

**Rio Hondo Community College District  
Curriculum Committee  
Agenda  
Wednesday, November 17, 2021, 11:15 A.M.  
Zoom ID# 936 4074 5658**

**I. APPROVAL OF THE MINUTES FROM NOVEMBER 10, 2021**

**II. PUBLIC COMMENT:** *Although the Curriculum Committee always welcomes the participation of guests in any discussion, this agenda item is provided to allow a member of the public to speak to an item not on the agenda.*

**III. ACTION ITEMS**

**A) Approval of Consent Agenda:**

**Item 2122-235**

**Emergency DE Request**

**HUSR 130 Essential Counseling Skills**

**B) Second Readings:**

**Item 2122-210**

**New Credit Course**

**ARCH 103 History of Architecture**

**Description**

This course surveys the historical development of modern architecture from the Renaissance to the present day. The influence of technological, ecological, environmental, cultural, and socio-economic factors on architecture are considered. Analysis of current and future trends and developments in contemporary architecture and environmental design is covered.

**Item 2122-211**

**New Credit Course**

**BIOT 120 Quality and Regulatory Practices in Biotechnology**

**Description**

This course serves as an introduction to basic quality principles and tools, with an emphasis on their application in fermentation practices. Students explore concepts related to quality control, quality assurance, validation, documentation, and regulatory compliance within this industry. The course prepares students for examination through the American Society for Quality (ASQ) to become a Certified Quality Improvement Associate (CQIA).

**Item 2122-212**

**New Credit Course**

**BIOT 240 Instrumental and Sensory Analysis in Biotechnology**

**Description**

This course serves as an introduction to basic quality principles and tools, with an emphasis on their application in fermentation practices. Students explore concepts related to quality control, quality assurance, validation, documentation, and regulatory compliance within this industry. The course prepares students for examination through the American Society for Quality (ASQ) to become a Certified Quality Improvement Associate (CQIA).

**Item 2122-213****New Credit Course****ENGR 140 Materials Science and Engineering****Description**

This course is an introduction to engineering materials. Students develop an understanding of the atomic structure of the major classes of materials; the properties (i.e., mechanical, thermal, optical, and electrical) of metals, polymers, ceramics, and electronic materials; the effect of processing in the internal structures of materials; and material deterioration and failure processes.

**Item 2122-214****New Credit Course****ENGR 240 Strength of Materials****Description**

This course is an introduction to the basics of strength of materials. Students examine how forces affect machine members and structural elements, calculate stress and strain, analyze connections, and evaluate beams and columns. Topics include loading; statically indeterminate structures; temperature and prestrain effects; shear force and bending moment; axial, shear, bearing and bending stresses; deflection of beams; and buckling of columns. Students use calculations applied to the above topics to determine if a certain design will succeed or fail.

**Item 2122-215****Credit Course Revision****HET 240 Heavy Equipment Heating, Ventilation, and Air Conditioning**

**Updates to: Prerequisite and minor content revisions**

**Item 2122-216****Credit Course Revision****LIT 141 Introduction to Poetry**

**Updates to: Prerequisite and minor course revisions**

**Item 2122-217****New Credit Course****LIT 141H Introduction to Poetry Honors****Description**

This course introduces students to a variety of approaches to poetry. Course readings include poems on diverse topics representing poetry's fundamental modes, historical periods, and cultural traditions. Students gain an understanding of the features that distinguish poetry as a literary genre, including techniques of sound, tropes and figurative language, and thematic development. The course is appropriate for both English majors and those students who want to expand their knowledge and appreciation of poetry. This course is intended for students eligible for the Honors Program.

**Item 2122-218****Credit Course Revision****LIT 148 Introduction to Dramatic Literature**

**Updates to: Prerequisite and minor course revisions**

**Item 2122-219****New Credit Course****LIT 148H Introduction to Dramatic Literature Honors****Description**

This course introduces students to a wide range of dramatic literature, from the plays of ancient Greece to contemporary drama, via representative plays from several literary periods. Course reading and writing assignments emphasize dramatic form and structure, the aesthetics of drama, and drama as a reflection of major cultural events and beliefs. This course is designed for students interested in a detailed exploration of a specific genre of literature, intending to major in a literary or arts-related field of study, and/or intending to enter the teaching profession. This course is intended for students eligible for the Honors Program.

**Item 2122-220**

**Credit Course Revision**

**LIT 149 Introduction to Chicana/o/x/Literature**

**Updates to: Prerequisite and minor course revisions**

**Item 2122-221**

**New Credit Course**

**LIT 149H Introduction to Chicana/o/x/Literature Honors**

**Description**

This course explores a range of Chicana/o/x literature, with a focus on major texts from 1848 to the present. Course reading and writing assignments explore major cultural themes, including identity issues. Assigned readings may comprise a variety of forms and genres including essays, poetry, fiction, oral histories, corridos, and autobiography by writers from the Southwest. This course is designed for students interested in exploring various forms genres of literature, learning more about Chicana/o/x cultural expression, and/or majoring in Chicana/o/x studies. This course is intended for students eligible for the Honors Program.

**Item 2122-222**

**New Credit Course**

**MATH 049B Becoming a STEM Researcher**

**Description**

This course is designed for students intending to explore careers as researchers in science, technology, engineering, and mathematics (STEM) fields. Students learn how to apply and prepare themselves for undergraduate research opportunities by developing their resumes/curricula vitae, learning how to read research papers, and writing and presenting their research. Students also learn how to fund their research through Research Experiences for Undergraduates (REU) and scholarships. Completion of these activities provides students with a competitive application for transfer and REUs.

**Item 2122-223**

**Credit Course Revision**

**MGMT 101 Introduction to Business**

**Updates to: Advisory, SAM Code, and minor course revisions**

**Item 2122-224**

**Credit Course Revision**

**MGMT 140 Introduction to International Business**

**Updates to: SAM Code and minor course revisions**

**Item 2122-225**

**Credit Course Revision**

**MGMT 141 International Marketing**

**Updates to: SAM Code and minor course revisions**

**Item 2122-226**

**Credit Course Revision**

**MGMT 142 International Management**

**Updates to: Minor course revisions**

**Item 2122-227**

**Credit Course Revision**

**MGMT 150 Principles of Management**

**Updates to: Advisory, SAM Code, and minor course revisions**

**Item 2122-228**

**New Noncredit Course**

**NBAS 040 World History I: 1750-1918**

**Description**

This course examines the significant events, themes, topics, and people that comprise world history from 1750 to 1918. The course explores the diversity of experiences, struggles, and triumphs that occurred across the globe throughout this period.

**Item 2122-229**

**New Noncredit Course**

**NBAS 041 World History II: 1918 - Present**

**Description**

This course examines the significant events, themes, topics, and people that comprise world history from 1918 to the present. The course explores the diversity of experiences, struggles, and triumphs that occurred across the globe throughout this period.

**Item 2122-230**

**New Noncredit Course**

**NBAS 042 U.S. History I: Origins of the American Republic - 1945**

**Description**

This course examines the significant events, themes, topics, and people that comprise the history of the United States from the origins of the early republic to 1945. The course explores the diversity of experiences, struggles, and triumphs that occurred in the nation throughout this period.

**Item 2122-231**

**New Noncredit Course**

**NBAS 043 U.S. History II: 1945 - Present**

**Description**

This course examines the significant events, themes, topics, and people that comprise the history of the United States from 1945 to the present. Students gain a broad view of U.S. history by exploring the diversity of experiences, struggles, and triumphs that occurred in the nation throughout this period.

**Item 2122-232**

**Credit Course Revision**

**VOCB 101 Vocabulary and Etymology**

**Updates to: Minor course revisions**

**Item 2122-233**

**GE Request**

**C) First Readings:**

**Item 2122-236**

**New Credit Course**

**CIV 101 Introduction to Technical Drawing & Graphics**

**Description**

This basic course in technical drawing and graphics is for students with no previous drafting skills or training. The course is designed for students who wish to pursue training in fields and careers related to architecture, civil design, and engineering design drafting. Practical application is provided with the tools, techniques, standards, and practices used in the industries that need technical drawings and graphics.

**Item 2122-237**

**Item 2122-246**

**Credit Course Revision**

**MUS 142 Intermediate Voice I**

**Updates to: Title, course description, and minor course revisions**

**Item 2122-247**

**Credit Course Revision**

**MUS 145 Piano I**

**Updates to: Course description and minor course revisions**

**Item 2122-248**

**Credit Course Revision**

**MUS 150 Beginning Guitar**

**Updates to: Title, course description, and minor course revisions**

**Item 2122-249**

**Credit Course Revision**

**MUS 151 Intermediate Guitar**

**Updates to: Title, advisory, course description, and minor course revisions**

**Item 2122-250**

**New Credit Course**

**MUS 152 Intermediate Class Guitar I**

**Description**

This class is for non-music majors interested in broadening their understanding of guitar literature by performing intermediate-level works. Attention is given to the refinement and polishing of technique

through scales, arpeggios, sight-reading, interpretation, and tonal production, as well as analysis of various musical periods and styles.

**Item 2122-251**

**New Credit Course**

**MUS 153 Intermediate Class Guitar II**

**Description**

This class is for non-music majors interested in improving their technique and skills by performing more difficult works. The scales, chord progressions, pieces and etudes assigned will be selected to advance the student's technique, and repertoire from various periods and styles.

**Item 2122-252**

**New Credit Course**

**MUS 163 Intermediate Class Piano II**

**Description**

This class is for non-music majors seeking to broaden their knowledge and understanding of piano literature. More advanced solo literature of intermediate difficulty will be introduced. Emphasis is placed on the continued technical and interpretive demands required to perform a varied repertoire.

**Item 2122-253**

**New Noncredit Course**

**NBAS 032 Chemistry I**

**Description**

This physical science course introduces students to the fundamental nature of matter and its interactions. Topics include atomic and electronic structure, the nomenclature of compounds, chemical calculations, and stoichiometry, bonding and shapes of molecules, and chemical reactions. Relevant laboratory exercises are an essential component of the course.

**Item 2122-254**

**New Noncredit Course**

**NBAS 033 Chemistry II**

**Description**

This physical science course introduces students to matter and its interactions. Topics include detailed study of gases, liquids, solids, and intermolecular forces; solutions; properties and reactions of acids and bases; oxidation-reduction reactions and electrochemistry; chemical equilibrium; organic chemistry and biochemistry. Relevant laboratory exercises are an essential component of the course.

Certificate of Achievement Change

Civil Drafting

Units 17.0 to 18.0

Description

This program provides a focused course of study to ready students for careers in the preparation of construction documents for Civil Engineering projects. The coursework provides a focus on the preparation of common civil project drawings using industry-standard drawing techniques and conventions with hand and/or computer-aided drafting tools. Additionally, the coursework includes exposure to the broad range of sub-disciplines within the field of Civil Engineering.
