

# **Student Learning Outcomes Committee**

## **Meeting Agenda**

### **April 2016**

Members: Lupe Alvarado; Jose Arroyo; Robin Babou; Janet Cha; Fran Cummings; Karleen Curlee; David Dawson; Rachel Garcia; Howard Kummerman; Aimee Ortiz; Barbara Salazar; Adam Wetsman

- I. Update on TK20 – Adam Wetsman and Howard Kummerman reported that TK20 will be ready for use with SLOs in the fall. The planning piece will be operational and the SLO portion should be as well. There may be some information that is lost in the transition over such as rubrics. Once the system is ready for beta testing, we will know more about what functionality will be possible. There is still some uncertainty about what kinds of reports can be generated using the system.
- II. Pilot survey (<https://www.surveymonkey.com/r/P3MCR5R>)
  - a. Results from Anthropology department – Adam Wetsman reported that he attempted to survey the anthropology faculty, but only a few people responded and the responses were not all that complete.
  - b. Other departments – Other departments were not given the survey. There was discussion about revisions to the survey for use at the Fall Flex Day.
- III. Proposed workshop for May meeting – The Committee agreed that the May meeting should be devoted to a workshop to help people with SLO work.
- IV. Moving forward – Several suggestions were made about what future steps should be taken with SLOs. One is to have a quality check for SLOs. We also need to do more work the general education, course, and program level SLO integration. Finally, there was discussion about institutional SLOs.
- V. Adjournment
