Create/Edit & Map Course
Outcomes in **Taskstream.**

Enter & Map Outcomes

Collect data for each course
taught during an academic
year, or as offered.

When curriculum is developed
or revised, course outcomes
should be created or edited.

Collect Data

Curriculum

Course Outcomes

Course-Level Outcomes Process

Enter Measure and
Findings, and analysis
(Summary of Findings)
into **Taskstream** once
each academic year.

No Curriculum Revision

Curriculum Revision

Enter Measure & Findings

Determine Action

Continue data collection cycle,
unless curriculum revision required
(every 5 years or as needed).

Based on Summary of Findings, take action to improve
learning outcomes within your course.
