

SUPERINTENDENT/PRESIDENT'S OFFICE

Dear Campus Community,

April 22, 2020

As promised, we are following up on today's earlier message regarding the student who is experiencing flu-like symptoms. The student has only been enrolled in online courses this semester. Based on recent information, we confirmed that he has definitely not been on campus since we moved instruction and services to remote modalities. We now understand the student called the College on the phone to ask for assistance. The College has also confirmed that the student has not been tested for COVID-19. As is customary, we will follow up with the student to assist him in every way possible.

The College continues to be vigilant and responsible in informing the campus community of any reported cases in the spirit of transparency, openness and safety. While we regret any inconvenience, we prefer to err on the side of more information in our effort to keep our students, faculty, staff and managers safe.

Thank you for your patience during this time.

As always, if you have any further questions, please contact my office.

Sincerely,

A handwritten signature in black ink that reads "Arturo Reyes".

Dr. Arturo Reyes
Superintendent/President
