**Bulletin No. 1 - OPTIONAL ADDITIONAL SITE VISIT**

**RFP No. 2124 – Turnkey General Contractor Services for Photovoltaic (PV) and Battery Energy Storage System (BESS), Electrical Vehicle (EV), and Hydronic Infrastructure Piping Project**

To all Interested Vendors,

During the Mandatory Pre-Bid Meeting and job walk held on Friday, October 23, 2026, access to the underground piping distribution network through the manhole located outside the central plant was not possible because the equipment needed to remove the manhole cover was unavailable at that time.

To give interested vendors the opportunity to review the existing underground piping system, Rio Hondo College will host an additional site visit as follows:

**Date:** Friday, October 30, 2026
**Time:** 10:00 AM (PST)
**Location:**
Central Plant in the Facilities Yard
Rio Hondo Community College District
3600 Workman Mill Road
Whittier, CA 90601

Please note:
1. This site visit is OPTIONAL. Attendance is not required, and this Bulletin is not an Addendum to RFP No. 2124.
2. Attendance or non-attendance at this visit will not affect a vendor's eligibility to submit a proposal or the evaluation of any proposal.
3. This visit is limited to viewing the underground piping distribution network.
4. Statements made during the site visit are informational only and do not modify the RFP. Questions must be submitted in writing by the deadline below; any resulting changes to the RFP will be issued by formal Addendum.

Sincerely,

Diana Y. Vasquez
Director - Contract Management and Vending Services
