CAGP 2.0 Virtual Consultancy share-out <i>How do we do "data-coaching" in small, effective, digestible ways within our Student Success Team work? There is so much data out there to consider on the Chancellor's Office website and internally on Tableau. How do we make it accessible and bring it to meetings for discussion without getting overwhelmed with all that is out there? Or stated another way, how do we best use the range of data to which we have access to further our equity work?</i>	Feedback from the other colleges <ul style="list-style-type: none"> • Formulate 1-2 questions to focus on • Let the question lead the conversation and the data follow • Consider formal data coaching role with training • Provide easy access with simple visuals and links for those who want to dive deeper • Humanize the data using real life examples
