Immigrants Rising will hosting a virtual conference that will bring together legislators, administrators, educators, students, and community members from across California to celebrate the successes created through AB 540! Join to commemorate this important legislation and highlight institutional support efforts — as well as build a statewide plan to reduce barriers and propose legislative solutions.

The Student Success and Dream Center will be displaying a virtual art gallery of stories, statements, poems, paintings, and other forms of art to show the feelings and emotions of our undocumented students. We aim to bring awareness of what our undocumented students go through.

The Student Success and Dream Center will be hosting its UndocuFamily Night! We will have informative information about immigration and mental health. The event is open to the families and community.

The Student Success and Dream Center will be hosting UndocuTalks. We will be discussing topics ranging from identity, social justice, activism, society, personal development, mental health, the undocuhustle, and much more. Students will then have the opportunity to share their own stories, let their voices be heard. Faculty and staff will also learn about some of the challenges undocumented students experience.

The Student Success and Dream Center will be having an Undocumented and Unafraid Panel, where graduate students will be sharing their experiences and how they manage to navigate the educational system as undocumented students.
