Participatory/Shared Governance General Principles

Introduction

Participatory/Shared governance at the Rio Hondo Community College District is achieved in the spirit of cooperation, collaboration, and collegiality. It promotes the Vision, Mission, and Value Statement as well as the Code of Ethics statement (see appendix) of the College and ensures their achievement through policies and procedures, via a structure of councils, committees, and task forces that have effective processes of planning, implementation, and evaluation.

The purpose of the Rio Hondo Community College District participatory/shared governance structure is to provide each constituent group the opportunity to participate in the planning process and initiatives, as well as to develop, review, and revise policies and procedures through their representatives. Functionally, this is accomplished by councils, committees, and task forces created to formalize collegiality, to facilitate collegial communication, and to resolve issues as close to the point of origin as possible. This structure provides an opportunity for the perspectives of constituent group interests to be considered.

General Principles

1. All decision making is based on a recognition that the Rio Hondo Community College exists to educate students.
2. All constituent groups have a vested interest and a role in ensuring that Rio Hondo College fulfills the mission defined by the legislature, the State Board of Governors, and the Board of Trustees of the Rio Hondo Community College District.
3. Participatory/Shared governance is a method of organized and collegial interaction in which faculty, staff, and students participate in thoughtful deliberation and decision-making, leading to recommendations made to the Superintendent/President, who represents the administration of the District as an agent of the Board of Trustees.
4. Mutual agreement is the goal to be achieved through active participation and collegial interaction by all constituent groups.

Participatory/Shared Governance General Principles

5. The most effective means of developing policies and procedures is to provide opportunity for involvement by the constituent groups affected by the implementation of these policies and procedures.
6. In academic and professional matters, as defined by AB 1725, the Superintendent/President will rely on the advice of the Academic Senate in reaching mutual agreement.
7. Representatives of constituent groups involved in the participatory/shared governance process have the responsibility to keep their respective groups informed of the proceedings and recommendations of governance groups.
8. Individuals not serving as representatives have the opportunity to share concerns with the elected representatives of their constituent groups, with the anticipation that their views will be represented in governance councils, committees, and task forces.

Membership

The Rio Hondo Community College District management, faculty, classified staff, and students serve on a variety of constituent group District councils, committees, and task forces. Members of the governance groups of the District are determined by position held or through selection by constituent groups. When the appointment is to be made based on the position held by the individual, the specific position is identified in the composition of the group (e.g., Superintendent/President, Academic Senate President, Classified President, Associated Students of Rio Hondo College President). When the individual is appointed or elected to represent a constituent group, the following processes are followed:

Academic Senate/Faculty Appointments – All Academic Senate/Faculty appointments are made by the President of the Academic Senate.

Classified Staff Appointments – All classified staff appointments are made by the CSEA Chapter President and ratified by the Executive Board of the Chapter.

Student Appointments – All student appointments are made through the Associated Students of Rio Hondo College (ASRHC). Whenever possible, an elected student member will be asked to serve on the District councils, committees, or task forces. When elected student members are not able to serve, faculty, staff, and students are asked to recommend a student representative. Students who are recommended by staff need to be confirmed by ASRHC.

Management/Confidential Council Appointments – All Management/Confidential appointments are made by the Superintendent/President in consultation with the President of the Management/Confidential Council (MCC).

Appointments – Appointments of membership will generally be made in April/May/June to fill positions which will be vacated the subsequent year. Appointments may be otherwise made at any time deemed appropriate by the participatory/shared governance group.

Formal Review Process of Governance Committees

Governance Committee Review Process: Timeframe

- Towards the end of the school year in late spring, each governance committee will complete a review process to determine whether or not it fulfilled its mission, realized its vision, and met its goals for that particular year.
- For the purpose of clarification, all governance committees are those listed in the most updated version of the Governance Manual.

Governance Committee Review: Questions

- This review will include, but will not be limited to, the following questions;
- Were good working relationships between your governance committee and other committees established/continued?
- Was staff preparation adequate to meet governance committee needs?
- Were the meetings conducted in a satisfactory manner?
- What was accomplished and what follow-up was needed?
- What were the governance committee's strengths and weaknesses?
- How are identified weaknesses used to make needed improvements within governance committees and decision-making structures?
- What should be done differently in the following year?
- How effectively did the governance committee decisions feed into the College's Strategic Planning process?
- To what extent did you believe your committee's recommendations were incorporated into College decisions?

Formal Review Process of Governance Committees (cont'd)

Governance Committee Review: Decision Making Model

- Governance committees will conduct their meetings by consensus.

Other Steps of the Governance Committee Review Process

- After having the annual review meeting, the governance committee will send a summary of the survey results to the President's Office so the results of the meeting can be reviewed by the President's Council.
- At the President's Council, there will be an opportunity to discuss the governance committee review summaries. Any edits can be completed or clarifications can be made before updated versions of the review summaries are finalized.
- After the governance committee review summaries are presented, the members of President's Council will be encouraged to share them with their respective constituency groups and with all governance committees.
- The President's Office can include final versions of the governance committee review summaries on the college website under a new link titled "Governance Committee Review Summaries" as well as the college 'p' drive in the Governance Committees folder.
- After these meetings, the chair appointed by each governance committee will complete any necessary follow up tasks that emanate from the review summary.

Governance Committee Membership Roster and Minutes

- Members from each constituency group will be appointed to the governance committees by their respective leadership representatives.
- If there are any changes throughout the semester, the chair of each governance committee will update the roster with appropriate contacts and contact information and will submit the updated roster to the President's Office so that the updated governance manual will reflect current membership.
- If a change in leadership of a governance committee is expected, the outgoing chair or co-chair will meet with the incoming chair or co-chair to share institutional knowledge and to help transition for the following year.
- Minutes of all meetings, retreats, planning sessions, etc...held by governance committees will be maintained by the chair and posted to the committee website, if available.

College Governance and Communications

Every Rio Hondo College constituent group has a designated role and opportunity for its representatives to participate in college governance and a reciprocal responsibility to communicate back to their respective members.

Communication is a two-way process. As participants in the governance process, everyone depends upon their representatives to 1) carry representative ideas and opinions forward and 2) to report back to their constituency, sharing what has been learned and decided in the process.

The Organizational Structure and Governance Manual “provides the District’s administrative organization, the process that ensures effective participation in the planning decision-making process, the College’s councils and committees, and their communication and reporting relationships to the administration.”

The Governance Flow Chart appears on the following page and illustrates the relationship of the constituent groups to the Superintendent/President and the Board of Trustees.

The Superintendent/President meets monthly, with the elected representatives of constituent groups. This is an opportunity for elected representatives to engage in one-to-one dialogue about topics of interest and/or concern. It is also their opportunity to voice opinions, and to seek information.

In addition, there are membership positions designated for appointed representatives on the College’s Councils and Committees described on the following pages.

In addition, College news and information is disseminated in a variety of ways:

- The Focus on Rio is a monthly newsletter, published and distributed electronically to the Board Trustees, all Staff and all Emeritus. The newsletter is also posted on the college website, posted to social media and community groups.
- Press releases developed and disseminated to local media may be posted on the college website.
- The RioConnect is an electronic highlight of news, announcements, and events. All constituency groups have the opportunity to submit questions they would like addressed.

College Governance and Communications continued

- The Annual Report is a yearly compendium of Rio Hondo College updates and achievements, including financial reports, student profile, and highlights of the prior year's activities. It is distributed throughout the Rio Hondo College service area.

Finally, it is appropriate to suggest that elected representatives of constituent groups develop and share information about the communications mechanism they use to fulfill their responsibilities to share information to their respective constituency.

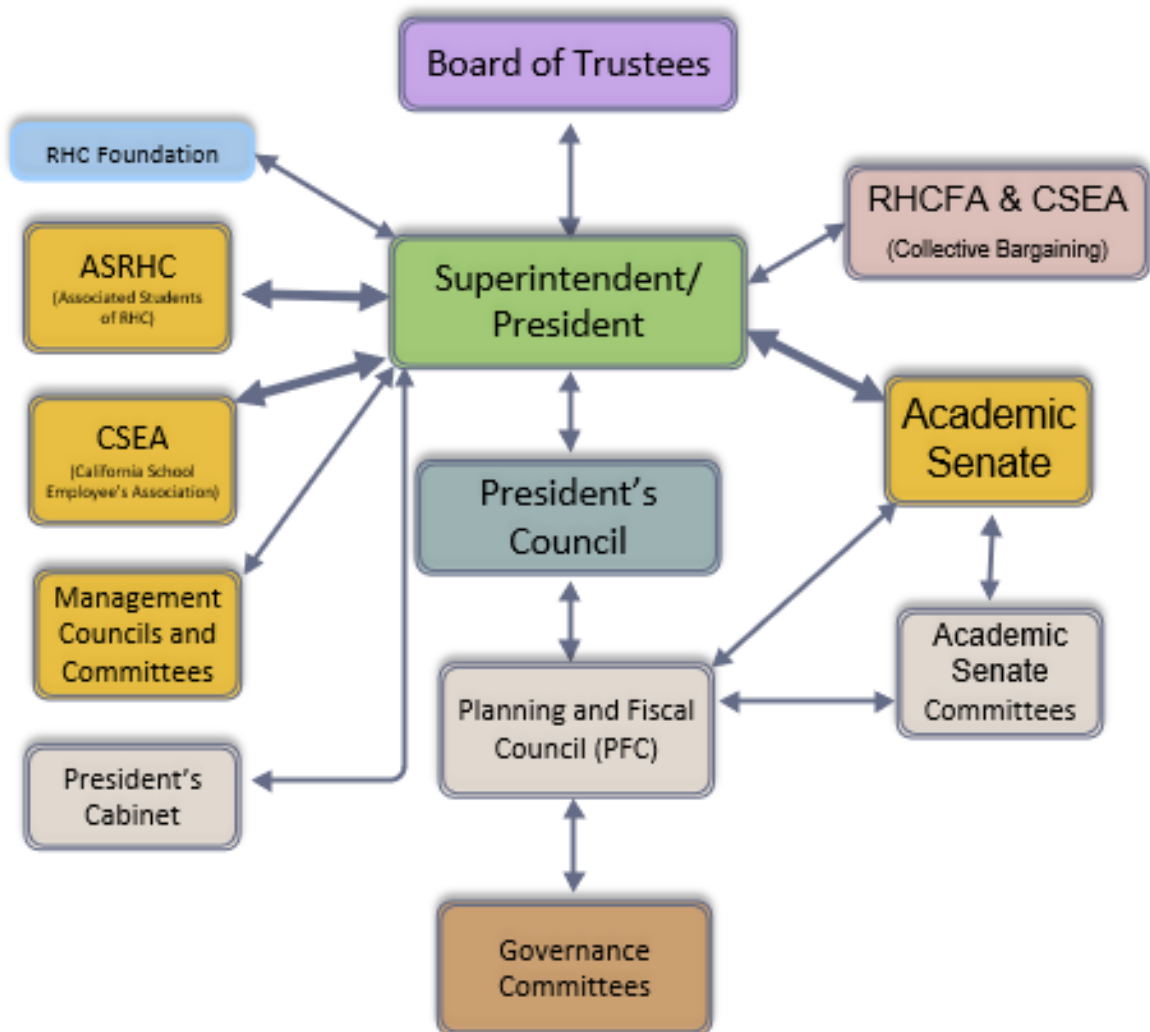

In fulfilling this role, the consituient representatives should reflect upon the following;

- 1.) What reporting mechanisms are in place.
- 2.) To whom do they report/inform.
- 3.) Level of frequency.
- 4.) In which scheduled venues.
