

OFFICE OF HUMAN RESOURCES

DATE: March 15, 2021

TO: All Staff

SUBJECT: **COVID-19 Vaccine Update from LA County Dept. of Public Health**

The Los Angeles County Department of Public Health (LACDPH) just announced that they have reserved an allocation of COVID-19 vaccine doses for Institutes of Higher Education staff for this Friday, March 19, 2021. Appointments can be accessed on the My Turn website at: <https://myturn.ca.gov/>. Note, there is no access code needed to sign up for your appointment.

Due to limited supply, Institutes for Higher Education appointments are expected to fill up rapidly. If full, all staff who live or work in Los Angeles County also have access to vaccination appointments through community vaccination sites across the county and through their health care providers. Please visit [VaccinateLaCounty.com](https://vaccinate.lacounty.gov/) and click on "How to Make an Appointment" for more information. It is important to remember that while educators are now eligible to receive the vaccine, we are still dealing with vaccine scarcity and limited supply in LA County.

As more updates become available from the LACDPH, we will share that information with you.
