Registered Nursing requires that students must be concurrently enrolled in both ADN 151 and ADN 151L, and pass both courses together. They cannot be taken individually for credit.

2 Units
108 Lab hours

ADN 154
Pharmacology
Prerequisite: ADN 151 with a grade of “C” or better
Corequisite: ADN 150 and ADN 150L
Advisory: READ 023 or appropriate assessment
Transfers to: CSU

This is an introduction pharmacology course that focuses on the study of drugs most frequently prescribed. The course emphasis is on basic techniques and computations used in the administration of medications as well as the special nursing considerations that pertain to the safe administration of medication. Completion of this course allows the Associate Degree Nursing student to safely administer medication to patients under the supervision of the nursing instructor.

2 Units
27 Lecture hours
27 Lab hours

ADN 155
Nursing Process: Childbearing Family/ Women’s Health
Prerequisite: ADN 150, ADN 151, and ADN 154 all with a grade of “C” or better; ADN 150L and ADN 151L both with a “Pass”
Corequisite: ADN 155L
Advisory: READ 023 or appropriate assessment
Transfers to: CSU

This course is designed for the Associate Degree Nursing student. It focuses on the biological, intrapersonal/interpersonal and developmental aspects of human reproduction. The nursing process is utilized in meeting maternal, newborn, and family needs as they relate to human reproduction. This course also focuses on women’s health issues with regard to fertility, family planning, gynecological problems and related needs, and the utilization of the nursing process to meet those needs. The Board of Registered Nursing requires that students must be concurrently enrolled in both ADN 155 and ADN 155L, and pass both courses together. They cannot be taken individually for credit.

2 Units
36 Lecture hours

2017-2018 Catalog
clinical practice and enhance their cultural sensitivity to the diverse population served. Development of patient teaching skills is emphasized. The nursing process is integrated throughout the clinical experience. The students will be able to apply the theoretical concepts learned in theory in the clinical setting. This course is designed for students in the Associate Degree Nursing Program. The Board of Registered Nursing requires that students be concurrently enrolled in both ADN 156 and ADN 156L, and pass both courses together. They cannot be taken individually for credit.

2 Units
108 Lab hours

ADN 156L
Nursing Process Applied to the Care of Children Lab
Prerequisite: ADN 150 and ADN 154 both with a grade of “C” or better; ADN 150L with a “Pass”
Corequisite: ADN 156
Advisory: READ 023 or appropriate assessment
Transfers to: CSU
This course focuses on the application of the nursing process in caring for children. Emphasis is placed on normal growth and development patterns of the growing child and developmental, biological, interpersonal and intrapersonal stressors affecting children and their families. The pathophysiology of disease process that may occur during childhood and related medical and nursing interventions are discussed. This course is designed for students in the Associate Degree Nursing Program. The Board of Registered Nursing requires that students must be concurrently enrolled in both ADN 156 and ADN 156L, and pass both courses together. They cannot be taken individually for credit.

2 Units
36 Lecture hours

ADN 250
Advanced Pharmacology
Prerequisite: ADN 155 and ADN 156 (for generic ADN students) with a grade “C” or better; ADN 075 (for LVN to ADN students) with a grade “C” or better
Advisory: ENGL 101; READ 023 or appropriate assessment; MATH 070 or MATH 070D or MATH 073 or appropriate assessment
Transfers to: CSU
This is an advanced pharmacology course that focuses on the skills and study of medications used for neurological, psychiatric, and medical-surgical concepts. The course emphasis is on advanced techniques and computations used in the administration of medications utilizing the nursing process and the Systems Developmental Stress Model, as well as the special nursing considerations that pertain to the safe administration of medication. Study of this course allows the Associate Degree Nursing student to continue to safely administer medications to patients.

1 Unit
18 Lecture hours

ADN 251
Medical/Surgical Nursing II
Prerequisite: ADN 155 and ADN 156 (for generic ADN students) both with a grade of “C” or better; ADN 155L and ADN 156L both with a “Pass” (for generic ADN students); ADN 075 (for LVN to ADN students) with a grade of “C” or better
Corequisite: ADN 252 and ADN 252L (students who have an active Psychiatric Technician license are exempt from ADN 252 and ADN 252L corequisites); ADN 250 and ADN 251
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course focuses on the aging process as it relates to normal aging, changing biological, interpersonal and intrapersonal needs. It also focuses on the application of the nursing process in caring for patients with disturbances in perception, coordination and mobility. The pathophysiology of disease processes, as well as medical and nursing interventions and rehabilitative approaches to restoring and maintaining optimum health are discussed. This course is designed for students in the Associate Degree Nursing Program. The Board of Registered Nursing requires that students must be concurrently enrolled in both ADN 251 and ADN 251L, and pass both courses together. They cannot be taken individually for credit.

2.5 Units
136 Lab hours

ADN 252
Psychiatric/Mental Health Nursing
Prerequisite: ADN 155 and ADN 156 both with a grade of “C” or better; ADN 155L and ADN 156L both with a grade of “Pass”; OR ADN 075 and active California Vocational Nursing License
Corequisite: ADN 252L
Advisory: READ 023 or appropriate assessment
Transfers to: CSU
This course focuses on application of the nursing process as a problem solving approach to assessment, problem identification and intervention for patients with psychiatric conditions.
and mental health problems. Basic concepts related to biological, intrapersonal and interpersonal factors in mental health and mental illness are discussed. This course is designed for students in the Associate Degree Nursing Program. The Board of Registered Nursing requires that students must be concurrently enrolled in both ADN 252 and ADN 252L, and pass both courses together. They cannot be taken individually for credit.

2 Units 36 Lecture hours

ADN 252L Psychiatric/Mental Health Nursing Lab

Prerequisite: ADN 155 and ADN 156 both with a grade of “C” or better; ADN 155L and ADN 156L both with a “Pass”; OR ADN 073 and active California Vocational Nursing License
Corequisite: ADN 252
Transfers to: CSU
This course focuses on application of the nursing process as a problem solving approach to assessment, problem identification and intervention for patients with psychiatric and mental health problems. Basic concepts related to biological, intrapersonal and interpersonal factors in mental health and mental illness are discussed. This course is designed for students in the Associate Degree Nursing Program. The Board of Registered Nursing requires that students must be concurrently enrolled in both ADN 252 and ADN 252L, and pass both courses together. They cannot be taken individually for credit.

1.5 Units 81 Lab hours

ADN 253 Medical/Surgical Nursing III

Prerequisite: ADN 250, ADN 251 and ADN 252 all with a grade of “C” or better; ADN 250L, ADN 251L and ADN 252L all with a “Pass”
Corequisite: ADN 253L
Transfers to: CSU
This course focuses on the nursing process with patients requiring complex nursing care. The course emphasizes generalized emergencies, immunologic problems and oncologic problems. The course integrates all past nursing theory to assist the nursing student with advanced nursing concepts. The students will apply the theoretical concepts in the clinical setting. This course is designed for students in the Associate Degree Nursing Program. The Board of Registered Nursing requires that students must be concurrently enrolled in both ADN 253 and ADN 253L, and pass both courses together. They cannot be taken individually for credit.

1.5 Units 36 Lecture hours

ADN 253L Medical/Surgical Nursing III Lab

Prerequisite: ADN 250, ADN 251 and ADN 252 all with a grade of “C” or better; ADN 251L and ADN 252L all with a “Pass”
Corequisite: ADN 253
Transfers to: CSU
This course focuses on the nursing process with patients requiring complex nursing care. The course emphasizes generalized emergencies, immunologic problems and oncologic problems. This course is designed for students in the Associate Degree Nursing Program. The Board of Registered Nursing requires that students must be concurrently enrolled in both ADN 253 and ADN 253L, and pass both courses together. They cannot be taken individually for credit.

2.5 Units 135 Lab hours

ADN 254 Leadership and Management in Nursing

Prerequisite: ADN 253 with grade of “C” or better; ADN 253L with a “Pass”
Corequisite: ADN 254L
Transfers to: CSU
This course focuses on principles of leadership and management as well as current trends in nursing practice. The legal and ethical responsibilities of the professional nurse will be discussed as well as the specific skills and attributes needed as students’ transition to nursing practice as a member of a team. Methods to maintain professional competence and advancement in the profession will be explored. This course is designed for students in the Associate Degree Nursing Program. The Board of Registered Nursing requires that students must be concurrently enrolled in both ADN 254 and ADN 254L, and pass both courses together. They cannot be taken individually for credit.

1.5 Units 36 Lecture hours

ADN 254L Leadership and Management in Nursing Lab

Prerequisite: ADN 253 with a grade of “C” or better; ADN 253L with a “Pass”
Corequisite: ADN 254
Transfers to: CSU
This course focuses on the application of theories and principles of leadership and management. Students will apply theory content while working in a clinical preceptorship, providing care under the guidance of an RN preceptor. The Board of Registered Nursing requires that students must be concurrently enrolled in both ADN 254 and ADN 254L, and pass both courses together. They cannot be taken individually for credit.

2.5 Units 135 Lab hours

ADN 290 Cooperative Work Experience/Internship for Nursing Related Fields

Prerequisite: ADN 154, ADN 155, ADN 156 or equivalent
Advisory: ENGL 035 or ENLA 100 or appropriate assessment
Transfers to: CSU
This course supports and reinforces on-the-job training in health care institutions under supervision of a college instructor and is facilitated by the use of learning objectives. The student will be working in a skilled or professional level assignment in their area of vocational interest and will meet performance objectives related to instruction that are above and beyond the conditions of regular employment. This course is intended for second year nursing students currently enrolled in Rio Hondo’s nursing program and have completed the appropriate coursework. “Contact the CWE office regarding re-enrollment procedures.”

Student Unpaid Internship:
1 Unit/60 hours; 2 Units/120 hours;
3 Units/180 hours; 4 Units/240 hours
Student Paid Internship:
1 Unit/75 hours; 2 Units/150 hours;
3 Units/225 hours; 4 Units/300 hours.
1 to 4 Units 3 Lecture hours
60 to 300 Other hours

ASTRONOMY

Division of Mathematics & Sciences

ASTR 110 General Astronomy

Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC
(“Students will receive credit from UC for only one of the following courses: ASTR 110 or ASTR 110H”)
This course is designed to develop an appreciation of astronomy and a broad cosmic perspective. The emphasis is on the current state of knowledge of our solar system, our galaxy, and the universe. Topics on the frontier of astronomical knowledge such as black holes and the search for extraterrestrial life will be explored. This course is designed for those with an interest in
**General Astronomy Honors**

Prerequisite: ENGL 101 with a grade of “C” or better
Advisory: READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*Students will receive credit from UC for only one of the following courses: ASTR 110 or ASTR 110H)

This course is designed to develop an appreciation of astronomy and a broad cosmic perspective. The emphasis of the course is on the current state of knowledge of our solar system, galaxy, and the universe. Topics on the frontier of astronomical knowledge such as black holes and the search for extraterrestrial life will be explored. This course is designed for those with an interest in astronomy or anyone who desires to expand their cosmic horizons.

3 Units

**Astronomy Field Studies**

Prerequisite: ASTR 110
Transfers to: CSU

This is an observational course designed for students who wish to study celestial objects and observe celestial motions in clear, dark skies through field investigations. Students will develop the skill required to operate portable telescopes in their investigations of stars, constellations, planets, nebulae, multiple star systems, the moon, the sun, and the Milky Way. Visual observations of meteors will be conducted nightly. This course is designed for those who wish to learn night skies and the observational tools of the astronomer. Area of study will include, but will not be limited to, campsites in National Monuments and Parks in the southwestern United States.

1 to 2 Units
9 to 18 Lecture hours
27 to 54 Lab hours

**Astronomy Field Studies**

Prerequisite/Corequisite: ASTR 110 with a grade of “C” or better
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*Students will receive credit from UC for only one of the following courses: ASTR 110 or ASTR 110H)

This course is designed to develop an appreciation of astronomy and a broad cosmic perspective. The emphasis of the course is on the current state of knowledge of our solar system, galaxy, and the universe. Topics on the frontier of astronomical knowledge such as black holes and the search for extraterrestrial life will be explored. The emphasis of the course is on the current state of knowledge of our solar system, galaxy, and the universe. Topics on the frontier of astronomical knowledge such as black holes and the search for extraterrestrial life will be explored. This course is designed for those with an interest in astronomy or anyone who desires to expand their cosmic horizons.

3 Units
AUTO 046
Honda/Acura Automatic Transmission Systems

Corequisite: AUTO 125
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

This course provides instruction relating to specific automatic transmission internal operation: drive, driven, and holding components, along with fluid pressures and sensor voltages. Students will engage in activities using special Honda diagnostic equipment to research automatic transmission topics from the Honda Interactive Training Network (HINT). Students will also participate in instructor lead demonstrations and interactive classroom assignments. Course completion shall include finishing all required HINT course training modules and proof of module posting on American Honda’s Dealer Personal Tracking System (DPTS). The course is a requirement for the Honda/Acura Professional Career Training Program (PACT Program) Powertrain and Transmission Systems Certificate of Achievement and is in partial fulfillment of the Honda PACT A5 degree.

4 Units
72 Lecture hours

AUTO 065
Smog Technician Diagnostic and Repair Procedures

Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

This course is designed to provide the student with the ability to satisfy the Bureau of Automotive Repair (BAR) Smog Check Technician training requirement of successfully completing the Specified Diagnostic and Repair Training Course when applying for the California Smog Check Technician licensing examination. Course content includes diagnostic and repair strategies in Electrical and Electronic Systems, Engine Performance, and Advanced Engine Performance. This course is also intended for the student as a test preparation course for the Automotive Service Excellence (ASE) A6, A8, and L1 certification exams. Upon successful completion of this course, the student will receive a certificate of completion from the Rio Hondo Automotive Technology Department. Students, with permission from the Division, may re-enroll only one time for certification or licensure standards.

3 Units
45 Lecture hours
27 Lab hours

AUTO 101
Introduction to Automotive Service and Repair: Underhood Service

Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU

This is an introductory course designed to provide the student with the fundamentals of operation of the various systems of Honda and Acura vehicles. Students will learn basic automotive tool and equipment use and how to safely perform many basic repair and maintenance operations. Students will learn using Honda and Acura vehicles, and school provided units and automotive component parts. All completed work will be reported on American Honda’s Dealer Personal Tracking System (DPTS). This course is part of American Honda’s Professional Automotive Career Training (PACT) program.

3 Units
45 Lecture hours
27 Lab hours

AUTO 106
Automotive Electrical Tools and Diagnostic Procedures

Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU

This is an introductory course designed to provide the student with the fundamentals of the electrical systems of the modern automobile.
Emphasis will be placed on electrical fundamentals, symbols and circuit diagrams, batteries, starting, charging, ignition, and lighting systems. Students will learn the proper use of automotive electrical tools and equipment, and how to safely perform basic vehicle electrical repair and maintenance operations. Students will have the opportunity to perform minor repair work on their own vehicles to complete required tasks. This course is designed to be a companion course to AUTO 101 and AUTO 103, and is one of the three prerequisite courses for AUTO 107. Students are encouraged to complete all three courses in order to obtain a firm foundation in this subject, and it is required for the General Service Technician Certificate Program.

3 Units
45 Lecture hours
27 Lab hours

AUTO 107
Introduction to Automotive Light Service
Prerequisite: AUTO 101, AUTO 103, and AUTO 106
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This is an introductory course to provide students with working knowledge of light duty service. Students will learn underhood and undercar systems service, battery and basic electrical system, pre-delivery inspection procedures, and preventative maintenance operations. Emphasis will be placed on the safe operation of light-duty service tools and equipment, and general repair procedures of wheels and tires, suspension & steering components, engine & transmission components, engine & vehicle electrical components, and brake system components. This course offers further practice and more experience in the subjects taught in three other introduction courses (AUTO 101, AUTO 103, & AUTO 106).

3 Units
45 Lecture hours
27 Lab hours

AUTO 108
Introduction to Automotive Diesel Service & Operation
Prerequisite: AUTO 101
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This beginning course introduces students to the field of diesel powered passenger cars theory of operation and general service procedures. This course covers the principals of operation, fuel systems, electrical, exhaust systems, and controls. This course is for the beginning student, general technicians and emission control (smog) technicians interested in automotive diesel technology.

3 Units
54 Lecture hours

AUTO 110
Introduction to Engine Diagnosis and Tune-Up
Prerequisite: AUTO 101
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This is an introductory study of automotive diagnosis and tune-up procedures as they pertain to the function and control of the engine, fuel, ignition, starting, and charging systems. This course is first in a series of Engine Diagnosis and Tune-Up classes, and is designed for the student who wants to enter the field of Tune-Up, Driveability, and Emissions.

3 Units
45 Lecture hours
27 Lab hours

AUTO 115
Computerized Engine Controls and Diagnostics
Prerequisite: AUTO 106
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed to provide the student with an introduction to the ASE L1 Advanced Engine Performance “Composite Vehicle” by the use of simulator boards and computer-based training methods. This is an introductory study of computerized engine controls and diagnosis as it pertains to the function and control of the engine, fuel, ignition, and emission control systems. Emphasis will be placed upon system components and their operational characteristics. Basic troubleshooting techniques of the engine, fuel, ignition, and emission control systems will be demonstrated.

3 Units
54 Lecture hours

AUTO 118
Light Duty Vehicle Diesel Fuel Systems & Emission Control Diagnostics
Prerequisite: AUTO 101
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; AUTO 108
Transfers to: CSU
This course is designed to strengthen existing student skills in the field of diagnosing Light Duty Vehicle diesel fuel systems and related driveability and emission control concerns. This course is also for emission control (smog) technicians desiring to take and pass the ASE A9 Light Vehicle Diesel Engines certification exam covering advanced auto/truck diesel technology. Course content includes an advanced study emphasizing the latest theories and principles and troubleshooting procedures of late-model vehicle diesel fuel systems. Emphasis will be placed on advanced diesel engine diagnosis and repair, and diesel engine air, fuel, and emission systems diagnosis and repair. The use of a variety of modern diagnostic tools and equipment is included. Students, with permission from the Division, may re-enroll only one time for certification or licensure standards.

3 Units
45 Lecture hours
27 Lab hours

AUTO 120
Engine Tune-Up/Performance
Prerequisite: AUTO 101
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; AUTO 110; AUTO 115
Transfers to: CSU
This course is designed to strengthen the student knowledge of modern automotive fuel and ignition systems and the functional knowledge of system components. The class is structured to provide ‘hands-on’ diagnostic experience in system failure analysis, troubleshooting of components utilizing modern service repair techniques. Emphasis is placed on electronic diagnosis using Scan Tools, DVOM, Digital Volt Ohm Meters, Lab Scopes, Exhaust Analyzers, information retrieval systems and diagnostic flow charts.

4 Units
54 Lecture hours

AUTO 125
Power Train System Service and Transmission Diagnostics
Prerequisite: AUTO 102 or AUTO 103
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course in power train service and light repair addresses topics in Manual Transmissions, Automatic Transmissions/ Transaxles, Differentials, Clutches and Drive shafts. Emphasis will be placed on correct procedures for sustaining transmission service life, identifying service intervals for prolonging component life, procedures for proper transmission removal and reinstallation and inspection of components. Students will be informed to specific power train related faults, how problems are diagnosed, and protocol for updat-
Fundamentals
Course: Engine and Emission Control
Level-I Smog Technician Training
AUTO 128

54 Lecture hours
54 Lab hours

AUTO 128
Fuel Injection Systems I
Prequisite: AUTO 106
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; AUTO 110
Transfers to: CSU

This course is designed to provide the student with the fundamentals of pre-OBD-II Engine Management Systems related to fuel injected vehicles. Students will learn how to use specific tools and equipment, and how to safely perform basic repair and maintenance operations. Emphasis will be placed upon the history and evolution of fuel injection and engine management systems used on vehicles from the late 1960's to 1995. Service Information Systems, Electrical Circuits, Symbols & Circuit Diagrams, and other related topics will be discussed. This course requires the student to have a solid background regarding the technical knowledge of basic Gasoline Engine Fuel and Ignition Systems as a prerequisite, and is required for the Automotive Electrical, Fuel & Safety Systems Certificate Program.

3 Units
54 Lecture hours

AUTO 130
Level-I Smog Technician Training Course: Engine and Emission Control Fundamentals
Prequisite: AUTO 106
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; AUTO 065
Transfers to: CSU

This course is designed to provide the student with the ability to satisfy the Bureau of Automotive Repair (BAR) Smog Check Technician training requirement of successfully completing the Level-I Smog Technician Training Course when applying for the California Smog Check Technician licensing examination. Course content includes Engine Theory, Design and Operation, Ignition Systems, Fuel Systems, Engine Management Systems, and Emission Control Systems. Emphasis is placed on proper engine diagnostic procedures and On-Board Diagnostic Systems (OBD-I and OBD-II). Lab activities focus on the use of testing equipment, scan tools, digital scopes and meters, as well as inspection and repair procedures of vehicles that fail the Smog Test. Upon successful completion of this course, the student will receive a certificate of completion from the Rio Hondo Automotive Technology Department. Students with permission from the Division may re-enroll only one time for certification or licensure standards.

3 Units
45 Lecture hours
27 Lab hours

AUTO 135
Level-II Smog Technician Training Course: Smog Check Inspection Procedures
Prequisite: AUTO 106
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; AUTO 130
Transfers to: CSU

This course is designed to provide the student with the ability to satisfy the Bureau of Automotive Repair (BAR) Smog Check Technician training requirement of successfully completing the Level-II Smog Technician Training Course when applying for the California Smog Check Technician licensing examination. Course content includes Customer Awareness, Program Administration, Equipment Maintenance, Inspection and Testing Procedures, and Pass/Fail Reports. Emphasis is placed on the practical application of the loaded and non-loaded modes of emissions testing. Lab activities focus on vehicle identification, visual and functional inspections, calibration of testing equipment, as well as performing complete smog checks inspections of vehicles. Upon successful completion of this course, the student will receive a certificate of completion from the Rio Hondo Automotive Technology Department. Students with permission from the Division may re-enroll only one time for certification or licensure standards.

3 Units
45 Lecture hours
27 Lab hours

AUTO 138
Fuel Injection Systems II
Prequisite: AUTO 106
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; AUTO 110
Transfers to: CSU

This course is designed to provide the student with the fundamentals of post-OBD-II Engine Management Systems related to fuel injected vehicles. Students will learn how to use specific tools and equipment, and how to safely perform basic repair and maintenance operations. Emphasis will be placed upon the history and evolution of fuel injection and engine management systems used on vehicles from 1996 to the present. Service Information Systems, Electrical Circuits, Symbols & Circuit Diagrams, and other related topics will be discussed. This course requires the student to have a solid background regarding the technical knowledge of basic Gasoline Engine Fuel and Ignition Systems as a prerequisite, and is required for the Automotive Electrical, Fuel & Safety Systems Certificate Program.

3 Units
54 Lecture hours

AUTO 140
Body and Chassis Electrical Systems
Prequisite: AUTO 102 or AUTO 106
Advisory: READ 023 or appropriate assessment; AUTO 157
Transfers to: CSU

This course provides an overview of the modern automobile’s electrical system as related to the body and chassis of the vehicle. The theory of operation, operational characteristics and methods of problem diagnostics and repair for the following systems are included: lighting, instruments, windshield wipers, power windows/seats/mirrors, audio systems, convertible tops, safety restraints, (SRS) Supplemental Restraint Systems, and anti-theft systems. This course prepares the student for the (ASE) Automotive service Excellence A-6 exam and is intended for Automotive majors. Students with permission from the Division may re-enroll only one time for certification or licensure standards.

4 Units
54 Lecture hours
54 Lab hours

AUTO 141
Alternative Fuels I
Prequisite: AUTO 102 or AUTO 106
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment
Transfers to: CSU

This is an introductory course on alternative fuels as they pertain to use in modern vehicles. Various alternative fuels will be compared, such as Compressed Natural Gas (CNG), Liquefied Natural Gas (LNG), Hydrogen, Bio- Fuel, LPG, etc. The theory of operation, system components, and the safe handling of these fuels are included. Students will develop skills in the area of vehicle preparation, system component identification, and repair procedures related to vehicles using alternative fuels. This course is designed for students and technicians working on stationary power engines, transportation and clean fuels seeking to improve skills related to the maintenance and repair
of gaseous fuels. This course provides students with ASE F1 or H1 test prep information.

3 Units
45 Lecture hours
27 Lab hours

AUTO 142
Alternative Fuels II
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment; AUTO 141
Transfers to: CSU
This is the second course on alternative fuel systems used to power modern vehicles. Emphasis will be placed on installation, diagnostic procedures, laptop computers, and computer monitoring of Compressed Natural gas (CNG), and Liquid Natural Gas (LNG) systems. The application of other alternative fuels such as Hydrogen, LPG, Bio Fuels, etc will also be covered. Students will also develop skills that interface with modern technology computer based control systems. SAE and CAN network systems will also be covered. This course is designed for the experienced technician working in the field of stationary power engines, transportation and clean energy fuels seeking to improve skills related to the installation and repair of gaseous fuels.

4 Units
54 Lecture hours
54 Lab hours

AUTO 147 (C-ID ALTF 100X)
Introduction to Hybrid and Electric Vehicle Technology
Prerequisite: AUTO 157
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment
Transfers to: CSU
This course explores the use of Hybrid and Electric power for vehicle transportation. Topics will include: safety when using high voltage, maintenance, drivability, inverter power transfer, battery technologies, hydrogen electric power, and fuel cell technology. Physics of battery storage, Hybrid generation systems, Electric vehicle applications and their integrated systems from many manufacturers will be discussed. This course is suitable for student’s entering into alternative fuels or power generation and energy technology field. This course is a required course for the Alternative Fuels Certificate and Degree.

3 Units
45 Lecture hours
27 Lab hours

AUTO 148
Vehicle Safety, Comfort and Convenience Systems
Prerequisite: AUTO 106
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfer to: CSU
This course is designed to provide the student with the fundamentals of Automotive Safety, Comfort and Convenience Systems related to the modern automobile. Students will learn how to use specific tools and equipment, and how to safely perform basic repair and maintenance operations. Emphasis will be placed upon the SRS Airbag Restraint Systems, ABS and Traction Control Systems, AC and Heating Systems, Lighting Systems, and Theft-deterrent Systems. Service Information Systems, Electrical Circuits, Symbols & Circuit Diagrams, and other related topics will be discussed. This course requires the student to have a solid background regarding the technical knowledge of basic Gasoline Engine Fuel and Ignition Systems. This course is designed for all automotive majors with a background in advanced emission repair.

3 Units
45 Lecture hours
27 Lab hours

AUTO 150
Engine Electrical Systems
Prerequisite: AUTO 102 or AUTO 106
Advisory: AUTO 115
Transfers to: CSU
This course discusses the modern automobile’s electrical system as related to the engine and various engine related systems. The theory of operation, operational characteristics and methods of problem diagnosis and repair for the following systems are included; electronic ignition systems, electronic fuel injection, engine management, emission control, charging, cooling and starting. This course prepares the student for the (ASE) Automotive Service Excellence; A-8 Engine Performance Exam and is intended for Automotive majors. Students with permission from the Division may re-enroll only one time for certification and licensure standards.

4 Units
54 Lecture hours
54 Lab hours

AUTO 155
Automotive On-Board Diagnostics Generations One and Two (OBD I and OBD II)
Prerequisite: AUTO 101
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; AUTO 106; AUTO 120
Transfers to: CSU
This course will provide students with the fundamentals of Automotive On-Board Diagnostics, Generations One and Two (OBD-I and OBD-II). Students will discuss the history, regulations, vocabulary, and diagnostic strategies of OBD-I and OBD-II equipped vehicles. Topics of discussion include Safety, Service Information Systems, Electrical Circuits, Symbols & Circuit Diagrams, and other Fuel & Ignition-related subjects. This course requires the student to have a solid background regarding the technical knowledge of basic Gasoline Engine Fuel and Ignition Systems. This course is designed for all automotive majors with a background in advanced emission repair.

3 Units
45 Lecture hours
27 Lab hours

AUTO 157
Automotive Specialized Electronics Training
Prerequisite: AUTO 106
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course provides an overview of the principles of automotive electronics. Topics covered include electrical theory, fundamentals of circuit construction, computers, semiconductors, microprocessors, integrated circuits (IC), types of output signals, wire repair techniques, meter usage and strategy based diagnostics. A demonstration General Motors circuit board will be used to illustrate circuit board function. This course is designed for entry level technicians or students who need an understanding of the basics of automotive electronics.

4 Units
72 Lecture hours

AUTO 160
Upper End Engine Rebuilding and Machining
Prerequisite: AUTO 101 or AUTO 102
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course provides occupational preparation in the skills required in the adjustment and repair of the modern automobile engine upper end and valve train assembly. Emphasis is placed on problem diagnosis, repair techniques, service procedures, and machining operations. This course prepares the student for the (ASE) Automotive Service Excellence A-1 exam and is intended for automotive majors. Students with permission
from the Division may re-enroll only one time for certification or licensure standards.

4 Units
54 Lecture hours
54 Lab hours

AUTO 170
Lower End Engine Rebuilding and Machining
Prerequisite: AUTO 101
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; AUTO 160
Transfers to: CSU
This course provides occupational preparation in the skills required for adjustment and repair of modern automobile engine lower end assembly. Emphasis is placed on problem diagnosis, repair techniques, service procedures, and machining operations. This course prepares students for the Automotive Service Excellence (ASE) A-1 exam and is intended for automotive majors.

4 Units
54 Lecture hours
54 Lab hours

AUTO 180
Advanced Automotive Diagnostic Procedures and Practices
Prerequisite: AUTO 101
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed to strengthen existing student skills in the field of modern automotive technology, service, and repair. Course content includes an advanced study emphasizing the latest theories and principles of automotive diagnosis and troubleshooting procedures. Emphasis will be placed on advanced powertrain and powertrain management systems, electronically controlled systems, and vehicle network systems diagnosis and repair. The use of a variety of modern diagnostic tools and equipment is included.

3 Units
45 Lecture hours
27 Lab hours

AUTO 190
Engine Blueprinting & Machining
Advisory: AUTO 160 or AUTO 170; READ 023 or appropriate assessment
Transfers to: CSU
This is an advanced course for students interested in engine blueprinting and engine machining practices. Topics include: cylinder block machining and preparation, cylinder head machining and repair, crankshaft materials and construction, connecting rod applications and machining, piston design and applications as well as camshaft lobe applications and profile analysis. Students must be proficient with basic precision instruments or have prior experience with engine machining or assembly practices. Emphasis will be placed upon engine blueprinting methods, machining operations and component applications.

3 Units
45 Lecture hours
27 Lab hours

AUTO 200
Suspension, Steering, and Alignment Service
Prerequisite: AUTO 103
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course discusses the principles of suspension, steering and wheel alignment for modern imported and domestic automobiles and light trucks. Emphasis is placed on developing skills required in the diagnosis, and/or repair and adjustment to steering systems and wheel alignment angles. Complete suspension and steering system overhaul will be covered in the laboratory. Computerized wheel alignment and computerized wheel balancing equipment will be used/demonstrated. This course is designed for students wanting to work in the automotive sector or automotive technicians needing to improve their skills and knowledge in suspension, steering and alignment. Students with permission from the Division may reenroll only one time for certification or licensure standards.

4 Units
54 Lecture hours
54 Lab hours

AUTO 210
Automotive Brake Systems
Prerequisite: AUTO 103
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course discusses modern disc and drum brake theory of operation, service and repair procedures, related tool and equipment use and strategies based on problem diagnosis. These procedures for imported and domestic automobiles and light trucks are developed through classroom discussions, demonstrations and laboratory experiences. This course is designed for students wanting to work in the automotive sector or automotive technicians needing to improve their skills and knowledge in Brake service. Students with permission from the Division may reenroll only one time for certification or licensure standards.

4 Units
54 Lecture hours
54 Lab hours

AUTO 211
Antilock Brakes/Traction Control Systems
Prerequisite: AUTO 103
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; AUTO 210
Transfers to: CSU
This course is designed for students wanting to work in the automotive sector or automotive technicians needing to improve their skills and knowledge in modern Anti-lock and/or Traction Control systems. This course will provide instruction in automotive anti-lock brake systems, traction control systems and vehicle stabilizing assist (VSA), including diagnosis, operation and maintenance of ABS/TCS/VSA. The course will include the use of scanners, DVOM meters and lab-scopes in diagnosis of various ABS/TCS/VSA systems; both 2 wheel and 4 wheel systems will be covered.

3 Units
54 Lecture hours

AUTO 220
Manual Drive Trains and Axles
Prerequisite: AUTO 103
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; AUTO 125
Transfers to: CSU
This course discusses modern manual transmissions, transaxles, drivelines, differentials, and 4WD/AWD systems theory of operation, methods of repair, service, equipment operation and techniques of problem diagnosis. Procedures for import and domestic vehicles are developed through classroom discussion, demonstrations and
laboratory experiences. This course prepares the student for the (ASE) Automotive Service Excellence A-3 Exam and is intended for automotive majors. Students with permission from the Division may re-enroll only one time for certification or licensure standards.

4 Units
54 Lecture hours
54 Lab hours

AUTO 230
Automatic Transmission/Transaxle
Prerequisite: AUTO 103
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; AUTO 125
Transfers to: CSU
This course is designed to provide instruction in Automatic Transmission/Transaxle systems. Included will be the application of friction materials, planetary gear components, hydraulic components; both hydraulically controlled and electronically controlled, fluid types and sealing materials. The student will achieve skill in diagnosis, removal, disassembly, reassembly and rebuilding transmission units to manufacturer’s specifications and learn part nomenclature and function. Students with permission from the Division may reenroll only one time for certification and licensure standards.

4 Units
54 Lecture hours
54 Lab hours

AUTO 240
Heating and Air Conditioning
Prerequisite: AUTO 102 or AUTO 103
Advisory: ENGL 035 or ENLA 100 or appropriate assessment, READ 023 or appropriate assessment
Transfers to: CSU
This course is designed to provide instruction in the operating principles of common automotive heating and air conditioning systems. Topics include new service equipment, contamination issues, servicing and diagnosing manual and automatic systems, and retrofitting R-12 systems to R-134a, as well as the rules of AQMD/EPA. Students will be given the opportunity to earn their certification license (EPA Rule 1411). Students with permission from the Division may enroll in this course only once for certification or licensure standards.

4 Units
54 Lecture hours
54 Lab hours

AUTO 256
Automotive Scantools and Vehicle Network Systems
Prerequisite: AUTO 106
Advisory: READ 023 or appropriate assessment; AUTO 150
Transfers to: CSU
This course is designed to enhance the student’s electrical and electronic diagnostic skills in both the automotive powertrain management spectrum. This course emphasizes an in-depth study of various automotive computer systems, vehicle communication network systems, as well as the latest Scantools available to help aid in diagnostics of these systems. Course content includes advanced electrical and electronic systems theory and diagnosis, OBD-I and OBD-II engine and transmission management systems diagnostics, and basic vehicle network systems diagnostics. The majority of the course content focuses on proper Scantool usage, including proper tool selection, updating software, identifying and using data streams, and understanding the numerous serial data protocols, including CAN data communications.

3 Units
54 Lecture hours

AUTO 260
Advanced Hybrid/Electric Vehicle
Prerequisite: AUTO 147
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment; AUTO 157
Transfer to: CSU
This course continues the study of the use and service of Hybrid Electronic generation and Plug-in Battery Electric power for vehicle transportation. The course is not for beginner technicians. Topics will include: OSHA/NEC/NFPA safety when using high voltage, vehicle maintenance, drivability conditions, inverter power transfer, battery storage technologies, regeneration of electrical power from kinetic energy, Level I, Level II, Level II battery charging and fuel cell technology. Dynamics of battery storage, Hybrid generation systems, Electric vehicle applications and their integrated systems from many manufacturers will be discussed. High-Voltage battery management systems including active/passive design to charging systems will be primary focus of this course. This course is for student’s working in the Hybrid and Electric vehicle, power engineering and technology field.

4 Units
54 Lecture hours
54 Lab hours

AUTO 265
Fuel Cell Technology Fundamentals
Prerequisite: 2.5 overall grade point average, a 3.0 grade point average in the discipline of study being requested, or receive an exception from the instructor
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; AUTO 103 or appropriate assessment
Transfer to: CSU
This course creates the fundamental learning process of the different types of fuel cells and the application for power generation for mobile, vehicular, and stationary power. Topics will include: OSHA/NEC/NFPA safety standards when developing, servicing and working in a high voltage/power inverter transfer, battery storage technologies, regeneration of electrical power from kinetic energy. A descriptive overview of key fuel cell technologies including proton exchange membrane (PEM), direct methanol fuel cell, and solid oxide fuel cell will be provided together with potential applications for transportation, stationary, and portable power. Hydrogen production/storage will also be covered.

4 Units

AUTO 300  
Assessment of the Automotive Industry  
Prerequisite: Enrollment requires an AS degree in Automotive Technology or similar field, and special approval from the program advisor  
Advisory: PHY 120, ENGL 201 or ENGL 201H, and MATH 130 or MATH 130H or MATH 160 (all with a grade of "C" or better)  
This course provides the Automotive Technology student with a detailed practical study of how to be successful in the Automotive Service, Parts, and Sales Industry. This is a practical study of current service, parts, and sales practices performed in dealerships and independent repair shops, while also discussing the review and preparation of the theory and skills necessary to successfully pass the Automotive Service Excellence (ASE) Exams relevant to Industry Standards. Topics include becoming efficient in the shop, mastering the various pay systems, understanding managers and owners, building customer loyalty, demonstrating workplace and social ethics, and making Customer Satisfaction Index (CSI) values work for all employees. In addition, vehicle engines, transmissions, brakes, suspension, air conditioning, and engine performance systems, parts, and components, and new and emerging technologies that support the service and repair of the modern automobile will be discussed. Emphasis will be placed upon the important tasks of proper repair procedures, the safe use of tools, equipment, technical data, and scan tools, as well as the ins-and-outs of the business of service, parts, and sales. Current Automotive Industry practices and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle After-Sales Field Operations Management spectrum.  
3 Units  
54 to 162 Lab hours  

AUTO 310  
The Global Development and Advancement of the Automobile  
Prerequisite: Enrollment requires an AS degree in Automotive Technology or similar field, and special approval from the program advisor  
Advisory: PHY 120, ENGL 201 or ENGL 201H, and MATH 130 or MATH 130H or MATH 160 (all with a grade of "C" or better)  
This course provides the Automotive Technology student with a detailed practical study of the development of the Automobile from its beginnings to the present day. This is a practical study of the invention of the first suitable power source to be adopted to self-propel a road vehicle and how it resulted in a major paradigm shift to revolutionize transportation and the ability of individual mobility. Topics include the development of animal-drawn transportation devices and the quest for a prime mover, the pioneering era of the automobile and how it lead to it being an industrial product, mass-production of the automobile and how it became a consumer product, and new and emerging technologies that support the automobile and motorized traffic and transportation systems. Emphasis will be placed upon the global perspective, particularly the developments that occurred in the United States, Europe, and Asia, and the numerous technological and business revolutions of the first and second half of the 20th-century. Current Automotive Industry practices and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle After-Sales Field Operations Management spectrum.

54 Lecture hours  

AUTO 320  
The Progressive Growth of Automotive Technology  
Prerequisite: Enrollment requires an AS degree in Automotive Technology or similar field, and special approval from the program advisor  
Advisory: PHY 120, ENGL 201 or ENGL 201H, and MATH 130 or MATH 130H or MATH 160 (all with a grade of "C" or better)  
This course provides the Automotive Technology student with a detailed practical study of the development of Automotive Technology from its beginnings to the present day, focusing on the basics and its long-term development. This is a practical and contextualized study of the importance of the automotive technologi-cal changes that have evolved from both engineering improvements and cultural changes. Topics include the development of vehicle layout and design, the needs and behaviors of drivers, producers, non-users, and other stakeholders, and the ever-changing computerized control of its systems and other emerging technologies. Emphasis will be placed upon the systematic overview of the mechanization and electrification of the automobile, not only as machines, but as a testimony of their important role in the way we live today. Current Automotive Industry practices and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle After-Sales Field Operations Management spectrum.

AUTO 350
Principles of Automotive Service Management
Prerequisite: AUTO 300, AUTO 310, AUTO 320, ENGL 201 or ENGL 201H, MATH 130 or MATH 130H, PHY 120, MGMT 146 (all with a grade of "C" or better)
Advisory: ENGL 325
This course provides the Automotive Technology student with a detailed practical study of the management of an automotive and/or transportation-related business. This is a practical and contextualized study of the importance of business practices of the automotive industry that have evolved from dealerships, franchises, and independently-owned service operations. Topics include an understanding of automotive business regulations in the areas of competition, labor laws, securities regulations, consumer protection, and environmental laws. Emphasis will be placed upon an overview of basic business structure, ownership, and various facilities, as well as service operations & management, financial & marketing issues, and customer/employee relations. Current Automotive Industry practices and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle Sales and Service Fixed Operations Management spectrum.

54 Lecture hours

AUTO 360
Analyzing Vehicle Fuels, Lubricants and Combustion
Prerequisite: AUTO 300, AUTO 310, AUTO 320, ENGL 201 or ENGL 201H, MATH 160, PHY 120 (all with a grade of "C" or better)
Advisory: ENGL 325
This course provides the Automotive Technology student with a detailed practical application of Fuels, Lubricants, and Combustion of the Modern Automobile. This is a realistic study of the physical and chemical properties of fuels, lubricants, and combustion, including diagnostic strategies as it pertains to the function, operation, and every-day use of the systems and sub-systems of the automotive internal combustion engine and related powertrain components. Topics include emerging technologies, such as modern fuel and lubricant requirements and how they affect combustion, emissions, and maintenance schedules used by late-model automotive manufacturers. Emphasis will be placed upon the design of system parts, components, subsystems, and their operational characteristics, including failure analysis. Current Industry-approved diagnostic and troubleshooting techniques and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle After-Sales Field Operations Management spectrum.

54 Lecture hours

AUTO 370
Standard Accounting Systems of the Automotive Industry
Prerequisite: AUTO 300, AUTO 310, AUTO 320, ENGL 201 or ENGL 201H, MATH 130 or MATH 130H, PHY 120, ACCT 101 (all with a grade of "C" or better)
Advisory: ENGL 325
This course provides the Automotive Technology student with a detailed practical application of accounting fundamentals and business management principles, and the adaptation of them to factory-to-store and day-to-day operations. This is a practical study of the theory, principles, and practice of the preparation and interpretation of accounting statements and business management reports. Topics include an overview of computerized accounting information systems, and practices in business management techniques, such as the importance of strong financial and management control, financial statements and statement analysis. Emphasis will be placed upon the concepts of using accounting fundamental principles, cash & contracts, short-term and long-term liabilities and assets, and stockholders’ equity of reporting documents, which are essential to a successful automotive business operation. Current Automotive Industry practices and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle Sales and Service Fixed Operations Management spectrum.
3 Units
54 Lecture hours

AUTO 400
Analyzing Stability, Dynamics, and NVH
Prerequisite: AUTO 300, AUTO 310, AUTO 320, ENGL 201 or ENGL 201H, MATH 160, PHY 120 (all with a grade of "C" or better)
Advisory: ENGL 325
This course provides the Automotive Technology student with a detailed practical application of Stability, Dynamics, and Noise-Vibration-Harshness (NVH) of the Modern Automobile. This is a practical study of the systems that provide vehicle operation safety, including diagnostic strategies as it pertains to the function, operation, and every-day use of the automotive tires, brakes, steering, and suspension systems. Topics include emerging technologies, such as modern antilock brakes, traction control, electronic stability assist, electronic power steering, active suspension, and tire construction and pressure monitoring systems used by late-model automotive manufacturers. Emphasis will be placed upon the design of system parts, components, subsystems, and their operational characteristics, including techniques in reducing NVH. Current Industry-approved diagnostic and troubleshooting techniques and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle After-Sales Field Operations Management spectrum.
3 Units
54 Lecture hours

AUTO 410
Digital Marketing for the Automotive Industry
Prerequisite: AUTO 300, AUTO 310, AUTO 320, ENGL 201 or ENGL 201H, MATH 130 or MATH 130H, PHY 120, MKRT 170 (all with a grade of "C" or better)
Advisory: ENGL 325
This course provides the Automotive Technology student with a detailed practical application of the various internet and social media marketing strategies, including category-based guidelines impacting the operations of the automotive wholesale and retail business. This is a practical study of the policies and practices of digital marketing, and the necessary tools, templates, and checklists needed to develop a strategic and successful marketing campaign. Topics include in-sourcing and out-sourcing, responsive and adaptive website technologies, developing content, and policies and processes. Emphasis will be placed upon the use of on-line and
off-line media to increase customer satisfaction, including the preparation of business management and marketing reports. Current Automotive Industry practices and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle Sales and Service Fixed Operations Management spectrum.

3 Units

54 Lecture hours

AUTO 420
Analyzing Dynamic Functions of Vehicle Drivetrain Systems
Prerequisite: AUTO 300, AUTO 310, AUTO 320, ENGL 201 or ENGL 201H, MATH 160, PHY 120 (all with a grade of "C" or better)
Advisory: ENGL 325
This course provides the Automotive Technology student with a detailed practical application of Electro-Mechanical and Hydraulic Functions of Transmission and Drivetrain Systems of the Modern Automobile. This is a practical study of the systems that provide vehicle mobility, including diagnostic strategies as it pertains to the function, operation, and everyday use of the automotive transmission, differential, and drive axle systems. Topics include emerging technologies, such as modern dual-clutch transmissions, continuously-variable transmissions, real-time gear shifting mechanisms and controls, torque converter and converter clutch designs, torque-management strategies, and innovative designs of gears, bearings, seals, and friction materials used by late-model automotive manufacturers. Emphasis will be placed upon the design of system parts, components, subsystems, and their operational characteristics, including techniques in reducing Noise-Vibration-Harshness (NVH). Current Industry-approved diagnostic and troubleshooting techniques and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle After-Sales Field Operations Management spectrum.

3 Units

54 Lecture hours

AUTO 440
Analyzing Vehicle Safety, Comfort, and Security Systems
Prerequisite: AUTO 300, AUTO 310, AUTO 320, ENGL 201 or ENGL 201H, MATH 160, PHY 120 (all with a grade of "C" or better)
Advisory: ENGL 325
This course provides the Automotive Technology student with a detailed practical application of Vehicle Occupant Protection, Comfort, and Security Systems of the Modern Automobile. This is a practical study of the systems that provide integrated vehicle and driving protection against hazardous and inadverent situations, as well as occupant amenities, including diagnostic strategies as it pertains to the function, operation, and everyday use of active/passive safety, comfort, and convenience systems. Topics include emerging technologies, such as modern airbag systems, accident avoidance and pre-crash/post-crash mitigation of injuries, vehicle-to-vehicle (V2V) infrastructure technology, and innovative driver assistance, infotainment, and occupant contentment and security systems used by late-model automotive manufacturers. Emphasis will be placed upon the design of system parts, components, subsystems, and their operational characteristics, including techniques in reducing vehicle crashes and improving occupant/pedestrian protection. Current Industry-approved diagnostic and troubleshooting techniques and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle After-Sales Field Operations Management spectrum.

3 Units

54 Lecture hours

AUTO 430
Finance & Insurance Regulations for the Automotive Industry
Prerequisite: AUTO 300, AUTO 310, AUTO 320, ENGL 201 or ENGL 201H, MATH 130 or MATH 130H, PHY 120 (all with a grade of "C" or better)
Advisory: ENGL 325
This course provides the Automotive Technology student with a detailed practical application of the numerous federal, state, and local agencies and their laws and regulations pertaining to the operation of an automotive wholesale and retail business. This is a practical study of a broad scope of regulatory agencies and regulations such as Department of Motor Vehicles, Internal Revenue Service, Franchise Tax Board, OSHA, EPA, AQMD, NHTSA, Federal Trade Commission, Fair Labor Standards, Truth in Advertising, Truth in Lending, Consumer Leasing Act, Equal Credit Opportunity Act, Fair Credit Reporting Act, and other related agencies and regulations. Topics include an in-depth study of automotive business finance, insurance, and new and certified used vehicle departments within an organization. Emphasis will be placed upon the services offered in these departments and their potential of generating profits and improving customer satisfaction. Current Automotive Industry practices and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle Sales and Service Fixed Operations Management spectrum.

3 Units

54 Lecture hours

AUTO 450
Variable & Fixed Operations of the Automotive Industry
Prerequisite: AUTO 300, AUTO 310, AUTO 320, ENGL 201 or ENGL 201H, MATH 130 or MATH 130H, PHY 120 (all with a grade of "C" or better)
Advisory: ENGL 325
This course provides the Automotive Technology student with a detailed practical application of successful automotive business models of new and used vehicle operations, as well as the operations of service and parts. Topics include an in-depth study of facilities and shop utilization, scheduling of work, sales promotions, using advertising media, inventory control, repair order generation and control, selecting and motivating employees, and directing sales, parts and service staff. Emphasis will be placed upon maximizing and balancing inventory turnover, wholesales practices, trade-in appraising, vehicle reconditioning, the role that auctions play, the important relationship between the parts and service departments, technician productivity and efficiency, wholesale and retail parts sales, stock and non-stock parts inventory and ordering practices, and part phase-in/phase-out criteria. Current Automotive Industry practices and relevant case studies will be discussed and demonstrated throughout the course. The overall goal of this course is for the student to apply and demonstrate knowledge and skills that will enable them to advance their employment in the Vehicle Sales and Service Fixed Operations Management spectrum.

3 Units

54 Lecture hours

AUTO 499
Directed Study in Automotive Technology
Prerequisite: Enrollment requires an AS Degree in Automotive Technology or similar field, and special approval from the program advisor; AUTO 440; AUTO 450
Division of Mathematics & Sciences

BIOL 101 General Biology
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment
Transfers to: UC, CSU
This course will provide an introduction to the basic principles, energy relationships, genetic control mechanisms, concepts of evolution, biological diversity, and ecosystem function. The laboratory component of the course emphasizes the application of the scientific method as a tool to understanding living systems.

4 Units
54 Lecture hours

BIOL 105 Human Biology
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course will provide an introduction to the basic principles, structures, functions and biological processes of the human body. This lecture only course will emphasize a scientific viewpoint of the workings of the human body and its interactions with the environment as well as the necessary practices needed to promote a healthy body. The course’s target audience are those students pursuing a liberal arts education who are interested in furthering their own knowledge of human biology.

3 Units
54 Lecture hours

BIOL 105L Human Biology Laboratory
Prerequisite/Corequisite: BIOL 105
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed to give the student a better understanding of the basic principles of Marine Biology and fulfills the general education lecture requirement for the life sciences. Emphasis is placed on how the scientific method is used to investigate the chemical, physical, and geological properties of the marine environment. Students will learn to distinguish among the diverse organisms and habitats that comprise the ocean’s ecosystems. An introduction to the structure and function of marine ecosystems is provided and the impact of human activity on those systems will be addressed.

3 Units
54 Lecture hours

BIOL 111 Marine Biology
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment
Transfers to: UC, CSU
This course is intended for the student interested in the natural world and the ecological relationships of the organisms found within it. The course emphasizes the natural habitats of Southern California and the plants and animals associated with them. Also discussed is the impact human beings have had upon these natural habitats. Field work utilizes the Rio Hondo College Wildlife Sanctuary which allows students to gather original data through firsthand observation and experience. Several additional more distant trips requiring driving explore some of the variety of natural habitats in Southern California.

3 Units
36 Lecture hours
54 Lab hours

BIOL 111L Marine Biology Laboratory
Prerequisite/Corequisite: BIOL 111
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment
Transfers to: UC, CSU
This laboratory course complements the Marine Biology lecture course and is designed for the student interested in furthering their understanding of the marine environment and its organisms, with emphasis on marine life of the local coasts. The scientific method will be employed to investigate the chemical and physical properties of seawater, the role of pigments in marine algae, the behavior of marine organisms, the basic classification and morphology of marine producers, invertebrates and vertebrates, and adaptations of organisms to specific habitats. Students will use basic laboratory equipment and techniques in both classroom and field-based investigations. Field trips to coastal marine habitats and public aquaria are conducted.

1 Unit
54 Lab hours

BIOL 112 Outdoor Biology
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment
Transfers to: UC, CSU
This course is intended for the student who has an interest in the natural world and the ecological relationships of the organisms found within it. The course emphasizes the natural habitats of Southern California and the plants and animals associated with them. Also discussed is the impact human beings have had upon these natural habitats. Field work utilizes the Rio Hondo College Wildlife Sanctuary which allows students to gather original data through firsthand observation and experience. Several additional more distant trips requiring driving explore some of the variety of natural habitats in Southern California.

3 Units
36 Lecture hours
54 Lab hours

BIOL 120 Environmental Biology
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment
Transfers to: UC, CSU
Utilizing basic biological concepts, an interdisciplinary approach is used to address environmental challenges. Topics addressed may include ecosystem characteristics and functions, population dynamics, energy and material resource use, pollution, and alternative energy sources. Students in many disciplines will benefit from this course as the social, political, and economic implications of environmental decisions are addressed. This course fulfills the general education requirement in life sciences.

3 Units
54 Lecture hours
BIOL 120L
Environmental Biology Laboratory
Prerequisite/Corequisite: BIOL 120
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment
Transfers to: UC, CSU
This laboratory course complements the Environmental Biology lecture course and is designed for students interested in furthering their understanding of the environmental sciences. The scientific method will be employed to investigate ecosystems and their functions, natural selection, population interactions, environmental toxicology, radiation exposure effects, soil and groundwater systems, water pollution, alternative energy systems, and environmental resistance.
1 Unit
54 Lab hours

BIOL 125 (C-ID BIOL 110B)
Human Anatomy
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment; BIOL 101
Transfers to: UC, CSU
This course is primarily a systems approach to the study of human body structure. The study of each body system includes structural specializations and functions from the microscopic to the system level emphasizing the interdependence of form and function. Additional topics include methods of anatomical study, human genetics, and embryonic development. The laboratory exercises will also include vertebrate dissections. This course is intended for students preparing to enter careers in the health sciences.
4 Units
54 Lecture hours
54 Lab hours

BIOL 200 (C-ID BIOL 135S, BIOL 190)
Principles of Biology 1 (Molecular and Cellular Biology)
Prerequisite: CHEM 120 and MATH 070 or MATH 070D or MATH 073 or appropriate assessment
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC (credit limit), CSU (*Students will receive credit from UC for only one of the following courses: BIOL 101 or BIOL 200)
This course is first in a sequence of courses for undergraduate preparation for biology majors. This course will cover principles and applications of prokaryotic and eukaryotic cell structure and function, biological molecules, homeostasis, cell reproduction and its controls, molecular genetics, classical/Mendelian genetics, cell metabolism including photosynthesis and respiration, and cellular communication. Additional areas of focus include evolution and ecology. The laboratory portion of the course applies the processes of scientific inquiry and experimental design to the study of biological concepts focusing on observations, experimentation, record keeping, data collection and analysis, and presentation of outcomes. The course sequence also provides excellent preparation for those students intending to pursue post-graduate studies in the medical sciences.
5 Units
54 Lecture hours
108 Lab hours

BIOL 201 (C-ID BIOL 135S)
Principles of Biology 2 (Diversity and Ecology)
Prerequisite: BIOL 200 with a grade of “C” or better
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course continues the sequence of undergraduate preparation for biology majors. The course is a survey of the diversity of unicellular and multicellular life on earth, focusing on the relationships between structure and function, as well as evolutionary adaptations to their environments. Topics deal with classification, development, evolutionary relationships and ecological functions of living organisms inclusive of prokaryotes, fungi, protists, plants and animals. Laboratories will emphasize life forms, experimentation and dissections. Field trips will be used to examine organisms in their natural settings.
5 Units
54 Lecture hours
108 Lab hours

BIOL 205
Molecular Biology and Biotechnology
Prerequisite: BIOL 200; CHEM 130
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed for Life Science majors as a continuance of their undergraduate preparation for biology majors. This course provides an introduction to the basic concepts of biochemistry, molecular biology and molecular genetics; including protein structure and function, DNA structure and replication, transcription, RNA processing, translation, and recombinant DNA technology. Students will also be introduced to the science of biotechnology by providing both the theory and hands-on experience with laboratory protocols that include the isolation, purification, and cloning of a gene; including the use of restriction enzymes, electrophoresis, library construction, blotting and hybridization and sequencing. Polymerase chain reaction (PCR) will be explained in detail, particularly how it has revolutionized research in molecular biology, medicine, forensics, systematics and evolutionary biology.
4 Units
54 Lecture hours
54 Lab hours

BIOL 206
Principles of Genetics
Prerequisite: BIOL 200
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment
Transfers to: UC, CSU
This course is designed for Life Science majors as a continuance of their general biology studies. This course will cover a variety of topics relevant to the study of genetics, ranging from classical to nontraditional Mendelian genetics, from bacterial and viral genetics to human genetics, and include studies on molecular techniques and their applications. Other topics will include chromosome analysis, population genetics and genomics.
3 Units
54 Lecture hours

BIOL 222
Microbiology
Prerequisite: CHEM 110
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; BIOL 101
Transfers to: CSU
The course encompasses the biology of microorganisms with an emphasis on the role of bacteria and viruses on human health and disease. Other topics include resistance and immunity to disease, basic biological principles, microbial genetics and physiology, the harmful and useful aspects of microorganisms in nature, medicine and industry. Laboratory exercises emphasize sterile culture techniques, the detection, isolation and identification of microorganisms. This course is intended for students preparing to enter careers in the health sciences.
5 Units
54 Lecture hours
108 Lab hours

BIOL 226 (C-ID BIOL 120B)
Human Physiology
Prerequisite: BIOL 125 and CHEM 110
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; BIOL 101
This course is first in a sequence of courses for students interested in furthering their understanding of the human body systems. The various areas of focus include evolution and ecology. The laboratory portion of the course applies the processes of scientific inquiry and experimental design to the study of biological concepts focusing on observations, experimentation, record keeping, data collection and analysis, and presentation of outcomes. The course sequence also provides excellent preparation for those students intending to pursue post-graduate studies in the medical sciences.
5 Units
54 Lecture hours
108 Lab hours
Directed Study in Health Science Biology

BIOL 299A
Directed Study in Biology
Prequisite: BIOL 200
Transfers to: CSU
The course provides an opportunity for the student to expand their studies in Biology beyond the classroom by completing a project or an assignment arranged by agreement between the student and instructor. The student is required to contract with the instructor to determine the scope of the assignment and the unit value assigned for successful completion. Students must possess a 2.5 overall GPA, a 3.0 GPA in the discipline of study being requested, or receive an exception from the instructor. Students may take a maximum of 3 units of Directed Study within a discipline and 9 units college-wide.

1 to 3 Units
54 to 162 Lab hours

BIOL 299B
Directed Study in Health Science Biology
Prequisite: BIOL 222 or BIOL 226
Transfers to: CSU
The course provides an opportunity for the student to expand their studies in Health Science Biology beyond the classroom by completing a project or an assignment arranged by agreement between the student and instructor. The student is required to contract with the instructor to determine the scope of the assignment and the unit value assigned for successful completion. Students must possess a 2.5 overall GPA, a 3.0 GPA in the discipline of study being requested, or receive an exception from the instructor. Students may take a maximum of 3 units of Directed Study within a discipline and 9 units college-wide.

1 to 3 Units
54 to 162 Lab hours

BIOL 299C
Directed Study in Environmental Technology
Prequisite: BIOL 120
Transfers to: CSU
The course provides an opportunity for the student to expand their studies in Environmental Technology beyond the classroom by completing a project or an assignment arranged by agreement between the student and instructor. The student is required to contract with the instructor to determine the scope of the assignment and the unit value assigned for successful completion. Students must possess a 2.5 overall GPA, a 3.0 GPA in the discipline of study being requested, or receive an exception from the instructor. Students may take a maximum of 3 units of Directed Study within a discipline and 9 units college-wide.

1 to 3 Units
54 to 162 Lab hours

BUSINESS LAW
Division of Business

BUSL 110 (C-ID BUS 120)
Legal Environment of Business
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC (*credit limit), CSU (*Students will receive credit from UC for only one of the following courses: BUSL 110 or BUSL 220)
This course examines the legal regulatory, and international environment of business. Included are the topics of alternative dispute resolution, the forms of business organization, regulations affecting employment, and current environmental statutes. Case studies are used to discuss torts, crimes, contracts and sales, warranty and product liability, labor law, employment discrimination, and environmental law.

3 Units
20 Lecture hours

CARPENTRY
Division of Career & Technical Education

CARP 020H
Welding
Prequisite: Indentured Apprentice with the State of California
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry. Modules cover the following topics: history of the carpentry profession along with state and federal labor law, job layout, safe working conditions, health and safety certifications, basic blueprint reading, advanced blueprint reading, use and application of levels and transits, foundations, flatwork, wall structures, stairs and ramps, welding materials and welding applications.

1 Unit
20 Lecture hours
20 Lab hours

CARP 040A
Orientation
Prequisite: State Indentured Carpenter Union Apprentice
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the Carpenter Industry by examining fundamental trade skills, employee-employer roles and responsibilities, and safe work practices needed for entry level performance in the construction industry. While emphasis will be placed on attaining standard industry safety credentials, the course is designed to provide students with practical experience using construction terminology, math operations and basic measuring techniques, tool identification and proper usage. Safety will cover OSHA training for jobsite hazard recognition, accident prevention, and safe tool and equipment operation. Upon successful completion students will be prepared to move forward into the Carpentry Apprenticeship Program.

1 Unit
20 Lecture hours
20 Lab hours
Carpentry

Carpentry courses provide students with the skills and knowledge necessary for employment in the carpentry industry. Courses are designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing terminology, optical principles, and operating procedures for forming reinforced concrete systems. Identification of the characteristics and applications of built-in-place, prefabricated and specialty forms will be covered. Practical exercises will prepare students for locating wall forming information on project plans, calculating layout dimensions, and for estimating material requirements. Basic wall panel forming and reinforcement methods, material preparation and hardware installation are included in this course.

1.5 Units
20 Lecture hours
20 Lab hours

Carpentry 040D

Transit Level/Laser

Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing terminology, optical principles and operating procedures for the transit laser levels. The conventional methods for measuring angles, using degrees, minutes and seconds on veneer scales will be included in the transit portion of this class. Students will set up levels, determine benchmarks, take and record elevation readings.
2 Units
30 Lecture hours
10 Lab hours

Carpentry 040C

Print Reading

Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing basic skills needed for reading and interpreting construction prints. Material covered will focus on developing the student’s ability to interpret two dimensional views in such a way to convey the shape and characteristics of construction elements, and to provide an overview of the scope of the project. Students will be able to recognize standard drawing methods, pictorial views, and how to read visual and verbal communication cues.
2 Units
30 Lecture hours
10 Lab hours

Carpentry 040E

Foundations and Flatwork

Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing the required and supplemental instruction for the design and function of several types of foundations and concrete flatwork. The methods, techniques and procedures for formwork layout, elevation, and construction will be presented. Job site safety, print interpretation, material identification, and basic use of the builders’ level will be included in the training.
1.5 Units
20 Lecture hours
20 Lab hours

Carpentry 040F

Wall Forming

Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing the skills and procedures for forming reinforced concrete walls using single and double waler systems. Identification of the characteristics and applications of built-in-place, prefabricated and specialty forms will be covered. Practical exercises will prepare students for locating wall forming information on project plans, calculating layout dimensions, and for estimating material requirements. Basic wall panel forming and reinforcement methods, material preparation and hardware installation are included in this course.
1.5 Units
20 Lecture hours
20 Lab hours

Carpentry 040G

Stair and Ramp Forming

Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing methods, procedures and practices used to form stair and ramp structures. Students will review project plans to determine stair and ramp configuration and overall dimensions. Stinger riser and stair thread calculations will be explained and practiced. State and federal building codes pertaining to stairs, ramps and handrail requirements will be covered in this class.
1.5 Units
20 Lecture hours
20 Lab hours

Carpentry 040H

Commercial Floor Framing

Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing procedures for floor joist construction and the various installation techniques used in the commercial industry. Students will interpret floor plans for job planning, identify floor joist system, and calculate material take offs. Integration of wall plating, joist layout and floor sheathing methods will be included. Instruction will incorporate measuring skills, use of math operations, specialty hardware applications and identification of appropriate building codes.
1.5 Units
20 Lecture hours
20 Lab hours
CARP 040I
Basic Roof Framing
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing an introduction to basic gable roof framing, terminology, characteristics and construction methods. Students will interpret print views and drawing elevations for job planning, and to determine rafter systems and layout details. Basic rise, run, rafter angles and length calculations will be practiced. Framed wall construction will be incorporated to facilitate the gable roof assembly techniques and installation procedures that are the focus of this course.
1.5 Units
20 Lecture hours
20 Lab hours

CARP 040J
Advanced Print Reading
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the Carpentry Industry by providing the required and supplemental instruction for carpentry apprentices in advanced print reading. In this course, students will analyze multi-view drawings to determine construction type, locate benchmark and building elements; review codes, references, and perform calculations for construction planning. A closer look at specifications (verbal communication), will explain to students how they are formatted and used to clarify the specific project design outcomes. Tips for troubleshooting installations, code compliance, and managing project scope and quality of construction will prepare students for jobsite leadership.
2 Units
30 Lecture hours
10 Lab hours

CARP 040L
Solar Installer Level I
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry. This course will provide workers with an industry overview and outlook for photovoltaic (renewable) energy production. Key terms and concepts of photovoltaic system operations will include solar cell technology, PV array configuration, series and parallel circuits, testing equipment, inspection, balance of system components, mounting methods, and applicable codes. Practical training will cover site analysis, system orientation based on site location, safety concerns, operation of construction tools and skills for rooftop and ground mount system installations. Upon successful completion students will receive a UBC Rigging Qualification Card.

10 Lab hours

CARP 040M
Green Building and Weatherization
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course provides instruction in applicable activities. Construction will be employed for issues related to air flow and stack effect in conditioned spaces. Instruction will include thermal principles, air exchange rates, controlling air leakage, and ratings for insulation, and fenestration, as well as air sealing methods. Best practices for renovation construction will be demonstrated during practical exercises focused on implementing energy audit recommendations for insulation, air leak/duct sealing, window replacement, water conservation, hazard and moisture remediation, and appliance upgrades (CAZ). Techniques and devices used to maintain healthy air quality during construction will be employed for applicable activities.

CARP 040N
Rigging
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry. This course begins with a detailed explanation of sustainable building science, recycling of materials, whole house audits, and discussion of construction components and systems that contribute to energy efficiency. The differences in structural design such as joints, framing, windows and door openings, floor and attic will be evaluated for issues related to air flow and stack effect in conditioned spaces. Instruction will include thermal principles, air exchange rates, controlling air leakage, and ratings for insulation, and fenestration, as well as air sealing methods. Best practices for renovation construction will be demonstrated during practical exercises focused on implementing energy audit recommendations for insulation, air leak/duct sealing, window replacement, water conservation, hazard and moisture remediation, and appliance upgrades (CAZ). Techniques and devices used to maintain healthy air quality during construction will be employed for applicable activities.

CARP 040P
Basic Wall Framing
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or

250 / Rio Hondo College  2017-2018 Catalog
Moldings and Trims

Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry. This course presents the theory, methods, and procedures required to frame basic walls. Hands-on practice using proper tool techniques and appropriate materials will enhance fundamental skill development. 

Beginning with an introduction to print reading, students will perform basic wall layout, plating procedures, framing assembly and bracing, before aligning and completing selected wall construction project to industry standards.

20 Lab hours

CARP 040R
Tool/Equipment Applications

Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing the installation process from constructing storefront openings thru placement of glass components into the commercial store front metal framing. An emphasis will be placed on print interpretation, window and door schedules, symbols and material recognition. Key discussions will draw attention to the typical problems, causes and solutions frequently encountered during the glazing assembly and installation process. This training will utilize glazing tools and techniques, applicable building/fire codes, layout accuracy and address proper fit and alignment.

1.5 Units
20 Lecture hours
20 Lab hours

CARP 040V
Basic Metal Framing

Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing an overview of residential metal framing theory and construction techniques. Students will interpret prints for job planning and to estimate materials. Students will layout and detail wall plates for locating all wall and truss components and openings. Instruction will include measuring techniques, mathematical principles, wall and roof design, and proper installation sequence. Students will use methods and specific procedures to install typical upper and lower cabinetry units and countertops.

1.5 Units
20 Lecture hours
20 Lab hours

CARP 050B
Cabinet Installation

Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing procedures for design layout, cabinet installation and attaching countertops. An emphasis will be placed on print interpretation, job planning, scribing techniques and proper installation sequence. Students will use methods and specific procedures to install typical upper and lower cabinetry units and countertops.

20 Lab hours

CARP 050C
Doors and Door Hardware

Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing an introduction to the basic rake wall framing theory and commercial construction techniques and materials. Floor plan interpretation will be used by students for job planning, design recognition, and to determine materials. Students will layout and detail wall plates for locating basic rake wall components and door openings typically found in commercial construction applications. Instruction will include measuring skills, mathematical principles, wall assembly and installation procedures and detail on how structural connections are made.

1.5 Units
20 Lecture hours
20 Lab hours
by providing the installation process for several types of security and exit door hardware. Discussion of electrical and card reader systems will be included. An emphasis will be placed on print interpretation, codes, door schedules, symbols, and hardware recognition. Students will use the methods and procedures presented to install selected door and hardware systems.

20 Lecture hours
20 Lab hours

**CARP 050D** Basic Stairs

**Prerequisite:** State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B

**Advisory:** ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment

This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing an introduction to stair framing theory, terminology and construction techniques. Students will interpret floor plans and drawing elevations for job planning and to layout and detail stair stringers. Methods for calculating the number of stairs, landing height, stair threads and riser dimensions will be presented and practiced. Instruction will include measuring skills, mathematical principles, stair and handrail fabrication, assembly and installation.

1.5 Units
20 Lecture hours
20 Lab hours

**CARP 050E** Bridge Construction

**Prerequisite:** State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B

**Advisory:** ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment

This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing bridge design and construction methods and procedures. Students will construct bridge and deck formwork using job-built forming methods. Descriptions for exterior and interior girders, edge forms, bulkheads and hinge forms will be presented. Both job-built and precast formwork methods will be discussed. Formwork project will include panel construction, assembly, and hardware installation tasks. Related safety, math and print reading will be covered in the training.

1.5 Units
20 Lecture hours
20 Lab hours

**CARP 050F** Tilt Up Construction

**Prerequisite:** State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B

**Advisory:** ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment

This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing an introduction to formwork systems for construction of concrete beams and decks. Students will identify formwork types and installation techniques including calculating materials and setting beam and deck forms. Metal beam forms and capitals will be highlighted. Additionally, layout and builders level skills will be used in this class.

1.5 Units
20 Lecture hours
20 Lab hours

**CARP 050G** Beam and Deck Forming

**Prerequisite:** State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B

**Advisory:** ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment

This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing an introduction to the use of various woods and patented forming systems for construction of concrete beams and decks. Students will identify formwork types and installation techniques including calculating materials and setting beam and deck forms. Metal beam forms and capitals will be highlighted. Additionally, layout and builders level skills will be used in this class.

1.5 Units
20 Lecture hours
20 Lab hours

**CARP 050H** Gang Forms/Columns

**Prerequisite:** State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B

**Advisory:** ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment

This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing an introduction to formwork types, applications and construction methods for gang and column forms using built and manufactured forming systems. Discussions will cover heavy timber gang forms and use of taper ties, bracing, and bulkhead tables. The course project will include gang and column formwork construction, assembly, and hardware using selected manufactured products. Related safety, math and print reading will be covered in this course.

1.5 Units
20 Lecture hours
20 Lab hours
including calculating dimensions and materials, identifying wall covering types and other exterior construction details. Students will use the constructions techniques presented to complete various exterior detail installations to print specifications.

1.5 Units
20 Lecture hours
20 Lab hours

CARP 050K
Advanced Stairs
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing basic stair construction before presenting advanced skill needed to perform circular and “u” shaped stair framing tasks. Students will interpret floor plans and drawing elevations for job planning and to layout and construct advanced stair designs. Students will adapt stair calculations to determine the number of stairs, landing height, stair thread and riser dimensions. In addition to measuring skills, mathematical principles, stair and handrail fabrication and assembly, the installation techniques required for circular and “u” shaped stair configurations will be covered.

1.5 Units
20 Lecture hours
20 Lab hours

CARP 050L
Advanced Commercial Framing
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing advanced commercial wall framing theory and construction techniques with structural hardware and shear panel installation. Students will interpret floor plans and drawing elevations for job planning and to layout and detail plates for complex wall configurations, rake walls and openings. Instruction will include measuring skills, use of mathematical principles, advanced rafter wall construction design, plywood shear panel installation, and structural hardware attachment.

1.5 Units
20 Lecture hours
20 Lab hours

CARP 050M
Bridge Falsework
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing bridge falsework design and construction methods and procedures. The techniques for bent assemblies, base sub-assemblies, deck soffits and hardware installation will be presented. Falsework tasks will include rigging and alignment techniques. Related safety, math and print reading will be covered in the training.

1.5 Units
20 Lecture hours
20 Lab hours

CARP 050N
Advanced Roof Framing
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing the advanced skills used to frame hip roof types, terminology, roof characteristics and construction methods. Students will interpret print views and elevations for job planning to determine hip roof rafter systems and layout details. Students will perform rise, run, rafter angles and length calculations. Framed wall construction will be incorporated to facilitate the hip roof assembly techniques and installation procedures.

1.5 Units
20 Lecture hours
20 Lab hours

CARP 050P
Panelized Roofing
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing the structural components and building techniques associated with heavy timber construction and panelized roof systems. The advantages and types of manufactured wood used, and their load carrying strength, span and spacing will be discussed. A distinction between standard post and beam, and heavy timber construction will be emphasized. Students will interpret floor plan, section views and drawing elevations for job planning, and to layout and construct a heavy timber post and beam supported panelized roof.

1.5 Units
20 Lecture hours
20 Lab hours

CARP 050R
Intermediate Commercial Framing
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course enhances basic wall framing theory, and wall construction techniques are applied at increased skill levels. A review of basic wall framing and floor plans used for job planning, design recognition, and materials lists is included. Students will layout and detail wall plates for locating basic wall components and door openings. Instruction will include measuring skills, mathematical principles, wall assembly and installation procedures, and detail how structural connections are made.

1.5 Units
20 Lecture hours
20 Lab hours

CARP 050S
Intermediate Stairs
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course uses floor plans and print elevations at an intermediate level to enhance development of basic stair construction skills. Students will interpret prints to complete job planning, project layout, and material cut list for “L” shaped stair designs. Stair calculations will used to determine the number of stairs, landing height, stair thread and riser dimensions for the assigned project.

1.5 Units
20 Lecture hours
20 Lab hours

CARP 050T
Drywall Applications
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing the advanced skills used to frame hip roof types, terminology, roof characteristics and construction methods. Students will interpret print views and elevations for job planning to determine hip roof rafter systems and layout details. Students will perform rise, run, rafter angles and length calculations. Framed wall construction will be incorporated to facilitate the hip roof assembly techniques and installation procedures.

Welding Fabrication  
CARP 050V  
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment  
This course will focus on the needed commercial and residential skills to properly handle and install drywall used in specialized applications including fire resistance, sound control, and for life safety. Layout, cutting, attachment procedures and productivity techniques will be discussed and practiced under jobsite conditions. Wall framing and drywall finishing methods will be incorporated into the hands-on activity.  
1.5 Units  
20 Lecture hours  
20 Lab hours

Interior Evaluations  
CARP 060A  
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment  
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing details of cabinetry fabrication from design and function through the complete production process. An emphasis will be placed on print interpretation, job planning and proper construction sequence. Countertops and hardware styles and types will be discussed. Students will use the methods and procedures presented to build typical base casework to industry standards.  
1.5 Units  
20 Lecture hours  
20 Lab hours

CARP 060B  
Plastic Laminates  
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B  
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment  
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by covering the materials, tools, and adhesive application techniques for fabricating plastic laminated countertops. This course covers installation of plastic laminates including function and design. Students will review prints to determine substrates, laminate material types and to calculate countertop dimensions. Installation methods and techniques for drop edge and back splash together with cleaning and repair will be emphasized. A countertop will be designed and installed to specifications. Correct use of tools and other equipment will be stressed.  
1.5 Units  
20 Lecture hours  
20 Lab hours

CARP 060C  
Doors and Door Frames  
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B  
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment  
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing the installation process from constructing rough openings to hanging and adjusting doors. An emphasis will be placed on print interpretation, door schedules, symbols and hardware recognition. Students will use the methods and procedures presented to install selected frames and doors.  
1.5 Units  
20 Lecture hours  
20 Lab hours

CARP 060D  
Stair Trim  
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B  
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment  
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing how various trims are utilized to finish stair construction design features. Students will use the techniques presented to complete a stair, railing and wall project. Product styles, characteristics, applications, and installation methods are included in the discussions. The tools techniques for cutting materials, mitering corners, and installing selected trim types are presented and practiced throughout the training.  
1.5 Units  
20 Lecture hours  
20 Lab hours

CARP 060E  
Commercial Fixtures  
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B  
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment  
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing print interpretation and fabrication techniques used in the preparation and installation of commercial store fixtures. An emphasis will be placed on pre-job planning, proper hand and power tool use and safety measures. Students will apply the procedures presented to complete valance and wall panel installations.  
1.5 Units  
20 Lecture hours  
20 Lab hours

CARP 060F  
Fitting Rooms/Partitions  
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B  
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment

Cabinet, Millwork and Assembly  
CARP 060A  
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing style comparison, attachment methods and installation techniques for various fitting room and partition fixtures. Framing elements, mounting brackets, and panel products will be covered. The procedures presented will be applied during fitting room and partition application projects.

20 Lecture hours
20 Lab hours

**CARP 060G**
Exit & Electrical Security Devices

*Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment*

This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing the classifications, types, models, codes, and uses for accident hazard exit (“panic”) devices and fire exit devices. A range of security products and door hardware used in the industry such as crossbars, latches, flush bolts, and kick plates will be discussed. Proper selection, installation and adjustment techniques for selected devices will be covered.

1.5 Units
20 Lecture hours
20 Lab hours

**CARP 060H**
Solid and Stone Surfaces

*Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment*

This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the mill and cabinet work industry by providing both basic and advanced assembly and installation techniques for solid surface, natural stone and manufactured materials. Various products, designs, materials, accessories, maintenance, repairs and safety considerations will be included. A discussion of typical applications for different surface types will aid in the identification of suitable materials. Students will use the procedures presented to fabricate countertops with backsplash and create a design inlay.

1.5 Units
20 Lecture hours
20 Lab hours

**CARP 060I**
Hand/Power Tool Usage

*Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment*

This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing proper selection, safe use and maintenance of both hand and power tools. Students will distinguish conditions when uses of hand and power tools are an appropriate alternative to stationary saws and equipment. Discussions will enable students to identify key tool features, accessories and tasks that can be performed using a variety of methods and techniques. Practical exercises will focus on various saw types, hand planes and hand held drills.

20 Lecture hours
20 Lab hours

**CARP 060J**
Power Tools and Stationary Equipment

*Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment*

This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing instruction for both power tools and stationary equipment typically used in millwork production. Students will identify the appropriate procedures and machining operation for various milling applications. Practical exercises will focus on shaping materials using various types of stationary saws, planes, sharpeners and power tools.

1.5 Units
20 Lecture hours
20 Lab hours

**CARP 060K**
Print Reading and Stock Billing

*Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment*

This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing instruction on working drawings used in the designing and building of a project. Instruction will include an explanation of the methods and procedures used to identify components and materials needed to finish the project. Students will study floor plans, elevations and detail drawings to determine design, wood types, style and features of construction and assembly details.

2 Units
30 Lecture hours
10 Lab hours
Jigs, Fixtures and Accessories

Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment

This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the mill and cabinet work industry. This course covers installation of plastic laminates including function and design. Students will review prints to determine substrates, laminate material types and to calculate countertop dimensions. Installation methods and techniques for drop edge and back splash together with cleaning and repair will be emphasized. A countertop will be designed and installed to specifications. Correct use of tools and other equipment will be stressed.

Laminates and Overlays

Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment

This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the mill and cabinet work industry. This course covers how moldings and trims are utilized to finish wall and cabinets. Students will be introduced to product styles, characteristics, millwork and specialty applications and installation methods are included in this training. The tool techniques for milling profiles, measuring and cutting, coping and installing various molding, trim and specialty items are presented and practiced throughout this course.

20 Lecture hours
20 Lab hours

CARP 060R

Millwork and Specialty Applications

Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment

This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the mill and cabinet work industry. This course involves presented to select and attach accessories and to fabricate custom jigs. Procedures presented to build typical base casework to industry standards.

20 Lecture hours
20 Lab hours

CARP 060V

Building Information Modeling Concepts

Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment

This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the mill and cabinet maker industry by providing instruction of computerized software used in project management planning, workflow and troubleshooting. Training will include a brief review of basic computer operations, access to software, internet and email programs. Students will navigate building information modeling (BIM) project data to grasp basic concepts related to viewing three dimensional (3D) building models, project scheduling and construction problem solving features.

2 Units
40 Lecture hours

CARP 060W

Building Information Modeling Computer Applications

Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment

This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the mill and cabinet maker industry by providing instruction of computerized software used to develop three dimensional models of construction projects. Training will provide an introduction to the design process using various drawing software. Students will practice importing and exporting design elements into building information modeling (BIM) organization structure for project management and work flow assessment. The course will include a brief review of basic computer operations, access to software, internet and email programs. Students will become familiar with the organization of computer aided design software (AutoCAD) 2014 user interface, basic drawing commands and file saving tools. Discussion will include an overview of computer aided manufacturing (CAM) from design to production. Students will use CAD drawing tools to create a base cabinet design.

2 Units
40 Lecture hours

CARP 060T

Computer Applications CAD-CAM

Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment

This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the mill and cabinet maker industry by providing instruction for jigs, fixtures and other accessories typically used with power and stationary tools for the production of millwork. A wide range of accessories and their applications will be identified during training. Discussions will enable students to explain when and how add-on equipment makes work easier and improves productivity. Students will use the techniques presented to select and attach accessories and to fabricate custom jigs.

1.5 Units
20 Lecture hours
20 Lab hours

2014 user interface, basic drawing commands and file saving tools. Discussion will include an overview of computer aided manufacturing (CAM) from design to production. Students will use CAD drawing tools to create a base cabinet design.
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by providing the basic techniques and procedures to erect tube and clamp scaffolds. Construction practices and safety considerations will be a major focus of the class. Scaffold standards and regulations enforced industry-wide are presented and utilized in hands-on projects. Students will identify tube and clamp scaffold components, access, inspection and assembly and disassembly procedures. Students will install components for multi-bay/multi-tier scaffolds to industry standards.

1.5 Units
20 Lecture hours
20 Lab hours
This course will provide the student with the ability to adapt the scaffold configuration to follow the contour of a building’s architectural features and height limitations. Students will erect a frame scaffold to conform to angles, slopes, obstacles and obstructions of a wall and/or ceiling.

1.5 Units
20 Lecture hours
20 Lab hours

CARP 070J
Advanced Suspended Scaffold
Prerequisite: State Indentured Scaffold Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment

This course will cover the advanced techniques and procedures required when constructing suspended scaffolds supported by structural members. Students will identify the suitable structural components for this application type. The methods used to determine load bearing capability of structural elements will be presented. The hazards and precautionary techniques associated with safely building this type of suspended platform will be the focus of this training.

1.5 Units
20 Lecture hours
20 Lab hours

CARP 070K
Scaffold Reshoring
Prerequisite: State Indentured Scaffold Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment

This course will cover the basic techniques and procedures associated with frame, system, and tube and clamp scaffold components used in industrial settings. The regulations, terminology and components used in these systems types will be discussed in depth. Construction practices and safety considerations will include plant operating processes, equipment, hazardous material awareness, and emergency response. Students will identify and erect equipment using basic configurations suitable for jobsites where industrial scaffolds are commonly used during maintenance cycles.

1.5 Units
20 Lecture hours
20 Lab hours

CARP 070L
Specialty Scaffold Applications
Prerequisite: State Indentured Scaffold Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment

This course will include specialty scaffold applications focusing on ramps, chutes and mobile towers suitable for light and heavy duty use. Students will identify the characteristics of commercial and industrial scaffold construction. The selected projects for this class will introduce the techniques and procedures used for access/egress, debris handling, and maintenance scaffolds.

1.5 Units
20 Lecture hours
20 Lab hours

CARP 070M
Confined Space
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment

This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the carpentry industry by instructing students in safe access, entry and monitoring methods for work confined spaces. Terminology, hazard recognition, air quality and use of various types of personal protective and respiratory equipment will be presented. Students will complete simulated work tasks and emergency rescue procedures utilizing a mock up. Upon successful completion of the course students will be issued a United Brotherhood of Carpenters Confinement Space Qualification Card.

2 Units
30 Lecture hours
10 Lab hours

CARP 080A
Basic Wood Flooring Installation
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment

This course provides an introduction to wood flooring materials and installation techniques. Students will study the characteristics of various hard and soft wood species typically chosen for grade, durability, and color. The inspection of existing subfloors will be discussed, and procedures for installing new subfloors will be included. The proper preparation and installation sequence of wood strips and plank flooring will be the main focus of the training.

1.5 Units
20 Lecture hours
20 Lab hours

CARP 080B
Scaffold Erector Qualification
Prerequisite: State Indentured Scaffold Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment

This course is designed to be compliant with applicable regulations, and provide workers with industry recognized general scaffold building credentials. A fundamental approach and careful explanation of scaffold built applications will include safety and terminology; elevated platform intended use; span and loading criteria; access and egress; stability, structural connections and inspections. Detailed project drawing review will provide practical experience in locating dimensions, determining layout and scaffold material requirements. An emphasis on erection/dismantling sequence will foster the development of job planning, preparation skills and applied math. The importance of a safety program including, site specific conditions, communication, and fall protection will be addressed during scaffold construction exercises.

1.5 Units
20 Lecture hours
20 Lab hours

CARP 070P
Industrial Scaffolding
Prerequisite: State Indentured Scaffold Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment

This course will cover the basic techniques and procedures associated with frame, system, and tube and clamp scaffold components used in industrial settings. Construction practices and safety considerations will be a major focus of the class including general plant operating conditions and hazards. Successful participants will be issued a United Brotherhood of Carpenters (UBC) Scaffold Qualification Card- Standard 40 Hour Training.

1.5 Units
20 Lecture hours
20 Lab hours
CARP 080B Borders
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course covers the fabrication and production skills used to create borders for wood flooring installations. Students will interpret floor plans to determine details for border designs and estimate materials. Instruction will include design considerations, geometric layout procedures, and techniques for maintaining border symmetry.
1.5 Units
20 Lecture hours
20 Lab hours

CARP 080C Parquet Flooring
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course covers the methods and techniques for installing parquet flooring. Students will study the characteristics of various parquet flooring patterns. Students will evaluate the suitability of hard and soft woods for use in parquet flooring patterns. The inspection, patching and leveling of existing subfloors will be discussed and practiced. The proper preparation and installation sequence of parquet wood flooring will be the main focus of the training.
1.5 Units
20 Lecture hours
20 Lab hours

CARP 080D Advanced Patterns
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course covers the fabrication and installation skills used in the production of custom wood flooring design. Students will study examples of artistic wood floor elements including geometric patterns, color variations, and inclusion of materials other wood. Students will create a design pattern for a custom wood floor medallion, and use the techniques and skills presented to complete the medallion project.
1.5 Units
20 Lecture hours
20 Lab hours

CARP 080E Diagonal and Herringbone Patterns
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course covers the fabrication and installation skills used in the production of diagonal and herringbone flooring patterns. Students will interpret floor plans to detail pattern assemblies and estimate materials. Instruction will include design considerations, geometric layout procedures, and techniques for maintaining pattern symmetry.
1.5 Units
20 Lecture hours
20 Lab hours

CARP 080F Crew Lead Training
Prerequisite: State Indentured Carpenter Union Apprentice; CARP 040A; CARP 040B
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course covers the supervisory and crew leadership skills required for professional development in the wood flooring industry. Typical work processes, communication methods, customer service considerations, motivational concepts and problem solving techniques, that when employed, produce efficient and effective management of wood floor installation. Various project scenarios will be used to conduct classroom exercises.
2 Units
40 Lecture hours

CARP 290 Work Experience in Carpenters Apprenticeship
Prerequisite: State Indentured Carpenter Union Apprenticeship
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course provides students the opportunity to work in the Carpenters apprenticeship program for the purpose of developing specific skills to meet the goals and objectives of the Carpenters Joint Apprenticeship and Training Committee (J.A.T.C.). Students complete work experience hours at approved training sites. Students may take up to 16 units total across all Work Experience course offerings. Only one Work Experience course may be taken per semester.
1 - 4 Units
3 Lecture hours
75 - 225 Other hours

CHEM 110 Chemistry for Allied Health Majors
Prerequisite: MATH 050 or MATH 050D or MATH 053 or appropriate assessment
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; Concurrent enrollment in MATH 070 or MATH 070D or MATH 073
Transfers to: UC (credit limit*), CSU
(* The UC will grant credit for only one of the following courses: CHEM 110, CHEM 120)
This course provides an introduction to the fundamental concepts of general, organic, and biological chemistry, and is especially appropriate for students intending to pursue a career in nursing and other health-related professions, including kinesiology and psychology. Emphasis is placed on the relationship between chemistry and the health/medical sciences. Weekly laboratory activities require students to empirically verify concepts presented in lectures. No previous background in chemistry is required or expected of students enrolling in this course.
5 Units
54 Lecture hours
54 Lab hours
18 Other hours

CHEM 120 Introduction to Chemistry
Prerequisite: MATH 070 or MATH 070D or MATH 073 with a grade of “C” or appropriate assessment
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC (credit limit*), CSU
(* The UC will grant credit for only one of the following courses: CHEM 110, CHEM 120)
This one-semester course is designed for students intending to major in science or engineering. The course primarily prepares students for Chemistry 130; additionally, it fulfills the general education requirement in the physical sciences. This course introduces the fundamental principles of general chemistry, with emphasis on chemical nomenclature and quantitative problems in chemistry. The lecture presents classical and modern chemistry including atomic theory, periodic properties, chemical bonding, chemical reactions, stoichiometry, acids and bases, gas laws and solutions. The laboratory introduces the techniques of experimental chem-
istry with examples from all areas of chemistry.
5 Units
54 Lecture hours
54 Lab hours
18 Other hours

CHEM 130 (C-ID CHEM 110, CHEM 120S)

General Chemistry
Prerequisite: CHEM 120 with a grade of "C" or better
Advisory: ENGL 101; READ 023 or appropriate assessment; MATH 175 or appropriate assessment
Transfers to: UC, CSU
CHEM 130 is the first semester of a two-semester sequence designed for students intending to major in science and engineering. The lecture course covers classical/modern chemistry, with applications, in stoichiometry and classical atomic theory of chemistry, periodic properties, gas laws, modern quantum theory of atomic and molecular structure, and periodic properties, thermodynamics, and solution chemistry. The laboratory introduces experimental chemistry with examples from all areas of chemistry.
5 Units
54 Lecture hours
72 Lab hours
36 Other hours

CHEM 130S (C-ID CHEM 110, CHEM 120S)

General Chemistry
Prerequisite: CHEM 120 with a grade of "C" or better
Advisory: ENGL 101; READ 023 or appropriate assessment; MATH 175 or appropriate assessment
Transfers to: UC, CSU
CHEM 130S is the first semester of a two-semester sequence, provides a rigorous introduction to the practical and theoretical aspects of organic chemistry. Several topics will be explored in depth, including molecular structure and hybridization, applications of acid/base theory to organic compounds, stereochemistry, alkanes, alkenes, alkynes, dienes, substitution and elimination reactions, and spectroscopic methods of analysis (e.g. IR, UV/VIS, NMR). Particular emphasis will be placed on thermodynamic and kinetic aspects of reactions and detailed examination of reaction mechanisms. Laboratory exercises are designed to provide students with a solid foundation in the essential techniques of organic chemistry, including the determination of melting points, thin-layer and column chromatography, extraction, distillation, and spectroscopic analysis of products. This course is appropriate for students majoring in chemistry, biological sciences, and chemical engineering, and satisfies the admissions requirements for medical, dental, veterinary, and other health-related graduate programs.
5 Units
54 Lecture hours
108 Lab hours

CHEM 230 (C-ID CHEM 150, CHEM 160S)

Organic Chemistry I
Prerequisite: CHEM 140 with a grade of "C" or better
Transfers to: UC, CSU
This course, the first of a two-semester sequence, provides a rigorous introduction to the practical and theoretical aspects of organic chemistry. Several topics will be explored in depth, including molecular structure and hybridization, applications of acid/base theory to organic compounds, stereochemistry, alkanes, alkenes, alkynes, dienes, substitution and elimination reactions, and spectroscopic methods of analysis (e.g. IR, UV/VIS, NMR). Particular emphasis will be placed on thermodynamic and kinetic aspects of reactions and detailed examination of reaction mechanisms. Laboratory exercises are designed to provide students with a solid foundation in the essential techniques of organic chemistry, including the determination of melting points, thin-layer and column chromatography, extraction, distillation, and spectroscopic analysis of products. This course is appropriate for students majoring in chemistry, biological sciences, and chemical engineering, and satisfies the admissions requirements for medical, dental, veterinary, and other health-related graduate programs.
5 Units
54 Lecture hours
108 Lab hours

CHEM 231 (C-ID CHEM 160S)

Organic Chemistry II
Prerequisite: CHEM 230 with a grade of "C" or better
Transfers to: UC, CSU
This course, the second of a two-semester sequence, provides a rigorous introduction to the practical and theoretical aspects of organic chemistry. The chemistry of aromatic and carbonyl-containing compounds will be emphasized through out the course of the semester. Bioorganic compounds will be introduced. Particular emphasis will be placed on thermodynamic and kinetic aspects of reaction mechanisms, and the design of multi-step syntheses. Laboratory exercises require students to use the techniques learned in the previous semester to carry out more complex reactions and multi-step synthesis. Additionally, students will investigate the techniques of organic qualitative analysis. This course is appropriate for students majoring in chemistry, biological sciences, and chemical engineering, and satisfies the admissions requirements for medical, dental, veterinary, and other health-related graduate programs.

54 Lecture hours
108 Lab hours

CHICANO STUDIES

Division of Behavioral & Social Sciences

CHST 101

Introduction to Chicano Studies
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This is an introductory course that examines the cultural, economic, educational and political issues as they impact the Chicana/o in the U.S. Topics include Chicana/o identity, ethnic/racial paradigms, gender, language, race, educational attainment, immigration, labor, and poverty. Students interested in this course may include individuals with familiar or
personal connections to the Chicano (Mexican-American) community and/or those intending to work in environments with high concentrations of this population.

3 Units

54 Lecture hours

CHST 146
The Mexican American in the History of the U.S.
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is a survey of the history of the Mexican/Mexican-American people in the United States presented in the context of U.S. history and government. The course begins with a discussion of the Mexican American War and the Treaty of Guadalupe Hidalgo, and goes on to examine the Mexican American struggle for full integration into U.S. society. Key topics include repatriation, unionism, Mexican American GIs on the Pacific and European war front, postwar struggles for economic and social justice, radicalism, and concludes with an examination into the dramatic growth of the Mexican/Mexican-American population in the U.S. Students interested in this course may include individuals with familial or personal connections to the Chicano (Mexican-American) community and/or those intending to work in environments with high concentrations of this population.

3 Units

54 Lecture hours

CHST 150
Chicano Politics (Same as POLS 150)
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course examines U.S. history and political issues relevant to the Chicano/Latino community, provides an overview of Chicano/Latino demographics in the U.S. examines Chicano/Latino political activism and the rise of Chicano/Latino political leadership. Students interested in this course may include individuals with familial or personal connections to the Chicano (Mexican-American) community and/or those intending to work in environments with high concentrations of this population.

3 Units

54 Lecture hours

CHILD DEVELOPMENT
Division of Behavioral & Social Sciences

CD 095
Current Issues in Child Development
Advisory: CD 106; CD 110
A working knowledge of current issues in the field of Child Development, leadership and advocacy skills and professionalism will be the focus of this course. The course is meant for students who are interested in understanding the current issues and changes in the field of Child Development. This course meets State Of California Teacher Credentialing requirements for the Child Development Permit and Department of Social Services Classification Indicator DS3.

1 Unit

18 Lecture hours

CD 102 (C-ID ECE 220)
Nutrition, Health and Safety for Children
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed for students preparing for a profession working with children and their families or those interested in furthering their understanding of child and adolescent development. This course is also designed to meet the Department of Social Service Classification DS1 and applies toward the State of California related to child nutrition, health and safety. Topics will include prevention and recognition of infectious disease, immunization, dental and mental health, child nutrition, menu planning, sanitary food handling, prevention of injury, emergency preparedness and evacuation, providing services for children with special needs and child abuse prevention, identification and reporting responsibilities. The importance of program collaboration with families and health professionals will also be addressed. This course meets the Department of Social Services Classification Indicator DS7 and the State of California Department of Education Title V Child Development Permit.

3 Units

54 Lecture hours

CD 103
Parenting
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed for students who are interested in gaining information to understand and work effectively with parents and to understand the parent-child relationships in their own lives. The course provides a framework for topics pertinent to current parenting concepts. The following topics will be explored and examined: understanding the parenting process from infancy to adulthood, parenting in diverse cultures, various life styles and family structures, alternatives to biological parenting and understanding high risk families.

3 Units

54 Lecture hours

CD 106 (C-ID CDEV 100)
Child Growth and Development
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC (credit limit *), CSU (*Students will receive credit from UC for only one of the following courses: CD 106 or PSY 112)
This course provides an overview of human growth from conception to adolescence. The theories of development relevant to life through the teenage years are introduced and the social, emotional, cognitive and physical aspects of these early stages of life are addressed. This course is appropriate for students preparing for a profession working with children and their families or those interested in furthering their understanding of child and adolescent development. This course is also designed to meet the Department of Social Service Classification DS1 and applies toward the State of California.
CD 110 (C-ID ECE 120) Principles and Practices of Early Childhood Education
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed for students desiring to work in educational programs for children from birth to age eight. The course is an examination of the underlying theoretical principles of developmentally appropriate practices applied to programs, environments, emphasizing the key role of relationship, constructive adult-child interaction and teaching strategies in supporting physical, social, creative and intellectual development for all children. This course includes a review of the historical roots or early childhood programs and the evolution of the professional practices promoting advocacy, ethics and professional identity. This course meets the Department of Social Services Classification Indicator DS3 and the State of California Department of Education Title V Child Development Permit.
3 Units
54 Lecture hours

CD 111 (C-ID ECE 130) Early Childhood Education Curriculum
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This introductory course presents current concepts in childhood curriculum development and implementation. The student will design curriculum based on observation and assessment of young children to support play and learning using developmentally, inclusive and anti-bias principles in collaboration with families to support all children; demonstrate knowledge of the teachers' role in evaluating best practices and apply understanding of children’s learning and development. This course is meant for students who plan to create and implement children’s educational programs. This course is also designed to meet the State of California Title 22 Department of Social Service Classification Indicator DS3 and applies toward the State of California Title V requirements for the Child Development Permit.
3 Units
54 Lecture hours

CD 114 (C-ID ECE 200) Observation and Assessment
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed for students working towards a Child Development permit. The course focuses on appropriate use of assessment and observation strategies to document development, growth, play and learning in order to join with families and professionals in promoting children’s success and maintaining quality programs. Recording strategies, rating systems, portfolios, and multiple assessment methods are explored. Advantages and disadvantages of observation techniques, observer bias and cultural considerations are discussed. This course meets the Department of Social Services Classification Indicator DS 3 and applies toward the State of California Title V requirement for the Child Development Permit.
3 Units
54 Lecture hours

CD 115 Creative Art Experiences for Children
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course provides a comprehensive study of creativity and its impact on child development. A developmental perspective will be utilized as students explore creative art and its impact on the whole child, the artistic development process, aesthetics, the elements of art, specific art program approaches, artistic styles, facilitating and supporting creative art experiences for children, art assessment techniques and specific art experiences. This course is appropriate for students interested in working with children in group care and educational environments. Applies towards the State of California Title 22 Department of Social Services Classification Indicator DS 3 and State of California Teacher Credentialing requirements for the Child Development Permit.
3 Units
54 Lecture hours

CD 118 Development of Science and Math Experiences
Advisory: ENGL 030 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course provides a framework from which to explore the theories, philosophies, principles, and implementation of science and math experiences for children from birth to early adolescence. Emphasis is placed upon theoretical and developmentally appropriate foundations with practical application in the form of developmentally appropriate activities for use in the school and the child care center. This course is targeted for students preparing for a career in teaching children. The course meets the Department of Social Services Classification Indicator DS3 and applies towards the State of California Department of Education Title V Child Development Permit.
3 Units
54 Lecture hours

CD 119 Music and Movement for Children
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course offers a framework for providing developmentally appropriate music and movement principles and experiences for children birth to early adolescence. The developmental characteristics of movement and music abilities will be outlined along with the basics of movement and music education. Students will participate in music and movement related activities. This course is designed for students interested in working with children in group care and educational programs. The course meets the Department of Social Services Classification Indicator DS3 and applies towards the State of California Department of Education Title V Child Development Permit.
3 Units
54 Lecture hours

CD 120 Experiences in Language Arts
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed for students who are interested in promoting and facilitating the language development of children. The course is a study of philosophies, principles and implementation of language arts experiences for children from birth to early adolescence. The theoretical basis of language development and systems of teaching literacy will be addressed. Literature, dramatics, flannel board stories, puppetry, and storytelling are incorporated into the course as strategies for language acquisition as well as literacy activities. The course meets the Department of Social Services Classification Indicator DS3 and applies towards the State of California Department of Education Title V Child Development Permit.
3 Units
54 Lecture hours
CD 208 (C-ID CDEV 110)
Child, Family and Community
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for students desiring to work with children in a group setting, as well as for parents and others who wish to further their understanding of how the socio-cultural environment affects the developing child. The course examines the historical and contemporary inter-relationship of family, school and community on child development. The process of socialization and identity formation will be highlighted, showing the importance of respectful, reciprocal relationships that support and empower families. This course meets the Department of Social Services Classification Indicator DS2 and the State of California Department of Education Title V Child Development Permit.
3 Units
54 Lecture hours

CD 211
Infant and Toddler Development
(Formerly ECE 211, ECE 011)
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is a study of infants and toddlers from pre-conception to age three including physical, cognitive, language, social, and emotional growth and development. The focus of this course applies theoretical frameworks to interpret behavior and interactions between heredity and environment. It also emphasizes the role of family and relationships in development. This course meets the Department of Social Services Classification Indicator DS4 and applies towards the State of California Department of Education Title V Child Development Permits.
3 Units
54 Lecture hours

CD 221
Care and Education for Infants and Toddlers
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course applies current theory and research to the care and education of infants and toddlers in group settings. It examines essential policies, principles and practices that lead to quality care and developmentally appropriate curriculum for children birth to 36 months. The course meets the Department of Social Services Classification Indicator DS4 and applies towards the State of California Department of Education Title V Child Development Permits.
3 Units
54 Lecture hours

CD 224 (C-ID ECE 230)
Diversity Issues During Early Childhood, School Age and Adolescence
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course addresses the similarities, variety and multiplicity found within programs and educational settings for Young Children, School Age Children and Adolescents. Topics covered include: family values, culture, race, gender, social class, sexual preference, language and abilities. Focus will also be placed on developmental appropriateness in addressing diversity, parental perspectives and the effects of diversity on the domains of development. This course is designed for students wishing to work in children’s programs and educational settings. This course meets the Department of Social Services Classification Indicator DS 3 and applies towards the State of California Department of Education Title V Child Development Permits.
3 Units
36 Lecture hours
54 Lab hours

CD 226
Introduction to Children with Special Needs
(Formerly ECE 226, ECE 026)
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course introduces the variations in development of children with special needs ages birth through eight and the resulting impact on families. It includes an overview of historical and societal influences, laws relating to children with special needs, and the identification and referral process. This course will prepare students who wish to work in children’s programs or educational environments to facilitate the learning and development of children with special needs. Application toward the State of California Teacher Credentialing requirements for the Child Development Permit.
3 Units
54 Lecture hours

CD 228 (C-ID ECE 210)
Early Childhood Education Practicum
(Formerly ECE 228, ECE 028A)
Prerequisite: CD 106, CD 110, CD 111, CD 114 and CD 208; Verification of immunizations against influenza, pertussis, and measles and freedom from tuberculosis are necessary to fulfill the lab requirement of this course.
Advisory: READ 023 or appropriate assessment
Transfers to: CSU
In this capstone course, the student will practice and demonstrate developmentally appropriate early childhood program planning and teaching competencies under the supervision of Child Development faculty and other qualified early education professionals. Students will utilize practical classroom experiences to make connections between theory and practice, develop professional behaviors, and build a comprehensive understanding of children and families. Child centered, play-oriented approaches to teaching, learning, and assessment; and knowledge of curriculum content areas will be emphasized as student teachers design, implement and evaluate experiences that promote positive development and learning for all children. This course is designed for students looking for a supervised field/laboratory experience in an early childhood setting. The course meets the Department of Social Services Classification Indicator DS3 and applies towards the State of California Department of Education Title V Child Development Permits.
3 Units
36 Lecture hours
54 Lab hours

CD 229
Literacy Development for Children
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is appropriate for students interested in facilitating and supporting literacy development in children enrolled in group care and educational environments. Focus is on effective skills and techniques utilized by teachers and caregivers to enhance the development of Emergent Literacy skills throughout childhood. Students will develop knowledge of the sequence of Literacy and Language Development, Developmentally Appropriate Practices in classroom environments and a Balanced Literacy Approach. Effective assessment, curriculum and techniques to promote skill development will also be introduced. This course is appropriate for students who are interested in working with children in group care and education programs. The course meets the Department of Social Services Classification Indicator DS3 and applies towards the State of California Department of Education Title V Child Development Permits.
3 Units
54 Lecture hours
CD 232
Curriculum and Strategies for Children with Special Needs
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course covers curriculum and intervention strategies for working with children with special needs in partnership with their families. It focuses on the use of observation and assessment in meeting the individualized needs of children in inclusive and natural environments. Topics included are the role of the teacher as a professional working with families, collaboration with interdisciplinary teams, and cultural competence. The course meets the Department of Social Services Classification Indicator DD5 and applies towards the State of California Department of Education Title V Child Development Permits.
3 Units
54 Lecture hours

CHINESE
Division of Communications & Languages

CHIN 102
Chinese II
Prerequisite: Completion of CHIN 101 with a grade of "C" or better, or completion of 2 years high school Chinese with a grade of "C" or better.
Advisory: READ 023 or appropriate assessment; ENGL 035 or ENLA 100 or appropriate assessment
Transfers to: UC, CSU
This course is a continuation of the essentials of the Chinese Language. The course stresses oral and written proficiency through fundamental use of Chinese pronunciation and the Pinyin Spelling System. Students will continue to further their knowledge of Chinese characters. Various facets of Chinese history, culture, and civilization will also be analyzed via cross-cultural comparisons. In addition to classroom discussion, students are required to complete at least 18 hours of intensive individualized oral-aural practice in the Language Laboratory via interactive websites, audio CDs, video programs, and films. The Language Laboratory focuses on vocabulary, grammar and cultural practices. The Languages Department as a whole mandates the requirement of 18 hours of independent lab work per semester. This course is intended for those interested in learning to speak Chinese as well as for those seeking a degree in the Chinese language.
4 Units
72 Lecture hours

CIV 142
Introduction to Surveying and GPS
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment
Transfers to: CSU
This course is for all students interested in the career field of Civil Engineering and related sub-disciplines who are interested in pursuing a career in the field of Land Surveying. This course presents advanced applications that will cover the theory and practice of plane surveying, including principles of position, horizontal and vertical curves, construction staking, alignments, field procedures, U.S. Public Land Survey System, boundary surveying, use and care of surveying equipment. The fundamentals of global positioning systems (GPS) and their applications in land surveying will also be introduced. This course will also be beneficial for those in the construction industry who need to acquire property data.
4 Units
54 Lecture hours
54 Lab hours

CIV 143
Applications to Surveying and GPS
Prerequisite: CIV 142
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment
Transfers to: CSU
This course is for all students with a basic understanding of surveying who are interested in pursuing a career in the field of Land Surveying. This course presents advanced applications that will cover the theory and practice of plane surveying, including principles of position, horizontal and vertical curves, construction staking, alignments, field procedures, U.S. Public Land Survey System, boundary surveying, use and care of surveying equipment.
4 Units
54 Lecture hours
54 Lab hours
construction material. The course is intended for individuals who intend to pursue careers in construction and students who wish to progress into Construction Management as a Civil Engineering sub-discipline. The material includes focus on the components of concrete, physical properties, mix design, quality control, and placing & testing of concrete. The course includes classroom lectures and assignments, as well as lab projects with direct experience in working with and testing concrete.

2 Units
36 Lecture hours
54 Lab hours

CIV 241
Civil Engineering Drafting and Design
Prerequisite: CIV 140; ENGT 150 or ENGT 170
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is for all students interested in the career field of Civil Design Drafting and Civil Engineering. The course is an intermediate level class in which the practices and the preparation of drawings, pertaining to the civil engineering field, will be expanded to include the development of maps and drawings used for site development, grading and drainage, and road alignment. Preparation of construction documents for buildings and other related constructs will be included as well. Other topics to be covered include project notes, specifications, and details for Civil Engineering drawings. The students will use both hand drafting and Computer Aided Drafting (CADD) to complete projects related to the aforementioned covered topics.

3 Units
36 Lecture hours
54 Lab hours

CIV 245
Civil Engineering Design and Modeling
Prerequisite: CIV 140; ENGT 150 or ENGT 170
Advisory: READ 023 or appropriate assessment; ENGL 030 or ENLA 034 or appropriate assessment
Transfers to: CSU
This course is for all students interested in the career field of Civil Design Drafting and Civil Engineering. Civil Design & Modeling is an advanced level class which includes design, analysis, and the preparation of drawings used in the Civil Engineering field. The student will use Civil Engineering software, such as Bentley’s In-Roads or AutoCAD’s Civil 3D to complete projects relating to transportation and site development including grading, drainage, and road alignment plans and details. Specific areas of focus include the use of the software for modeling and editing of terrain, surfaces, profiles, and cross-sections as well as earthwork computations and site planning design.

3 Units
36 Lecture hours
54 Lab hours

CIV 290
Cooperative Work Experience/Internship for Civil Related Fields
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course supports and reinforces on-the-job training in business and industrial establishments under supervision of a college instructor and is facilitated by the use of learning objectives. The student will be working in a skilled or professional level assignment in their area of vocational interest and will meet performance objectives related to instruction that are above and beyond the conditions of regular employment. This course is intended for students whose job is in civil engineering design / drafting related fields and have completed or enrolled in the appropriate coursework. Instructor approval is needed to remain in the class. “Contact the CWE office regarding re-enrollment procedures.”

Student Unpaid Internship:
1 Unit/60 hours; 2 Units/120 hours; 3 Units/180 hours; 4 Units/240 hours

Student Paid Internship:
1 Unit/75 hours; 2 Units/150 hours; 3 Units/225 hours; 4 Units/300 hours.
1 to 4 Units
3 Lecture hours
60 to 300 hours

CIV 299
Directed Study in Civil Design Technology
Prerequisite: 2.5 overall grade point average, a 3.0 grade point average in the discipline of study being requested, or receive an exception from the instructor. Students may take a maximum of 3 units of Directed Study within a discipline and 9 units college-wide.

1 to 3 Units
54 to 162 Lab hours

COMPUTER INFORMATION TECHNOLOGY
Division of Business

CIT 101
Introduction to Computer Information Technology
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This is an introductory computer course, which offers students both fundamental computer concepts and training in spreadsheets and database microcomputer applications. Topics include the importance of computers in business and society, the information processing cycle, the Internet, communication and networks, the latest hardware and software developments, and planning a career as a computer professional or a computer user. This is the basic computer course designed for Business majors.

3 Units
54 Lab hours

CIT 102
Introduction to Microsoft Office
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is intended as an introduction for students wanting to learn the latest version of the integrated program suite of Microsoft Office Professional. The student will be provided with the basics of each of the programs in the suite - Word, Excel, Access, PowerPoint, and Outlook as well as their Internet integration. In addition, an introduction to fundamental computer concepts will be presented including hardware and software basics, file management, computer networks and communications.

3 Units
45 Lecture hours
27 Lab hours

CIT 103
Microsoft Word
Prerequisite: CIT 101
Advisory: READ 023 or appropriate assessment
Transfers to: CSU
This is a thorough introduction to the word processing application
Microsoft® Word®. This course will provide instruction in the use of the latest version of word processing software for business applications. Students will learn the basic editing and formatting functions of the program. Document maintenance, formatting enhancements, and the creation and formatting of tables will also be presented. Additional topics include macros and styles, specialized tables, protected forms and shared documents. This course is intended for students desiring to complete the requirements for the Computer Information Technology Microcomputer Specialists Degree or professionals wanting to master Microsoft Word.

3 Units
45 Lecture hours
27 Lab hours

CIT 107 Microsoft Excel
Prerequisite: CIT 101
Advisory: READ 023 or appropriate assessment
Transfers to: CSU

This is a comprehensive spreadsheet application course which will provide instruction in the use of the latest version of spreadsheet software for business applications. Students will learn to create and format a workbook, work with formulas and functions, create charts, tables and PivotTables. Students will also learn advanced functions, and develop Excel applications. This course is intended for students desiring to complete the requirements for the Computer Information Technology Microcomputer Specialists Degree or professionals wanting comprehensive knowledge of Microsoft® Excel®.

3 Units
45 Lecture hours
27 Lab hours

CIT 111 Introduction to Programming
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment; CIT 101
Transfers to: CSU

This course is designed to develop the problem-solving abilities of the student who intends to continue in the computer field. Various techniques used will include hierarchy diagrams, data flow diagrams, flow-charting, data diagrams, and pseudo code. This course will also include information on Microsoft Visual Studio.NET’s integrated development environment (IDE).

3 Units
54 Lecture hours

CIT 125 Introduction to C++ Programming
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment; CIT 111
Transfers to: UC, CSU

This course is intended for students desiring to complete the requirements for the Computer Information Technology Degree or professionals who want to continue developing their programming skills using Visual C++ programming language. This course will cover the fundamentals of software development using the most popular language: C++. The topics covered include: designing, writing the source code, compiling, linking, executing, debugging, data types, arithmetic/logical expressions, pointers, looping, branching, classes, objects and static and dynamic memory allocation.

4 Units
63 Lecture hours
27 Lab hours

CIT 126 Advanced C++ Programming
Prerequisite: CIT 125
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment; CIT 111
Transfers to: UC, CSU

This course is intended for students desiring to complete the requirements for the Computer Information Technology Degree or professionals who want to continue developing their programming skills using an object-oriented programming language. This course will review the fundamentals of software development and cover the advanced programming skills using the C++ language. Advanced topics include: classes and data abstraction, operator overloading, inheritance, virtual function and polymorphism, stream I/O and Exception Handling.

4 Units
63 Lecture hours
27 Lab hours

CIT 130 Windows Server Active Directory
Prerequisite: CIT 130
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU

This course is designed for students preparing to take the Windows Server operating system certification exam. Students will learn to install, upgrade and migrate from previous versions to the current Windows client operating system and deploy Windows using system images and configure virtual hard disks. Students will also learn to configure hardware & applications, network connectivity, access to resources, mobile computing, backup and recovery, and monitoring and maintaining systems that run Windows.

3 Units
36 Lecture hours
36 Lab hours

CIT 133 Windows Server Applications Infrastructure
Prerequisite: CIT 130
Advisory: ENGL 035 or ENLA 100 or appropriate assessment
Transfers to: CSU

This course is designed for students preparing to take the Windows Server Applications Infrastructure certification exam. Students will learn...
deploy servers, configure remote desktop services, configure web services infrastructure, and configure network application services.

### CIT 135
**Introduction to Java Programming**

- **Advisory:** ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment; CIT 111
- **Transfers to:** UC, CSU

This course is intended for students desiring to complete the requirements for the Computer Information Technology Degree or professionals wanting an introduction to Java Programming. This course will cover the fundamentals of software development using the most popular Open Source language – Java. Course topics include: program design, algorithms, writing and testing source code, arithmetic/logic expressions, control structures, objects and basic Java structures.

- **3 Units**
- **36 Lecture hours**
- **27 Lab hours**

### CIT 136
**Advanced Java Programming**

- **Prerequisite:** CIT 135
- **Advisory:** ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment; CIT 111
- **Transfers to:** UC, CSU

This course is intended for students desiring to complete the requirements for the Computer Information Technology Degree or professionals who want to continue developing their programming skills using Java. This course covers the basics of the software development and the advanced programming skills using Java. Topics include Java data syntax, data structure, applets, graphics, animation, inheritance, abstract windows toolkit, exception handling, file input and output, and multi-threading.

- **4 Units**
- **63 Lecture hours**
- **27 Lab hours**

### CIT 137
**Introduction to Web Page Design for Business**

- **Advisory:** ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment; CIT 101
- **Transfers to:** CSU

This course provides students with an understanding of the fundamentals of HTML (Hypertext Markup Language) programming to design Web pages. Students will create custom Web pages for personal Internet and business Intranet environments. Students will also learn to use cascading style sheets (CSS) and scripting languages.

- **3 Units**
- **45 Lecture hours**
- **27 Lab hours**

### CIT 155
**Introduction to E-Commerce**

- **Advisory:** ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment; CIT 101
- **Transfers to:** CSU

This course offers a hands-on problem-solving approach for learning the basics to more advanced features of doing business on the Internet. You will learn to use E-commerce effectively, such as: gather corporate information, make a purchase online, develop an effective company Web site, or find global trading partners. You will learn how and why electronic commerce is an important part of our economy and our society.

- **3 Units**
- **54 Lecture hours**

### CIT 160
**Introduction to Operating Systems**

- **Advisory:** CIT 060
- **Transfers to:** CSU

This course provides an overview of the operating systems that are currently used to create an e-business infrastructure. Operating systems discussed include Windows, Unix, Linux, Novell and Mac and their use in the industry. An in-depth study of Windows 2000 Server is also presented. Topics discussed are how to setup, install, and administer Windows 2000 Servers. This course is designed for students interested in learning operating systems and the use of operating systems in running corporate information systems.

- **3 Units**
- **36 Lecture hours**
- **54 Lab hours**

### CIT 180
**PC Maintenance-A+ Certification**

- **Prerequisite:** CIT 101
- **Advisory:** READ 023 or appropriate assessment
- **Transfers to:** CSU

This course will prepare students with the necessary competencies of an entry-level IT professional with hands-on experience and theory in computer technology, networking and security. The student will also learn communication skills and professionalism now required of all entry-level IT professionals. This course is intended for IT students wanting to prepare for the CompTIA A+ Essentials and CompTIA A+ Practical Application examinations, the two exams required to achieve CompTIA A+ certified status.

- **4 Units**
- **54 Lecture hours**
- **54 Lab hours**

### CIT 190
**Introduction to Information Security**

- **Prerequisite:** CIT 101
- **Advisory:** READ 023 or appropriate assessment
- **Transfers to:** CSU

This course provides an introduction to the various technical and administrative aspects of information security. The student will gain an understanding of the key issues associated with protecting information assets, determining the levels of protection and response to security incidents, and designing a consistent, reasonable information security system, with appropriate intrusion detection and reporting features. This course is intended for IT students and professionals who want to develop a foundation in information security systems.

- **3 Units**
- **54 Lecture hours**

### CIT 192
**Network Security I**

- **Prerequisite:** CIT 101
- **Advisory:** ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; CIT 180
- **Transfers to:** CSU

This course is intended for students wanting to learn fundamentals of computer and information security and prepare for the CompTIA Security + certification exam. Students will learn about communication, infrastructure, and operational security, attack prevention, disaster recovery, computer forensics, use of Cryptography and Public Key Infrastructures (PKIs), remote access and Virtual Private Networks (VPN), web security, and combating malware.

- **3 Units**
- **45 Lecture hours**
- **27 Lab hours**

### CIT 200
**Systems Analysis and Design**

- **Prerequisite:** CIT 101
- **Advisory:** ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
- **Transfers to:** CSU

This course provides an overview of the processes, tools, and techniques used to analyze and design computer-based information systems. Students will gain an understanding of the systems development life cycle, strategic planning, feasibility
Cisco Networking I  
Prerequisite: CIT 101  
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; CIT 180  
Transfers to: CSU  
This course is the first of two courses designed to prepare students for the ICND 1 examination to achieve CCENT (Cisco® Certified Entry Networking Technician) Certification. Students will be introduced to networking concepts including but not limited to the OSI reference model, IP addressing, cabling, network topologies, network security, and configuration networking equipment. Students will be introduced to configuring Cisco® networking devices and create physical and virtual networks.  
3 Units  
45 Lecture hours  
27 Lab hours  

Cisco Networking II  
Prerequisite: CIT 210 with a grade of "C" or better  
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; CIT 101; CIT 180  
Transfers to: CSU  
This course is the second of two courses designed to prepare students for the ICND 2 examination to achieve CCENT (Cisco® Certified Entry Networking Technician) certification. Students will learn about routing and switching in a large and complex network. Students will also learn to configure and troubleshoot routers and switches and resolve common issues with OSPF, EIGRP, STP, and VTP in both IPv4 and IPv6 networks along with developing skills needed to implement DHCP and DNS operations in a network.  
3 Units  
45 Lecture hours  
27 Lab hours  

Cisco Networking III  
Prerequisite: CIT 211 with a grade of "C" or better  
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; CIT 101; CIT 180  
Transfers to: CSU  
This course is the first of two courses designed to prepare students for the ICND-2 examination to achieve CCNA (Cisco® Certified Network Administrator) certification. Students will learn the architecture, components and operations of routers and switches in a large and complex network. Students will also learn to configure and troubleshoot routers and switches and resolve common issues with OSPF, EIGRP, STP, and VTP in both IPv4 and IPv6 networks along with developing skills needed to implement DHCP and DNS operations in a network.  
3 Units  
45 Lecture hours  
27 Lab hours  

Cisco Networking IV  
Prerequisite: CIT 212 with a grade of "C" or better  
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; CIT 101; CIT 180  
Transfers to: CSU  
This course is the second of two courses designed to prepare students for the ICND-2 examination to achieve CCNA (Cisco® Certified Network Administrator) certification. Students will learn about WAN technologies and network services for complex networks. Students will learn to troubleshoot network devices and issues with data link protocols, and implement IPSEC and virtual private networks.  
3 Units  
45 Lecture hours  
27 Lab hours  

Cooperative Work Experience/Internship for Computer Technology Related Fields  
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment  
Transfers to: CSU  
This course supports and reinforces on-the-job training in a professional environment and will meet performance objectives related to instruction that are above and beyond the conditions of regular employment.  
3 Units  
1 to 4 Units  
3 Lecture hours  
60 to 300 hours  

COOPERATIVE WORK EXPERIENCE-GENERAL  
Division of Career & Technical Education  

CLEG 290  
Cooperative Work Experience Education - General  
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment  
Transfers to: CSU  
This course supports and reinforces on-the-job training in an actual work environment under the supervision of a college instructor and is facilitated by the use of learning objectives. The student will be working in a professional environment and will meet performance objectives related to instruction that are above and beyond the conditions of regular employment.  
Student Paid Internship: 1 unit/75 hours; 2 units/150 hours; 3 units/225 hours  
1 to 3 Units  
3 Lecture hours  
75 to 225 Other hours  

CORRECTIONS  
Division of Public Safety  

CORR 101 (C-ID AJ 200)  
Introduction to Corrections  
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment  
Transfers to: CSU  
This course is designed to provide Corrections or other interested students with an overview of the history, philosophy, law, and practice of corrections. It will focus on probation, parole, legal issues, specific laws and the general operation of correctional institutions. The relationship between corrections and other components of the justice system will also be examined. This course has been transferred to the Peace Officer Standards and Training Board of the Peace Officers Association to fulfill educational requirements of the
CPOST Certificate for newly hired officers after July 1, 1995 by CDC and CYA.

**3 Units**

**54 Lecture hours**

**CORR 104**

Control and Supervision in Corrections  
*Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; CORR 101*  
*Transfers to: CSU*

This course is designed to provide Corrections or other interested students with an overview of supervision of inmates in the local, state and federal correctional institutions. The issues of control in a continuum form of institutional daily living through crisis situations will be introduced and discussed. The course will emphasize the role played by the offender and the correctional worker. Topics include inmate subculture, violence and effects of crowding on inmates and staff, and coping techniques for correctional officers in a hostile prison environment. The causes and effects of abusive tactics will also be discussed. This course has been identified by the Correctional Peace Officer Standards and Training Board of the California Department of Corrections, California Youth Authority, and California Correctional Peace Officers Association to fulfill educational requirements of the CPOST Certificate for newly hired officers after July 1, 1995 by CDC and CYA.

**3 Units**

**54 Lecture hours**

**CORR 106**

Legal Aspects of Corrections  
*Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; CORR 101*  
*Transfers to: CSU*

This course is designed to provide Corrections or other interested students with an awareness of the historical framework, concepts, and precedents that guide correctional practice. Course material will broaden the individual’s perspective of the corrections environment, civil rights of prisoners, and responsibilities and liabilities of corrections officials. This course has been identified by the Correctional Peace Officer Standards and Training Board of the California Department of Corrections, California Youth Authority, and California Correctional Peace Officers Association to fulfill educational requirements of the CPOST Certificate for newly hired officers after July 1, 1995 by CDC and CYA.

**3 Units**

**54 Lecture hours**

**CORR 134**

Introduction to Interviewing and Counseling  
*Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; CORR 101*  
*Transfers to: CSU*

This course is designed to provide Corrections or other interested students with an overview of the techniques available to entry level practitioners in counseling and interviewing. While it is an introduction to approaches of behavior modification through interviewing and counseling, some of the advanced methods utilized by professional counselors such as game concepts, transactional analysis, sensitivity and confrontation methods will also be examined. The development of positive relationships between the client and support personnel will be stressed.

**3 Units**

**54 Lecture hours**

**CORR 208**

Leadership in Corrections  
*Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment*  
*Transfers to: CSU*

This course is designed to provide Corrections or other interested students with an overview of the skills necessary to be an effective leader in a correctional setting. Topics addressed include the unique challenges faced by executives managing in prison settings, approaches to ensuring the creation and maintenance of a safe prison environment, and techniques for personnel development.

**3 Units**

**54 Lecture hours**

**CORR 209**

Case Load Management  
*Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment*  
*Transfers to: CSU*

This course is designed to provide Corrections or other interested students with an introduction to effective caseload management in a correctional setting. Topics include the laws, policies, and bargaining units that govern caseload management. Specialized supervision issues such as offenders with psychological problems and second strike offenders will also be addressed.

**3 Units**

**54 Lecture hours**

**CORR 210**

Supervision in Public Safety  
*Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment*  
*Transfers to: CSU*

This course is designed to provide Corrections or other interested students with an overview of the characteristics needed to be an effective supervisor in a correctional setting. Topics include basic supervisory responsibilities, the importance of effective interpersonal communications, and managing personnel complaints in a prison setting.

**3 Units**

**54 Lecture hours**

**CORR 235**

Conflict Resolution  
*Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment*  
*Transfers to: CSU*

This course is designed to provide Corrections or other interested students with an in-depth understanding of conflict situations in which abnormal or non-normal behavior is manifested. Topics covered include concepts of anxiety, fear, frustration, hostility, aggression, motivation and manipulation roles. Racial and cultural segregation, crowd and mob interaction, alcohol, drugs, sexual problems, character, neurotic and psychotic disorders, youthful offenders, stress of incarceration and brain disorders will also be discussed.

**3 Units**

**54 Lecture hours**

**CORR 264**

Inmate Discipline in Corrections  
*Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment*  
*Transfers to: CSU*

This course is designed to provide Corrections or other interested students with the correctional process of inmate discipline. Topics covered include due process, disciplinary process, disciplinary reports, findings and disposition. The curriculum covered is recommended by the California Commission on Peace Officer Standards and Training.

**3 Units**

**54 Lecture hours**

**CORR 265**

Supervision of Sex Offenders  
*Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment*  
*Transfers to: CSU*

This course is designed to provide California Peace Officers or other interested students with instruction into the correctional process of supervision of inmates who have been convicted of sex offenses. Topics include human sexuality and dysfunctions, theories of sexual offense, offender typologies and supervision techniques. The curriculum follows that recommended by the California
Commission on Peace Officer Standards and Training and the California Corrections Commission on Peace Officer Standards and Training.

3 Units
54 Lecture hours

COUN 101 (same as EDEV 101)
College and Life Success
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU

This course is designed to provide California Peace Officers or other interested students with an in-depth understanding of public safety communication in the Correctional field. Topics include techniques of effectively communicating facts of information and ideas in a clear and logical manner for public safety reports. Students will gain practical experience in interviewing, note taking, report writing, and testifying.

3 Units
54 Lecture hours

COUN 101A
College and Life Success
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC (credit limit*), CSU

(*The UC will grant a maximum of 3 units credit for COUN 101, 101A, 101B and 151 combined)

This course provides an exploration of cognitive, psychological, social, and physical factors influencing success in college and in life. Topics include personal responsibility, critical thinking, motivation, self-efficacy, personal awareness, life-long learning, self-management, health and wellness, interpersonal communication in a diverse world, and introduction to career and educational planning. Students will learn about the purpose, demands, requirements, and support services of higher education including both Rio Hondo College and four year institutions.

3 Units
54 Lecture hours

COUN 105
Orientation and Education Planning
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: CSU

This course is designed for first-time college students as well as students who have not yet developed an individual education plan. Students will be oriented to Rio Hondo College policies and procedures, learn about certificate/degree options within the higher education system, and the graduation/transfer requirements within these systems. The course will culminate in the development of an individual education plan based on each student’s specific academic goal.

0.5 Units
9 Lecture hours

COUN 151
Career Exploration and Life Planning
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC (credit limit*), CSU

(*The UC will grant a maximum of 3 units credit for COUN 101, 101A, 101B and 151 combined)

This course will examine student, career and self-development theories to empower students to make effective decisions throughout their lifespan by engaging in the process of career and life planning from a psychological, sociological and physiological perspective. Students will compare and contrast human development and career theories, decision-making, factors that contribute to college success, life skills, adult workplace competencies, values, interest, abilities, and personality, labor market trends in a global economy, and successful job search and workplace behaviors.

3 Units
54 Lecture hours

COUN 290
Cooperative Work Experience/Internship for Student Services Related Fields
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU

This course supports and reinforces on-the-job training in the Student Services field under supervision of a college instructor and is facilitated by the use of learning objectives. The student will be working in a skilled or professional level assignment in the area of Student Services and will meet performance objectives related to instruction that are above and
DANCE
Division of Kinesiology, Dance, and Athletics

Dance Activity Courses

Dance activity courses may be used in place of Kinesiology (formerly P.E.) activity courses to fulfill degree requirements.

DANC 114
Conditioning and Alignment for the Dancer
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed to provide the physical training and preparation for students interested in Dance, Yoga, and/or Pilates and is suitable for individuals seeking to move with greater efficiency and less pain in everyday activities. Students will learn how to move the body in a safe and effective manner and develop strength, flexibility, proper alignment, agility, balance, and coordination. Course work is designed for those wishing to work at a more deliberate pace and in a non-competitive atmosphere, or who are recovering from prior injury.

1 Unit
54 Lab hours

DANC 150
Introduction to World Dance
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU

Introduction to World Dance offers dance and non-dance students an opportunity to study cultural diversity through the activity of dance. Students learning how to analyze and perform basic movement patterns as they compare and contrast the social conventions, religious traditions, and historic contexts represented in a collection of multi-cultural dance forms.

1 Unit
54 Lab hours

DANC 151
Modern Dance I
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU

Modern Dance I is a studio course offering the beginning modern dancer an introduction to the fundamental principles of modern dance. This course emphasizes an awareness of breath and gravity, skeletal alignment and core strength and investigates kinesthetic and spatial awareness. Modern dance technique, improvisational exercises, and choreographic phrases provide physical, mental, and creative exploration for beginner students, those preparing for transfer, and those seeking careers in dance. This course may be repeated three times for credit.

1 Unit
54 Lab hours

DANC 152
Dance Rehearsal and Performance
Corequisite: DANC 180
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 022 or appropriate assessment; DANC 151; DANC 159; DANC 251
Transfers to: UC, CSU

This introductory course provides experience and laboratory exploration in all aspects of dance rehearsal performance for beginner level students. Students have the opportunity to perform in an evening-length dance concert, work with faculty choreographers and guest artists, and participate as a member of a touring dance ensemble. Students contribute as dancers and rehearsal assistants under the supervision and guidance of faculty choreographers. Productions will be presented for public performance on and off campus.

1 Unit
18 Lecture hours
108 Lab hours

DANC 153
Ballet I
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU

This is an introductory course for those students who seek technical skill in classical ballet. The course will focus on body alignment, traditional steps and combinations, musicality, ballet terminology, and the development of strength and flexibility. Students will also gain knowledge of contemporary influences on ballet. This course may be repeated three times for credit.

1 Unit
54 Lab hours

DANC 154
Jazz Dance I
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU

Highly visible on stage and screen, Jazz Dance is an eclectic and versatile contemporary art form with deep roots in African American dance. Jazz Dance I is designed to introduce the beginning student to the fundamental polyrhythms, physical skills, terminology, and historical context that form the basis of Jazz technique. A variety of Jazz dance styles will be introduced, and may include tap, musical theater, contemporary lyrical, Latin, Cuban, Afro-Caribbean, pop, funk, hip-hop, Lindy Hop, and other African-American social dances that form the basis of this dance genre in the United States. Students may take any combination of four Jazz courses total.

1 Unit
54 Lab hours

DANC 155
Hip-Hop Dance
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC, CSU

Students will learn various forms of beginning hip-hop dance, including hip-hop funk, emphasizing body isolations, syncopations, and rhythms. The class will explore the use of space, energy, rhythm, movement dynamics, and improvisation while emphasizing body control, alignment, balance, and use of weight changes. A basic history of hip-hop culture and music will be discussed. The course fulfills an elective for the AA in Dance and appeals to dancers.
seeking careers in dance, students looking to expand their dance skills, and those wanting a dance aerobic workout.

1 Unit
54 Lab hours

DANC 159
Choreography I
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; DANC 151
Transfers to: UC, CSU
Choreography I is an introduction to the art and craft of dance composition. Through lecture and activity, students will learn how to incorporate the elements of dance: body, space, time, and energy, in order to create meaningful dance works. Basic elements of choreography, including form, design, motivation, phrasing, gait, gesture, rhythm, dynamics, musical accompaniment, and production basics, will be explored through improvisational exercises and experimentation. Additionally, students will learn to analyze dance critically. The class will culminate in the presentation of student choreography.

3 Units
36 Lecture hours
54 Lab hours

DANC 162
Dance Production
Corequisite: DANC 180
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 022 or appropriate assessment; DANC 151; DANC 159; DANC 251
Transfers to: UC, CSU
This course offers an introduction to the technical aspects of dance production and is designed for the beginner level dance student. Topics of exploration include basic staging, costume design, set design, make-up, lighting, sound production, and publicity. Productions will be presented for public performance either on and/or off campus.

3 Units
18 Lecture hours
108 Lab hours

DANC 168
Latin Social Dance
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC, CSU
Students will learn various types of beginning club and American-style Latin dance forms that may include Salsa, Cha Cha, Samba, Rumba, Merengue, Bachata and Bolero. This course emphasizes the use of proper lead and follow techniques as a form of communication between partners, and develops proper alignment, balance, body awareness, and rhythmic coordination which are necessary parts of appropriate social dancing technique. A basic understanding of partner dancing etiquette will also be addressed. The course appeals to students interested in the social aspect of dance, ones seeking experience in partnering work, and dancers seeking careers in dance.

1 Unit
54 Lab hours

DANC 172
Dance Repertory
Corequisite: DANC 180
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 022 or appropriate assessment; DANC 151; DANC 159; DANC 251
Transfers to: UC, CSU
This course provides dance students the opportunity to rehearse and perform choreographic works based on existing dance repertoire created by well-known and established choreographers, faculty, and/or guest artists. Students will learn how to analyze movement using basic elements of Laban Movement Analysis in preparation for stage. They will also experience different methods of reconstructing existing repertoire and gain knowledge about the historical significance of the repertoire explored. Productions will be presented for public performance either on and/or off campus.

3 Units
18 Lecture hours
108 Lab hours

DANC 179
Dance History
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course introduces the forces and figures which have shaped dance through history. Students will study dance forms from ancient to modern times through readings, films, and class discussions with particular focus on Western concert dance. Comparisons of various dance techniques, theories, and personalities who have contributed to the art of dance will also be covered.

3 Units
54 Lecture hours

DANC 180
Performance
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 022 or appropriate assessment; DANC 151; DANC 159; DANC 251
Transfers to: UC, CSU
This course provides dance students the opportunity to participate in dance productions. Productions will be presented for public performance either on and/or off campus. Students will learn how to adjust a performance for presentation on a stage, pre-performance and post-performance responsibilities will be outlined. In addition students will be exposed to basic stage direction and techniques for overcoming stage fright. This course may be repeated to a maximum of 4 units in different semesters.

1 Unit
54 Lab hours

DANC 182
Dance Ensemble
Corequisite: DANC 180
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 022 or appropriate assessment; DANC 151; DANC 159; DANC 162; DANC 251
Transfers to: UC, CSU
This course provides an opportunity for dance students to develop and practice dance ensemble skills necessary to rehearse and produce a professional dance performance. Modes of collaboration, basic ensemble skills used in the field of dance, rehearsal techniques, and the process of rehearsing and producing collaboratively will be covered. Productions will be presented for public performance either on and/or off campus.

3 Units
18 Lecture hours
108 Lab hours

DANC 199
Dance Appreciation
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This survey course is a multi-cultural exploration of one of the world’s oldest and most universal art forms. The history of ballet, jazz, modern, hip-hop, and musical theater dance are investigated through lecture, video and demonstration. In addition, dance will be analyzed in terms of Body, Effort, Space, and Shape and examined for cultural, social and political influences. This course is designed for students who want to gain an understanding of dance and for dance majors who want to broaden their knowledge.

3 Units
54 Lecture hours
and modern dance technique, the intermediate student will learn to perform combinations while shifting spatial orientation and integrating improvisation as required in auditions. Learning to create movement phrases, the Modern Dance II student will develop a sense of artistry and dynamic phrasing necessary for performing. Further understanding and identifying the underlying movement principles of modern dance, students will hone their technical skills in preparation for transfer or careers in dance. This course may be repeated three times for credit.

1 Unit
54 Lab hours

DANC 253
Ballet II
Prerequisite: DANC 153
Advisory: ENGL 055 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
Ballet II is an intermediate level course designed for students who wish to further develop the technical and performance skills acquired in Ballet I. The class includes more advanced technique work at the barre, across the floor, and in center floor combinations. Complex adagio and allegro dance sequences will also be introduced. Students will have the opportunity to perform in an informal showing or concert setting. This course may be repeated three times for credit.

1 Unit
54 Lab hours

DANC 254
Jazz Dance II
Prerequisite: DANC 154
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
Jazz Dance II is an intermediate level course designed for students who wish to further develop the technical and performance skills acquired in Jazz Dance I. Additionally, the historical and cultural aspects of Jazz Dance will be emphasized through lectures, readings and observations of a professional dance concert. Students will also have the opportunity to perform in an informal showing or concert setting. Students may take any combination of four Jazz courses total.

ECONOMICS
Division of Behavioral & Social Sciences

ECON 101 (C-ID ECON 202)
Principles of Macroeconomics
Prerequisite: MATH 050 or MATH 050D or MATH 053 with a grade of “C” or better or appropriate assessment
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This is an introductory course in which students learn to describe and analyze the performance and policies of national economic systems, with an emphasis on the US economy. It is intended for Economics or Business majors as well as to satisfy General Education requirements. Topics include production possibilities and tradeoffs; comparative economic systems; functions of government; national income and employment; business cycles; money and banking; monetary and fiscal policy; comparative advantage and trade policy; economic growth and stability; and income distribution and poverty.

3 Units
54 Lecture hours

ECON 101H (C-ID ECON 202)
Principles of Macroeconomics Honors
Prerequisite: ENGL 101 with a grade of “C” or better; MATH 070 or MATH 070D or MATH 073 or appropriate assessment
Advisory: READ 023 or appropriate assessment
Transfers to: UC, CSU
This is an introductory course in which students learn to describe and analyze the performance and policies of national economic systems, with an emphasis on the US economy. It is intended for Economics or Business majors as well as to satisfy General Education requirements. Topics include production possibilities and tradeoffs; comparative economic systems; functions of government; national income and employment; business cycles; money and banking; monetary and fiscal policy; comparative advantage and trade policy; economic growth and stability; and income distribution and poverty.

3 Units
54 Lecture hours

ECON 106
Economics of Contemporary Issues
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
The course is an introductory course designed for students interested in exploring how the tools of economics are used to analyze and debate critical issues facing society today. Economics will be applied to issues such as: health care, trade deficits, social security, crime, pollution, alternative energy, income inequality, global development, housing and homelessness, and immigration.

3 Units
54 Lecture hours

ECON 135 (same as POLS 135)
International Political Economy
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This is an introductory course designed for students interested in economics and political science,
as well as anyone interested in the global interconnectedness of the world economy. The course focuses on the relations between the political and economic systems within the global economy. The course covers the impact of political decisions on world economies and international organizations. Further emphasis is placed on a comparison-contrast of various national economies. Geographic areas of concern include Africa, Europe, the Pacific Rim, the Middle East, Latin America, Russia, China, and the United States. The course is cross-listed as Economics 135 and Political Science 135. Credit is given in either area, not both.

3 Units
54 Lecture hours

ED 110
Introduction to Teaching
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed to introduce students to the profession of teaching through lecture and observation of K-12 classrooms and public schools. The major aspects of the teaching profession will be examined, the diversity of the public school system will be discussed, and students will gain experience in all three levels of the K-12 system. This course is intended for students considering a career in teaching. 45 hours of structured fieldwork is required.

3 Units
54 Lecture hours

ED 120
Tutoring Reading in the Elementary School
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: CSU
This course provides preparation for a successful tutoring experience in reading at the elementary school level. Instruction will focus upon tutoring principles, stages of reading acquisition from pre-kindergarten through upper elementary school levels as well as materials, approaches, and activities that are appropriate for tutoring learners at these various stages of development. This course is designed for those students who intend to pursue a career in teaching at the elementary school level.

1 Unit
18 Lecture hours

ED 130
Tutoring Reading in the Schools: Seminar and Field Work
Prerequisite: READ 022 or appropriate assessment
Prerequisite/Corequisite: ED 120
Advisory: ENGL 035 or ENLA 100 or appropriate assessment
Transfers to: CSU
This course provides the student with supervised experience tutoring reading in an elementary-educational setting (grades K-6). Participants will apply their knowledge of the reading process and tutorial skills in tutoring sessions with children at an off campus site. A weekly class meeting provides the academic component to the tutoring experience, reinforcing and expanding the application of concepts gained in the prerequisite/corequisite course. This course partially fulfills the requirements for students participating in the AmeriCorps grant program.

2 Units
18 Lecture hours
225 Lab hours

EDUCATION
Division of Behavioral & Social Sciences

ED 090
Tutorial Skills
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
This course provides preparation for successful peer tutoring at the community college level. Instruction will focus upon tutoring principles, techniques, and materials, study skills strategies, communication skills, and learning differences. This course is intended for tutors in the Learning Assistance Center and other peer tutoring programs at Rio Hondo College.

1 Unit
18 Lecture hours

ED 102
Basic Arithmetic
This course is a review of the basic principles and skills of arithmetic. The general areas of review are operations of whole numbers and fractions, operations with decimals and proportional thinking, percent problems and applications to percents. This course is designed for students with special needs to master basic computational skills, develop problem solving and arithmetic skills, and acquire learning strategies to allow them to function successfully upon matriculating into upper level mathematics courses. This is a non-degree applicable course.

3 Units
54 Lecture hours

ED 104
Assessment for Learning Disabilities
Advisory: Appropriate placement through the Learning Disabilities Assessment Process
This course provides intensive diagnostic learning assessment for students with learning disabilities.

3 Units
54 Lecture hours
A profile will be developed through cognitive and achievement assessment which will emphasize specific academic and learning modality strengths and weaknesses. Students will develop a Student Education Contract to help them improve in reading, writing, spelling, computation, and learning skills as well as plan for future educational support. Recommended for all students who suspect they may have a learning disability. This is a non-degree credit course.

1 Unit
54 Lab hours

EDEV 025
Adaptive Computer Technology
This course helps disabled students to utilize adaptive computer hardware and software. Material will be provided which is relevant for each student’s needs. Emphasis will also be placed on knowledge of appropriate compensatory strategies and familiarity with disability equipment. Documentation of a verifiable disability needs to be provided to the DSP&S office to enroll in the course. This is a non-degree credit course.

1 Unit
54 Lab hours

EDEV 026
Consumer Math
This course is specifically designed for the Developmentally Delayed Learner (DDL) and students with special learning needs who would like to apply their math abilities to the workplace and everyday life. Home and money management; banking/obtaining credit; math skills in the workplace; use of calculators; time cards/taxes and benefits; and basic reading, writing and math across the curriculum are emphasized in the course. Guest speakers will be invited and student projects will reflect the students’ conceptualization and ability to put into practice what is learned. This is a non-degree credit course.

3 Units
54 Lecture hours

EDEV 027
Strategies for Career Success
Prerequisite: Students must meet measured appropriate adaptive behaviors that meet California Community Colleges Title V regulations for DSP&S
Corequisite: EDEV 027L
Advisory: EDEV 020
This course is designed specifically for the Developmentally Delayed Learner (DDL) and students with special learning needs to prepare them for employment. Emphasis is on developing skills in the areas of goal setting, career assessment inventory, career awareness, career exploration, choosing a career, career preparation, socialization, utilizing community resources and appropriate grooming and hygiene. This is a non-degree credit course and is offered on a pass/no pass basis.

3 Units
54 Lecture hours

EDEV 027L
Strategies for Career Success Lab
Prerequisite/Corequisite: EDEV 027
Advisory: EDEV 020
This course is designed specifically for the Developmentally Delayed Learner (DDL) population and students with special learning needs. The laboratory is a work experience program with minimum supervision. Students are placed in on- and off-campus work sites for 4 hours per week. They will receive on-the-job training with close supervision at the various locations - 4 weeks at each job site. This is a non-degree credit course and is offered on a pass/no pass basis.

1 Unit
54 Lab hours

EDEV 029
Independent Living Skills
This course is designed specifically for the Developmentally Delayed Learner (DDL) population and students with special learning needs. Essential independent living skills are emphasized. Major topics focus on the how to live and work issues-from maintaining a healthy body and a safe home to finding and keeping a job. Desired outcome is for the student to develop the necessary skills to gain greater independence within outside the family structure.

3 Units
54 Lecture hours

EDEV 030
English Skills
Corequisite: EDEV 030W
This course is designed for students with learning disabilities who need to improve basic writing skills. A process approach to writing is integrated with reading assignments to provide a variety of writing experiences. Students practice strategies to develop thinking, language, and writing skills. This course is the beginning level of composition; it prepares students for success in ENGL 035 or ENGL 101. This is a non-degree credit course and is offered on a pass/no pass basis. Students are required to concurrently enroll in EDEV 030W.

3 Units
54 Lecture hours

EDEV 030W
English Skills Workshop
Corequisite: EDEV 030
This course is a skills class to assist students with learning disabilities in improving writing and language skills through instruction with the Learning Disabilities Specialist. Students will perform writing tasks designed to complement the activities of their composition class. This is a non-degree course and is offered on a credit/no credit basis. Students are required to concurrently enroll in EDEV 030, English Skills.

1 Unit
54 Lab hours

EDEV 031
College and Life Success (Same as COUN 101)
Advisory: ENGL 030 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course provides an exploration of cognitive, psychological, social, and physical factors influencing success in college and in life. Topics include personal responsibility, critical thinking, motivation, self-efficacy, personal awareness, life-long learning, self-management, health and wellness, interpersonal communication in a diverse world, and introduction to career and educational planning. Students will learn about the purpose, demands, requirements, and support services of higher education including both Rio Hondo College and four year institutions.

3 Units
54 Lecture hours

EDEV 134
Study Techniques
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This is a course in college study skills which also addresses the needs of students identified with special learning needs. Students are taught specific techniques, principles, and strategies which enable them to effectively acquire, integrate, store, and retrieve information and thus become more successful students. Topics in this course include in-depth instruction in critical reading and thinking, time management, memory techniques, note-taking, test-taking, creativity, and communication. Students are encouraged to utilize appropriate college resources.

3 Units
54 Lecture hours
ELECTRICAL POWER DISTRIBUTION SYSTEMS

ELEC 051
Introduction to the Electrical Industry
Advisory: READ 023 or appropriate assessment
This introductory course is for a general audience and for those contemplating a career in the powerline (electrical) industry. Students will become acquainted with the basic concepts of terminology and will receive hands-on experience with components and measuring equipment.
2 Units
27 Lecture hours
27 Lab hours

ELEC 050
Electrical Power Distribution Systems
Prerequisite: ELEC 051
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course introduces the student to the techniques required for the use of hand tools in the building and maintenance of electronics equipment. Particular attention is devoted to soldering and other assembly operations which must frequently be performed by electronic technicians.
3 Units
36 Lecture hours
54 Lab hours

ELEC 052
Distribution of Electrical Power
Prerequisite: ELEC 051
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment
This is an introductory course for linemen and those interested in a career in the power utility industry. This is the third class of a five class program designed to provide the student with knowledge and skills with electrical power distribution systems. This course further explains the distribution of electrical energy, starting with the various methods of generation, through a more extensive look into various transmission systems, into the rural and urban substations, and ending at the customer’s service entrance. Course content includes safety, electrical theory of generation, transmission, distribution, substations, transformers, and applied mathematics related to the components of an electrical power distribution system.
2 Units
45 Lecture hours
27 Lab hours

ELEC 061
Fundamentals of Wire and Cabling
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course will present the principles and practices of copper cable wiring technology and includes instruction in the design, installation, and maintenance of copper wiring systems for intelligent control systems, lighting and appliance control devices, communication, and networking. Also includes instruction in household and institutional power wiring. This course is designed for students wanting to work in the Home Technology Service industry.
2 Units
27 Lecture hours
27 Lab hours

ELEC 062
Fundamentals of Fiber Optics
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course presents the principles and practices of fiber optics and optoelectronic technology and includes instruction in the design, installation, and maintenance of fiber optic cabling control systems and optoelectronic control systems for computer communication and networking systems. This course is designed for students wanting to work in the Home Technology Service industry.
2 Units
27 Lecture hours
27 Lab hours

ELEC 063
Fundamentals of Wireless Communication
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course presents the principles and practices of wireless communication technology and includes instruction in the design, installation, and maintenance of wireless communication technology network systems. Emphasis is placed on system reliability, security, and cost containment concerns. This course is designed for students wanting to work in the Home Technology Service industry.
2 Units
27 Lecture hours
27 Lab hours

ELEC 064
Home Technology Integration Technologies
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course presents the principles and practices of installing and maintaining home technology. Students are exposed to home lighting controls, computer networking, home security, home entertainment systems including video, data, and voice, heating ventilation and air conditioning control systems, and home systems integration. This course prepares the student for Home Technology Industry certification and is designed for students wanting to work in the Home Technology Service industry.

ELEC 070
Applied Telecommunications Technology
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment
This is an introductory course that will examine the theory behind present day wireless (cellular) telecommunications systems which will include an in-depth analysis of the design and installation of these systems. The course is intended for students interested in a career in the wireless telecommunications industry. Topics will include: mobile devices networks, antenna orientation, base station system, and the operation and support system associated with the wireless systems. Also presented are topics on environ-
ELEC 071 Mobile and Wireless Communications
Prerequisite: ELEC 070
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

This is the second class of a five class program that will further examine the theory behind present day wireless (cellular) telecommunications systems. This course is designed to provide students with information and skills associated with the wireless (cellular) telecommunications industry. The course is intended for students that are interested in a new career or are currently working in the wireless telecommunications industry. Topics will include: Wireless standards and protocols and the critical issues of compatibility, internetworking, and voice/data convergence, design and integration of WCDMA/UMTS, CDMA2000, and SC-SDMA into existing cellular/PCS networks. Also presented are topics on RF propagation, 3G and 4G networks, and the future of wireless telecommunications.

ELEC 100 D.C. and A.C. Fundamentals
(Formerly ELEC 060)
Prerequisite: MATH 030 or MATH 030D or MATH 033 or appropriate assessment, or TCED 080
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU

This introductory course in D.C. and A.C. electricity is for general audience and for those contemplating a career in the electrical industry. Course content includes basic theory, resistance, capacitive, inductive, simple D.C. and A.C. circuits, transformers, measuring instruments, batteries, motors and generators.

3 Units
45 Lecture hours
27 Lab hours

ELEC 101 D/C Electronic Circuits and Devices
Prerequisite: MATH 030 or MATH 030D or MATH 033 or appropriate assessment, or TCED 080
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU

This course is an introduction to the field of Direct Current (D/C) electricity/electronics. Emphasis is on the theory of operation, physical properties and characteristics of DC electrical/electronic circuits and devices. Students will analyze circuits and solve problems utilizing basic network analysis methods. The course will instruct students on the arrangement of circuit diagrams, proper identification of circuit/device symbols, and use of wiring schematics. Laboratory work provides experience with the design and test of basic electrical circuits, use of meters, schematic diagrams, oscilloscopes, and common laboratory equipment. This course is for students that are contemplating a career in the electrical/electronics industry and is part of the preparation leading to an A.S. Degree or a Certificate in Electronics Technology.

4 Units
54 Lecture hours
54 Lab hours

ELEC 102 A/C Electronic Circuits and Devices
Prerequisite: MATH 030 or MATH 030D or MATH 033 or appropriate assessment, or TCED 080
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU

This course is an introduction to the field of Alternating Current (A/C) electricity/electronics. Emphasis is on the theory of operation, physical properties and characteristics of AC electrical/electronic circuits and devices. Students will analyze circuits and solve problems utilizing basic network analysis methods. The course will instruct students on the arrangement of circuit diagrams, proper identification of circuit/device symbols, and use of wiring schematics. Laboratory work provides experience with the design and test of basic electrical circuits, use of meters, schematic diagrams, oscilloscopes, and common laboratory equipment. This course is for students that are contemplating a career in the electrical/electronics industry and is part of the preparation leading to an A.S. Degree or a Certificate in Electronics Technology.

4 Units
54 Lecture hours
54 Lab hours

ELEC 105 Computer Simulation and Fabrication of Electronic Circuits
Prerequisite: ELEC 101

Transfers to: CSU

This course provides an introduction to the use of computer software in the simulation and fabrication of electronic circuits and printed circuit boards. It is intended for students in electronics technology as well as those currently working in the electronics industry. Using a popular educational version of circuit simulation software, the Electronics Workbench TM program suite, students will be introduced first to concepts of analog and digital circuit simulation. The modeled circuits are then processed. Fabricated and ultimately tested as prototype circuit boards. Students will learn to use a miniature computer controlled circuit board mill to produce the prototypes.

2 Units
18 Lecture hours
54 Lab hours

ELEC 108 Introduction to Solid State Devices and Circuits
Prerequisite: ELEC 101 and 102
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU

This course is an introduction to solid state devices used in the field of electronics. Emphasis is on the theory of operation, methods of fabrication, physical properties and characteristics of semiconductor devices and circuits. Devices considered are diodes, BJTs and FET transistors, special diodes, Thyristors (SCR), IC’s (digital and analog), typical applications of each device in amplifier, regulator, oscillator, timer and digital circuits. Students will analyze circuits and solve problems utilizing basic network analysis methods. Laboratory work provides experience with the design and test of basic solid state device circuits including signal tracing and troubleshooting, use of meters, schematic diagrams, oscilloscopes, and common laboratory equipment. This course is for students that are contemplating a career in the electrical/electronics industry and is part of the preparation leading to an A.S. Degree or a Certificate in Electronics Technology.

4 Units
54 Lecture hours
54 Lab hours

ELEC 109 Linear, Analog Circuits and Devices
Prerequisite: ELEC 101 and 102
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU

This course focuses on linear analog circuits and devices used in the field of electronics. Emphasis is on the theory of operation, methods of fabrication, physical properties and characteristics of operational ampli-
fiers, other discrete circuits and external circuitry. This course builds on the foundation laid in Electronics 108, continuing the study of solid state devices and circuits with emphasis on the Integrated Circuit (IC) and applications. Students will analyze circuits and solve problems utilizing basic network analysis methods. IC device characteristics are explored. Input/output impedance, drift, offset, bias current, Gain, Frequency Response and simple modeling are among the topics considered. Use of device data sheets and application notes will be introduced to provide training in the selection of devices for specific purposes. Laboratory work provides experience with the design and test of basic solid state device circuits including signal tracing and troubleshooting, use of meters, schematic diagrams, oscilloscopes, and common laboratory equipment. This course is for students that are contemplating a career in the electrical/electronics industry and is part of the preparation leading to an A.S. Degree or a Certificate in Electronics Technology.

4 Units
54 Lecture hours
54 Lab hours

ELEC 111
Introduction to Digital Electronics

Prerequisite: ELEC 101 and 102
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU

This course is an introduction to digital electronic principles common to all areas of electronics. The course will emphasize study of number systems and representations such as Binary codes, Hexadecimal codes and Boolean algebra. Analysis and design of combinational and sequential Logic Circuits, Gates, Adders, TTL: small and medium scale integrated devices, programmable logic and simulation of digital circuits and CMOS, ECL families will be covered. Laboratory work will also provide experience with the design and test of basic digital circuits, use of meters, schematic diagrams, oscilloscopes, and common laboratory equipment. This course is for students that are contemplating a career in the electrical/electronics industry and is part of the preparation leading to an A.S. Degree or a Certificate in Electronics Technology.

4 Units
54 Lecture hours
54 Lab hours

ELEC 208
Advanced Solid State Devices and Circuits

Prerequisite: ELEC 108
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU

This course is a continuation of the study of solid state devices used in the field of electronics presented in the introductory course ELEC 108. Emphasis is on the theory of operation, physical properties and characteristics of advanced semiconductor devices and circuits. Devices considered are advanced design transistors, SCRs and other Integrated Circuits-IC’s (digital and analog), typical applications of each device in inverters, converters, and switching power supplies. Students will analyze circuits, laboratory work utilizing basic network analysis methods with emphasis on advanced biasing, cascading, coupling and phase shifting. Laboratory work provides experience with the design and test of advanced solid state device circuits including signal tracing and troubleshooting, use of schematic diagrams and common laboratory equipment. This course is for students that are contemplating a career in the electrical/electronics industry and is part of the preparation leading to an A.S. Degree or a Certificate in Electronics Technology.

4 Units
54 Lecture hours
54 Lab hours

ELEC 211
Advanced Digital Electronics

Prerequisite: ELEC 111
Advisory: ENGL 035 or ENLA 100 or appropriate assessment
Transfers to: CSU

This course is a continuation of introduction to electronic digital principles common to all areas of electronics. Building on the foundations covered in ELEC 111, emphasis will be placed on the study of various types of Counters, A/D and D/A Converters, I/O Devices, Memories and an introduction to Micro Computers. Through laboratory work, students learn applications by constructing various circuits and devices. Advanced analysis and design of combinational and sequential Logic Circuits, Gates, Adders, TTL: small and medium scale integrated devices, programmable logic and simulation of digital circuits and ECL families will be covered. Laboratory work will also provide experience with the design and test of basic digital circuits, use of meters, schematic diagrams, oscilloscopes, and common laboratory equipment. This course is for students that are contemplating a career in the electrical/electronics industry and is part of the preparation leading to an A.S. Degree or a Certificate in Electronics Technology.

4 Units
54 Lecture hours
54 Lab hours

ELEC 299
Directed Study in Electronics Technology

Prerequisite: 2.5 overall grade point average, a 3.0 grade point average in the discipline of study being requested, or receive an exception from the instructor
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU

This course provides an opportunity for the student to expand their studies in Electronics Technology beyond the classroom by completing a project or an assignment arranged by an agreement between the student and instructor. The student is required to contract with the instructor to determine the scope of the assignment and the unit value assigned for successful completion. Students must possess a 2.5 overall GPA, a 3.0 GPA in the discipline of study being requested, or receive an exception from the instructor. Students may take a maximum of 3 units of Directed Study within a discipline and 9 units college-wide.

1 to 3 Units
54 to 162 Lab hours

ELEC 240
Microprocessors and Microcomputing

Prerequisite: ELEC 211
Transfers to: CSU

This course will provide a fundamental knowledge of the general architecture of microcomputers. Emphasis is on the study of organization and structuring of the major hardware and software components of computers which includes, the CPU and some of the I/O devices used to interface the CPU to various peripheral devices. It considers the physical aspects of information transfer and control within a digital computer. Network architecture, communication protocol, as well as micro-programming instruction sets and assembly language programming are also emphasized. Laboratory exercises will focus on construct and deconstruct of a basic computer, along with test and troubleshooting of critical functions. This course is for students that are contemplating a career in the electrical/electronics industry and is part of the preparation leading to an A.S. Degree or a Certificate in Electronics Technology.

4 Units
54 Lecture hours
54 Lab hours
ELECTRONICS/ELECTRIC UTILITY TECHNOLOGY
Division of Career & Technical Education

EUT 110
Electrical Utility Technology I
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment; ELEC 050
Transfers to: CSU
This is an introductory course that will examine the theory behind present day utility energy systems. This course provides an orientation in the power distribution and line construction industry. Basic electrical principles and safety on the job are emphasized. Topics include basic mathematical computations, including trigonometry fundamentals, electron theory and the fundamentals of magnetism. Students will combine electrical theory with laboratory and practical applications in the course of study. This course is intended for students that are contemplating a career in the electrical utility industry.
3 Units
45 Lecture hours
27 Lab hours

EUT 112
Electrical Utility Technology II
Prerequisite: EUT 110
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment; ELEC 050
Transfers to: CSU
This course involves the study of the power distribution and line construction industry. Topics include methods of producing electricity, A.C. and D.C. meters and circuitry and electric batteries. Students will also learn about Ohm’s Law, Kirchhoff’s Law, and electromagnetic induction. This course is intended for students that are contemplating a career in the electrical utility industry.
3 Units
45 Lecture hours
27 Lab hours

EUT 114
Electrical Utility Technology III
Prerequisite: EUT 112
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment; ELEC 050
Transfers to: CSU
This course is a study of alternating current circuits, A.C. and D.C. motors and generators, pole and overhead construction, and transformers and voltage regulators. Topics include schematics, shunt and series capacitors and safety issues outlined by the Occupational Safety and Health Act (OSHA). Calculating power used by electrical circuits is also covered. This course is intended for students that are contemplating a career in the electrical utility industry.
3 Units
45 Lecture hours
27 Lab hours

EUT 116
Electrical Utility Technology IV
Prerequisite: EUT 114
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment; ELEC 050
Transfers to: CSU
This course is a continuation of pole and overhead line construction. Topics covered include state safety orders for line construction and maintenance, transmission and distribution systems and conductors and electrical systems faults. Students will also learn about short circuits, system protective concepts and how to identify control circuits from wiring diagrams. This course is intended for students that are contemplating a career in the electrical utility industry.
3 Units
45 Lecture hours
27 Lab hours

EUT 118
Electrical Utility Technology V
Prerequisite: EUT 116
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment; ELEC 050
Transfers to: CSU
This course covers advanced theory of electrical distribution lines and systems. Other topics include phasing, system groundings, substations and the use of electrical instruments. Students will also learn how to connect transformers in accordance with the state code. Usage of fusing tables and reference tables, including technical symbols are also covered. This course is intended for students that are contemplating a career in the electrical utility industry.
3 Units
45 Lecture hours
27 Lab hours

EUT 120
Utility Pole Climbing Techniques
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment
Transfers to: CSU
This course is designed to provide instruction on climbing a utility pole safely using the latest OSHA fall resistant requirements. At the completion of this course, students will be able to safely ascend and descend a utility pole using gaffs and extension ladders. This course provides an orientation in the power distribution and line construction industry. Basic electrical principles and safety on the job are emphasized. This course is intended for students that are contemplating a career in the electrical utility industry.
4 Units
54 Lecture hours
54 Lab hours

EMERGENCY MEDICAL TECHNICIAN
Division of Public Safety

EMT 093
Emergency Medical Technician
Prerequisite: FTEC 121
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; BIOL 125
Prerequisite: READ 023 or appropriate assessment; Possession of a class “C” license.
This course is designed to certify students as California State Emergency Medical Technicians and gain employment as an ambulance driver or ambulance attendant. After successful completion of this course, students will be authorized to take the National Registry EMT examination and request certification as an EMT through the Los Angeles County Department of Health or other local EMS accrediting agencies. Topics discussed include pre-hospital care terminology, cardiovascular emergencies, pre-hospital childbirth, communicable disease, extrication tools and equipment, automatic external defibrillation and an understanding of the Emergency Medical System. Students must pass a background check and EMT medical physical with a 10-panel drug screen.
8 Units
117 Lecture hours
81 Lab hours

EMT 0931
Emergency Vehicle Operations
(Formerly EMT 093.1)
Prerequisite: READ 023 or appropriate assessment; Possession of a class “C” license.
Electric Circuit Analysis
ENGR 217
Corequisite: PHY 213 with a grade of "C" or better
Transfers to: UC, CSU
This course is for students who intend to pursue a major in engineer-
ing. The course is the study of basic circuit analysis techniques including Ohm’s law, Kirchhoff’s laws, mesh-current and node-voltage method, Thévenin and Norton’s equivalent circuits, transient and steady-state responses of passive circuits, and operational amplifiers. This course also includes sinusoidal steady-state analysis of AC circuits, AC power calculation, three-phase circuits, mutual inductance, frequency response, and resonance.
3 Units
54 Lecture hours

ENGR 235
Engineering Mechanics: Statics
Prerequisite: PHY 211 with a grade of "C" or better
Transfers to: UC, CSU
This course is for students who intend to pursue a major in engineer-
ing and provides an overview of the effect of two and three dimensional force systems on particles and rigid bodies under equilibrium conditions. Topics covered include distributed forces and determination of centroids, analysis of trusses, frames and machines, internal forces and moments, systems involving friction, and method of virtual work and equilibrium.
3 Units
54 Lecture hours

ENGR 245
Engineering Mechanics: Dynamics
Prerequisite: ENGR 235 with a grade of "C" or better
Transfers to: UC, CSU
This course is for students who intend to pursue a major in engineer-
ing and provides an overview of the effect of two and three dimensional force systems on particles and rigid bodies in motion. Topics include kinematics of particles, rigid bodies; applications of Newton’s Second Law; energy and momentum methods in the study of motions, translational, rotational, & general planar motion; and mechanical vibra-
tions.
3 Units
54 Lecture hours

ENGT 105
Architectural and Technical Freehand Sketching
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed to develop skill in freehand drawing as used by the design professionals in both architectural and technical applications. Using pen, pencil, marker, basic principles of proportion, composition and freehand techniques, students will prepare technical sketches to industry standards, in isometric, oblique, perspective and orthographic. Design considerations will also be introduced for various projects involving pre-
liminary design sketches. This course is open to all students who wish to develop freehand drawing skills. It is required for all students working towards a degree or certificate in the Architecture and Engineering Design Drafting program.
2 Units
27 Lecture hours
27 Lab hours

ENGT 122
Engineering Design Graphics
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is an introduction to graphics as used in engineering design and the systematic use of graphic solutions and descriptive geometry to solve three dimensional engineering problems involving space, points, planes and lines. Technical drawing using I.S.O. and A.N.S.I. standards including geometric dimensioning and tolerancing, will be stressed with a conceptual design project and preparation of working drawings. This course is required for all students working towards a degree or certificate in the Architecture and Engineering Design Drafting program. The course is also
3 Units
36 Lecture hours
54 Lab hours
recommended for students interested in transferring to Schools of Engineering.
4 Units
54 Lecture hours
54 Lab hours

ENGT 131
Engineering and Manufacturing Applications of Technical Drawing
Prerequisite: ENGT 122
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This intermediate course is the study of technical drawing as used in manufacturing applications of design and engineering technology. This course is for all students in areas of study related to Engineering, Technical Drafting, Design and Computer Graphics. The course incorporates orthographic projection, introduction to tool design, and applications of descriptive geometry through layouts and developments. The course will also cover ANSI Y14.5, precision dimensioning, geometric tolerancing, manufacturing terminology and processes. Lab exercises and drawings will be used to reinforce lecture and demonstration concepts.
4 Units
54 Lecture hours
54 Lab hours

ENGT 138
Engineering Careers & Applications
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is for all students interested in the career field of Engineering Design Drafting. Engineering Careers and Applications will explore the career opportunities and training requirements in the field of engineering and engineering technology. Topics will include the history of engineering, careers in engineering, ethics and responsibilities of the engineer, communicating and problem solving.
2 Units
27 Lecture hours
27 Lab hours

ENGT 150
AutoCAD for Basic CADD Applications
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; ENGT 101 or two years of high school drafting
Transfers to: CSU
This course is for students preparing for high technology careers who need the skills necessary to function as an entry level CADD operator or to apply CADD to specific disciplines of mechanical and architectural design, manufacturing, illustration for presentation and rapid prototyping utilizing the latest releases of AutoCAD software will be provided. Students will produce 2D orthographic and basic 3D model solutions of mechanical and architectural applications.
4 Units
54 Lecture hours
54 Lab hours

ENGT 170
MicroStation for Basic CADD Applications
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; ENGT 101 or two years of high school drafting
Transfers to: CSU
This course is for students preparing for high technology careers who need the skills necessary to function as an entry level CADD operator or to apply CADD to specific disciplines of mechanical and architectural design, manufacturing, illustration and engineering related documents. An overview of computer graphics and CADD (Computer Assisted Design and Drawing) utilizing the latest release of MicroStation software will be provided. Students will produce 2D orthographic and basic 3D model solutions of mechanical and architectural applications.
4 Units
54 Lecture hours
54 Lab hours

ENGT 200
Intermediate AutoCAD for Design and Production
Prerequisite: ENGT 150 with a grade of “C” or better
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; ENGT 101 or two years of high school drafting
Transfers to: CSU
This course is for students pursuing degrees or certificates in the Architecture and Engineering Design Drafting Program and for those who wish to enhance their AutoCAD skills for workplace productivity. The course is an intermediate application study in computer aided design, drafting, and graphics using the latest revisions of AutoCAD. Combined with previously learned technical drafting conventions and basic AutoCAD operational skills, students will use AutoCAD to produce detailed drawings that involve model space and paper space, 2D and 3D objects, block attributes and viewport scales. Emphasis will be placed on working with multiple drawing files using external files to create mechanical, architectural and civil projects.
4 Units
36 Lecture hours
54 Lab hours

ENGT 231
Technical Product Design and Presentation
Prerequisite: ENGT 122; ENGT 150
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This intermediate course is the study of technical presentation drawing, product proposal and design including electro-mechanical packaging, orthographic and axonometric illustration for presentation and assembly pictorial views. Using computer aided design, manual drafting, and graphic techniques, students will apply previously learned skills to develop graphic illustrations of mechanical applications for use in catalogs, manuals and engineering support presentation documents. This course benefits all students in areas of study related to Engineering, Drafting, Design and Computer Graphics.
4 Units
54 Lecture hours
54 Lab hours

ENGT 250
Parametric Modeling 3D Applications for Mechanical Design
Prerequisite: ENGT 122 and ENGT 150
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course presents advanced applications of 2D and 3D Computer Aided Design Drafting (CADD) and an introduction to parametric modeling and rapid prototyping utilizing the latest releases of Autodesk Inventor series, SolidWorks, and other parametric modeling software to produce solutions for mechanical applications. This course benefits all students in areas of study related to Engineering, Drafting, Design and Computer Graphics, emphasizes CADD generated three dimensional graphics using wire frame, surface modeling, and parametric solids.
4 Units
54 Lecture hours
54 Lab hours

ENGT 265
Pressure Piping Design
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; ENGT 150 or ENGT 170 or industry experience in CADD applications
Transfers to: CSU
This course is for those students with CADD experience who are interested in the career field of pressure piping design engineering. This course presents the preparation of engineering detail drawings of piping systems for commercial, utilities and industrial plants. Included is information and work dealing with the location, installation, operation, and maintenance of pumps, steam turbines, compressors, tanks, heaters, coolers, cooling towers, condenser, reactors, boilers, chillers, heat exchangers and special equipment.

3 Units
36 Lecture hours
54 Lab hours

ENGT 266
Pressure Piping Applications
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; ENGT 150 or ENGT 170 or industry experience in CADD applications; ENGT 265

Transfers to: CSU

This course is for all students interested in the career field of pressure piping design engineering. This course presents the advanced preparation of engineering detail drawings of piping systems for commercial, utilities and industrial plants. Included is advanced information and layout work dealing with the location, installation, operation of pumps, steam turbines, compressors, vertical vessels, horizontal vessels, tanks, heaters, coolers, cooling towers, condenser, reactors, boilers, chillers, heat exchangers and special equipment.

3 Units
36 Lecture hours
54 Lab hours

ENGT 270
Solid Works for 3D Modeling and Prototype Applications
Prerequisite: ENGT 122; ENGT 150 or ENGT 170
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU

This course presents an intensive study in 3D computer graphics and CADD (Computer Assisted Design and Drafting) utilizing the latest release of SolidWorks Software. This course benefits all students in areas of study related to Engineering, Drafting, Design and Computer Graphics. Students will produce three dimensional parametric computer generated virtual models incorporating mechanical design refinements. The course emphasizes high technology skills which are necessary to function as a design professional to apply 3D design graphics technology to specific disciplines of mechanical engineering, machine drafting and design, manufacturing, animation, modeling and illustration. Students will be introduced to a variety of means to directly produce prototype models from CADD generated solid geometry.

4 Units
54 Lecture hours
54 Lab hours

ENGT 280
Advanced MicroStation for CADD & BIM Applications (Same as ARCH 280)
Prerequisite: ENGT 170 with a grade of “C” or better, or verifiable work experience and proficiency in MicroStation XMD or V8i
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; ENGT 101 or two years of high school drafting

Transfers to: CSU

This course is for students pursuing an advanced study in MicroStation 3D parametric CADD (Computer Assisted Design and Drafting) and the BIM (Building Information Modeling) approach to building design using Bentley Architecture. Students will apply previously learned drafting conventions to produce two and three dimensional CADD and BIM generated mechanical and architectural drawings and virtual design models. This course benefits all students studying Architecture, Civil, Engineering of all types, Drafting, Design and Computer Graphics. High technology skills which are necessary to function as a designer or CADD Drafter are emphasized.

4 Units
54 Lecture hours
54 Lab hours

ENGT 290
Cooperative Work Experience/Internship for Drafting Related Fields
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU

This course provides an opportunity for the student to expand their studies in Engineering Design Drafting beyond the classroom by completing a project or an assignment arranged by an agreement between the student and instructor. The student is required to contract with the instructor to determine the scope of the assignment and the unit value assigned for successful completion. Students must possess a 2.5 overall GPA, a 3.0 GPA in the discipline of study being requested, or receive an exception from the instructor. Students may take a maximum of 3 units of Directed Study within a discipline and 9 units college-wide.

1 to 3 Units
54 to 162 Lab hours

ENGLISH
Division of Communications & Languages

ENGL 030
Introductory Composition for Developing Writers
Corequisite: ENGL 030W
Advisory: READ 022 or appropriate assessment

This course assists students in developing thinking, language, and writing skills through structured assignments that increase in complexity throughout the semester. This is the first or beginning course in composition; it prepares students for success in either ENGL 035 or ENGL 101. Students must concurrently enroll in the one-unit Writing Workshop, ENGL 030W. This is a non-degree applicable course and is offered on a pass/no pass basis.

3 Units
54 Lecture hours
ENGL 030W
Writing Workshop
Corequisite: ENGL 030
Advisory: READ 022 or appropriate assessment
This is a lab course designed to assist students in developing and improving their writing and language skills through individual conferences with composition instructors. Students will complete and revise assignments that complement the goals and objectives of ENGL 030. All ENGL 030 students must enroll in this course. This course may be repeated one time for credit. This is a non-degree applicable course offered on a pass-no pass basis. 0.5 Units 27 Lab hours

ENGL 035
Intermediate Composition for Developing Writers
Prerequisite: ENGL 030 or ENLA 034 with a grade of “Pass” or appropriate assessment
Corequisite: ENGL 035W
This is a composition course which trains students in the clear and logical communication of ideas and information. Students will learn to relate ideas and information in standard written English that a literate audience can easily understand. To accomplish this, students will learn methods of prewriting, construct and revise a series of original essays, discuss readings, and participate in collaborative activities which increase their ability to articulate ideas. This is a non-degree credit course and is offered on a pass/no pass basis. This class can also be taken in three 6-week modules. Students may enroll in all modules for one unit of credit each. Module A will cover simple and compound sentences, simple punctuation, and language usage. Students will practice writing to instruct and inform. Module B will cover complex sentences, punctuation such as colons and semicolons, and use of persuasive language. Further practice will be given in the use of commas and capitalization. Module C will include paragraphs, short essays, punctuation review, and use of sequential and transitional language. Practice will be given in adapting information to different audiences. In addition to this material, modules A, B, and C will cover material detailed in the appendix to the course outline. Workshop credit will be given upon completion of all three modules. 1 Unit 18 Lecture hours

ENGL 035B
Intermediate Composition for Developing Writers
(Formerly ENGL 099)
Prerequisite: ENGL 030 or ENLA 034 with a grade of “Pass” or appropriate assessment
Corequisite: ENGL 035W
This is a composition course which trains students in the clear and logical communication of ideas and information. Students will learn to relate ideas and information in standard written English that a literate audience can easily understand. To accomplish this, students will learn methods of prewriting, construct and revise a series of original essays, discuss readings, and participate in collaborative activities which increase their ability to articulate ideas. This is a non-degree credit course and is offered on a pass/no pass basis. An accompanying ENGL 035W Writing Workshop is required and offered on a pass/no pass basis. This class can also be taken in three 6-week modules. Students will have the opportunity to take one, two, or three modules for one unit of credit each. Module A will cover simple and compound sentences, simple punctuation, and language usage. Students will practice writing to instruct and inform. Module B will cover complex sentences, punctuation such as colons and semicolons, and use of persuasive language. Further practice will be given in the use of commas and capitalization. Module C will include paragraphs, short essays, punctuation review, and use of sequential and transitional language. Practice will be given in adapting information to different audiences. In addition to this material, modules A, B, and C will cover material detailed in the appendix to the course outline. Workshop credit will be given upon completion of all three modules. 1 Unit 18 Lecture hours

ENGL 035C
Intermediate Composition for Developing Writers
(Formerly ENGL 099)
Prerequisite: ENGL 030 or ENLA 034 with a grade of “Pass” or appropriate assessment
Corequisite: ENGL 035W
This is a composition course which trains students in the clear and logical communication of ideas and information. Students will learn to relate ideas and information in standard written English that a literate audience can easily understand. To accomplish this, students will learn methods of prewriting, construct and revise a series of original essays, discuss readings, and participate in collaborative activities which increase their ability to articulate ideas. This is a non-degree credit course and is offered on a pass/no pass basis. An accompanying ENGL 035W Writing Workshop is required and offered on a pass/no pass basis. This class can also be taken in three 6-week modules. Students will have the opportunity to take one, two, or three modules for one unit of credit each. Module A will cover simple and compound sentences, simple punctuation, and language usage. Students will practice writing to instruct and inform. Module B will cover complex sentences, punctuation such as colons and semicolons, and use of persuasive language. Further practice will be given in the use of commas and capitalization. Module C will include paragraphs, short essays, punctuation review, and use of sequential and transitional language. Practice will be given in adapting information to different audiences. In addition to this material, modules A, B, and C will cover material detailed in the appendix to the course outline. Workshop credit will be given upon completion of all three modules. 1 Unit 18 Lecture hours

ENGL 035A
Intermediate Composition for Developing Writers
(Formerly ENGL 099W)
Prerequisite: ENGL 030 or ENLA 034 with a grade of “Pass” or appropriate assessment
Corequisite: ENGL 035W
This is a composition course which trains students in the clear and logical communication of ideas and information. Students will learn to relate ideas and information in standard written English that a literate audience can easily understand. To accomplish this, students will learn methods of prewriting, construct and revise a series of original essays, discuss readings, and participate in collaborative activities which increase their ability to articulate ideas. This is a non-degree credit course and is offered on a pass/no pass basis. (Each week, three additional hours will be required in the ENGL 035W Writing Workshop, offered on a pass/no pass basis.) 3 Units 54 Lecture hours

ENGL 030
Developing Writers
Writing Workshop
ENGL 030W 2017-2018 Catalog Rio Hondo College / 283
modules. Students will have the opportunity to take one, two, or three modules for one unit of credit each. Module A will cover simple and compound sentences, simple punctuation, and language usage. Students will practice writing to instruct and inform. Module B will cover complex sentences, punctuation such as colons and semicolons, and use of persuasive language. Further practice will be given in the use of commas and capitalization. Module C will include paragraphs, short essays, punctuation review, and use of sequential and transitional language. Practice will be given in adapting information to different audiences. In addition to this material, modules A, B, and C will cover material detailed in the appendix to the course outline. Workshop credit will be given upon completion of all three modules.

1 Unit
18 Lecture hours

ENGL 035
Writing Workshop
(Formerly ENGL 099W)
Corequisite: ENGL 035
Advisory: READ 022 or appropriate assessment
This is a lab course designed to assist students in developing and improving their writing and language skills through individual conferences with composition instructors. Students will complete and revise assignments that complement the goals and objectives of ENGL 035. All ENGL 035 students must enroll in this course. This course may be repeated one time for credit. This is a non-degree applicable course offered on a pass-no pass basis.

0.5 Units
27 Lab hours

ENGL 101 (C-ID ENGL 100)
College Composition and Research
Prerequisite: ENGL 035 with a grade of “Pass” or ENLA 100 with an “A” or “B” or appropriate assessment
Transfers to: UC, CSU
This is a composition course that enables students to generate logical, coherent essays and reports necessary to academic and professional success. Students will become proficient in research techniques, learn critical reading and thinking skills through expository and persuasive reading selections, and apply these skills to creating original essays and a final research paper. The lab component of this course is designed to assist students in improving and refining their writing and language skills. Students will complete lab activities that enhance their ability to compose logical, well-supported arguments that exhibit grammatical fluency and correct documentation form. Students will meet with composition instructors through individual conferences that address students’ specific writing concerns. This course is designed for students who wish to fulfill the General Education requirement for Written Communication.

3.5 Units
54 Lecture hours
27 Lab hours

ENGL 125
Grammar and Usage
Prerequisite: ENGL 035 or ENLA 100 or appropriate assessment
Advisory: READ 023 or appropriate assessment
Transfers to: UC, CSU
This course explores parts of speech, varieties of sentence structures, common grammar and usage problems, and how to apply these issues to real-world communications. It is designed for students who wish to expand their knowledge of standard American English and thereby increase their skill in the written and spoken language. It is especially helpful for students planning to go into teaching.

3 Units
54 Lecture hours

ENGL 126
Languages of the World
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This is a linguistics course which covers the major languages families of the world and representative languages from those families. It presents the phonology, morphology, syntax, and pragmatics of these languages. It is specifically targeted at those who will be working with non-native speakers of English in order to equip them to recognize the cross-linguistic influences of other languages on English, thus preparing them to communicate more effectively with their clients and/or students and to assess the linguistic and sociolinguistic factors which affect communication. This course is useful for majors in foreign language, anthropology, communications, health science, and English, and especially for those planning to enter elementary and secondary teaching in California, with its diversity of languages and cultures.

3 Units
54 Lecture hours

ENGL 127
Language Structure and Language Use: Introduction to Linguistics
Prerequisite: ENGL 035 or ENLA 100 or appropriate assessment
Advisory: READ 023 or appropriate assessment
Transfers to: UC, CSU
This course explores the nature and structure of language, including phonology, morphology, syntax, semantics and discourse, language acquisition and language development, and language use. This course is useful for students planning to enter elementary or secondary teaching and for those majoring in foreign language, English, communications, and anthropology.

3 Units
54 Lecture hours

ENGL 127H
Language Structure & Language Use: Introduction to Linguistics Honors
Prerequisite: ENGL 101 with a grade of “C” or better
Advisory: READ 023 or appropriate assessment
Transfers to: UC, CSU
This course explores the nature and structure of language, including phonology, morphology, syntax, semantics and discourse, language acquisition and language development, and language use. This course is useful for students planning to enter elementary or secondary teaching and for those majoring in foreign language, English, communications, and anthropology. This course is designed for students eligible for the Honors Program.

3 Units
54 Lecture hours

ENGL 131 (C-ID ENGL 200)
Creative Writing
Prerequisite: ENGL 101
Transfers to: UC, CSU
This is a course of expression for students who are interested in various forms of writing. It offers students a workshop setting in which to develop their writing skills in various genres, such as fiction, poetry, and playwriting. Students are required to write regularly, present their own work in class for discussion, and develop critical standards for evaluating the merit of their own work and of the work of their peers.

3 Units
54 Lecture hours

ENGL 201 (C-ID ENGL 105)
Advanced Composition and Critical Thinking
Prerequisite: ENGL 101 with a grade of “C” or better
Advisory: READ 023 or appropriate assessment
Transfers to: UC (credit limit*), CSU
(*Students will receive credit from UC for only one of the following courses: ENGL 201 or ENGL 201H)
This advanced composition course is open to all students who have successfully completed ENGL 101 and is designed for those who expect to transfer to four-year colleges or
universities. Students will read and write extensively, while applying critical thinking skills and research techniques. Students will demonstrate these abilities in advanced composition as they research and write a series of argumentative essays, which demonstrate the ability to analyze issues, evaluate positions, and argue persuasively through clear, concise prose. The lab component of this course is designed to assist students in advancing and refining their writing and language skills and will augment their ability to exercise critical thought. Students will complete lab activities that further enhance their ability to compose logical, well-supported arguments that exhibit grammatical fluency and correct documentation form. Students will meet with composition instructors through individual conferences that address students’ specific writing concerns.

3.5 Units
54 Lecture hours
27 Lab hours

ENGL 201H (C-ID ENGL 105) Advanced Composition and Critical Thinking Honors
Prerequisite: Completion of ENGL 101 with a grade of at least a “C” or better
Transfers to: UC (credit limit*), CSU
(*Students will receive credit from UC for only one of the following courses: ENGL 201 or ENGL 201H)

This advanced composition course is open to all students who have successfully completed ENGL 101 and is designed for those who expect to transfer to four-year colleges or universities. Students will read and write extensively, while applying critical thinking skills and research techniques. Students will demonstrate these abilities in advanced composition as they research and write a series of argumentative essays, which demonstrate the ability to analyze issues, evaluate positions, and argue persuasively through clear, concise prose. This Honors section is open to all students who have completed ENGL 101 with a grade of C or better. Students will be expected to analyze issues in more depth and write on them at greater length than they would in a non-honors section.

3.5 Units
54 Lecture hours
27 Lab hours

ENLA 011 Basic Vocabulary
Advisory: ENLA 014 or appropriate assessment
This course is designed to help non-native speakers of English learn meanings, forms, uses, and pronunciations of 200-250 English words not presently in their vocabulary.

Special emphasis is given to examining words in context, parts of speech, and inflections. This course is offered on a pass/no pass basis and is not applicable to the degree. Students are expected to complete an additional 8 hours TBA (To Be Arranged) in the Language Lab.

3 Units
54 Lecture hours
8 Lab hours

ENLA 012 Beginning Speaking and Listening
This course is for English language learners who wish to improve their conversational skills in English. Areas of emphasis include dictation, English phrasing patterns, various speaking situations, listening practice, and self-correction. This course is offered on a pass/no pass basis and is not applicable to the degree. Students are expected to complete an additional 8 hours TBA (To Be Arranged) in the Language Lab.

3 Units
54 Lecture hours
8 Lab hours

ENLA 013 Basic Grammar
Advisory: NESL 018 or appropriate assessment
This is an introductory grammar course for non-native speakers of English. Through reading, writing, listening, and speaking activities, students learn basic English grammar while focusing on verb structures. This course is offered on a pass/no pass basis and is not applicable to the degree. Students are expected to complete an additional 8 hours TBA (To Be Arranged) in the Language Lab.

3 Units
54 Lecture hours
8 Lab hours
ENLA 022 Intermediate Speaking and Listening
Advisory: ENLA 012 or appropriate assessment
This course is for ENLA students who wish to improve their English speaking and listening skills at an intermediate level. The course focuses on the development of written skills. Areas emphasized are idiomatic expressions, vocabulary, reading and writing. This course is offered on a pass/no pass basis and is not applicable to the degree.
3 Units
54 Lecture hours
8 Lab hours

ENLA 023 Intermediate Grammar
Advisory: ENLA 013 or appropriate assessment; ENLA 024 or appropriate assessment
This course presents a multi skills approach to English grammar and sentence structure for second language students. Through reading, writing, listening, and related activities such as dictation, close exercises, and sentence analysis, students practice the elements of correct English while focusing on verbs and verb forms. This course is offered on a pass/no pass basis and is not applicable to the degree. Students are expected to complete an additional 8 hours TBA (To Be Arranged) in the Language Lab. Students initially enrolled in the course will be assessed and only those passing the assessment will be allowed to remain.
3 Units
54 Lecture hours
8 Lab hours

ENLA 024 Intermediate Composition
Prerequisite: ENLA 014 or appropriate assessment
This is an intermediate composition class for non-native speakers of English focusing on the fundamentals of academic writing in English. Basic sentence structures, paragraph development, composition forms, English grammar and word usage are studied in various rhetorical modes. This course is offered on a pass/no pass basis and is not applicable to the degree.
3.5 Units
54 Lecture hours
27 Lab hours

ENLA 032 Advanced Speaking and Listening: Pronunciation and Accent Reduction
Advisory: READ 022 or appropriate assessment; ENLA 022 or appropriate assessment
ENLA 032 is a speaking, listening and pronunciation course intended for students who need further practice in spoken English and/or have difficulty understanding native speakers of English in academic and other situations. Its purpose is improved pronunciation, articulation, speed and comprehension of non-native speakers of English. The course focuses on sounds in isolation, the blending of sounds in phrasal elements and the production of sentences incorporating correct intonation, accent, speed and rhythm. This course is offered on a pass/no pass basis and is not applicable to the degree.
3 Units
54 Lecture hours
8 Lab hours

ENLA 034 Intermediate-Advanced Composition
Prerequisite: ENLA 024 or appropriate assessment
A continuation of ENLA 024, this course is for ENLA students and emphasizes longer writings with more complicated sentence patterns leading up to a basic essay. Students focus on both thematic and rhetorical modes of composition while they practice topic sentences, thesis statements, subordination, and transitional expressions. This course is offered on a pass/no pass basis and is not applicable to the degree.
3.5 Units
54 Lecture hours
27 Lab hours

ENLA 100 Advanced Composition
Prerequisite: ENLA 034 or appropriate assessment
Transfers to: UC, CSU
ENLA 100 is the highest-level course of the ENLA writing sequence and an ENLA student's gateway into ENGL 101. As a result of taking this course, students will be able to utilize various stages of the writing process, MLA conventions of academic writing in several rhetorical modes (including a research paper), and advanced levels of grammatical and mechanical accuracy in their writing.
3.5 Units
54 Lecture hours
27 Lab hours

ENVIRONMENTAL TECHNOLOGY
Division of Mathematics & Sciences

ET 110 Hazardous Waste Generation/Reduction/Treatment
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment
Transfers to: CSU
This course is designed to educate individuals working in or seeking employment in the hazardous waste management field with an overview of industrial processes and their generation of waste streams. The selected industries include: electroplating, metal finishing and printed circuit board production; oil refining and chemical production; steel production; general manufacturing; printing and graphic reproduction; agriculture; and consumer services.
3 Units
54 Lecture hours

ET 120 Introduction to Alternative Energy Technology (Same as AET 120)
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment
Transfers to: CSU
This course is an introductory course that will examine the theory behind present day energy systems which will include an in-depth analysis of the design and installation of alternate energy systems. Topics will include: solar electrical systems, wind electrical systems, solar water heating systems, wind mechanical systems, small hydro-electrical systems, and conservation methods used to save energy. Also presented are topics on geothermal energy, fuel cells, biomass systems, and applications of alternate energy in transportation, industrial, commercial, and residential systems. Students will collect

286 / Rio Hondo College 2017-2018 Catalog
solar data using an irradiance meter and determine power consumption of a typical residence to develop an alternative energy solution. This course is intended for students that are contemplating a career in the alternative energy industry.

3 Units
45 Lecture hours
27 Lab hours

ET 121 Photovoltaic Systems Design and Installation (Same as AET 121)
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment
Transfers to: CSU
This is an introductory course that will examine and implement the design and installation of solar photovoltaic power systems, which will include the installation of a working solar photovoltaic power system. Students will learn how to perform solar site evaluations, electrical load calculations, solar system size calculations, and installation techniques for grid-tie and off-the-grid photovoltaic systems. This course is designed to prepare the student for the North American Board of Certified Energy Practitioners (NABCEP) Entry Level Exam. This course is intended for students that are contemplating a career in the solar photovoltaic energy industry.

3 Units
45 Lecture hours
27 Lab hours

ET 122 Advanced Photovoltaic Systems Design and Installation (Same as AET 122)
Prerequisite: AET/EET 121
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment
Transfers to: CSU
This is the second course in the photovoltaic series that will further examine and implement the design and installation of solar photovoltaic power systems. Students will learn how to interpret the National Electrical Code (NEC) specifics concerning wind power installations. The topics include code compliant wiring of modules, inverters, charge controllers, grounding techniques and related topics. Additional topics include wind site evaluations, electrical load calculations, wind system size calculations, hydraulic fundamentals, basic aerodynamics, and installation techniques for wind power generation systems. Students will learn how to design and install wind power generation systems and obtain skills for employment. This course is intended for students that are contemplating a career in the wind turbine power generation industry.

3 Units
45 Lecture hours
27 Lab hours

ET 123 Wind Energy Systems Design and Installation (Same as AET 123)
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment
Transfers to: CSU
This is an introductory course that will examine and implement the design and installation of wind power systems which will include the installation of a working wind generation power system. Students will learn how to perform wind site evaluations, electrical load calculations, wind system size calculations, hydraulics fundamentals, basic aerodynamics, and installation techniques for wind power generation systems. Students will learn how to design and install wind power generation systems and obtain skills for employment. This course is intended for students that are contemplating a career in the wind turbine power generation industry.

3 Units
45 Lecture hours
27 Lab hours

ET 124 Advanced Wind Energy Systems Design and Installation (Same as AET 124)
Prerequisite: AET/EET 123
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment
Transfers to: CSU
This is the second course in the wind energy series that will further examine and implement the design and installation of wind power systems. Students will learn how to interpret the National Electrical Code (NEC) specifics concerning wind power installations. The topics include code compliant wiring of modules, inverters, charge controllers, grounding techniques and related topics. Additional topics include wind site evaluations, electrical load calculations, wind system size calculations, hydraulic fundamentals, basic aerodynamics, and installation techniques for large wind power generation systems. This course is intended for students that are contemplating a career in the wind turbine power generation industry.

3 Units
45 Lecture hours
27 Lab hours

ET 130 Health Effects of Environmental Hazardous Materials
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment; BIOL 120; BIOL 120L; CHEM 110
Transfers to: CSU
This course is designed to educate individuals working in or seeking employment in areas that include health and safety responsibilities. It provides an overview of how to identify and evaluate the hazards of chemical, physical and biological agents that can be encountered in industrial operations, waste disposal and remediation sites.

3 Units
54 Lecture hours

ET 150 Hazardous Waste Management Applications
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment
Transfers to: CSU
This course is designed to provide individuals, who are working in or seeking employment in the environmental field with an overview of hazardous waste management and regulations. The course explains the hazardous waste regulatory framework and develops research skills in the hazardous waste area. Emphasis is placed on the following topics: universal waste, generator compliance, site investigation and remediation, permitting, enforcement, liability, and storm water discharge. The course also provides “hands-on” applications of the regulations. These applications include: preparing a hazardous waste manifest, labeling and storing containers, sampling and analysis, and preparing a Phase I environmental audit.

4 Units
54 Lecture hours
54 Lab hours
be examined. Innovative remediation technologies and trends in remediation systems will be studied. A case study, which will highlight the remediation processes that are being used at a selected remediation site, will be examined.

3 Units
54 Lecture hours

ET 170 Groundwater Hydrology and Sampling
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment
Transfers to: CSU
This course is designed to train individuals, who are working in or who seek employment in the environmental field, with an overview of the basic physical and chemical nature of groundwater aquifer systems, an overview of the techniques of sampling protocols for obtaining groundwater samples based on US EPA approved sampling protocols, and an introduction to groundwater pollution, remediation, and protection. Emphasis is placed on developing practical working knowledge of groundwater resources, groundwater protection, and groundwater remediation.
3 Units
54 Lecture hours

ET 180 Home Energy Management and Auditing (Same as AET 181)
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
Transfers to: CSU
This course is designed to provide individuals, who are working in or seeking employment in the green energy field, with an overview of home energy management and auditing. Specifically, this course will assist students in their preparation of a comprehensive energy audit and energy management program. Emphasis is placed on the following topics: Types of Energy Audits, Energy Management and Cost, Benchmarking, Energy Performance, Energy Use Requirements, Maximizing System Efficiencies, Optimizing Energy Input Requirements, Fuel and Energy Substitution and Energy Audit Instruments.
3 Units
54 Lecture hours

ET 200 Hazardous Materials Management Applications
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment
Transfers to: CSU
This course is designed to provide individuals, who are working in or who seek employment in the hazardous materials management field, with a general overview of the requirements and applications of federal, state, and local laws and regulations relating to hazardous materials. The course will emphasize compliance with Department of Transportation, OSHA Hazard Communications, SARA Title III Community Right-to-Know, Underground Tank, Asbestos, Proposition 65, and Air Toxics Regulations.
4 Units
54 Lecture hours
54 Lab hours

ET 240 Solid Waste Management Applications
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment
Transfers to: CSU
This course is designed to provide individuals, who are working in or seek employment in the solid waste management field, with an overview of the solid waste industry and its components. Emphasis is placed on the various aspects of integrated waste management including: waste prevention, recycling, composting, incineration, landfills, environmental sampling and monitoring, facility siting and permitting, and compliance with environmental, health and safety regulations.
4 Units
54 Lecture hours
54 Lab hours

ET 250 Fundamentals of Safety and Health I
Advisory: ENGL 035 or ENLA 100 or appropriate assessment, ET 230, or work in General Industry, Construction, or in the Safety and Health Field
Transfers to: CSU
This course is designed to introduce the student to the field of Occupational Safety and Health and Program Development. Topics include instruction on Federal, State and Local Agency legislation and the application of Labor and Occupational Safety and Health regulations. The course content also includes familiarization with Workers Compensation/General Liability Insurance, Accident Investigation Techniques, Industrial Hygiene, Ergonomics, Fire Prevention, Site and Facility Auditing, Systems Safety and Program Development. This course is for individuals that are pursuing a degree in Environmental Technology, Safety & Health or for working supervisors, professionals or business owners that are responsible for worker safety or placement of workers compensation/general liability insurance.
3 Units
54 Lecture hours
ET 251
Fundamentals of Safety and Health II
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; ET 230
Transfers to: CSU
This course is designed to introduce the student to the supervisory and management functions of Occupational Safety and Health and Risk Management. Topics include a review of Federal, State and Local Agency Legislation, Labor and Occupational Safety and Health regulations and Workers Compensation insurance.
The course content will focus on the Elements of Safety and Health Program Development, Behavior Based Safety, Workplace Violence, Terrorism Preparedness, Hazardous Materials and Waste Management, Application of occupational safety and health design/compliance, regulations and development of the Safety and health and Loss Prevention Program (Policy through QA/QC).
This course is for individuals that are pursuing a degree in Environmental Technology, a Safety & Health Certificate and the working professional or business owner responsible for worker safety or Risk Management.

3 Units
54 Lecture hours

ET 260
Environmental Sampling and Analysis
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment; BIOL 120; BIOL 120L; CHEM 110
Transfers to: CSU
This course provides an overview of the techniques of sampling protocols for obtaining soil, air, surface water, and groundwater samples based on the U.S. EPA approved sampling protocols. In the lecture, emphasis is placed on the aspects of the procurement of the samples through the EPA approved standard operating procedures and practices. In the laboratory, the student will gain practical knowledge and skills for the appropriate collection and handling of environmental samples.

4 Units
54 Lecture hours
54 Lab hours

ET 270
Wastewater Treatment Plant Operations I
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
Transfers to: CSU
This is the initial course of a series of water treatment courses designed to train individuals who are working in or who seek employment in the waste water treatment field, in the practical aspects of operating and maintaining wastewater treatment plants, emphasizing the use of safe practices and procedures. Information presented includes the role and responsibilities of a treatment plant operator, an explanation of why wastes must be treated, and detailed descriptions of the equipment and processes used in a wastewater treatment plant. Students will learn to operate and maintain racks, screens, comminutors, sedimentation tanks, trickling filters, rotating biological contactors, package activated sludge plants, oxidation ditches, ponds, and chlorination facilities. Students will also learn to analyze and solve operational problems and to perform mathematical calculations relating to wastewater treatment process control.

3 Units
54 Lecture hours

ET 271
Wastewater Treatment Plant Operations II
Prerequisite: ET 270
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
Transfers to: CSU
This is the second course of a series of water treatment courses designed to train individuals who are working in or who seek employment in the wastewater treatment field, with the practical aspects of operating and maintaining wastewater treatment plants, emphasizing the use of safe practices and procedures. Information presented includes: conventional activated sludge processes, sludge digestion and solids handling, effluent disposal, plant safety and good housekeeping, plant and equipment maintenance, analysis and presentation of data, and records and report writing. Students will also learn to analyze and solve operational problems and to perform mathematical calculations relating to wastewater treatment process control.

3 Units
54 Lecture hours

ET 272
Advanced Wastewater Treatment
Prerequisite: ET 271
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
Transfers to: CSU
This is the third course in a series of water treatment courses designed to train individuals who are working in or who seek employment in the wastewater treatment field in the practical aspects of operating and maintaining wastewater treatment plants and emphasizes the use of safe practices and procedures. Topics presented include: detailed descriptions of the equipment and advanced treatment processes used for odor control, pure oxygen activated sludge treatment, solids removal from secondary effluents, residual solids management, enhanced biological control including nitrogen and phosphorus removal, and wastewater reclamation. Students will learn to operate and maintain treatment plant instrumentation equipment and systems. Additionally, students will also learn to analyze and solve operational problems and to perform mathematical calculations relating to wastewater treatment process control. This course focuses on actual operating procedures and teaches students to analyze and solve operational problems.

3 Units
54 Lecture hours

ET 273
Stormwater Management, Treatment and Controls
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
Transfers to: CSU
This course is designed to provide individuals, who are working in or are seeking employment in the industrial stormwater management field, with the skills necessary to manage stormwater activities at industrial sites. Such management activities would include the ability to: write stormwater plans, implement structural and non-structural best management practices, evaluate and design stormwater treatment systems, conduct laboratory testing, understand how to collect stormwater samples, evaluate low impact development methods, and understand the regulatory and political framework of stormwater management. Emphasis will be placed on the following topics: stormwater chemistry, water treatment, student designed industrial stormwater systems, auditing for compliance, monitoring of the industrial effluent, interpretation of laboratory results, and how to apply the data to achieve real reductions in effluent contaminated by industrial pollutants.

3 Units
54 Lecture hours

ET 274
Industrial Waste Water Treatment
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
Transfers to: CSU

This course is designed to provide individuals, who are working in or seeking employment in the water management field, with the practical aspects of operating and maintaining industrial water treatment plants. Emphasis is placed on the following topics: role of the industrial waste water treatment operator, types of industrial waste streams, industrial waste water regulations, sources of wastes and methods for preventing and minimizing wastes at the source, and industrial waste monitoring. The plant operations and maintenance topics that will be highlighted include the following: operating and maintaining flow measure equipment, preliminary treatment processes, physical-chemical treatment processes, pressure and gravity filters, physical treatment processes, treatment of metal waste streams, and safety procedures.

3 Units
54 Lecture hours

ET 275 Water Treatment
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
Transfers to: CSU

This course is designed to provide individuals, who are working in or seeking employment in the water management field, with the practical aspects of operating and maintaining water treatment plants. Topics will include: responsibilities of the water treatment plant operator, sources of water, reservoir management and intake structures, coagulation and flocculation, sedimentation and filtration, disinfection and corrosion control, and taste and odor control. Day to day operating procedures will be highlighted in this course and will consist of the following topics: daily operating procedures, regulation of flows, chemical use and handling, records and reports, plant maintenance, safety and security, emergency procedures, handling complaints, and energy conservation.

3 Units
54 Lecture hours

ET 276 Water Distribution
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
Transfers to: CSU

This course is designed to provide individuals, who are working in or seeking employment in the water management system, with the practical aspects of operating and maintaining water distribution systems. Topics include: role and duties of water distribution system operators, procedures for operating and maintaining clear wells and storage tanks, characteristics of distribution system facilities, operating and maintaining distribution systems, maintaining water quality, disinfecting water systems, and techniques for recognizing hazards and developing safe procedures and programs. Operators also learn to analyze and solve problems associated with operating a distribution system.

3 Units
54 Lecture hours

ET 280 Green Building Design Principles
(Same as AET 280)
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
Transfers to: CSU

This course is designed to provide individuals, who are working in or seeking employment in the green building field, with an overview of the green building industry and its components. Specifically, this course will assist students in their preparation for the Leadership in Energy and Environmental Design Accredited Professional (LEED AP) Examination, which is the most recognized professional accreditation for green building in the nation. Emphasis is placed on the six categories of design that green buildings must address for LEED Certification: Sustainable Sites, Water Efficiency, Energy & Atmosphere, Materials & Resources, Indoor Environmental Quality, and Innovation & Design Process. Each of these categories will be studied, with a focus on the significance of each particular credit.

3 Units
54 Lecture hours

ET 290 Cooperative Work Experience/Internship for Environmental Technology
Related Fields
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU

This course supports and reinforces on-the-job training in business and industrial establishments under supervision of a college instructor and is facilitated by the use of learning objectives. The student will be working in a skilled or professional level assignment in their area of vocational interest and will meet performance objectives related to instruction that are above and beyond the conditions of regular employment. This course is intended for students whose job is related to the field of environmental technology and have completed or enrolled in the appropriate coursework. “Contact the CWE office regarding re-enrollment procedures.”

Student Unpaid Internship:
1 Unit/60 hours; 2 Units/120 hours; 3 Units/180 hours; 4 Units/240 hours

Student Paid Internship:
1 Unit/75 hours; 2 Units/150 hours; 3 Units/225 hours; 4 Units/300 hours.

1 to 4 Units
3 Lecture hours
60 to 300 hours

ET 299 Directed Study: Environmental Technology
Transfers to: UC, CSU

Independent Study/Directed Study is intended for students who have the ability to assume responsibility for independent work and to prepare written or oral reports and/or or appropriate projects. To enroll in an independent study/directed study course, students must possess a 2.5 overall grade point average, a 3.0 grade point average in the discipline of study being requested, or receive an exception from the instructor. Independent Studies/Directed Studies may be developed from any topic arising from or related to a course of study that will result in developing depth and breadth in that subject area. Students will be expected to meet on a regular basis with their faculty sponsor and submit a final report or project, and student progress shall be evaluated at regular intervals. Academic standards for Independent Studies/Directed Studies shall be the same as those for other courses. Units are awarded in accordance to Title V regulations with one unit of credit awarded for 54 hours of Directed Studies, six (6) hours of which must be with an instructor. The instructor is responsible for monitoring student progress through the semester. Students may take directed study courses for a maximum of three (3) units within a discipline, and may not accumulate more than a total of nine (9) units college wide.

1 to 3 Units
54 to 162 Lab hours

FABRICATION
Division of Career & Technical Education

FABR 040 Introduction to Fabrication Processes
Advisory: READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment; TCED 090

This is a beginning level course designed to introduce students to various techniques, processes and
technologies used in the Fabrication industry. This course will develop skills necessary for translating dimensional information from a shop drawing or blueprint to metallic materials used for production of finished parts and assemblies. Topics covered in this class will include basic blueprint reading, measurement and measuring tools, layout, metal cutting, drilling and tapping, and metal forming. Emphasis will be placed on shop safety and safe and proper use of equipment, tools and materials.
2 Units
18 Lecture hours
54 Lab hours

FABR 045
Intermediate Fabrication Processes
Advisory: READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment; FABR 040
This is a beginning level course designed to broaden the students’ skills and knowledge of metal fabrication techniques. This course will introduce students to basic hand tools and power tools commonly used in the metal fabrication industry. Topics covered in this class will include structural fabrication, tube bending, stair layout and construction, and fabrication of components from sheet metal. Emphasis will be placed on shop safety and on developing proper working procedures.
2 Units
18 Lecture hours
54 Lab hours

FINANCE
Division of Business

FIN 101
Introduction to Financial Planning
Advisory: READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment
Transfers to: CSU
This course provides an overview of the fundamentals of financial planning. Course topics include the financial planning process, managing assets, managing credit, managing investments in stocks, bonds, mutual funds, insurance, and real estate, and retirement and estate planning. This course is designed for those interested in learning about personal financial planning and/or entering the field of financial planning.
3 Units
54 Lecture hours

FIRE ACADEMY
Division of Public Safety

FAC 043
Advanced Fire Course
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This is a variable format (2-40 Hours of Lecture; 2-40 Hours of Lab) course designed to keep Fire Service personnel informed of new laws and fire codes, current prevention procedures, recent developments in hazardous materials, stress on the firefighter, technology, community relations, physical fitness & wellness and other refresher training as may be necessary.
0.074 to 1.482 Units
2 to 40 Lecture hours
2 to 40 Lab hours

FAC 118
Firefighter I, Basic Fire Academy
Prerequisite: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment; FTSC 101; FTEC 102; FTEC 103; FTEC 104; FTEC 105; FTEC 106; EMT 093
Advisory: BIOL 125
Transfers to: CSU
This course is designed for recently employed firefighters and other interested students. Topics covered include organization of the public and private fire service, characteristics and behavior of fire, fire hazards and firefighter safety, extinguishing agents and related extinguishing equipment, fire protection systems and water supply, incident command system, confined space awareness, building construction and assemblies, basic firefighting tactics and strategy, fire prevention, hazardous materials, emergency care, wild land firefighting, Rapid Intervention, Rescue Systems and physical fitness. This course meets the State Board of Fire Services requirements for designation as a “California Firefighter I Accredited Academy” (ARA or Accredited Regional Academy by the California State Fire Marshal). Students who complete this course also receive California certification as an Emergency Medical Technician, in Vehicle Extrication, Fire Control I & II, Hazardous Materials First Responder Operational, Confine Space Awareness, Rescue Systems I, S-110, S-130, S-190, Trench Rescue, Rapid Intervention Crew Tactics, Firefighter Safety and Survival and ICS –200. This course requires completion of a medical physical examination and includes arduous physical activity.
18 Units
126 Lecture hours
616 Lab hours

FAC 120
Firefighter I
Basic Fire Academy with EMT
Prerequisite: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment; FTSC 101; FTEC 102; FTEC 103; FTEC 104; FTEC 105; FTEC 106
Advisory: BIOL 125
Transfers to: CSU
This course is designed for recently employed firefighters and other interested students. Topics covered include organization of the public and private fire service, characteristics and behavior of fire, fire hazards and firefighter safety, extinguishing agents and related extinguishing equipment, fire protection systems and water supply, incident command system, confined space awareness, building construction and assemblies, basic firefighting tactics and strategy, fire prevention, hazardous materials, emergency care, wild land firefighting, Rapid Intervention, Rescue Systems and physical fitness. This course meets the State Board of Fire Services requirements for designation as a “California Firefighter I Accredited Academy” (ARA or Accredited Regional Academy by the California State Fire Marshal). Students who complete this course also receive California certification as an Emergency Medical Technician, in Vehicle Extrication, Fire Control I & II, Hazardous Materials First Responder Operational, Confine Space Awareness, Rescue Systems I, S-110, S-130, S-190, Trench Rescue, Rapid Intervention Crew Tactics, Firefighter Safety and Survival and ICS –200. This course requires completion of a medical physical examination and includes arduous physical activity.
22 Units
136 Lecture hours
783 Lab hours

FAC 4305
Hazardous Material Identification
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course is for fire department personnel and other interested students that want to learn about the current laws and regulations pertaining to the labeling of hazardous materials and the UN Hazardous Classifications. The National Fire Protection Association (NFPA) guidelines and
Management Orientation
Advisory: ENGL 035 or ENLA 100 or appropriate assessment
This course is designed for fire department personnel and other interested students who seek information related to fire service management. The organizational structure of a fire department, fire officer responsibilities and establishing command at the scene of an emergency will be discussed.
0.074 to 1.482 Units
2 to 40 Lecture hours
2 to 40 Lab hours

Arson Scene Investigation
Advisory: ENGL 035 or ENLA 100 or appropriate assessment
This course is designed for fire scene investigation. The scientific method of scene investigation, providing a systematic framework for investigations, is stressed. Determining the point of origin, establishing the cause and recognition, and preservation of evidence will be included. Current legally acceptable methods in compliance with the standards of NFPA 921 “Guide to Fire Explosion Investigations” are stressed throughout the course.
0.074 to 1.482 Units
2 to 40 Lecture hours
2 to 40 Lab hours

Paramedic Support Operations
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course is designed for fire department personnel and other interested students who may assist paramedic units at the scene of emergencies. Patient preparation, stabilization and paramedic coordination will be reviewed. Common terminology will be included. This course meets the Los Angeles County Emergency Medical Technician requirements for recertification as an Emergency Medical Technician in the State of California.
0.074 to 1.482 Units
2 to 40 Lecture hours
2 to 40 Lab hours

Fire Fighting Operations, Structures
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course is designed for fire department personnel and other emergency responders who seek additional coursework in fighting structure fires. A review of basic firefighting tactics and strategy for occupancies such as dwellings, commercial occupancies, industrial occupancies, and special occupancies will be included. Emphasis will be placed on safety to personnel and crew cohesiveness.
0.074 to 1.482 Units
2 to 40 Lecture hours
2 to 40 Lab hours

Fire Fighting Operations, Mobile Units
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course is designed for fire department personnel and other emergency responders who seek additional coursework in fighting fires where mobile units are burning. A review of basic firefighting tactics and strategy specifically for cars, trucks, buses, ships, planes and trains will be discussed. This course will also present information related to terrorist acts while utilizing mobile equipment. Emphasis will be placed on safety to personnel.
0.074 to 1.482 Units
2 to 40 Lecture hours
2 to 40 Lab hours

Fire Fighting Operations, Hazardous Materials
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course is designed for fire department personnel and other interested students who seek information related to response to fires where hazardous materials are present. A basic review of hazard classifications, response concerns when hazardous materials are present, and responder safety is discussed. This course will also present basic response issues related to terrorist acts involving hazardous materials.
0.074 to 1.482 Units
2 to 40 Lecture hours
2 to 40 Lab hours

Driving Techniques and Certification
Prerequisite: Appropriate DMV driver’s permit (when required)
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course is the first of a two-course series designed to prepare Fire Service or other interested students to drive emergency response vehicles that include fire engines, fire trucks and ambulances under emergency and non-emergency conditions. This course will include classroom discussion, driving demonstrations, and driving practice. This course may require students to provide the necessary driving permits needed through the DMV prior to class participation.
0.074 to 1.482 Units
2 to 40 Lecture hours
2 to 40 Lab hours
ered include Occupational Analysis, course outline, concepts of learning, levels of instruction, behavioral objectives, lesson plan development, psychology of learning and instructor evaluation. Student teaching demonstrations are required of all.

2 Units
40 Lecture hours

FAC 4345
Fire Instructor 1B
Prerequisite: FAC 4344
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
State Board of Fire Services accredited courses in fire service instructional techniques, including methods of instruction, use of audio/visual equipment, employment of instructional aids, test construction, teaching demonstrations and reducing failure rates. This course applies to California Fire Service Training and Educational System certifications.
0.167 to 0.75 Units
8 to 40 Lecture hours

FAC 4346
Fire Prevention 1A
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course is the first of a two-course series designed to prepare Fire Service or other interested students to become a California Certified Fire Prevention Officer. This is one of the State Board of Fire Services accredited courses and applies to California Fire Service Training and Educational System certifications. Topics covered include fire prevention codes, ordinances, inspection practices and key hazards including responsibilities and authority, occupancy classification & types of construction, egress requirements, fire resistive assemblies, general fire safety provisions, principles and procedures for fire inspections.
2 Units
40 Lecture hours

FAC 4347
Fire Prevention 1B
Prerequisite: FAC 4346
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course is a second in the series of courses required for Fire Officer Certification as it relates to Fire Prevention. It is also designed for Fire Service personnel or other interested students to become a California Certified Fire Prevention Officer. This course focuses on the special hazards associated with flammable and combustible liquids and gases. Some topics of discussion include bulk storage and handling, transpor-tation of flammable gases and liquids and more.
2 Units
40 Lecture hours

FAC 4348
Fire Investigation I
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course is designed to prepare Fire Service or other interested students to become a California Certified Fire Investigator. This is one of the State Board of Fire Services accredited courses and applies to California Fire Service Training and Educational System certifications. This course provides the participants with an introduction to the basics of fire scene investigation. The focus of the course is to provide information on fire scene indicators and to determine the fire’s origin.
2 Units
40 Lecture hours

FAC 4349
Fire Command 1A
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course is designed to prepare Fire Service or other interested students to become a California Certified Fire Officer. This is one of the State Board of Fire Services accredited courses and applies to California Fire Service Training and Educational System certifications. This course provides instruction and simulation time pertaining to the initial decision and action processes at a working fire. Topics include the fire officer, fire behavior, fire ground resources, operations and management.
2 Units
40 Lecture hours

FAC 4350
Fire Command 1B
Prerequisite: FAC 4349
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course is a continuation of Fire Command 1A and is designed to prepare Fire Service or other interested students to become a California Certified Fire Officer. This is one of the State Board of Fire Services accredited courses and applies to California Fire Service Training and Educational System certifications. This course provides the student with information on tactics, strategies and scene management for multi-casualty incidents, hazardous materials incidents and wildland fires. Each student also has the opportunity to increase his or her knowledge and skills by handling initial operations at these types of incidents through simulation and class activities.
2 Units
40 Lecture hours

FAC 4351
Fire Management I
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This Fire Management course is designed to prepare Fire Service or other interested students to become a California Certified Fire Prevention Officer with emphasis on supervisory skills. This is one of the State Board of Fire Services accredited courses and applies to California Fire Service Training and Educational System certifications. This course prepares or enhances the first line supervisor’s ability to supervise subordinates. It introduces key management concepts, practices utilized, and include discussions about decision making, time management, leadership styles, personnel evaluations and counseling guidelines.
2 Units
40 Lecture hours

FAC 4353
Automatic External Defibrillator
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course provides training in the use of an automated external defibrillator. This course meets the requirements for certification in AED (automated external defibrillation) usage through the American Heart Association and is for the lay rescuer and first responder. This course is designed for the individual working in the public health and safety field. Offered on a pass/no pass basis.
0.2 Units
6 Lab hours

FAC 4361
Fire Command 1C I-Zone Fire Fighting for Company Officers
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This is a State Board of Fire Services accredited course in I-Zone firefighting and elements of the Incident Command System (ICS) for Company Fire Officers. This addresses the three elements of wild land fire behavior including fuel, weather and topography and fundamental elements of size-up as they relate to I-Zone firefighting. The duties and responsibilities of a Strike Team Company Officer and procedures for structure triage and protection are also addressed. This course is designed for firefighting personnel and other
interested students who seek certification as a California State Certified “Fire Officer.”

2 Units
36 Lecture hours

FAC 4362
Incident Command System (ICS)200
Advisory: READ 023 or appropriate assessment
This course is designed for students who desire a basic introduction to the Incident Command System (ICS) for fire ground operations. This course provides the foundation for students to actively take part as a member of team responding to a fire incident. Instruction will be provided in the principles and features of ICS, including an organizational overview, incident facilities, incident resources, and common responsibilities.

0.2 Units
12 Lecture hours

FIRE TECHNOLOGY
Division of Public Safety

FTEC 045
Firefighter Entrance Examination Techniques
Advisory: ENGL 035 or ENLA 100 or appropriate assessment
This course is designed to prepare Fire Technology or other interested students to take a firefighter’s examination. Topics covered include a review of firefighter duties and the requirements of a firefighter, employment requirements in the fire service and the hiring process. Resumes, fire department written examinations, oral interviews, and other related aspects will be discussed.

3 Units
54 Lecture hours

FTEC 101
Fire Protection Organization
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course provides Fire Technology or other interested students with an overview of fire protection issues. Included will be an introduction to the philosophy and history of fire protection and fire service. The organization and function of public and private fire protection services, the laws and regulations affecting fire service and the role of fire departments as part of local government will be explored. Basic fire chemistry, fire protection systems, firefighting strategies and possible career opportunities in fire related fields will also be addressed.

3 Units
54 Lecture hours

FTEC 102
Principles of Fire & Emergency Services Safety & Survival
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course introduces the Fire Technology or other interested students to the basic principles and history related to the national firefighter life safety initiatives, focusing on the need for cultural and behavior changes throughout the emergency services. This course has been updated to meet the National Fire and Emergency Services Higher Education objectives as it pertains to firefighter safety and survival techniques used in today’s fire service.

3 Units
54 Lecture hours

FTEC 103
Fire Behavior and Combustion
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course provides Fire Technology or other interested students with an exploration of theories and fundamentals of how and why fires start, spread, and how they are controlled. An in-depth study of fire chemistry and physics, fire characteristics of materials, extinguishing agents, and fire control techniques will be explored.

3 Units
54 Lecture hours

FTEC 104
Fire Prevention Technology
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed to provide Fire Technology or other interested students with fundamental information regarding the history and philosophy of fire prevention, organization and operation of a fire prevention bureau, use of fire codes, identification and correction of fire hazards, and the relationships of fire prevention with built-in fire protection systems, fire investigation, and fire and life-safety education.

3 Units
54 Lecture hours

FTEC 105
Building Construction for Fire Protection
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course provides the Fire Technology or other interested students with an understanding of the essential components used in building construction that directly relates to fire safety. The elements of construction and design of structures, factors when inspecting buildings, preplanning fire operations, and operating at fires will be discussed. The development and evolution of building and fire codes will be studied in relationship to past fires in residential, commercial, and industrial occupancies.

3 Units
54 Lecture hours

FTEC 106
Fire Protection Equipment and Systems
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course provides the Fire Technology student with information pertaining to the design and operation of fire detection and alarm systems, heat and smoke control systems, special protection and sprinkler systems,
This course provides fire technology or other interested students with a better understanding of rescue problems and techniques in the fire service field. Topics covered include emergency rescue equipment, toxic gases, chemicals, diseases, radiation hazards, and care of victims. Students will become prepared for emergency childbirths, respiration and resuscitation, auto extrication, and other emergency conditions throughout the course.

3 Units
54 Lecture hours

FTEC 111
Fire Hydraulics
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU
This course provides the Fire Technology student with information applicable to fire service hydraulics, specifically pertaining to fire hose, friction loss and calculations for gallons per minute (GPM) on the fire ground. The student will study fire ground hydraulic formulas used to calculate needed fire flow for residential and commercial structures.

3 Units
54 Lecture hours

FTEC 112
Fire Apparatus and Equipment
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU
This course provides the fire technology or other interested students with information pertaining to the design and operation of fire department apparatus. This includes components such as the engine, pump and drive train. Basic hydraulic calculations for operation and safe vehicle use will also be discussed. Topics addressed include the different types of fire apparatus and their function including wildland firefighting apparatus and municipal fire apparatus.

3 Units
54 Lecture hours

FTEC 114
Fire Investigation
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU
This course provides the Fire Technology or other interested students with an understanding of determining causes of fires (accidental, suspicious and incendiary). Topics covered include arson laws, field note taking, and incendiariism. Also addressed are the recognition and preserving of evidence, the interviewing of witnesses and suspects, arrest and detention procedures, court demeanor and the giving of court testimony.

3 Units
54 Lecture hours

FTEC 117
Fire Service Management, Safety and Wellness
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU
This course is designed for fire technology majors to provide the student with the concepts, theories and principles of fire service management. Emphasis is placed on the distinctions between management, supervision and leadership. Fire service stress and safety management will be discussed and the national fire service standards will be presented.

3 Units
54 Lecture hours

FTEC 121
Emergency Response
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU
This course is intended for students that seek a better understanding of the role and responsibilities of a first responder. This class also meets the State of California Title 22 requirements pertinent to CPR, First Aid and AED (automatic external defibrillation) training as it relates to the EMT (Emergency Medical Technician). This course will also certify the student to administer oxygen, provide professional rescuer CPR and provide basic first aid. This course may be repeated once.

3 Units
36 Lecture hours
54 Lab hours

FTEC 150
Truck Company Operations
Prerequisite: Firefighter 1 certification or completion of a CSFM approved Fire Academy
Advisory: READ 023 or appropriate assessment

Transfers to: CSU
This course is for veteran firefighters or other interested students that want to enhance their knowledge and ability as it pertains to the fire ground operations associated with truck company tactics and strategy. Basic roof construction, vertical and horizontal ventilation, forcible entry, positive and negative ventilation, search and rescue, thermal imaging technology, firefighter safety and survival, rapid intervention tactics, elevator rescue
Directed Study: Fire Technology

FTEC 299
Cooperative Work Experience/Internship for Fire Technology Related Fields
Advisory: READ 023 or appropriate assessment; ENGL 035 or ENLA 100 or appropriate assessment
Transfers to: CSU

This course supports and reinforces on-the-job training in the Fire Technology field under supervision of a college instructor and is facilitated by the use of learning objectives. The student will be working in a skilled or professional level assignment in the area of Fire Technology and will meet performance objectives related to instruction that are above and beyond the conditions of regular employment. This course is intended for students whose job is related to the field of fire technology and have completed or enrolled in the appropriate coursework. Contact the CWE office regarding re-enrollment procedures.

Student Unpaid Internship:
1 Unit/60 hours; 2 Units/120 hours;
3 Units/180 hours; 4 Units/240 hours

Student Paid Internship:
1 Unit/75 hours; 2 Units/150 hours;
3 Units/225 hours; 4 Units/300 hours.
1 to 4 Units
3 Lecture hours
60 to 300 Other

FTEC 299
Directed Study: Fire Technology
Transfers to: UC, CSU

Independent Study/Directed Study is intended for students who have the ability to assume responsibility for independent work and to prepare written or oral reports and/or appropriate projects. To enroll in an independent study/directed study course, students must possess a 2.5 overall grade point average, a 3.0 grade point average in the discipline of study being requested, or receive an exception from the instructor.

Independent Studies/Directed Studies may be developed from any topic arising from or related to a course of study that will result in developing depth and breadth in that subject area. Students will be expected to meet on a regular basis with their faculty sponsor and submit a final report or project, and student progress shall be evaluated at regular intervals.

Academic standards for Independent Studies/Directed Studies shall be the same as those for other courses. Units are awarded in accordance to Title V regulations with one unit of credit awarded for 54 hours of Directed Studies, six (6) hours of which must be with an instructor. The instructor is responsible for monitoring student progress through the semester. Students may take directed study courses for a maximum of three (3) units within a discipline, and may not accumulate more than a total of nine (9) units college wide.

FIRST YEAR SEMINAR
Division of Library Science

FYS 101 Beyond Words: Visual and Performing Arts in Action
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment;
Transfers to: CSU

This seminar course is designed to introduce first-year students to the spirit of academic excellence and intellectual curiosity that lies at the heart of learning. All First-Year Seminar courses explore a common selected theme in depth. This seminar course will approach the selected theme as a conduit for understanding the visual and performing arts. FYS 101 will examine the artist’s use of an abstracted language that moves beyond words to the visual, aural, and kinesthetic. Students are invited to explore creativity, innovation, self-expression, imagination, close observation, introspection, and inquisitiveness as artistic responses to the world around us. This seminar will then examine how visual and performing artists give shape to these responses by applying skill and ingenuity. Through inquiry-based instruction and active learning, students develop into self-directed problem-solvers. Coursework will build throughout the semester toward a culminating project in a variety of media. Through presentations, guest speakers, and field trips, students will be exposed to professions and fields of study in the natural sciences.
3 Units
54 Lecture hours

FYS 103 Science in Society
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment;
Transfers to: CSU

This seminar course is designed to introduce first-year students to the spirit of academic excellence and intellectual curiosity that lies at the heart of learning. All First-Year Seminar courses explore a theme in depth. FYS 103 will explore the selected theme through the lens of the natural sciences, their effects on society, and how the pursuit of science has been influenced by social forces.
Through inquiry-based instruction and active learning, students develop into self-directed problem-solvers. Coursework will build throughout the semester toward a culminating project in various media. Through presentations, guest speakers, and field trips, students will be exposed to professions and fields of study in business and the cyber future.

54 Lecture hours

FYS 104 Understanding the SELFie: Diversity and Human Experiences
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment;
Transfers to: CSU

This seminar course is designed to introduce first-year students to the spirit of academic excellence and intellectual curiosity that lies at the heart of learning. All First-Year Seminar courses explore a common selected theme in depth. This seminar course will approach the selected theme as a conduit for understanding diversity and human experiences. FYS 104 will explore major themes, problems, theories, and ideologies from both past and present. This seminar encourages student inquiry and analysis into subject matter which continues to
shape their lives today. This course challenges students to utilize primary skills found in each discipline in order to explain human experiences, examine historical and contemporary theories, and facilitate their contributions to their communities at large. Through inquiry-based instruction and active learning, students develop into self-directed problem-solvers. Coursework will build throughout the semester toward a culminating project in various media. Through presentations, guest speakers, and field trips, students will be exposed to professions and fields of study in behavioral and social sciences.

3 Units
54 Lecture hours

FYS 105
Voices, Ideas, and the Power of Language
Advisory: ENGL 035 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; Transfers to: CSU
This seminar course will consider the selected theme through the lens of written and oral communication. FYS 105 will explore the etymology, analysis, and practice of how we use symbols in society, both orally and in writing. Through inquiry-based instruction and active learning, students develop into self-directed problem-solvers. Coursework will build throughout the semester toward a culminating project in various media. Through presentations, guest speakers, and field trips, students will be exposed to professions and fields of study in language, literature, and verbal expression.

3 Units
54 Lecture hours

FRENCH
Division of Communications & Languages

FR 101
French I
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; Transfers to: UC, CSU
This course is an introduction to the essentials of French language: reading, listening, speaking, and writing skills. Various facets of French-speaking culture (history, philosophy, and politics) will be analyzed via cross-cultural comparisons. In addition to classroom discussion, students are required to complete at least 18 hours of intensive individualized oral-aural practice in the Language Laboratory via interactive websites, audio CDs, video programs, and films. The Language Laboratory work focuses on vocabulary, grammar, and cultural practices. The Languages Department as a whole mandates the requirement of 18 hours of independent lab work per semester. This class is designed for those interested in learning to speak French as well as those seeking a degree in the French language.

4 Units
72 Lecture hours

FR 102
French II
Prerequisite: Completion of FR 101 with a grade of "C" or better, or completion of 2 years of high school French with a grade of "C" or better; Transfers to: UC, CSU
This course is a continuation of the essentials of the French language: reading, listening, speaking, and writing skills. Various facets of French-speaking culture (history, philosophy, and politics) will be analyzed via cross-cultural comparisons. In addition to classroom discussion, students are required to complete at least 18 hours of intensive individualized oral-aural practice in the Language Laboratory via interactive websites, audio CDs, video programs, and films. The Language Laboratory work focuses on vocabulary, grammar, and cultural practices. The Languages Department as a whole mandates the requirement of 18 hours of independent lab work per semester. This class is designed for those interested in continuing to learn to speak French as well as those seeking a degree in the French language.

4 Units
72 Lecture hours

FR 201
French III
Prerequisite: FR 102; Transfers to: UC, CSU
This course stresses advanced conversational, reading, writing, and translation skills. Emphasis is placed on understanding spoken French as well as on proficiency and accuracy in speaking French. The course will include an introduction to French literature as well as the reading of one novel in French to be determined by the instructor. In addition to classroom instruction, students receive intensive, individualized oral-aural practice in the language laboratory in which websites, video programs, audio CDs, and CD ROMs are used. Various facets of French culture, philosophy, politics, and history will also be explored. This course is intended for those interested in continuing to learn to speak French as well as for those seeking a degree in the French language.

4 Units
72 Lecture hours

FR 202
French IV
Prerequisite: FR 201; Transfers to: UC, CSU
This course is a continuation of FR 201. The course stresses advanced conversational, reading, writing, and translation skills. Emphasis is placed on understanding spoken French as well as on proficiency and accuracy in speaking French. The course will include an introduction to French literature as well as the reading of one novel in French to be determined by the instructor. In addition to classroom instruction, students receive intensive, individualized oral-aural practice in the language laboratory in which websites, video programs, audio CDs, and CD ROMs are used. Various facets of French culture, philosophy, politics, and history will also be explored. This course is intended for those interested in continuing to learn to speak French as well as for those seeking a degree in the French language.

4 Units
72 Lecture hours

FR 299
Directed Study: French
Transfers to: UC, CSU
Independent Study/Directed Study is intended for students who have the ability to assume responsibility for independent work and to prepare written or oral reports and/or appropriate projects. In an independent study/directed study course, students must possess a 2.5 overall grade point average, a 3.0 grade point average in the discipline of study being requested, or receive an exception from the instructor. Independent Studies/Directed Studies may be developed from any topic arising from or related to a course of study that will result in developing depth and breadth in that subject area. Students will be expected to meet on a regular basis with their faculty sponsor and submit a final report or project, and student progress shall be evaluated at regular intervals. Academic standards for Independent Studies/Directed Studies shall be the same as those for other courses. Units are awarded in accordance to Title V regulations with one unit of credit awarded for 54 hours of Directed Studies, six (6) hours of which must be with an instructor. The instructor
GIS 120
Introduction to Geographic Information Systems and Spatial Analysis
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; CIT 101
Transfers to: UC (credit limit*), CSU (*Students will receive credit from UC for only one of the following courses: GIS 120 or GIS 220)
This course will introduce fundamental concepts of geographic information and spatial analysis, using industry standard geospatial application tools including geographic information systems (GIS), global positioning systems (GPS), cartography, remote sensing. Students will learn how to use geospatial technologies to perform spatial analysis in various disciplines including but not limited to business, public safety, health, politics, engineering, environmental, and social, biological and geological sciences. Students should have a working knowledge of Windows to be successful in this course.
4 Units
54 Lab hours
54 Lecture hours

GIS 130
Applied Geographic Information Systems
Prerequisite: GIS 120 or introductory level experience in GIS and use of e-mail and Internet
Transfers to: CSU
This course provides students an expanded hands-on study in GIS using ArcView and practical learning in the field to enhance GIS entry-level employment skills. Working in the field with professionals from GIS and other disciplines, students will collect real data and information using Global Positioning Systems (GPS), develop GIS data, explore solutions to real problems and produce supportive documentation in a variety of formats including constructing web pages and plotting maps.
3 Units
36 Lecture hours
54 Lab hours

GIS 220
GIS Applications
Prerequisite: GIS 120
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; CIT 101
Transfers to: UC (credit limit*), CSU (*Students will receive credit from UC for only one of the following courses: GIS 120 or GIS 220)
GIS 220 is designed for students to apply tools learned in GIS120 and introduces geoprocessing methods and new data sets to perform suitability models such as where to locate a new school, or how to determine concentrations of sales, pollutants or crimes within a community. In addition, field work is performed using Global Positioning System (GPS) including development of data dictionary, collection and processing and import into GIS. Additional data import includes CAD and tables. Students are introduced to data delivery including layer and map packages and web mapping. Course may include field trips for student to visit industry meetings and attend off campus GPS exercise.
4 Units
54 Lab hours
54 Lecture hours

GIS 221
Cartography Design and Geographic Information Systems
Prerequisite: GIS 120
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
GIS plays an important role in almost any discipline and improves understanding of information through visual interpretation. This course is designed for students who want a better understanding and methods to effectively portray information spatially using conventions of patterns, colors and symbology. Students are introduced to the history of map interpretation, map projections, scales, map accuracy and layout conventions for publication in reports or large formats at emergency operations center. Course may include field trips for student to visit industry meetings and attend off campus GPS exercise.
4 Units
54 Lecture hours
54 Lab hours

GIS 222
Planning and Facilities Management Using GIS
Prerequisite: GIS 120
Corequisite: ENGT 150
Transfers to: CSU
This course uses ArcView GIS as an analytical and information tool for engineers, planners and facility managers to aid in the planning process, facilities management, systems evaluation, maintenance and asset management of large-scale facilities and infrastructure. Included is site management of facilities, city and regional planning, infrastructure based on topological features, evaluation based on growth indicators, population and economic projections, and use of GIS to support contemporary environmental rules and regulations. The course will include production of professional quality maps using ArcView as well as utilizing customized software.
3 Units
54 Lecture hours
36 Lab hours

GIS 230
Geographic Information Systems (GIS) in Environmental Technology
Prerequisite: GIS 120
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
In the environmental field today there are few jobs that do not require a background in Geographical Information Systems (GIS) and Global Positioning Systems (GPS). GIS is today widely applied in planning used for land use and growth management, environmental assessment to disaster response. This course integrates training in GIS with field data collection methods using GPS & Remote Sensing to collect environmental data used interpretively by GIS. Students should have a working knowledge of Windows to be successful in this course. This course may be taken once for credit towards the certificate and repeated once for credit to enhance student skills and proficiency level. Possible day field trips are scheduled to visit local industries and for GPS field work.
3 Units
36 Lecture hours
54 Lab hours

GIS 280
Visual Basic and Database Management for GIS
Prerequisite: GIS 120
Corequisite: GIS 220
Transfers to: CSU
This course presents the fundamentals of computer programming and database management systems (DBMS) techniques as utilized in
Visual Basic and Access for various GIS (Geographic Information Systems) environments. Advanced GIS programming and database management methodologies for spatial data analysis and development of GIS applications will also be covered. This course is designed for students in the GIS program and others who wish to upgrade their skills to build a solid understanding of Visual Basic and data management systems for GIS customization and application development.

4 Units
54 Lecture hours
54 Lab hours

GIS 281
Crime Mapping and Analysis
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; CIT 101

Transfers to: CSU

Crime mapping plays an important role in almost any form of crime analysis and can improve our understanding of the important relationships between people, location, time, and crime. As a result, Geographic information systems (GIS) has become an essential tool used by crime analysts to discover crime patterns, implement corrective strategies, optimize resource allocation, and to develop crime prevention measures. Students will use ArcGIS to analyze crime series, conduct problem analysis, study crime trends, and address deployment issues as they relate to decision making in law enforcement. Students should have a working knowledge of Windows to be successful in this course.

4 Units
54 Lecture hours
54 Lab hours

GIS 290
Cooperative Work Experience/Internship for Geographic Information Systems Related Fields
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU

This course supports and reinforces on-the-job training in business and industrial establishments under supervision of a college instructor and is facilitated by the use of learning objectives. The student will be working in a skilled or professional level assignment in their area of vocational interest and will meet performance objectives related to instruction that are above and beyond the conditions of regular employment. This course is intended for students whose job is related to the field of GIS and have completed or enrolled in the appropriate coursework. *Contact the CWE office regarding re-enrollment procedures.*

Student Unpaid Internship:
1 Unit/60 hours; 2 Units/120 hours;
3 Units/180 hours; 4 Units/240 hours

Student Paid Internship:
1 Unit/75 hours; 2 Units/150 hours;
3 Units/225 hours; 4 Units/300 hours

1 to 4 Units
3 Lecture hours
60 to 300 Other hours

GEOG 299
Directed Study in Geographic Information Systems
Prerequisite: 2.5 overall grade point average, a 3.0 grade point average in the discipline of study being requested, or receive an exception from the instructor
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU

This course provides an opportunity for the student to expand their studies in Geographic Information Systems beyond the classroom by completing a project or an assignment arranged by an agreement between the student and instructor. The student is required to contract with the instructor to determine the scope of the assignment and the unit value assigned for successful completion. Students must possess a 2.5 overall GPA, a 3.0 GPA in the discipline of study being requested, or receive an exception from the instructor. Students may take a maximum of 3 units of Directed Study within a discipline and 9 units college-wide.

1 to 3 Units
54 to 162 Lab hours

GEOGRAPHY
Division of Mathematics & Sciences

GEOG 101 (C-ID GEOG 110)
Introduction to Physical Geography Laboratory
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: UC, CSU

World Regional Geography explores the world’s geographic regions, including Sub-Saharan Africa, North Africa, Southwest Asia, China, Southeast Asia, Middle America, South America, Japan, Europe, and Russia. This course describes the cultural, economic, and environmental aspects of each of these geographic realms. It provides a geographic perspective that will enhance global awareness and geographic literacy.

3 Units
54 Lecture hours

GEOG 103 (C-ID GEOG 125)
World Regional Geography
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: UC, CSU

This course introduces students to the basic elements of culture. Population growth, migration, ethnicity, language, religion, folk and popular culture, and settlement forms are among the topics presented. This course may be of interest to students considering the field of elementary teaching, ecology, social science, or travel related vocations.

3 Units
54 Lecture hours

GEOG 299
Directed Study: Geography

Transfers to: UC, CSU

Independent Study/Directed Study is intended for students who have the ability to assume responsibility for independent work and to
prepare written or oral reports and/or appropriate projects. To enroll in an independent study/directed study course, students must possess a 2.5 overall grade point average, a 3.0 grade point average in the discipline of study being requested, or receive an exception from the instructor.

Independent Studies/Directed Studies may be developed from any topic arising from or related to a course of study that will result in developing depth and breadth in that subject area. Students will be expected to meet on a regular basis with their faculty sponsor and submit a final report or project, and student progress shall be evaluated at regular intervals.

Academic standards for Independent Studies/Directed Studies shall be the same as those for other courses. Units are awarded in accordance to Title V regulations with one unit of credit awarded for 54 hours of Directed Studies, six (6) hours of which must be with an instructor. The instructor is responsible for monitoring student progress through the semester.

Students may take directed study courses for a maximum of three (3) units within a discipline, and may not accumulate more than a total of nine (9) units college wide.

1 to 3 Units
54 to 162 Lab hours

GEOG 310 Environmental Geography
Prerequisite: ENGL 201 or ENGL 201H, and GEOG 101 (both with a grade of "C" or better)

This upper division General Education course is designed for students pursuing a Bachelor`s of Science degree in Automotive Technology, and is open to all students who have successfully completed the requirements to enroll in a 300-level course (junior-level status). This course will examine how the environment is impacted by human activity in different geographical regions and how the environment responds. Topics will include global cycles and systems of the air, water, and soil, and the effects of human activity on the environment and living systems. Case studies will be used to investigate specific environmental issues.

3 Units
54 Lecture hours

GEOG 151 (C-ID GEOL 100L)
Physical Geology Laboratory
Prerequisite/Corequisite: GEOG 150
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment

Transfers to: UC, CSU

Physical Geology, which fulfills the physical science general education requirement, is an introduction to the principles of geology with emphasis on Earth processes. This course focuses on the internal structure and origin of the Earth and the processes that change and shape it. Earthquakes, Volcanoes, Oil, Beaches, Tsunamis, Rocks, Rivers, Glaciers, Plate Tectonics, Minerals, Continent and Mountain Building are among the many diverse topics that are explored.

3 Units
54 Lecture hours

GEOG 152 Historical Geology
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment

Transfers to: UC, CSU

This course is an introduction to Earth's history and the life it supports. Subjects include geologic dating, global tectonics, stratigraphy, fossils, biological evolution, the planet's origin and the processes that have influenced paleogeography during the past 4.6 billion years.

1 Unit
54 Lab hours

GEOG 299 Directed Study: Geology
Transfers to: UC, CSU

Independent Study/Directed Study is intended for students who have the ability to assume responsibility for independent work and to prepare written or oral reports and/or appropriate projects. To enroll in an independent study/directed study course, students must possess a 2.5 overall grade point average, a 3.0 grade point average in the discipline of study being requested, or receive an exception from the instructor.

Independent Studies/Directed Studies may be developed from any topic arising from or related to a course of study that will result in developing depth and breadth in that subject area. Students will be expected to meet on a regular basis with their faculty sponsor and submit a final report or project, and student progress shall be evaluated at regular intervals.

Academic standards for Independent Studies/Directed Studies shall be the same as those for other courses. Units are awarded in accordance to Title V regulations with one unit of credit awarded for 54 hours of Directed Studies, six (6) hours of which must be with an instructor. The instructor is responsible for monitoring student progress through the semester.

Students may take directed study courses for a maximum of three (3) units within a discipline, and may not accumulate more than a total of nine (9) units college wide.

1 to 3 Units
54 to 162 Lab hours

GDSN 150 Typography
Advisory: READ 022 or appropriate assessment; NVOC 007

Transfers to: CSU

This course is for the student interested in the history, theory and practice of letterforms and typography as they apply to graphic design, advertising, and other areas of design.

Transfers to: CSU

This course is the laboratory component to an introduction to Earth's history and the life it supports. Subjects include geologic dating, plate tectonics, stratigraphy, fossils, biological evolution, the planet's origin and the processes that have influenced paleogeography during the past 4.6 billion years.
and visual communication. Projects cover the history and principles of typography, letter structure, typeface selection, fundamentals of typesetting, and introductory typographic layout.

3 Units
54 Lecture hours
54 Lab hours

GDSN 151
Typographic Design
Prequisite: GDSN 150
Advisory: READ 022 or appropriate assessment
Transfers to: CSU
This course is for the student interested in the theory and practice of letterforms and typography as they apply to graphic design, advertising, and other areas of design and visual communication. Focus is on the compositional use of type and its relationship to issues of visual hierarchy, readability, and page structure. Students continue their exploration of typography as an expressive visual form through typographic design projects.

3 Units
27 Lecture hours
81 Lab hours

GDSN 162
Introduction to Web Design: User Experience Design (UX)
Advisory: READ 022 or appropriate assessment
Transfers to: CSU
This Web Design class is a practical introduction for students interested in UX (user experience) and visual interface design and the challenges it poses for the Graphic Designer. Using Web Design applications like Adobe Dreamweaver and Adobe Photoshop, students are introduced to the steps involved in creating a basic functional interactive website. Topics include aesthetic design considerations, front-end technology, interaction, UX, UI and CSS design, file optimization, and website principles and practices. For the student interested in a degree in Graphic Design or those interested in web design and interactive design.

3 Units
27 Lecture hours
81 Lab hours

GDSN 163
Intermediate Web Design: Interactive Design
Prequisite: GDSN 162
Advisory: READ 022 or appropriate assessment
Transfers to: CSU
Focusing on usability, this intermediate class offers broader and more advanced instruction into the ‘front-end’ visual design and aesthetics of interactive media as well as the technical and design requirements of designing a fully functional website. Using intermediate web design applications, students are instructed in techniques needed in increasing the user experience (UX). Students continue to perfect the creation of a fully functional website using multifaceted applications. Topics include interactive design software, front-end aesthetics, technology, interaction, UX, UI and CSS design, the principles and elements of digital design and aesthetics, and interactive design business practices. For the student interested in a degree in Graphic Design or those interested in web design and interactive design.

3 Units
27 Lecture hours
81 Lab hours

GDSN 164
Digital Illustration (Illustrator) (Formerly ART 164)
Advisory: READ 022 or appropriate assessment
Transfers to: CSU
This course is an introduction to Graphic Design, and uses Adobe Illustrator design software as the principal digital tool. Topics include the Principles and Elements of Design, typography, color, shape stroke, illustration techniques, page layout design, as well as introductory critical concepts and professional practices employed by Graphic Designers. This course includes portfolio building with an emphasis on professional standards. This course is for the student interested in a degree in Graphic Design or those interested in 2 dimensional design and layout applications employed as tools by Graphic Designers.

3 Units
27 Lecture hours
81 Lab hours

GDSN 165
Branding and Identity Design (Formerly ART 165)
Prequisite: GDSN 164
Advisory: READ 022 or appropriate assessment
Transfers to: CSU
This course is an exploration of Branding and Identity Design, a sub-discipline of Graphic Design. Topics include the research and development of Trademarks and Logos for clients, the Principles and Elements of Design, typography, color, shape stroke, illustration techniques, page layout design, as well as intermediate and advanced critical concepts and professional practices employed by Graphic Designers. This course includes portfolio building with an emphasis on professional standards. This course is for the student interested in a degree in Commercial Art or Graphic Design or those interested in 2 dimensional design and layout applications employed as tools by Graphic Designers.

3 Units
27 Lecture hours
81 Lab hours

GDSN 172
Publication Design (InDesign) (Formerly ART 172)
Advisory: READ 022 or appropriate assessment
Transfers to: CSU
This course is an exploration of Publication Design, a sub-discipline of Graphic Design. Topics include the Principles and Elements of Design, typography, color, imagery and the grid, discussion of output and pre-press considerations for print and digital distribution as well as current methods/styles critical concepts and professional practices employed by Graphic Designers. This course includes portfolio building with an emphasis on professional standards. This course includes portfolio building with an emphasis on professional standards. This course is for the student interested in a degree in Graphic Design or those interested in 2 dimensional design and layout applications employed as tools by Graphic Designers.

3 Units
54 Lecture hours
54 Lab hours

GDSN 174
Packaging Design
Prequisite: GDSN 172
Advisory: READ 022 or appropriate assessment
Transfers to: CSU
This course is for the student interested in a degree in Graphic Design and/or those interested in Packaging Design layout applications employed as tools by Graphic Designers for two-dimensional and three-dimensional surfaces. This course is a project-driven exploration of Packaging Design which is defined as stylized functional design for carrying, protecting, or presenting a product. This course builds on the foundational skills of Publication Design expanding them on two-dimensional and three-dimensional surfaces. Topics include: the Principles and Elements of Design, current technical and creative methods and styles employed by Package Designers, as well as well as sustainability, advanced critical concepts and professional practices. This course includes portfolio building with an emphasis on professional standards.

3 Units
27 Lecture hours
81 Lab hours
GDSN 178
Digital Imaging (Photoshop)
(Formerly ART 178)
Advisory: READ 022 or appropriate assessment
Transfers to: UC, CSU
This course is for the student interested in a degree in Commercial Art or Graphic Design or those interested in 2 dimensional design and layout applications employed as tools by Graphic Designers. This course is an exploration of Graphic Design, and uses Adobe Photoshop software as the principal digital tool. Topics include: photo/raster/bitmapped-based scanning, image formats, optimization, re-touching, adjustments, compositing, blending, color, conceptual and narrative techniques, current technical and creative methods and styles employed by Graphic Designers as well as advanced critical concepts and professional practices. This course includes portfolio building with an emphasis on professional standards.
3 Units
54 Lecture hours
54 Lab hours

GDSN 179
Advanced Digital Imaging (Photoshop)
Prerequisite: GDSN 178
Advisory: READ 022 or appropriate assessment
Transfers to: CSU
This course is for the student interested in a degree in Graphic Design and/or those interested in advanced 2 dimensional design and layout applications employed as tools by Graphic Designers. This course is an advanced project-driven exploration of Graphic Design, and uses Adobe Photoshop software as the principal digital tool. Topics include: photo montage, compositing, collage, advanced conceptual and narrative techniques, current technical and creative methods and styles employed by Graphic Designers, as well as advanced critical concepts and professional practices. This course includes portfolio building with an emphasis on professional standards.
3 Units
27 Lecture hours
81 Lab hours

GDSN 299
Directed Study in Graphic Design
The course provides an opportunity for the student to expand their studies in Graphic Design beyond the classroom by completing a project or an assignment arranged by agreement between the student and instructor. The student is required to contract with the instructor to determine the scope of the assignment and the unit value assigned for successful completion. Students must possess a 2.5 overall GPA, a 3.0 GPA in the discipline of study being requested, or receive an exception from the instructor. Students may take a maximum of 3 units of Directed Study within a discipline and 9 units college-wide.
1 to 3 Units
54 to 162 Lab hours

HEALTH SCIENCE
Division of Health Science & Nursing

HS 045
Math for the Health Care Professional
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment
This is a basic course that focuses on mathematical computation and application within the health care setting. Topics covered within this course include drug dosages, calculation of intake and output, weights and measures, temperatures, intravenous infusion rates and conversions necessary for safe employment in the healthcare setting. This course is an elective course for students wanting to pursue a career in the healthcare industry.
1 Unit
18 Lecture hours

HS 050
Nurse Assistant Pre-Certification Training Course
Corequisite: HS 050
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed for students who have expressed an interest in an entry level nursing course. This course meets Title 22 regulations for taking care of the geriatric population in a long term care setting, utilizing skills in basic care, emergency care and communication. The Nurse Assistant Pre-Certification training course consists of 72 hours of class instruction. This course includes communication, patient observation, reporting and recording training as well as reinforcement of Certified Nurse Assistant basic care procedures. The Department of Health Science and Nursing requires that students must be concurrently enrolled in both HS 050 and HS 050L, and pass both courses together. They cannot be taken individually for credit.
1.5 Units
27 Lecture hours

HS 051
Certified Nurse Assistant Acute Care Training Course
Prerequisite: HS 050, HS 050L, and California State CNA Certification
Corequisite: HS 051L
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed for students who wish to learn the basic nursing skills and duties in the acute care setting with additional emphasis on the specialized acute care areas such as medical/surgical, orthopedics, pediatrics and obstetrics. The Certified Nurse Assistant Acute Care course consists of 27 hours of classroom instruction. This course includes communication, patient observation, reporting and recording training as well as reinforcement of Certified Nurse Assistant basic care procedures. The Department of Health Science and Nursing requires that students must be concurrently enrolled in both HS 051 and HS 051L, and pass both courses together. They cannot be taken individually for credit.
1.5 Units
27 Lecture hours

HS 050L
Nurse Assistant Pre-Certification Training Course Lab
Corequisite: HS 050
This course is designed for students who have expressed an interest in an entry level nursing course. This course meets Title 22 regulations for taking care of the geriatric population in a long term care setting, utilizing skills in basic care, emergency care and communication. The Nurse Assistant Pre-Certification training course lab consists of 135 hours of supervised clinical practice in long term facilities. This course prepares the student to take the California State Certification Exam to become a Certified Nurse Assistant (CNA). After obtaining the state certification, the student may find employment in the acute care and/or long term care settings. The California Department of Health requires that students must be concurrently enrolled in both HS 050 and HS 050L, and pass both courses together. They cannot be taken individually for credit.
2.5 Units
135 Lab hours

HS 051L
Certified Nurse Assistant Acute Care Training Course Lab
Prerequisite: HS 050, HS 050L, and California State CNA Certification
Corequisite: HS 051
This course is designed for students who wish to learn the basic nursing skills and duties in the acute care setting with additional emphasis on the specialized acute care areas such as medical/surgical, orthopedics, pediatrics and obstetrics. The Certified Nurse Assistant Acute Care course consists of 27 hours of classroom instruction. This course includes communication, patient observation, reporting and recording training as well as reinforcement of Certified Nurse Assistant basic care procedures. The Department of Health Science and Nursing requires that students must be concurrently enrolled in both HS 051 and HS 051L, and pass both courses together. They cannot be taken individually for credit.

27 Lecture hours
who are Certified Nurse Assistants that wish to learn the basic nursing skills and duties in the acute care setting with additional emphasis on the specialized acute care areas such as medical/surgical, orthopedics, pediatrics and obstetrics. The Certified Nurse Assistant Acute Care course lab consists of 54 hours of supervised clinical practice in an acute care facility. This course includes communication, patient observation, reporting and recording training as well as reinforcement of Certified Nurse Assistant basic-care procedures. The California Department of Health requires that students must be concurrently enrolled in both HS 052 and HS 052L, and pass both courses together. They cannot be taken individually for credit.

1 Unit
54 Lab hours

HS 052
Home Health Aide Training Course
Prerequisite: HS 050, HS 050L and California State CNA Certification
Corequisite: HS 052L
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed for students who are Certified Nurse Assistants that wish to learn how to provide personal care in the home setting for those who are unable to do it for themselves and/or promote the recovery, safety and comfort of the patient. Additional emphasis on rehabilitative nursing care, family relationships and the impact of long-term illness on the family as well as the client will be included. The Home Health Aide training course consists of 54 hours of supervised clinical practice in either the Acute Care or Skilled Nursing Facility. This course meets title 22 regulations for Home Health Aides training programs. The California Department of Health requires that students must be concurrently enrolled in both HS 052 and HS 052L, and pass both courses together. They cannot be taken individually for credit.

1 Unit
54 Lab hours

HS 054
Beginning Terminology for Healthcare Workers
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 020 or MATH 020C
This course covers the basic knowledge and understanding of medical language, terminology, and basic human anatomy. The student will learn word parts, prefixes, suffixes, word roots and will review the body systems. Anatomical, physiological and pathophysiological terms will also be defined. This is an entry-level course for students interested in the health care field and is highly recommended prior to enrolling in any health-related course.

3 Units
54 Lecture hours

HS 060
Health Science Core
Prerequisite: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This is a basic course which focuses on medical terminology, normal body structures and functions, the principles of nutrition, and the relationship of nutrition to health. It provides a strong foundation for all students entering the health care field. This course is a prerequisite for the Vocational Nursing Program.

5 Units
90 Lecture hours

HS 070
Introduction to Ambulatory Care Nursing
Prerequisite: Possess an unrestricted California RN license
This is an introductory level course to prepare the licensed RN to work in the ambulatory care nursing setting. This course includes classroom lecture and learning activities that provides the type of skills and competencies needed for the RN to work in outpatient care settings, such as clinics.

4.5 Units
81 Lecture hours

HEAT & FROST
Division of Career & Technical Education

HEFR 040
Insulation Industry Orientation
Prerequisite: State Indentured Heat and Frost Insulator Apprentice
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the Heat and Frost Insulators Industry. Topics include orientation to the trade, industry safety, job-site safety, insulation, pipe systems, OSHA, refinery safety, boom and scissor lift safety, and duct systems.

3 Units
40 Lecture hours
40 Lab hours

HEFR 041
Mechanical Piping Systems
Prerequisite: State Indentured Heat and Frost Insulator Apprentice; HEFR 040
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of State Indentured Apprentices with the State of California who are interested in the Heat and Frost Insulators Industry. Topics include insulation materials, techniques, finishes, piping systems, fireproofing, hand tools, fall protection, and equipment used in the field.

3 Units
40 Lecture hours
40 Lab hours

HEFR 042
Boiler Insulation
Prerequisite: State Indentured Heat and Frost Insulator Apprentice; HEFR 040
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of State Indentured Apprentices with the State of California who are interested in the Heat and Frost Insulators Industry. Topics include boilers, insulating techniques, stacks, breechings, hi-rbrib laith insulation, finishing, ship-yard orientation, pen
welding, safety, first-aid, confined space, and fittings.
3 Units
40 Lecture hours
40 Lab hours

HEFR 043
Construction Mathematics
Prerequisite: State Indentured Heat and Frost Insulator Union Apprentice; HEFR 040
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of State Indentured Apprentices with the State of California who are interested in the Heat and Frost Insulators Industry. Mathematical operations commonly used in the construction trade will be reviewed and applied. Topics include whole numbers, fractions, decimals, basic geometry functions, curves and angles, drawings, estimating, energy appraising, insulation certifications, and measurements.
3 Units
40 Lecture hours
40 Lab hours

HEFR 044
Mechanical Piping Insulation
Prerequisite: State Indentured Heat and Frost Insulator Union Apprentice; HEFR 040
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of State Indentured Apprentices with the State of California who are interested in the Heat and Frost Insulators industry. Topics include heat transfer, general insulating methods, materials, application of insulation materials, coatings, coverings for pipes and fittings, attachment methods, mold recognition and abatement, and finishing for pipes in various thermal ranges.
3 Units
40 Lecture hours
40 Lab hours

HEFR 045
Foam and Firestopping Insulation
Prerequisite: State Indentured Heat and Frost Insulator Union Apprentice; HEFR 040
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of State Indentured Apprentices with the State of California who are interested in the Heat and Frost Insulators Industry. Topics include metal cutting, fittings, band saws, foam materials, spray equipment operations, firestopping insulation, and maintenance and repair of foam application equipment.
3 Units
40 Lecture hours
40 Lab hours

HEFR 046
Blueprint Reading
Prerequisite: State Indentured Heat and Frost Insulator Union Apprentice; HEFR 040
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of State Indentured Apprentices with the State of California who are interested in the Heat and Frost Insulators industry. Topics include introduction to blueprint reading, general arrangement, symbols, industry standards, insulation drawings, isometric drawings, industry certifications, and shop drawings.
3 Units
40 Lecture hours
40 Lab hours

HEFR 047
Prefabricated Buildings
Prerequisite: State Indentured Heat and Frost Insulator Union Apprentice; HEFR 040
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of State Indentured Apprentices with the State of California who are interested in the Heat and Frost Insulators Industry. Topics include insulation, design of walls, prefabricated industry panels, prefabricated metal buildings, hazardous materials, and storage tank insulation.
3 Units
40 Lecture hours
40 Lab hours

HEFR 048
Firestop Applications
Prerequisite: State Indentured Heat and Frost Insulator Union Apprentice; HEFR 040
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the Insulation and Fire Industry. Topics include layout, fabrication, and installation procedures for firestopping systems on mechanical, electrical, and plumbing penetrations on maintenance and repair.
3 Units
40 Lecture hours
40 Lab hours

HEFR 049
Advanced Life Safety Firestop Application
Prerequisite: State Indentured Heat and Frost Insulator Union Apprentice; HEFR 040; HEFR 048
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the Insulation and Firestop Industry. Topics include advanced layout, advanced fabrication, and advanced installation procedures for firestopping systems on mechanical, electrical, and plumbing penetrations on maintenance and repair.
3 Units
40 Lecture hours
40 Lab hours

HEFR 290
Work Experience in Heat and Frost Insulator Apprenticeship
Prerequisite: State Indentured Heat and Frost Insulator Union Apprenticeship
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course provides students the opportunity to work in the Heat and Frost Insulators apprenticeship program for the purpose of developing specific skills to meet the goals and objectives of the Heat and Frost Insulator Joint Apprenticeship and Training Committee (J.A.T.C.). Students complete work experience hours at approved training sites. Students may take up to 16 units total across all Work Experience course offerings. Only one Work Experience course may be taken per semester.
1 to 4 Units
3 Lecture hours
75 to 225 Other hours

HEAVY EQUIPMENT TECHNOLOGY
Division of Career & Technical Education

HET 051
Outdoor Power Equipment Operation and Maintenance
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This is an introductory course designed to familiarize the student with the basic operation of a multitude of outdoor power equipment such as garden tractors, lawn equipment, personal watercraft, portable...
generators, air compressors, pressure washers and many others that are powered by small displacement internal combustion engines. Students will learn tools and service equipment use and how to safely perform basic repair and maintenance operations. Students will have the opportunity to perform minor repair work on their own equipment to complete required tasks. This course is designed to be a companion course to HET 052 and HET 053. Students are encouraged to complete all three courses in order to obtain a firm foundation in Outdoor Power Equipment.

4 Units
54 Lecture hours
54 Lab hours

HET 052
Outdoor Power Equipment Engine Repair
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course is designed to provide the student with the skills required to repair the engines used in Outdoor Power Equipment. Emphasis is placed on problem diagnosis, service procedures, proper repair techniques, and machining operations. In addition, the students will learn tools and service equipment use and will have the opportunity to perform repair work on their own equipment to complete required tasks. This course is designed to be a companion course to HET 051 and HET 053. Students are encouraged to complete all three courses in order to obtain a firm foundation in Outdoor Power Equipment.

4 Units
54 Lecture hours
54 Lab hours

HET 053
Outdoor Power Equipment Engine Systems
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course is designed to provide the student with the skills required to repair the engine systems used in Outdoor Power Equipment. Emphasis is placed on problem diagnosis, service procedures and proper repair techniques of fuel, ignition, lubrication and cooling systems. In addition, the students will learn tools and service equipment use and will have the opportunity to perform repair work on their own equipment to complete required tasks. This course is designed to be a companion course to HET 051 and HET 052. Students are encouraged to complete all three courses in order to obtain a firm foundation in Outdoor Power Equipment.

4 Units
54 Lecture hours
54 Lab hours

HET 101
Introduction to Heavy Equipment Technology
(Formally HET 040)
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This is an introductory course designed to familiarize the student with the basic operation and maintenance of a multitude of systems commonly found on Heavy Equipment machinery. Students will learn the fundamentals of diesel engines, clutches, manual transmissions, torque converters, automatic transmissions, drive lines, steer and drive axles, various brake and hydraulic systems. In addition, the students will learn basic tools and equipment, and how to safely perform basic repairs and maintenance operations. This is the first course in a series of Heavy Equipment Technology classes, and is designed for the student who wants to enter the field of Heavy Equipment Maintenance and Repair.

4 Units
54 Lecture hours
54 Lab hours

HET 106
Heavy Equipment Electrical Fundamentals
(Formally HET 041)
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This introductory course is designed to familiarize the student with the heavy equipment’s electrical and electronic systems. Topics covered include fundamentals of electricity, basic circuits, schematics, symbols, diagrams, DVOM, graphing multimeter and oscilloscope usage, wire repair techniques, electrical components, semiconductors (including IC), battery, charging, starting, accessory, and instrumentation systems. Demonstrations using the A-Tech circuit boards will be used to illustrate electrical principles, including strategy-based diagnostics.

4 Units
54 Lecture hours
54 Lab hours

HET 107
Heavy Equipment Operation, Performance Testing and Adjusting
(Formally HET 047)
Prerequisite: HET 101; HET 106
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed to familiarize the students with California and Federal OSHA Safety Regulation for the General Industry Workplace, and a variety of material handling and construction equipment including forklifts, skid steer loaders, and front end loaders/backhoes. Topics covered include rules and regulations, work site material storage and handling, fire protection and prevention, hand and power tools, welding and cutting, electrical safety, and fall protection. Machine specific terminology, pre-operational inspection, principles of balance and stability, capacity and load handling, refueling, hydraulic power, job site and pedestrian safety will also be covered. Students will learn how to safely verify the machine performance and how to perform minor adjustments of various subsystems if needed. Upon successful completion of this course and forklift operation examination the student will receive a Certificate of Completion and wallet card for Forklift Operator Safety Training as required by OSHA 1910.178(l) and CAL/OSHA Title 8 (Section 3669), which is good for three years, and a 10-hour OSHA Training Certificate of Completion, which is good for life.

4 Units
54 Lecture hours
54 Lab hours

HET 140
Heavy Equipment Electrical Diagnostics
(Formally HET 050)
Prerequisite: HET 107
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed to familiarize the student with the heavy equipment’s electrical and electronic systems. Topics include review of electrical theory, circuit faults, electrical and electronic components usage and diagnostics, computers, sensors, actuators, and data communications. A-Tech simulator boards will be used to illustrate different component functions. In addition, the students will be introduced to the strategy based diagnostics, including troubleshooting electrical problems using live equipment.

4 Units
54 Lecture hours
54 Lab hours

HET 150
Heavy Equipment Fuel Systems and Emissions
(Formerly HET 046)
Prerequisite: HET 107
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed to familiarize the students with a wide variety of heavy equipment diesel engine fuel systems and operation. Topics
covered include hydro-mechanical systems such as port-helix, inlet-metering, sleeve-metering and mechanical unit injectors as well as computerized management systems including common rail and amplified common rail. Additional topics regarding diesel engine emission control strategies and devices such as diesel oxidation catalyst, diesel particulate filter and selective catalytic reduction will also be covered. Component failure analysis will be discussed as part of testing and adjusting of various fuel systems. In addition, proper shop and personal safety, and how to use manufacturer’s service specifications information will also be covered.

4 Units
54 Lecture hours
54 Lab hours

HET 160
Heavy Equipment Diesel Engines
(Formerly HET 044)

Prerequisite: HET 107
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU

This course is designed to familiarize the students with the mechanical aspects of the Heavy Equipment diesel engines. Topics covered include engine terminology, designs, theory of operation, construction, disassembly, cleaning, components inspection, failure analysis, and reassembly. In addition, proper shop and personal safety, correct usage of shop and hand tools, precision measuring instruments, critical fasteners, and how to use manufacturer’s service specifications information will also be covered.

4 Units
54 Lecture hours
54 Lab hours

HET 200
Heavy Equipment Hydraulic Fundamentals
(Formerly HET 043)

Prerequisite: HET 107
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU

This introductory course is designed to familiarize the students with a variety of mobile hydraulic systems and their operational characteristics. Topics covered include hydraulics safety, hydraulic power principles, system designs, basic components, oil contamination and filtration, hydraulic symbols, schematics, diagrams, and testing instruments. In addition, an overview of electohydraulic systems including electric and electronic components, controllers, controller programming, and data communication, will also be covered. Hydraulic trainer simulators will be used to illustrate power principles and operation. Using hydraulic schematics the students will build a wide variety of hydraulic systems commonly installed in modern heavy equipment.

4 Units
54 Lecture hours
54 Lab hours

HET 210
Heavy Equipment Hydraulic Diagnostics
(Formerly HET 049)

Prerequisite: HET 200
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU

This course is intended to familiarize the students with the heavy equipment’s hydraulic and electro-hydraulic systems. Topics include review of hydraulic theory and basic hydraulic system designs and components, hydraulic and electronic components used in electro-hydraulic systems, hydraulic controllers, sensors, actuators, and data communications. In addition, the students will be introduced to the strategy-based diagnostics, with an emphasis on electro-hydraulic controls failures, using hydraulic trainer simulators and live equipment.

4 Units
54 Lecture hours
54 Lab hours

HET 220
Heavy Equipment Powertrains I
(Formerly HET 045)

Prerequisite: HET 107
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU

This course is designed to familiarize the students with conventional Heavy Equipment powertrain systems and components. Topics covered include fundamentals of gears, friction and anti-friction bearings, mechanical clutches, manual transmissions, driveline systems, drive axles, final drives, hydraulic and air brakes, and undercarriage systems. Component failure analysis will be discussed as part of disassembly, inspection, and reassembly of various transmissions, drive axles, and final drives. In addition, proper shop and personal safety, and how to use manufacturer’s service specifications information will also be covered.

4 Units
54 Lecture hours
54 Lab hours

HET 230
Heavy Equipment Powertrains II
(Formerly HET 048)

Prerequisite: HET 220
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU

This course is intended to familiarize the students with a wide variety of modern heavy equipment powertrains systems and components. Topics covered include powershift transmissions, torque converters, hydrostatic drive systems, AC electric drive systems, spring-applied hydraulically released brakes, steering, and suspension systems. Component failure analysis will be discussed as part of disassembly, inspection, and reassembly of various transmissions, drives, brakes and steering systems. In addition, proper shop and personal safety, and how to use manufacturer’s service specifications information will also be covered.

4 Units
54 Lecture hours
54 Lab hours

HET 240
Heavy Equipment Heating, Ventilation
and Air-Conditioning
(Formerly HET 042)

Prerequisite: HET 107
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU

This course is designed to familiarize the student with the heavy equipment’s heating, ventilation and air-conditioning systems, and prepare them for an entry level technician in this field. Topics covered include environmental and safety practices, thermodynamic principles, refrigeration systems, engine cooling and heat sources, service and troubleshooting procedures. Automatic systems, service equipment, contamination issues and the rules of AQMD/EPA will also be covered. During the course, students will be given the opportunity to earn their certification license (EPA Rule 1411).

4 Units
54 Lecture hours
54 Lab hours

HET 290
Cooperative Work Experience/Internship for Heavy Equipment Technology Related Fields

Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU

This course supports and reinforces on-the-job training in business and industrial establishments under the supervision of a college instructor and is facilitated by the use of
learning objectives. The student will be working in a skilled or professional level assignment in their area of vocational interest and will meet performance objectives related to instruction that are above and beyond the conditions of regular employment. This course is intended for students whose job is related to the heavy equipment maintenance field and have completed or enrolled in the appropriate coursework. “Contact the CWE office regarding re-enrollment procedures.”

**Student Unpaid Internship:**
1 Unit/60 hours; 2 Units/120 hours; 3 Units/180 hours/4 Units/240 hours

**Student Paid Internship:**
1 Unit/75 hours; 2 Units/150 hours; 3 Units/225 hours; 4 Units/300 hours
1 to 4 Units
3 Lecture hours
60 to 300 Other hours

---

**HIST 299**

**Directed Study in Heavy Equipment Technology**

Prerequisite: 2.5 overall grade point average, a 3.0 grade point average in the discipline of study being requested, or receive an exception from the instructor

Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSIU

This course provides an opportunity for the student to expand their studies in Heavy Equipment Technology beyond the classroom by completing a project or an assignment arranged by an agreement between the student and instructor. The student is required to contract with the instructor to determine the scope of the assignment and the unit value assigned for successful completion. Students must possess a 2.5 overall GPA, a 3.0 GPA in the discipline of study being requested, or receive an exception from the instructor. Students may take a maximum of 3 units of Directed Study within a discipline and 9 units college-wide.

1 to 3 Units
54 to 162 Lab hours

**HISTORY**

**Division of Behavioral & Social Sciences**

**HIST 101 (C-ID HIST 150)**

**History of World Civilization to the 17th Century**

Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: UC, CSIU

This course is a survey of the political, economic and social development of world civilization up to the 17th century. Special emphasis is placed on the origins of the earth’s principal centers of civilization, their subsequent interaction, and the emergence of a world economic, political, and intellectual order. This course is designed for the student who wishes to increase their understanding and appreciation of cultural, political, and intellectual diversity, as well as the process of intercultural interaction. This course also satisfies a course requirement for the History for Transfer (AA-T) degree.

3 Units
54 Lecture hours

**HIST 102 (C-ID HIST 160)**

**History of World Civilization, 1500 to the Present**

Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: UC, CSIU

This course is a survey of the political, economic, and social development of world civilization from 1500 to modern times. Special emphasis is placed on the origins and development of the world economic system and the corresponding cultural, intellectual, and social currents that have characterized most of the world’s leading societies since 1500. This course is intended for the student who wants to increase their understanding and appreciation of both the diversity and the unity of the modern world. This course also satisfies a course requirement for the History for Transfer (AA-T) degree.

3 Units
54 Lecture hours

**HIST 122**

**History of Mexico**

Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: UC, CSIU

This course examines the cultural, social, and political history of Mexico from pre-Columbian to modern times. The course will cover pre-Columbian Mesoamerica, the Spanish conquest and the colonial period, and the national period, with special emphasis on Mexico’s relations with the United States and its place and role in the world community. This course is designed for students interested in understanding Mexico as a nation and is also recommended for all history and most social science majors. This course is also a restricted elective for the History for Transfer (AA-T) degree.

3 Units
54 Lecture hours

**HIST 131**

**History of the North American Indian**

Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: UC, CSIU

This course surveys the struggle of Native Americans to maintain their culture in the face of invasion and changing technology. It explores government Indian policies of removal, pacification, annihilation and assimilation, and considers present issues facing Native Americans today. This course is intended for students who wish to understand the role of Native Americans in the historical development of North America. It is recommended for all history major. This course also satisfies a course requirement for the History for Transfer (AA-T) degree.

3 Units
54 Lecture hours

**HIST 143 (C-ID HIST 130)**

**History of the United States to 1877**

Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: UC, CSIU

This course is a survey of United States history from Native American origins to post Civil War Reconstruction. Social, economic, political and cultural developments are explored with an emphasis on the independence movement, Revolutionary War, the new Republic, westward expansion and the Civil War. This course is designed for students interested in the foundational history of the United States. It is recommended for all history majors and fulfills the CSU/UC American Institutions requirement and the American Institutions requirement for the Associate degree. This course also satisfies a requirement for the History for Transfer (AA-T) degree.

3 Units
54 Lecture hours

**HIST 143H (C-ID HIST 130)**

**History of the United States to 1877 Honors**

Prerequisite: ENGL 101 with a grade of “C” or better

Advisory: READ 023 or appropriate assessment

Transfers to: UC, CSIU

This course is a survey of United States history from Native American origins to post Civil War Reconstruction. Social, economic, political and cultural developments are explored with an emphasis on the independence movement, Revolutionary War, the new Republic, westward expansion and the Civil War. This course is designed for students interested in the foundational history of the United States. It is recommended for...
HIST 144 (C-ID HIST 140)  
**History of the United States Since 1865**
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment  
Transfers to: UC (credit limit*), CSU  
(*Students will receive credit from UC for only one of the following courses: HIST 144 or HIST 144H)

This course provides a survey of the political, social, economic, and cultural development of the United States from Reconstruction (1865) to the present. Some topics addressed are Reconstruction, the American West, capital and labor in the age of enterprise, America as an emerging world power, World War I, World War II, the Vietnam Era, the Cold War, the new world order. This course fulfills the American Institutions requirement for the Associate Degree. It is recommended for all History majors and satisfies a course requirement for the History for Transfer (AA-T) degree.

3 Units  
54 Lecture hours

54 Lecture hours

HIST 146  
**Black American Experience to 1865**
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment  
Transfers to: CSU

This survey investigates the history of African Americans from their west African origins to the abolition of slavery, roughly dating from the 1400s to 1865. In this course, students will examine the ways, in which, blacks constructed a distinct African American culture, influenced by the African past, shared experiences of enslavement, and the experiences of free blacks. This course will also pay close attention to the methods and tactics employed by blacks to exert control over their lives, highlighting their major successes and achievements, despite myriad forms of oppression and discrimination.

54 Lecture hours

HIST 157H  
**US Comparative History of Mexican and Asian Americans & Women Honors**
Prerequisite: ENGL 101 with a grade of "C" or better  
Advisory: READ 023 or appropriate assessment  
Transfers to: UC (credit limit*), CSU  
(*Students will receive credit from UC for only one of the following courses: HIST 159 or HIST 159H)

This course surveys the roles selected minorities have played in the historical development of the United States from the earliest times to the present. Emphasis is placed on the history and cultural contributions of Mexican Americans, Asian Americans, and American women. This course is intended for those wishing to fulfill the American Institutions requirement for the Associate degree and CSU, those who desire a better understanding of the history of minorities in the United States, and those wishing to take the Honors version. This course is a restricted elective for the History for Transfer (AA-T) degree. This course is intended for those who meet Honors Program requirements.

54 Lecture hours

HIST 158  
**US Comparative History of American Indians and Black Americans**
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment  
Transfers to: UC, CSU

This course is a survey of the roles minorities have played in the historical development of the United States from the earliest times to the present, with an emphasis on the twentieth century. The course begins with a study of racism, followed by the history and cultural contributions of the American Indian and the African American. This course fulfills the American Institutions requirement for the Associate Degree. This course is intended for those who desire a better understanding of the history of minorities in the United States. This course also satisfies a course requirement for the AA-T in History for Transfer degree.

3 Units  
54 Lecture hours

HIST 159  
**US Comparative History of Mexican and Asian Americans and Women**
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment  
Transfers to: UC (credit limit*), CSU  
(*Students will receive credit from UC for only one of the following courses: HIST 159 or HIST 159H)

3 Units  
54 Lecture hours
This course provides an overview of California history from the first aboriginal inhabitants to modern times. Cultural, political, social and economic development will be addressed in the context of history. The development of contemporary institutions and the historical context of current issues will be addressed. This course is suitable for students seeking further understanding of California’s past and present, and those preparing for a career in teaching at the elementary level. It also satisfies a course requirement for the History for Transfer (AA-T) degree.

3 Units
54 Lecture hours

HIST 170
Women in American History
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is a survey of the role, status, and contributions of women of different ethnic groups and social classes in American society from earliest times to the present, with an emphasis on the twentieth century. Special attention will be given to understanding of how gender has shaped women’s options and expectations within the private and public spheres of society. This course is designed for the student who wants to learn more about women’s history in America and is recommended for all history majors. This course satisfies a course requirement for the History for Transfer (AA-T) degree.

54 Lecture hours

HIST 325
History of Science and Technology
Prerequisite: ENGL 201 or ENGL 201H, and HIST 101 or HIST 102 or HIST 143 or HIST 143H or HIST 144 or HIST 144H (both with a grade of “C” or better)
This upper division General Education course is designed for students pursuing a Bachelor’s of Science degree in Automotive Technology but it is also open to all students who have successfully completed the prerequisites. This course explores the history of science and technology from the initial understandings of the universe from Ptolemy and Aristotle, to the challenges brought by the scholars of the Scientific Revolution, to the modern innovators of scientific developments and advancements in technology. This course provides an overview of how individuals, societies, and nations were impacted by these developments and how science and technology impacts political, social, economic, and cultural changes over time. Since both science and technology are vital in the 21st century, this course aims to highlight the long history behind each from a global historical perspective.

3 Units
54 Lecture hours

HOMELAND SECURITY
Division of Public Safety
HMLD 101
Introduction to Homeland Security
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
In this course, students will learn the principles and practices of sanitation and safety in food service operations. Topics covered include food-borne illness identification and prevention, the HACCP system, safety maintenance and prevention, OSHA’s current regulations, accident and fire prevention. The course will also prepare students for the National Restaurant Association’s ServSafe® Manager Certification.

3 Units
54 Lecture hours

HOSP 101
Introduction to the Hospitality Industry
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course is designed to introduce students to the hospitality industry. Students will gain an understanding of hotel organization and classification, and the range of hotel operations including front office, housekeeping, food and beverage, information systems, accounting, and property maintenance. They will also gain an understanding of how these functional areas work together to deliver the guest experience and exceed guests’ expectations.

3 Units
54 Lecture hours

HOSP 102
Introduction to Hotel Operations
Transfers to: CSU
This course is designed to introduce students to the hotel industry. Students will gain an understanding of hotel organization and classification, and the range of hotel operations including front office, housekeeping, food and beverage, information systems, accounting, and property maintenance. They will also gain an understanding of how these functional areas work together to deliver the guest experience and exceed guests’ expectations.

3 Units
54 Lecture hours

HOSP 103
Sanitation and Safety
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
In this course, students will learn the principles and practices of sanitation and safety in food service operations. Topics covered include food-borne illness identification and prevention, the Hazard Analysis of Critical Control Point (HACCP) system, safety maintenance and prevention, OSHA’s current regulations, accident and fire prevention. The course will also prepare students for the National Restaurant Association’s ServSafe® Manager Certification.

3 Units
54 Lecture hours

HOSP 104
Introduction to Food and Beverage Management
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course is designed to introduce students to the food and beverage industry and entry-level management of food and beverage operations. Focal areas include an overview of the food service industry, nutrition, menu pricing and food costs, types of food and beverage service, sanitation and safety, managing finances, and sustainability.

3 Units
54 Lecture hours
HOSP 201
Hospitality Law
Transfers to: CSU
In this course, students gain an understanding of the legal aspects of managing hospitality operations. Limiting personal and business exposure to liability and best practices for complying with laws and regulations are emphasized. Topics include food and beverage liability, employee selection, common contracts, responsibilities to guests and for guest property, and safety and security.
3 Units
54 Lecture hours

HUMAN SERVICES
Division of Behavioral & Social Sciences

HUSR 111
Human Services in Contemporary Society
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is an introduction to the history and philosophy of human services in contemporary society. The function and objectives of human service organizations as well as the qualifications of the professional will be emphasized. A survey of the populations served in the field will focus on cultural, social, economic and historical trends. The course is designed for students pursuing careers in social work, counseling or community organizing.
3 Units
54 Lecture hours

HUSR 118
Chemical Dependency: Intervention, Treatment, and Recovery
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course provides an introduction to current perspectives with respect to the management of chemical dependency. Through an examination of alcoholism as a model of drug dependence, the treatment of and recovery from such disorders will be explored from two divergent perspectives: the reformative and the transformative. Current treatment modalities will be compared and contrasted in terms of their view of the individual in both the social and clinical context. The class experience itself will serve as an intervention by challenging students to examine their existing ideas about treatment and recovery from substance use disorders. Suitable for students interested in furthering their understanding of substance dependence and those interested in working with populations recovering from or at risk for such problems.
3 Units
54 Lecture hours

HUSR 122
Introduction to Group Leadership and Process
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course provides an introduction to the dynamics of group interaction. The individual’s firsthand experience is emphasized as the group studies itself under supervision. The factors involved in problems of communication, effective emotional responses, and personal growth will be highlighted. Group process will be examined as a means of changing behavior. Suitable for students interested in furthering their understanding of group dynamics and those interested in supervising groups dedicated to achieving behavioral change.
3 Units
54 Lecture hours

HUSR 123
Drug Education and Prevention
(Formerly PSY 123)
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed for students interested in furthering their understanding of substance dependence and those interested in working with populations recovering from or at risk for such problems. It addresses the history, theories, models, and approaches to substance abuse education and prevention. In addition to an academic look at drug abuse, students will also explore and examine their own values and beliefs about substance use and misuse. The impact of public policy, the media, and drug education programs on drug use will all be considered.
3 Units
54 Lecture hours

HUSR 124
Introduction to Case Management and Documentation
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course introduces students to case management and documentation in a variety of settings. Students will study the purpose, function, and rationale for case management. In addition, the documentation of client clinical records will be covered, emphasizing the taking of social histories and the writing of treatment plans. The professional guidelines necessary for working with clients in a social services setting will also be covered, providing the student with an understanding of issues related to ethics, client rights, and confidentiality. This class is designed for students interested in working in a social services setting.
3 Units
54 Lecture hours

HUSR 126
Counseling the Family of the Addicted Person
Advisory: ENGL 035 OR ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course provides an overview of the systems approach to counseling the chemically dependent family. Alcoholism will be used as a model for developing counseling skills through the analysis and examination of the relationships that develop in the addicted family system. An experiential format will be employed as students participate in exercises that lead to the development of the necessary skills. This course is designed for those working with or preparing to work with the drug dependent and those around them.
3 Units
54 Lecture hours

HUSR 128
Chemical Dependency and Co-Occurring Disorders
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed for students interested in furthering their understanding of the co-existence of substance abuse with other mental health disorders. The course will assist students to gain the needed knowledge and skills to interact with clients who have various mental health disorders that are complicated by co-occurring substance abuse problems. The course also covers the diagnostic, therapeutic, and recovery phases that will assist students seeking a Drug Studies Certificate or Associate of Science degree in Drug Studies. Other students interested in psychology, human services and the behavioral sciences will benefit greatly from the content of the course.
3 Units
54 Lecture hours

HUSR 130
Essential Counseling Skills
Advisory: ENGL 035 OR ENLA 100 or appropriate assessment; READ 023 or
HUSR 199
Fieldwork in Human Services
Prerequisite: PSY 101 or SOC 101 with a minimum grade of “C” or better, OR consent of instructor
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course offers the student a supervised field experience in a community organization, agency, or institution, allowing the student to apply knowledge and learn new skills outside of the classroom environment. A weekly class meeting provides the academic element to this experiential course offering and reinforces the application of concepts gained in the prerequisite course or courses. This course is designed to provide the student with an opportunity to develop skills that would facilitate gaining employment in the human services field.
3 to 4 Units
18 Lecture hours
120 to 225 Lab hours

HUSR 230
Drug Studies Seminar and Internship
Prerequisite/Corequisite: HUSR 122, HUSR 124, HUSR 130
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
It is recommended that this course be taken in the final semester of the Drug Studies Program and provides the student with work experience in a drug treatment facility. The student will apply the concepts and skills gained through their coursework as they serve as an intern in a setting where drug dependent individuals are served. The seminar will focus on ethics, the further development of counseling skills, and the use of community resources. Students must meet the requirements of the internship facility.

JAPANESE  
Division of Communications & Languages

JAPN 101 Japanese I  
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment  
Transfers to: UC, CSU  
This course provides the student with an introduction to the Japanese language and culture. The course stresses oral and written proficiency through fundamental use of the Japanese language as well as the Hiragana and Katakana script. Students will also receive an introduction to Kanji characters. Various facets of Japanese history, culture and civilization will also be analyzed via cross-cultural comparisons. In addition to classroom discussion, students are required to complete at least 18 hours of intensive individualized oral-aural practice in the Language Laboratory via interactive websites, audio CDs, video programs, and films. The Language Laboratory work focuses on vocabulary, grammar, and cultural practices. The Languages Department as a whole mandates the requirement of 18 hours of independent lab work per semester. This course is intended for those interested in learning to speak Japanese, as well as for those seeking a degree in the Japanese language.  
4 Units  
72 Lecture hours

JPN 102 Japanese II  
Prerequisite: Completion of Japanese 101 with a grade of "C" or better, or completion of 2 years high school Japanese with a grade of "C" or better  
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment  
Transfers to: UC, CSU  
This course is a continuation of the essentials of the Japanese Language. The course stresses oral and written proficiency through fundamental use of the Japanese language, as well as the Hiragana and Katakana script. Students will further their knowledge of Kanji characters. Various facets of Japanese history, culture and civilization will also be analyzed via cross-cultural comparisons. In addition to classroom discussion, students are required to complete at least 18 hours of intensive individualized oral-aural practice in the Language Laboratory via interactive websites, audio CDs, video programs, and films. The Language Laboratory work focuses on vocabulary, grammar, and cultural practices. The Languages Department as a whole mandates the requirement of 18 hours of independent lab work per semester. JOUR 299
Directed Study: Journalism
Transfers to: UC, CSU
Independent Study/Directed Study is intended for students who have the ability to assume responsibility for independent work and to prepare written or oral reports and/or appropriate projects. To enroll in an independent study/directed study course, students must possess a 2.5 overall grade point average, a 3.0 grade point average in the discipline of study being requested, or receive an exception from the instructor.
Independent Studies/Directed Studies may be developed from any topic arising from or related to a course of study that will result in developing depth and breadth in that subject area. Students will be expected to meet on a regular basis with their faculty sponsor and submit a final report or project, and student progress shall be evaluated at regular intervals. Academic standards for Independent Studies/Directed Studies shall be the same as those for other courses. Units are awarded in accordance to Title V regulations with one unit of credit awarded for 54 hours of Directed Studies, six (6) hours of which must be with an instructor. The instructor is responsible for monitoring student progress through the semester. Students may take directed study courses for a maximum of three (3) units within a discipline, and may not accumulate more than a total of nine (9) units college wide.

36 Lecture hours

KIN 146
Training Principles for Special Populations
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
Transfers to: CSU
This course provides an overview of the exercise implications for special populations related to age, medical condition and level of fitness. Emphasis is placed on cardiac conditions, diabetes, physical disabilities, HIV and AIDS, asthma, sensory impair-
ments, seniors, children, mentally impaired and pregnant and post-partum women and the issues and barriers to exercise. This course is designed for the student pursuing a career in the fitness industry, a certificate in the Fitness Specialist Program, as well as those interested in furthering their understanding of the effects of exercise on the mind and body.

2 Units
36 Lecture hours

KIN 157
Theory of Lifeguard Training and Water Safety
Prerequisite: Swim 300 yards continuously; Tread water for two minutes using only the legs; Complete timed swimming, submersion and retrieval event; Swim at American Red Cross Learn-to-Swim Level 4 Proficiency
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is of interest to students who wish to earn the American Red Cross certifications necessary for employment as a pool lifeguard and swimming instructor. This course gives the most current instruction in American Red Cross (ARC) lifeguard training, first aid and cardiopulmonary resuscitation/automated external defibrillation (CPR/AED) skills and Water Safety Instructor (WSI) courses. Upon successful completion, students earn certifications for American Red Cross Lifeguard Training, CPR/AED for the Professional Rescuer, First Aid for Public Safety Personnel (Title 22), and Water Safety Instructor. These certifications enable students to gain eligibility for a pool lifeguarding position and to teach the Learn-to-Swim programs of the American Red Cross. Adequate swimming skills are necessary at the Learn-to-Swim Level 4. Students may petition to re-enroll in the course to renew certifications.

KIN 192
Health: Women’s Personal Health
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*Students will receive credit from UC for only one of the following courses: KIN 191, KIN 192, or KIN 196)
This course is designed for all students interested in expanding their knowledge regarding health problems and social issues unique to women. Physiological and psychological aspects of nutrition, hygiene, sexuality and reproduction, drugs and chemicals, and common diseases are among the many topics covered. Guest speakers, videos, current events, and text readings will assist the student in developing sound health principles.

3 Units
54 Lecture hours

KIN 193 (C-ID KIN 101)
Standard First Aid and CPR
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for students pursuing a career working with the public and for those who want to further their understanding of handling emergency situations. The student will learn how to give immediate care to the suddenly injured or ill person. In addition, students will learn techniques for control of bleeding, splinting, transporting victims, emergency procedures, one person C.P. R. and the use of an AED. Students will have the opportunity to apply these technical procedures in class. This course fulfills the requirements for American Red Cross certifications in both Standard First Aid and Cardiopulmonary Resuscitation (C.P.R.).

3 Units
54 Lecture hours

KIN 194 (C-ID KIN 100)
Introduction to Kinesiology
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
Transfers to: CSU
This course is designed for those students who are interested in pursuing a career in the field of kinesiology. The philosophy, history, ethical and scientific foundations of kinesiology will be covered. The concepts of basic movement and performance movement in relationship to kinesiology will be examined. Students will explore the sub-disciplines of motor learning, biomechanics, exercise physiology, sport sociology, sport psychology, and sport nutrition. Professional career opportunities in health/fitness, therapeutic exercise, teaching, coaching and sport management will be examined. The challenges for kinesiology, future of kinesiology, sport and health/wellness are also addressed.

3 Units
54 Lecture hours

KIN 195
Social Issues/Media in Sport
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed for students who are interested in a career in the field of coaching and athletics. This class will study the controversies and the status of sport in our society. Coaching methodologies and future trends in athletics, physical activities, and physical education/kinesiology will be discussed. This class will examine the relationship between sport and media, social media, culture and the economy. An emphasis will be placed on understanding the historical and current roles of sport in society.

KIN 103
Softball I
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
This course is designed for the beginning student who wishes to gain the fundamental skills of softball. It is designed to present the following skills to the student: throwing, batting, bunting and defense. Additionally, the individual field positions and the responsibilities of team work will be emphasized.
1 Unit
54 Lab hours

KIN 104
Volleyball I
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
This course is a beginning class designed to present the basic fundamental skills and rules of volleyball. The student will have the opportunity to learn and practice serving, setting, and spiking. The student will also participate in team play. This class is appropriate for students who have never played volleyball, are just learning the game or haven't played for an extended period of time and want to refresh their skills.
1 Unit
54 Lab hours

KIN 105
Basketball I
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
This beginning level course designed for all students will provide instruction in the fundamentals of basketball such as dribbling, passing, shooting, team play, rebounding, defense and strategy. Collegiate rules, class competition, injury prevention and care, and proper diet and fitness needs are included in instruction. The emphasis will be on active participation, basketball as recreation and skill development within this team sport.
1 Unit
54 Lab hours
FIFA Futsal Laws of the Game will serve as its own sport consisting of a smaller, fast-paced technical game. The Federation of International Football Association (FIFA), which is the governing body of soccer in the world and the United States Soccer Federation (USSF), which is the governing body of soccer in the United States recognize Futsal as its own sport. This is a beginning badminton class designed for the student to gain experience of various degrees of competitive play. Instruction in the serve, drive, drop, smash, clears, rules and court etiquette are taught so the student can perform at a competitive level.

1 Unit
54 Lab hours

KINA 108 Water Polo I
Advisory: ENGL 030 or ENLA 034 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
This is a course in the fundamentals and skills of water polo such as passing, guarding, shooting, team play, and strategy. Rules and class competition are included.
1 Unit
54 Lab hours

KINA 109 Soccer I
Advisory: READ 023 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
This is a beginning soccer/activity class designed for all students interested in developing the physical, technical and tactical elements of the game of soccer. The course will include fundamental skills of soccer which include, dribbling, passing, kicking, collecting and basic concepts of offensive and defensive tactics. Rules of the game, skill practice and participating in recreational soccer matches will be included.
1 Unit
54 Lab hours

KINA 110 Futsal (Indoor Soccer)
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This class will provide instruction and repetition in the technical and tactical components of Futsal (Indoor Soccer). The Federation of International Football Association (FIFA), which is the governing body of soccer in the world and the United States Soccer Federation (USSF), which is the governing body of soccer in the United States recognize Futsal as its own sport consisting of a smaller, fast-paced technical game. FIFA Futsal Laws of the Game will be introduced to the students. The course will develop skills, provide knowledge of the rules and instruct students to demonstrate Futsal techniques, recognize tactical situations and improve physical fitness.
1 Unit
54 Lab hours

KINA 113 Golf I
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
Golf I is designed for the beginning golfer who wants to gain the fundamental skills that form the basis of good golf technique. The goal of this class is for the student to learn to play a respectable game of golf, to avoid embarrassment, and to enjoy time outdoors with friends. Etiquette, rules and course play are included.

54 Lab hours

KINA 117 Swimming I
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
This course is a beginning class designed to equip students with basic water skills and knowledge in order to make them reasonably safe while in the water. It is suitable for all students interested in basic swimming.
1 Unit
54 Lab hours

KINA 120 Swim for Fitness
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; KINA 117 Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
This is a swimming/fitness course designed to provide the individual who has beginning swimming skills an opportunity to master the fundamentals of physical fitness as they relate to swimming as an aerobic activity. Emphasis will be placed on aerobic training with some training at the anaerobic threshold and anaerobic levels. This class is suitable for all students interested in swimming as a fitness activity.
1 Unit
54 Lab hours

KINA 124 Self Defense
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: CSU
This course is designed for all students interested in developing both personal safety and self-defense techniques through scenario and martial arts training. Through different forms of martial arts training, students will practice both defensive and offensive moves against various forms of attacks. Proficiency in the practical, effective, and tactical use of movement, leverage and strikes will be stressed.
1 Unit
54 Lab hours

KINA 130 Lifelong Fitness Laboratory
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
This 45-hour, self-paced physical fitness laboratory is designed for all students of the college to develop and encourage positive attitudes and habits with regards to health-related fitness components, including cardiovascular fitness, flexibility, and muscular strength and endurance. Each student, upon entry, will be assessed for risk factors and medical history, as well as body composition, cardiovascular fitness, muscular strength and endurance, and flexibility to establish an individual fitness profile. From this profile, an individual exercise prescription will be developed. Fitness activity will primarily utilize exercise equipment organized into an aerobic super circuit with additional activity prescribed in the aerobics machine area, body parts weight training area, and flexibility area. It is expected that the student will attend an average of three 50 minute exercise sessions each week. Additional assessment at the conclusion of the semester will provide data necessary to evaluate the accomplishment of stated goals. Offered on a pass/no pass basis.
1 Unit
54 Lab hours

KINA 132 Aqua Aerobics
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
This class is designed to utilize the resistance properties of the water to improve muscle tone, flexibility and cardiovascular health and endurance using various exercise movements. Further, water buoyancy will help support the joints and muscles of the
body, enabling students of all levels of fitness and abilities to participate in the activity. Students will have the opportunity to improve overall body strength and conditioning through a sequence of exercises done in the water. Students who are overweight, pregnant, elderly, diabetic, recovering from injuries or who have been inactive would find this class appropriate, therapeutic, and beneficial to their health.

1 Unit
54 Lab hours

KINA 133
Wrestling I
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
This wrestling class is designed for the beginner as well as for the student who wishes to increase their knowledge and skill through practice and competition. It is designed to present the following skills to the student: escapes, pinning combination take-downs, and strategies. The student will learn basic definitions, terminology and rules of wrestling. This class will include information on proper nutrition and fitness conditioning.

1 Unit
54 Lab hours

KINA 134
Cardio Boot Camp
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
This course is designed for the student who wishes to improve their cardiovascular and core fitness. The student will learn lifelong skills to improve their health. Workout skills such as core strengthening, cardiovascular fitness, step aerobics and flexibility training will be covered. Instruction in proper diet, heart rate monitoring, skills proficiency and fitness program planning will be provided to each student.

1 Unit
54 Lab hours

KINA 136
Pilates Mat I
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
This course introduces students to the basic Pilates floor exercises, which are designed to increase strength in the abdominal and spinal musculature.

KINA 137
Cross Training for Fitness
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
This cross-training course is designed for the student who wishes to increase their cardiovascular fitness level through a variety of aerobic and anaerobic activities. It is designed to present the following skills to the student: running, cycling, swimming, interval training, and introduction to weight training. Additionally, the student will learn basic definitions and terminology of the current fitness arena, assisting them with fitness as a life-long process using a variety of cardiovascular mediums.

1 Unit
54 Lab hours

KINA 138
Fitness for Independent Living
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
This course is designed to help increase fitness levels for the senior population. It is also appropriate for individuals who are physically challenged, engage in limited activity, and those recovering from injury or long-term illness. The purpose of the class is to condition students for strength and flexibility as well as balance, coordination and agility. These skills are important factors in achieving and maintaining the ability to function in daily activities and live independently.

1 Unit
54 Lab hours

KINA 139
Yoga I
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
This course is designed for students preparing for specific physical fitness related to off-season intercollegiate athletic participation. The purpose of the course is to develop a level of physical fitness, strength and conditioning that will enhance the athlete’s ability to be successful in intercollegiate competition. This course may be repeated three times for credit.

1 Unit
54 Lab hours

KINA 140
Strength Training
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
This course is designed for students who would like to learn the basic fundamentals of strength and conditioning. Students will be introduced to a variety of routines that will enable them to develop a personal exercise plan.

1 Unit
54 Lab hours

KINA 141
Walking for Fitness
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
This course is designed to meet the needs of daily physical exercise for life long fitness and health. Walking is one of the safest and most effective forms of exercise to improve health, and develop and maintain physical fitness. The course provides cardiovascular conditioning through the activity of walking. Instruction in proper diet, heart rate monitoring, skill proficiency and fitness program planning will be provided to each student. This class is designed for students who are interested in starting an exercise program, or developing an active lifestyle.

1 Unit
54 Lab hours

KINA 142
Off-Season Conditioning for Intercollegiate Sports
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
This course is designed for all students preparing for specific physical fitness related to off-season intercollegiate athletic participation. The purpose of the course is to develop a level of physical fitness, strength and conditioning that will enhance the athlete’s ability to be successful in intercollegiate competition. This course may be repeated three times for credit.

162 Lab hours

KINA 201
Tennis II
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; KINA 101
Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
This is an intermediate tennis class designed to take the student beyond recreational skills. Advanced instruction in the serve, groundstrokes, volley, and playing strategy is given. The lob and smash are introduced.
1 Unit
54 Lab hours

KINA 202
Intercollegiate Baseball II
Advisory: KINA 102
Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
This course is designed for the advanced baseball student interested in competing at the collegiate level. Instruction will focus on advanced drills in the area of offense, defense and pitching. Special attention will be placed in preparing students for intercollegiate competition. This course may be repeated three times for credit.
1 Unit
54 Lab hours
KINA 203
Off Season Softball
Advisory: KINA 103
Transfers to: UC (credit limit*), CSU
(*The UC will grant a maximum of 4 units credit for PE activity courses)
This course is designed for the advanced softball student competing at the collegiate level. Instruction will focus on advanced drills in the area of offense, defense and pitching. Special attention will be placed in preparing students for intercollegiate competition. This course may be repeated three times for credit.
1 Unit
54 Lab hours

KINA 204
Volleyball II
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; KINA 104
Transfers to: UC (credit limit*), CSU
(*The UC will grant a maximum of 4 units credit for PE activity courses)
This course is designed for intermediate volleyball students who have previously played volleyball and are looking to improve their skill and knowledge of the game. Students will develop the intermediate skills of setting, serving, passing, spiking, team offense of 6-1, 5-1 and defensive coverage. Rules and class competition are included.
1 Unit
54 Lab hours

KINA 205
Basketball II
Prerequisite: KINA 105 or instructor approval for admission
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC (credit limit*), CSU
(*The UC will grant a maximum of 4 units credit for PE activity courses)
This course is designed for the intermediate to advanced basketball player who wants advanced level basketball development. Students will participate in full court team play, receive advanced instruction on strategies, offensive and defensive skills and concepts, analyze intercollegiate and professional game film and learn intercollegiate and professional rules.
1 Unit
54 Lab hours

KINA 206
Off Season Women’s Intercollegiate Volleyball Training
Prerequisite: Participation in Intercollegiate Athletics
Transfers to: UC (credit limit*), CSU
(*The UC will grant a maximum of 4 units credit for PE activity courses)
This course is designed for the advanced volleyball student interested in competing at the collegiate level. Instruction will focus on advanced techniques in serving, passing, setting, hitting, plus jump serving, jump set, jump attack, various defensive patterns and team play training and conditioning. Special attention will be placed on preparing students for intercollegiate competition. This course may be repeated three times for credit.
1 Unit
54 Lab hours

KINA 207
Badminton II
Prerequisite: KINA 107 or instructor approval for admission
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment;
Transfers to: UC (credit limit*), CSU
(*The UC will grant a maximum of 4 units credit for PE activity courses)
This is an intermediate level badminton class designed for the student to develop the ability to make appropriate responses (relative on their own abilities) to the particular problems posed by the game. Advanced instruction is given in the basic strokes as well as the introduction of Indonesian serve, around-the-head shot, hairpin and flick shot.
1 Unit
54 Lab hours

KINA 209
Soccer II
Prerequisite: KINA 109
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC (credit limit*), CSU
(*The UC will grant a maximum of 4 units credit for PE activity courses)
This advanced soccer activity class is designed for all students interested in developing the physical, technical and tactical elements of the game of soccer. The course will include analysis of fundamental skills, game strategy, team offense and team defense through participation and an overview of rules. This is an advanced soccer class designed to take the student beyond recreational skills. Team tactics, strategies and systems of play will be emphasized.
1 Unit
54 Lab hours

KINA 211
Off Season Intercollegiate Tennis
Prerequisite: Participation in Intercollegiate Sports
Advisory: READ 022 or appropriate assessment
Transfers to: UC (credit limit*), CSU
(*The UC will grant a maximum of 4 units credit for PE activity courses)
This course is designed for the advanced tennis student interested in competing at the collegiate level. Instruction will focus on training and conditioning, and will also include advanced strategies, on court drilling and match play experience. Special attention will be placed on preparing students for intercollegiate competition. This course may be repeated three times for credit.
1 Unit
54 Lab hours

KINA 213
Golf II
Prerequisite: KINA 113
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC (credit limit*), CSU
(*The UC will grant a maximum of 4 units credit for PE activity courses)
Golf II is designed for the intermediate to advanced golfer who wants to take their golf game beyond basic fundamentals. Every year thousands of people choose golf as their favorite sports activity. Once learned, golf becomes an enjoyable lifetime recreation. Golf II students will build on the skills learned in Golf I. A major portion of class time is spent on the golf course applying the techniques learned in Golf I.
1 Unit
54 Lab hours

KINA 217
Swimming II
Advisory: READ 022 or appropriate assessment; KINA 117
Transfers to: UC (credit limit*), CSU
(*The UC will grant a maximum of 4 units credit for PE activity courses)
This is an intermediate class designed to provide the individual with the opportunity to learn the elements of good swimming. Students will sharpen their technique in the basic strokes learned in Swim I. Basic components of distance training will be covered along with conditioning methods. Safety and rescue skills are also included.
1 Unit
54 Lab hours

KINA 218
Swimming III
Transfers to: UC (credit limit*), CSU
(*The UC will grant a maximum of 4 units credit for PE activity courses)
This is an advanced swimmer’s class designed to provide the individual with the opportunity to master the coordination of six swimming strokes in order to swim effectively with ease, endurance, and versatility in the water. More advanced safety and rescue skills are also included.
1 Unit
54 Lab hours
KINA 230
Lifelong Fitness Center II - Cardiovascular Fitness
Prerequisite: KINA 130 or PE 130
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
This class is a course designed to give the student skills and information to improve their own cardiovascular fitness. This class will involve instruction and practice in techniques that will promote cardiovascular fitness: running, jump rope, core training, aerobic activity, aerobic circuit and resistance bands. The student will learn about the importance of blood pressure, heart rate and diet in relation to cardiovascular disease.
1 Unit
54 Lab hours

KINA 258
Yoga II
Prerequisite: KINA 158
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfer to: CSU
This course is designed for intermediate students who would like to advance their physical asanas (poses) of Hatha Yoga as well as Pranayama (breathing techniques) and Dhyana (meditation techniques). The goal of the course is to integrate the mind, body, and spirit and to further challenge the students in their physical practice by increasing sustainment, perfecting alignment, and by incorporating twists and wraps. Parivrtta Trikonasana, Prasarita Padottanasana, Malasana, Garudasana, Natasajasana, Uttihita Hasta Padangusthasana, Chaturanga Dandasana, Purvottanasana, Navasana, Virasana, Ustrasana, Matsyasana, Sarvangasana, Surya Namaskar B will be covered in depth during the course.
1 Unit
54 Lab hours

KINA 270
Women’s Intercollegiate Basketball Team II
Prerequisite: KINA 170
Advisory: READ 022 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
This is an advanced course designed for students who will be competing at the collegiate level in the sport of women’s basketball during conference play. This class is offered for 11 consecutive weeks to run concurrent with the intercollegiate basketball season as determined by the CCCAA governing body. Students will be required to spend a minimum of 7.36 hours a week for 11 weeks preparing for competition with conference colleges. This course may be repeated three times for credit.
1.5 Units
81 Lab hours

KINA 281
Men’s Intercollegiate Basketball Team II
Advisory: READ 022 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*The UC will grant a maximum of 4 units credit for PE activity courses)
This is an advanced course designed for students who will be competing at the collegiate level in the sport of men’s basketball during conference and post season play. This class is offered for 11 consecutive weeks to run concurrent with the intercollegiate basketball season as determined by the CCCAA governing body. Students will be required to spend a minimum of 7.36 hours a week for 11 weeks preparing for competition with conference colleges. This course may be repeated three times for credit.

LANDSCAPE
Division of Career & Technical Education

LAND 101
Introduction to Landscape Design & Maintenance
(Formerly LAND 095)
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; ENGT 101 Transfers to: CSU
This introductory landscape design course is designed for the non-scientist and specifically for the amateur garden enthusiast interested in learning landscape design from a landscape professional. The course is a general overview of landscape design which include topics of landscape design, planting and irrigation design, plant identification, cost analysis, and maintenance. The class sessions are a combination lecture, hands-on planting and irrigation design lessons and plant identification. A field trip to a local nursery or demonstration garden is planned for the semester.
3 Units
45 Lecture hours
27 Lab hours

LAND 102
Introduction to Landscape Architecture & Design
Prerequisite: ENGT 101 with a grade of “C” or better
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; ENGT 105 Transfers to: CSU
This introductory course is for students interested in the field of Landscape Architecture or Landscape Design. Fundamental principles and concepts essential to landscape design development will be introduced through lectures, readings, discussions, field trips, and assignments. Natural and human determinants that shape the landscape will be explored in addition to the study of the theory, history, and role of the landscape architecture profession in environmental design.
4 Units
54 Lecture hours
54 Lab hours

LAND 103
Landscape Architecture Theory and Form
Prerequisite: LAND 102
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; ENGT 105 Transfers to: CSU
This is a continuation course to LAND 102, Introduction to Landscape Architecture and Design. This course expands upon fundamental landscape design principles and concepts. The course examines theory and methods pertaining to landscape architecture design and site planning. Study and design of landscape will be conducted from small local scale to larger regional scale through in-class assignments, multi-week projects, model-making, and readings. Comprehension of topography and design of landform through 2D and 3D model studies will also be included.
4 Units
54 Lecture hours
54 Lab hours

LAND 121
Introduction to the History of Landscape Architecture
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course will cover Landscape Architecture/Design history from Prehistory to the 21st Century with an emphasis on utilizing a visual reference of historic landscapes which capture the exuberance of landscape design. As an art form, a designed landscape is a cultural product, representing the ideas and values of its creator, owner, or patron, and situated within social, economic, and
Latin I
LATN 101
Prerequisite: Successful completion of LATN 101
Transfers to: UC, CSU
Latin I introduces students to the classics, enhances their understanding of basic grammar, exposes them to authentic pronunciation, increases their knowledge of vocabulary derivatives, and acquaints them with Roman history and culture. This class is designed for students who plan to major in Classics, History, Philosophy, or Languages and would also be important for those going into law, medicine, and other fields where Latinate terminology is common.
3 Units
54 Lecture hours

LAND 299
Directed Study in Landscape Design
Prerequisite: 2.5 overall grade point average, a 3.0 grade point average in the discipline of study being requested, or receive an exception from the instructor
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course provides an opportunity for the student to expand their studies in Landscape Design beyond the classroom by completing a project or an assignment arranged by an agreement between the student and instructor. The student is required to contract with the instructor to determine the scope of the assignment and the unit value assigned for successful completion. Students must possess a 2.5 overall GPA, a 3.0 GPA in the discipline of study being requested, or receive an exception from the instructor. Students may take a maximum of 3 units of Directed Study within a discipline and 9 units college-wide.
1 to 3 Units
54 to 162 Lab hours

Library
Division of Library & Instructional Support
LIB 101
Fundamentals of Library Research
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; CIT 100A
Transfers to: UC, CSU
This course promotes information literacy by introducing students to the resources available in an academic library, including books, online catalogs, online databases, and Web sources. Students learn how to define their research problem, apply appropriate search tools, analyze and evaluate information and search strategies, and use information ethically and legally. The critical thinking skills and research strategies learned in this class will benefit students who need to find information for college-level research assignments, career demands, and lifelong learning.
3 Units
54 Lecture hours

Literature
Division of Communications & Languages
LIT 102
Latin II
Prerequisite: Successful completion of LATN 101
Transfers to: UC, CSU
Latin II increases students’ understanding of the classics, enhances their understanding of grammar and vocabulary, exposes them to authentic pronunciation, increases their knowledge of vocabulary derivatives, and acquaints them further with Romance languages and the Latinate vocabulary of English. The history and culture of the Roman Empire, including the spread of the Empire, institutions, literature, and the arts will be further explored. This class is designed for students who plan to major in Classics, History, Philosophy, or Languages and would also be important for those going into law, medicine, and other fields where Latinate terminology is common.

others. This course is designed for students eligible for the Honors Program.
3 Units
54 Lecture hours

LIT 147
Cinema as Literature
Prerequisite: ENGL 035 or ENLA 100 or appropriate assessment
Advisory: READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is for students interested in learning about the aesthetics of film making, especially with regard to adaptation of literature to the cinematic medium. Films will be analyzed and evaluated according to their historical, social, cultural, aesthetic, and technical significance. Both American and international film making will be covered.
3 Units
54 Lecture hours

LIT 148
Introduction to Dramatic Literature
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course introduces students to a wide range of dramatic literature, from the plays of ancient Greece to contemporary drama. Students will study plays from representative literary periods and dramatists such as Sophocles, Christopher Marlowe, Moliere, Chekhov, Tennessee Williams, Samuel Beckett, Susan Glaspell, Lorraine Hansberry, Arthur Miller, Luis Valdez, August Wilson, and/or others chosen by the instructor. Course reading and writing assignments emphasize dramatic form and structure, the aesthetics of drama, and drama as a reflection of major cultural events and beliefs. This course is designed for students interested in a detailed exploration of a specific genre of literature, students intending to major in a literary or arts-related field of study, and students intending to enter the teaching profession.
3 Units
54 Lecture hours

LIT 149
Introduction to Chicana/Chicano Literature
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course explores a range of Chicana/Chicano literature, with a focus on major texts from 1848 to the present. Course reading and writing assignments explore major cultural themes, including identity issues. Assigned readings may be from a variety of genres including essays, poetry, fiction, oral histories, corridos, and autobiography by writers throughout the Southwest. This course is designed for students interested in exploring various genres of literature, students interested in learning more about Chicana/o cultural expression, and students majoring in Chicano Studies.
3 Units
54 Lecture hours

LIT 299
Directed Study: Literature
Transfers to: UC, CSU
Independent Study/Directed Study is intended for students who have the ability to assume responsibility for independent work and to prepare written or oral reports and/or appropriate projects. To enroll in an independent study/directed study course, students must possess a 2.5 overall grade point average, a 3.0 grade point average in the discipline of study being requested, or receive an exception from the instructor. Independent Studies/Directed Studies may be developed from any topic arising from or related to a course of study that will result in developing depth and breadth in that subject area. Students will be expected to meet on a regular basis with their faculty sponsor and submit a final report or project, and student progress shall be evaluated at regular intervals. Academic standards for Independent Studies/Directed Studies shall be the same as those for other courses. Units are awarded in accordance to Title V regulations with one unit of credit awarded for 54 hours of Directed Studies, six (6) hours of which must be with an instructor. The instructor is responsible for monitoring student progress through the semester. Students may take directed study courses for a maximum of three (3) units within a discipline, and may not accumulate more than a total of nine (9) units college wide.

LOGISTICS
Division of Business

LOG 101
Supply Chain Management
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment; CIT 042; LOG 101 Transfers to: CSU
This course is intended for students seeking a career in logistics or supply chain management. This course explores the basic purchasing functions including establishing purchasing requirements and quantities, developing purchasing policies and procedures, receiving acceptable goods, arranging for packaging and shipping, managing inventory control, and the integration of the purchasing activities with other business functions.
3 Units
54 Lecture hours

LOG 110
Warehouse Management
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment; CIT 042; LOG 101 Transfers to: CSU
This course is intended for students seeking a career in logistics or supply chain management. The course provides the essential skills for warehouse managers, with emphasis on the planning, protection, productivity, and quality control functions in warehouse and distribution operations. Topics include warehouse design and layout, effective communications, industry terminology, technology, distribution systems, inventory management and protection, accountability, auditing, and safety rules and regulations. This course is intended for students seeking a career in logistics or supply chain management.
3 Units
54 Lecture hours
LOG 115
Inventory Management
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment; CIT 042; LOG 101
Transfers to: CSU
This course is intended for students seeking a career in logistics or supply chain management. The course reviews the concepts and techniques available for planning and controlling inventories. The student will examine methods to determine the appropriate amount of inventory to carry; the relationship between inventory as a physical asset and an accounting asset; the difference between raw material, work-in-process, and finished goods inventories; controlling the physical locations of inventory; recognizing and analyzing inventory dysfunctions; bar code technologies; and protecting inventory from natural, technological, and man-made disasters.
3 Units
54 Lecture hours

LOG 120
Transportation Management
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment; CIT 042; LOG 101
Transfers to: CSU
This course is intended for students seeking a career in logistics or supply chain management. The course provides a study of traffic management and logistics functions and considerations for drafting and negotiating contracts with freight carriers, warehousemen and other logistics service providers.
2 Units
36 Lecture hours

LOG 125
Contract Management
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment; CIT 042; LOG 101
Transfers to: CSU
This course is intended for students seeking a career in logistics or supply chain management. The course provides a study of the legal and regulatory requirements applicable to contracts for product transportation and logistics functions and considerations for drafting and negotiating contracts with freight carriers, warehousemen and other logistics service providers.

LOG 130
Computerized Logistics
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment; CIT 042; LOG 101
Transfers to: CSU
This course is intended for students seeking a career in logistics or supply chain management. The course provides a study of the need and use of computers in the supply chain and logistics industry and an introduction to the software that is available, such as enterprise resource planning, demand planning, and warehouse management.
3 Units
54 Lecture hours

LOG 135
Quality Management Concepts
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 050 or MATH 050D or MATH 053 or appropriate assessment; CIT 042; LOG 101
Transfers to: CSU
This course is intended for students seeking a career in logistics or supply chain management. The course provides a study of the basic principles, objectives, and policies of a quality management program. Topics include the implementation of continuous quality improvement and the understanding of the various quality philosophies, such as Deming’s 14 points, process management, ISO 9000 certification, Six Sigma efforts, the Baldridge award criteria, and an introduction to statistical process control.

MANAGEMENT
Division of Business

MGMT 052
Business Mathematics
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment.
This course covers the principles of effective writing in business. Extensive experience is provided using the different forms of business writing—memorandums, letters, reports, and resumes. Cultural differences and their impact on communicating in business will be studied. This course
MGMT 120
Human Relations in Business
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MGMT 101
Transfers to: CSU
This course is designed for the student who is seeking a career in management or is currently in a leadership role and wants a better understanding of human relation skills and techniques. Topics covered in the course include leadership, teamwork, communication, group problem solving, diversity, motivation, and managerial organizations. These topics will apply to both a diverse and competitive environment.
3 Units
54 Lecture hours

MGMT 125
Managerial Computer Applications
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MGMT 101
Transfers to: CSU
This course provides students with an introduction to computer technology as it applies to the business management environment. Course curriculum has been designed to prepare managers to leverage current technology, in both theory and application, to meet the needs of the global business environment. Managerial issues and ethical standards are explored along with web-based hands-on modules which prepare students to become proficient in MS Word, MS Excel, and MS PowerPoint.
3 Units
54 Lecture hours

MGMT 130
Small Business Management-Entrepreneurship
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MGMT 101
Transfers to: CSU
This course is designed for those students interested in small business, either in a domestic or international market. Topics include start-up methods and techniques, management and operations, marketing, financing and cash management, location strategies, personnel practices, buying and selling strategies, and e-commerce. This course will also provide students with an opportunity to develop a business plan as it pertains to their small business interest.
3 Units
54 Lecture hours

MGMT 140
Introduction to International Business
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed to provide students with a global perspective of business and acquaint students with the relationship of culture, politics, laws, and economics to operation in today's complex global business environment. The subjects covered will include international trade and finance, confidentiality and privacy, international marketing, and international human resources management. This course is designed for students looking for entry-level positions in the field of international business.
3 Units
54 Lecture hours

MGMT 141
International Marketing
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed to provide students with an in-depth study of international marketing. International market opportunities and the determination of marketing objectives will also be explored. The students will evaluate the marketing research data and analyze selected approaches that affect the marketing mix for specific markets to coordinate strategies in global world markets. This course is designed for the marketing-oriented students and those interested in furthering their knowledge and understanding of international business.
3 Units
54 Lecture hours

MGMT 142
International Management
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed to provide students with a comprehensive overview of the management practice as it relates to international business. An emphasis will be placed on the planning, problem solving, organizational structure, human resource management, and production management as it relates to international competition. These functions of management will all be evaluated and examined under international competitive situations and cross cultural boundaries. This course is designed for international business majors and those interested in furthering their knowledge of business culture, strategy and behavior issues in the global context.
3 Units
54 Lecture hours

MGMT 143
Import and Export Business
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed to provide students who want to start or expand their own import and export business or professionals who seek to enter their career advancement and to do business overseas successfully. The course covers major practical applications, from understanding the objects of parties involved in importing and exporting to the basics of letters of credit, packaging, transporting and shipments, role of banks and freight forwarders, foreign currency management, and documents used in international trade.
3 Units
54 Lecture hours

MGMT 144
International Banking and Finance
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
The introductory course provides an understanding of international finance, international banking, monetary systems, sources of funds, methods of payments and methods for assessing financial risk. It includes an understanding and appreciation of the relationship between government (international, national, and local) and international banks. The course is designed for students who want to enter the International Finance/Banking field or for those who wish to further their knowledge and understanding of International Banking & Finance.
3 Units
54 Lecture hours

MGMT 146
Human Resources Management
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed for the student who wants to study employer-employee relationships with particular emphasis on the challenges facing an expanding multicultural workforce in Southern California. Topics include: legal framework; personnel policies and procedures; implementing equal employment and affirmative action; legal aspects of supervision; training and development; interviewing; testing; wage and salary administration, job analysis and description; recruitment; transfers; promotions; and principles of collective bargaining.
3 Units
54 Lecture hours
MGMT 150
Principles of Management
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MGMT 101
Transfers to: CSU
This course is designed for the student who is seeking a career in management or for the student who needs to expand his/her knowledge of management techniques and organizational methods. In this course, students will learn the theory and application of managerial functions as it applies to planning, organizing, leading, and controlling organizations. Additional topics to be covered will include the history of management, and practical management techniques, practices, and problem solving methodologies. The topics of employee empowerment, characteristics and qualities of successful managers, and contemporary trends in management will also be explored in this course.
3 Units
54 Lecture hours

MGMT 155
Principles of Leadership
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is intended for professionals who want to develop an understanding of leadership principles. The course explores the differences between leadership and management, the approaches used to define leadership, and methods used to assess leadership behavior. Various instruments for assessing leadership are examined and discussed. Other topics examined include leadership in teams and leadership of change initiatives.
3 Units
54 Lecture hours

MGMT 160
Principles of Project Management
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 030 or MATH 030D or MATH 033; CIT 101
Transfers to: CSU
This course develops the project management skills needed to define, plan, lead, monitor, and complete projects in any type of industry. Specific topics include managing project integration, scope, time, cost, quality, human resources, communications, risks, and procurement. In addition, the five phases of a project are explored: initiating, planning, executing, controlling, and closing. This course is intended for professionals who want to learn or improve the skills of project management.
3 Units
54 Lecture hours

MGMT 162
Project Cost & Schedule Management
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; CIT 101
Transfers to: CSU
This course is intended for students seeking a career in project management. Time, cost, and budget estimates are the basis for project control. This course explores the tools and techniques used to estimate project tasks, costs, and resources, and monitor performance against those estimates over the life of the project.
2 Units
36 Lecture hours

MGMT 164
Project Management Practicum
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; CIT 101
Transfers to: CSU
This course is intended for students seeking a career in project management. Managing project risk depends upon developing an understanding of the sources of problems in projects, and then working to minimize threats and maximize opportunities wherever feasible. This course explores the tools and techniques used to plan risk management, identify risks, perform qualitative and quantitative risk analysis, plan risk responses, and monitor and control risk responses.
2 Units
36 Lecture hours

MGMT 166
Project Management Practicum
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; CIT 101
Transfers to: CSU
This course is intended for students seeking a career in project management. This is a hands-on capstone course providing students with practice in the five project management process groups and the nine knowledge areas. Students will simulate a project based on case studies. The case studies will require the completion of project planning documents under typical business constraints. The case studies will be completed in a team environment.
2 Units
36 Lecture hours

MGMT 208 (C-ID BUS 115)
Business Communications
Prerequisite: ENGL 101 with a grade of “C” or better
Transfers to: CSU
This course covers the principles of effective writing in business. Extensive experience is provided using the different forms of business writing—memorandums, letters, reports, and resumes. Cultural differences and their impact on communicating in business will be studied. This course satisfies the business communications component for the Associate in Science in Business Administration for Transfer Degree.
3 Units
54 Lecture hours

MGMT 290
Cooperative Work Experience/Internship for Business Management Related Fields
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course supports and reinforces on-the-job training in business and industrial establishments under supervision of a college instructor and is facilitated by the use of learning objectives. The student will be working in a skilled or professional level assignment in their area of vocational interest and will meet performance objectives related to instruction that are above and beyond the conditions of regular employment. This course is intended for students whose job is related to the field of Business Management and have completed or enrolled in the appropriate coursework. “Contact the CWE office regarding re-enrollment procedures.”
Student Unpaid Internship: 1 Unit/60 hours; 2 Units/120 hours; 3 Units/180 hours; 4 Units/240 hours
Student Paid Internship: 1 Unit/75 hours; 2 Units/150 hours; 3 Units/225 hours; 4 Units/300 hours.
1 to 4 Units
3 Lecture hours
60 to 300 Other hours

MARKETING
Division of Business

MRKT 170
Elements of Marketing
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MGMT 101
Transfers to: CSU
This course is designed for the student who is interested in a career in marketing or gaining an entry-level marketing position with a retail, industrial, service, or consumer product company. Discussion of marketing concepts, strategies, and techniques will take place in an environment that reflects new technologies and international competitiveness. The topics in the course will include marketing concepts, functions, operations, and organizations of retail and wholesale enterprises; distribution channels; market research; advertising; marketing costs; pricing; cooperative marketing; marketing legislation and regulations and trends.
3 Units
54 Lecture hours

MRKT 171
Consumer Behavior
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MGMT 101
Transfers to: CSU
This class investigates and analyzes the reasons why consumers select, purchase, use, and dispose of goods and services to satisfy their personal and household needs. Topics to be explored include consumer culture, group influence, consumption patterns, and consumer attitudes and lifestyles as well as other relevant topics. This class is appropriate for the marketing major and anyone who wants to know why people buy.
3 Units
54 Lecture hours

MRKT 172
Advertising and Promotion
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MGMT 101
Transfers to: CSU
This course is designed to introduce students to the creative and competitive field of advertising and promotion. Course content includes understanding the target audience, developing marketing and advertising plans, engaging in the creative process through strategy and execution, and integrating marketing communications elements as they relate to personal selling, sales promotion, direct marketing, and electronic, digital, and print media. This course is appropriate for the marketing major or anyone interested in advertising and promotion.
3 Units
54 Lecture hours

MRKT 173
Principles of Selling
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed for the student interested in a sales position or those currently in the sales field needing further training or hoping to transition to a management or marketing manager position. The course will focus on relationship selling and developing productive selling environments. In addition, prospecting techniques, approach strategies, presentation and demonstration skills, overcoming selling objections, and closing techniques will provide the core of the material covered in this course.
3 Units
54 Lecture hours

MRKT 174
Small Business Marketing and Advertising
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MGMT 101
Transfers to: CSU
This class provides useful and effective marketing and advertising tools and techniques to those students who have or would like to own a small business. A special emphasis is placed on the fundamentals of marketing and guerilla marketing and advertising techniques. Topics for discussion will include marketing plan strategies, marketing research, marketing channel management, retail and pricing strategies, and cost-effective guerilla advertising techniques for small businesses.
3 Units
54 Lecture hours

MRKT 175
Retail Management
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MGMT 101
Transfers to: CSU
This course is designed for the student pursuing a career in retail management or desiring to own their own retail business. Class discussions will explore the topics of customer buying behavior, retail market strategy, retail site location, and human resources management. Case studies and experiential exercises will be used to help students understand additional topics including customer service, store management, retail pricing, supply chain management, and merchandise management.

18 Lecture hours

Prealgebra D

MATH 030D
Prealgebra D
Prerequisite: MATH 030C with a grade of “C” or better
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
This course is designed primarily for students who know the fundamentals of arithmetic, and have had little or no background in algebra. See MATH 030 for more information.
1 Unit
18 Lecture hours

Mathematical Foundations

MATH 033
Mathematical Foundations
Prerequisite: MATH 030A or MATH 030B or MATH 030C or MATH 030D
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
This course combines topics from both Basic Math and Prealgebra, including operations with whole numbers, integers, fractions, decimals, rates, ratios, and proportional thinking, percent problems and applications to percents, and an introduction to algebraic thinking using fundamental principles of expressions and solving linear equations. This course serves as a foundational course for all students.
5 Units
90 Lecture hours
MATH 049
Introduction to MESA
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This standalone one-unit course is designed for students entering the Mathematics, Engineering, Science Achievement (MESA) and/or TRIO Student Support Services STEM Program. The course will introduce the student to the Science-Technology-Engineering-Mathematics (STEM) career paths, transfer and graduation requirements, effective STEM study skills, priority and time management, as well as the importance of participating in internships and appropriate extracurricular activities. Students are expected to be concurrently enrolled in at least one mathematics or science course in order to apply skills covered in this course.

Elementary Algebra B
Prerequisite: MATH 050A with a grade of “C” or better or appropriate assessment
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
This course is an introduction to the basic principles and skills of algebra. It is designed primarily for those students who have no prior training in algebra or need a review of the fundamentals of algebra. See MATH 050 for more information.
1 Unit
22.5 Lecture hours

MATH 050C
Elementary Algebra C
Prerequisite: MATH 050B with a grade of “C” or better or appropriate assessment
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
This course is an introduction to the basic principles and skills of algebra. It is designed primarily for those students who have no prior training in algebra or need a review of the fundamentals of algebra. See MATH 050 for more information.
1 Unit
22.5 Lecture hours

MATH 050D
Elementary Algebra D
Prerequisite: MATH 050C with a grade of “C” or better or appropriate assessment
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment

MATH PATHWAYS
It is very important to consult with a counselor before choosing a path. Initial math course is determined by a placement assessment process.

** Non-transferable to UC
* Meets the AA/AS Degree math competency.
** Non-transferable to UC

Elementary Algebra A
Prerequisite: MATH 030 or MATH 030D or MATH 033 with a grade of “C” or better or appropriate assessment
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
This course is an introduction to the basic principles and skills of algebra. It is designed primarily for those students who have no prior training in algebra or need a review of the fundamentals of algebra. See MATH 050 for more information.
1 Unit
22.5 Lecture hours

Elementary Algebra C
Prerequisite: MATH 050B with a grade of “C” or better or appropriate assessment
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
This course is an introduction to the basic principles and skills of algebra. It is designed primarily for those students who have no prior training in algebra or need a review of the fundamentals of algebra. See MATH 050 for more information.
1 Unit
22.5 Lecture hours

Elementary Algebra D
Prerequisite: MATH 050C with a grade of “C” or better or appropriate assessment
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment

New for Fall 2017
This course is an introduction to the basic principles and skills of algebra. It is designed primarily for those students who have no prior training in algebra or need a review of the fundamentals of algebra. See MATH 050 for more information.

1 Unit
22.5 Lecture hours

MATH 053
B-STEM Elementary Algebra
Prerequisite: MATH 030 or MATH 030D or MATH 033 with a grade of “C” or better or appropriate assessment
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
This course is designed for students who plan to major in Business, Science, Technology, Engineering, or Math (B-STEM). This course consists of topics including solutions and graphs of linear equations and inequalities, slopes of lines, systems of linear equations and applications, operations with polynomials, including factoring and solving quadratic equations.
5 Units
90 Lecture hours

MATH 060
Geometry
Prerequisite: MATH 050 or MATH 050D or MATH 053 with a grade of “C” or better or appropriate assessment
Advisory: ENGL 030 or ENLA 024 or appropriate assessment; READ 023 or appropriate assessment
This course is an introduction to the elements of geometry, including points, lines, planes, and angles. These elements are used in conjunction with triangles, polygonal and circular figures in both two and three dimensional configurations. Formulas for computing lengths, areas, and volumes are presented through the use of applications. This course is intended for students who have not had or completed two semesters of high school geometry or who need a refresher prior to taking trigonometry, technology courses, mathematic for elementary teachers or other courses with a geometry prerequisite.
3 Units
54 Lecture hours

MATH 062
Pre-Statistics
Prerequisite: MATH 030 or MATH 030D or MATH 033 or appropriate assessment
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
This course surveys a variety of mathematical topics needed to prepare students for college-level statistics. Topics include: data analysis using ratios, rates, and proportional reasoning; graphical and tabular displays of data, measures of central tendency and spread, computing probabilities, describing associations of two variables graphically, graphing equations of lines and linear models, and solving linear equations and inequalities. Pre-Statistics is designed for students in majors, such as those in liberal arts, humanities, and social sciences. It should not be taken by students majoring in science, technology, engineering, math or business. This course does not provide credit for Intermediate Algebra.
5 Units
90 Lecture hours

MATH 070
Intermediate Algebra
Prerequisite: MATH 050 or MATH 050D or MATH 053 with a grade of “C” or better or appropriate assessment
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU if taken prior to the Fall Semester, 1988
This course is designed for students who have completed an elementary algebra course and need to complete an additional course in algebra before proceeding to a college level transferable course. See MATH 070 for more information.
1 Unit
22.5 Lecture hours

MATH 070B
Intermediate Algebra B
Prerequisite: MATH 070A with a grade of “C” or better or appropriate assessment
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU if taken prior to the Fall Semester, 1988
This course is designed for students who have completed an elementary algebra course and need to complete an additional course in algebra before proceeding to a college level transferable course. See MATH 070 for more information.
1 Unit
22.5 Lecture hours

MATH 070C
Intermediate Algebra C
Prerequisite: MATH 070B with a grade of “C” or better or appropriate assessment
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU if taken prior to the Fall Semester, 1988
This course is designed for students who have completed an elementary algebra course and need to complete an additional course in algebra before proceeding to a college level transferable course. See MATH 070 for more information.
1 Unit
22.5 Lecture hours

MATH 070D
Intermediate Algebra D
Prerequisite: MATH 070C with a grade of “C” or better or appropriate assessment
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU if taken prior to the Fall Semester, 1988
This course is designed for students who have completed an elementary algebra course and need to complete an additional course in algebra before proceeding to a college level transferable course. See MATH 070 for more information.
1 Unit
22.5 Lecture hours

MATH 073
B-STEM Intermediate Algebra
Prerequisite: MATH 050 or MATH 050D or MATH 053 with a grade of “C” or better or appropriate assessment
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course is designed for students who have completed an elementary algebra course and need to complete an additional course in algebra before proceeding to a college level transfer-
able course. It is designed primarily for students who plan to major in Business, Science, Technology, Engineering, or Math (B-STEM). This course consists of topics including radical and rational expressions and equations, complex absolute value equations and inequalities, relations and functions, synthetic division, graphs of functions, exponential and logarithmic expressions and their applications, as well as complex numbers.

5 Units

90 Lecture hours

MATH 130 (C-ID MATH 110)
Statistics
Prerequisite: MATH 062 or MATH 070 or MATH 070D or MATH 073 with a grade of “C” or better or appropriate assessment
Advisory: ENGL 101 or appropriate assessment
Transfers to: UC (credit limit*), CSU
("Students will receive credit from UC for only one of the following courses: MATH 130 or MATH 130H")

This course is designed for students majoring in business, social sciences, and life sciences. This course provides an overview of descriptive and inferential statistics. The students learn to read, interpret and present data in a well-organized way. This includes frequency distributions, graphs, measures of central tendency and variability, correlation and linear regression. While discussing inferential statistics, the students learn to make generalizations about populations. This includes probability, sampling techniques, confidence intervals, and hypothesis tests. This course is intended for students who meet Honors Program requirements.

4 Units

72 Lecture hours

MATH 140
Mathematics for Elementary Teachers
Prerequisite: MATH 070 or MATH 070D or MATH 073 with a grade of “C” or better or appropriate assessment
Advisory: ENGL 035 or ENLA 100 or appropriate assessment
Transfers to: UC, CSU

This course is designed to deepen and extend the student’s understanding of the foundations of the mathematics taught in elementary school. Because it is intended for the student preparing to teach at that level, it frequently refers to and uses materials and methodology appropriate for students at that level, but it is not a methods course. The course is concept-driven with an emphasis on problem solving. Concrete manipulatives are used to give meaning to abstract mathematical concepts. Topics include numerical and place value concepts, models and algorithms for operations with whole numbers, integers, fractions and decimals, and the structure and properties of the real number system.

4 Units

72 Lecture hours

MATH 141
Mathematics for Elementary Teachers
Prerequisite: MATH 060 and MATH 070 with a grade of “C” or better
Advisory: ENGL 035 or ENLA 100 or appropriate assessment
Transfers to: CSU

MATH 141 is a continuation of MATH 140. Topics include probability, statistics, informal geometry in two and three dimensions, coordinate geometry, measurement, similarity, tessellations, constructions, and an introduction to Euclidean geometry. Manipulatives and appropriate technology are used as tools for exploration and problem solving. This course is intended for elementary education majors planning to teach in elementary or middle schools.

4 Units

72 Lecture hours

MATH 150 (C-ID MATH 150)
College Algebra
Prerequisite: MATH 070 or MATH 070D or MATH 073 with a grade of “C” or better or appropriate assessment
Advisory: ENGL 035 or ENLA 100 or appropriate assessment
Transfers to: UC (credit limit*), CSU
("Students will receive credit from UC for only one of the following courses: MATH 160 or MATH 165 or MATH 180")

This course will cover linear, absolute value, quadratic, polynomial, power, radical, rational, exponential, and logarithmic functions and their applications from a graphical, numerical, and analytical point of view. The course also will cover systems of equations and inequalities and sequences and series. The course serves as preparation for students planning to take Elements of Calculus (MATH 170). Graphing technology will be required.

4 Units

72 Lecture hours

MATH 175 (C-ID MATH 851)
Plane Trigonometry
Prerequisite: MATH 060 and MATH 070 or MATH 070D or MATH 073 with a grade of “C” or better or appropriate assessment
Advisory: ENGL 035 or ENLA 100 or appropriate assessment
Transfers to: CSU

This course is designed for students who are majoring in math, science, and engineering. It equips students with the skills necessary for success in precalculus. This course presents the concepts of plane trigonometry using a functions approach. Included is a study of trigonometric functions, their inverses and their graphs, identities and proofs related to trigonometric expressions, trigonometric equations, solving right triangles, solving triangles using the Law of Cosines and the Law of Sines, polar coordinates, and an introduction to vectors.

3 Units

72 Lecture hours
MATH 180 (C-ID MATH 155)
Pre-Calculus
Prerequisite: MATH 175 with a grade of “C” or better or appropriate assessment
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 101 or appropriate assessment.
Transfers to: UC (*credit limit*), CSU (*Students will receive credit from UC for only one of the following courses: MATH 160 or MATH 165 or MATH 180)
This course is designed to prepare students for the study of calculus. It presents a comprehensive study of linear, quadratic, polynomial, exponential, logarithmic, rational, and trigonometric functions. Inequalities, introductory analytical geometry, polar coordinates, polar equations and their graphs, DeMoivre’s Theorem and an introduction to sequences are also included. This course is a prerequisite for MATH 190.
4 Units
72 Lecture hours

MATH 190 (C-ID MATH 210, MATH 900S)
Calculus I
Prerequisite: MATH 180 with a grade of “C” or better or appropriate assessment
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 101 or appropriate assessment
Transfers to: UC (*credit limit*), CSU (*Students will receive credit from UC for only one of the following courses: MATH 170, MATH 190 or MATH 190H)
MATH 190 is a semester course designed primarily for those students planning to pursue programs in engineering, mathematics, computer science, and physical sciences. This is the first course in differential and integral calculus of a single variable. It includes topics in functions, limits and continuity, techniques and applications of differentiation and integration, and the Fundamental Theorem of Calculus.
4 Units
90 Lecture hours

MATH 190H (C-ID MATH 210H, MATH 900S Honors)
Calculus I Honors
Prerequisite: MATH 180 with a grade of “C” or better or appropriate assessment; ENGL 101 with a grade of “C” or better or appropriate assessment
Advisory: READ 023 or appropriate assessment
Transfers to: UC (*credit limit*), CSU (*Students will receive credit from UC for only one of the following courses: MATH 170, MATH 190 or MATH 190H)
MATH 190H is a semester course designed primarily for those students planning to pursue programs in engineering, mathematics, computer science, and physical sciences. This course is the first course in differential and integral calculus of a single variable. It includes topics in functions, limits and continuity, techniques and applications of differentiation and integration, and the Fundamental Theorem of Calculus.
4 Units
90 Lecture hours

MATH 191 (C-ID MATH 900S)
Calculus II
Prerequisite: MATH 190 or MATH 190H with a grade of “C” or better or appropriate assessment
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 101 or appropriate assessment
Transfers to: UC, CSU
MATH 191 is a semester course which continues the study of calculus begun in MATH 190. The course includes techniques of integration, improper integrals, applications of the definite integral, differential equations, Taylor polynomials, series, polar equations and parametric equations. This course is the second course of the calculus sequence required of engineering, physics, and mathematics majors.
4 Units
90 Lecture hours

MATH 199
Directed Study: Mathematics
Transfers to: UC, CSU
Independent Study/Directed Study is intended for students who have the ability to assume responsibility for independent work and to prepare written or oral reports and/or appropriate projects. To enroll in an independent study/directed study course, students must possess a 2.5 overall grade point average, a 3.0 grade point average in the discipline of study being requested, or receive an exception from the instructor.
Independent Studies/Directed Studies may be developed from any topic arising from or related to a course of study that will result in developing depth and breadth in that subject area. Students will be expected to meet on a regular basis with their faculty sponsor and submit a final report or project, and student progress shall be evaluated at regular intervals.
Academic standards for Independent Studies/Directed Studies shall be the same as those for other courses. Units are awarded in accordance to Title V regulations with one unit of credit awarded for 54 hours of Directed Studies, six (6) hours of which must be with an instructor. The instructor is responsible for monitoring student progress through the semester.
Students may take directed study courses for a maximum of three (3) units within a discipline, and may not accumulate more than a total of nine (9) units college wide.
1 to 3 Units
54 to 162 Lab hours

MATH 250 (C-ID MATH 230)
Calculus III
Prerequisite: MATH 191 with a grade of “C” or better
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 101 or appropriate assessment
Transfers to: UC, CSU
This course involves a study of functions of two or more variables using the principles of calculus, vector analysis, and parametric equations. Included is a study of solid regions using partial differentiation, vector analysis, and multiple integration.
This course also includes a study of vector calculus topics, such as line and surface integrals, Green’s Theorem, Stokes’ Theorem, and the Divergence Theorem. This is the third course of the calculus sequence required of engineering, physics, and mathematics majors.
4 Units
90 Lecture hours

MATH 250 (C-ID MATH 230 Honors)
Calculus III Honors
Prerequisite: MATH 191 with a grade of “C” or better
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 101 or appropriate assessment
Transfers to: UC, CSU
MATH 250H with a grade of “C” or better
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 101 or appropriate assessment
Transfers to: UC, CSU
MATH 250H is a semester course which continues the study of calculus begun in MATH 190. The course includes techniques of integration, improper integrals, applications of the definite integral, differential equations, systems of differential equations, power series solution of differential equations, and Laplace transforms. This course is a continuation of MATH 190, MATH 191, and MATH 250 and is required for all Engineering, Physics, and Mathematics majors.
4 Units
72 Lecture hours

MATH 270 (C-ID MATH 240)
Differential Equations
Prerequisite: MATH 250 with a grade of “C” or better
Transfers to: UC, CSU
This course is a study of ordinary differential equations, linear higher order differential equations, systems of differential equations, power series solution of differential equations, and Laplace transforms. This course is a continuation of MATH 190, MATH 191, and MATH 250 and is required for all Engineering, Physics, and Mathematics majors.
4 Units
72 Lecture hours

MATH 299
Directed Study: Mathematics
Transfers to: UC, CSU
Independent Study/Directed Study is intended for students who have the ability to assume responsibility for independent work and to prepare written or oral reports and/or appropriate projects. To enroll in an independent study/directed study course, students must possess a 2.5 overall grade point average, a 3.0 grade point average in the discipline of study being requested, or receive an exception from the instructor.
Independent Studies/Directed Studies may be developed from any topic arising from or related to a course of study that will result in developing depth and breadth in that subject area. Students will be expected to meet on a regular basis with their faculty sponsor and submit a final report or project, and student progress shall be evaluated at regular intervals.
Academic standards for Independent Studies/Directed Studies shall be the same as those for other courses. Units are awarded in accordance to Title V regulations with one unit of credit awarded for 54 hours of Directed Studies, six (6) hours of which must be with an instructor. The instructor is responsible for monitoring student progress through the semester.
Students may take directed study courses for a maximum of three (3) units within a discipline, and may not accumulate more than a total of nine (9) units college wide.
1 to 3 Units
54 to 162 Lab hours
MUS 101 (C-ID MUS 110) Fundamentals of Music
Prerequisite: MUS 101 with a grade of "C" or better
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for the student who wants to study the basic materials of harmony and musicianship: scales, keys, intervals, chords, chord connections, part writing, and inversions. Also included is ear training, melodic and harmonic dictation, and harmonic analysis. Required of all music majors.
3 Units
54 Lecture hours

MUS 103 Music Theory I
Prerequisite: MUS 101 with a grade of "C" or better
Advisory: READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for the student who wants to study the basic concepts of realizing figured bass in 18th and 19th century harmonic practices. Those techniques will include numerology for advanced diatonicism, advanced chromaticism, modal mixture, modal and tonic sequences, and advanced modulation.
3 Units
54 Lecture hours

MUS 104 Music Theory II
Prerequisite: MUS 103 with a grade of "C" or better
Advisory: READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for the student who wants to study the harmonic and rhythmic interpretation skills. It is recommended for all instrumentalists, singers and composers.
3 Units
54 Lecture hours

MUS 105 Music Theory III
Prerequisite: MUS 104 with a grade of "C" or better
Advisory: READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for the student who wants to continue the study of theory and the advanced techniques of realizing figured bass in 18th and 19th century harmonic practices. Those techniques will include numerology for advanced diatonicism, advanced chromaticism, modal mixture, modal and tonic sequences, and advanced modulation.
3 Units
54 Lecture hours

MUS 106 (C-ID MUS 125) Beginning Musicianship I
Prerequisite: MUS 101 with a grade of "C" or better
Advisory: READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for the student who wants to develop beginning aural skills, sight-reading, sight-singing and rhythmic interpretation skills. It is recommended for all instrumentalists, singers and composers.
3 Units
54 Lecture hours

MUS 107 Beginning Musicianship II
Prerequisite: MUS 106
Advisory: READ 023 or appropriate assessment
Transfers to: UC, CSU
This beginning level course is designed for the student who wants to continue developing aural skills, sight-reading, sight-singing and rhythmic interpretation skills. It is recommended for all instrumentalists, singers and composers.
3 Units
54 Lecture hours

MUS 109 Contemporary Theory: Popular and Jazz Harmony
Prerequisite: MUS 101
Advisory: READ 023 or appropriate assessment
Transfers to: CSU
This course is designed for the student who wants to learn the basic concepts associated with constructing chords, the song forms, and the melodies that are identified with popular and jazz styles in contemporary music.
3 Units
54 Lecture hours

MUS 110 College Community Orchestra
Advisory: MUS 101
Transfers to: UC, CSU
This course is designed for the instrumental music student who wants to become familiar with the vast body of orchestral music. It provides players an opportunity to develop their own musical capabilities as well as participating in ensemble playing.
1 Unit
54 Lab hours

MUS 116 Music Ensemble for Diverse Instruments I
Transfers to: UC, CSU
This course is designed for the electric and acoustic instrumental student, the vocal student, and the novice to perform together in one ensemble. The ensemble content, which will depend upon the instrumental and vocal makeup of the class, will include a diversity of approaches that might include Latin, Asian, Popular and contemporary Classical music.
2.5 Units
27 Lecture hours
54 Lab hours

MUS 117 Music Ensemble for Diverse Instruments II
Prerequisite: MUS 116
Transfers to: UC, CSU
This course is designed for the intermediate electric, acoustic instrumental and vocal students to perform together in one ensemble. The ensemble content, which will depend upon the instrumental and vocal makeup of the class, will include a diversity of approaches that might include Latin, Asian, Popular and contemporary Classical Music.
2.5 Units
27 Lecture hours
54 Lab hours

MUS 119 Advanced College Community Orchestra
Prerequisite: MUS 110
Transfers to: CSU
This course is designed for the more advanced instrumental music student who wants to become more familiar with the vast body of orchestral music. It provides advanced players an opportunity to further develop their own musical capabilities as well as participate in ensemble playing. Students are expected to provide their own instruments. This course may be taken once and repeated three times for credit.
1 Unit
54 Lab hours

MUS 120 Concert Choir I
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC, CSU
This course is designed for the student who seeks an opportunity
MUS 121
Gospel Choir
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment; MUS 120
Transfers to: CSU
Gospel choir is a college chorus of mixed voices dedicated to the study, rehearsal, and public performance of anthems, spirituals, and gospel (traditional/contemporary) music. It is designed for the student seeking to learn the fundamentals of singing in the African-American contemporary gospel style. This class provides for the learning of the fundamentals of choral singing. Performances both on and off campus will assist in the development of skills necessary for proficiency.
2 Units
27 Lecture hours
27 Lab hours

MUS 129
Music in Latin American Culture
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MUS 129
Transfers to: UC, CSU
This course is a survey course designed for the student seeking an introduction to music in Latin American culture. The course will focus on the diverse musical cultures of South America, Central America, Mexico, Puerto Rico and the Caribbean. Emphasis will be placed on rhythmic styles and structures, as well as specific social, cultural, and historical backgrounds.
3 Units
54 Lecture hours

MUS 130
Music History and Literature Before 1750
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for the student who seeks an introduction to the major composers and musical movements from antiquity to the 1700's. The course focuses on learning, reasoning, and writing about these periods with the goal of understanding their social, political, and cultural contexts. In addition, these periods will be compared to contemporary culture and its social, political, and cultural framework.
3 Units
54 Lecture hours

MUS 131
Music History and Literature After 1750
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for the student who seeks an introduction to the major composers and musical movements from 1750 to the present. The course focuses on learning, reasoning, and writing about these periods with the goal of understanding their social, political, and cultural contexts. In addition, these periods will be compared to contemporary culture and its social, political, and cultural framework.
3 Units
54 Lecture hours

MUS 132
History of Rock and Roll
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is a survey course designed for the student who seeks an introduction to Rock and Roll. The course will focus on rock and roll music, its origins and its many sub-styles. The social, political and economic influence the music has had on society and other types of music will also be examined.
3 Units
54 Lecture hours

MUS 133 (C-ID MUS 100)
Music Appreciation
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is a survey of musical practices from various periods of music history with an emphasis on social, political and commercial contexts. Types of music to be covered will include Classical, Jazz, Rock, Blues and World Music. This course is targeted for students seeking to fulfill the general education requirement in the arts.
3 Units
54 Lecture hours

MUS 134
Chamber Singers
Prerequisite: MUS 120 and audition
Advisory: ENGL 035 or ENLA 100 and appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed for students who seek to broaden their understanding of choral literature by performing increasingly difficult choral works. Attention is given to the refinement and polishing of technique through rehearsal and performance of choral music from various musical periods and styles. Enrollment criteria include an audition.
2 Units
18 Lecture hours
54 Lab hours

MUS 135
Music in Film
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is a survey of the art and craft of film music as practiced by prominent film composers and sound designers. Emphasis will be placed on history and function from 1930 to the present, as well as cultural context. The class is designed for students interested in learning how music influences film.
3 Units
54 Lecture hours

MUS 136
History of Jazz
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is a survey course designed for the student who seeks an introduction to Jazz. The course will focus on jazz music, its origins and its many sub-styles. The social, political and economic influence the music has had on society and other types of music will also be examined.
3 Units
54 Lecture hours

MUS 138
Masterworks Chorale
Prerequisite: Audition
Advisory: ENGL 030 or ENLA 034 or appropriate assessment
Transfers to: UC, CSU
This advanced level course is designed for students who seek to broaden their understanding of choral literature by performing difficult choral works such as the B minor Mass by Bach, Elijah by Mendelssohn, or Messiah by Handel accompanied by orchestra or other instrumental ensemble. Attention is given to the refinement and polishing of technique through rehearsal and performance of choral music from various musical periods and styles. Public Performance is required. Enrollment criteria requires an audition.
2 Units
27 Lecture hours
27 Lab hours
MUS 139
Advanced Concert Choir
Prerequisite: MUS 220 with a grade of "C" or better
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for the more advanced vocal student who seeks an opportunity to perform in a vocal ensemble. The repertoire will include a diversity of approaches that might include Latin, Asian, popular, contemporary, and classical music.
2 Units
27 Lecture hours
27 Lab hours

MUS 140
Beginning Voice I
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for students who wish to learn the foundation of singing including breath support, posture, intonation, enunciation, and stage presence. Students will prepare songs appropriate for the beginning skill level. No previous musical experience is necessary.
1.5 Units
18 Lecture hours
27 Lab hours

MUS 141
History of Rap Music and Hip Hop Culture
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course will explore the roots of rap music and hip-hop culture from its African bardic tradition to African-American expressive/oral traditions. In addition, it will locate rap in the context of hip-hop and as a part of a continuum of American popular music. This course is designed for the student who seeks to expand their knowledge of rap music and the hip hop culture.
3 Units
54 Lecture hours

MUS 142
Intermediate Voice I
Prerequisite: MUS 140 with a grade of "C" or better
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for students who wish to further develop the techniques acquired in Beginning Voice. A comprehensive study of style and artistic interpretation will be included.
1.5 Units
18 Lecture hours
27 Lab hours

MUS 143
Intermediate Voice II
Prerequisite: MUS 141 with a grade of "C" or better
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for students who seek to broaden their knowledge and understanding of piano literature. More advanced solo literature of intermediate difficulty will be introduced. Emphasis is placed on the technical and interpretive demands required to perform a varied repertoire.
1.5 Units
18 Lecture hours
27 Lab hours

MUS 144
Advanced Piano I
Prerequisite: MUS 220 with a grade of "C" or better
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for the more advanced piano student who seeks an opportunity to perform in an advanced piano ensemble. The advanced repertoire will include solo literature of intermediate difficulty. Emphasis is placed on the technical and interpretive demands required to perform a varied repertoire.
1.5 Units
18 Lecture hours
27 Lab hours

MUS 145
Beginning Piano I
Advisory: READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is for the student interested in beginning piano skills, and in the understanding of music through the study of simple piano pieces. The development of skills at the beginning level may be used in the playing of various styles including Classical, Pop, Jazz and Rock. Individual pieces are performed in class. No previous experience is necessary.
1.5 Units
18 Lecture hours
27 Lab hours

MUS 146
Beginning Piano II
Advisory: READ 023 or appropriate assessment
Prerequisite: MUS 145 with a "C" or better
Transfers to: UC, CSU
This course is for the student interested in beginning piano skills, and in the understanding of music through the study of simple piano pieces. The development of skills at the beginning level may be used in the playing of various styles including Classical, Pop, Jazz and Rock. Individual pieces are performed in class. This course is a continuation of materials learned in Beginning Piano I.
1.5 Units
18 Lecture hours
27 Lab hours

MUS 147
Intermediate Piano I
Advisory: READ 023 or appropriate assessment
Prerequisite: MUS 146 with a grade of "C" or better
Transfers to: UC, CSU
This course is designed for students who seek to broaden their knowledge and understanding of piano literature. Varied works of intermediate difficulty will be introduced. Attention is given to the refinement and polishing of technique through scales, arpeggios, sight-reading, interpretation and tone production.
1.5 Units
18 Lecture hours
27 Lab hours

MUS 148
Intermediate Piano II
Advisory: READ 023 or appropriate assessment
Prerequisite: MUS 147 with a grade of "C" or better
Transfers to: UC, CSU
This course is designed for students seeking to broaden their knowledge and understanding of piano literature. More advanced solo literature of intermediate difficulty will be introduced. Emphasis is placed on the technical and interpretive demands required to perform a varied repertoire.
1.5 Units
18 Lecture hours
27 Lab hours

MUS 150
Beginning Guitar
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for the student interested in beginning guitar skills and in the understanding of music through the study of simple guitar pieces. The development of skills at the beginning level may be used in the playing of various styles including Classical, Pop, Jazz, Rock and Blues. No previous musical experience is necessary.
1.5 Units
18 Lecture hours
27 Lab hours

MUS 151
Intermediate Guitar
Prerequisite: MUS 150
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This intermediate level course is designed for students who seek to broaden their understanding of guitar literature by performing moderately difficult works. Attention is given to the refinement and polishing of technique through scales, arpeggios, sight-reading, interpretation and tone production.
1.5 Units
18 Lecture hours
27 Lab hours

MUS 154
Guitar Ensemble
Prerequisite: Must have completed at least one semester of guitar
Transfers to: UC, CSU
This course will offer the opportunity for guitarist, electric or acoustic, to perform together in an ensemble. The ensemble content will depend upon the makeup of the class and will include a diversity of approaches that might include Latin, Asian, Popular and Classical Music. Recommended for guitarist whether they be music majors or not.
2 Units
27 Lecture hours
27 Lab hours
MUS 156
Intermediate Musicianship I
Prerequisite: MUS 107
Transfers to: UC, CSU
This course is designed for the student who wants to further develop aural skills, sight-reading, sight-singing and rhythmic interpretation skills beyond the beginning level. It is recommended for all instrumentalists, singers and composers.
3 Units
54 Lecture hours

MUS 157
Intermediate Musicianship II
Prerequisite: MUS 156
Transfers to: UC, CSU
This course is designed for the student who wants to further develop aural skills, sight-reading, sight-singing and rhythmic interpretation skills beyond the introductory intermediate level. It is recommended for all instrumentalists, singers and composers.
3 Units
54 Lecture hours

MUS 158
Masterworks Chorale II
Prerequisite: MUS 138 and Audition
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This advanced level course is designed for students who seek in-depth study of choral literature by performing complex choral works such as Beethoven’s Mass in C, Orff’s Carmina Burana, and Britten’s War Requiem accompanied by orchestra or other instrumental ensemble, or sung a cappella. Attention is given to every detail of musical development through rehearsal and performance of choral music from various musical periods and styles. Public performance is required. Enrollment criteria requires successful completion of MUS 138 and an audition.
2 Units
27 Lecture hours
27 Lab hours

MUS 165
Electronic Music I
Corequisite: MUS 180
Advisory: READ 023 or appropriate assessment
Transfers to: CSU
This course is designed for the student who wants to learn the basic elements involved in electronic music including: fundamentals of music, keyboard electronics, signal processing, virtual synthesis which may include Sylenth, Crystal, and Gladiator, MIDI, simple computer software which may include Garage Band, and digital recording. Creating electronic compositions will also be covered. Students should take Music 180 concurrently. This course is recommended for all students who intend to pursue music professionally.
3 Units
36 Lecture hours
54 Lab hours

MUS 167
Electronic Music II
Prerequisite: MUS 165 with a grade of “C” or better
Advisory: READ 023 or appropriate assessment
Transfers to: CSU
This course is designed for the student who wants to continue the study of concepts and techniques needed to compose electronic music and is recommended for students who intend to pursue music professionally. Various types of synthesis including software analog synthesis and virtual analogue synthesis will be studied. Software that will be used in the course may include Reason and Logic Pro. Sequencing, recording via studio software, notating compositions and creating music for dance and theatre on the computer will be the primary focus of the course.
3 Units
36 Lecture hours
54 Lab hours

MUS 168
Electronic Music III
Prerequisite: MUS 167
Transfers to: CSU
This course is designed for the advanced electronic music student who wants to continue the study of concepts and techniques needed to compose electronic music and is recommended for students who intend to pursue music professionally. Assignments in the course will include scoring music to stop-time animation and motion picture scenes available on the internet. Advanced notation techniques including full score and individual parts will also be covered.
3 Units
36 Lecture hours
54 Lab hours

MUS 178
Masterworks Chorale III
Prerequisite: MUS 158 and Audition
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This advanced level course is designed for students who seek in-depth study of choral literature by performing complex choral works such as Bach sacred and secular cantatas, Mozart and Haydn masses, renaissance madrigals and sacred pieces, and contemporary choral works accompanied by orchestra or other instrumental ensemble, or sung a cappella. Attention is given to every detail of musical development through rehearsal and performance of choral music. Public performance is required. Students are expected to take on leadership roles as section leaders, mentors to new singers, and committee work for the choral organization. Enrollment criteria requires successful completion of MUS 158 and an audition.
2 Units
27 Lecture hours
27 Lab hours

MUS 180
Music Laboratory
Corequisite: MUS 165 or 167
Advisory: READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed to provide students enrolled in electronic music courses with supervised study or practice.
1 Unit
54 Lab hours

MUS 181 (C-ID MUS 160)
Applied Music I
Prerequisite: Audition
Corequisite: Enrollment in a Rio Hondo College Large Ensemble (either MUS 116 or MUS 117 or MUS 120 or MUS 134 or MUS 138 or MUS 139)
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course offers individual instruction in voice, piano, guitar, band or orchestral instruments with an assigned instructor. Emphasis will be placed on study at the beginning level of technique and repertoire. Weekly, it includes one recital class, and one individual lesson. Performance for a faculty jury will be required at the end of the semester.
2 Units
27 Lecture hours
27 Lab hours

MUS 216
Advanced Music Ensemble for Diverse Instruments I
Prerequisite: MUS 117
Transfers to: UC, CSU
This course is designed for the advanced electric, acoustic instrumental, and vocal students to broaden their abilities to perform in an ensemble. The course content, which will depend upon the instrumental and vocal makeup of the class, will include a diversity of approaches that might include Latin, Asian, Popular and contemporary Classical Music.
2.5 Units
27 Lecture hours
54 Lab hours
Instruments II
Advanced Music Ensemble for Diverse Instruments II
Prerequisite: MUS 216
Transfers to: UC, CSU
This course is designed for the advanced electric, acoustic instrumental, and vocal students who want to interpret and perform ensemble repertoire at a professional level. The course content, which will depend upon the instrumental and vocal makeup of the class, will include a diversity of approaches that might include Latin, Asian, Popular, and contemporary Classical Music.
2.5 Units
27 Lecture hours
54 Lab hours

MUS 220
Concert Choir II
Prerequisite: MUS 120
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for the intermediate vocal student who seeks an opportunity to perform in a vocal ensemble. Participation in public performance is required. The repertoire will include a diversity of sections including intermediate level classical choral literature, world music, popular and contemporary music. Successful completion of MUS 120 is required to enroll.
2 Units
27 Lecture hours
27 Lab hours

MUS 234
Advanced Chamber Singers
Prerequisite: MUS 134
Advisory: ENGL 030 or ENLA 034 and appropriate assessment
Transfers to: UC, CSU
This course is designed for students with advanced skills in rehearsing and performing choral music. A wide variety of music selected from different musical periods and styles will be selected for study and performance. Enrollment criteria includes an audition and successful completion of MUS 134. This course may be taken once and repeated three times for credit.
2 Units
18 Lecture hours
54 Lab hours

MUS 240
Advanced Voice I
Prerequisite: MUS 142 with a grade of “C” or better
Advisory: READ 023 or appropriate assessment
This course is designed for students interested in further developing the interpretive and technical demands inherent in advanced vocal performance. Attention is given to a detailed study and analysis of vocal technique and interpretation. Public performance will be required.
2 Units
27 Lecture hours
27 Lab hours

MUS 245
Advanced Piano
Prerequisite: MUS 148 with a grade of “C” or better
Transfers to: UC, CSU
This course is designed for the student interested in further developing the interpretive and technical demands inherent in advanced piano literature. Attention is given to a detailed study and analysis of various musical periods and styles.
2 Units
27 Lecture hours
27 Lab hours

MUS 251
Advanced Guitar I
Prerequisite: MUS 151 with a grade of “C” or better
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This advanced level course is designed for students who seek to broaden their understanding of guitar literature by performing difficult works. Attention is given to the refinement and polishing of technique through scales, arpeggios, sight-reading, interpretation, and tonal production, as well as analysis of various musical periods and styles.
2 Units
27 Lecture hours
27 Lab hours

MUS 252
Advanced Guitar II
Prerequisite: MUS 251
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This advanced level course is designed for students who wish to improve their technique and skills by performing more difficult works. It is essentially a continuation of MUS 251, Advanced Guitar I. The scales, chord progressions, pieces and etudes assigned will be selected to advance the student’s technique, and repertoire from various periods and styles.
2 Units
27 Lecture hours
27 Lab hours

MUS 290
Cooperative Work Experience/Internship for Music Related Fields
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course supports and reinforces on-the-job training in business, industrial, non-profit, studio, community and professional music organizations under supervision of a college instructor and is facilitated by the use of learning objectives. The student will be working in a skilled or professional level assignment in their area of vocational interest and will meet performance objectives related to instruction that are above and beyond the conditions of regular employment. This course is intended for students whose job is related to the field of music and have completed or enrolled in the appropriate coursework. Instructor approval is required to remain in the class. “Contact the CWE office regarding re-enrollment procedures.”

Student Unpaid Internship:
1 Unit/60 hours; 2 Units/120 hours; 3 Units/180 hours; 4 Units/240 hours

Student Paid Internship:
1 Unit/75 hours; 2 Units/150 hours; 3 Units/225 hours; 4 Units/300 hours.

1 to 4 Units
3 Lecture hours
60 to 300 Other hours
units within a discipline, and may not accumulate more than a total of nine (9) units college wide.

**3 Units**

**54 to 162 Lab hours**

---

### NUTRITION SCIENCE

**Division of Health Science & Nursing**

**NUTR 110**

**Introduction to Nutrition Science**

*Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment*

*Transfers to: CSU*

This course is designed to provide students with basic knowledge of scientific concepts related to the function of nutrients in basic life processes and current health issues with emphasis on individual needs, dietary guidelines, macronutrients, micronutrients, digestion, absorption, metabolism, health, and disease prevention through a balanced diet. This course is appropriate for nutrition majors and health science majors, including nursing.

**3 Units**

**54 Lecture hours**

**NUTR 120**

**Principles of Foods with Lab**

*Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment*

*Transfers to: CSU*

This course is designed for students majoring in nutrition to learn the application of food science principles with emphasis on ingredient function and interaction, food preparation, food preparation techniques, sensory evaluation standards, food safety and sanitation, and nutrient composition of food.

**3 Units**

**45 Lecture hours**

**27 Lab hours**

---

### OPERATING ENGINEERS

**Division of Career & Technical Education**

**OENG 001**

**Introduction to Apprenticeship**

*Prerequisite: Registration as a State Indentured Apprentice*

This course is designed to meet the needs of State Indentured Apprentices employed full-time in the operating engineer field. Topics covered include: making yourself valuable, safety, first aid, the cost of accidents, industry terminology, setting up a string line, standard industry hand signals, labor unions and learning to operate heavy equipment.

**2 Units**

**36 Lecture hours**

**36 Lab hours**

**OENG 002**

**Grade Checking**

*Prerequisite: State Indentured Apprentice in the Operating Engineers Trust Apprenticeship Program*

*Advisory: ENGL 030 or ENLA 034 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment*

This course is designed to meet the needs of State Indentured Apprentices employed full-time in the operating engineer field. Topics covered include: safety consciousness, layout and staking methods for subdivisions, streets, buildings, underground structure excavation, right angle triangles, and curve radii.

**2 Units**

**36 Lecture hours**

**36 Lab hours**

**OENG 003**

**Equipment Operator**

*Prerequisite: State Indentured Apprentice in the Operating Engineers Trust Apprenticeship Program*

*Advisory: ENGL 030 or ENLA 034 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment*

This course is designed to meet the needs of State Indentured Apprentices employed full-time in the operating engineer field. Topics covered include: preventive maintenance of heavy equipment, operation of heavy equipment and political science.

**2 Units**

**36 Lecture hours**

**36 Lab hours**

**OENG 004**

**Plan Reading**

*Prerequisite: State Indentured Apprentice in the Operating Engineers Trust Apprenticeship Program*

*Advisory: ENGL 030 or ENLA 034 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment*

This course is designed to meet the needs of State Indentured Apprentices employed full-time in the operating engineer field. Topics covered include: reading and interpreting grading plans for highways, streets and subdivisions.

**2 Units**

**36 Lecture hours**

**36 Lab hours**

**OENG 005**

**Skills Specialization**

*Prerequisite: State Indentured Apprentice in the Operating Engineers Trust Apprenticeship Program*

*Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment*

This course is designed to meet the needs of State Indentured Apprentices employed full-time in the operating engineer field. Topics covered include: the labor movement in the United States, relationship of politics to construction work, preventive maintenance, and the operation of heavy equipment.

**2 Units**

**36 Lecture hours**

**36 Lab hours**

**OENG 012**

**Heavy Duty Repairman**

*Prerequisite: State Indentured Apprentice in the Operating Engineers Trust Apprenticeship Program*

*Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment*

This course is designed to meet the needs of State Indentured Apprentices employed full-time in the operating engineer field. Topics covered include: the safe use oxyacetylene cutting equipment, the technique of brazing, and electric arc welding.

**2 Units**

**36 Lecture hours**

**36 Lab hours**

**OENG 013**

**Heavy Duty Repairman**

*Prerequisite: State Indentured Apprentice in the Operating Engineers Trust Apprenticeship Program*

*Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment*

This course is designed to meet the needs of State Indentured Apprentices employed full-time in the operating engineer field. Topics covered include: the principles of hydraulics, how a hydraulic system works and the practical uses of hydraulics.

**2 Units**

**36 Lecture hours**

**36 Lab hours**

---

---
This course is designed to meet the needs of State Indentured Apprentices employed full-time in the operating engineer field. Topics covered include: diagnosis, service and repair of hydraulic valves, motors, pumps and cylinders; diagnosis and repair of variable speed hydraulic drives; service and maintenance of pneumatic systems used on heavy equipment and heavy trucks.

2 Units
36 Lecture hours
36 Lab hours

OENG 015
Heavy Duty Repairman
Prerequisite: State Indentured Apprentice in the Operating Engineers Trust Apprenticeship Program
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment
This course is designed to meet the needs of State Indentured Apprentices with the State of California who are interested in the field of Operating Engineers Inspectors. Topics include: engine theory and servicing the fuel, lubricating, and governing systems of gasoline and diesel engines.

2 Units
36 Lecture hours
36 Lab hours

OENG 016
Heavy Duty Repairman
Prerequisite: State Indentured Apprentice in the Operating Engineers Trust Apprenticeship Program
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment
This course is designed to meet the needs of State Indentured Apprentices with the State of California who are interested in the field of Operating Engineers Inspectors. Topics include: internal combustion engine theory and servicing the fuel, lubricating, and governing systems of gasoline and diesel engines.

2 Units
36 Lecture hours
36 Lab hours

OENG 021
Grades and Plans
Prerequisite: State Indentured Apprentice in the Operating Engineers Trust Apprenticeship Program
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment
This course is designed to develop the ability to read grade plans, establish lines and elevations from previously established control points defined in the grade plans and learn how to check grade plans.

2 Units
36 Lecture hours
36 Lab hours

OENG 022
Structural Masonry Inspection
Prerequisite: State Indentured Apprentice in the Operating Engineers Trust Apprenticeship Program
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of State Indentured Apprentices with the State of California who are interested in the field of Operating Engineers Inspectors. Topics include: industry safety, industry terminology, masonry inspection testing, blueprint reading, field interpretation, and successful completion of the industry standard certification examination.

4 Units
54 Lecture hours
54 Lab hours

OENG 023
Reinforced Concrete Inspection
Prerequisite: Must be an Indentured Apprentice in the Operating Engineers State Apprenticeship Program
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of State Indentured Apprentices with the State of California who are interested in the field of Operating Engineers Inspectors. Topics include: industry safety, applications of reinforced concrete structure, inspection testing, industry terminology, reinforced concrete inspection testing, blueprint reading, field interpretation, and successful completion of the industry standard certification examination.

4 Units
54 Lecture hours
54 Lab hours

OENG 024
Structural Steel/Welding Inspection
Prerequisite: Must be an Indentured Apprentice for the State of California in the Operating Engineers Training Trust Apprenticeship Program
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of State Indentured Apprentices with the State of California who are interested in the field of Operating Engineers Inspectors. Topics include industry safety, industry terminology, structural steel/welding inspection testing, analytical blueprint reading, field interpretation, and successful completion of the industry standard certification examination.

4 Units
54 Lecture hours
54 Lab hours

OENG 025
Prestressed Concrete Inspector
Prerequisite: Indentured Apprentice for the State of California in the Operating Engineers Training Program
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of State Indentured Apprentices with the State of California who are interested in the field of Operating Engineers Inspectors. Topics include safety, industry terminology, prestressed concrete inspection, blueprint reading, field interpretation, and successful completion of the industry standard certification examination.

4 Units
54 Lecture hours
54 Lab hours

OENG 026
Soil Testing and Inspection
Prerequisite: Must be an Indentured Apprentice in the Operating Engineers Training Trust Apprenticeship Program in the classification of Special Inspection
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment; MATH 020 or MATH 020C or appropriate assessment
This course is designed to meet the needs of State Indentured Apprentices with the State of California who are interested in the field of Operating Engineers Inspectors. Topics include industry safety, industry terminology, inspection testing procedures, blueprint reading, field interpretation, and successful completion of a certification class sponsored by the American Concrete Institute and Nuclear Safety Course.

4 Units
54 Lecture hours
54 Lab hours

OENG 290
Work Experience in Operating Engineers Union Apprenticeship
Prerequisite: State Indentured Operating Engineers Union Apprenticeship
Advisory: ENGL 035 or ENLA 100 or appropriate assessment
Transfers to: CSU
This course provides students the opportunity to work in the Operating Engineers apprenticeship program
for the purpose of developing specific skills to meet the goals and objectives of the Operating Engineers Joint Apprenticeship Council (J.A.C.). Students complete work experience hours at approved training sites. Students may take up to 16 units total across all Work Experience course offerings. Only one Work Experience course may be taken per semester.

**ORTHOPEDIC TECHNOLOGY**

Division of Health Science & Nursing

ORTH 040
Introduction to Orthopedic Technology
Prerequisite: BIOL 125; ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course will provide students with an introduction to the roles, professional responsibilities, code of ethics, and employment qualifications of an Orthopedic Technician. Instruction will also include the review of the musculoskeletal system as it relates to the field of orthopedic technology emphasizing locomotor, neuromuscular and peripheral vascular structures.
4 Units
72 Lecture hours

ORTH 050
Orthopedic Technician Health Assessment
Prerequisite: ORTH 040
This course will provide the student with entry-level abilities to function as an Orthopedic Technician. Students will receive instruction in the physical examination of the extremities, spine and pelvis. Instruction will include joint range of motion, specific muscle group testing and measuring the locomotor system.
3 Units
45 Lecture hours
27 Lab hours

ORTH 060
Orthopedic Technician Modalities
Prerequisite: ORTH 050
This course will provide the student with entry-level abilities to function as an Orthopedic Technician in the private practice, hospital and managed care facilities. Students will receive instruction in back office skills focusing on casting, splinting, application of soft goods, wound care management, client communication and surgical assisting in major and minor orthopedic procedures. The student will learn operating room etiquette, gowning, gloving, sterile back table set up for categories 1, 2 and 3 orthopedic procedures. Instruction will include seminars, demonstrations and physical examinations, hands on casting and splinting applications, surgical gowning and gloving and assisting in major orthopedic procedures.
4 Units
36 Lecture hours
108 Lab hours

ORTH 070
Orthopedic Technician Practicum
Prerequisite: ORTH 060
This course will provide the student with entry-level abilities to function as an Orthopedic Technician. Students will participate in clinical and hospital rotations consisting of instruction in back office skills to include casting, splinting, application of soft goods, wound care management, client communication, sterile technique, operating room etiquette, gowning, gloving, and sterile back table set-up for category 3 major procedures.
4 Units
38 Lecture hours
162 Lab hours

**PHILOSOPHY**

Division of Behavioral & Social Sciences

PHIL 101 (C-ID PHIL 100)
Introduction to Philosophy
Advisory: ENGL 101 with a grade of "C" or better
Prerequisite: ENGL 101 with a grade of "C" or better
Transfers to: UC, CSU
This course introduces philosophical ideas and methods concerning knowledge, reality and values. Expected topics will include the sources and limits of knowledge, and the nature of reality. Other topics that may be examined from a philosophical perspective include the nature of the self, truth, ethics, religion, science, language, beauty and art, political theory, or mind. This course is appropriate for anyone seeking to improve their writing and reasoning skills. Students should expect to write approximately 8000 words in various writing assignments. Transfers to: UC, CSU
3 Units
54 Lecture hours

PHIL 110H
Critical Thinking Honors
Prerequisite: ENGL 101 with a grade of "C" or better
Advisory: ENGL 023 or appropriate assessment
Transfers to: UC, CSU
This course is an introduction to the methods and techniques of informal reasoning. Topics include schematizing and articulating arguments, causal arguments, analogical arguments, testimony arguments, informal fallacies, and others. Emphasis on the application of critical thinking for effective writing will be reflected in the frequency, scope, and nature of course writing assignments, which will be evaluated with regard to both content and form. Students should expect to write approximately 8000 words in various writing assignments. This course is intended for those who meet Honors Program Requirements.
3 Units
54 Lecture hours
PHIL 112 (C-ID PHIL 110)
Introduction to Logic
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment
Transfers to: UC, CSU
This course introduces the formal methods and principles of deductive logic. Topics include translation between natural and formal language, syllogistic logic, and propositional logic. This course is especially recommended for students of mathematics, business, computer science, science, engineering, law, and humanities.
3 Units
54 Lecture hours

PHIL 112H
Introduction to Logic Honors
Prerequisite: ENGL 101 with a grade of “C” or better
Advisory: READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment
Transfers to: CSU
This course introduces the formal methods and principles of deductive logic. Topics include translation between natural and formal language, syllogistic logic, and propositional logic. This course is especially recommended for students of mathematics, business, computer science, science, engineering, law, and humanities. This course is intended for those who meet Honors Program requirements.
3 Units
54 Lecture hours

PHIL 115 (C-ID PHIL 210)
Symbolic Logic
Advisory: READ 023 or appropriate assessment; PHIL 101 or PHIL 101H; PHIL 112
Transfers to: UC, CSU
This course is intended for students interested in symbolic methods of deductive reasoning including philosophy and mathematics majors. Students taking this course will develop an understanding of both sentential logic and predicate logic. Students will also learn to translate ordinary language sentences and arguments into symbolic form and evaluate symbolized arguments for validity using truth-tables and natural deduction techniques.
3 Units
54 Lecture hours

PHIL 120 (C-ID PHIL 120)
Introduction to Ethics
Advisory: ENGL 101 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This introductory level course is for students interested in the humanities, law, medicine, politics, social science and related fields, and will expose them to some of the most profound moral and ethical questions in the Western philosophical tradition. We will examine the concept of morality and values, representative ethical theories, and may include their applications to moral problems.
3 Units
54 Lecture hours

PHIL 124 (C-ID PHIL 130)
History of Philosophy: Ancient
Advisory: ENGL 101 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This introductory level course is for those interested specifically in the earliest stages of Ancient Western philosophy. We address the development of Greek philosophy from the Pre-Socratics through Aristotle. We may also include Hellenistic, Roman, medieval or non-western thinkers. Beyond a study of the figures and key ideas, we will discuss the early view of philosophy as a “way of life,” and consider how these movements were intended to transform the lives of those who followed them.
3 Units
54 Lecture hours

PHIL 126 (C-ID PHIL 140)
History of Philosophy: Modern
Advisory: ENGL 101 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This introductory level course is intended for all students interested in the Modern period of Western Philosophy (16th through 18th Century). We emphasize broad epistemological and metaphysical developments through close analysis of primary texts. Philosophers to be studied will include Descartes and other Rationalists, Hume and other Empiricists, and Kant.
3 Units
54 Lecture hours

PHIL 128 (same as POLS 128)
Introduction to Political Philosophy
Advisory: ENGL 101 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is for students interested in the relationship between political systems and philosophy. It is especially relevant for students interested in political science, philosophy and law. This course introduces the history and development of political thought, and will consider the justification of the State, Libertarianism, Socialism, Communism, as well as conceptions of rights and distributions of goods.
3 Units
54 Lecture hours

PHIL 133
Philosophy and Contemporary Issues
Advisory: ENGL 101 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This introductory course explores the philosophical aspects of a variety of issues of contemporary interest. This course is intended for all students interested in applying methods of philosophy to contemporary topics which may include, but are not limited to: war/terrorism, sex work, cloning, euthanasia, suicide, philosophical issues pertaining to race or gender, genetic engineering, illicit drug use, business ethics, or artificial intelligence.
3 Units
54 Lecture hours

PHIL 140
Philosophy of Religion
Advisory: ENGL 101 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This introductory level course is intended for all students seeking a thoughtful exploration of religious issues in a non-sectarian context, or as part of a broader program of philosophical study. We will address Western religion from a philosophical perspective, including arguments for and against the existence of God, and an investigation into the status of religious beliefs. Additional topics...
may include a consideration of the evolution-creationism debate, and a discussion of religious pluralism.

3 Units
54 Lecture hours

PHIL 299
Directed Study: Philosophy
Transfers to: UC, CSU
Independent Study/Directed Study is intended for students who have the ability to assume responsibility for independent work and to prepare written or oral reports and/or appropriate projects. To enroll in an independent study/directed study course, students must possess a 2.5 overall grade point average, a 3.0 grade point average in the discipline of study being requested, or receive an exception from the instructor. Independent Studies/Directed Studies may be developed from any topic arising from or related to a course of study that will result in developing depth and breadth in that subject area. Students will be expected to meet on a regular basis with their faculty sponsor and submit a final report or project, and student progress shall be evaluated at regular intervals. Academic standards for Independent Studies/Directed Studies shall be the same as those for other courses. Units are awarded in accordance to Title V regulations with one unit of credit awarded for 54 hours of Directed Studies, six (6) hours of which must be with an instructor. The instructor is responsible for monitoring student progress through the semester. Students may take directed study courses for a maximum of three (3) units within a discipline, and may not accumulate more than a total of nine (9) units college wide.

1 to 3 Units
54 to 162 Lab hours

PHIL 325
Applied and Professional Ethics
Prerequisite: ENGL 201 or ENGL 201H, and PHIL 101 or PHIL 101H or PHIL 120 (both with a grade of “C” or better)
This upper division General Education course is designed for students pursuing a Bachelor of Science degree in Automotive Technology but it is also open to all students who have successfully completed the prerequisites. This course is intended for students who seek a greater understanding of the relationship between ethics and human living. This course will expose them to the moral and ethical views in the Western philosophical tradition. Students will then apply these views to various contemporary issues. Expected topics include: business ethics, euthanasia, terrorism, public policy, the death penalty, and issues in science and technology.

3 Units
54 Lecture hours

PHOTOGRAPHY
Division of Arts & Cultural Programs

PHTO 185
Introduction to Digital Photography
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This introductory course covers basic technical and conceptual skills in digital photography, including digital camera use, principles of photographic composition, digital image editing, and digital printing. This course is designed for non-photography majors interested in gaining experience with digital photography. Students are required to supply their own digital camera.

3 Units
36 Lecture hours
72 Lab hours

PHTO 190
Beginning Photography
Advisory: READ 023 or appropriate assessment; ART 120
Transfers to: UC, CSU
This course is designed for students who wish to study the basic technical and conceptual approaches to contemporary photography. Traditional black and white photography techniques are explored, with special emphasis on the basic use of the 35mm camera and enlarger as well as the processing of black and white film and printing paper. Students are required to provide their own 35mm camera with manual controls.

3 Units
36 Lecture hours
72 Lab hours

PHTO 191
Intermediate Photography
Prerequisite: PHTO 190
Advisory: READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for students who have successfully completed beginning photography and wish to study more advanced technical and conceptual approaches to contemporary black and white photography in a 35mm film based, wet lab environment. Techniques such as the use of studio lighting, light meters, toners, hand coloring, and solarization are explored, with special emphasis given to understanding the conceptual framework for the production and analysis of both personal and commercial photographic imagery. Students are required to provide their own 35mm camera with manual controls.

3 Units
36 Lecture hours
72 Lab hours

PHTO 290
Medium and Large Format Photography
Prerequisite: PHTO 190
Advisory: READ 023 or appropriate assessment
Transfers to: CSU
This course is designed for students who have successfully completed beginning photography and wish to study more advanced technical and conceptual approaches to contemporary black and white photography using medium and large format films and cameras in a traditional wet lab environment. Special emphasis is given to the understanding and analysis of photographic imagery.

2 Units

To enroll in an independent study/directed study course, students must possess a 2.5 overall grade point average, a 3.0 grade point average in the discipline of study being requested, or receive an exception from the instructor. Independent Studies/Directed Studies may be developed from any topic arising from or related to a course of study that will result in developing depth and breadth in that subject area. Students will be expected to meet on a regular basis with their faculty sponsor and submit a final report or project, and student progress shall be evaluated at regular intervals. Academic standards for Independent Studies/Directed Studies shall be the same as those for other courses. Units are awarded in accordance to Title V regulations with one unit of credit awarded for 54 hours of Directed Studies, six (6) hours of which must be with an instructor. The instructor is responsible for monitoring student progress through the semester. Students may take directed study courses for a maximum of three (3) units within a discipline, and may not accumulate more than a total of nine (9) units college wide.

1 to 3 Units
54 to 162 Lab hours
This course is the first of a two-semester sequence and is designed for students transferring to a four-year institution and planning careers in health professional fields such as medicine, dentistry, veterinary science, pharmacy, and optometry as well as those students in engineering technology and architecture. Students majoring in the biological sciences should consult a counselor as to whether this course satisfies the general preparation requirements for the major at the university. Topics include kinematics, dynamics, energy, work, momentum, conservation principles, rotational motion, simple harmonic motion, fluids, and thermodynamics.

4 Units
54 Lecture hours
54 Lab hours

PHY 212 (C-ID PHYS 200S, PHYS 215)
Physics for Scientists and Engineers - II
Prerequisite: PHY 211 with a grade of "C" or better
Corequisite/Corequisite: MATH 191
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC (credit limit*), CSU
(*Students will receive credit from UC for one physics series: PHY 150 and 160 or PHY 211, PHY 212, and PHY 213)
This course is the second of a three-semester sequence and is designed for students transferring to a four-year institution with majors in the sciences and engineering. Topics covered include quantum physics, physical optics, and thermodynamics.

4 Units
54 Lecture hours
54 Lab hours

PHY 220
Unmanned Rocket Science
Prerequisite: CIT 125 or CIT 135
Corequisite/Corequisite: PHY 213
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course introduces students to the creation and implementation of payloads and unmanned flight vehicles. The payloads and unmanned vehicles such as rockets, balloons and unmanned aerial vehicles (drones) collect infight atmospheric data that are later analyzed and presented.

POLICE ACADEMY
Division of Public Safety

PAC 040
Basic Police Recruit Class
Prerequisite: Medical clearance, California Department of Justice clearance for firearms training, passing scores on POST written and physical tests (agency sponsored cadets are exempt)
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; PAC 4348L
This is a fundamental course which covers criminal law, evidence, procedure and investigation, firearms, first aid, defense tactics, use of chemical agents and other related police subjects. This course meets the educational requirement for basic certification by the Commission on Peace Officer Standards and Training (POST).
24 Units
772 Lecture hours
163 Lab hours

PAC 042
Police Supervision
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course is designed to explain and apply the elements of supervision oriented to law enforcement personnel. Methods of effective leadership, motivation, communication and techniques of training are presented. This course is certified by the Commission on Peace Officer Standards and Training (POST).
4.5 Units
81 Lecture hours

PAC 043
Advanced Officers Course
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; PAC 040 or PAC 075B, 075C, 075D
This course is designed for upgrading currently employed law enforcement personnel. The curriculum follows that recommended by the Commission of Peace Officer Standards and Training. The course is designed to keep peace officers informed of new laws, recent court decisions, current law enforcement procedures, new concepts in law enforcement, technology, community relations and other refresher training as may be necessary.
0.07 to 1.48 Units
2 to 40 Lecture hours
2 to 40 Lab hours

PAC 071
Public Safety Dispatcher Basic Course
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; PAC 040
This course meets the POST (California Commission on Peace Officer Standards Training) requirements for the position of public safety dispatcher. The content of this course is a combination of the following topics: Professional Orientation, Criminal Justice System, Law, Communication Technology, Telephone Procedures, Radio Procedures, Missing Persons, Domestic Violence, Referral Services, Cultural Diversity, Sexual Harassment, Hate Crimes, Gang Awareness, Stress Management, Critical Incidents, Telecommunications and Practical Application Activities.
6 Units
102 Lecture hours
18 Lab hours

PAC 075B
Basic Course-Module III (Ext)
Prerequisite: Medical clearance, California Department of Justice clearance for firearms training, passing scores on POST written and physical tests (agency sponsored cadets are exempt).
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course is designed for those interested in becoming a Level III Reserve officer. This course covers criminal law, evidence, investigations, firearms, arrest and control, community relations, report writing, cultural diversity, and other related police topics. It is the final level of training which constitutes satisfaction of the Regular Basic Course training requirement and the legal requirements for a Level III Reserve officer.
8 Units
162 Lecture hours
232 Lab hours

PAC 078
Requalification - Basic Course
Prerequisite: Successful completion of a California POST Basic Police Academy; a California Department of Justice clearance for firearms training
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course is designed for individuals who have completed a basic police recruit academy, but have not been active in the law enforce-
ment field for at least three years. It provides a review of the skills and knowledge needed to return to active law enforcement duty. The topics covered include human relations, legal changes and a review of current legal issues, conducting a preliminary investigation, field tactics, the use of force and weaponry, and racial profiling.

Directed Study: Political Science  
Transfers to: UC, CSU  
Independent Study/Directed Study is intended for students who have the ability to assume responsibility for independent work and to prepare written or oral reports and/or appropriate projects. To enroll in an independent study/directed study course, students must possess a 2.5 overall grade point average, a 3.0 grade point average in the discipline of study being requested, or receive an exception from the instructor. Independent Studies/Directed Studies may be developed from any topic arising from or related to a course of study that will result in developing depth and breadth in that subject area. Students will be expected to meet on a regular basis with their faculty sponsor and submit a final report or project, and student progress shall be evaluated at regular intervals. Academic standards for Independent Studies/Directed Studies shall be the same as those for other courses. Units are awarded in accordance to Title V regulations with one unit of credit awarded for 54 hours of Directed Studies, six (6) hours of which must be with an instructor. The instructor is responsible for monitoring student progress through the semester. Students may take directed study courses for a maximum of three (3) units within a discipline, and may not accumulate more than a total of nine (9) units college wide.  
1 to 3 Units  
54 to 162 Lab hours
PSYCHOLOGY
Division of Behavioral & Social Sciences

PSY 101 (C-ID PSY 110)
Introductory Psychology
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*Students will receive credit from UC for only one of the following courses: PSY 101 or PSY 101H)
This course is designed as a general introduction to psychology for psychology majors, those with an interest in psychology, or anyone with a desire to further their understanding of human behavior. It provides an overview of the field of psychology, introducing students to the research methods used to advance the science of psychology and the various areas that comprise this diverse discipline. Research and theories are presented, discussed, and evaluated. Topics covered include biological psychology, sensation and perception, lifespan development, learning, memory, motivation and emotion, cognition, personality, psychopathology and social psychology.
3 Units
54 Lecture hours

PSY 101H (C-ID PSY 110)
Introductory Psychology Honors
Prerequisite: ENGL 101 with a grade of “C” or better
Advisory: READ 023 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*Students will receive credit from UC for only one of the following courses: PSY 101 or PSY 101H)
This course is designed as a general introduction to psychology for psychology majors, those with an interest in psychology, or anyone with a desire to further their understanding of human behavior. It provides an overview of the field of psychology, introducing students to the research methods used to advance the science of psychology and the various areas that comprise this diverse discipline. Research and theories are presented, discussed, and evaluated. Topics covered include biological psychology, sensation and perception, lifespan development, learning, memory, motivation and emotion, cognition, personality, psychopathology and social psychology. This course is intended for those who meet Honors Program requirements.
3 Units
54 Lecture hours

PSY 102 (C-ID PSY 180)
Lifespan Development
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*Students will receive credit from UC for only one of the following courses: PSY 112 or CD 106)
This course provides an overview of human psychological development across the lifespan. It addresses the physical, cognitive, social, and emotional changes that occur from the prenatal period through death. It explores the development issues of stability vs. change, continuity vs. discontinuity, and nature vs. nurture, and examines the perspectives of major developmental theorists, including Freud, Erickson, and Piaget. It explores current research findings and their applicability to ongoing developmental problems. This course is appropriate for the student seeking to develop a better understanding of the development gains and losses that occur throughout our lives.
3 Units
54 Lecture hours

PSY 112 (C-ID PSY 180)
Introduction to Abnormal Psychology
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course provides an introduction to the study of abnormal behavior for psychology majors, those with an interest in abnormal psychology, or anyone with a desire to further their understanding of abnormality. The classification, assessment and treatment of psychological disorders will be explored. Students will not only develop an understanding of the etiology and diagnosis of such disorders, as based upon DSM-IV-TR criteria, but develop an appreciation of the cultural, historical and theoretical influences that affect the definitions and treatment of abnormal behavior.
3 Units
54 Lecture hours

PSY 114 (C-ID PSY 120)
Introduction to Learning and Memory
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course details the background and research that led to the identification of the different types of learning and memory. Students will explore topics in the field of learning and memory including but not limited to classical conditioning, operant conditioning, instrumental conditioning, short-term and long-term memory, forgetting, and models of learning and memory. This course is beneficial for students that are Psychology majors, students looking to transfer as a Psychology major and students that are interested in learning about the field of learning and memory.
3 Units
54 Lecture hours

PSY 121
Drugs, Society, and Behavior
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is for the student who seeks a basic understanding of the effects of drugs of abuse and an in-depth consideration of the societal aspects of psychoactive drugs. It is designed for those students interested in furthering their understanding of psychoactive drugs and those interested in working with populations recovering from or at risk for drug problems. Current and historical uses of and attitudes towards drugs will be addressed, as well as drug use disorders, drug legislation, and treatment options. Societal and cultural differences will also be noted.
3 Units
54 Lecture hours

PSY 127
Introduction to the Physiological Effects of Drugs of Abuse
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed for students interested in furthering their understanding of psychoactive drugs and those interested in working with populations recovering from or at risk for drug problems. It provides an examination of the pharmacological actions of drugs of abuse and how this relates to the physiological, as well as the behavioral, effects of such drugs. The properties of drugs that increase the likelihood of the development of dependence will be emphasized.
3 Units
54 Lecture hours

PSY 170
Introduction to Learning and Memory
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course details the background and research that led to the identification of the different types of learning and memory. Students will explore topics in the field of learning and memory including but not limited to classical conditioning, operant conditioning, instrumental conditioning, short-term and long-term memory, forgetting, and models of learning and memory. This course is beneficial for students that are Psychology majors, students looking to transfer as a Psychology major and students that are interested in learning about the field of learning and memory.
3 Units
54 Lecture hours

PSY 180
Positive Psychology
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course focuses on the research, theories, and ideas surrounding, promoting, and maintaining well-being, good health, and happiness. Students will explore topics in the field of positive psychology including but not limited to wellness, optimism, flow, happiness, and positive thinking. This course is beneficial for students
that are Psychology majors, students looking to transfer as a Psychology major and students that are interested in learning about positive psychology.

3 Units
54 Lecture hours

PSY 190 (C-ID MATH 110, SOCI 125)
Statistics for the Behavioral Sciences
Prerequisite: MATH 070 or MATH 070D or MATH 073 with a grade of "C" or better or appropriate assessment
Advisory: ENGL 101 and READ 023 or appropriate assessment
Transfers to: UC, CSU
This course provides an overview of the types of statistics that are important in the behavioral sciences. The main focus of this course is on hypothesis testing and the statistics that are used to analyze it. Students will learn to both present and interpret experimental data from the behavioral sciences. Topics covered include basic probability, measures of central tendency, measures of variance, sampling, and inferential statistics. This course is designed for students majoring in psychology, sociology, political science, and anthropology.

4 Units
72 Lecture hours

PSY 200 (C-ID PSY 200)
Research Methods in Psychology
Prerequisite: PSY 101
Prerequisite/Corequisite: MATH 130 or PSY 190
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course provides an introduction to the philosophy of science and the examination of the hypothetical deductive methods and their relationship to theory. Topics include: the nature of experimental research and design, experimental and non-experimental research-including group and single-subject designs, literature review, research ethics, collection and analysis of data, and writing APA-style reports. Collection, handling, and analysis of original empirical data, during class and outside of class, in both experimental and non-experimental designs, are an integral component of the course. The course is designed for students intending to pursue a degree in psychology.

3 Units
36 Lecture hours
54 Lab hours

PSY 210 (C-ID PSY 150)
Biological Psychology
Prerequisite: PSY 101
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC (credit limit*), CSU
(*Students will receive credit from UC for only one of the following courses: PSY 210 or PSY 210H)
This course is designed for the student who has an interest in understanding the biological processes that underlie human behavior. The biological basis of normal and abnormal behavior, including sensory systems, brain and behavior relationships, and underlying neurochemical processes will be addressed. The extent to which biological processes interact with environmental influences to determine behavior will be explored.

3 Units
54 Lecture hours

PSY 210H (C-ID PSY 150)
Biological Psychology Honors
Prerequisite: PSY 101 and ENGL 101 with a "C" or better. Enrollment is restricted to those who meet Honors Program requirements (minimum GPA of 3.0)
Advisory: READ 023 or appropriate assessment
Transfers to: UC (credit limit*), CSU
(*Students will receive credit from UC for only one of the following courses: PSY 210 or PSY 210H)
This course is designed for the student who has an interest in understanding the biological processes that underlie human behavior. The biological basis of normal and abnormal behavior, including sensory systems, brain and behavior relationships, and underlying neurochemical processes will be addressed. The extent to which biological processes interact with environmental influences to determine behavior will be explored. This course is intended for students eligible for the Honors Program.

3 Units
54 Lecture hours

PSY 299
Directed Study: Psychology
Transfers to: UC, CSU
Independent Study/Directed Study is intended for students who have the ability to assume responsibility for independent work and to prepare written or oral reports and/or appropriate projects. To enroll in an independent study/directed study course, students must possess a 2.5 overall grade point average, a 3.0 grade point average in the discipline of study being requested, or receive an exception from the instructor. Independent Studies/Directed Studies may be developed from any topic arising from or related to a course of study that will result in developing depth and breadth in that subject area. Students will be expected to meet on a regular basis with their faculty sponsor and submit a final report or project, and student progress shall be evaluated at regular intervals.

3 Units
36 Lecture hours
54 Lab hours

Radio
Division of Communications & Languages

RDIO 104
Introduction to Broadcasting
Advisory: ENGL 035 or ENLA 100 or appropriate assessment
Transfers to: CSU
This course is an introduction into the field of broadcasting in a survey form covering the vast areas of broadcasting throughout the world. It is a broad survey of the history, theory, and operation of radio and television broadcasting in the United States, including legal and social aspects, networks, programming, production, sales and advertising, and station personnel. At least one field trip to a radio or television studio will be scheduled each semester.

3 Units
54 Lecture hours

RDIO 136
Radio Production
Advisory: ENGL 035 or ENLA 100 or appropriate assessment
Transfers to: CSU
This course is intended as an introduction for students wanting to learn the production and management techniques in radio broadcasting. Students will be shown basic techniques for writing and producing the commercial and public service type announcements. Students will be shown through lecture, demonstration, and taped examples the proper announcing and on-air presentation techniques. Students will make demonstration tapes and air checks of examples of their work for submission to the instructor and the class for evaluation. Selected students will have an opportunity to air their pro-
grams over the campus radio station KRHC.

RDIO 236
Advanced Radio Production

Prerequisite: RDIO 136 with a grade of “C” or better

Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU

This course is intended as an advanced study for students wanting to learn production and management techniques utilized in radio broadcasting. Students will be shown proper announcing and on-air presentation techniques through lecture, demonstration, and taped examples. Students will have the opportunity to air their programs over the campus Internet radio station KRHC.

4 Units

36 Lecture hours
108 Lab hours

RDIO 290
Cooperative Work Experience/Internship for Radio Related Fields

Prerequisite: JOUR 147

Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU

This course supports and reinforces on-the-job training in radio related fields under supervision of a college instructor and is facilitated by the use of learning objectives. The student will be working in a skilled or professional level assignment in an area of radio related fields and will meet performance objectives related to instruction that are above and beyond the conditions of regular employment. This course is intended for students whose intended job is related to the field of radio and have completed or enrolled in the appropriate coursework. “Contact the CWE office regarding re-enrollment procedures.”

Student Unpaid Internship:
1 Unit/60 hours; 2 Units/120 hours; 3 Units/180 hours; 4 Units/240 hours

Student Paid Internship:
1 Unit/75 hours; 2 Units/150 hours; 3 Units/225 hours; 4 Units/300 hours.

1 to 4 Units

3 Lecture hours
60 to 300 Other hours

RESEARCH
Division of Communications & Languages

READ 021
Basic Reading

Prerequisite: Appropriate placement through the Rio Hondo Assessment process

Corequisite: READ 021L

This course is designed for students who want to improve their reading skills in order to succeed in other college classes. Students will learn how to read and understand short works of fiction and nonfiction as well as key vocabulary words associated with college and everyday life through context clues, word parts, and dictionary usage. Students will also learn to recognize transitions, main ideas and supporting details. This is a non-degree applicable course and is offered on a pass/no pass basis. All students are required to concurrently enroll in the Reading Lab, READ 021L.

3 Units

54 Lecture hours

READ 021L
Reading Lab

Prerequisite: Appropriate placement through the Rio Hondo Assessment process

Corequisite: READ 021

This course is a skills class designed to assist students in improving reading comprehension and vocabulary through individually prescribed lab work. Students will complete reading tasks intended to complement the activities of their reading course. All READ 021 students must enroll. This is a non-degree applicable course offered on a pass/no pass basis.

0.5 Units

27 Lab hours

READ 022
Intermediate Reading Skills

Prerequisite: Successful completion of READ 021 with a “P” or appropriate assessment

Corequisite: READ 022L

This course is designed for students who want to improve their reading skills in order to succeed in other college classes. Students will develop comprehension and vocabulary through the reading of material drawn from popular works, textbooks, magazines, and newspapers. Areas addressed include determining main ideas, recognizing supporting details, identifying author’s organization, and making inferences. This is a non-degree credit course and is offered on a pass/no pass basis. All students are required to concurrently enroll in READ 022L.

3 Units

54 Lecture hours

READ 022L
Reading Lab

Prerequisite: Successful completion of READ 021 with a “P” or appropriate placement through the Rio Hondo assessment process

Corequisite: READ 022

This course is a skills class intended to assist students in improving reading comprehension and vocabulary through individually prescribed lab work.

**READ 023**
Reading College Textbooks
Prerequisite: READ 022 or appropriate assessment
This is a course designed for students who need to improve their reading competencies in order to succeed in other college classes. Areas of emphasis will include reading strategies essential in such academic areas as social sciences, science, technology, business and humanities. The course also introduces academic vocabulary. This is a non-degree credit course and is offered on a pass / no-pass basis.
0.5 Units
27 Lab hours

**READ 101**
Critical Reading
Prerequisite: READ 023 or appropriate assessment
Advisory: ENGL 035 or ENLA 100 or appropriate assessment
Transfers to: CSU
This course is designed to aid students in acquiring critical reading and thinking skills across the disciplines. Emphasis is placed on the ability to analyze and evaluate material by establishing thesis and support as well as by analyzing elements of argumentation. The course also focuses on vocabulary and the effects of language on the reader.
3 Units
54 Lecture hours

**READ 134**
Academic Success and Lifelong Learning
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This comprehensive course is designed for students to acquire reading and study strategies for college success and lifelong learning. Outcomes include the knowledge of applicable educational learning theories as well as psychological and physiological tools that promote self-development in learning. Specific topics consist of reading print versus digital texts, critical thinking, lecture and textbook note taking, metacognitive strategies, test preparation, time management, and to aid the student in achieving academic and lifelong goals.

54 Lecture hours

**RDA 051**
Registered Dental Assisting I
Prerequisite: Acceptance into Registered Dental Program
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment; MATH 030 or MATH 030D or MATH 033 or appropriate assessment
This is part one of a two-semester Registered Dental Assisting competency based course. This course includes patient care experience in a fully equipped facility. Students who successfully complete the curriculum are qualified to take the California Dental Board examination leading to licensure as a Registered Dental Assistant. At completion of the program, the student will be certified by the state of California to take dental x-rays. Students who are interested in the dental field are encouraged to take this course.

54 Lecture hours
SOC 102 (C-ID SOCI 115)
Major Social Problems
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed to provide students with an understanding of the definition, development, reduction and elimination of major social problems in contemporary society. Topics addressed include problems of mental and physical health including addictions, crime and violence, social inequality, terrorism and war, as well as technology and the environment. Various social theories and relevant empirical research are critically examined throughout the course.
3 Units
54 Lecture hours

SOC 105
Introduction to Human Sexuality
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for students interested in the sociological study of human sexuality. The course provides students with knowledge about the processes and variation in sexual functions, reproduction, intimate relationships, sexual and gender role development and sexual activities. Numerous factors involved in human sexuality are explored, emphasizing sexuality as a form of human interaction. The social, cultural, and historical contexts of human sexuality will be critically analyzed.
3 Units
54 Lecture hours

SOC 110
Human Sexuality from a Cross-Cultural Perspective (Same as ANTH 110)
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for students with an interest in human sexuality from a cross-cultural perspective. Sexual anatomy, development, response, and behavior will be examined, along with historical and cultural patterns. Students will learn about the development and expression of gender and orientation from both Western and non-Western perspectives, with an emphasis on the influence of culture on individuals.
3 Units
54 Lecture hours

SOC 114 (C-ID SOCI 130)
Marriage, Family and Intimate Relationships
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for the student interested in examining, from a sociological perspective, issues such as marriage, family, and emerging alternative life styles which constitute the reality of life today. The course explores love, sexuality, mate selection, and engagement preceding traditional marriage and family patterns, extra-marital and non-marital unions, singles, and future trends in intimate relationship styles.
3 Units
54 Lecture hours

SOC 116 (C-ID SOCI 150)
Introduction to Race and Ethnic Relations
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for students interested in understanding the complexities of multi-ethnic, multi-racial societies. This course presents an overview of the structure and character of racial and ethnic relations in the United States and abroad. Students will gain knowledge of the treatment and experiences of a variety of racial and ethnic cohorts and gain insight into the complex social features of inter-group contact.
3 Units
54 Lecture hours

SOC 120 (C-ID SOCI 140)
Perspectives of Sex & Gender
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
In this course we will explore how gender shapes our lives and the world around us. Using a sociological perspective, we will examine gender as a social construction rather than as a simple biological difference. Topics to be covered may include cultural ideas of gender, gender and the economy, politics, the media, families, and education. This course is designed for students who want to learn more about the social connections of gender and how the importance of gender differences are strengthened in our society today.
3 Units
54 Lecture hours

SOC 127 (C-ID SOCI 160)
Introduction to Criminology
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is designed for the student interested in the study of criminal behavior. The scientific analysis of the nature, extent, and causes of violations of societal rules of behavior that are formally defined as crimes and delinquency will be emphasized. The course includes an analysis of the development of criminal law and the administration of criminal justice, the patterns of criminality and delinquency, the impact of crime on social change, and the labeling, identification, characteristics, and treatment of criminals and delinquents.
3 Units
54 Lecture hours

SOC 148
La Chicana: The Contemporary Mexican-American Female (Same as CHST 148)
Advisory: ENGL 035 or ENLA 100 or appropriate assessment
Transfers to: UC, CSU
This introductory course explores the racial/ethnic identity formation of Chicanas/Mexican origin women in the United States. Course themes include an examination into the genesis of the term “Chicana”, the emergence of Chicana feminism, and the intersection of race, gender, class, and sexuality in relation to the formation and study of Chicana identities. This course is an interdisciplinary one, drawing on methodologies from racial/ethnic studies, women/gender studies, queer studies, history, literature, sociology, and popular culture. This course is appropriate for students interested in furthering their understanding of the social construction of the Mexican American woman.
3 Units
54 Lecture hours

SOC 299
Directed Study in Sociology
Prerequisite: SOC 101
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
The course provides an opportunity for the student to expand their studies in Sociology beyond the classroom by completing a project or an assignment arranged by agreement between the student and instructor. The student is required to contract with the instructor to determine the scope of the assignment and the unit value assigned for successful completion. Students must possess a 2.5 overall GPA, a 3.0 GPA in the discipline of study being requested, or receive an exception from the instructor. Students may take a maximum of 3 units of Directed Study within a discipline and 9 units college-wide.
1 to 3 Units
54 to 162 Lab hours
### Analysis of Social Change

**Prerequisite:** ENGL 325, SOC 101 or SOC 101H, SOC 102 (all with a grade of "C" or better)

This upper division General Education course is designed for students pursuing a Bachelor's degree in Automotive Technology and is open to all students who have successfully completed the required prerequisites. Students will develop a broad understanding of social change within society through the examination of various social mechanisms that lead to, promote, and eventually incorporate or quell the products and processes of social change. Special attention will be paid to industrialization, globalization, social movements, the implementation and evolution of technology and how social change is shaped by and produces unique social behavior.

### SPANISH

**Division of Communications & Languages**

### SPAN 101 (C-ID SPAN 100)

**Spanish I**

- **Advisory:** ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
- **Transfers to:** UC (credit limit*), CSU (Students will receive credit from UC for only one of the following courses: SPAN 101 and SPAN 102 or SPAN 130 and SPAN 131)

This course is an introduction to the essentials of Spanish language: reading, listening, speaking, and writing skills. The skills learned in SPAN 101 will be reviewed. The class will increase vocabulary, grammar, and cultural knowledge to improve on the reading, listening, speaking, and writing skills presented in SPAN 101. In this course the study of verb tenses and constructions is completed. Various facets of Spanish-speaking cultures will be analyzed via cross-cultural comparisons. In addition to classroom discussion, students are required to complete at least 18 hours of intensive individualized oral-aural practice in the Language Laboratory via interactive websites, audio CDs, video programs, and films. The Language Laboratory work focuses on vocabulary, grammar, and cultural practices. The Languages Department as a whole mandates the requirement of 18 hours of independent lab work per semester. This class is designed for those students who do not have a Spanish language background who wish to learn to speak Spanish or who seek a degree in the Spanish language.

4 Units  
72 Lecture hours  
18 Lab hours

### SPAN 130

**Spanish for Heritage Speakers I**

- **Advisory:** ENGL 030 or ENLA 034 or appropriate assessment
- **Transfers to:** UC (credit limit*), CSU (Students will receive credit from UC for only one of the following courses: SPAN 101 and SPAN 102 or SPAN 130 and SPAN 131)

This course is designed to improve the language skills of students with a Spanish language background. Emphasis will continue to be placed on the improvement of reading and writing skills. Aspects of culture, civilization, and literature from the Spanish-speaking cultures will be included in the readings of the literature of Spanish-speaking countries. This course is intended for students who are native speakers of Spanish.

3 Units  
54 Lecture hours

### SPAN 102 (C-ID SPAN 110)

**Spanish II**

- **Prerequisite:** Completion of SPAN 101 with a grade of "C" or better, or completion of two years of high school Spanish with a grade of "C" or better
- **Advisory:** READ 023 or appropriate assessment; ENGL 035 or ENLA 100 or appropriate assessment
- **Transfers to:** UC (credit limit*), CSU (Students will receive credit from UC for only one of the following sequences of courses: SPAN 101 and SPAN 102 or SPAN 130 and SPAN 131)

This course is a continuation of the study of the essentials of Spanish language: reading, listening, speaking, and writing skills. The skills learned in SPAN 101 will be reviewed. The class will increase vocabulary, grammar, and cultural knowledge to improve on the reading, listening, speaking, and writing skills presented in SPAN 101. In this course the study of verb tenses and constructions is completed. Various facets of Spanish-speaking cultures will be analyzed via cross-cultural comparisons. In addition to classroom discussion, students are required to complete at least 18 hours of intensive individualized oral-aural practice in the Language Laboratory via interactive websites, audio CDs, video programs, and films. The Language Laboratory work focuses on vocabulary, grammar, and cultural practices. The Languages Department as a whole mandates the requirement of 18 hours of independent lab work per semester. This class is designed for those students who do not have a Spanish language background who wish to learn to speak Spanish or who seek a degree in the Spanish language.

### SPAN 201 (C-ID SPAN 200)

**Spanish III**

- **Prerequisite:** SPAN 102 or SPAN 131 with a "C" or better, or three years of high school Spanish
- **Transfers to:** UC (credit limit*), CSU (Students will receive credit from UC for only one of the following courses: SPAN 201 or SPAN 201H)

This is an intermediate level course in which Spanish grammar is reviewed. It also includes intensive classroom practice in conversation and composition. In addition to classroom instruction, students receive intensive, individualized oral-aural practice in the language laboratory in which websites, video programs, audio CDs, and CD ROMs are used. Many aspects of Spanish culture are introduced in short stories by Latin American and Spanish authors. Students strengthen their communicative and writing skills by analyzing these stories in Spanish. This course is designed/ intend ed for students who wish to broaden their knowledge in Spanish as well as for those interested in pursuing a degree in the Spanish language.

SPAN 202 (C-ID SPAN 210)
Spanish IV
Prerequisite: SPAN 201 or 201H with a grade of “C” or better or four years of high school Spanish
Transfers to: UC, CSU
SPAN 202 is an intermediate level course designed to further improve the use of Spanish grammar, conversation, reading comprehension and composition. Various aspects of Spanish culture and literature are introduced through readings in the textbook and in supplementary readings. Students strengthen their communication and writing skills by analyzing literary selections that vary in style from simple journalist writing to highly original and complex literary works in Spanish. Students also receive intensive, oral-aural practice in the language laboratory in which websites, video programs, audio CDs, and CD ROMs are used. This course is designed/intended for students who wish to broaden their knowledge of Spanish as well as for those interested in pursuing a degree in the Spanish language.

18 Lab hours

SPCH 100 (C-ID SPH 130)
Interpersonal Communication
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC, CSU
Interpersonal Communication is an introductory course focusing on interactions between two people. Designed to provide students with greater understanding of communication in every day activities, the course focuses on self-discovery and strengthening the self-image; discovering and understanding the factors that influence communication behavior; and the establishment and maintenance of meaningful relationships in personal and social settings. This course is designed for speech communication majors or anyone with an interest in human communication.

3 Units
54 Lecture hours

SPCH 200 (C-ID SPH 200)
Public Speaking
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*Students will receive credit from UC for only one of the following courses: SPCH 101, SPCH 101H or SPCH 102)
This introductory course is designed to prepare students to be effective oral communicators in all aspects of public presentations including design and delivery of the public speech. The course is appropriate for all students interested in developing their public speaking knowledge and skills such as speech communication majors, future teachers, and future business leaders.

3 Units
54 Lecture hours

SPCH 110 (C-ID SPH 110)
Forensics: Debate Research and Practice
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*Students will receive credit from UC for only one of the following courses: SPCH 101, SPCH 101H or SPCH 102)
This course trains students to participate in Río Hondo’s Forensic Speech and Debate Team. Emphasis is placed on preparation, including research and writing; practice; and participation in intercollegiate speech and debate tournaments and/or community events. Students learn debate, oral interpretation, limited preparation, and platform speaking. This course is appropriate for students specializing in areas involving public speaking such as law, political science, drama, and instruction. Students who sign up for the lab hours are required to compete. This course may be taken once and repeated three times for credit.

1 to 4 Units
18 Lecture hours
54 to 162 Lab hours

SPCH 111
Forensics: Debate Research and Practice
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: CSU
This course involves participation in Río Hondo’s Forensic Debate Team. Students research, structure, and present debate cases. Students in this course will improve their ability
to debate at intercollegiate debate tournaments. Emphasis is placed on successful participation in National Parliamentary Debate Association (NPDA) sanctioned tournaments. This course is recommended for students preparing for careers in law, political science, or community advocacy. This course may be taken once and repeated three times for credit.

2 Units
108 Lab hours

SPCH 112
Forensics: Oral Interpretation Laboratory
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: CSU
This course is designed to train students in the analysis and performance of literature at speech events attended by the Forensic Speech Team. Students develop skills to interpret and perform literature ranging from the play, screenplay, short story, novel, and poetry. Students gain an understanding of character and scene analysis as it applies to an oral interpretation performance. This course is recommended for students specializing in communication, performance studies, and creative literature. This course may be taken once and repeated three times for credit.

2 Units
108 Lab hours

SPCH 130 (C-ID COMM 170)
Oral Interpretation
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This course is an introduction to the principles and techniques of oral interpretation. Effective methods of research, critical analysis, reasoning, refutation, and listening are stressed. Through debate participation and analysis, students will gain the knowledge and skills to advocate and refute argumentative positions. This course is particularly appropriate for students anticipating entering occupations where argumentation, negotiation, and issue analysis are likely to occur.

3 Units
54 Lecture hours

SPCH 140 (C-ID COMM 120)
Argumentation and Debate
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC (credit limit*), CSU (*Students will receive credit from UC for only one of the following courses: SPCH 140 or SPCH 240)
This course is an introduction to the principles and techniques of argumentation and debate. Effective methods of research, critical analysis, reasoning, refutation, and listening are stressed. Through debate participation and analysis, students will gain the knowledge and skills to advocate and refute argumentative positions. This course is particularly appropriate for students anticipating entering occupations where argumentation, negotiation, and issue analysis are likely to occur.

3 Units
54 Lecture hours

SPCH 150 (C-ID COMM 150)
Intercultural Communication
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is an introduction to intercultural communication. The emphasis is on applying intercultural theories and concepts to understand the influence of cultural membership upon the communicative situation. Students completing this course will improve their intercultural communication competence. This course is recommended for students in all fields; particularly Communication Studies majors and students who anticipate high interaction with people from diverse cultures.

3 Units
54 Lecture hours

SPCH 240 (C-ID COMM 190)
Argumentation and Discussion
Prerequisite: SPCH 140 with a grade of “C” or better
Transfers to: UC (credit limit*), CSU (*Students will receive credit from UC for only one of the following courses: SPCH 140 or SPCH 240)
This course gives the student expanded practice and theory in argumentation. Students further develop their argumentation knowledge and skills through debate participation, observation, and discussion. This course is particularly appropriate for students anticipating entering occupations involving extensive argumentation and deliberation such as law, communication, negotiation, and any area where argumentation and debate occur frequently.

TECHNICAL EDUCATION
Division of Career & Technical Education

TCED 044
OSHA Workplace Safety
Advisory: READ 023 or appropriate assessment
This course is intended for the individual who needs an overview and/or certification of the California and Federal OSHA Safety Regulations for the General Industry Workplace. This course will cover a detailed overview of the rules and regulations, and discuss fire protection and prevention, material handling/storage/use and disposal, hand and power tools, welding and cutting, electrical safety, and fall protection. Upon completion of this course, (as well as passing the final exam), the student will receive a 10-hour OSHA Training Certificate of completion, which is good for life.

1 Unit
18 Lecture hours

TCED 045
Survey of Technology
Advisory: READ 023 or appropriate assessment
This course is an exploration of the various applied technologies pertinent to society today. Students will receive an introduction to auto technology, auto collision, drafting/architecture, geographical information systems, and fabrication. Lectures/demonstrations will focus on practical applications and career paths/job opportunities represented by the disciplines discussed. Students will be given hands-on opportunities to explore skills associated with the discipline. This course will provide the student an introduction to five different technology disciplines to help him/her determine a potential career path and/or make them a more informed consumer of these technologies.

3 Units
45 Lecture hours
27 Lab hours
TCED 046
Industrial Design & Visual Communications
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Intended for students interested in a career in Transportation Design or Product Design, this course introduces the student to the fundamentals of industrial design drawing and communication. Course begins with a lecture about possible career opportunities which exists within this profession. Students will learn to improve hand/eye coordination through repetition of given drawing task. Instruction emphasizes perfecting line, arc, circle and ellipse. Perspective drawing and shading are introduced. Culmination of the course will require the student to produce and present a solution to a given design problem and produce visual aids to describe product proposal and solution.
2 Units
18 Lecture hours
54 Lab hours

TCED 054
OSHA Workplace Safety II
Advisory: READ 023 or appropriate assessment
This course is intended for the individual who needs an intermediate-level overview and/or the number of hours required for certification of both the California and Federal OSHA Safety Regulations for the General Industry and Construction Workplace. The course will cover a detailed overview of the rules and regulations, fire protection and prevention, material handling/storage and disposal, hand and power tools, welding and cutting, electrical safety, fall protection, scaffolds, excavations, concrete and masonry construction, steel erection, demolition, cranes/hoists/elevators and conveyors, lockout/tagout procedures, industrial hygiene and emergency action plans. Powered Industrial Trucks will also be covered during the course, as well as passing the final exam and the powered industrial trucks operator safety training, the student will receive a 30-hour OSHA Training Certificate of Completion, which is good for life, and a powered industrial truck Certified Operator Card, which is good for 3 years.
4 Units
72 Lecture hours

TCED 060
Elementary Metallurgy
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This is an elementary course in the basic principles of metallurgy. It is designed for Welding and Machine Shop majors, but is suitable for all technology students. Emphasis is placed on terminology, numbering systems, methods of altering the properties of metals, and the effect on fabrication.
2 Units
36 Lecture hours

TCED 070
Foundation Skills for Technical Trades I
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course is part one of a two-part series of courses designed to assist the student to become more effective and efficient in fundamental skills used in Technical Trades. The student will also gain an understanding of attitudes and behaviors that are beneficial to succeed in vocational settings and everyday life. Course content includes units of measure and measurement tools; converting fractions, decimals, and percentages; graphs and charts; perimeter, area, and volume; and personal finance. Emphasis will be placed on the practical application of these topics, and the use of a variety of hands-on classroom activities is included.
3 Units
54 Lecture hours

TCED 080
Foundation Skills for Technical Trades II
Prerequisite: TCED 070
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course is part two of a two-part series of courses designed to assist the student to become more effective and efficient in fundamental skills used in Technical Trades. The student will also gain an understanding of attitudes and behaviors that are beneficial to succeed in vocational settings and everyday life. Course content includes solving technical problems using value analysis, graphs and charts, and personal growth. Emphasis will be placed on the practical application of these topics, and the use of a variety of hands-on classroom activities is included.

54 Lecture hours

TCED 090
Blueprint Reading for Industry
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
This course is for all students interested in pursuing certificates, degrees and careers related to manufacturing, welding, and drafting technologies. The course presents an introduction to the use of engineering documents or blueprints as used in industrial applications and focuses on interpreting and visualizing technical drawings in order to read and understand “The Language of Industry.” Principles of reading drawings, specifications, projection principles, working drawings, details, assemblies, and pictorial representations are examined and discussed. The course is also helpful for apprentices and employees in all areas of technology including planning, purchasing, machine trades, welding/fabrication, future engineers, and inspection.
2 Units
27 Lecture hours
27 Lab hours

TCED 299
Directed Study in Technical Education
Prerequisite: 2.5 overall grade point average, a 3.0 grade point average in the discipline of study being requested, or receive an exception from the instructor
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course provides an opportunity for the student to expand their studies in Technical Education beyond the classroom by completing a project or an assignment arranged by an agreement between the student and instructor. The student is required to contract with the instructor to determine the scope of the assignment and the unit value assigned for successful completion. Students must possess a 2.5 overall GPA, a 3.0 GPA in the discipline of study being requested, or receive an exception from the instructor. Students may take a maximum of 3 units of Directed Study within a discipline and 9 units college-wide.

TELEVISION
Division of Arts & Cultural Programs

TV 135
Creative Digital Video
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: UC, CSU
This is a basic course in film-style production techniques for drama and music videos. Topics will include creating a story treatment, script writing, storyboarding, camera handling, lighting, audio, and simple editing. Students will work in teams and crew...
Theatre Honors
The History and Development of the Theatre
Prerequisite: ENGL 101 with a grade of "C" or better

Advisory: READ 023 or appropriate assessment
Transfers to: UC (credit limit*), CSU
(*Students will receive credit from UC for only one of the following courses: THTR 105 or THTR 105H)

This course is designed for the student with an interest in history of the theatre. It will cover humanity’s relationship with theatre from primitive tribal cultures through today’s large musicals and blockbuster hits. The class will explore the way societies’ religious, political and social structures were presented and shared through their theatre. The class will investigate major plays, playwrights and historic theatrical techniques through lectures, discussion, field trips and films. This course is designed for students eligible for the Honors program.

3 Units
54 Lecture hours

THTR 110 (C-ID THTR 151)
Principles of Acting
Prerequisite: THTR 110
Transfers to: UC, CSU

This course is designed for the student who is interested in acting and other areas of theatre, film and Television, whether as a profession or as a hobby. The class explores the theory, practice and techniques of acting. Emphasis is placed on theatre games and exercises culminating in the presentation of scenes from contemporary dramatic literature.

3 Units
54 Lecture hours

THTR 150 (C-ID THTR 171)
Theatre Crafts I
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC, CSU

The course is designed for the student who wishes to gain a basic understanding of the technical phases of scene production including construction, painting, rigging, placement and manipulation of stage scenery, lighting equipment, sound equipment, properties and wardrobe as well as the organization and management of stage activity and stagecraft terminology. The student will study the aesthetics and practical application principles of stage scenic, sound and lighting design. Students are assigned a specific crew responsibility that directly relates to a college theatre production.

THTR 154
Stage Audio
Prerequisite: THTR 150
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment
Transfers to: UC, CSU
This course is designed for the student who wants to gain an understanding and appreciation of the roles audio and audio design play in the theatrical production. Students will gain an understanding in audio design, function and esthetics. Students will be able to rig, cable, troubleshoot, strike and maintain analogue and digital audio equipment as well as identify and select appropriate types of microphones, cables, speakers and sound amplification equipment for a given purpose. Electrical and operational safety will receive special emphasis. Students will be able to operate audio mixing consoles at a proficient level.
3 Units
18 Lecture hours
108 Lab hours

THTR 155 (C-ID THTR 192)
Stage Crew Activity
Advisory: READ 022 or appropriate assessment
Transfers to: UC, CSU
The course is designed for the student to gain practical hands on technical experience working backstage on Arts and Cultural Programs approved public performances of theatrical, musical or dance productions and is taken in conjunction with Technical Theatre courses. The course may be taken once and repeated three times for credit.
1 to 3 Units
54 to 162 Lab hours

THTR 159 (C-ID THTR 190)
Advanced Theatre Production Lab
Corequisite: THTR 152
Prerequisite: THTR 165
Transfers to: UC, CSU
This class is intended for students interested in exploring a career in entertainment production. The course provides a hands-on introduction to all aspects of entertainment production, including scenery, lighting, audio, costumes and properties. The student will learn the fundamentals of constructing, painting and rigging scenery, hanging and focusing lighting equipment, setting up audio systems and/or building costumes or props for the performing arts programs at Rio Hondo College.
1 to 2 Units
54 to 108 Lab hours

THTR 160
Introductory Playwriting Screenwriting
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed for the student interested in the art of writing for theatre or film. It will include writing exercises, theatre field trips and a final staged reading of finished scripts. Students will complete a one-act or 10-minute play which will be considered for production the following semester.
3 Units
36 Lecture hours
54 Lab hours

THTR 161
Playwriting Screenwriting for Production
Prerequisite: THTR 160
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is designed for the student who wants to work on their playwriting/screenwriting craft with an eye to the professional market. Students will write, rewrite and polish works written with the intention of production. Students will read plays, screenplays, and teleplays that have been produced recently. Students will realistically appraise the marketability of their script through staged readings by student actors for an audience.
3 Units
36 Lecture hours
54 Lab hours

THTR 164
Theatre Production Lab
Corequisite: THTR 150
Advisory: READ 022 or appropriate assessment
Transfers to: CSU
This class is intended for students interested in exploring a career in entertainment production. The course builds upon the basic skills acquired in THTR 164, with more sophisticated tasks and greater responsibilities in scenic construction, painting and rigging, stage lighting operations, stage audio systems and/or costume shop assignments for the performing arts programs at Rio Hondo College.
1 to 2 Units
54 to 108 Lab hours

THTR 165
Intermediate Theatre Production Lab
Prerequisite: THTR 164
Corequisite: THTR 151
Transfers to: CSU
This class is intended for students interested in careers in entertainment production. The course builds upon the basic skills acquired in THTR 164, with more sophisticated tasks and greater responsibilities in scenic construction, painting and rigging, stage lighting operations, stage audio systems and/or costume shop assignments for the performing arts programs at Rio Hondo College.
1 to 2 Units
54 to 108 Lab hours

THTR 166
Advanced Theatre Production Lab
Prerequisite: THTR 165
Corequisite: THTR 152
Transfers to: CSU
This class is intended for students pursuing careers in entertainment production. The course builds upon the skills acquired in THTR 165, providing leadership roles in scenic construction, painting and rigging, stage lighting operations, stage audio systems and/or costume shop assignments for the performing arts programs at Rio Hondo College.
1 to 2 Units
54 to 108 Lab hours

108 Lab hours

THTR 179
Performing and Preparing the Comedy

Advisory: ENGL 030 or ENLA 034 or appropriate assessment; THTR 110 or THTR 150

Transfers to: UC, CSU

This course is designed for the student who wants to study aspects of theatre production as they are created and expressed through comedic drama. The class will explore comedy genres, acting techniques, physical communication and comic objectives. Students will be part of a full-length or one-act production or a combination of both. Students may participate in a variety of activities including acting, directing, production, management, etc. Auditions will determine the specific assignment.

THTR 210  Acting Workshop: Devising  
Prerequisite: THTR 110 or THTR 150 or THTR 153 or THTR 170 or THTR 171 or THTR 174  
Transfers to: UC, CSU  
This class is for the student who wants to create their own work, whether they are actors or non-actors. The class will study the history of devising (also known as collective creation), learn techniques of devising, and create, research, develop, rehearse and present a devised project. Some knowledge of traditional theatre is helpful for this class. Some semesters a public performance will be presented. 
3 Units  
36 Lecture hours  
54 Lab hours

THTR 215  Acting: A Course in Auditioning and Cold Reading  
Prerequisite: THTR 110  
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment  
Transfers to: CSU  
This course is designed for the student who wants to be prepared and ready for academic, community or professional auditions. The student will work with the teacher at each class on selection of material, analyzing the text, presentation of material, presentation of self, personal appearance, cold readings, relaxing for an audition; preparation of resumes and pictures, etc. on line sources, etc. By the end of the semester the student will have a variety of audition pieces ready. 
3 Units  
54 Lecture hours

THTR 230  Principles of Directing  
Prerequisite: THTR 110  
Advisory: READ 023 or appropriate assessment  
Transfers to: UC, CSU  
This course is designed for the student who wants to develop their ability to work with actors, interpret drama and to stage plays. It will cover the history and the techniques of the stage director. Emphasis is placed on class activities such as exercises and scenes. Career opportunities, stage management and assistant directing are also covered. It is a requirement for the Theatre Arts major. 
3 Units  
36 Lecture hours  
54 Lab hours

THTR 231  Principles of Directing II  
Prerequisite: THTR 230  
Advisory: READ 023 or appropriate assessment  
Transfers to: UC, CSU  
This course is designed for the student majoring in Theatre Arts. The class is a continuation of Theatre Arts 230. Techniques in casting, rehearsing, picturization, characterization, tempo and climax in play direction are covered. Students will direct a 10-minute play with other students. 
3 Units  
36 Lecture hours  
54 Lab hours

THTR 286  Ballet Folklorico  
Prerequisite: See request for exception  
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 022 or appropriate assessment  
Transfers to: UC, CSU  
This course is designed to give a general knowledge of the regional dance styles of Mexico and its cultural aspects. Instruction will focus on the development of technique in Ballet Folklorico movements. Participation in public performance is required. 
2 Units  
18 Lecture hours  
54 Lab hours  
18 Other hours

THTR 290  Cooperative Work Experience/Internship for Theatre Arts Related Fields  
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment  
Transfers to: CSU  
This course supports and reinforces on-the-job training in business, industrial, non-profit, studio, community and professional theatre organizations under supervision of a college instructor and is facilitated by the use of learning objectives. The student will be working in a skilled or professional level assignment in their area of vocational interest and will meet performance objectives related to instruction that are above and beyond the conditions of regular employment. This course is intended for students whose job is related to the field of theatre arts and have completed or enrolled in the appropriate coursework. Instructor approval is required to remain in the class. “Contact the CWE office regarding re-enrollment procedures.”  
Student Unpaid Internship:  
1 Unit/60 hours; 2 Units/120 hours; 3 Units/180 hours; 4 Units/240 hours  
Student Paid Internship:  
1 Unit/75 hours; 2 Units/150 hours; 3 Units/225 hours; 4 Units/300 hours.  
1 to 4 Units  
3 Lecture hours  
60 to 300 Other hours
**VOCABULARY**

Division of Communications & Languages

**VOCB 025**

Intermediate Vocabulary

*Advisory: READ 021 or appropriate assessment*

This course is intended for students who want to develop precollegiate-level reading, writing, and speaking vocabulary. Students will learn the meaning of new words commonly used in college textbooks and lectures, and they will use them in written and spoken sentences. Students will also gain knowledge of word roots to reinforce their understanding of words. This is a non-degree course and is offered on a pass/no pass basis.

3 Units
54 Lecture hours

**VOCB 101**

Vocabulary & Etymology

*Prerequisite: ENGL 035 or ENLA 100 or appropriate assessment; READ 022 or appropriate assessment*

Transfers to: CSU

This course offers the student an opportunity to develop a college level vocabulary. The course emphasizes an understanding of the etymology, definition, and usage of words so that students gain a comprehensive understanding of the meanings of words and how they are used. Additionally, students will study general and specialized terms used in courses across the curriculum. In order to internalize word meanings successfully, students will work in individual, small group, and whole class settings.

3 Units
54 Lecture hours

---

**VOCATIONAL NURSING**

Division of Health Sciences & Nursing

**VN 061**

Basic Fundamentals of Nursing

*Prerequisite: HS 060; PSY 101*

This course is designed for the entry level vocational nursing student with a focus on the nursing process and its application in medical/surgical settings. The role of the Licensed Vocational Nurse in providing care for patients in a variety of situations is discussed. This course is open to students enrolled in the Vocational Nursing program and is required for Vocational Nursing licensure.

3.5 Units
63 Lecture hours

**VN 061L**

Basic Fundamentals of Nursing Laboratory

*Prerequisite: HS 060; PSY 101*

*Corequisite: VN 061*

*Advisory: READ 023 or appropriate assessment*

This course is designed to provide the entry level vocational nursing student with the opportunity to learn basic nursing skills in the Health Science Skills laboratory and the clinical setting within the context of the nursing process. The student will apply the role of the Licensed Vocational Nurse in the clinical medical surgical setting. This course is open to students enrolled in the Vocational Nursing Program and is required for Vocational Nursing licensure. Offered on a pass/no pass basis.

5 Units
270 Lab hours

**VN 071L**

Introduction to Medical-Surgical Nursing Lab

*Prerequisite: VN 061 with a grade of “C” or better and VN 061L with a grade of “Pass”*

This course will provide the student with the opportunity to use the nursing process at a beginning level to care for patients in the clinical setting. The student will develop competency in data collection and basic nursing skills. Special emphasis will be placed on the care of the patient with problems of the endocrine, musculoskeletal and integumentary systems, as well as the older adult. This course is open to students enrolled in the Vocational Nursing Program and is required for Vocational Nursing licensure. Offered on a pass/no pass basis.

3.5 Units
189 Lab hours

**VN 072**

Intermediate Medical-Surgical Nursing Lab

*Prerequisite: VN 071L with a grade of “Pass”; VN 074 and VN 075 with a grade of “C” or better*

*Corequisite: VN 073*

This course will provide the student with the opportunity to use the nursing process with increasing independence in providing care for patients in the clinical setting. The student will increase competency in data collection and nursing skills. Special emphasis will be placed on the care of the patient with problems of the cardiovascular respiratory, gastrointestinal and renal systems. This course is open to students enrolled in the Vocational Nursing Program and is required for Vocational Nursing licensure. Offered on a pass/no pass basis.

3.5 Units
189 Lab hours

**VN 073**

Basic Pharmacology

*Prerequisite: VN 061 with a grade of “C” or better and VN 061L with a grade of “Pass”*

*Advisory: HS 045 and READ 023 or appropriate assessment*

This is an introductory course of basic techniques and computations used in the administration of medications. Completion of the course prepares the student to safely administer medications to patients under the supervision of the nursing instructor. This course is open to students enrolled in the Vocational Nursing Program and is required for the Vocational Nursing Licensure.

2 Units
36 Lecture hours

**VN 074**

Nursing Care of Patients with Integumentary/Orthopedic Problems and Concepts of Gerontology Nursing

*Prerequisite: VN 061 with a grade of “C” or better and VN 061L with a grade of “Pass”*

Using the Systems Developmental Stress Model, The Nursing Process, and Erikson’s Psycho-Social Theory of Human Development, this course is designed to prepare the vocational nursing student with the foundational knowledge necessary to care for the aging patient, and patients with disorders of the musculoskeletal and Integumentary systems. This course is open to students enrolled in the Vocational Nursing Program.

2.5 Units
45 Lecture hours

**VN 075**

Nursing Care of Patients with Endocrine Problems

*Prerequisite: VN 061 with a grade of “C” or better and VN 061L with a grade of “Pass”*

This course focuses on the use of the nursing process in caring for individuals with disturbances of the pancreas, thyroid, parathyroid, adrenal and pituitary glands. The pathophysiology, assessment data, nursing problems, medical and nursing interventions for patients with endocrine problems are discussed. This course is open to students enrolled in the Vocational Nursing Program and is required for Vocational Nursing licensure.

1 Unit
18 Lecture hours
VN 076 Nursing Care of Patients with Renal, Urinary and Gastrointestinal Problems  
Prerequisite: VN 071L with a grade of “Pass”; VN 074 and VN 075 with a grade of “C” or better  
Corequisite: VN 073  
This course focuses on the application of the nursing process in medical surgical situations for the patient with gastrointestinal and renal problems. Emphasis is placed on the application of principles of nutrition in caring for patients with gastrointestinal and renal dysfunction. This course is open to students enrolled in the Vocational Nursing Program and is required for Vocational Nurse licensure.  
3.5 Units  
63 Lecture hours

VN 077 Nursing Care of Patients with Cardiovascular and Respiratory Problems  
Prerequisite: VN 071L with a grade of “Pass”; VN 074 and VN 075 with a grade of “C” or better  
Corequisite: VN 073  
Using the Systems Developmental Stress Model, The Nursing Process, and Erickson’s Psycho-Social Theory of Human Development, this course is designed to prepare the vocational nursing student with the foundational knowledge necessary to care for patients with cardiovascular and respiratory disorders. This course is open to students enrolled in the Vocational Nursing Program.  
3 Units  
54 Lecture hours

VN 077L Maternal and Pediatric Nursing Lab  
Prerequisite: VN 072L with a grade of “Pass”; VN 073, VN 074, VN 075, VN 076 and VN 077 with a grade of “C” or better Corequisite: VN 084  
This course will provide the student with the opportunity to use the nursing process with increasing independence in proving care for patients in the clinical setting. The student will increase competency in data collection and nursing skills. Special emphasis will be placed on the care of the pediatric, antepartum, intrapartum, postpartum and newborn patient. This course is open to students enrolled in the Vocational Nursing Program and is required for Vocational Nurse licensure. Offered on a pass/no pass basis.  
2.5 Units  
135 Lab hours

VN 078  
This course will provide the student with the opportunity to apply learned leadership skills within the Vocational Nurse scope of practice. The student will utilize the nursing process with increasing independence and accountability in providing care for patients in the clinical setting. Special emphasis will be placed on the care of medical/surgical patients with complex problems, neurological system disorders and oncological problems. The student will have the opportunity to further develop the necessary communication skills needed to provide care for patients with mental health problems. This course is open to students enrolled in the Vocational Nursing Program and is required for Vocational Nurse licensure.  
3.5 Units  
189 Lab hours

VN 083 Applied Pharmacology  
Prerequisite: VN 073 with a grade of “C” or better  
Using the Systems Developmental Stress Model, The Nursing Process, and Erickson’s Psycho-Social Theory of Human Development, this course is designed to prepare the vocational nursing student with the advanced knowledge necessary to safely administer medications to patients and accurately assess the patient response to medication therapy under the supervision of the nursing instructor. This course is open to students enrolled in the Vocational Nursing Program.  
2 Units  
36 Lecture hours

VN 084 Maternal and Pediatric Nursing  
Prerequisite: VN 072L with a grade of “Pass”; VN 073, VN 074, VN 075, VN 076 and VN 077 with a grade of “C” or better Corequisite: VN 081L  
This course focuses on growth and development with concomitant problems traced from newborn through infancy, toddler, preschool, school-age and the adolescent. Nursing care appropriate to the developmental stage of the child and the focus of the pediatric problems including biological and psychological problems affecting the well and hospitalized child and family. This course is open to students enrolled in the Vocational Nursing Program and is required for the Vocational Nursing Licensure.  
4 Units  
72 Lecture hours

VN 085 Leadership & Supervision for the Vocational Nurse  
Prerequisite: VN 072L with a grade of “Pass”; VN 073, VN 074, VN 075, VN 076, and VN 077 with a grade of “C” or better  
This course will introduce principles of leadership, group dynamics, delegation, and effective communication in working relationships for the vocational nurse. Emphasis is placed on delegation and supervision of nursing assistants, other vocational nurses, and unlicensed assistive personnel. The course is open to students enrolled in the Vocational Nursing Program and is required for the Vocational Nurse licensure.  
0.5 Units  
9 Lecture hours

VN 086 Mental Health and Neurological Nursing Problems  
Prerequisite: VN 081L with a grade of “Pass” and VN 084 with a grade of “C” or better  
This course presents mental health concepts that relate to emotional issues influencing a patient’s well-being and problems related to the neurological system. Emphasis will be placed on the nursing process, as it relates to problems of neurological function and mental health. This course is open to those students enrolled in the Vocational Nursing Program and is required for Vocational Nursing licensure.  
3 Units  
54 Lecture hours

VN 087 Nursing Care of Patients with Cancer  
Prerequisite: VN 072L and VN 081L with a grade of “Pass”; VN 073, VN 074, VN 075, VN 076, VN 077 and VN 084 with a grade of “C” or better  
This course focuses on the application of the nursing process in medical-surgical situations for the patient with cancer diagnoses of various body systems and immune deficiency disorders. Emphasis is placed on the physical, psychological, and psychosocial effects of diagnosis, medical therapy, and nursing intervention with the application of principles of nutrition, pharmacokinetics, and palliative care in caring for patients with cancer. The course is open to students enrolled in the Vocational Nursing Program and is required for the Vocational Nurse licensure.  
1 Unit  
18 Lecture hours

WELDING  
Division of Career & Technical Education

WELD 040 Introduction to Welding Processes  
Advisory: ENGL 035 or ENLA 100 or
Basic Electric Arc Welding

WELD 045

Semi-Automatic Welding Processes

This course offers an overview and basic introduction to the theory and practice of a variety of welding and metal cutting methods. This course will emphasize safety, theory, procedure, and practical skill development.

2 Units

18 Lecture hours

54 Lab hours

WELD 045

Basic Electric Arc Welding

Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

This course is intended for the student who wants to progress to a basic level of welding processes and further their skills in manual and semi-automatic electric arc welding methods and techniques. This course emphasizes skills in Shielded Metal Arc Welding (SMAW), Gas Metal Arc Welding (GMAW), Flux Cored Arc Welding (FCAW), and Gas Tungsten Arc Welding (GTAW). The course also focuses on safety, theory, characteristics and settings for power supplies and welding units, electric current settings, electrode identification and selection, welding positions, and welding of ferrous and non-ferrous metals. Special emphasis will be placed on developing proficiency and speed for high-volume production applications.

2 Units

18 Lecture hours

54 Lab hours

WELD 050

Semi-Automatic Welding Processes

Prerequisite: WELD 040

Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

This course is intended for the student who wants to progress to an intermediate level of welding processes and further their skills in wire-fed, semi-automatic welding methods and techniques. This course emphasizes skills in Gas Metal Arc Welding (GMAW) and Flux Cored Arc Welding (FCAW). The course also focuses on safety, theory, characteristics and settings for power supplies and wire feeding units, electric current settings, electrode identification and selection, welding positions, and welding of ferrous and non-ferrous metals. Special emphasis will be placed on developing proficiency and speed for high-volume production applications.

4 Units

36 Lecture hours

108 Lab hours

WELD 055

Manual Electric Arc Welding Processes

Prerequisite: WELD 040

Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

This course is intended for the student who wants to progress to an intermediate level of welding processes and further their skills in manual electric arc welding methods and techniques. This course emphasizes skills in Shielded Metal Arc Welding (SMAW) and Gas Tungsten Arc Welding (GTAW). The course also focuses on safety, theory, characteristics and settings for power supplies and welding units, electric current settings, electrode identification and selection, welding positions, and welding of ferrous and non-ferrous metals. Special emphasis will be placed on developing proficiency and speed for high-volume production applications.

4 Units

36 Lecture hours

108 Lab hours

WELD 060

Production Welding Techniques

Advisory: READ 023 or appropriate assessment; WELD 045

This is an intermediate level course focused on welding techniques used in high-volume production manufacturing environments. Students gain proficiency using pulsed-arc and non-pulsed-arc GMAW and GTAW processes on carbon steel, stainless steel, and aluminum materials. Correct use of welding fixtures, positioners, and other auxiliary equipment are covered. Emphasis is placed on using shop safety in addition to developing proper working procedures.

4 Units

36 Lecture hours

108 Lab hours

WELD 065

Introduction to Gas Tungsten Arc Welding

Prerequisite: WELD 040

Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

This course introduces the principles and practices of gas tungsten arc welding (GTAW), including set-up/ use of GTAW equipment and safe use of tools and equipment. Instruction and practice is provided for gaining proficiency welding carbon steel, stainless steel, and aluminum weld joints in the flat and horizontal positions. Fundamentals of the GTAW process, correct consumables, equip-

108 Lab hours

WELD 070

Advanced Gas Tungsten Arc Welding

Prerequisite: WELD 065

Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

This course provides further advancement of knowledge and skills in gas tungsten arc welding (GTAW). Emphasis is placed on developing proficiency in welding carbon steel, stainless steel, and aluminum weld joints in the vertical and overhead position. This course exposes students to using positioners, welding fixtures, and tooling commonly used in the workplace. Preparation for welding certification is covered.

4 Units

36 Lecture hours

108 Lab hours

WELD 075

Certification Welding I

Prerequisite: WELD 055

Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

This course is intended for the student who wants to progress to an advanced level of welding processes and certification. This course offers specialized training and instruction which are necessary to take and pass the performance test portion of the City of Los Angeles Department of Building & Safety (LADBS) Certified Welder Examination. This course emphasizes specific skills in Shielded Metal Arc Welding (SMAW), Flux Cored Arc Welding (FCAW), and Gas Metal Arc Welding (GMAW) as it applies to Certification in Structural Steel, Light Gauge Steel, and Structural Aluminum. The course also focuses on safety, welding codes, test preparation, procedures, and destructive testing. Special emphasis will be placed on developing proficiency in order to successfully pass the LADBS exam. Re-enrollment may be allowed up to three times for certification or licensure standards, only by permit from the division.

4 Units

36 Lecture hours

108 Lab hours

WELD 080

Certification Welding II

Prerequisite: WELD 055

Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

This course is intended for the student who wants to progress to an advanced level of welding processes and...
and certification. This course offers specialized training and instruction which are necessary to take and pass the written test portion of the City of Los Angeles Department of Building & Safety (LADBS) Certified Welder Examination. This course emphasizes specific skills in Shielded Metal Arc Welding (SMAW), Flux Cored Arc Welding (FCAW), and Gas Metal Arc Welding (GMAW) as it applies to Certification in Structural Steel, Light Gage Steel, and Structural Aluminum. The course also focuses on safety, welding codes, test preparation, procedures, and destructive testing. Special emphasis will be placed on developing proficiency in order to successfully pass the LADBS exam. This course may be repeated once for certification or licensure standards, only by permit from the division.

3 Units
54 Lecture hours

WELD 085
Introduction to Metal Fabrication
Prerequisite: WELD 040; WELD 050; WELD 055; WELD 065
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

This is an introductory course that examines the theory and application aspects of metal fabrication. It covers the safe and effective use of metal fabricating equipment and tools to complete assigned projects. This course also includes hands-on instruction and practice in cutting, grinding, drilling, rolling, bending and welding tasks in accordance with supplied shop drawings.

3 Units
27 Lecture hours
81 Lab hours

WELD 299
Directed Study in Welding Technology
Prerequisite: 2.5 overall grade point average, a 3.0 grade point average in the discipline of study being requested, or receive an exception from the instructor
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment

Transfers to: CSU

This course provides an opportunity for the student to expand their studies in Welding Technology beyond the classroom by completing a project or an assignment arranged by an agreement between the student and instructor. The student is required to contract with the instructor to determine the scope of the assignment and the unit value assigned for successful completion. Students must possess a 2.5 overall GPA, a 3.0 GPA in the discipline of study being requested, or receive an exception from the instructor. Students may take a maximum of 3 units of Directed Study within a discipline and 9 units college-wide.

1 to 3 Units
54 to 162 Lab hours

WILDLAND FIRE TECHNOLOGY
Division of Public Safety

WFT 040
Firefighter Type 2 (S130)
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment

This course provides students seeking wildland training and certification at the Type 2 level. This course provides instruction in wildland fire behavior, hazard recognition, human factors in high-risk environments, basic incident command system, radio operations, and documentation. Classroom and field exercises will prepare the student for a position as a Firefighter Type 2 (FF2). This course meets the National Wildfire Coordinating Group’s (NWCG) requirements for S-130.

2 Units
32 Lecture hours
12 Lab hours

WFT 041
Firefighter Type 1 (S131)
Prerequisite: WFT 040
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment

This course prepares interested students with additional leadership and skill sets needed to make leadership and tactical decisions on wildland fire incidents. This course provides instruction in the Risk Management Process, fireline reference materials, portable fire pump operations, staging area standard operating procedures and practices. Classroom and field exercises will prepare the student for a position as a Firefighter Type 1 (FF1) as recognized by the National Wildfire Coordinating Group’s (NWCG).

2 Units
32 Lecture hours
12 Lab hours

WFT 044
Introduction to ICS (I100)
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment

This course provides first responders and other interested students an introduction to the Incident Command System (ICS-100). This course also provides a basic introduction to wildland fire management (S-110) and a basic working knowledge of the human performance concepts in dynamic and high-risk environments (L-180). This course meets the National Incident Management System (NIMS) and National Wildfire Coordinating Group (NWCG) National Standard Curriculum.

1 Unit
16 Lecture hours
16 Lab hours

WFT 045
ICS for Single Resources (I200)
Prerequisite: WFT 044 or ICS 100 certification from FEMA, NWCG or CSFM (CA State Fire Marshal)
This course is one in a series of core courses required for the Wildland Fire Technology Certificate of Achievement and Associate of Science Degree program. This course provides students with information necessary to understand occupational safety and hazards associated with wildland firefighting operations. Emphasis will be placed on situational awareness, protective measures, accident avoidance procedures, and the risk management process. Students will also review fire ground near misses, entrapments, and fatalities. This course meets or exceeds the National Wildfire Coordinating Group’s (NWCG) requirements.

3 Units

54 Lecture hours

WFT 103
Wildland Fire Operation (Ground Air)
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU

This course is one in a series of core courses required by the Wildland Fire Technology Certificate of Achievement and Associate of Science Degree program. This course provides students with information necessary to understand ground and air operations associated with wildland firefighting operations. Emphasis will be placed on incident command system use, strategy, tactics, hazards, resource typing, management, and safety procedures during wildland fire incidents. This course meets or exceeds the National Wildfire Coordinating Group’s (NWCG) requirements.

3 Units

54 Lecture hours

WFT 104
Wildland Fire Investigation, Prevention and Public Information
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU

This course is one in a series of core courses required by the Wildland Fire Technology Certificate of Achievement and Associate of Science Degree program. This course provides students with information and skills necessary to understand the roles and functions of the Public Information Officer (PIO), S-203, Fire Prevention Education Team Member (PETM, P-101), and the Wildland Fire Investigator (INVF, FI-110). Various wildland fire associated class projects will challenge the student’s public speaking, report writing, and presentation skills. This course meets or exceeds the National Wildfire Coordinating Group’s (NWCG) requirements.

3 Units

54 Lecture hours
WFT 105
Wildland Fire Logistics, Finance and Planning
Advisory: ENGL 030 or ENLA 034 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course is one in a series of core courses required by the Wildland Fire Technology Certificate of Achievement and Associate of Science Degree program. This course provides students with information necessary to understand the responsibilities and functions of the logistics, finance, and planning sections. Emphasis will be placed on how the different incident command system sections are organized and utilized during wildland fire incidents. This course meets or exceeds the National Wildfire Coordinating Group’s (NWCG) requirements.
3 Units
54 Lecture hours

WFT 290
Cooperative Work Experience/Internship for Wildland Fire Technology Related Fields
Advisory: ENGL 035 or ENLA 100 or appropriate assessment; READ 023 or appropriate assessment
Transfers to: CSU
This course supports and reinforces on-the-job training in the Wildland Fire Technology field under supervision of a college instructor and is facilitated by the use of learning objectives. The student will be working in a skilled or professional level assignment in the area of Wildland Fire Technology and will meet performance objectives related to instruction that are above and beyond the conditions of regular employment. This course is intended for students whose job is related to the field of fire technology and have completed or enrolled in the appropriate coursework. “Contact the CWE office regarding re-enrollment procedures.”
Student Unpaid Internship:
1 Unit/60 hours; 2 Units/120 hours; 3 Units/180 hours; 4 Units/240 hours
Student Paid Internship:
1 Unit/75 hours; 2 Units/150 hours; 3 Units/225 hours; 4 Units/300 hours.
1 to 4 Units
3 Lecture hours
60 to 300 Other hours
Non-Credit Courses

NBAS 004 General Academic Advisement
Courses designed to assist awareness of college programs and services and exercising good judgment in the selection of classes and an academic path. Topics can include basic skills assessment, campus life, academic and career choices, and other related subjects.
0 Units
18 Lecture hours

NBAS 005 Personal and Career Exploration
Courses to increase awareness of processes for personal and career growth. Intellectual, social, emotional, and physical development; personal values clarification; decision making; identification of needs and methods of satisfying; human sexuality and family life; and accepting and assuming responsibility for own behavior; and investigation into career and life planning alternatives can be explored. Included can be diagnostic testing, survey of interests, and capabilities, and development of positive self-image through group interaction.
0 Units
18 Lecture hours

NBAS 008 Personal Learning Skills/Basic Skills
This course assists the student to become more effective and efficient in developing skills and knowledge necessary to function in a work setting. Skills may include psychomotor skills, communication skills and computer software skills. Opportunities to develop critical thinking skills in simulated situations are provided. The student may use computer assisted instructional programs, word processing, equipment related to the work setting, audiovisual materials and computer software to meet program objectives. Faculty and peers will provide tutoring services and assist students in completing assignments.
0 Units
120 Lecture hours

NBAS 009 Supervised Tutoring in College Courses
This course provides students with the tools needed to excel in their courses. Trained tutors individually help students attain higher levels of comprehension and competency by providing supplemental instruction for pre-approved subjects. Workshops enhance student learning. This course is open-entry/open-exit.
0 Units
1 to 180 Lab hours

NBAS 010 Supervised Tutoring in Mathematics
Trained tutors will individually help students who need assistance in attaining comprehension and competency in mathematical learning skills. This course is designed to supplement the instruction in mathematics courses and other courses with mathematical content. This course is open-entry/open-exit.
0 Units
1 to 180 Lab hours

NBAS 014 Review of Integrated Math I Part A
This course is a review of the first half of Integrated Math I. It is mainly a self-paced, software-based independent study program which permits a high school student to retake the first semester of Integrated Math I, for the purpose of making up credit and/or improving their grade from a prior attempt at the course, but may involve individualized and/or small group instruction as needed. Students wishing to enroll in this course will need consent from a high school counselor and consent from a parent. The course covers the Common Core State Standards domains of Algebra, portions of Functions, and portions of Number and Quantity.
0 Units
22 to 100 Lecture hours

NBAS 015 Review of Integrated Math I Part B
This course is a review of the second half of Integrated Math I. It is mainly a self-paced, software-based independent study program which permits a high school student to retake the second semester of Integrated Math I, for the purpose of making up credit and/or improving their grade from a prior attempt at the course, but may involve individualized and/or small group instruction as needed. Students wishing to enroll in this course will need consent from a high school counselor and consent from a parent. The course covers the Common Core State Standards domains of Geometry, Statistics and Probability, portions of Number and Quantity, and portions of Functions.
0 Units
22 to 100 Lecture hours

NBAS 016 Review of Integrated Math II Part A
This course is a review of the first half of Integrated Math II. It is mainly a self-paced, software-based independent study program which permits a high school student to retake the first semester of Integrated Math II, for the purpose of making up credit and/or improving their grade from a prior attempt at the course, but may involve individualized and/or small group instruction as needed. Students wishing to enroll in this course will need consent from a high school counselor and consent from a parent. The course covers the Common Core State Standards domains of Algebra, portions of Functions, and portions of Number and Quantity.
0 Units
22 to 100 Lecture hours

NBAS 017 Review of Integrated Math II Part B
This course is a review of the second half of Integrated Math II. It is mainly a self-paced, software-based independent study program which permits a high school student to retake the second semester of Integrated Math II, for the purpose of making up credit and/or improving their grade from a prior attempt at the course, but may involve individualized and/or small group instruction as needed. Students wishing to enroll in this course will need consent from a high school counselor and consent from a parent. The course covers the Common Core State Standards domains of Geometry, Statistics and Probability, portions of Number and Quantity, and portions of Functions.
0 Units
22 to 100 Lecture hours

NBAS 018 Review of Integrated Math III Part A
This course is a review of the first half of Integrated Math III. It is mainly a self-paced, software-based independent study program which permits a high school student to retake the first semester of Integrated Math III, for the purpose of making up credit and/or improving their grade from a prior attempt at the course, but may involve individualized and/or small group instruction as needed. Students
The course covers the Common Core State Standards domains of Algebra, and portions of Functions.
0 Units
22 to 100 Lecture hours

NBAS 022
Review of Geometry Part A
This course is a review of the first half of Geometry. It is mainly a self-paced, software-based independent study program which permits a high school student to retake the second semester of Integrated Math III, for the purpose of making up credit and/or improving their grade from a prior attempt at the course, but may involve individualized and/or small group instruction as needed. Students wishing to enroll in this course will need consent from a high school counselor and consent from a parent. The course covers the Common Core State Standards domains of Number and Quantity, Geometry, Statistics and Probability, and portions of Functions.
0 Units
22 to 100 Lecture hours

NBAS 023
Review of Geometry Part B
This course is a review of the second half of Geometry. It is mainly a self-paced, software-based independent study program which permits a high school student to retake the second semester of Geometry, for the purpose of making up credit and/or improving their grade from a prior attempt at the course, but may involve individualized and/or small group instruction as needed. Students wishing to enroll in this course will need consent from a high school counselor and consent from a parent. The course covers the Common Core State Standards domains of Number and Quantity, Geometry, Statistics and Probability, and portions of Functions.
0 Units
22 to 100 Lecture hours

NCHS 001
Health and Fitness
This is an open-entry, open-exit course to develop and enhance a student's knowledge of the importance of healthy lifestyles and to further develop skills which will facilitate a personal fitness program. Student's will also participate in specific activities that develop an individual's level of physical fitness.
0 Units
1 to 54 Lab hours

NCHS 002
Beginning Jujitsu: Self Defense for Adults
This course is designed to teach the basic skills of self-defense. Students will be taught skills related to coordination, quick reflex response, how to build stamina, speed, and strength. They will learn all phases of punches, blocks, kicks, hand releases and breaks, two-step fighting, judo and jujitsu falls. Students will practice strategies of protecting themselves from attackers.
0 Units
48 Lecture hours

NCTIT 002
Citizenship Preparation
This course will guide persons seeking United States Citizenship in the steps required to become a citizen. Students will prepare to take the citizenship examination and will
NCOA 001  
Painting for Older Adults  
This course offers the older adult an individual approach to painting and creative arts. Topics can include art appreciation and art history; awareness of line, color, shape and form; techniques in drawing and progression through color mixing and canvas painting. Creativity and general art knowledge will be taught in a friendly and relaxed environment allowing each artist to work at their own pace.  
0 Units  
1 to 48 Lecture hours

NCOA 002  
Music Workshop for the Third Age  
Courses for instrumental and vocal musical experiences. Included can be rehearsals and performances in cooperation with the Rio Hondo Chapter of Sweet Adelines; other local choral and/or singing groups; and instruction in learning to play a musical instrument.  
0 Units  
1 Lecture hours  
1 Lab hours

NCOA 007  
Chorus Singing for the Older Adult  
This course introduces older adult students to a variety of choral music and explores its cultural and historical aspects. Students will gain knowledge of posture, vowel modification, elements of phrasing and harmony. Students will perform vocal exercises and practice breathing techniques appropriate for the older adult.  
0 Units  
1 to 48 Lecture hours

NCOA 008  
Computers Unlimited for Older Adults  
This course is designed for the older adult who thinks he or she will never learn to use a computer. Students will build basic skills that will prepare them to write documents, send e-mail, use online banking or simply enjoy surfing the Internet. Mastery of the basic skills will let you grow from simple accomplishments to things you never dreamed possible. Our gentle, easy approach will show you the many ways that computers can be fun and interesting.  
0 Units  
8 to 20 Lecture hours  
8 to 20 Lab hours

NCOA 010  
Hatha Yoga for Older Adults  
This class uses active and passive movements which are adapted for older adults. Movements include stretching, relaxation, and breathing exercises. Students will learn repetitive skill building, weight bearing poses and become familiar with working together in rhythm.  
0 Units  
8 to 24 Lecture hours

NCOA 012  
Physical Fitness for the Older Adult  
This physical fitness class is designed for the older adult and offers instruction in movement to maintain and increase range of motion, build muscle strength, maintain coordination, flexibility and balance. Class topics include discussions on nutrition, the effects of aging, safety factors and memory skills.  
0 Units  
1 to 48 Lecture hours

NCOA 013  
Current Topics for Older Adults  
This course presents older adults with various topics for discussion and class activities based on the student’s individual interests and backgrounds. Older adults will explore international, national and local events and issues from a current and historical viewpoint.  
0 Units  
1 to 24 Lecture hours

NCOA 014  
Tai Chi Chuan for Older Adults  
This course introduces older adults to a Chinese health exercise which is neither vigorous nor strenuous. It is suitable for older adults who want to exercise to gain or maintain good health. It will strengthen the muscles and organs, relax the mind and body, improve blood circulation, and increase memory and concentration.  
0 Units  
1 to 24 Lecture hours

NCOA 015  
Creative Writing for Older Adults  
This course is for older adults and teaches both beginning and experienced writers how to create and shape autobiographies, fiction, non-fiction and poetry into readable and publishable forms. Participants will put their experiences on paper and analyze quality, selection and structure of written materials through group discussion and projects.  
0 Units  
1 to 24 Lecture hours

NESL 001  
English as a Second Language  
Entry level courses designed to provide instruction in basic skills in English and related subjects. Speaking, listening, reading, writing and comprehension skills included.  
0 Units  
1 to 72 Lecture hours

NESL 015  
ESL Beginning  
This is a competency-based course that focuses on basic verbal communication within routine situations common in everyday life within an English-speaking setting. Emphasis is on communication within school, work, and community domains. Successful completion of this course will prepare students to enter NESL 016. This course is designed for language learners at levels below Rio Hondo College’s Credit ESL Program.  
0 Units  
58.7 Lecture hours

NESL 016  
ESL Intermediate Low  
Prerequisite: ESL 015 or equivalent placement  
This is a competency-based course that focuses on expanded verbal communication within routine situations common in English-speaking environments. Emphasis is on communication within school, work, and community domains combined with the introduction of academic English. Successful completion of this course will prepare students to enter NESL 017. This course is designed for language learners at levels below Rio Hondo College’s Credit ESL Program.  
0 Units  
58.7 Lecture hours

NESL 017  
ESL Intermediate High  
Prerequisite: ESL 016 or equivalent placement  
This is a competency-based course that builds upon the skills learned in NESL 016 and prepares English learners to comprehend and communicate in written and spoken English for a variety of audiences and purposes. Successful completion of this course will prepare students to enter NESL 018. This course is designed for learners at levels below Rio Hondo College’s Credit Program.  
0 Units  
58.7 Lecture hours
NGBD 101
Green Building Basics & LEED
The course offers an introduction to USGBC, green building principles and the fundamentals of the LEED Rating System. It includes topics on climate change and building impacts; motivators for green building; and integrative versus conventional approaches – and the associated ben-

NVOC 005
Theatre Production Workshop
This course will introduce students to all aspects of preparing for and presenting a full theater production. Topics covered will include technical set-up of the stage, the dress rehearsal, pre-show preparation, techniques for striking the set and the special needs of a traveling show.
0 Units
18 Lecture hours

NVOC 008
Fundamentals of Law Enforcement/Individual Study
This course is designed to provide law enforcement students or those involved in a related public service subject to expand on their knowledge in the major points of law enforcement. Topics include history and general development of law enforcement, ethical and moral standards, California law, and other related issues. Students will receive individualized instruction tailored to their plan of study.
0 Units
1 to 500 Lab hours

NVOC 014
College Community Orchestra
This is an ongoing program designed for preparation for employment as musicians. Participants may perform with a symphony orchestra such as Rio Hondo Community College.
0 Units
1 to 5 Lecture hours

NVOC 015
Practical Experience in Fire Suppression
This course is designed to provide fire technology students or those involved in a related fire science subject to expand on their knowledge in the major points of fire service. Topics include the traditions of the fire service, general development of a firefighter, ethical and moral standards, and other related issues pertaining to the fire service. Students will receive individualized instruction tailored to their personal plan of study.
0 Units
1 to 500 Lab hours

References:
The information provided is from Rio Hondo College's Credit ESL Program. It includes an introduction to LEED, green building principles and the fundamentals of the LEED Rating System. The course offers an overview of what is expected of an effective supervisor and what skills are required to successfully perform in that capacity. Real-life business situations are discussed and evaluated. Students take knowledge gained back to their respective work venues and conversely bring examples to the class for discussion.
0 Units
18 Lecture hours
NVOC 031
First Aid and CPR
This course teaches skills with the AHA’s research-proven practice-while-watching technique. The course is designed to teach students critical skills needed to respond to and manage an emergency until emergency medical services arrives. Skills covered in this course include first aid; choking relief in adults, children, and infants; and what to do for sudden cardiac arrest in adults, children, and infants. This course is for anyone with limited or no medical training who needs a course completion card in CPR and AED use to meet job, regulatory, or other requirements.
0 Units
8 Lecture hours

NVOC 032
American Heart Association CPR BLS
This course is taught by AHA Instructors and meets the requirements for most nursing programs and clinical facilities. This course teaches both single-rescuer and team basic life support skills for application in both prehospital and in-facility environments, with a focus on High-Quality CPR and team dynamics. Basic Life Support training reinforces healthcare professionals’ understanding of the importance of early CPR and defibrillation, basic steps of performing CPR, relieving choking, and using an AED; and the role of each link in the Chain of Survival.
0 Units
4 Lecture hours
0 Lab hours

NVOC 033
Real Estate Practice
This class is an introduction to professional aspects of the real estate business. Topics include agency responsibilities for the salesperson and the broker, office management, how to list and prospect property, selling and marketing techniques, advertising, financing, escrow and closing procedures. Students will acquire a general understanding of fields related to real estate such as finance, appraisal, escrow, and investing. The class will detail the areas necessary to conduct a modern real estate brokerage business. This course is approved by the California Department of Real Estate as one of the required courses for the State Sanctioned Conditional Real Estate Sales Persons License.
0 Units
1 to 48 Lecture hours

NVOC 034
Nurse Assistant Pre-Certification
Corequisite: NVOC 040L
This is an entry-level nursing course. This course meets Title 22 regulations for taking care of the geriatric population in a long-term care setting, including skills in basic care, emergency care and communication. The Nurse Assistant Pre-Certification course consists of 72 hours of classroom instruction. This course prepares the student to take the California State Certification Exam to become a Certified Nurse Assistant (CNA). After obtaining the state certification, the student may find employment in the acute care and/or long-term care settings. The California Department of Public Health requires that students must be concurrently enrolled in both
NVOC 050 and NVOC 050L, and pass both courses together. They cannot be taken individually.

0 Units
72 Lecture hours

NVOC 050L
Nurse Assistant Pre-Certification Lab

Corequisite: NVOC 050
This course is designed for students who have expressed an interest in an entry-level nursing course. This course meets Title 22 regulations for taking care of the geriatric population in a long-term care setting, utilizing skills in basic care, emergency care and communication. The Nurse Assistant Pre-Certification training course lab consists of 135 hours of supervised clinical practice in long-term facilities. This course prepares the student to take the California State Certification Exam to become a Certified Nurse Assistant (CNA). After obtaining the state certification, the student may find employment in the acute care and/or long-term care settings. The California Department of Public Health requires that students must be concurrently enrolled in both NVOC 050 and NVOC 050L, and pass both courses together. They cannot be taken individually.

0 Units
0 Lecture hours
135 Lab hours

NVOC 051
CNA Acute Care Training Course

Prerequisite: Nurse Assistant Pre-Certification Training Course/California State Certification
This course is designed for students who are Certified Nurse Assistants and wish to learn the basic nursing skills and duties in the acute care setting with additional emphasis on the specialized acute care areas such as medical/surgical, orthopedics, pediatrics and obstetrics. The Certified Nurse Assistant Acute Care course lab consists of 54 hours of supervised clinical practice in an acute care facility. This course includes communication, patient observation, reporting and recording training, as well as reinforcement of Certified Nurse Assistant basic care procedures.

0 Units
0 Lecture hours
54 Lab hours

NVOC 052
Home Health Aide Training Course

Prerequisite: Nurse Assistant Pre-Certification Training Course/California State Certification
This course is designed for students who are Certified Nurse Assistants who wish to learn how to provide personal care in the home care setting for those who are unable to do it for themselves and/or promote the recovery, safety and comfort of the patient. Additional emphasis on rehabilitative nursing care, family relationships and the impact of long-term illness on the family as well as the client will be included. The Home Health Aide training course consists of 27 hours of classroom instruction. This course meets Title 22 regulations for Home Health Aides training programs. The California Department of Public Health requires that students must be concurrently enrolled in both NVOC 052 and NVOC 052L, and pass both courses together. They cannot be taken individually.

0 Units
27 Lecture hours
0 Lab hours

NVOC 052L
Home Health Aide Training Course- Lab

Prerequisite: Nurse Assistant Pre-Certification Training Course/California State Certification
This course is designed for students who are Certified Nurse Assistants that wish to learn how to provide personal care in the home care setting for those who are unable to do it for themselves and/or promote the recovery, safety and comfort of the patient. Additional emphasis on rehabilitative nursing care, family relationships and the impact of long-term illness on the family as well as the client will be included. The Home Health Aide training course lab consists of 54 hours of supervised clinical practice in either the Acute Care or Skilled Nursing facility. This course meets the Title 22 regulations for Home Health Aides training programs.

The California Department of Public Health requires that students must be concurrently enrolled in both NVOC 052 and NVOC 052L, and pass both courses together. They cannot be taken individually.

NVOC 059
Introduction to Welding Processes

This is an introductory class designed to familiarize the student with several welding processes that are currently used in the welding and metal fabrication industry. This course offers an overview and basic introduction to the theory and practice of a variety of welding and metal cutting methods. This course will emphasize safety, theory, procedure, and practical skill development.

0 Units
1 to 18 Lecture hours
1 to 54 Lab hours

NVOC 060
Semi-Automatic Welding Processes

This is an intermediate level course designed to introduce students to wire-fed, semi-automatic welding processes for mass-production welding applications, i.e. Gas Metal Arc Welding (GMAW), Flux Cored Arc Welding (FCAW), and Submerged Arc Welding (SAW). This course emphasizes safety, theory, characteristics and settings for power supplies and wire feeding units, electric current settings, electrode identification and selection, welding positions, and welding of ferrous and non-ferrous metals. Special emphasis will be placed on developing proficiency and speed for high volume production applications.

0 Units
1 to 18 Lecture hours
1 to 54 Lab hours

NVOC 061
Production Welding Techniques

This is an intermediate level course designed to introduce the student to welding techniques used in high volume production manufacturing applications. This class will focus on GMAW and GTAW for mild steel, stainless steel aluminum, and will include pulsed-arc applications for both processes. In addition, the student will be introduced to welding fixtures, welding positioners and other auxiliary welding equipment. Emphasis will be placed on shop safety and on developing proper working procedures.

0 Units
1 to 36 Lecture hours
1 to 108 Lab hours
NVOC 062
Introduction to Fabrication Processes
This is a beginning level course designed to introduce students to various techniques, processes and technologies used in the fabrication industry. This course will develop skills necessary for translating dimensional information from a shop drawing or blueprint to metallic materials used for production of finished parts and assemblies. Topics covered in this class will include basic blueprint reading, measurement and measuring tools, layout, metal cutting, drilling and tapping, and metal forming. Emphasis will be placed on shop safety and safe and proper use of equipment, tools and materials.
0 Units
1 to 18 Lecture hours
1 to 54 Lab hours

NVOC 063
Intermediate Fabrication Processes
This course is designed to broaden the students' skills and knowledge of metal fabrication techniques. This course will introduce students to basic hand tools and power tools commonly used in the metal fabrication industry. Topics covered in this class will include structural fabrication, tube bending, stair layout and construction, and fabrication of components from sheet metal. Emphasis will be placed on shop safety and on developing proper working procedures.
0 Units
1 to 18 Lecture hours
1 to 54 Lab hours

NVOC 100
Basic Computer Skills Workshop for Healthcare Professionals
This course offers basic skills needed to perform tasks on computers and online. As the mandate for electronic medical records is implemented, incumbent medical workers will need to learn these basic computer skills to maintain their employment. Topics include computer hardware, operating systems, cloud computing, office software applications, security and ethical use of electronic data.
0 Units
8 Lecture hours
8 Lab hours

NVOC 1011
Orientation/Safety
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the general trade safety within the carpentry industry. Course topics will include: introduction to the carpenter's apprentice program, hand tool safety, power tool safety, math, beginning blueprint reading and layouts, trade history and job-site safety.
0 Units
20 Lecture hours
20 Lab hours

NVOC 1012
Health/Safety
This course is designed to meet the needs of Indentured Apprentices with the State of California who are interested in the general trade safety field within the carpentry industry. Course topics will include: Health and Safety Certifications, job safety, fall protection, powder actuated tools, confined space entry, scaffold training, rigging training, aerial lifter training, and OSHA training. Certification can be earned in forklift, scaffold, American Red Cross/CPR and Ramset/Redhead low velocity powder actuated tools.
0 Units
112 Lecture hours
112 Lab hours

NVOC 138
Engineering Careers & Applications
This course is for all students interested in the career field of Engineering Design Drafting. Engineering Careers and Applications will explore the career opportunities and training requirements in the field of engineering and engineering technology. Topics will include the history of engineering, careers in engineering, ethics and responsibilities of the engineer, communicating and problem solving.
0 Units
27 Lecture hours
36 Lab hours

NVOC 140
Civil Drafting Fundamentals
This course is for all students interested in the career field of Civil Design Drafting and Civil Engineering. The course is study of civil design drafting practices and the preparation of drawings used in the civil engineering field. Students will use Computer Aided Drafting (CADD) software to complete projects relating to interpretation of survey data, profiles and cross sections, land subdivision, site and grading plans, underground utilities and structures, concrete and structural detailing.
0 Units
36 Lecture hours
72 Lab hours

NVOC 150
AutoCAD for Basic CADD Applications
This course is for students preparing for high technology careers who need the skills necessary to function as an entry level CADD operator or to apply CADD to specific disciplines of mechanical and architectural design, manufacturing, illustration and engineering related documents. An overview of computer graphics and CADD (Computer Assisted Design and Drawing) utilizing the latest release of AutoCAD software will be provided. Students will produce 2D orthographic, isometric, and basic 3D models solutions of mechanical and architectural applications.
0 Units
54 Lecture hours
54 Lab hours

NVOC 170
MicroStation for Basic CADD Applications
This course is for students preparing for high technology careers who need the skills necessary to function as an entry level CADD operator or to apply CADD to specific disciplines of mechanical and architectural design, manufacturing, illustration and engineering related documents. An overview of computer graphics and CADD (Computer Assisted Design and Drawing) utilizing the latest release of MicroStation software will be provided. Students will produce 2D orthographic, isometric, and basic 3D models solutions of mechanical and architectural applications.
0 Units
54 Lecture hours
54 Lab hours

NVOC 200
Intermediate AutoCAD for Design and Production
This course is for students pursuing degrees or certificates in the Architecture and Engineering Design Drafting Program and for those who wish to enhance their AutoCAD skills for workplace productivity. The course is an intermediate application study in computer aided design, drafting, and graphics using the latest revisions of AutoCAD. Combined with previously learned technical drafting conventions and basic AutoCAD operational skills, students will use AutoCAD to produce detailed drawings that involve model-space and paper-space, 2D and 3D objects, block attributes and viewport scales. Emphasis will be placed on working with multiple drawing files using external files to create mechanical, architectural and civil projects.
0 Units
45 Lecture hours
54 Lab hours

NVOC 241
Civil Engineering Drafting & Design
This course is for all students interested in the career field of Civil Design Drafting and Civil Engineering. Civil Drafting and Design is an
intermediate level class in which the practices and the preparation of drawings, pertaining to the civil engineering field, will be expanded to include the development of maps and drawings used for transportation, site development, grading and drainage and road alignment. The student will use Computer Aided Drafting (CADD) to complete the above mentioned projects. Other topics to be covered will include specifications, site details for utilities and underground piping, structural plans and integration of Geographic Information Systems (GIS).

0 Units
36 Lecture hours
72 Lab hours

NVOC 245
Civil Engineering Design & Modeling
This course is for all students interested in the career field of Civil Design Drafting and Civil Engineering. Civil Design & Modeling is an advanced level class which includes design analysis and the preparation of drawings used in the civil engineering field. The student will use civil engineering software, such as InRoads and Land Desktop to design, analyze and develop projects relating to transportation, site development, grading, drainage and road alignment and alternatives. Other topics to be covered are terrain modeling, surface editing, alignment editing, plan, profile, cross-sections, earthwork computations and site planning design.

0 Units
36 Lecture hours
72 Lab hours

NVOC 250
Parametric Modeling 3D Applications for Mechanical Design
This course presents advanced applications of 2D and 3D Computer Aided Design Drafting (CADD) and an introduction to parametric modeling and rapid prototyping utilizing the latest releases of Autodesk Inventor series, SolidWorks, and other parametric modeling software to produce solutions for mechanical applications. Topics covered will benefit all students in areas of study related to Engineering, Drafting, Design and Computer Graphics. Course emphasis is given to CADD generated three dimensional graphics using wire frame, surface modeling, and parametric solids. This course may be taken once for credit towards Intermediate level classes and will benefit all students in areas of study related to site development, grading, drainage and road alignment.

NVOC 260
Advanced Architecture Using Revit and 3D Software
This course is for students pursuing an advanced study of BIM (Building Information Modeling) applications as they relate to architecture and the AEC industry (Architecture, Engineering, Construction). Utilizing the latest releases of 3D design software such as Revit and AutoCAD Architecture and previously learned technical and architectural drafting conventions, students will produce two and three dimensional BIM generated architectural drawings and 3D virtual models. This course benefits all students studying Architecture, Civil, Engineering of all types, Drafting, Design and Computer Graphics. High technology skills which are necessary to function as a designer or CADD Drafter are emphasized.

NVOC 261
Revit for Advanced BIM Architectural, Structural and MEP Applications
Advanced BIM (Building Information Modeling) applications extends the fundamentals of the Arch 260 class to include Structural, Mechanical, Electrical and Plumbing extensions of the Autodesk Revit Building software. Students will work on both group and individual projects to create and present three-dimensional representation of architectural solutions. Students will also learn the basic process and workflow in creation of Revit Families for use in building models.

NVOC 265
Pressure Piping Design
This course is for those students with CAD experience who are interested in the career field of pressure piping design engineering. This course presents the preparation of engineering detail drawings of piping systems for commercial, utilities and industrial plants. Included is information and work dealing with the location, installation, operation, and maintenance of pumps, steam turbines, compressors, tanks, heaters, coolers, cooling towers, condenser, reactors, boilers, chillers, heat exchangers and special equipment.

72 Lab hours

NVOC 266
Pressure Piping Applications
This course is for all students with a basic piping design understanding interested in the career field of pressure piping design engineering. This course presents the advanced preparation of engineering detail drawings of piping systems for commercial, utilities and industrial plants. Included is advanced information and layout work dealing with the location, installation, operation of pumps, steam turbines, compressors, vertical vessels, horizontal vessels, tanks, heaters, coolers, cooling towers, condenser, reactors, boilers, chillers, heat exchangers and special equipment.

NVOC 270
SolidWorks for 3D Modeling and Prototype Applications
This course presents an intensive study in 3D computer graphics and CADD (Computer Assisted Design and Drafting) utilizing the latest release of SolidWorks Software. This course benefits all students in areas of study related to Engineering, Drafting, Design and Computer Graphics. Students will produce three dimensional parametric computer generated virtual models incorporating mechanical design refinements. The course emphasizes high technology skills which are necessary to function as a design professional to apply 3D design graphics technology to specific disciplines of mechanical engineering, machine drafting and design, manufacturing, animation, modeling and illustration. Students will be introduced to a variety of means to directly produce prototype models from CADD generated solid geometry.

0 Units

54 Lab hours

NVOC 280
Advanced MicroStation for CADD & BIM Applications
This course is for students pursuing an advanced study in MicroStation 3D parametric CADD (Computer Assisted Design and Drafting) and the BIM (Building Information Modeling) approach to building design using Bentley Architecture. Students will apply previously learned drafting conventions to produce two and three dimensional CADD and BIM generated mechanical and architectural drawings and virtual design models. This course benefits all students studying Architecture, Civil, Engineering of all types, Drafting, Design and Computer Graphics.
High technology skills which are necessary to function as a designer or CADD Drafter are emphasized.

NVOC 285
Graphic Design Skills Development
This course complements the GDSN lab and lecture courses and is designed to provide an additional opportunity for students to practice concepts covered in the lab and lecture courses and enhance their Graphic Design work in preparation of their portfolios. These instructional activities are not available in the regular lecture/lab courses and are not required for the grade in the courses. It is recommended for students who have previously or are currently enrolled in any Rio Hondo College Graphic Design course with a prefix of ART or GDSN.

Services (PASS) Program
A.A., Cypress College, B.A., M.A.,
California State University, Fullerton
Martinez, Maria Elena  
Interim Director, Grant Development and Management  
B.A., University of California, Los Angeles; M.A., California State University, Los Angeles

Martinez, Maria Lea  
Interim Project Manager, Teacher Preparation Pipeline and Pathway (TPPP)  
B.A., De La Salle University, M.A., California State University, Fullerton

Matsui, Mark  
Director, Disabled Students Programs and Services  
B.A., San Jose State University; M.S., California State University, Los Angeles

Noble, Bruce  
Grant Manager, Deputy Sector Navigator  
MBA, Pepperdine University

Paez, Yicel  
Interim Grant Manager, CalSOAP  
B.A., University of California, Berkeley; M.P.A., University of La Verne

Phillips, Shaina  
Director, Student Life and Leadership  
B.A., Occidental College; M.S., California State University, Northridge

Retana, Ruthie  
Director, Marketing and Communications  
B.A., University of California, Los Angeles; M.T.S., Harvard Divinity School

Rocha, Cecilia  
Grant Manager, Student Equity  
B.A., University of California, Irvine; M.A., Azusa Pacific University

Sarao, Felix  
Director, Contract Management & Vending Services  
B.A., De La Salle University; M.B.A., American Graduate University

Suarez, Francisco  
Project Manager, SSSP, Non-Credit/Adult Education Consortium  
A.A., Santa Ana College; B.S., California State University, Fullerton; M.A., Chapman University

Unger, Leigh A.  
Director, Admissions and Records  
B.A., M.B.A., Concordia University

Van Voorhis, Gary  
Director, Information/Technology Services  
B.A., University of Denver
13 Faculty

A

Accardo, Frank
Instructor of Music
B.M., Berklee College of Music; M.M., California State University, Northridge

Acevedo, Lisette
Assistant Professor of Speech/Forensics
B.A., University of Southern California; M.A., California State University, Northridge

Acuna-Hansen, Chris
Associate Professor of Photography
B.F.A., California State University, Fullerton; M.F.A., California Institute of the Arts

Alvarado, Delmis
SSSP General Counselor
A.A., Santa Ana College; B.A., California State University, Fullerton; M.S., California State University, Long Beach

Alvarado, Guadalupe
Counselor/Professor
A.A., Compton College; B.A., California State University, Long Beach; M.S., University of LaVerne

Archambault, Alan
Associate Professor of Mathematics
A.A., Long Beach City College
B.S., University of California, Los Angeles; M.S., California State University, East Bay

Arroyo, Jose
Assistant Professor/DSPS Counselor
B.A., Michigan State University; M.A., San Diego State University

Ayala, Armando
Professor of Kinesiology
A.A., Rio Hondo College; B.S., Loma Linda University

B

Babou, Robin
Librarian
B.A., California State University
Long Beach; M.L.S., San Jose State University

Balch, David
Professor of Administration of Justice
B.S., California State University, Los Angeles; M.B.A., Pepperdine University; Ph.D., United States International University

Barman, Kevin
Instructor of Human Services
B.A., M.S., California State University, Dominguez Hills; M.A., California State University, Los Angeles

Bean, Michelle
Associate Professor of English
B.A., Whittier College; M.A., California State University, Fullerton

Bell, Sharon
Associate Professor of Reading
B.A., Brooklyn College; M.A., Hunter College; Ph.D., Fordham University

Bethel, Robert
Professor of Biology
B.S., M.S., University of California, Davis; M.A., California State University, Long Beach

Biesemeyer, Gail
Professor of Health Science
B.S.N., Loyola University; M.S.N., Azusa Pacific University

Blackmun III, Eugene
Professor of Business Management
A.A., Cerritos College; B.S., Brigham Young University; M.B.A., California State University, Fullerton

Botello, Robert
Instructor of Mathematics
B.S. Stanford University, M.S., California State University, Los Angeles

Bowen, James
Assistant Professor of French
M.A., California State University, Long Beach

Boyd, Pamela
Professor of Nursing
A.A., Pasadena City College; B.S.N., California State University, Fullerton; M.S.N., University of Phoenix

Brandt, Katherin
Associate Professor of Nursing
B.S.N., California State University, Los Angeles; M.S.N., California State University, Dominguez Hills

Bronkar, Ryan
Associate Professor of Mathematics
A.A., Fullerton College; B.A., M.A., University of California, Los Angeles

Brown, Ada Pullini
Associate Professor of Painting and Drawing
B.A., Queens College; M.F.A., University of Houston

Brutlag, Brian T.
Assistant Professor of Sociology
A.S., Waubonsee Community College; B.A., University of Illinois at Springfield; M.A., Northern Illinois University

C

Callinan, Thomas
Associate Professor of English
M.A., California State University, Long Beach

Camacho, Tammy
EOPS/CARE Counselor
B.A., California State University, Fullerton; M.S., University of La Verne

Carey, Ryan
Instructor of Fire Technology
B.S., Waldorf College; M.S., Grand Canyon University

Carrera, Wendy
Instructor of Journalism and Mass Media
A.A., Rio Hondo College; B.A., Chapman University; M.A., Whittier College

Cartagena, Alyson
Professor of Dance/Yoga/Pilates
B.F.A., Florida State University; M.F.A., University of California, Irvine; CLMA, Loyola Marymount; Ed.D., Brandman University
Castaneda, Arely  
Veterans Services Counselor/Coordinator  
A.A., Rio Hondo College; B.S., M.S., University of La Verne

Cha, Janet  
Accounting Instructor  
B.A., Wheaton College; M.A.S., Northern Illinois University; M.S.A., Marquette University

Chavez, Vanessa  
SSSP General Counselor  
A.A., Rio Hondo College; B.A., California State University, Long Beach; M.A., Azusa Pacific University

Cheung, Angela  
Instructor of Nursing  
B.S., University of California, Irvine; B.S.N., M.S.N. California State University, Los Angeles

Clark, Mary Dennyse  
EOPS/CARE Counselor/Professor  
B.A., California Dominguez Hills, M.S.W., California State University, Long Beach

Coffman, Dan  
Professor of Fire Technology  
A.S., Miramar College, San Diego; B.S., California State University, Los Angeles; M.P.A., California State University, Los Angeles; California State Certified Fire Chief Officer; California State Licensed Paramedic, California State Certified Firefighter I & II and California State Certified Fire Instructor

Cummings, Frances  
Professor of Biology  
B.S., Millerville University; M.A., California State University, Fullerton

Curiel, Libby Lee  
Professor of Speech/Coordinator Forensics (Debate)  
B.A., M.A., California State University, Los Angeles

Curlee, Karleen  
Professor of Reading and Tutorial Education  
A.A., Fullerton College; B.A., M.S., California State University, Fullerton

Daryoush, Faye  
Professor of Mathematics  
B.S., University of Bridgeport, CT; M.S., University of Southern California; M.S., University of Southern California, School of Engineering

Dawson, David  
Instructor of 3D Animation and Modeling  
A.A., Art Institute of Dallas; B.A., Baylor University; M.F.A., Florida Atlantic University

De La Mora, Martha  
Counselor/Professor  
B.A., University of California, Los Angeles, M.A., California State University, Dominguez Hills

De Leon, Maribel  
SSSP General Counselor  
B.A., University of California, Santa Cruz; M.S., University of La Verne

De Los Santos, Blanca  
Professor of Spanish  
B.A., M.A., California State University, Los Angeles

Dighera, Mike  
Instructor of Automotive Technology  
A.A., Cerritos College; B.S., California State University, Long Beach

Dixon, Scott  
Associate Professor of Philosophy  
B.A., California State Polytechnic University, Pomona; M.A., California State University, Long Beach

Dornean, Marius  
Instructor/Coordinator Heavy Equipment Technology  
B.A., San Diego Christian College; M.Ed., National University; Ed.D., Northcentral University

Dower, Kellori  
Instructor of Vocal/Choral Music  
B.A., San Diego Christian College; M.Ed., National University; Ed.D., Northcentral University

Duarte, Jeannette  
Professor of Speech  
B.A., Oregon State University; M.A., Texas A & M University; Ph.D., Arizona State University

Duran, Jose Joaquin  
Assistant Professor of History  
B.A., M.A., University of California, Santa Barbara

Eckstrom, Marie  
Professor of English  
B.A., Suffolk University; M.A., California State University, Northridge; M.A., M.A., California State University, Los Angeles

English, Cameron  
Associate Professor of Mathematics  
M.S., California State University, Long Beach

Fernandez, Juan R.  
Assistant Professor of English  
B.A., M.A., California State University, Long Beach

Flores, Julio  
General Counselor  
B.S., California State Polytechnic, Pomona; M.Ed., University of Southern California

Flores, Ygnacio  
Instructor of Administration of Justice  
B.S., National University; M.A., University of San Diego; M.P.S., Pennsylvania State University; M.B.A., Pepperdine University; Ed.D., University of Southern Southern California

Flores-Olson, Raquel  
Instructor of Reading  
B.S., California State University, Los Angeles; M.A., Azusa Pacific University; M.S., California State University, Fullerton

Flores-Olson, Troy  
Career Counselor/Professor  
B.A., California State University, Fullerton; M.A., Chapman University

Forman, Kelli  
Associate Professor of Administration of Justice  
B.A., The Ohio State University; J.D., Case Western Reserve University

Forrest, Michael  
Professor of Geology  
A.A., Golden West College; B.A., B.S., M.S., California State University, Long Beach; Ph.D., University of Southern California

Frala, John C.  
Professor Advanced Transportation Technologies, Hybrid and CNG/LNG Fuels, Honda PACT  
A.A., A.S., General Motors University, B.S., B.A., M.A., University of Phoenix

Freije, Theresa  
Professor of English  
M.A., California State University, Fullerton; Creighton University; University of California, Los Angeles; Cambridge University

Fung, Hank  
Instructor of Mathematics  
M.A., California State University, Fullerton
Garcia, Alonso  
Instructor of English  
B.A., University of California, Riverside; M.A., University of Hawaii

Garcia, Laura  
Counselor  
A.A., Santa Monica Community College; B.A., California State University, Long Beach; M.Ed., University of Southern California

Garcia, Yvette B.  
EOPS Counselor  
B.A., Loyola-Marymount University; M.A., California Family Study Center

Gardos, Alexander  
Assistant Professor of Graphic Design  
A.A., Santa Monica College; B.A., San Francisco State University; M.Ed., University of Missouri, Columbia

Garg, Garima  
Instructor of Chemistry  
B.S., M.S., Kumaon University; Ph.D., G.B. Pant University of Agriculture and Technology

Gaw, Rose  
DPSD Counselor  
B.A., M.S., California State University, Los Angeles

Gonzalez, Hector  
Associate Professor of Humanities  
A.A., Fullerton College; B.A., M.A., California State University, Fullerton

Gonzalez, Lydia  
Associate Professor of Mathematics  
B.S., University of California, Santa Cruz; M.S., California State University, Los Angeles

Gottlieb, Karen  
Associate Professor of Nursing  
A.S., Cerritos College; A.D.N., Chapman University; B.S.N., M.S.N., University of Phoenix; Ed.D., Argosy University

Griffith, Leah J.  
Instructor of Mathematics  
B.A., Chapman College; M.S., California Polytechnic State University, San Luis Obispo

Griffith, Margaret  
Associate Professor of Painting & Drawing  
B.F.A., Maryland Institute College of Art; M.F.A., Cranbrook Academy of Art

Guzman, Sergio  
Counselor/Assistant Professor  
A.A., Santa Ana College; B.A., University of California, Riverside; M.S., California State University, San Bernardino; Ed.D., California State University, Fullerton

Hyacinth, Octavia  
Instructor of Nursing  
A.S., Long Beach City College; B.S., California State University, Dominguez Hills; M.S., Family Nurse Practitioner Certificate, California State University, Long Beach; Ph.D., University of San Diego

Halvorson, Gary  
Professor of CAD/Drafting  
B.A., California State University, Fresno; M.A., California State University, Los Angeles

Hannah, Kathleen  
Professor of Nursing  
A.D.N., Rio Hondo College; B.S.N., Pacific Union College; M.S.N., University of Phoenix

Hernandez, Yuni  
Counselor  
B.A., M.S., California State University, Northridge

Herzfeld, Shari T.  
Professor of Nursing  
B.S.N., California State University, Long Beach; M.N., University of California, Los Angeles

Hinze, Michael  
Assistant Professor of Kinesiology & Athletics  
A.A., Orange Coast College; B.A., Humboldt State University; M.A., Azusa Pacific University

Hsiao, Jupei  
Instructor of Mathematics  
B.S., University of California, Irvine; M.A., San Francisco State University

Huang, Julie  
Professor of Business Management  
M.B.A., Azusa Pacific University, D.B.A., Argosy University

Hughes, Sean  
Instructor of Civil and Architectural Drafting and Design  
A.A., Bakersfield College; A.S., Mt. San Antonio College; B.S., California Polytechnic State University

Huimuez, Jorge  
Counselor/Assistant Professor  
A.A., Southwestern College; B.A., California State University, Northridge; M.Ed., University of San Diego

Ibarra, Edward  
Instructor of English  
B.A., University of California, Los Angeles; M.A., Ph.D., University of Southern California

Irwin, Erin  
Instructor of Mathematics  
B.S., Biola University; M.A., California State University, Fullerton

Isaac, Lily  
Professor of English  
B.A., M.A., Bangalore University; Ph.D., Banaras University

Jaeggi, Scott  
Instructor of Fire Technology/EMT  
A.S., Rio Hondo College; B.A., Brandman University

Javanmard, Mike  
Instructor of Economics  
B.A., University of California, Riverside; M.S., California State Polytechnic University, Pomona

Jeffrey, Lorraine  
Assistant Professor of English  
B.A., M.A., California State University, Los Angeles

Johnson, Steve  
Instructor of Kinesiology & Athletics/Head Coach Men’s Basketball  
A.A., Chaffey College; B.A., M.A., California State University, Dominguez Hills

Katnik, Stephen  
Professor of Biology  
B.A., University of California, Los Angeles; M.S., University of Guam; C.H.M.M., University of California, Davis

Kaufman, Bonnilee  
Learning Disability Specialist  
B.S., State University of Oneonta; M.A., University of New Mexico
Keller, Terry  
Professor of Biology  
B.S., California State Polytechnic University, Pomona; M.S., California State University, Fullerton

Kepner, Patricia  
Professor of Child Development  
A.A., Cerritos College; B.S., California State University, Fullerton; M.S., Nova Southeastern University

Kimber, George  
Professor of Administration of Justice  
B.S., California State University, Los Angeles; M.A. August Vollmer University

Korf, William  
Professor of Theatre Arts  
B.A., University of California, Los Angeles; M.F.A., University of Washington

Koutroulis, Mathew  
Professor of Chemistry  
B.A., M.S., California State University, Long Beach; M.S., University of California, Irvine

Lampert, Katharine  
Counselor, Disabled Students Program and Services  
A.A., Cypress College; B.A., M.S., California State University, Long Beach

Lara, Jose  
SSSP General Counselor  
B.A., M.A., California State University, Los Angeles

Leung, Allen  
Professor of Chemistry  
Ph.D, University of Utah

Lewis, Cynthia  
Professor of Art History  
B.A., Pomona College; M.A., California State University, Fullerton

Lewis, Violeta  
Instructor of Nursing  
A.D.N., Rio Hondo College; B.A., University of California, Santa Barbara; M.S., University of Arizona

Lindsey, David  
Assistant Professor of Electrical/Electronics Technology  
A.A., Mt. San Antonio College; B.S., DeVry University

Littrell, Mark  
Professor of Mathematics  
B.A., Whittier College; M.S., California State University, Long Beach

Liu, Jeannie  
Assistant Professor of Accounting  
A.S., Community College of Southern Nevada; B.S., University of Las Vegas, Nevada; M.B.A. University of California, Irvine

Liu, Shin  
Professor of Computer Science/Information Systems  
B.A., National Taiwan College of Education; M.S., University of Texas; D.B.A., Argosy University

Livingston, Jannine  
Associate Professor of Music  
B.M., M.M., University of Southern California

Llerena, Lydia  
Professor of Spanish  
A.A., Long Beach City College; B.A., M.A., California State University, Long Beach

Lopez-Alvarado, Katherine  
Professor of Nursing  
A.A., A.S., Citrus College; B.S.N., Azusa Pacific University; M.S.N., University of Phoenix

Luna, Patricia  
Associate Professor of Nursing  
L.V.N., R.N., Rio Hondo College; B.S.N., P.H.N., M.S.N., California State University, Dominguez Hills

Lynch, Kelly  
Associate Professor of Child Development  
A.A., Pasadena City College; B.A., M.A., California State University, Los Angeles

Lynch, Sheila  
Professor of Fine Arts  
B.A., California State University, Fullerton; M.F.A., Claremont Graduate University

Martinez, Angelica  
SSSP General Counselor  
B.A., Mills College; M.S., University of La Verne

Mason, Don  
Associate Professor, Administration of Justice  
B.S., Southern Illinois University; M.S. Capella University

Matra, Moises  
Coordinator of Learning Assistance Center/Associate Professor of English as a New Language  
A.A., East Los Angeles College; B.A., California State University, Dominguez Hills; M.A., California State University, Long Beach

Matthis, James  
Professor of English  
B.A., M.A., California State University, Fullerton

Mayer, Krysa  
Instructor of Mathematics  
B.A., M.A., California State University, Fullerton

Miller, Gregory  
Instructor of Mathematics  
B.A., Whittier College; M.A., University of Southern California M.A., University of California, Riverside

Miller, Robert  
Associate Professor of Ceramics  
B.F.A., Otis Parsons Art Institute; M.F.A., University of California, Los Angeles, M.A., California State University, Long Beach

Mindes, Aimee  
Professor of Geography  
B.A., University of California, Santa Barbara; M.A., California State University, Long Beach

Mitchell, Carley  
Professor of Administration of Justice  
B.S., Pepperdine University

Moe, Sondra  
Professor of Child Development  
A.A. Cerritos College; B.S. California State University, Fullerton; M.S., Ph.D., Utah State University

Montiel, Gerson  
Instructor of Mathematics  
B.S., California State University, Long Beach; M.S., Walden University; M.S., University of West Florida
Mora, Juana  
Coordinator/Associate Professor of Chicano/a Studies  
A.A., Mt. San Antonio College; B.A., M.A., California State University, Northridge; M.A., Claremont Graduate University; Ph.D., Claremont Graduate University

N

Nakatani, Farrah  
Instructor of Drafting and Design  
A.A., A.S., Mt. San Antonio College; B.S., California State University, Los Angeles

Newman, James  
Professor of Administration of Justice  
B.S., California State University, Los Angeles; M.P.A. University of LaVerne; Master Instructor, Commission on Peace Officer Standards and Training

Nyagagah, Lynette  
Professor of English  
B.A., University of California, Berkeley; M.A., Ph.D., University of California, Los Angeles

O

O’Brien, Katherine  
Coordinator Staff Development/ FLEX/EOPS Counselor/Professor  
B.A., M.A., University of California, Santa Barbara

Okamoto, Tyler  
Assistant Professor/Coordinator Basic Skills  
A.A., Rio Hondo College; B.A., M.A., California State Polytechnic University, Pomona

Olson, Eric  
Instructor of Automotive Technology  
A.A., Long Beach City College

Ortiz, Amelia  
Assistant Professor of Nursing  
B.S.N., M.S.N. California State University Dominguez Hills, D.H.S., A.T. Still University

Osman, Daniel  
Assistant Professor of English  
B.A., Wesleyan University; M.A., California State University, Los Angeles

P

Padgett, Vernon  
Professor of Psychology  
B.A., California State University, San Bernardino, M.A., California State University, Long Beach, M.A., Ph.D., Ohio State University

Perry, Abbie  
Instructor of History  
A.A., San Bernardino Valley College; B.A., University of California, Riverside; M.A., California State University, Los Angeles

Pfeiffer, Jill  
Professor of Anthropology  
B.A., University of California, Los Angeles; M.A., California State University, Los Angeles

Pichardo-Diaz, Dorali  
Counselor/Assistant Professor  
B.A., M.S., California State University, Long Beach

Pierson, Kenn  
Professor of English  
B.A., Dakota Wesleyan University; M.A., State University of New York, Buffalo; Ph.D., University of Minnesota

Pilati, Michelle L.  
Professor of Mathematics  
B.S., State University of New York, Albany, M.A., Ph.D., University of California Los Angeles, Ph.D., University of California, Los Angeles

Pokornowski, Steven  
Professor of English  
B.A., University of Illinois; M.A., University of California, Santa Barbara; Ph.D., University of California, Santa Barbara

Preston, Theodore  
Professor of Philosophy  
B.A., Claremont McKenna College; M.A., California State University, Long Beach; Ph.D., University of California, Riverside

Pudelko, Kathy  
Professor of Kinesiology/Coordinator Fitness Center  
B.A., University of Northern Colorado; M.A. California State University, Northridge

Puga, Jr. Gilbert  
Associate Professor of Speech  
B.A., California State Polytechnic University, Pomona; M.A., California State University, Fullerton

R

Ramirez, Elizabeth  
Articulation Officer/Counselor  
B.A., Scripps College; M.S., University of La Verne

Ramirez, Michelle  
Interim Counselor/Coordinator CalWorks  
A.A., Citrus College; B.A., University of La Verne; M.A., University of Southern California

Reeder, Ronald  
Associate Professor of 2D/3D Design  
A.A., Rio Hondo College; B.A., M.A., California State University, Fullerton

Reyes, Dianna  
Counselor EOPS/Associate Professor  
A.A., Rio Hondo College; B.A., M.S., California State University, Long Beach

Rhee, Joseph  
Instructor of Astronomy  
B.S., M.S., Ph.D., University of California, Los Angeles

Rhodes, Angela  
Professor of English  
B.A., Rio Hondo College; B.A. California State Polytechnic University, Pomona; M.A. California State Polytechnic University, Pomona

Ribaya, Jeronimo  
Associate Professor of Biology  
B.S., M.S., Ph.D., University of California, Los Angeles.

Rickman, Tracy  
Coordinator and Professor Fire Technology  
A.S. Fire Technology, Community College of the Air Force, B.S., Park College; M.P.A, University of La Verne; Certified Hazardous Materials Instructor, California Certified Fire Instructor, ICC Certified Fire Code Inspector I

Rifino-Juarez, Melissa  
Professor of Sociology  
B.A., M.A., California State University Fullerton; M.S., Bellevue University

Rios, Rodolfo  
Associate Professor of Computer Information Systems  
B.S., DeVry University; M.B.A., Keller Graduate School of Management
Rivera, Mary  
Counselor/Professor  
B.A., M.S., California State University, Long Beach

Roberts, Warren  
Professor of GIS/CAD  
M.L.A., University of Oregon

Rodriguez, Jose I.  
EOPS/Puente Counselor  
M.S., California State University, Los Angeles

Romo, Claudia  
Interim SSSP/CTE Counselor  
A.A., East Los Angeles College; B.A., M.S., California State University, Long Beach

Ryan, Mutsuno  
Instructor of Mathematics  
B.A., Fukuoka University of Education; M.S., California State University, Long Beach

Saenz, Marisela  
Counselor/Coordinator Guardian Scholars  
A.A., A.S., Rio Hondo College; B.A., California State University, Fullerton; M.S., University of La Verne

Salazar, Michael  
Professor of Kinesiology & Athletics/Head Coach Baseball  
M.Ed., Azusa Pacific University

Sanchez, M. Denna  
Coordinator, Psychological Services  
B.A., California State University, Los Angeles; M.A., Ph.D., California School of Professional Psychology, Los Angeles

Senk, Jodi  
Professor of Kinesiology/Fitness Specialist Certificate  
B.S., M.S., University of Connecticut; Ed.D., Pepperdine University

Sevilla-Marzona, Judy  
Librarian/Professor  
B.S., University of the Philippines; M.A., University of California, Irvine; M.L.I.S., San Jose State University

Schleicher, Matthew  
Instructor of Theatre  
B.A., M.F.A., California State University, Fullerton

Sigala, Carol Ann  
Professor of Child Development  
B.A., University of California, Los Angeles; M.S., Pacific Oaks; M.S.W., Ph.D., University of Southern California

Sloniger, Wells  
Professor of Reading  
B.A., Pepperdine University, Malibu; M.S., California State University, Fullerton

Smith, Kevin  
Professor of Psychology  
B.S., B.A., M.A., University of California, Irvine; Ph.D., University of California, Irvine

Smith, Stephen  
Instructor of Kinesiology and Athletics/Head Water Polo/Swim Coach  
A.A., Citrus Community College; B.A., University of La Verne; M.S. Azusa Pacific University

Sotelo, Angela  
General Counselor  
A.A., Mt. San Antonio College; A.S. Rio Hondo College; B.A., M.S., California State University, Los Angeles

Spencer, Shelly  
Assistant Professor of Biology  
B.S., M.S., California State Polytechnic University, Pomona

Spieler-Persad, Gisela  
Professor of Mathematics  
M.A., M.S., Ph.D., University of Southern California

Springer, JoAnn  
Professor of English  
B.A. University of Toronto, M.A. California State University, Long Beach, Ph.D., Claremont Graduate University

Stevens-Gandara, Erin Miyo  
Instructor of Digital Photography  
B.F.A. California College of Arts and Crafts; M.F.A., California Institute of the Arts

Stoian, Razvan  
Instructor of Nursing  
A.A., Rio Hondo College; B.S., Academy of Economics; M.S., University of Phoenix

Tanaka-Hoshijo, Jennifer  
Associate Professor of Kinesiology and Athletics/Head Coach Women’s Soccer  
B.A., University of California, Irvine; M.A., Chapman University; M.S., Azusa Pacific University

Tang, Suzanne  
Professor of Nursing  
B.S.N., University of San Francisco; M.S.N., California State University, Fullerton; D.N.P., California State University, Fullerton

Thomas, Julius  
Counselor/Professor  
A.A., Riverside Community College; B.A., University of California, Riverside; M.S., P.P.S. Credential, California State University, San Bernardino

Tieu, David  
Counselor  
B.A., California State Polytechnic University, Pomona; M.S. California State University, Long Beach

Tomory, Stephen C.  
Professor of Automotive Technology  
A.A., Citrus College; B.V.E., M.A., California State University, Los Angeles

Tovmasian, Grant  
Instructor of Speech/Forensics (Debate)  
B.A., M.A., California State University, Los Angeles

Tu, Irene  
Librarian  
B.A., California State University, Long Beach; M.L.I.S., University of California, Los Angeles

Urquidi, Bianca  
Assistant Professor of Kinesiology and Athletics/Head Coach Softball  
B.A., Whittier College; M.S., Indiana University

Vaca, Christian  
Instructor of Physics  
B.S., M.S., Ph.D., University of California, Los Angeles

Valdivia, Irma  
Associate Professor of History  
B.A., University of California, Santa Barbara; M.A., California State University, Los Angeles

Valladares, Diana  
General Counselor  
B.A., M.S., California State University, Northridge
Vazquez, Dana Marie
Professor of English
B.A., California State University, Chico; M.A., California State University, Sacramento; T.E.S.O.L., Certificate, University of California, Irvine; M.A., California State University, San Bernardino

Velazquez, Ralph
Assistant Professor of English
M.A., California State University, Long Beach

Villanueva, Viviana
Counselor
A.A., Long Beach City College; B.A., California State University, Dominguez Hills; M.A., University of San Diego

Vu, Irene
Counselor
A.A., Santa Ana College; B.S., California State University, Fullerton; M.A., California State University, Dominguez Hills

Vu, Nguyen
Professor of Mathematics
M.S., University of Nebraska

Wallace, Gerald
Instructor of Fire Technology
A.S., East Los Angeles College

Wang, George
Professor of Mathematics
M.A., Claremont Graduate School

Waugh, Christine
General Counselor
A.A., Citrus College; B.A., California State University, Fullerton; M.S., Azusa Pacific University

Wetsman, Adam
Professor of Anthropology
A.S., Rio Hondo College; B.A., University of California, Santa Barbara; M.S., J.D., University of Wisconsin, Madison; Ph.D., University of California, Los Angeles

Whitford, Jon
Professor of Computer Information Systems
A.A., El Camino College; B.A., California State University, Long Beach; M.B.A., M.S., West Coast University, D.B.A., Argosy University

Young, Colin
Professor of Political Science
B.A., University of California, Los Angeles; M.A., University of California, Santa Barbara

Zaro, Mariano
Professor of Spanish
M.A., University of Zaragoza (Spain); Ph.D., University of Granada (Spain)
El Monte Education Center

3017 Tyler Avenue
El Monte, CA 91731
(626) 443-8932

Foothill Transit, Metro Bus Lines

Please visit the EMEC site for more information.

Rio Hondo Educational Center at Pico Rivera

9426 Marjorie St.
Pico Rivera, CA 90660
(562) 692-0921

(Across from El Rancho High School)

Please visit the PREC site for more information.
Santa Fe Springs Regional Training Center

11400 Greenstone Avenue
Santa Fe Springs, CA  90670
(562) 941-4082

Please visit the Fire Academy site for more information.

South Whittier Education Center

14307 E. Telegraph Road
Whittier, CA  90604
(562) 941-2356

Metro Bus Lines, Sunshine Shuttle
