## **1. Background about Río Hondo College:**

Río Hondo Community College District, hereinafter referred to as the District, was established in 1961. The District primarily serves residents of Whittier, El Monte, South El Monte, Pico Rivera, and Santa Fe Springs; residents of unincorporated Los Angeles County; and several cities outside District boundaries. The District provides transfer, vocational, and short-term courses for roughly 15,500 students. The District is fully accredited by Western Association of Schools and Colleges. The District is governed by an independent five-member board of trustees elected every four years by the voters of Los Angeles County. The Superintendent/President of the College serves as the Secretary to the Board of Trustees and is the District's Chief Executive Officer who is responsible for carrying out the policies approved by the Board of Trustees.

## **2. RFP Background and Objective(s):**

Public rights-of-way and facilities are required to be accessible to persons with disabilities pursuant to the following statutes: Section 504 of the Rehabilitation Act of 1973 (Section 504) (29 U.S.C. §794), Title II of the Americans with Disabilities Act of 1990 (ADA) (42 U.S.C. §§ 12131-12164), Title 24 of the California Code of Regulations (Cal. Code Regs., Title 24, Part 10), and the United States Access Board 2011 PROWAG Accessibility Guidelines. These laws and guidelines work together to achieve the accessibility required to permit the inclusion of persons with disabilities in the daily activities of American life. These statutes prohibit public agencies from discriminating against persons with disabilities by excluding them from services, programs, or activities.

The ADA defines “disability” as a physical or mental impairment that substantially limits one or more major life activity, including people who have a record of such an impairment, even if they do not currently have a disability.

The ADA comprises five (5) titles prohibiting discrimination against persons with disabilities within the United States. Title II of the ADA requires state and local governments to make programs, services and activities accessible to persons with disabilities. It also establishes physical access requirements for public facilities (buildings and sidewalks, etc.).

The District is required under the ADA to have an ADA Transition Plan, which will:

1. Identify existing obstacles limiting accessibility.
2. Describe steps that are to be taken to ensure that facilities and the public rights of way are made accessible to all individuals.
3. Specify a schedule for achieving compliance.
4. Identify the official who will be responsible for the implementation of the plan.

In addition, the District must assure access for persons with disabilities to all programs, services, and activities when access barriers manifest in the ways in which programs are implemented through the course of normal business.

Thus, the District must conduct a Self-Evaluation to identify and remove programmatic barriers. A Self-Evaluation is the District's assessment of every program, service, and activity it offers, including its facilities, current policies, practices, and procedures. The Self-Evaluation identifies and corrects barriers to access that are inconsistent with its Title II requirements.

In order to assure compliance with applicable law, the District seeks a proposal for the development of an ADA Self-Evaluation and Transition Plan for buildings, open space areas,

parking lots, and other improvements situated on the District campus.

The District projects that duration of the Work in this solicitation will be 12 to 18 months.

The District has allocated a budget of \$195,000.00.

The District will receive responses to this RFP and, if deemed necessary, may conduct individual interviews in order to select firms, which, in the opinion of the District, are best suited to perform the services for the District as described in the Statement of Work (Exhibit A).

Bidder is hereby informed that this RFP is intended as an informal solicitation of Proposal only. It is not intended, nor is it to be construed as engaging in formal competitive bidding pursuant to any statute, ordinance, policy, or regulation.

### **3. Contract Type / Term:**

The contract type will be lump sum. Any progress/payment schedule will be aligned with what the District has mutually agreed with the selected firm.

if deemed necessary, the District may opt to increase the Contractor's involvement in the awarded contract via an Amendment. Such Amendment, if any, to increase or decrease the dollar value and extend the period of performance shall be at the sole discretion of the District.

The top ranked Bidder(s) may be asked to submit revisions to their proposals for the purpose of obtaining best and final offers. When evaluating best and final offers the criteria described in Section 26 below will be used, as well as the following additional criteria:

An Evaluation Team will review the merits of proposals received in accordance with the evaluation criteria stated in the RFP and formulate a recommendation. While a numerical rating system may be used to assist the Evaluation Team in selecting the competitive range (if necessary) and making an award recommendation decision, the award decision is ultimately a business decision that will reflect an integrated assessment of the relative merits of the proposal using the factors and their relative weights disclosed in the RFP.
