Students may change one (1) standard letter grade class each semester to PASS / NO PASS. The credits earned may be counted toward graduation requirements, but will not be computed in the grade point average. PASS is defined as a "C" grade or better. NO PASS is defined as less than satisfactory ("D" or "F").

It is important to meet with a counselor to determine if making this change will affect your transfer eligibility. ***This petition is FINAL once the P/NP deadline has passed.*** This form must be submitted to the Admissions and Records Office no later than the first 30% of the semester. Please see the current class schedule for specific dates.

- I request to take the above course for Pass/No Pass instead of a standard grade. I have read all of the information above and understand this request cannot be reversed after the deadline.
