New Credit Course

ART 147 Ceramic 3D Printing

Description

This course is an introduction to exploring 3D ceramic concepts through art and design using digital tools. Students are introduced to a digital workflow during the process of producing traditional forms of art. Students learn software, hardware, and other aspects of the production process utilized in ceramic 3D printing. This course is beneficial for all students interested in studio arts, entertainment design, and industrial design.

Item 2223-328

New Credit Course

MUST 100 Pro Tools Fundamentals I

Description

This course introduces fundamental Pro Tools concepts and principles, covering everything students need to know to complete a basic Pro Tools project, from initial setup to final mixdown. Students also learn to build sessions that include multi-track recordings of live audio, MIDI sequences, and virtual instruments. Hands-on exercises and projects introduce essential techniques for creating sessions, recording and importing audio and MIDI, editing session media, navigating sessions and arranging media on tracks, and using basic processing and mixing techniques to finalize a production.

Item 2223-329

New Credit Course

MUST 110 Pro Tools Fundamentals II

Description

This course expands upon the basic principles taught in the Pro Tools Fundamentals I course and introduces the core concepts and techniques students need to competently operate a Pro Tools system running mid-sized sessions. Students learn to build sessions designed for commercial purposes and improve the results of their recording, editing, and mixing efforts. Guided exercises provide experience in setting up sessions, importing media, working with digital video, spotting sound effects, using loop recording and MIDI Merge techniques, and working with virtual instruments. Additional topics include warping with Elastic Audio, applying Real-Time Properties, creating clip loops, applying signal processing, using automation, and using submixes and track groups to simplify a final mix. Together with the first course in the series, Pro Tools Fundamentals I, this course provides the training required to prepare for the Avid Certified User: Pro Tools certification exam.

Item 2223-330

Credit Course Revision

MUST 125 Sound Design I

Item 2223-331

New Credit Course

MUST 130 Pro Tools for Game Audio

Description

This course exposes students to the core skills, workflow, and concepts involved in creating and implementing game audio using Pro Tools systems. The course covers basic sound design techniques along with sample workflows. Session time is divided between demonstration and guided practice, with ample time to experiment with sample material. Together with the Pro Tools Fundamentals I course,

this course provides the training required to prepare for the Avid Certified User: Pro Tools for Game Audio certification exam.

Item 2223-332

Credit Course Revision

MUST 141 Recording Studio I

Item 2223-334

New Credit Course

MUST 201 Pro Tools Production I

Description

This course covers the core concepts and skills needed to operate an Avid Pro Tools Ultimate system with HD-series hardware in a professional studio environment. This course builds on the Pro Tools Fundamentals I and II series of courses, providing intermediate- and advanced-level Pro Tools concepts and techniques. Students learn to customize the configuration of Pro Tools | HD Native systems to maximize results and improve recording, editing, and mixing workflows. Guided exercises provide experience in optimizing system resources, configuring I/O, navigating and color-coding sessions, managing session media, using advanced selection and auditioning techniques, working with clip gain, applying advanced automation techniques, creating submixes and applying parallel processing, advanced mixing, and finishing techniques for a final mixdown. This course provides the foundational training for the Avid Certified Operator: Pro Tools | Music, and Avid Certified Operator: Pro Tools | Post certification exams.

Item 2223-335

New Noncredit Course

NCOM 012 Academic Enrichment

Description

This course supports students in developing effective academic study skills and learning strategies to reach their educational goals. Students gain various techniques for note taking, test taking, text reading, memorizing, time planning, and communicating. The course provides resources for managing stress, maintaining personal well-being, and community building in diverse settings.

New Certificate of Achievement

Automotive EV Specialist

Description

The courses in this certificate are designed for a technician who is interested in the field of electric vehicles in the transportation and equipment industry. The course covers the general electrician skills needed to understand and diagnose modern electric vehicles. Usage of the Digital Volt Ohm Meter (DVOM), Inductive Meter, Meger Meter and Oscilloscope are covered. Emphasis is placed on electrical fundamentals, symbols and circuit diagrams, high-voltage batteries, charging systems, heat pumps for cooling and heating, and LED lighting systems. Students learn the proper use of high voltage electrical diagnostic tools and equipment and how to safely perform vehicle electrical service and maintenance operations. Students also have the opportunity to perform minor repair work on hybrid and high voltage vehicles to complete required tasks. The completion of this Certificate requires 75 hours of work experience in the electric automotive industry.
