**C) First Readings:**

**Item 2223-152**
**New Credit Course**
**HUSR 135 Law and Ethics in Human Services**
**Description**
This course will cover topics that include the applicable laws and ethics relating to case manager/client professional relationships in inpatient and outpatient treatment settings. Laws relating to confidentiality, patient rights, assessments, sharing of personal information, mandatory reporting, and crisis intervention requirements will be presented. Dealing with issues such as duty to warn, evaluating a person's potential for suicide, child and elder abuse, and when individuals pose a serious potential of harm to others will also be addressed. This is a core course for Drug Studies majors who are pursuing a certificate or degree.

**Item 2223-153**

**New Credit Course**

**HUSR 136 Diverse Populations**

**Description**

This course examines the cultural and social influence of age, ethnicity, gender, legal status, physical and psychological disability, race, religion, sexual identity, and socioeconomic status on the use of alcohol and other drugs and access to treatment for associated problems. The attitudes, knowledge, and skills necessary to provide a competent assessment of and treatment for those who are often disadvantaged or removed from conventional society will be explored. This course is designed to further understanding of these diverse populations in relation to addiction, co-occurring disorders, recovery, and rehabilitation. This is a core course for Drug Studies majors who are pursuing a certificate or a degree.

**Item 2223-170**

**New Credit Course**

**AUTO 131 Automotive EV Electronics I**

**Description**

This is the first of two introductory courses designed to expand the student skills with the fundamentals of the electrical systems of the modern hybrid/electric automobile. This course covers the general electrician skills needed to understand and diagnose the modern electric vehicle. Emphasis will be placed on electrical fundamentals, symbols and circuit diagrams, high-voltage batteries, charging systems, heat pump for cooling and heating, and LED lighting systems. Students will learn the proper use of high voltage electrical diagnostic tools and equipment, and how to safely perform vehicle electrical service and maintenance operations. Students will have the opportunity to perform minor repair work on hybrid and high voltage vehicles to complete required tasks. This course is designed to be a companion course to AUTO 132 and a prerequisite course for AUTO 147. Students are encouraged to complete both AUTO 131 and AUTO 132 in order to obtain a firm foundation in this subject.

**Item 2223-171**

**New Credit Course**

**AUTO 132 Automotive EV Electronics II**

**Description**

This is the second of two courses designed to expand the student skills with the fundamentals of the electrical systems of the modern hybrid/electric automobile. This course covers the electrician skills needed to understand and diagnose the modern electric vehicle. Emphasis will be placed on electrical fundamentals, symbols and circuit diagrams, high-voltage energy storage and range calculations, charging systems/on and off vehicle, heat pump for cooling and heating, motor and generators, magnetism, induction, and LED lighting systems. Students will learn the proper use of high voltage electrical diagnostic tools and equipment, Automated Driver Alert Systems, camera, and radar communication with vehicle safety systems, and how to safely perform vehicle electrical service and maintenance operations. Students will have the opportunity to perform minor repair work on hybrid and high voltage vehicles to complete required tasks. This course is designed to be a companion course to AUTO 131. This is a prerequisite course for AUTO 147 and AUTO 148. Students are encouraged to complete both AUTO 131 and AUTO 132 to obtain a firm foundation on the subject of electronics and the electric vehicle.

**Item 2223-172**

**Credit Course Revision**

**ENGL 101 College Composition and Research**

**Updates to: Course description, updated textbooks, minor course content revisions**

**Item 2223-173**
**New Noncredit Course**
**NBAS 060 Review of Pre-Algebra Part A**
**Description**
This course is designed primarily for students who know the fundamentals of arithmetic and have little or no background in algebra. This course strengthens the students' arithmetic skills and prepares students for algebra by introducing them to the fundamental principles of the real number system, solving linear equations, and graphing linear equations.

**Item 2223-174**
**New Noncredit Course**
**NBAS 061 Review of Pre-Algebra Part B**
**Description**
This course is designed primarily for students who know the fundamentals of arithmetic and have little or no background in algebra. This course strengthens the students' arithmetic skills and prepares students for algebra by introducing them to functions, systems of equations, basic geometric concepts and skills, and the basic of probability and statistics.

**New Program**
**Certificate of Achievement/Mat Pilates Instructor**
**Description**
The Mat Pilates Instructor Certificate of Achievement is designed to prepare students for employment as a professional to instruct both groups and individuals in Pilates mat exercises. It is possible to complete this certificate in one calendar year. The curriculum has been designed to equip the student with the background, both theoretical and practical, to pursue a job promoting core training, injury prevention, alignment, and proper mechanics of movement for each exercise.
Courses in Pilates mat instruction, anatomy, training special populations, and Pilates activity classes will prepare the student for responsibilities in the field. The program will also expose students to other areas such as fitness, health promotion, coaching, pre-allied health, and medical fields as Pilates is often used in physical therapy rehabilitation, injury prevention, and enhancing the performance of athletes.
