

SUPERINTENDENT/PRESIDENT'S OFFICE

December 17, 2020

As a District, we are vigilant in taking every precaution to prevent the spread of COVID-19. With the recent surge in cases especially in Los Angeles County and hospital capacity increasing, it is of utmost importance to maintain the safety of our staff. Next week, December 21-23, 2020 the campus will shift to remote work for the majority of Administration and Classified staff. Your supervisor will direct you accordingly, as those who are deemed essential and need to be present on campus to maintain the necessary operations will be allowed to do so.

Next week, staff will be in the President's Office from 9AM-12PM should you need assistance.

Please continue to follow CDC guidelines and stay home to protect yourself and your families.

Teresa Dreyfuss
Acting Superintendent/President
