---

The Rio Hondo Community College District (the "District") operates Rio Hondo College in Whittier, California.

On March 2, 2004, the voters of the District approved by more than 55% Measure "A", authorizing the issuance and sale of \$245,581,122 in General Obligation Bonds for the purpose of financing the construction, acquisition and improvement of the capital facilities within the District.

The passage of Proposition 39 in November 2000 amended the California Constitution to include accountability provisions. Specifically, the District must conduct an annual independent performance audit to ensure that funds have been expended only on the specific projects listed as well as an annual, independent financial audit of the proceeds from the sale of the bonds until all of the proceeds have been expended for facilities projects. Upon passage of Proposition 39, an accompanying piece of legislation, AB1908 (Chapter 44, Statutes of 2000), was also enacted, which amended the Education Code to establish additional procedures which must be followed if a District seeks approval of a bond Proposition pursuant to the 55% majority authorized in Proposition 39 including formation, composition and purpose of the Citizens' Bond Oversight Committee, and authorization for injunctive relief against the improper expenditure of bond revenues.

On April 14, 2004, the Board of Trustees of the District established the Citizens' Oversight Committee of the District's Measure A Bond. The Committee shall perform the following duties: (1) inform the public concerning the District's expenditure of the bond proceeds (2) review quarterly expenditure reports produced by the District to ensure that (a) bond proceeds are expended only for purposes set forth in the Measure A; and (b) no bond proceeds are used for any teacher or administrative salaries or other operating expenses and (3) present to the Board, in public sessions, an annual written report which shall include the following; a statement indicating whether the District is in compliance with the requirements of Article AIII, Section 1(b)(3) of the California Constitution; and a summary of the Committee's proceedings and activities for the year.

The following members comprise the Citizens' Bond Oversight Committee as of June 30, 2016.

<b><u>Members</u></b>	<b><u>Title</u></b>	<b><u>Representation</u></b>

## Report of Independent Auditors

**To the Board of Trustees  
The Citizens' Oversight Committee  
Rio Hondo Community College District  
Whittier, California**

### Report on the Financial Statements

We have audited the accompanying financial statements of the Measure A General Obligation Bonds Fund of Rio Hondo Community College District (the "District") which comprise the balance sheet as of June 30, 2016 and the related statement of revenues, expenditures and changes in fund balance for the year then ended, and the related notes to the financial statements.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the District's Measure A General Obligation Bonds Fund as of June 30, 2016, and the changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Other Matters**

As discussed in Note 1, the financial statements present only the Measure A General Obligation Bonds Fund of the District and do not purport to present fairly the financial position of the District as of June 30, 2016, and the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated December 2, 2016 on our consideration of the District's Measure A General Obligation Bonds Fund internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's Measure A General Obligation Bonds Fund internal control over financial reporting and compliance.

**NOTE 1            GENERAL INFORMATION**

The Rio Hondo Community College District (the "District") operates Rio Hondo College in Whittier, California.

On March 2, 2004, the District voters authorized \$245,581,122 in General Obligation Bonds (Measure A) for the purpose of financing the construction, acquisition and improvement of the capital facilities within the District. The measure was approved by more than the required minimum of 55% of the vote. The District's Board of Trustees established the Citizen's Oversight Committee (the Committee). The Committee's oversight duties include ensuring compliance with conditions of Measure A.

The District has established a separate revenue bond project fund (Fund #35) and revenue bond construction fund (Fund #42) to account for the activities of the Measure A bonds, (collectively the Bonds Fund). These activities are limited for the financing of the construction, acquisition, furnishing and equipping of the District facilities and are not intended to be a complete presentation of the District's financial position or results of operations.

**NOTE 2            SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Presentation**

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standard Board (GASB).

**Measurement Focus and Basis of Accounting**

The District accounts for financial transactions in accordance with policies and procedures of the California School Accounting Manual. This manual, according to Section 84030 of the State of California Education Code, is to be followed by all California Community College districts.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Bonds Fund is categorized as a governmental fund type. Governmental fund types are presented using the financial resources measurement focus. With this measurement focus, operating statement presents increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets. The reported fund balance (net current assets) is considered as a measure of available spendable resources.

The governmental fund types use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they are "measurable" and "available"). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. A one-year availability period is used for revenue recognition. Expenditures are recorded when the related fund liability is incurred.

**NOTE 2      SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

**Cash and Cash Equivalents**

Funds invested in the Los Angeles County (County) Treasurer's investment pool are considered cash equivalents. GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, provides that amounts held in external investment pools be reported at fair value. However, cash in the County treasury is recorded at the value of the pool shares held, which approximates the fair value of the underlying cash and investments of the pool.

**Fund Balance**

In the fund financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned or unassigned based primarily on the extent to which the District is bound to honor constraints on how specific amounts can be spent.

*Nonspendable fund balance* - amounts that cannot be spent because they are either (a) not spendable in form or (b) legally or contractually required to be maintained intact.

*Restricted fund balance* - amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

*Committed fund balance* - amounts that can only be used for specific purposes determined by formal action of the District's highest decision making authority and that remain binding unless removed in the same manner.

*Assigned fund balance* - amounts that are constrained by the District's intent to be used for specific purposes. The intent can be established at either the highest level of decision making or by a body or an official designated for that purpose.

*Unassigned fund balance* - the residual classification that includes amounts not contained in the other classifications. The unassigned classification is used only if expenditures incurred for specific purposes exceed the amount restricted, committed or assigned to those purposes.

**Accounting Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**Encumbrances**

Encumbrance accounting is used in all budgeted funds to reserve portions of applicable appropriations for which commitments have been made. Encumbrances are recorded for purchase orders, contracts, and other commitments when they are written. Encumbrances are liquidated when commitments are paid. All encumbrances are liquidated as of June 30.

**NOTE 3      CASH AND CASH EQUIVALENTS**

Cash and cash equivalents as of June 30, 2016 primarily represents investments in the County Treasury.

As provided for by Education Code, Section 41001, substantially all of the District's cash balances of most funds are required to be deposited with the Los Angeles County Treasurer for the purpose of increasing interest earned through the County Treasurer's investment activities.

The County Treasurer is authorized by California Government Code Section 53648 et seq to deposit cash and invest excess funds in time deposits, United States government securities, state registered warrants, notes or bonds, State Treasurer's investment pool, bankers' acceptances, commercial paper, negotiable certificates of deposits, and repurchase or reverse repurchase agreements.

The County pools these funds with those of other districts in the County and invests the cash. These pooled funds are carried at fair value. The fair value of the District's deposits in this pool as of June 30, 2016, as provided by the pool sponsor, was \$31,350,228. Interest earned is deposited quarterly into participating funds. Any investment losses are proportionately shared by all funds in the pool.

The pooled treasury has regulatory oversight from the Los Angeles County Treasury Oversight Committee in accordance with California Government Code requirements.

The California Code and the District's investment policy do not contain legal or policy requirements other than the following provision for deposits. The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under law. The market value of pledged securities in the collateral pool must equal at least 110% of the total deposits by public agencies. California law also allows financial institutions to secure an entity's deposits by pledging first trust deed mortgage notes having a value of 150% of deposits.

In accordance with GASB Statement No. 72, *Fair Value Measurement and Application*, which became effective for the fiscal year ended June 30, 2016, the District categorizes its fair value measurement within the fair value hierarchy that is based on the valuation inputs used to measure the fair value of the investment. Level 1 inputs are quoted prices in active markets for identical investments; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Refer to the District's 2016 Audited Financial Statements for detailed disclosures regarding the District's investment and fair value measurements.

**NOTE 4            INTEREST RECEIVABLE**

Interest receivable at June 30, 2016 in the amount of \$99,436 represents the amount due from the County Treasurer for interest earnings for the quarter ended June 30, 2016.

**NOTE 5            GENERAL OBLIGATION BONDS ISSUES**

On June 3, 2004, the first Series A of the Measure A General Obligation Bonds was issued in the amount of \$58,000,000. The bond, rated "AAA" by Standard & Poor's at the time of issuance, will mature on August 1, 2029 and bears interest rates from 3.00% to 5.25%.

On September 26, 2005, the District's Board of Trustees adopted a resolution to issue general obligation refunding bonds (the "Refunding Bonds") to finance the advance refunding of a portion of the District's outstanding Series A Bonds. On November 3, 2005, bonds in the amount of \$47,117,244 were issued, which consisted of current interest bonds of \$43,750,000 and capital appreciation bonds of \$3,367,244.

Concurrent with the issuance of the Refunding Bonds, the District deposited part of the proceeds in the amount of \$46,371,376 from the Refunding Bonds into an escrow fund securing the respective maturities of the Series A Bonds to be refunded. The remaining portion in the amount of \$4,732,103 was deposited to the revenue bond construction fund. The advance refunding met the requirements of an in-substance defeasance. Accordingly, the refunded portion of the 2004 Series A bonds was removed from the District's financial statements. The defeasance of the 2004 Series A debt resulted in a difference between the reacquisition price and the net carrying amount of the old debt. This difference is reported in the District's financial statements as a deduction from bonds payable and is being amortized on a straight-line basis over the life of the bonds.

On March 11, 2009, the District issued \$64,996,844 of Measure A, Series B Bonds to fund the acquisition, construction, furnishing, equipping and improvement of capital facilities. The Series B bonds which were rated "AAA" by Standard & Poor's at the time of issuances consist of \$60,190,000 Current Interest Bonds and \$4,806,844 Capital Appreciation Bonds. Interest on the Current Interest Bonds is payable semiannually on February 1 and August 1, commencing February 1, 2010. Current Interest Bonds bear interest at rates ranging from 3.0% to 5.0% and the bonds mature on August 1, 2030. Capital Appreciation Bonds bear compounded interest at rates ranging from 6.60% to 6.69% and mature August 2033.

**NOTE 5            GENERAL OBLIGATION BONDS ISSUES (CONTINUED)**

On December 21, 2010, the District's Board of Trustees adopted a resolution to issue \$60,040,980 of Measure A, Series C Bonds for financing of the furnishing, equipping, acquisition, construction and improvement of District capital facilities for some or all of the purposes authorized at the 2004 election. The Series C bonds consist of \$18,806,028 Capital Appreciation Bonds and \$41,234,952 Convertible Capital Appreciation Bonds. Capital Appreciation Bonds accrete interest from the date of delivery, compounded semiannually on February 1, and August 1 of each year, commencing February 1, 2011, and will be payable solely at maturity, with accretion rates ranging from 6.99% to 12.00%. The bonds mature in August 1, 2038. The Convertible Capital Appreciation Bonds will initially be issued as capital appreciation bonds and will convert to current interest bonds on August 1, 2024, the conversion date. Prior to the conversion date, these bonds will not pay interest, but will accrete in value from their initial principal amounts on the delivery date to the conversion date. Capital accretion rates range from 6.625% to 6.850%. Prior to the conversion date, interest will be compounded on each February 1 and August 1, commencing February 1, 2011. No payment of interest will be made prior to or on the conversion date. Following conversion, the bonds will pay current interest based on the conversion value, such interest will be payable semiannually on each February 1 and August 1, commencing February 1, 2025, ranging from 6.625% to 6.850%. The bonds mature August 1, 2042.

The above bond issues represent an obligation of the District payable solely from ad valorem property taxes levied and collected by the County of Los Angeles on properties within the District. The Board of Supervisors of the County of Los Angeles is empowered and is obligated to annually levy ad valorem taxes upon all property subject to taxes, without limitation as to rate or amount, except for certain personal property which is taxable at limited rates for the payment of interest and principal of the bonds.

**NOTE 6            COMMITMENTS AND CONTINGENCIES**

As part of tax laws surrounding tax-exempt bonds, investment earnings, with certain adjustments, on unexpended bond proceeds are limited to the interest rate paid on the bond debt. Arbitrage (i.e., excess investment earnings) is required to be rebated to the federal government every five years for as long as the bonds are outstanding. As of June 30, 2016, no arbitrage liability was deemed necessary.

**NOTE 7            OTHER REVENUES**

On November 23, 2015, the District received settlement in the amount of \$815,131 from an insurance company as a result of the Central Plant project. The settlement was due to the leaks in the pipes identified, which cost the District several gallons of water and chemicals per day, and additional expenses to troubleshoot the problem. Of this settlement amount, \$669,293 was reported in the Bonds Fund.

**NOTE 8      SUBSEQUENT EVENTS**

The District has evaluated events or transactions that occurred subsequent to the balance sheet date through December 2, 2016, the date the accompanying financial statements were available to be issued, for potential recognition or disclosure in the financial statements. The District determined that no subsequent matters required disclosure or adjustments to the accompanying financial statements.

**Report of Independent Auditors on Internal Control Over Financial Reporting  
and on Compliance and Other Matters Based on an Audit of Financial Statements  
Performed in Accordance with Government Auditing Standards**

**To the Board of Trustees  
The Citizens' Oversight Committee  
Rio Hondo Community College District  
Whittier, California**

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Measure A General Obligation Bonds Fund (the Bond Fund) of Rio Hondo Community College District (the District) which comprise the balance sheet as of June 30, 2016 and the related statement of revenues, expenditures and changes in fund balance for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated December 2, 2016.

**Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the Bonds Fund of the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Bond Fund of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Bonds Fund of the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Bonds Fund of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Bonds Fund of the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
