Campus Family,

If like me you're struggling to keep up with the tremendous number of emails promoting valuable professional development webinars and opportunities, the Staff Development FLEX office will be regularly updating our online calendar so that you have one location to refer to for most upcoming events.

This includes both activities sponsored by Rio Hondo such as tomorrow's RTLA Student Equity Webinar with Dr. Frank Harris, as well as state sponsored opportunities such as the Webinar Series on "Racial Equity in Online Environments" organized by the Chancellor's Office and the Center for Urban Education.

Please follow this link view current offerings <https://www.riohondo.edu/staff-development/events/>.

As a note, if you click on the actual event, you will usually find a registration link as well.

We will continue to update this as activities become known to us and will send out an alert when we do so.

Wishing you all well,

Katie
