Course-Level Outcomes (CLOs) Rubric

Outcomes statements must be measurable and specific. They are learning-centered rather than teaching-centered and are expressed in active verbs such as those found in Bloom’s Taxonomy. There is at least one outcome per unit of instruction, but generally no more than 3-5 outcomes for 3-unit courses is required. *Examples provided on the following page.*

	DOES NOT MEET STANDARDS OF PRACTICE	MEETS STANDARDS OF PRACTICE	COMMENTS

ADD MORE FROM THE COMMITTEE		

How Are Outcomes Different From Objectives?

Outcomes are typically broader and may be themed clusters of course objectives identified in the course outline of record (COR). Some practitioners believe outcomes are more student-centered than objectives, whereas objectives are more teacher-centered.

Objectives: A course objective describes what a faculty member will cover in a course. Objectives are generally less broad than goals, and broader than student learning outcomes. Analogy: Objectives are like the *ingredients* and the *recipe*; outcomes are the final product—the *cake*.

Academic Senate 2019-20

Examples of objectives:

- Students will gain an understanding of the origins of art history.
- Students will read and analyze seminal works in twentieth-century American literature.
- Students will study the major regulatory agencies.

Outcomes: An outcome is a detailed description of what students must be able to do at the conclusion of a course. The best outcomes will include a description of the conditions (i.e., when given x , the student will be able to y), and the acceptable performance level.

Examples of outcomes:

- When given a major decision by a governmental leader, students will be able to identify the major factors that the leader had to consider and discuss why the action was taken and what apparent trade-offs were made. (Government)
- Demonstrate graphically and explain how a change in expectation will affect the loanable funds market. (Economics)
- On hearing musical selections, students will be able to identify those that are examples of chamber music and be able to identify form, texture, and makeup of the ensemble. (Music)
- When shown a print, students will be able to identify whether it is a woodcut, an etching, or a lithograph, and list the characteristics on which this identification is based. (Art)
- When given a case study, students will be able to identify whether it describes a case of schizophrenia, and if it does, which of the following schizophrenic reactions are involved: hebephrenic, catatonic, or paranoid. (Psychology)
- Based on reading, case studies, or personal experience, identify those activities that are most likely to distinguish effective, well-managed technology development programs from ineffective programs. (Management)
- When given two events, students will be able to determine whether they are independent or whether there is a relationship between them. On the basis of this determination, students will be able to select and use the appropriate rules of conditional probability to determine the probability that a certain event will occur. Addendum E – Staffing Calendar Changes:

Changes from the previous year:

Program Plans due in 6 weeks instead of 8 weeks

Unit plans due in 3 weeks instead of 4 weeks

Area plans due in 2 weeks instead of 3 weeks

Staffing committee meets in November instead of March- still will have two meetings, though PFC reviews recommendations in November instead of March/April

Faculty staffing recommendations will not go to the Planning Retreat

Justification for changes:

Plans take a year currently and aren't implemented for another 2-3 semesters. For example, a plan written in Fall 19 semester may not result in a new hire starting until Spring 21 or Fall 21

Admin believes that Plans should occur for a year, and the next year they should be implemented, which means that the staffing should be in place to see how the goals of that hire can be achieved

Academic Senate 2019-20

Addendum F - Committee Reports:

Academic Rank:

The Academic Rank Committee has been working diligently to create an inclusive pathway for part-time faculty to earn academic rank due the discovery of non-attainment of rank for part-time faculty members after multiple years of teaching at RHC. Changes to AP4245 and BP4245 are recommended.

Training sessions for navigating Taskstream are going well and we have made great progress in completing close-the-loop assessment reports as well as course-level outcomes timelines. We will have the final inventory by the end of the month.

The Outcomes Committee is sending forward to Senate several recommendations to address gaps identified by IRP. Having prioritized areas of improvement in preparation for the upcoming accreditation visit, some of these recommendations will be adopted in the spring and summer and others will be implemented beginning fall 2020.

Institutional Effectiveness:

- 1) IEC made an additional revision to the Mission Statement Draft B after considering feedback from a few faculty senators, ASHRC, and another faculty member. IEC sent the revised version to PFC 4/28/20 for consideration.
- 2) IEC members received the Educational Master Plan Draft today. IEC members will forward the draft to their constituents and should bring back any feedback to IRP Dean Caroline Durella, Sarah Cote, or Abbie Perry within a week. One of the more substantial changes to the plan is the new Integrated Planning Model. * The EMP should be finalized by the end of term and implemented in the fall.
- 3) IEC also reviewed and discussed the Resource Allocation Rankings for 2020- 21. The recommendation was sent to PFC 4/28/2020.
- 4) The IEC's next meeting (2nd Tuesday of May) is our last meeting of the academic year.
